REVIVAL—CHURCH OF GOD MISSION.

Yesterday afternoon, at the Church of God Mission, Evangelist J. Edward Campbell preached on the subject, "The Favour of God," and in the evening, "Must We Sin?"

To-night he announces his subject to be, "What is Your Life?"

Mr. Campbell wishes to state that he stands for the following things:
(1) A clean Church.
(2) Unity of God's children.
(3) An unadulterated Gospel.

A hearty invitation is extended to the public generally to attend these services, and especially to those who stand for God's work just as it is, as opposed to the encroachments of Higher Criticism and the distortions of false religionists.

Come and be convinced that the Evangelist stands for both a sane and sound Gospel.

Services at 7.45 at Corner Hunter and George Streets.

Feldeman, L. D. MacCallum, R. W. Black, F. H. McGregor, J. O. Gibbs, R. Smith and W. Murdoch of Toronto, G. H. Stevens, Three Rivers, and F. E. Nichol of Killam, Alta.

At the White House—P. F. Christie, Montreal, W. J. Shaw, F. Trevers, and W. Jefferson, of Toronto, N. Cause, Oshawa, V. Jackson, Warsaw, W. McDonald, of Belleville, and F. W. Brown, Kemptville.

CONCERT BY PETERBOROUGH MALE VOICE CHOIR.

Music lovers of Peterborough and the surrounding community will be interested in the announcement that the Peterborough Male Voice Choir will give its first concert in the Grand Opera House on April 5. This organization, which is unique in the annals of Peterborough, musters over 50 male voices, and is under the direction of Mr. J. H. Renwick, musical director of George Street Methodist Church.

The choir will be assisted by two of the leading artists of Canada—Miss Pearl Newton, of Toronto, well-known elocutionist, and Mr. Boris Hambourg, celebrated 'cellist. Mr. Hambourg is a director of the Hambourg Conservatory of Music.

Further details will be announced in the next few weeks.

MORRISON MENTIONED FOR PREMIER, BUT "LINCOLN" IS MAN

HON. PETER SMITH DELVES INTO INNER HISTORY OF U.F.O.—DRURY "ABE LINCOLN."

(Canadian Press.)

ST. MARYS, Ont., Feb. 21.—The Hon. Peter Smith, in his address at the opening of the new U.F.O. clubrooms here on Saturday afternoon, touch briefly on the Drury-Morrison controversy, declaring it was an unfortunate affair. Premier Drury, he said, has the absolute confidence of the Government, and he characterised him as the "Abraham Lincoln of Ontario."

Mr. Morrison, he said, had been offered the Premiership, but had refused. There had been much unpleasantness over the matter.

Mr. Smith criticised the Farmers' Sun, declaring it was not the official organ of the Government. The Government, he declares, needs the votes of the whole people, and not alone of the U.F.O.

SOCIAL AND PERSONAL

Miss Lillian C. Shevlin has returned to the city after spending the past two months in Montreal.

Miss Alma Tobin, of Toronto, is spending the week end with her parents, 193 River Road.

Miss Dorris Price, daughter of Mr. and Mrs. T. Price, 277 Stewart Street, has returned home, having completed a three years' course at Harper Hospital, Detroit, Mich., obtaining her diploma.

On February 16th, Mr. and Mrs. James Wilson of Smith township, were the involuntary hosts of a surprise party given them by about seventy of their neighbours and friends on the occasion of their removal to Otonabee. A very jolly evening was spent in songs and instrumental selections, followed by an oyster supper.

Rev. George Moore of Niagara-on-the-Lake, is visiting his uncle, Mr. J. White, Aylmer street.

Miss Effie Fowler, 159 Hunter street east, spent the week end with Rev. and Mrs. A. McLauchlin, Pontypool.

Mr. D. H. Moore, Brock street, returned to the city on Saturday evening after two months' sojourn in Florida.

Mrs. F. P. McNulty and Miss Marcelle have gone to Toronto. They will return on Tuesday evening.

Mrs. Robt. Harstone went to Toronto yesterday afternoon. She will be away from the city for about two weeks, and during her absence, expects to attend the convention of the Executive of the National Council of Women, which meets at Niagara Falls on the 23rd, 24th and 25th of this month.

MURDER TRIAL OF SPRACKLIN IS TO-MORROW

(Canadian Press)

WINDSOR, Feb. 21.—The public will not be excluded from the court room at Sandwich during the Spracklin trial which will commence to-morrow morning provided the Grand Jury returns true bills. this afternoon, Sheriff Anderson explained the statement of Saturday pointing out that owing to limited accommodation care would have to be taken that all officials and press reporters were first provided for. No persons would be allowed to stand.

Sir William Mulock the presiding judge, arrived this morning and on learning that reservation had been made for him at a Detroit Hotel stated that while administering His Majesty's law he would not take quarters in a United States Hostel. He will be accommodated in a Windsor Hotel.

At the close of the service in Sandwich Methodist Church last night, Rev. J. O. L. Spracklin expressed the hope that he could be with his congregation again next Sunday, but admitted that it would depend upon the finding of the court. He referred to numberless reports which had appeared concerning him since the shooting many of which presented him in an unfavorable light. He felt that misrepresentation was something which everyone must reckon with and for that reason he had decided not to comment upon the matter at any length until the trial was over. The minister will be represented by R. L. Backlin, W. C. Lammish and J. M. McEvery, London. J. W. Curry, K.C., Toronto will act in an advisory capacity. A. Munro Grier, Toronto, is crown prosecutor.

MASQUERADE CARNIVAL FRIDAY NIGHT

DRESS UP IN A FANCY OR COMIC COSTUME AND ENJOY YOURSELF AT BROCK STREET RINK FRIDAY NIGHT.

An old-time Masquerade Skating Carnival, with up-to-date attractions will be given in the Brock street rink on Friday evening, by the Peter Robinson Chapter, I.O.D.E. A Skating Carnival, with its varied assortment of costumes, comic and fancy, in years gone by, has been quite an attraction to both skaters and spectators and its revival this year should see large crowds, both participating in the event as costumed skaters, or as interested spectators.

A list of prizes is being prepared and will be on exhibition in one of the store windows.

If you wish to have an extremely fine night's entertainment, get into your fancy or comic costume, and attend the Carnival on Friday night of this week at the Brock street rink

OBITUARY

NORMAN ALLISTAIR JOHNSON.

The death occurred on Sunday night of Norman Allistair, from pneumonia, of the infant son of Mr. and Mrs. H. W. Johnson, 215 Murray street. The funeral took place this afternoon to Little Lake cemetery.

HENRY BLACK.

After an illness extending over the last two years, Mr. Henry Black died in St. Joseph's Hospital on Sunday morning. The deceased was formerly a resident of Campbellford, but has resided in the city for the last two years. He was born in County Antrim, Ireland, sixty-three years ago. He leaves to mourn his loss his wife, his daughters, Sister Josepha of Mount St. Joseph Convent, the Misses Mary, Agnes, Clara and Rose at home, and his sons—J. J. Black, of Scotsguards, Saskatchewan, Harry at St. Michael's College in Toronto, John, Leo and Alexander, of Peterborough. The late C. J. Black, B.A., was also a son.

The funeral will take place on Tuesday morning at 9 o'clock from the Sacred Heart Church to St. Peter's Cemetery.

MRS. M. L. BAILEY.

Mrs. M. L. Bailey, widow of the late Mr. Hugh Bailey, of Cambray, passed away yesterday morning at her home, 186 Reid street. The deceased was 66 years old, and had been ailing for nearly a year. She contracted a chill in the early part of last week from which pneumonia developed. She leaves to mourn her loss four sons and four daughters, with nine grandchildren. The sons are Messrs. Thomas, of Star City, Sask.; Edward, of Sundridge; Will, of Cambray; and Victor, of Toronto. The daughters are, Mrs. W. H. James, of Cambray; Mrs. A. J. Birchard and Mrs. George Burnell, of Lindsay, and Mrs. Alex. Gillis, of Peterboro. She was a member of the Presbyterian church, and funeral services will be held at 186 Reid St., this evening at 8:30. Funeral will take place to-morrow at Woodville, leaving here on the 8:20 train.

MR. JOHN DOUROS.

Mr. John Douros, a cousin of Mr. Nick Douros, of the Albion Sweets, who formerly kept a fruit and fish store at 376 George street, died in Guelph Hospital yesterday morning after an illness of about two months' duration. Mr. Douros is survived by a brother in Kitchener, a brother in Greece, and a sister in Pittsburgh, Pennsylvania. He came from Greece in 1900, and spent a great deal of time in the United States before locating in Canada. The deceased was 43 years old.

DYNAMITE BAKERY IN FOREIGN PART ST. CATHARINES

EFFORT ABORTIVE, BUT SOME DAMAGE WAS DONE.

ST. CATHARINES, Feb. 21.—About three o'clock yesterday morning, the Facer Street district and nearly all the rest of the city was awakened by a tremendous explosion which shook nearby buildings and smashed panes of windows. It proved another bomb outrage, efforts having been made to blow up the Co-operative Bakery on Facer Street which is owned by Russian Poles and one or two Canadians. A year ago the same building was attacked, the whole front being blown to pieces.

How the Trade Name Fixes Responsibility for Your Fur Purchase
¶ Furs were used by the primitive peoples of the earth, yet people to-day know less about them than almost any other commodity. Even the buyer for a great departmental store with all his special knowledge is likely to order Furs without full consideration of the services expected of them.
¶ Looking back over nearly a life-time spent in the selection, purchase and manufacturing of Furs, we can see what mistakes as well as benefits have been in evidence by the care or lack of care, exercised in purchasing a Fur garment that has certain demands to be made of it, either in wear, style, comfort or continued newness of appearance. This service we can supply to you:—The best qualities of the different species and the best Furs for a given purpose.
¶ When you buy Furs for any purpose, no matter how valuable or inexpensive, you can look at this trade mark and know that you are getting a standard article of known merit according to its representation to you. A guarantee is only valuable to the extent that it's backed up by the spirit of the institution back of it.
¶ Just now we strongly advise the purchase of your present and next season Fur needs. Our "Pre-war Sale" ends February 28th—a sale of Fur garments and Fur sets, based on the "slump prices" on Raw Fur skins five to six months ago. These have now advanced from 20 to 50 per cent. owing to scarcity of choice Raw Furs, and this compels us to advance our prices after March 1st.

DOMINION ALLIANCE CONVENTION IN TORONTO TO-DAY PLANS A "BONE DRY" ONTARIO.

2,000 ARE PRESENT

TORONTO, Feb. 21.—(Canadian Press.)—Nearly two thousand temperance stalwarts, men and women from all corners of the province, assembled here to-day to forward their plans to make Ontario "safe for prohibition." The occasion is the annual convention of the Ontario branch of the Dominion Alliance.

The principal topic for discussion will be plans for assuring an overwhelming "dry vote," when the provincial plebiscite to prevent the importation of intoxicants from "wet" provinces is placed before the electors of Ontario in April next.

In addition the convention will discuss tightening and better enforcement of the Ontario temperance laws to prevent the smuggling of liquor to the United States by any of the border points.

LOCAL FAIR BOARD VISITS LINDSAY

HAVE FRIENDLY VISIT AND DISCUSS THE QUESTION OF DATES FOR NEXT FALL FAIR.

President R. Denne, of the Peterborough Industrial Exhibition Board, headed a delegation of directors to Lindsay yesterday, where they were in conference with the directors of the Lindsay Fair Board over the question of dates for both Fairs for next fall, which are still in abeyance.

The meeting was of the most friendly nature, and it was elicited that both Fairs have eyes on the same set of dates.

The Peterborough end of the discussion was handled by President Denne, Vice-President R. H. Turner, Mr. Vincent Eastwood, Mr. G. O. Cameron, Superintendent T. Brown, Mr. E. B. Fowler, and others; while Lindsay interests were looked after by President John Carew, Bert McLean, Mr. Begg, Mr. J. D. Flavelle, and other members of their Board.

Both Boards evidently feel they have an attack of growing pains, as each speaker brought out arguments in a most enthusiastic manner as to the present high standard and future prospects of the Fair he represented.

After the discussion was all over, the Peterborough Fair Board were taken out to lunch as guests of the Lindsay Board.

President Denne will report the conference to the full Peterborough Board, which will deal with the matter at an early date.

TURMOIL AGAIN IN THE BALKANS

MONTENEGRO REPORTED TO HAVE DECLARED WAR ON SERBIA.

LONDON, Feb. 22 (Canadian Press).—A wireless message from Berlin to-day says that according to a Swiss report, the Montenegrins have declared war against the Serbians.

Two Serbian regiments have occupied Cettinje, Montenegro, and the situation is grave, the message says.

POOR EYES MEAN POOR WORK.

Robbed of Trousers by Negro In Raging Manhattan Storm

NEW YORK, Feb. 22.— Those citizens who thought criminals had reached the ultimate defiance of law when one ruined a policeman's nap by trying to rob a police station were mistaken. Yesterday a hold-up man went further. He took the victim's bank roll and then annexed his shoes, his socks and his trousers.

Shortly after 2 o'clock in the morning Franklin May was plowin galong through Fortieth Street, between Eighth and Ninth avenues. His head was down, his coat collar up, and he was beating his way against the blizzard toward his home at 242 West Forty-eighth street.

As May passed a tenement hallway a negro came out and hit him on the neck with a blackjack. The upturned collar lessened the force of the blow and May merely staggered. Then seeing his assailant he put his hands above his head.

The negro took $50 and some valuable papers from May, then leaned toward him and said with a grin,

"Ah've got to play safe, mistah. If you-all got any respect fo' yo' haid, you'd bettah git dem shoes off mighty quick. Den you jes' crawl out of yo' pants and take off dem socks!"

May was amazed. He hesitated.

"Ah said," remarked the negro, "ah said—crawl. C'mon, peel yo'sel' outen them clothes."

May obeyed, but as the negro started off with his loot the victim began to yell:

—"Police! Stop, thief!"

—Racing along in his bare feet May caught the attention of Policeman Joseph McKay of the West Thirtieth Street Station. McKay saw the negro, who doubled on his tracks. May tackled the negro and the two fell into a snow drift. The negro freed himself before McKay came up, and disappeared in the hallway of 229 West Fortieth Street.

While May stood watch at the door, McKay climbed the stairs, firing three shots on the way up.

Back of a chimney on the roof of 233 West Fortieth Street McKay found a man. They fought all over the roof, but finally the prisoner was subdued.

Charged with assault and robbery, the negro said he was Adolphus Temple, 30, a cook, of 22 West Twenty-ninth Street. Magistrate Bernard A. Rosenblatt in Jefferson Market Court held him in $5,000 bail for the action of the Grand Jury. May in court commended the way McKay had performed his duty and Magistrate Rosenblatt said he would write a letter to Commissioner Enright.

SALES PAVING WAY TO SOUND BUSINESS NOW

TEMPORARY PERIOD OF DEPRESSION SHOWS SIGNS ALREADY PASSING, EXCEPTING A FEW LINES.

PUBLIC ARE BUYING

The old proverb that "'tis an ill wind that blows nobody some good," might be reversed and read the other way round. Here we are, with a mild winter on our hands, and everybody thankful, forgetting the poor coal dealers and the druggists, who have suffered to a great extent financially on account of the fine weather conditions, the crop of colds, and rheumatism, even of influenza and smallpox being lighter this year than in winters of severe cold. However, with spring coming on, there will doubtless be a good sale of tonices as usual ,and many retailers are stocking up. We note that prices have declined in acids, camphor, elm bark and bismuths.

An Optimistic Outlook.

Dry goods are looking up, at the present time. One large Toronto firm reports an advance of $35,000 in its sales last month over the same month a year ago, and, according to one manufacturer of women's clothing, this factory is working full time with a complete staff and the retail trade also is good. Woollen manufacturers regard as encouraging the increasing inquiries for goods. The male section of the public also seems to have resumed its buying of clothing. Easter comes much earlier than usual this year, and the feeling of an early spring which is in the air is regarded as a stimulant to trade. Although we were recently in conversation with a gentleman who wore a suit of clothes, a pair of boots and hat, none of which was less than five years old ,all being in a good state of preservation, we do not think there are many specimens of this sort walking around, and in fact a local dealer makes the statement that his sales for January and February, ordinarily dull months, were much better than usual

The slogan adopted for 1921 by the Columbia Graphophone Company of Toronto, a plant with 235,000 square feet of floor space, is "Full Steam Ahead," and they regard the coming year as a period of growth.

Rolled Oats Sales Increasing.

The grocery business is due for a boost soon also. The retailers who stopped buying some months ago on account of an expectation of lower prices will be compelled very shortly to replenish their depleted stocks. A prominent wholesaler makes the remark that prices may go down a little lower, and gives as an indication that people are going back to cheaper lines of living the fact that their rolled oats sales have doubled within a year.

Shoe prices also, which went up about 100 per cent, in war time, and have since suffered a reduction of about 25 per cent., may go still lower. The rubber trade is in a peculiar condition. In 1914 a yard of duck, used in the making of rupber footwear, cost 16 cents. This year, it costs the manufacturer $1.15 per yard. Thus while the bottom has fallen out of the rubber market, cot-

Contined on page eight.

U.S. CABINET BEGINNING TO ASSUME SHAPE

HERBERT HOOVER AND JOHN J. DAVIS PRACTICAL CERTAINTIES FOR PORTFOLIOS, BELIEVED.

OTHER SEVEN SURE

(Canadian Associated Press.)

ST. AUGUSTINE, Fla., Feb. 22.—Herbert Hoover, of California, and John J. Davis, of Pennsylvania, virtually have been chosen for membership in President-elect Harding's Cabinet, leaving open but one place, which now seems certain to go to a "dark horse."

ST. AUGUSTINE, Fla., Feb. 22.—A tentative offer of the portfolio of commerce is understood to have been made to Mr. Hoover. The general expectation here is that the former food administration will accept. Mr. Davis, former steel worker and now banker, is to be Secretary of Labor if the Cabinet slate goes through as it now stands. It is believed no final offer has been made to him although he has been asked to hold himself in readiness for the appointment. It became known to-day that all of the seven Cabinet selections previously rumored as virtually certain has been finally put into the class of certainties.

ST. AUGUSTINE, Fla., Feb. 22.—(Canadian Associated Press)--President-elect Harding completed his cabinet slate to-day by the virtual selection of Edwin Denby, Detroit, as Secretary of the Navy. The choice was the first big surprise among the selections. Mr. Denby is an Attorney and former Congressman and has served as an enlisted man in both the Navy and Marine Corps.

STATES DEMAND EQUAL RIGHTS

SEND NOTE TO LEAGUE COUNCIL OVER OPPORTUNITIES IN MANDATE TERRITORIES.

WASHINGTON, Feb. 22.—(Canadian Associated Press). — The United States Government has presented directly to the League of Nations Council its demand that all allied and associated nations be given equal opportunities in mandate territories

The State Department announced to-day that a note virtually identical with one sent to the British Government last November, had been dispatched to the council, in session in Paris. The decision to act in this question not withstanding the early change of administrations was predicated upon the understanding that the council contemplated immediate action on mandates such as those in Mesopotania and Palestine.

CALEDONIAN CLUB MEETING TO-MORROW NIGHT.

A special meeting of the Ladies' Auxiliary of the Caledonian Club will be held in Woodmen of World Hall on Wednesday evening at 8 o'clock. Scotch ladies invited.

GREEKS ARE OPPOSED TO CONCESSION

PREMIER REPORTED TO HAVE INSTRUCTIONS TO DECLINE TO COMPROMISE REGARDING GREEK RIGHTS.

TURKISH LEADER ILL

PARIS, Feb. 22.—(Canadian Associated Press.)—M. Kalogeropulos, Greek Premier, who is in London to attend the Near East Conference, is said by the newspapers here to have received a telegram from King Constantine last night, instrucing him to decline to compromise with the Allies or Turks regarding the rights of Greece in Thrace or Asia Minor.

LONDON, Feb. 22.—(Canadian Associated Press.) — The Turkish delegation to the Near East Conference here will not attend a meeting which was planned to be held with the Allied leaders this afternoon for discussion of the situation, it was announced to-day. Tewfk Passa, head of the delegation sent by the Constantinople Government, was ill in bed with a chill, it was stated.

AMBASSADOR DELAYED BY HEALTH OFFICERS

SIR AUCKLAND GEDDES DETAINED WHILE SHIP AT QUARANTINE.

NEW YORK, Feb. 22.—(Canadian Press.) — Sir Auckland Geddes, British Ambassador, returning to his post at Washington after an official visit to London, was detained for several hours to-day aboard the Aquitania at quarantine, while health officials were making their routine search for typhus suspects. Automobiles were waiting at the Battery to convey Sir Auckland and his party to the Pennsylvania station. The coastguard cutter Manhatten lay near the Aquitania, and was ready to take off the Ambassador as soon as the first cabin passengers were examined.

TRAIN TOPPLES INTO NIAGARA

TWO MEN KILLED AND TWO OTHERS INJURED ON HYDRO CONSTRUCTION WORK.

NIAGARA FALLS, Feb. 22. — (Canadian Press.)—An electric engine collided with a "dinky engine" at the Hydro development work near the Whirlpool Rapids this morning and the engine and work cars toppled over the steep bank of the Niagara River toward the Gorge. George Young, of St. Catharines, and I. C. Austin, of the Hydro camp, were crushed under the engine and instantly killed. Two others were injured, but will recover. Shortly before this accident a man, name not available at present, sustained a fall and injuries in a collision with a dump cart which he works. He died shortly afterwards.

HOME RULE IN EFFECT APRIL

PRIVY COUNCIL DECIDES TO MAKE ACT EFFECTIVE EARLIER THAN BELIEVED.

LONDON, Feb. 22. — The Privy Council has decided that the Home Rule Act for Ireland shall go into effect on April 5.

The first step under the Act is to be the issuance of writs for elections to the new parliaments, which probably will take place three weeks afterward. The Belfast Parliament will assemble in June.

The present prospects seem to be that few candidates will come forward for the Southern Parliament, and it seems doubtful whether this parliament will be formed.

COSSACKS ATTACK TROTZKY'S TRAIN

RIGA, Feb. 22 (Canadian Press.) —A report from Moscow to-day says that Cossack troops attacked the railway train of Leon Trotzki, Soviet War Minister, as he was travelling along the Moscow-Orneburg Railway.

Several of the Minister's trainmen were wounded, it is said.

DISAPPROVE CONCERT ON SUNDAY EVE

THE CITY COUNCIL OFFICIALLY FROWNS ON THE PROJECT AFTER HEARING DEPUTATION'S PLEA.

COMMITTEE APPOINTED

Official public disapproval of the Sunday night concerts which the management of the Grand Opera House have announced to begin next Sunday was formally expressed by the committee of the Whole Council last night in the following resolution moved by Ald. Gordon and seconded by Ald. Whitehouse: "That a committee be appointed, composed of Mayor McIntyre, Aldermen Jones, Whitehouse, Crowe, Hamilton and Gordon to make representations to those interested to desist from carrying on the proposed Sunday evening concerts."

Unanimously adopted, this resolution was the Council's response to a deputation from the Ministerial Association, including Rev. Messrs. Grobb, Malott, Ross, Chapman, Young, Rollins Pogue and Webb.

Rev. James Rollins who introduced the deputation, referred to the action taken by the Ministerial Association, who were strongly opposed to the Sunday night concerts, believing that they were subversive of all the interests for which the churches were working. It had been advertised that the proceeds were to be devoted to charitable purposes, and the fact that the church people of the city were opposed to them might be wrongly interpreted. If the City Council needed financial assistance to carry on its unemployment relief, the church offered to hold concerts during the week and give every cent of the proceeds to the city to be distributed through Relief Officer Miller.

Concerts Unsolicited.

"There is one aspect we must not be understood to be out of sympathy with," said Rev. Mr. Rollins. "The concert is advertised for charitable purposes. None of the officials of the Children's Aid or the Orphanage have asked for assistance. Then the public is informed that the proceeds will be given in aid of unemployment."

The advertisements, Mr. Rollins said, had indicated that all the proceeds from the concerts were to go to charity. Unless the arrangements had been materially changed in the last few days this gave a false impression.' A named percentage of the proceeds was to go to the Opera House and the balance to the Machine Gun band, who are expected in turn to give their share to the unemployed. An offer had been made to Major Miller, officer commanding the Machine Gun Brigade, whereby the use of one of the largest churches in the city would be given for a concert on some night during the week, together with the best musical talent the churches afforded. The churches had also promised to stand behind such an entertainment. The Machine Gun band needed $250, and Mr. Rollins intimated that the concert he proposed would realize that sum. Up to the present, he said, no reply had been received from Major Miller.

Churches Stand Ready.

"We also raise the question that if taking care of the needs growing out of unemployment present too great a demand on the city we offer to put on concerts on week nights and to give the whole proceeds to the City Council to be disbursed through the Relief Officer. We are hoping that that this concert will not be held. And if we can be of any assistance to you we will arrange to hold concerts and would like to have your official present to receive every cent. We don't want to thrust that on you but we also do not want to be misunderstood. Our real attitude is one of helpfulness to those who are in need, and this situation is capable of being presented as though we were heartless to the poor because we are opposing a Sunday night concert, part of the proceeds of which is advertised to be given to the relief of unemployment."

Ald. Gordon asked whether the

Trial of Spracklin For the Killing of Trumble Opened

DISCOUNT ON CANADIAN DOLLAR ..... 15 5-8 CTS.

REV. J. O. L. SPRACKLIN,
Whose trial on a charge of manslaughter, arising out of the shooting of Beverley Trumble at Sandwhich last November, began at Sandwich to-day.

PASTOR-LICENSE INSPECTOR ARRAIGNED ON CHARGE OF MANSLAUGHTER GROWING OUT OF SHOOTING OF BEVERLEY TRUMBLE.

PRELIMINARIES LENGTHY

WINDSOR, Feb. 22.—(Canadian Press.)—Rev. J. O. L. Spracklin, pastor of the Sandwich Methodist church, was arraigned for trial before Chief Justice Sir William Mulock at the Sandwich Assizes this morning, following the return by the Grand Jury yesterday afternoon of a true bill in the charge of manslaughter following the death of Beverley Trumble, proprietor of the Chappell House, in Sandwich last November, when Mr. Spracklin was acting as special liquor enforcement officer for the Ontario government.

It is expected that some considerable time will be consumed in the selection of a jury. The Crown prosecutor, Munro Grier of Toronto, and counsel for the deefnce, R. L. Brackin, of Chatham, have gone very carefully over the petit jury panel to secure information on characterization.

With the largest crowd in attendance that has ever been accommodated in a court room in the Sandwich County Building, Rev. J. O. L. Spracklin appeared, accompanied by his father, brother and father-in-law

Mr. Spracklin was placed in the prisoners' dock, and immediately the Clerk of Court read the forma charge of manslaughter to him.

The pastor-inspector pleaded "no guilty," and elected to proceed with his trial.

The task of selecting the jury was proceeded with. One man was challenged by the Crown, while seven were challenged by the defence. The jury was completed just before the Court rose for adjournment at noon.

Interest in the case was intense, and at an early hour residents of the border cities and adjoining towns flocked to the Court House. At eight o'clock, fully ninety minutes before the case was scheduled to start, the narrow Court Room was crowded to capacity, and the officials locked the doors.

As the hour for the resumption approached, the doors were unlocked, and hundreds thronged into the building. The stairways and corridors were jammed with eagerly struggling people who attempted to force their way into the Court Room. Police were necessary to clear the way for the Grand and Petit Juries when the Court finally opened.

NOMINATIONS FOR BOARD OF TRADE ARE 30

FIFTEEN OF THESE WILL BE CHOSEN AT THE ELECTIONS TO BE HELD ON NEXT TUESDAY.

REPRESENTATIVE LIST

HISTORY PROFESSORS TO MEET IN LONDON

CONFERENCE HELD IN CONNECTION WITH OPENING OF RESEARCH SCHOOLS.

LONDON, Feb. 22.—(Canadian Press.)—Plans for a conference of Canadian, United States and Old Country professors of history in this city during the week beginning July 11 next are being made by the authorities of the University of London. The conference will be held in connection with the opening of schools of historical research now in the course of construction. The main object of the conference will be to exhibit the unique facilities available in London for students of history who are seeking the degree of doctor of philosophy. The programme will consist largely of visits to the Public Record Office, British Museum, Guild Hall, Lambe's, Palace Library and other repositories, the archives of which will be described by expert custodians.

SUNDYA SERVICES AT GEORGE STREET

The Sunday services at George Street were in charge of the pastor, Rev. W. Harold Young, who preached morning and evening to large and attentive congregations.

In the morning, he gave an inspirational talk on "Three Views of Life," based on the first seven verses of the fifth chapter of Revelation.

"The book of Revelation," said Mr. Young, "is one of the most interesting and worthwhile books of the Bible, but it must be studied with calm judgment, and with a consciousness of its setting." There is no book in Christian literature so misinterpreted or misunderstood. It is a book of mysteries which no man has completely solved, but in which, one who sanely seeks will find eternal truth for his soul.

"And I saw in the right hand of Him that sat on the throne a book written within and on the backside, sealed with seven seals."

A vision is given of a throne but no picture of the one on the throne—only the hand. Little is told of the book, but it is obviously the book of destiny or life which is typical of the life of the individual.

Three Views of Life.

Three views of approaching life may be taken from the first seven verses:

1. The vision of the weeping man, who says, "I wept much because no man was found worthy to open and to read the book, neither to look thereon."

He sees the possibilities of the book, how he could read the secrets of life, if he could see into it, but none was worthy to open its secrets. The recorder breaks down in despair and weeps. He is typical of many who seek to solve the problems of life, but who, failing, adopt the pessimistic viewpoint. Only God can reveal the secrets of life, and some refuse to trust Him, and, despairing, take life to be but a hollow sham. This is an unworthy and unmanly attitude. One should take difficulties and trials standing up, and thank God for our unconquerable souls.

The pessimistic attitude to life, leads us to fatalism, which robs life of its beauty and glory.

Christ, the Lion.

2. "Weep not; behold the Lion of the tribe of Juda, the root of David, hath prevailed to open the book."

This refers to Christ. There are many sides to Christ. There is the suffering Christ, the sad, the weeping, the thorn-crowned, the kingly Christ. There is the Christ Who hurls Himself into the fight; Who is the strong son of God, Who leads men to conflict, Who turns the stream of time into new channels. Here Christ is the lion.

Commentators see this as symbolical or typical of a certain type of character. The book of destiny unfolds to those who approach life in the spirit of the lion.

Is this the Christian attitude? Yes; the attitude of facing life courageously and with healthy mind is right. Christ was the exponent of the strenuous life. He dared to stand against Rome, and all the oppressions of the time. He has waged warfare since against woe and sorrow. The real Christ is God's athlete. His call to-day is for the highest manhood.

The Lamb Slain.

3. "And in the midst of the elders stood a lamb as it had been slain."

The lamb slain is the symbol of sacrifice and love. These are the qualities that will show us life at its best. They are the two keys to life, and only as we use them do we touch God.

GOOD NIGHT STORIES

DOTTY MAKES NEW FRIENDS.

Dotty was fast growing tired of visiting her aunt, for there wasn't a child she knew in the whole West Indian Island of Trinidad, and she longed for the time to come when she should start home.

One day when she was more lonesome than ever, she wandered out into the woods and sat down to have a cry all by herself. But before she got well started, she spied such a funny crowd of little red ants toddling along one after another, each carrying a bit of green leaf over his shoulder, that instead of crying, Dotty burst out laughing—they looked so dreadfully funny!

"Well, I'm glad you think us funny!" squeaked the last fellow, as he stopped before Dotty and shifted his green lea to his other shoulder. "I can't see anything funny about it, myself. Tell me—maybe I can laugh with you."

"Oh, I beg your pardon!" exclaimed Dotty, terribly confused to find the little red ant talking in a voice she could understand. "I wasn't really making fun of you, but you looked so queer—all trotting along, carrying those little green leaves—you looked like little elfins carrying green parasols. Please excuse me if I've hurt your feelings."

"Sure enough!" laughed the little red ant, sitting down beside Dotty. "I guess we do look funny under our parasols. Fact is, we're very seldom without them, and folks have begun to call us Parasol Ants. My goodness! One of our fellows came back to the town this morning with the glad news he had discovered a new cocoa tree full of new leaves, so we immediately got busy. Ever seen us work?" he asked, cocking his funny little red head to one side. "If not, come and I'll show you," he continued, when Dotty shook her head.

He led her out to the cocoa tree, where crowds of red ants ran to and fro, carrying the bits of green leaves over their shoulders. He broke off a leaf with his sharp teeth and held it over Dotty's head, and like magic Dotty shrunk to the size of her little friend. Eager for a new adventure she trotted beside him back to the parasol city.

There, on the hillside, so the fierce showers of the rainy season would drain away quickly, near the foot of a tree, stood the ant hill of reddish earth about three feet high and about thirty feet around. Running off in half a dozen directions were small highways, three inches wide, and leading out into the forests.

Mr. Parasol Ant invited Dotty inside the little ant hill. The rooms were hollowed out in circular shape, and were about three inches wide—each having a little toorlet from the tree passing through it. Each room opened into the main street of the town, through an arched passageway an inch high and three inches wide. These halls inclined down hill, so all refuse and moisture was carried off and emptied at the entrance at the lower end.

Everything looked spick and span. Not a speck of dirt was out of place.

Dotty watched the little fellows bringing in their bits of leaves and putting them into the different chambers. There, other ants busied themselves cutting the leaves into tiny bits, moistening and kneading them, and packing them close down. In a few days the fungus would grew over it—the red ant told Dotty.

Dotty had to smile when she saw how attentive the little ants were to their Queen—who was a big, fat ant with four shiny wings. They waited on her hand and foot.

Dotty was sorry when she heard her aunt calling her. Bidding her friends good-by, and thanking them for making her lonesome day a cheery one, she quickly ran home—for the minute she walked into the sunshine and dropped the bit of green leaf, the magic vanished, and Dotty found she was herself once more.

Constipation

It is never necessary to take strong calomel or harsh castor oil to relieve constipation. Try a combination of simple herbs with pepsin, sold by druggists under the name of Dr. Caldwell's Laxative Syrup Pepsin. It is a mild, gentle medicine so safe that thousands of mothers give it to tiny babies, and yet effective enough to relieve the most chronic constipation in grownups. The formula is on the package. A sixty-centbottle lasts an average family many months, and is guaranteed to do as claimed or your money will be refunded Eight million bottles of Dr. Caldwell's Laxative Syrup Pepsin were sold in drug stores last year!

If you would like to test Dr. Caldwell's Laxative Syrup Pepsin free of charge before buying it in the regular way of your druggist, send your name and address to Dr. W. B. Caldwell, 19 Front St., Bridgeburg, Ont., and a free trial bottle will be sent you promptly, postpaid.

WARNE DRUG CO., LTD.

CHURCH SERVICES AT MARK STREET

OINTS BROUGHT OUT AT THE MORNING SERVICES.

There was great interest manifested in the services on Sabbath, and the music was excellent.

The morning subject was "A Momentous Bargain," and was founded on Hebrews, xii, 16, "Eseau, who for a mess of meat, sold his birthright. The folowing points were brought out in the sermon by Rev. G. E. Ross.

Men Immortalize Their Names in Two Ways.

One man's name is written on the wall of the Temple of Fame because of what he does in life, another's by what he refrains from doing Lincoln's name will sound in the rending of the chains of slavery as lon gas the language endures. The name of Albert of Belgium, will shine forever like a star, because he refused to sell his honor to the "man of blood and shame" and his country to the German Kaiser. Jacob became a prince of Israel by craft and deceit, and so we despise him. Eseau failed to appreciate his heritage, and so we pity him. The story of these two brothers is one of the saddest in history.

Sale of Birthright Saddest Story in Old Testament History.

Esau was the oldest son, and consequently the heir. The heritage was his by every law, human and divine, None could take it from him against his will. Only a crafty appeal to the weaker side of his character could accomplish this diabolical end. But Esau had a brother, quiet, crafty and crooked. His mother, Rebecca, is a counterpart of her pet boy Jacob. Between them they work the game of deception, and under the combined pressure of the faithless mother and her favorite son, a brother and son is robbed of that which is dearer than life. Have you a pet in your family that is not a cripple or mentally deranged? Then if you have, may the Lord forgive you. Why should a parent favor one child more than another, except for one of the above reasons or both?

What Constituted the Birthright of Esau?

It was the sonship of a prince of Israel. By his birthright Esau was heir to all the mighty covenant blessings. By this heritage he would shine forever as the progenitor of the coming Messiah. His name would be forever glorious. In him would all the families of the earth be blessed. Nations would rise up to call him blesed, and God would change his name to that of "Israel." But alas, the trickster is there with his homely stew ,and Esau is faint with hunger, so he sells his birthright to the wiley Jacob for a bowl of meat.

And is our own birthright not glorious? Are we not heirs of God and joint heirs with Jesus Christ? Do we not bear the image of the divine. Were we not made for the skies. Sin is not natural to the pure spirit. We were made to walk and talk with God here, and live forever in his presence beyond; then why sell our birthright to gratify the sensual with a draught of the world's pleasure?

Note the Temptation of Esau and Its Source.

Like the rest of us, he had a heriditory taint of sin. He was lovable open handed and free hearted. His home lift afforded him no help. How could it be otherwise when that home was divided? There was no ground for mutual trust between the parents, and the wily Jacob never failed toi take advantage of his open, frank, and all too credulous brother Esau. Jacob took advantage of his brother's necessity, and that is one of the devil's ancient methods. Jesus was hungry and the devil suggests that the Son of God convert the boulders of the wilderness into bread, but Christ must pay a fearful price for this loaf, even the forfeit of his atoning work. Esau is famished after his long hunt and Jacob offers him a little meat. If Esau dies of hunger, of what value would his birthright be to him when he is dead? So he, of necessity, sells his glorious heritage for a meal of vituals. If there is no hell there should be, for the man who will take advantage of his brother's necessity.

The Birthright of the Church and the Modern Jacob.

Man has never been without religion; wherever there is religion we find some form of the church; so the church was the earliest organization among men. Now the play originated in the church. This is well known to the student of literature. We believe,the play and the picture show too, have come to stay. A good picture is both inspiring and instructive, but at this point we draw the line. When the theatre or picture show attempts to interfere with the services of the house of God we demur. The Sunday picture show or Sabath evening concert invariably does this. It cannot well be otherwise. Why have we such a struggle to defend the sacred rights and sanctity of the church and the Sabbath? Are two exhibits each day for siv days in the week not eongh? Why, then, try to secure the birthright of the church and try to deceive us by offering a percentage of the profits of a Sunday evening concert as a gift to the poor. No, let each church in this city care for the poor of its own constituency and we shall need so such concerts for such an object.

We Must Guard the Sanctity of the Church of God.

Manly sports are a blessing to any community, but we must keep them in their place. If the church of Christ were a training school from which to turn out gamblers and pugilists, then we might bring in the cards, the pool table and the punching bag. But the church of God is a divine institution, dropped down from heaven for the salvation of men, and therefore is sacred and holy. We deny that such things are needed to keep our boys out of down town dens of vice. And we had better strengthen our pulpits if we are not holding our boys and girls.

What Was the Price of the Birthright?

Esau gave his peace of mind, self respect, confidence of God and men, and received in return a plate of the devil's hash. That bright young fellow leaves his manhood in the dust of some haunt of sin and comes out with fallen crest, and drooping head and aching heart, and he gave that God-given birthright of manhood for the privilege of lunching with the devil of ten minutes. That young woman leaves her coronet of virtue in the dust of the modern dance and walks out a crownless queen, with the fumes of liquor on her breath, and what does she receive for this priceless birthright? The arch smile of a polished villain. Esau repented bitterly with tears, but no amount of weeping and wishing could restore his birthright. Keep thine and do not sell.

COST OF PRINCE'S VISIT.

LONDON, Feb. 21.—The visit of the Prince of Wales to Australia cost one thousand pounds less than the amount granted.

Home Made Bread

Home made bread is without doubt the cheapest and most healthful food that can be produced for human consumption. It is the most completely digested solid food in the world. over 90% of it being transformed into health and strength. It yields nearly twice as much nourishment as rice or potatoes. and is ten times as nourishing as an equal value of meat. No bread is more truly wholesome or more perfectly satisfactory than that baked at home in which Royal Yeast Cakes are used.

Scientists have discovered a new and truly wonderful use for Royal Yeast Cakes Physicians are prescribing it with remarkable success for conditions attributed to poor blood conditions. Soak a cake of Royal Yeast for half an hour in a cup of luke-warm water with one teaspoon sugar Then stir well and strain once or twice through muslin and drink the liquid. BETTER results will be obtained by allowing it to soak over night and drinking half an hour before breakfast. Repeat as often as desired. Send name and address for free booklet entitled "Royal Yeast for Better Health."

Watch Your Gums—Bleeding a Sign of Trouble

Medical science knows how serious is the sign of bleeding gums. For it knows that tender and bleeding gums are the forerunners of Pyorrhea, that dread disease which afflicts four out of five people over forty.

If the disease is unchecked, the gum-line recedes, the teeth decay, loosen and fall out, or must be extracted to rid the system of the Pyorrhea poisons which seep into the system and wreck the health. These poisons often cause rheumatism, nervous disorders, anaemia, and other ills.

To avoid Pyorrhea, visit your dentist often for tooth and gum inspection, and use Forhan's For the Gums. Forhan's For the Gums will prevent Pyorrhea or check its progress, if used in time and used consistently. Ordinary dentifrices cannot do this. Forhan's keeps the gums firm and healthy—the teeth white and clean. Start using it today. If gum-shrinkage has already set in, use Forhan's according to directions and consult your dentist immediately for special treatment.

35c and 60c tubes in Canada and U. S. If your druggist cannot supply you, send price to us direct and we will mail tube postpaid.

FARMERS AND THE SUN.

The Farmers' Sun proudly announces itself in every issue as the official organ of the United Farmers of Ontario. There are many occasions when members of the Farmers' government are inclined to regret that the Sun shines so frequently, for many of its editorial references afford enemies of the U.F.O. government an excellent chance to attack the Ontario administration, basing their assault upon quotations from the self-termed official organ. The Sun's position in regard to the Hydro-Electric Commission is, for instance, very embarrassing to the government, for it provides the Opposition with plenty of ammunition and they have been taking full advantage of the opening. Now, the Hon. Peter Smith, Provincial Treasurer, and the man who is proud of the $800,000 deficit he had to show comes along and declares that the Sun is not the official organ of the U.F.O. But there may be a little mild conjecture as to whether or not the Hon. Peter has the authority to read the Sun out of the party. That enthusiastic, if misguided journal, may decline to be so disposed of, and the Provincial Treasurer need expect little advertising hereafter from the "official organ."

BONUSES FOR MANUFACTURERS.

"Mr. W. A. Crockett, the Labour member for South Wentworth, proposes to prohibit municipalities granting bonuses to manufacturers. His bill should be supported."—Toronto Star.

In principle, Mr. Crockett's bill is unassailable, but in its practical application to present day conditions, it is difficult to see why the Star or any other Ontario journal should support a measure that could not fail to react to the decided disadvantage of this province. Bonusing manufacturers is wrong—there is no argument possible on that point—but as long as other provinces permit the practice, Ontario cannot voluntarily handicap herself. Our neighbouring province of Quebec, with its unlimited water power, its freedom from labour troubles, and its other advantages—its license law appeals to many as not the least of these—is proving a formidable industrial rival. Many large industries have located there in the last year or two and more are going. If Ontario passed the Crockett bill, making it impossible for municipalities to offer inducements to new industries while Quebec has no such restrictions, it does not require the clairvoyant ability of a seventh daughter of a seventh daughter to picture the result. The Ontario Legislature is not the place for a bill of that kind; presented as a Federal act it would be quite a different matter.

THE RADIAL QUESTION.

The proposal that an interim report should be presented to the Legislature from the commission appointed to investigate the advisability of constructing Hydro radials, is one that should not be entertained, for a report of that kind would present the Radial proposition in a most unfavourable light, seeing that the commission so far has heard nothing but opinions of those opposed to the scheme. But little opportunity has so far been given for those who favour Hydro radials to present their side of the case, and a preliminary report under such conditions would be not only unfair, but valueless. The handling of the whole question by the Drury government has been one of the chief evidences of weakness offered by th U.F.O.-Labour administration. Little fault was found with the proposal to investigate the radial question, but the commission has wasted so much time in hearing so-called experts, the majority of them prejudiced against the scheme, that the municipalities are beginning to grow impatient at the delay. The majority of the municipalities of the province have expressed their confidence in Hydro radials and their willingness to assume the liabilities, merely asking the province to facilitate the securing of cheaper loans by endorsing the bonds. The risk assumed by the province would be nominal, for unless the municipalities all went bankrupt the Ontario government would contribute nothing to the scheme. Many people, therefore, are inclined to agree with the suggestion of the Toronto Star that "the province, if it hesitates to lend itself to the building of an elaborate radial system, with hundreds of municipalities involved, would be acting fairly if it facilitated the construction of a line between Toronto and Hamilton or between such other points as the Hydro believed would provide the most favourable test."

A PROTEST FROM THE NORTH.

Hon. Peter Smith's proposed new taxes seem to be arousing more criticism than is the deficit of $800,000 which he announced to the Legislature last week. The chief objection comes from Northern Ontario, where the minister's proposal to increase mining taxation has aroused a storm of protest. The members of the Ontario government are being asked by different organizations to visit the northern part of the province and justify the new imposition they are proposing to levy. It is not likely that this request will be acceded to, but the government should at least endeavour in the Legislature to show good cause for the infliction of the increased tax on the mining interests. The protest of the northerners is too vigorous to be ignored, and the members of the Legislature from that section of Ontario will undoubtedly have much to say this week about the mater. Malcolm Lang, Liberal member for Cochrane, has already strongly objected to the tax and he will be followed by other northerners in the same vein. It looks as if the debate on the Budget which took up the greater part of last week, will be continued indefinitely—in fact it has hardly begun.

The northern view of the mining tax is shown by the following resoltuion passed by the municipality of Teck:

"Whereas, we believe at the pretraordinary burdens and financial hardships the mining industry has had to contend with during the past five years, and the prospects of further hardships and burdens, it is the opinion of the citizens of the municipality of Teck that any increase in the rate of taxation as provided in the mining tax amendment, 1921, would be most inopportune, and would undoubtedly throttle the mining industry.

"Whereas, we eblieve at the present time the mining industry should be nourished, not exploited, and whereas other governments are devising ways and means of encouraging gold production, it would be most imprudent for the government to adopt any legislation tending to curtail the production of gold in Ontario .Therefore be it resolved that we petition your government to withdraw the proposed Mining Tax Amendment Act, 1921."

AFTER SUGAR—PAPER?

The inevitable has come to pass. The stock markets and those who followed the paper shares on these markets believing that the paper companies held a monopoly and were immune of competition, are now admitting that paper, like every other commodity, at some stage has got to be governed by the ability of the buyer to pay the cost. Washington despatches this week stated that the German paper makers were sending newsprint into the United States at a price of 2 1-2 cents a pound, while the Canadian price has been held as high as 6 1-2 cents a pound. From Montreal yesterday the Canadian Export Paper Company, which acts as a clearing house for most of the Canadian mills, announced that on the first of April they are to meet the situation by dropping a cent a pound, to the price of 5 1-2 cents, and in the United States the International Paper Company have made a drop to five and seven-tenths cents a pound.

The Press in general has been pointin gout the dangerous position of the paper shares. The war dislocation upset all kinds of combinations and ideas, as the sugar barons found out to their regret; and the paper men are beginning to realize that there is no monopoly in paper. Papers have a shrewd opinion that newsprint prices in Canada were held up largely for the purpose of influencing the share market, and that many companies were more deeply interested in stock market promotion than they were in building up the country's industries. Paper shares in Montreal have already in some instances dropped in half, and may be reduced another half without reaching anything like a basic valuation. The companies were padded up by capitalization of non-par value shares in an enormous extent, and it is impossible to say just exactly what these shares are worth during a period of normal years. The paper exploitation is thought to have been responsible for the failure of two prominent broker firms in the city of Montreal. But it will never be known the extent of losses which have been taken by the speculators in Montreal and also to some extent in Toronto who dabbled in the paper shares. And the companies put profits in shares that ought to have gone into reserves against a return to pre-war prices.—Sarnia Observer.

EDITORIAL NOTES.

Cock fighting on Sunday in Toronto the Good! What next?

A Toronto man who sold free meal tickets for five cents a piece, was given a thirty day sentence. His offence entitled him to a longer term.

"A strike of teachers is a bad thing for everybody concerned, including the teachers," says the Globe. But the pupils may not think so.

The police are doing most of the crowing over that Toronto raid.

A well known Hamilton baseball umpire was "among those present" at the Toronto cock fight. He must know something about "fowls" as well as "fouls."

FOUND BIRDS NESTING.

Two Grattan woodsmen, Paul Milke ad Hugh Smith, while falling a tree the other day on the latter's premises, near Eganville, had their attention attracted by a small bird, grayish in color, which flew about them in noisy demonstration. The explanation was furnished a few minutes after when the tree fell and ther was discovered on a high branch a live fledging. This in midwinter is considered most remarkable.

WISE AND OTHERWISE

A little thing like the comet, which some astronomers claim is due to hit our planet in June, can't mess Hunter street bridge."

"Money performs great deeds," mused the pseudo-philosopher.

"But it's taking a rest now," replied M. T. Pockets.

A Rochester, N.Y., girl has braved the surgeon's knife in order not to miss the pleasures of dancing. But then, think of the animals some girls endure for the same purpose.

"Speaking about the problems of the Near East," says the West-End Gazip, "what about finishing the Hunter Street Bridge."

The border rum-runners are still hard at work attempting to even up the adverse trade balance with the United States.

She: I read a horrible story in the paper to-day of a girl who threw a boy down from a fourth storey window.

He: And you can read a similar story in some men's faces.

Medical science is now interested in effecting cures by removing bones which press upon the brain. But the medical men always have been interested in removing bones, although many of them were from the pocket-book.

"George is making money at last."

"So?"

"Yes, working in the Mint."

The movie serial villain's dark face gleamed wickedly in the light of the flickering candle, which accentuated the pallor of his eyes. His teeth shone like a dental cream advertisement as he hissed the details of the plot to his fellow-conspirators.

"We have here in our power, but she refuses to do our bidding," he began.

The faces of the gang darkened behind their masks.

"We must use force," he continued.

The dopester, second from the end, twitched on his soap box.

"Torture must be resorted to."

The silence was unbroken.

"But—we will force her to her knees if we—"

He paused, and the gang shifted forward on their soap boxes, expectantly.

"—steal her vanity box and powder puff!"

STEEL TOWERS AS AIRSHIP MOORINGS.

Experiment to This End Made in England.

(Associated Press)

PULHAM, Eng., — Experiments are shortly to be carried out at the aerodrome here with the object of establishing the stability or otherwise of steel towers as moorings for big airships.

An attempt is to be made to moor the giant airship R-33, the sister dirigible to the trans-Atlantic flyer R-34, to a steel tower 150 feet in height.

ful it will have a marked effect on

If the experimental one and not the position of this class of aircraft as commerce carriers, for it will mean that the steel tower is likely to be the usual form of station headquarters for the airship of the future.

The steel tower here, however, is only an experimental one and not the highly developed tuberlar construction which the towers of the future are expected to be. A shaft runs up the tower and through this by means of pipes, the R-33 can be re-fuelled and re-gassed.

The R-34 recently was destroyed by a storm. The disaster was attributed by some aviation experts to lack of a tower to which to moor the airship.

HONORS PAID TO LAST OF HIS RACE.

Granddaughter of Father of Mexican Republic.

(Associated Press)

MEXICO CITY. Feb. 22.—Impressive honors were paid recently by the government at the funeral of Maria Guadalupe Hidalgo, grand daughter of Miguel Hidalgo, known as the "Father of the Mexican Republic." She died at the age of 86 and is said to be the last descendant of Father Hidalgo, who on the morning of September 16, 1810, proclaimed Mexican Independence from Spanish rule and started the revolution that eventually broke Spanish dominion on the continent.

POLICE DEPARTMENT'S ESTIMATES PASSED, INCLUDING A FASTER CAR

ALD. CROWE CONTENDED THAT CHIEF NEWHALL SHOULD BE A RESIDENT OF THE CITY—JUDGE HUYCKE SAID 1921 ESTIMATES WERE MODERATE — INCREASE OF $1,200.

The Police Department's estimates of $25,183.77, an increase of $1192.27 over last year's, were approved by the Committee of the Whole Council last night. Judge Huycke, chairman of the Police Commission, was present with Chief Newhall, and urged the Council to pass the Police Department's budget, pointing out that the increase was a comparatively small one, and the requirements for the year were moderate.

"During my ten years as chairman of the Commission I have tried to make the police force an efficient one to protect the property and the lives of the citizens of Peterboro," said His Honour. He paid a tribute to former Chief Thompson, and continuing said: "I don't think the city is going to lose anything by his going. I think we have in Chief Newhall a successor of equal experience and ability, and as time goes on, of equal management. The addition we are asking for this year amounts to $1200. That is partly explained by the fact that some of the men are in the initial stage of experience and get only $1100 a year. The Chief has asked for four additional men. Although Peterborough is well policed, the force, in numbers, is under that of other cities. The Commission recommended that two new men be added this year. It has been suggested that the Chief's car is not satisfactory. He will explain that. I think the citizens are pleased with the business-like way in which Chief Newhall is proceeding."

Work 9 Hour Shifts.

To Ald. Gordon, Chief Newhall stated the day and night shifts were each working nine hours, eight of which were on the beat.

To another query he replied that the men who were on duty were not detailed as constables to ball games and other public gatherings. If they accepted these engagements it was only in their regular time off.

"At the last hockey match we were asked to send up three men, but those who were off duty were not keen to act," he said. "I had to ask the man on the north beat to stay a while around the front of the rink."

Not a Resident.

Ald. Crowe pointed out that Chief Newhall was not a married man nor was he a resident of the city. If he were a resident he would pay income tax on $1400. Ald Crowe figured that the city was losing about $200 by reason of the fact that Chief Newhall did not reside within its boundaries.

Ald. Hamilton—Do you want the Chief to get married?

Chief Newhall stated that he had no intention of disclosing his private affairs. "I am on a level with a man with six children, and I have done so for 18 years though I have not been compelled to, and I haven't been telling everybody about it."

Ald. Crowe—I say this man should be a resident of the city.

Ald. Gordon — Crown Attorney Hatton doesn't live in the city.

Gets a New Car.

In pressing his request to the Council for a new and faster automobile for the Department, the Chief said that he did not care what it looked like or whether it was fitted with deep cushions or not. All that he needed was a good car that would meet the special requirements of speed, which were essential to the

Must be Fast.

He presented a list of cases in which the old car was used, generally with success. He had had this information compiled from the records since the recent meeting of the Commission. Most of the emergency calls were news to the members of the council, or to most of them. One was the famous chase to Port Hope and Oshawa after the strangers who held up George Bartley last summer on the gravel road. Another was that of an insane man, who had run amuck in a certain part of the town, and was taken into custody in a house just as the woman who had telephoned for help, was fainting. The list was a rather long one, and its recital suggested, if it may be mentoined here, that if publicity is frowned upon "before the fact" by the Police Department, in their own interests, under the new legislation covering the control of this administration they should acquaint the public of their enterprises at least "after the fact."

On one trip a serious highway accident on the Chemong Road, on July 27th, the present car was doing its best at 30 miles an ohur. Chief Newhall referred to a phase of the night patrolling in the summer time, a feature of the police work that is just as well veiled, and stated that fast cars undr pursuit criss-cross along the roads so as to prevent their numbers been seen, and that those of high power easily elude the slower police car. He had in mind a Dodge which was recommended by Chief Constables because of the genral satisfaction it had given.

The Police Commission's appropriations were approved on motion of Ald. Gordon, seconded by Ald. Morrison.

TELLS THE SECRET OF THEIR SUCCESS

QUEBEC LADY SAYS DODD'S KIDNEY PILLS ALWAYS RELIEVE.

Great Canadian Kidney Remedy Has Been for Over Thirty Years on Trial in Canada and the People Are Still Paying Grateful Tributes to Dodd's Kidney Pills.

St. Edouard de Frampton, Que., Feb. 21st.—(Special.)—"I have used with success Dodd's Kidney Pills. They always relieve.

"I can also recommend Diamond Dinner Pills. I have used them with splendid effect for constipation, bad headache and billousness."

Short and sweet are these two tributes to two of the Dodd's Remedies. But they go right to the point.

Mme. J. T. Lehouillier, who makes the statements, is well known and highly respected here. She gives the reason why Dodd's Kidney Pills are in such general use all over Canada, where they have been on trial for more than thirty years. "They always relieve." Those are Mme. Lehouillier's words. They are the secret of Dodd's Kidney Pills success.

For kidney troubles and the ills that spring from kidney troubles are very common in Canada. Among them might be mentioned rheumatism, backache, dropsy, urinary trouble, diabetes and heart disease. The way to avoid them is to keep your kidneys strong and well.

Ask your neighbors if Dodd's Kidney Pills are not the best remedy for sick kidneys.

MORNING SONG.

The gale was on just in time.
Only a lifted hand for sign.
The basket came to our delight,
But they had different plans in sight.
Sing a little song in the morning.

Another B. Social and a dance,
His basket we sure have by chance.
Bought two for luck may be alright,
The game is ours, safe home to right.
Sing a bright song in the morning.

Is this your youngest daughter, friend?
Those cealings we can all sure depend.
Has been well done the opera and place;
We'll say your lady has a gentle grace.
Sing a merry song in the morning.

She met with many a youthful pace.
Say, come lest we all loose our place.
The cab came up and in we get,
Their tracks may be on sidewalk yet.
(Chorus) Sing a good song in the morning.

The show and races on in time,
Nelly came out first on the line.
And in the grator faster test
She came right in the second best.
Sing a fair song in the morning.

Looked for a brawny six-foot man,
The very best was in the clan.
Jesv stood with other eight for size,
Cutting the figure eight she won first prize.
Sing a swift song in the morning.

Five lads chasing old lady with her crutches did fall,
And the old one-armed man's horse on street for all.
Three at 40 are doing the same thing yet,
Two at 30 passed away all their plans upset.
Sing a sad song in the morning.

The novels with the yellow backs
Has always something in that lacks.
Often they are cast in the way,
And leads the youthful mind astray.
Sing a wise song in the morning.

In many a country home and clime
Are strong but very far from God's design.
Never knew a Pharoah's selfish plans that later
Was always sure to be heading for water.
Sing Miriam's song in the morning.

This grand old world is getting better every day,
Spring-time joys and pleasures come in May.
Birds are singing, children bringing in the flowers,
Orchards blooming, church bells ringing and the promises are ours.
Sing a glad song in the morning.

—R. W., City.

It is easier to see through the plot of a play than through the ear puffs in front of it.

LAKEFIELD COUNCIL IN REGULAR SESSION

Will Procure Bronze Memorial Tablet at Cost of $450.

LAKEFIELD, Feb. 21.—The village council met in the Council Chamber on Monday evening last, when there were present Reeve Strickland and Councillors Dawson, Morrison, Marling and Spence.

Inspect Buildings.

Communications were read from the Secretary of the Fire Underwriters Association and the Inspector of Public Buildings, stating that inspections will be made as soon as possible.

Also one from the village solicitor, giving the opinion that it is beyond the jurisdiction of the Council to remit certain fines imposed for a breach of the Motor Act

More Light Wanted

Mr. W. H. Dunn, representing the Methodist Church and Mr. D. A. McDonald, representing the Baptist Church, asked council to maintain a light in each of their respective sheds as they were used generally by the public. The matter was referred to the property committee.

Mr Dunn asked permission to parq cars on Regent street without lights burning.

Moved by Coun. Dawson, seconded by Coun. Marling, that, the Reeve convey to the Constable the expresed opinions of this Council with respect to the parking of cars. —Carried.

Moved by Coun. Dawson, seconded by Coun Morrison, that, all motions be in writing and initialed by the Chairman.—Carried.

The committee on the purchase of a piano reported and recommended the purchase of a Gerhard Heintzman piano to cost $450. The report was adopted

$450 Memorial Tablet.

The committee appointed to look after a procuring a memorial tablet for the hall presented its report, and stated that a cast bronze tablet would cost in the neighborhood of $450.

Moved by Coun. Dawson, seconded by Councillor Morrison, that the Council adopt the report of the committee on memorial and act in accordance thereto.—Carried.

Coun. Dawson and Coun. Morrison were appointed a committee to investigate the question of purchasing a curtain for the hall, with power to act.

Going to England.

Moved by Coun. Spence, seconded by Coun Marling, that, we grant Coun. Dawson leave of absence for two months to cover his absence in England, and that Coun. Morrison be chairman of the property committee during that time.—Carried.

To Pay Accounts

The finance committee recommended payment of the following accounts:—

Bell Telephone Co., $5.30; W. J. Charlton, coal, $109.40; Belle Telephone Co., $5.80; J. Edwards, repairs, 75c.; Spence Sons, $12.40; A. J. Kidd, repairs, $15.55; Theo. Crawford, supplies for Fire Brigade, $153.36; T. Jewell, painting etc. $49.90; A. Hope, furniture for Council Chambers, $198.00; J. W. Botterill, bal. contract, $1700.00; N. A. Kearns, bal on fees, $112.00; D. Sabatino, labor, $8.20; E. J. Millage, bal. contract, $900.00; Miller Powell and Watson, bal., contract, $1,552.00.

Council then adjourned.

SEAL BRAND TEA

may truly be termed the drink of economy. All tea is cheap, but the best tea is cheapest. Three hundred cups of piping hot delicious beverage can be made from a single pound of Chase & Sanborn's Seal Brand Tea.

For refreshment, for mild stimulus and sheer enjoyment of the delightful fragrance and flavor, drink Chase & Sanborn's Seal Brand Tea.

In pound and half-pound cartons.

CHASE & SANBORN, Montreal, Que. '15

CARPENTIER MAY "FOOL" DEMPSEY.

COPENHAGEN, Feb. 22.—Georges Carpentier, who, passed through this city on his way to Christiania, was interviewed concerning his match with Jack Dempsey. He said that the match would take place in New York, July 2, and would be fifteen rounds. He said that there was no truth in the rumor that he would retire if he won, but that any boxers that wanted to box him would then have to come to France.

Carpentier will return to Copenhagen next Friday and give an exhibition, showing how he won the Levinsky fight. From here he will go to London and other English cities and then to Marseilles on his way to North Africa.

Ask how he would manage Dempsey, he answered: "I'll fool him."

MURINE FOR YOUR EYES
A Wholesome, Cleansing, Refreshing, Healing Lotion — Murine for Redness, Soreness, Granulation, Itching or Burning of Eyes or Eyelids; "2 Drops" After the Movies, Motoring or Golf will win your confidence. At Druggists and Opticians. Write for Free Eye Book. Murine Eye Remedy Co., Chicago

An easy way to get rid of headaches and break up colds.

If you are subject to Headaches; often have attacks of Neuralgia; or take cold very easily; you will naturally welcome information of any remedy which has been tested in hundreds of cases just like yours and has given thoroughly satisfactory results.

During the last Influenza epidemic, and the wet, slushy days of last spring, DOMINION C.B.Q. TABLETS were recommended to be taken at the first sign of cold; when one felt a Headache or Neuralgia coming on.

Those who wisely followed this advice found that one or two tablets relieved the pain, reduced the fever, and broke up the cold.

DOMINION C.B.Q. TABLETS are a combination of Cascara, Bromide and Quinine and are sold by all druggists.

They were originated by the National Drug and Chemical Company of Canada, Limited, an assurance in itself of the purity and efficiency of the ingredients.

Insist on having Dominion C.B.Q. Tablets. tf

RUSSIA THE STUMBLING BLOCK TO PEACE, THINKS LUDENDORFF

FORMER GERMAN LEADER INTRODUCES TEARFUL PLEA FOR GERMANY INTO DISSERTATION ON BOLSHEVISM.

(By VIGGO TOEPFER, Staff Correspondent of the Cross-Atlantic Newspaper Service.)

BERLIN, Feb. 22.—"Peace in Europe is impossible until the problem of Russia is solved," is the declaration of Field Marshal von Ludendorff, formerly of the German Grand Headquarters, and now the active head of the plot to restore the German throne to the former Kaiser.

"In every country there is a panicky fear of the domestic Bolshevists and this is the reason no one has dared tackle the Russian Communists. A tendancy toward the Third International is manifest in every country, and is actively supported by Soviet Russia. My conclusion is simple: We must take up the fight with Bolshevism—the sooner the better.

"All countries must take part in the intervention, but first of all, the Western powers must, completely alter their policies. Things cannot go on as at present. When France is continually committing the greatest blunders in her treatment to us, England is carrying on a two-faced policy, and America keeps completely aloof.

"We German patriots are willing to support the war on Bolshevism to the best of our ability, but if we enter into the great fight, it must be with German troops under German officers. We can beat the Red armies, of that I am convinced, for the Red hordes do not possess any real fighting strength."

Asked if he thought Russia might be saved by a revolution from within, Ludendorff replied: "No, Russia can be saved for civilization only through a common intervention in which all powers take part, and I am fully convinced that the Bolshevist danger threatens the whole world, and that there is not a moment to lose."

MONARCHISTS WANT A KING OF PRUSSIA.

Prussian Elections See Monarchist Party Working in the Open.

(By Cross-Atlantic Newspaper Service.)

BERLIN, Feb. 22.—Monarchist sentiments are openly voiced in a manifesto in connection with the elections to the Prussian Diet published by the "League of the Upright." It says:

"We want the return of the King of Prussia. Never shall we give up the old Prussian slogan, 'Onward, with God, for King and Country!'"

COBOURG, Feb. 21.—The Bastion Bros. of Rochester are about to establish a branch of their factory here. This firm manufacture class pins, medals and several lines of novelty goods.

For Dandruff

The very best remover of dandruff is Kotalko. When the dandruff is gone, it does not return. The scalp and hair are completely freed from those troublesome flecks. Kotalko also stops hair from falling out and induces new growth. At all busy druggists'. Or send 10 cents (silver or stamps) for proof box of Kotalko to ROYAL COMPANY, LIMITED, 366-K Adelaide St. W., Toronto.

POCKETED PAY FOR PHANTOM BRIGADE.

MEXICO CITY, Feb. 21. — A phantom brigade of a thousand men whose commander for three years had pocketed all the money advanced by the Government for its pay and upkeep, has been discovered by the War Department in its investigation into a military ring which is said to have cheated the Government out of millions of pesos.

The War Office, in making announcement of its discovery, did not disclose the name of the officer who profited by the fictitious organisations. It was said, however, that he had drawn pay for a thousand soldiers and scores of officers from 1915 to 1918 inclusive.

TO CONSECRATE CHURCH.

LINDSAY, Feb. 21.—The mortgage on St. Paul's Anglican church is paid off, and the building freed from all debt. On Thursday, Feb. 24th, Bishop Sweeney will be present at a special Thanksgiving service, and consecrate the church.

791st Bargain Annex Event

Bargain Annex
Registered

Wednesday, Feb. 23rd, 1921

At Our Shoe Shine Stand We Clean All Colored, Satin and Metallic Shoes.

A 50c Mid-Day Lunch is Served in Our Tea Room Every Day from 11 a.m. to 3 p.m.

To-morrow—Every Minute Will Be a Busy One—From 9 a.m. to 5.30 p.m.

LEADER

Almost Down to Half-Price for Children's Waists, 39c

There is great quality in these Waists of white cotton. They are strongly reinforced with tape strapping and have wide comfortable shoulder bands. The Street Floor price is 75c, and in the Annex to-morrow you will have choice of all sizes at only about half the original price.

OUR ENTIRE SPRING SHIPMENT

75c Kalburnie Dress Ginghams at 39c Yard

Just two weeks ago the Annex featured a sale of these beautiful plaid dress ginghams and the entire line was practically cleared out in one day.

WE REPEATED OUR ORDER AND HERE THEY ARE IN A GREAT ARRAY OF LOVELY PATTERNS

It is an excellent quality, that a few months ago we were selling at 75c yard. The width is 32½ in. The colors are mostly pinks, tans, blues, mauves, greens and helios.

LEADER

"Hespeler-Grey" Graniteware, 98c

It is the same reliable first quality Granite Ware we have been selling for so many weeks. To-morrow you have choice of Gem Roasters, Water Pails, Stove Pots, Berlin Kettles and Berlin Sauce Pans.

LEADER

Boys' and Girls' Ribbed Cotton Hose, 29c Pair, 2 Pairs for 55c

(FORTY DOZEN)

Good quality Fine Ribbed Cotton Hose in all sizes, 6½ to 10, that usually sell at 40c, 45c and 50c a pair, according to size.

The color is fast, the dye stainless and the heels and toes are double.

This is the lowest priced Ribbed Stocking the Annex has offered in months.

Ladies' 50c, 65c and 75c Cashmerette and Lisle Hose, 29c Pair, 2 Pairs for 55c

(FACTORY SECONDS)

This is the second Annex Sale of these Stockings. They are mostly cashmerettes, but some are macco cottons. The color range includes black, brown and white.

Although they are rated as seconds the imperfections will not affect their wear.

LEADER

A GREAT VALUE

Ladies' Sample Undervests, 43c

An extensive selection of Spring and Summer Undervests in plain and trimmed styles—many "Cumfy Cut" garments.

They are samples and are more or less soiled, but none are damaged and all will wash clean.

Children's $1.25 to $1.75 Fleece-Lined Sleepers, 89c

They are "Yorknit" one-button Hatch style, with drop seat. The sizes are from 0 to 7. This is the second Annex Sale of them. Their good value was appreciated last week and will be again to-morrow, we believe.

Children's $3, $3.50 and $4 All-Wool Coat Sweaters and Pull-Overs for $1.79

Many of these garments are priced less than half. It is a clearaway lot, purchased by the Annex buyer at a ridiculously low price, and to-morrow's purchasers reap the benefit.

Here is the color range: old rose, saxe blue, light green, Copenhagen, coral and moss green. When the sale commences there will be sizes for children from 2 to 8 years.

SEE WINDOW DISPLAY

A ONE-HOUR SALE!
9 A.M. TO 10 A.M.

500 Yards of White Flannelette, 19c Yd.
34 INCHES WIDE

When we tell you that less than two months ago the Annex price on this same quality flannelette was 43c yard, you will realize what a great opportunity we present to-morrow.

It is a good weight, is pure white and is a Canadian Saxony. It will be sold in five and ten-yard lengths only, and there is a positive limit of twenty yards to one buyer. (No Phone Orders.)

For One Hour Only—9 a.m. to 10 a.m.

The CRESSMAN Company Limited

Ladies' House Dresses, $1.59

These Dresses are unusually good value. They are made of percale in pretty stripe patterns on light and medium grounds. They are made with two useful pockets and a belt; collar and cuffs of white pique. A good range of sizes for early buyers.

LEADER

$1.15 and $1.25 Bleached Sheeting at 66c Yard

A wonderful Sheeting for such a price. First buyers will have choice of 8/4 and 9/4 widths. Come early for

IT WILL SELL RAPIDLY

we are sure of that, for the price is low for such good quality Sheeting.

LEADER

Extra Heavy Circular Pillow Cotton, 47c Yd.

The widths are 40, 42 and 44 inches and the regular prices are 75c, 80c and 85c yard. It is an extra heavy weight that is, more or less, unusual in Pillow Cottons to-day.

A great chance for to-morrow's buyers.

LEADER

30c and 35c Canadian Prints, 23c Yard

This is a new Spring shipment of Made-in-Canada Prints. Their width is 30 inches and their regular price is 30c and 35c yard. Nine o'clock buyers will have choice of a splendid range of neat stripe and figured patterns in navies, greys, lilac and light colors.

"JUST ARRIVED"

Shipment of 50 Cases of Special Toilet Paper
8 Rolls for 49c

It is Really Worth 10c a Roll.

LEADER

Ladies' Lace-Trimmed White Cotton Night Gowns, 98c

Here is a remarkable value in ladies' gowns. You have choice of "Mother Hubbard" or "Slip-Over" style with dainty lace trimming at the neck and sleeves. Last season we could not possibly have sold this gown for less than $1.75.

A Few Words About a Dozen Good Values

Natural Shantung Raw Silk, 53c yard.

Little Tots' Knit Ribbed Undervests and Slip Waists, 19c.

Dollar value Overall Aprons, 69c.

35c Bleached Cotton, 22c yard.

Ladies' and Girls' Middies, less than half price, $1.29 each.

60c White Dress Voiles, 40 inches wide, 39c yard.

"Superior" Shetland Floss (full size skeins), 13c skein.

"Ibex" Largest, 12/4, Size Flannelette Blankets, $2.89 pair.

"Dragon" Medium, 11/4, Flannelette Blankets, $2.19 pair.

Yard-wide Stripe Flannelettes, 24c yard.

Bonner-Worth Ball Floss, to clear, 19c ball.

Ladies' "Snug-Fit" Pink Balbriggan Bloomers, 59c.

69c and 79c Wide Silk and Satin Ribbons, 49c Yard

We have taken about twenty pieces from our Street Floor stock and placed them in the Annex at this price. They are all five to six inches wide. Some are satin and others taffeta; obtainable in the following colors: navy, old rose, Copen, white, cardinal, pink, sky, scarlet and black.

Every piece is comparatively new goods.

NO GRANTS FOR MUSIC IN THE PARKS, $3,000 FOR PETERBORO EXHIBITION

HEALTH ASSOCIATION'S ASSISTANCE FROM THE COUNCIL REDUCED $250—FEWER DEMANDS THIS YEAR PROMISE A SAVING IN THIS DEPARTMENT OF SPECIAL GRANTS.

OTHER CONTRIBUTIONS

In their preliminary draft of the 1921 budget last night, the Committee of the Whole Council made no appropriation for band purposes in the tentative listing of the special grants. This was practically the only regular item omitted, but Ald. Gordon's "we'll see" remark suggested that when the estimates for this year are finally revised some allowance may be made for summer music in the parks.

"Nothing for bands," said Ald. Whitehouse, the musician of the Council, when this memorandum was mentioned.

"Unless there is some guarantee that the public shall get a certain standard of music I am opposed to giving anything for bands," added Ald. Crowe. "Last year they played whatever they liked, and we certainly didn't get satisfaction."

Assist Exhibition.

Ald. Whitehouse stood out for assistance to the Peterborough Exhibition, and $3,000 was set down for that appropriation.

The Sick Children's Hospital appealed to Ald. Gordon, who urged that the usual donation of $25 be increased to $100.

"There are many children from this city who are treated in that institution," he said.

Other members were satisfied with an increased and fixed it at $50.

The Peterborough Poultry Association have already received their usual $100, and the $50 for the Teachers' Institute is a statutory contribution.

Cut Health Grant.

The appropriation for the Health Association was cut from $1,000 to $750.

"They won't suffer a lot if they are off $250 this year," remarked Ald. Whitehouse.

Full Amount for Playgrounds.

"It's a mighty worthy cause," Ald. Gordon said, and when the Playgrounds Association received their full amount of $1,000, Ald. Phelan urged that this work was not so worthy as that of the Health Association.

Ald. Hay stated that the children who needed the playgrounds most didn't go there. Some of the Aldermen contested that statement, and **Ald. Gordon declared, that from his trips to Buffalo and to many Canadian cities, he had noticed that the children of Peterborough were the best dressed of all those he had seen.**

Ald. Hay insisted that he had visited the playgrounds and that there poorly clad children were on the streets instead of at the playgrounds.

"Besides, the Board of Education has boosted their grant to the Playgrounds Association," Ald. Hay added.

Ald. Whitehouse—We are paying twice to this cause.

The appropriation for bathing places was $1,000 last year, but a considerable part of it was not spent. This year $500 will have to do.

"Labour day celebration — what about that?" City Treasurer Adams called out, as he proceeded down the list.

"I'm a little doubtful," said Ald. Crowe.

"Make it $100, we are willing to take a cut," Ald. Gainey proposed. Last year the Trades and Labour Council received $250.

$500 For Babies' Clinic.

Remembering the appeal of the deputation in January in behalf of the Well Babies' Clinic, the committee put this public health work down for $500.

"I'm not in favour," remarked Ald. Crowe, and a moment later he said, "I've raised all mine."

For the advertising of the Trent Canal lake country in the motor magazines of Canada and the United States, an enterprise supported by Orillia, Lindsay and other district towns, $200 was granted to the Board of Trade, the local organization that is interested in this publicity.

Ald. Phelan made another plea for the Peterborough Health Association. "The Well Babies' Clinic is a new organization, and you give it $500 to start with," he observed, "and the Health Association, which is established and has done a great deal of good, is getting only $750."

Ald. Gordon moved, seconded by Ald. Crowe, that the total appropriation for special grants be tentatively fixed at $7,000, and that the present list, which runs about $875 over that mark, be readjusted to comply with the committee's $7,000 maximum. The motion carried, and if it is adhered to, the city will save between $3,000 and $4,000 in this department.

In the discussion Ald. Jones cautioned the Aldermen that although it was necessary to keep the tax rate in view and to prune off the unnecessary expenditures, yet in the special grants there were many public undertakings that deserved subsidies, and which were generously supported in other cities.

CUTICURA HEALS ECZEMA

All over baby's face. Came in water-blisters and then formed a solid scale. Began to itch and burn so had to bandage his hands as he wanted to scratch. Face was badly disfigured. Trouble lasted 4 months. Began using Cuticura Soap and Ointment. Used one cake Soap and one box Ointment when he was healed.

From signed statement of Mrs. Albert Ellis, Wettenberg, N. S.

For every purpose of the toilet Cuticura Soap, Ointment and Talcum are supreme.

Soap 25c. Ointment 25 and 50c. Sold throughout the Dominion. Canadian Depot: Lymans, Limited, St. Paul St., Montreal. Cuticura Soap shaves without mug.

"When she was good they poured Crown Brand on her food, But when she was bad—they didn't."

The Great Sweetener

HOW TO DARKEN GRAY HAIR

A Cincinnati Barber Tells How to Make a Remedy for Gray Hair.

A well known resident of Cincinnati, Ohio, who has been a barber for more than forty years, recently made the following statement.

"Anyone can prepare a simple mixture at home, at very little cost, that will darken gray hair, and make it soft and glossy. To a half-pint of water add 1 ounce bay rum, a small box of Orlex Compound and 1-4 ounce glycerine. These ingredients can be bought at any drug store at twice a week until the desired shade twice a wak until the desired shade is obtained. This will make a gray-haired person look twenty years younger. It is easy to use, does not color the most delicate scalp, is not sticky or greasy and does not rub off."

REMARKABLE SALVAGE OF VESSEL EFFECTED.

Italian Battleship Refloated at Taranto After Being Blow Up in 1916.

(By Cross-Atlantic Newspaper Service.)

ROME, Feb. 22.—A remarkable salvage feat was accomplished by Italian engineers when the 22,000-ton battleship Leonardo da Vinci was refloated at Taranto. The vessel, which was treacherously blown up in August, 1916, turned turtle while sinking, embedding her funnels, turrets, masts and bridge in the muddy bottom of Taranto harbor.

Divers excavated a space around the ship, holes in her hull were cemented and a mile-long trench was dug, along which she was drawn to the dock. She was then towed out to open water, where, by flooding some of her compartments, she was enabled to right herself by natural means.

SURGEON'S KNIFE DEPICTED IN ART.

Realism At Its Ghastliest in Exhibition of French "Independent" School.

(By Cross-Atlantic Newspaper Service.)

PARIS, Feb. 22.—Realism at its ghastliest is the most striking feature of the exhibition of French "Independent" painters, which represents the youngest school of modern French art.

Obstetrics and the operating theatre are the themes of some of the most remarkable paintings. The outstanding picture of the show is a large canvas entitled "The Plague," and representing with revolting fidelity to grim detail dozens of dying people.

Easiest Way to Remove Ugly, Hairy Growths

(Beauty Culture)

Here is a method for removing hair from arms, neck or face, that is unfailing and is quite inexpensive Mix a thick paste with some powdered delatone and water and spread on hairy surface. After 2 or 3 minutes rub it off, wash the skin and every trace of hair has vanished No harm or inconvenience results from this treatment, but be careful to get genuine delatone and mix fresh.

TWO MEALS A DAY FOR BALL PLAYERS.

CHICAGO, Feb. 22.—Two meals a day for all except the veteran pitchers will be the rule at the Chicago Cub's training camp in California, it was announced by Manager Johnny Evers. Breakfast by 9 o'clock, three hours' practice, with perhaps more for the recruits, and the evening meal, will be the programme, Evers said, except for Alexander, Vaughn and a few veterans, who will be called on to carry the brunt of the pitching burden right from the start of the season. Two weeks of such conditioning, Evers believes, will prevent the squad from reporting for the season's opening game in poor shape because of overweight. The full squad will start practice March 7 at Tournament Field, Pasadena.

GREECE WILL NOT YIELD HER HOLDINGS.

LONDON, Feb. 22. — (Canadian Press.) — The Greek Premier informs Lloyd George he received a message from his Government which says Greece would yield nothing of her present holdings under the Treaty of Sevres.

No More Stomach Bloating

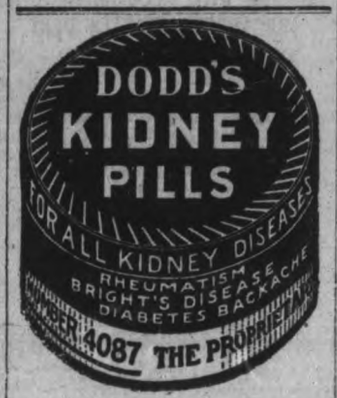
If your stomach is continually kicking up a disturbance; you feel bloated and distressed; if you belch gas and sour food into the mouth, then you need Mi-O-Na Stomach Tablets. Guaranteed by all druggists.

RED PROPAGANDA ON PAPER MONEY.

Japanese Socialists Adopt Novel Methods, Say Police.

(Special to The Examiner by Cross-Atlantic Newspaer Service.)

TOKIO, Feb. 22.—A new source of Bolshevist propaganda has been discovered by a policeman who has reported to the city authorities that the Reds are now writing catch phrases of Socialism on the backs of fifty yen notes. The theory is that while their phamphlets may be thrown away the money will not be, and that as it is circulated, the Socialistic mottees come under the eyes of many different persons and possibly stimulate some of them to further inquiry.



SEVERAL CASUALTIES IN MILITARY PATROL.

DUBLIN, Feb. 22. — (Canadian Press.) — Military patrol of Crown forces ambushed near Lilbrack by seventy men armed with bombs and rifles. One officer and three soldiers wounded.

STIPEND INCREASED $300.

Rev. T. McNaught, Presbyterian minister of the Roseneath and Bethesda charge, in the Peterborough Presbytery, has been voted an increase of $300 in his stipend. He was also given an honorarium of $50 in addition.

Be Slender

A true way to become slender, agile, healthy is now yours. See the pictures; the shadows are to give you idea of size before reduction of weight. No need of starving yourself, or exhausting exercises. No salts or calomel, no thyroid, no loss of time. This item is a real Money-saver for Wednesday, therefore an Extra Special. Regular $1.39 each. Wednesday ..... 98c each

DISAPPROVE CONCERT SUNDAY EVE.

(Continued from Page 1)

deputation had any idea whether the Council could prevent the Sunday night concert taking place.

Have No Jurisdiction.

Rev. Mr. Rollins replied that he did not think the Council could take any more obstructive action than could one of the churches. They are relying on the force of public opinion. He was in a position to state that a representative of the Roman Catholic church had advised the management of the Opera House that in his judgment this concert should not be held. Organized religion represented by the Roman Catholic and Protestant churches and the Salvation Army were all agreed that this Sunday night concert was not advisable.

A Fifty-fifty Split.

Mr. Rollins added that unless the arrangements had been changed since last Wednesday by the force of public opinion, the understanding was that fifty per cent. of the proceeds were to go to charity.

"We are trying to do this in a kindly spirit," said Rev. J. R. Webb. "and whatever is done, to be most effective, should be done as early in the week as possible."

History had shown that in places like Peterborough such movements were begun by announcing the proceeds for charity and by taking up a silver collection. Gradually they were broadened out until the collection was supposed to be no less than twenty cents, although five cents would be accepted. In time pictures would be shown with the concert and it would not be long before the collection was taken in another way. The church people of Peterborough, he said, want all the support they can get in this object.

No Lack of Sacred Music.

"While we know that no man can be forced to go to church yet we feel that if these are going to be sacred concerts that lack should not be felt in Peterborough with its eighteen or twenty churches, where such sacred music is offered," was Rev. Mr. Malott's pointed comment.

"With the whole company of the citizens standing as one man we might suggest that the attitude of the churches is one which you will favour," suggested Rev. Mr. Webb.

Ald. Whitehouse said that when he first learned of the proposed concerts and that no revenue was to be received by the theatre he was inclined to regard them as a good idea. "To-day I heard that the concerts were also for the purpose of helping the band. If that is so, I said, they were entirely wrong and the voice of the people would be raised against them."

SLOAN'S GOES RIGHT TO THE ACHING SPOT

You can just tell by its healthy, stimulating odor, that it is going to do you good.

THOUSANDS of men and women, when the least little rheumatic "crick" assails them, have Sloan's Liniment handy to knock it out. Popular over a third of a century ago—for more popular to-day.

That's because it is so wonderfully helpful in relieving external aches and pains—sciatica, lumbago, backache, neuralgia, overstrained muscles, stiff joints weather exposure results. A little is all that is necessary for it soon penetrates without rubbing, to the sore spot. No mess, no stained skin.

All druggists — 35c., 70c., $1.40. Made in Canada.

Sloan's Liniment Pain's enemy

U.S. TO ACCEPT GERMAN BONDS

WILSON WILL RECOMMEND THIS REGARDING BELGIAN DEBT.

WASHINGTON, Feb. 22.—Within the next few days President Wilson will, it is expected, send to Congress a recommendation that the United States accept German bonds bearing five per cent. interest to the extent of approximately $175,000,000 as payment of the debt due to this Government from Belgium on loans made up to the date of the armistice. This announcement was made officially at the State Department.

The Premiers of Great Britain and France have also agreed to recommend that their Governments accept German bonds for a portion of Belgium's indebtedness to them. Each of those two Governments will receive about $400,000,000 in such bonds.

Up to the first of last October Belgium had borrowed a total of $3,214,467.89 from the United States. Of this amount, however, only approximately $175,000,000 has been advanced.

NEW YORK PHYSICIAN CLAIMS PHOSPHATE DISCOVERED BY FRENCH SCIENTIST IS GODSEND TO WEAK, NERVOUS FOLKS.

"Let those who are weak, thin, nervous, anaemic or run-down, take a natural, unadulterated substance such as Bitro-Phosphate and you will soon see some astonishing results in the increase of nerve energy, strength of body and mind and power of endurance," says Dr. Joseph Harrigan.

McDermid & Jury or any good druggists will supply the genuine Bitro-Phosphate at reasonable cost.

ESCAPE DEATH BY ALMOST A MIRACLE

C.N.R. TRAIN DERAILED NEAR BISSELL, ALBERTA—ONLY TWO INJURED.

EDMONTON, Alta., Feb. 22. — Passengers on No. 2 Canadian National Railway train from Vancouver, due in Edmonton at 6.50 o'clock yesterday morning, had a miraculous escape from death at that hour when seven coaches were derailed, two of which overturned, three miles west of Bissell. Two men were seriously injured and there others sifghtly. The seriously injured are: E. R. Harmell, Edson, broken arm; J. Armstrong, Edson, broken leg. The accident is believed to have been due to a spreading of the rails.

A TREAT PROMISED MERCHANTS

AN EFFICIENCY TALK TO BUSINESS MEN ON WEDNESDAY EVENING IN G.W.V.A. HALL.

Mr. Thomas F. L. Henderson, Business Counsellor of the La Salle University of Chicago, is announced to pay a visit to Peterborough on Wednesday evening, February 23rd, and deliver an address to business men in the G. W. V. A. Hall, Murray Street, commencing at 8 o'clock. "Efficiency" will be the theme, and as Mr. Henderson is a known expert on efficiency and sales much profit is promised from his practical talk on the things that count in the conduct of business.

Mr. Henderson, in his practical knowledge of the principles in salesmanship, will tell merchants what he knows above the real problems of the hour. It will be a sort of round-the-table talk at which merchants will be free to present their problems to Mr. Henderson in whatever form they desire. He can show them how to outline a plan which will best adapt itself to their preculiar needs.

Mr. Henderson has come to the front as one of the foremost of America's speakers. His forceful personality, his mastery of language, his insight into fundamentals, and his ability successfully to inspire people to get the best out of themselves make his talks unusually effective. He has spoken at meetings of associations of commerce, business clubs, salesmanship conventions, etc., where his talks have unlocked hidden possibilities.

The Chicago Sales Managers' Association has the following to say of Mr. Henderson's work:

"We owe a debt of gratitude to your University and especially to your Mr. Thomas F. L. Henderson, who delivered before our association a most remarkable address on 'The Salesman That Wins To-day.'

"Mr. Henderson has a way of making one feel that he is speaking directly to one; and this, combined with his thorough knowledge of human nature and his charming personality, made his address to us of unusual interest and value. We trust we may have the pleasure of having him with us again."

Mr. C. W. Smith, of 145 London Street, is the local representative for the La Salle Extension University.

PIPE BAND PRACTICE.

All members of the Pipe Band are requested to attend the full practice with pipes and drums on Wednesday evening in W.O.W. Hall at 8 o'clock prompt.

MILD WINTER CAUSES BIRDS TO FLY NORTH.

BOSTON, Feb. 22. — Birds are singing, mating and breeding in the north woods. Edward Howe Forbush, state ornithologist, said to-day that the unusual warmth and openness of the winter had stirred the birds much earlier than usual. Mating has begun and several nests of young have been found. Mr. Forbush said there had been a fairly general movement of birds toward the north.

"CASCARETS" FOR CONSTIPATION

Just think! A pleasant harmless Cascaret works while you sleep and has your liver active, head clear, stomach sweet and bowels moving as regular as a clock by morning. No gripping or inconvenience, 10, 25 or 50 cent boxes. Children love this candy cathartic too.

CRIBBAGE AND WHIST PARTY AT G.W.V.A. HALL

Starting next Monday evening, the G.W.V.A. will inaugurate a new idea to the general public of the city by holding a cribbage and whist party in the G.W.V.A. Big Hall. A cordial invitation is extended to all to come along and spend a pleasant evening. Tickets can eb had from any member of the G.W.V.A. Next Monday week they intend holding a whist party exclusively.

Lumbago

like rheumatism is caused by poisons left in the blood by defective kidney action. Correct this condition by using Dr. Chase's Kidney-Liver Pills. One pill a dose. 25c. a box, all dealers.

SALES PAVING WAY TO SOUND BUSINESS NOW

(Continued from page 1.)

tons have been reduced only 40 per cent.

Hardware Business Suffers.

The decline in building operations for the last seven years has hit the hardware trade. Retail dealers are not buying now, because prices have reached the peak, but if labor comes down building will probably be resumed, with a consequent demand for hardware accessories. In the meantime, the spring season when the housewife's seeking eye will discover many a fault in paint and varnish, will cause a little flurry in this branch of the business.

The furniture dealers predict cuts at the beginning of the year of from 12 1-2 to 15 per cent. on various lines. Furniture, like so many other things, went up about 200 per cent. since 1914, but, although the promised reduction may seem small, it must be remembered that wages are high and may stay so for some time, and materials are also very costly.

Pre-War Prices Vanish Forever.

The consensus of opinion seems to be that although things may come down to a certain extent, we have about reached rock bottom in most cases, and one and all are agreed that prices will never be the same as before the war. However, this is only a theory, and the gradual levelling process is going on, a little here and a little there. The period of stabilization in prices and commodities is slowly but surely asserting itself. The man who, up to a short tome ago, made let us say, $7 per day, with a total output for himself and family of $6.75, leaving a balance of 25 cents for the "rainy day," was not nearly as well off as he was before the war, when he made $4 perday, and it cost him $3.25 to live, with a "bit for the stocking" of 75c. daily, and the sooner we all realize this, the better off we will all be. It isn't the amount a man makes that determines his present or future prosperity, but rather what can he save?

Still "Going Down."

But, speaking of prices at rock bottom, we notice that bread is selling in a certain district for 9 1-2 cents a bag in a small place of his 35 cents for twelve, and a gentleman who knows told us yesterday that potatoes were disposed of for 60 cents a abg in a small place of his acquaintance. We are evidently still "going down," thank goodness.

INVITATION FOR REV. F. E. MALOTT

Substantial Increase in Salary for Pastor of Trinity Church.

At the February meeting of the Quarterly Official Board of Trinity Church, a hearty and unanimous invitation was extended to the pastor, the Rev. F. E. Malott, to remain a fourth year as pastor of the church.

The cordiality of the invitation was evidenced by the promise of an addition of two hundred and fifty dollars to the salary for next year.

Mr. Malott, in accepting the invitation, thanked the Board for their generous provision for him. He spoke of the high place that Trinity Church holds among the churches of Canadian Methodism, and assured the Board that his purpose in remaining as pastor of the church was that he might work with them for the welfare of the cause in which they were all interested.

During the past twelve months Mr. Malott has declined invitations from several leading churches to become their pastor in June, 1921.

Constipation

It is a disease-producing malady, and if not corrected may result in serious complications. To good health the bowels should move freely at least once every day, carrying away the waste products from the Blood and Liver. If this function fails or is irregular, the work of removing the poisons falls on the Skin and Kidneys, with the result of the latter organs becoming congested and clogged. The Blood becomes poisoned, Indigestion sets in, the Kidneys become deranged, and a severe if not fatal illness is brought on. DR. HENDERSON'S HERB TABLETS correct this trouble by its action on the Liver, causing a healthy flow of Bile, and exerting a soothing and toning influence on the whole Intestinal Track.

Dr. Henderson's Herb Tablets are put up in three sizes—25c, 50c, $1.00 per Box. For sale at Warne's Drug Store, Peterborough.

STRANGE CONDITIONS IN SOVIET THEATRE.

Even Cloak-Room Attendants Help Decide on the Repertory.

(By Cross Atlantic Newspaper Service.)

BERLIN, Feb. 22.—The strange conditions ruling in Russian theatres under the Soviet regime were described in a lecture on "Intellectual Life in Russia" by the dramatic author, Leo Mathias. He states that there are three kinds of theatres—private theatres, where musical comedy is played; autonomous theatres and Government theatres (formerly Imperial State theatres). All these are subventioned by the Government and directed by a Theatre Council, composed of actors, the management and stage hands. Even the cloak-room attendants are represented in the Council which decides on the repertory.

RHEUMATIC PEOPLE CAN FIND RELIEF

BY ENRICHING THEIR BLOOD WITH DR. WILLIAMS' PINK PILLS.

Rheumatism is a disorder of the blood. It attacks people when the blood is overcharged with impurities, thus setting up inflammation of the muscles and joints. Wet weather or cold weather may start the tortures of rheumatism, but it is not the cause. The cause is in the blood. Victims of this malady have every reason to fear the first dull ache in the limbs and joints, followed by sharp pains through the flesh and muscles these are the symptoms of poison in the blood which may shortly leave the victim pain-racked and helpless. Rubbing liniments and applying hot applications may give relief, but that is all, and the pains are soon back again. You must treat the trouble through the blood, and the value of Dr. Williams' Pink Pills in cases of this kind is proved by Mr. Elias Bruce, Upper Clarence, N. S., who says: "Some years ago I had a bad attack of rheumatism which left me helpless. I had to have help to dress and undress myself and could not even lace my boots without help. Of course the trouble caused me much suffering, and I was in this condition for about ten months. One day a friend who called to see me advised the use of Dr. Williams' Pink Pills. I began taking them and soon found some relief, and a short while after all signs of the rheumatism were gone, and I have not since had any return of the trouble."

You can get Dr. Williams' Pink Pills from any dealer in medicine or by mail at 50 cents a box or six boxes for $2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

WILL ENTER THE CABINET.

ST. AUGUSTINE, Fla., Feb. 22. — (Canadian Press.) — Harry M. Daugherty, of Ohio, is chosen for the Attorney-Generalship under the coming administration by President-Elect Harding.

FIRE DEPARTMENT ESTIMATES FOR 1921 TOTAL $43,469.84

SALARIES BULK LARGE AT $29,400, INCLUDING THE WAGES OF THE FOUR NEW MEN ENGAGED TO PROVIDE DAY OFF IN SEVEN—SOME EXPECTATION THAT THIS LEGISLATION MAY BE RESCINDED.

The estimates of the Fire Department presented by Chief Grangeat a meeting of the fire, Water and Light Committe last night, totalled $43,469.84 as compared with $40,777.60 for last year, an increase of $2,692.24. Of the aggregate appropriations asked for by Chief Grange salaries amounting to $29,400 comprise nearly half th e total. No increase for the individual members of the brigade is asked, but the new salary list exceeds that of 1920, as a result of the addition of four new firemen required to comply with the new legislation giving each fireman one day's rest in seven.

Chief Grange stated that the men were averse to losing that day's wage, and on that account apparently there is some dissatisfaction with the new provincial law.

"But they won't sign a statement to that effect", Ald. Phelan remarked.

Ald. Whitehouse said that the loss of that day's pay did not affect the men alone, but their wives and children also.

Might be Rescinded

Members of the Committee expressed the opinion that the wave of opposition throughout the larger municipalities might influence the Government to abrogate this law. If that happened the increase of $4,291.25 in salaries could be written out of the budget It was recognized however, that the petitions from the municipalities might not be heard until too late. For that reason Ald. Gordon's motion that the Fire, Water and Light appropriation be reduced to $36,000 tentatively was defeated.

Car for the Chief

Ald. Crowe took exception to the item of $2,600 for a new automobile for the Chief.

"The police do not ask for a car that costs $2,600", remarked Ald. Hay.

Ald. Morrison—The police don't have the risks to run that we have.

Ald. Crowe— We are considering high taxes, and we have to be more considerate of the taxpayers. They are the ones who have to pay for all this. If the taxpayer is satisfied to do without some of this equipment it is for him to say. For that reason I am going to advocate reductions.

Ald. Phelan—Couldn't you make your car do another year, Chief.

Chief Grange replied that he had been putting off this matter for four years.

The Estimates.

The 1921 estimates for the Fire Department were submitted as follows:—

Fire hose	$ 1,350.00
General supplies	125.00
Linen	10.00
Light, Power and lamps	175.00
Newspapers	40.00
Office Supplies	70.00
Telephones	80.00
Salaries	29,400.00
Salary increase	100.00
Veterinary	40.00
Lumber & special repairs	100.00
Uniforms	1,375.00
Uniform caps	115.00
Uniform shirts	100.00
Incidentals	50.00
Fire ex. supplies	50.00
Horse feed	1,158.84
Fuel	918.00
Laundry	100.00
Horse shoeing	140.00
General repairs	100.00
Smoke Helmets	260.00
Respirators	81.00
Ladders	200.00
Convention expenses	100.00
Engine repairs etc	50.00
Pulmotor	15.00
Upkeep Motor Apparatus	900.00
Fire Alarm System	2,341.00
Foamite	140.00
Service Equipment	150.00
Pyrene refills	12.00
Chief's car	2,600.00
Hand lamps	120.00
Painting apparatus	900.00
Overcoats	80.00
Hose Shut off	24.00
Total	$43.469.84

Chief Grange's Report.

"Among the important matters is found the matter of one day off duty in every seven for firemen. Attached you will find an estimate of the cost. Altho additional expense is entailed, I believe that more protection will be the result. Owing to having been wrongly reported at the last annual convention of Fire Chiefs and the criticism that followed, I thought that it was not my duty to give further support to the measure, I had championed it to the best of my ability and adverse criticism was the only result. Despite this, however, I believe that it would prove beneficial by relieving the men of the responsibility for at least twenty-four hours per week. In towns the size of Peterborough, where men are required to report, altho they are supposed to be off duty, it is more of a necessity than in towns like Toronto, Hamilton and Ottawa where men are practically free from duty for an average of twelve hours daily. I am quite confident that were a disastrous fire to occur that these men would attend and that there would be nothing to interfere with their doing so.

Cost of Motorization.

You will also find a statement of the saving in the cost of maintenance that would be permitted by fully motorizing the department. We could do without horse, except in case of an exceptionally severe winter, when for a short period horses might be required. At that season many teamsters are without work and I believe would be glad of the opportunity of placing their horses in the station.

In order to complete the fire alarm system it will be necessary to purchase 500 lbs., of weatherproof copper and 2,500 feet of 3-pair lead cable, the latter to be placed in the conduits of the Bell Telephone Co., across the Hunter street bridge. I have repeatedly advised that red lamps be placed on all the poles on which are mounted fire alarm street boxes. The cost is estimated at $216.00.

Last year I requested two Smoke helmets, but the cost had soared to $150.00 so we did not purchase any The price has now returned to normal and I am again presenting the request. I would also advise the purchase of six small respirators and goggles for the protection of the men in the smoky fires.e

Six hand electric lanterns were asked for last year, but the sample submitted was not satisfactory, failing to focus properly. The American-La France Co., have notified me that this difficulty has been overcome, so I am again presenting the request.

The Combination Hose and Chem ical Car, the ladder truck, engine estimate of the cost of this work.

More Reading Matter.

I wish to advise also that additional reading matter be purchased for the department. The following publications would meet the requirements: London Illustrated News, Scientific American, Popular Mechanics, Fire and Water Engineering, Mail and Empire or Globe, and Examiner.

A new automobile should be purchased to be used as a Chief's car. I might say that I am extremely anxious to have this car purchased owing to the dangerous condition of the Ford. Although this car has the name of Chief's car, it is used for fire purposes only. Often the department responds to small fires in it and the men themselves feel that it is unsafe and wholly inadequate.

One thousand feet of fire hose should be purchased. Six hundred feet of our stock is practically unfit for the fire service and could be turned over to the Board of Works. This amount should be bought in order to keep our stock up to the required standard.

Owing to increased clerical work in connection with the department I feel that it is necessary to have one of the members, who is capable of doing this work receive one hundred dollars per annum additional salary. Most of the time of the Chief is occupied with inspections and other work outside, making it impossible for him to attend to the work in the office. The increased number of inspections have to be filed and reports made regarding them, detailed reports have to be furnished the Fire Marshal, Dominion Fire Commissioner and the Underwriters' Association, and an accurate account kept of the stock and fire department expenditure. I believe it to be only fair that this additional work should be rewarded.

Estimated Cost of Granting One Day in Seven to Firemen—4 Additional Men Required:

Salaries—	
3 men at 3rd grade ($1200)	$3,600.00
1 man at 1st grade	1,350.00
Service Equipment—	
4 helmets at $10 each	40.00
4 belts at $3 each	12.00
4 wrenches at $3 each	12.00
Beds—	
2 mattresses at $12.50 each	25.00
Linen and laundry	27.00
Uniforms—	
4 uniform suits at $50 each	200.00
Rubber Boots—	
4 pairs rubber boots at $12	48.00
Rubber Coats—	
4 rubber coats at $14	56.00
Overcoats—	
4 overcoats at $42 each	168.00
Caps—	
4 uniform caps at $5 each	20.00
4 winter caps at $3 each	12.00
Shirts—	
8 uniform shirts at $2	16.00
	$5,586.00
Initial expenditure	$5,586.00
Annual expenditure thereafter	$5,206.00

Comparison of Cost of Operating a Fully Motorized Department and a partly Motorized Department as at present:

Horses.

Estimate for horse feed	$1.158.84
Horse shoeing	140.00
Veterinary	40.00
Harness repairs	50.00
	$1,388.84

Motors.

Estimate for motors (including gasoline, oil and repairs for tractor for ladder truck and spare hose wagon	700.00
Saving effected by motorizing	688.84

Estimate re Horse Feed.

Hay, 23,440 lbs., at $28.50 per ton	$334.02
Oats, 19,180 lbs, at $1.05 per bush	592.32
Bran, 3,600 lbs, at $45 per ton	81.00
Straw, 6 tons at $20.50	123.00
Stock food, carrots, etc.	28.50
	$1,158.84

Estimate re Fire Alarm System.

500 lbs. No. 10 copper (weather-proof) at 30c	$ 150.00
6—6 inch electro-Mechanical gongs	226.00
1 gallon chemically pure sulphuric acid	1.00
Other expenses incidental to the upkeep of the system	40.00
Labor (2 linemen from Utilities Com stringing wire, 100 hours at 65c	65.00
	$500.00
Red lamps for street boxes	216.00
2500 ft. 3 pair lead cable	1.625.00
	2,341.00

HOME TREATMENT FOR COLD OR GRIPPE

METHOD WHICH WILL RELIEVE A COLD IN A SINGLE NIGHT.

Every reader will be interested in a treatment which, on a record extending over many years, promises relief for even bad colds in a single night.

This remedy, under the name of Grip-Fix, is now sold at all drug stores. It comes in capsule form for convenience in taking, and assuring prompt action. It contains nothing but just the ingredients which are generally prescribed by physicians for colds. It is a safe and reliable remedy, prompt in action, certain as to results.

Keep a box of Grip-Fix in the house so as to start treatment promptly as soon as cold appears. By following the directions even a bad cold can be conquered in a night, and even a case which has developed to the grippe stage in 36 hours.

Be sure to get the genuine Grip-Fix, as there are many substitutes. On sale at all druggists, 35c a per box.

SKATING PARTY AT MARK STREET RINK.

About forty of the members of St. Luke's Y.P.A. held a skating party at Mark Street Rink last evening, and had a delightful time, with the good ice and fine weather conditions. At ten o'clock, an adjournment was made to the Sunday School, where refreshments were served, and some instrumental selections given by the Misses Mildred Greene and Carpenter. A good sum was realized for the work of the Y.P.A.

MUSIC AND DRAMA

HERBERT'S MINSTRELS.

Joseph A. Herbert's troupe of coloured minstrels entertained a big audience at the Grand last night with their melody, mirth and vaudeville features. The company offered a clean, snappy performance, with few dull moments, and their programme seemed to meet the approval of the audience, judging by the applause. If there was any fault to be found it lies perhaps in the predominance of end songs in the first part and a scarcity of solos from the circle. George Glascoe, the possessor of a powerful bass voice, contributed perhaps the feature number of this part in his singing of "O'er the Billowy Sea." The dancing of the end men was away above the average, and the orchestrsa was of great assistance. The olio contained a number of vaudeville features of merit. The Great Adams did some wonderful trick bicycle riding. Mr. Henry Hunt scored in a fire-swallowing and contortionist act. The Comedy Four put over a big hit in the vocal offering, and Johnson and Brown were well received in their clever dancing number. A sketch, "King of the Sandwich Isles," made a fitting finale to a well-balanced programme. It was the first visit of Herbert's Minstrels to Peterborough, and they created a very favourable impression.

TETRAZZINI'S FAVORITE PIANO

Tetrazzini, known to the world of music, as the world's greatest coloratura soprano, frankly tells of the delight it was to her to us a grand piano made by Ye Olde Firme Heintzman Co. Limited George and Hunter street, Peterboro, at her recent concert in Toronto and Montreal. How generously she responded to the many encores in the Massey Hall concert was well known to a large number of people who were present; in all of which the piano used was put to the most exacting tests, but measured up fully in every case.

WOULD TEACH SEWING.

OSHAWA, Feb. 22.—At a special meeting of the Board of Education here the Simcoe Street School Home and School Club asked permission for mothers and teachers to teach the girls plain sewing on the last Friday afternoon of each month.

Trustee Brown thought the little ones should not lose any more time from their regular school work. The question was sent to the Management Committee to report.

Boils So Bad

HAD TO GIVE UP WORK

Frou the days of Job, up to the present time, boils have been one of the afflictions of the human race.

All the poulticing and lancing you may do will not prevent them from breaking out again.

Boils are simply caused by the bad blood bursting out; and the bad blood must be made pure before the boils will disappear.

Burdock Blood Bitters, which has been on the market for over forty years, is well known as the greatest blood medicine procurable.

It purifies the blood by removing every particle of foul matter from the system, and when this is done the boils vanish, and you should never be troubled again.

Mr. James Fahey, Newport Island, Que., writes:—"I was troubled with boils on my back and neck, so bad that I was obliged to give up work. I tried several remedies, but got no relief. Finally, I went to a doctor, and he treated me for several weeks, and all without benefit. At last a friend told me of Burdock Blood Bitters, so I decided to give it a trial. I got three bottles, but before I had taken two the boils were all gone. It is eight months now, and I have had no return of the old trouble, and have never felt so well."

B.B.B. is put up only by The T. Milburn Co., Limited, Toronto, Ont.

A SOLEMN REFERENDUM

If we took a nation-wide referendum on the question "what is the cleanest, most nutritious breakfast cereal in the world" there is no doubt that the verdict would be in favor of **Shredded Wheat Biscuit.** It is something more than a breakfast cereal. It is a substitute for meat, eggs and potatoes for any meal, much more nutritious and costs much less.

Two Biscuits with hot milk make a warm, nourishing meal at a cost of a few cents—the most real food for the least money.

MADE IN CANADA

Voice Of The People

To the Editor of the Examiner.

Dear Sir,—In reading Professor J. Arthur Thomson's lecture in the Examiner last evening, it was interesting to learn of one long lost ancestor we have cause to be proud I am sure. In the first place this learned man tells us we were little fishes, and often we got a bit strong we jumped out of the sea on to the land and we turned into worms. Yes, I remember often at certain prayer-meetings, I have heard humble folk call themselves worms. I guess it was instinct made them say that. Well after being worms for a while we turned into centipedes or caterpillars, or perhaps it would be better to say cabbage-worms, well it's not hard to believe for judging by their talk some folk are not far removed from that now, after that wonderful to relate the drog came on the scene and this little chappie had a voice and he lent it to the cabbage-worm who croaked as he ate the cabbage. After that I don't know just what did happen but it's not hard to believe we got our voice from the frog for quite a lot of folk sound rather croaky these days really it would have been interesting to have heard such a profound lecture. I think if I had been there I should have said "Deah me how extraordinary," but after all it does not require an awful lot of book learning to come to such conclusion Why even an escaped lunatic could tell us as much

Thanking you, dear sir, in anticipation.

Your truly,
MRS. A. J. BURTON.

WINTER BATHING AT COBOURG

Cobourg World: Remarkably warm weather for February: why, even one of the men harvesting ice for next summer at Pratt's pond took a dip this week. Cobourg will soon rival Florida and all other southern watering places. This beats the Globe's robin, Port Hope's caterpillar and Picton's lilac blossoms.

TULIPS AT BELLEVILLE.

On Saturday two tulip bulbs were found making their way through the soil beside the wall of the home of Mr. J. Wilfrid Holmes, Belleville. The heat from the basement and the warmth from the sun had apparently promoted the early growth.

ASPIRIN

Only "Bayer" is Genuine

Warning! Take no chances with substitutes for genuine "Bayer Tablets of Aspirin." Unless you see the name "Bayer" on package or on tablets you are not getting Aspirin at all. In every Bayer package are directions for Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago and for pain. Handy tin boxes of 12 tablets cost few cents. Druggists also sell larger packages. Made in Canada. Aspirin is the trade mark—(registered in Canada)—of Bayer Manufacture of Monoaceticacidester of Salicylicacid.

New Drug Is Only Drug Known That Acts on Liver

Will be a Revelation to Suffering Humanity.

Cleans Liver in a few minutes. Symptoms of Liver Trouble are: Sallow Complexion, Bad Taste in Mouth on Rising, Tired, Out of Sorts, etc.

This new drug is called Tanated Calomel. It acts only on the Liver, which immediately relieves many troubles, as: Rheumatism, Constipation, Boils, Kidney Pains, etc. No Salts, Seidlitz, are necessary after taking, because it is self-eliminating. It does not have a nauseating, sickening feeling the next day, like so many similar drugs. You no doubt have been taking all sorts of laxatives, salts, castor oil, etc., with only temporary results. The reason is that none of these drugs act upon the Liver; they merely draw liquid from the blood and tissues, causing a great flush. What you need is something like Tanated Calomel, which causes the Bile to be excreted from the Liver into the Bowel, causing a natural elimination of the waste. You know waste allowed to remain in the system causes a multitude of troubles. I can venture to say that 90 per cent. of all sickness is due directly to this very thing. What is generally the first thing your doctor does when you are sick? He gets your Bowels operating so as to eliminate wastes in your Bowels, which is poisoning your system. Now, in order to be happy, healtry, vigorous, vivacious, bright, alert, keen to observe and understand, you must first keep your Liver clean, or you are coaxing all sorts of trouble upon yourself. Doctors recommend that you take a tablet before eating and one at bedtime. Just get some of these, and I feel assured that you will feel as if you had a new lease of life.

These Tanated Calomel Tablets are for sale by F. C. Weber, Druggist.

SPORTING NEWS, VIEWS AND GOSSIP

WILL ENCOURAGE THE LADIES AND SCOTS' TEAM TO PLAY HERE

THE FOOTBALL ASSOCIATION WILL TRY TO INDUCE BOTH TEAMS TO VISIT PETERBORO—A DANCE ON FIRST APRIL—ASSOCIATION REQUIRES REFEREES—SIGNED PLAYERS FOR SEASON 1921.

The first regular meeting of the Peterboro Football Association was held last evening in the G. W. V. A. Hall with President Cooke in the chair. A financial statement was read by Mr. Fred Sutcliffe, the local secretary, which proved that the Association was in a very good financial position.

A Dance April 1st.

The special committee appointed to make arrangements for a dance reported that they had engaged the G. W. V. A. Hall for April the first, for a public dance, and Mr. Harold Folis' three piece orchestra. The proceeds are to be devoted to the Peterboro Association Fund.

Will Induce Scottish Touring Team.

A motion moved by Mr. Fred Sutcliffe, seconded by Mr. W.Cooke, the President, was passed unanimously: "That the Peterboro Football Association, will do all in their power to induce the Scottish touring team to visit Peterboro to play an exhibition game here during the coming season, also resolved "That they will do their utmost to get the Ladies' Football Teams to play a charity game in Peterboro when touring Canada."

Association Requires Referees.

All last year's football referees and any person desiring to act in that capacity during the coming season, are requested to attend a special meeting of the executive in the G.W.V.A. rooms on 7th March, at 7:30 p.m. to receive instructions according to Ontario Football Association Rules. This is an excellent oportunity for old players to become "Knights of the Whistle."

Present Players are Signed for Season, 1921.

Through the medium of the press, the Association desires to let it be known that all Football players who participated in the football schedule in the city of Peterboro last year, are still bona fide players of all teams as registered with at that date, until the end of the spring schedule, ending June, 1921. The Peterboro football season runs from fall and spring—not the same as Toronto and district, from April to December—but in all likelihood will be altered when the present season is finished, so as to be in harmony with the rest of the O.F.A. districts.

BELL TELEPHONE TOOK 2 FROM THE NASHUA PAPER

Last night in a League game at the Water street alleys the Bell Telephone took two out of the three games from the Nashua Paper. For the Telephone A. Morrow was high man with 558, Elliotte next with 484. For the Nashau Paper Cookson was high with 535, King next with 493. Following are the scores:

Nashua Paper Co.—				
Whittaker	204	114	117	435
Stevens	125	159	127	411
Cookson	216	157	150	523
Pinette	121	156	146	421
King	180	210	103	493
	846	796	641	
Bell Telephone—				
Ward	199	163	90	452
Morrow	179	201	178	558
Long	171	152	149	472
Robinson	161	175	124	460
Elliotte	190	200	94	484
	900	891	635	

PETERBOROUGH GIRLS WON THEIR GAME

In the preliminary game of the Eastern Group, O.A.B.A. basketball games, played on Saturday evening, between Belleville and Peterborough, the score was 23-4, in favor of Peterborough. The game was refereed by Miss Lenore Sanderson, and the teams were entertained after th game with supper and dancing until train time.

FAMOUS ARTHUR PELTSEY IS DEAD.

WINDSOR, Ont., Feb. 22.—Arthur Pelky, heavyweight champion of Canada, and famous as the man who accidentally killed Luther McCarthy in the ring at Calgary seven years ago, died at his home in Ford City, Ont., after four weeks' illness from sleeping sickness. He was born at Chatham, Ont., October 27, 1883.

At the time of his death, Pelky was a member of the Ford City police force and held a seat on the Public School there. His last big fight fight was about a year ago, when he was knocked out by Bob Martin, heavyweight champion of the A.E.F.

Don't fail, before starting on a drive, to see if you have enough gasoline, oil, grease, water and air.

OFFICER'S WIFE KIDNAPS CHILD

LILLIAN BECK,

a dimpled little miss with The Winnipeg Kiddies, coming to the Grand on Wednesday afternoon and night, Feb. 23.

It was down in Tacoma, Wash., that little Miss Beck was kidnapped by a lonely army officer's wife. The lady calmly sent back word to the company that she intended keeping the girlie forever. "I have bought her a pony, and lots of other nice things, and I'm sure you won't miss her in such a big company," wrote the woman. But the company politely insisted on Miss Beck's return. "Gee, she was nice to me," said Lillian. "I had the time of my life." clairvoyant ability of a seventh

REGULATING GOLF GAMES IN ENGLAND.

Many Links Congested and Admission Card System in Force.

(Associated Press.)

LONDON, Feb. 21.—Golf links in many parts of the country are becoming so congested that clubs are taking steps to adopt a scheme of regulating the number of games played.

The most drastic step of all has been taken by the Monifieth Club, in Scotland, which has 1,500 members. Each member is being supplied with a card bearing his name and a serial number, and containing 100 spaces. He will have to produce this card whenever he wants to play and have one of the spaces stamped by the official starter before his game.

When the whole 100 spaces have been stamped he will have exhausted his year's ration of golf—at any rate for those links.

There will be 24 courts in all, which is sufficient to meet the tournament requirements. The championship courts will be five in number, as at Forest Hills, with superimposed matches daily until semi-finals and finals when numbers 2 and 4 with their fresh turf will be utilised.

ANOTHER VICTORY FOR TUXIS BOYS

Many people thronged the benches of the Brock street rink to witness a very fast game between the boys of the Murray street Church and Tuxis Boys. The ice was splendid. Many shots were taken at both goak keepers in the first period and Yelland succeeded in netting one. In another dash a few moments after they managed to met again. McCall suffered two penalties in the first period. "Creme" Yelland showed up splendidly in making a winding dash to the Tuxis goals.

Second Half

the Tuxis Boys got going. Thornton made a dash to the defence line and shot right into the Murray street nets. This was the first for Tuxis. "Scottie" Grime dashed up to the nets with the rubber and shot at the distance of ten feet, but missed the goal, but hit the post, something next to impossible to do. Fred Ash played good defence and manage to save some goals. Webber showed up good for Murray St., by making many wild goose chases down the ice. "Ed." Outram and "Gord" Manning showed up good while on their feet.

Both nets were guarded with great manoeuvrings on the parts of the goal keepers. Charles Doughty was sentry for Murray street while 'Dib' Davidson stood in the Tuxis nets.

The line up were:

Tuxis Boys.

Goal, M. J. I. Davidson, Defence, Lenard Grime, Frederick George Ash; Wings, Edward A Outram, John Thornton; Centre Norman McColl. Subs. H. Deladay, G. Manning.

Murray Streetfl

Goal, Charles Doughty, Defence, Yelland, Dallin; Wings Webber, Ward; Centre Johnston. Subs, Stacey, Miller.

Mr. Steer made a splendid bell ringer.

SH! CARTER DE HAVEN HAS TURNED SLEUTH

In "Their Day of Rest," Carter De Haven's new Capitol Comedy, which is released by Goldwyn, and will be shown at the Allen Theatre, beginning Wednesday, the comic star is seen in the role of a sleuth, chasing a bar of elusive soap about the kitchen floor. It was his first attempt at kitchen police; and naturally, he used up all the pots within five minutes. And when he attempted to wash some of them, the soap displayed all the slippery qualities for which it is famous. On hands and knees, our hero followed the trail. At length, it gave one desperate leap and disappeared. It was never found whole again, but later, at dinner, the soup had the peculiar taste which told the scullery detective that his elusive kitchen aide had been boiled alive.

M'DERMID WINS WADDELL TROPHY

DEFEATED RAY BEST WITH LAST STONE IN FINAL GAME THIS MORNING.

J. W. McDermid, who is runner-up for the Morrow Cup, for which he will play off with Alex Kay tonight, won the Waddell Trophy and the automobile rugs in the final game this morning, defeating Ray Best by the score of 15 to 13 with his last stone.

Best's rink got the second prizes, four sets of pyrex ware.

Many of the games played yesterday also ran to close scores, the feature of which was Kay's victory over Medd with a final six end. He was down 5 and had the house full of rocks except one Medd stone. After a lengthy deliberation with Walter Oke, his vice, Kay decided to play a chip shot off one of his own in the front outside ring. It was a perfect shot, picking out Medd's and laying six, giving Kay the game by 14-13.

The Waddell-Trophy series was postponed from the bonspiel when the local rinks entered defeated a corresponding number of rinks representing the outside clubs.

Preliminary Round.

T. Brightman, 16; W. T. Hall, 5.

E. L. Bowes, 10; W. G. Morrow, 8.

J. W. McDermid, 15; R. G. Sturgeon, 8.

A. C. Kay, 14; S. T. Medd, 13.

George Benor, 7; R. P. Best, 14.

Dr. Wightman, 10; J. E. A. Fitzgerald, 12.

First Round.

RESERVED SEATS THURSDAY NIGHT

BIG CROWD WILL WITNESS CITY LEAGUE DOUBLE BILL TO-NIGHT.

Reserved seats for the City hockey League Championship game on Thursday night, will go on sale at Bond's drug store to-morrow morning, at 50c each plus amusement tax. The reserved section is made up of the theatre seats. Twenty-five cents will be the admission price for all the other parts of the rink. Admission will be by way of the east side entrance and the main entrance. Arrangements have been completed to handle a record crowd.

The puck will be faced at 8:30 with Fred Waghorne as referee.

To-night's games are attracting much interest. DeLaval's big following of supporters are confident that the team can repeat their performance of the first half and defeat C. G. E. again. The Tool-room sextette just now are a fast travelling team with a punch that extends from bell to bell.

The victors of to-night's contest will have to give everything.

The League guarantees that in the second game between Hamiltons and Bankers the regular line ups will be used. It will be a lively battle.

WARD HOLDS OUT FOR SALARY ASKED.

LITTLE ROCK, Ark., Feb. 22.—Aaron Ward, third baseman for the New York Americans, has returned his contract to the management of the club unsigned, he announces here. Ward said he would be a holdout until his salary demand is met.

THIS WEEK'S BOWLING AT THE WATER ST. ALLEYS.

Wednesday — Brinton Carpet vs. Grocers.

Thursday—Lawn Bowlers vs. Post Office.

Friday—C.G.E. vs. Wm. Hamilton.

AT THE EMPIRE

Ther are certain books and plays that, in their original form, were very great successes, but upon being transferred to the screen seem to lose much of their charm. On the other hand there are some that gain materially by the visualization of the story. Such a one is "The Palace of Darkened Windows," the National Picture which is now showing at the Empire theatre.

The story moves along with a gradually increasing tempo and works up into a climax of great dramatic power. The contrast between the Orient and the Occident, from a psychological standpoint, has never been more clearly emphasized than in this motion picture. The suave crafty Indian Rajah, who reveals his true nature once he has the American girl in his power, is a character that is typical of the Orient, and Arthur Edmund Carew, who enacts the role, makes the part convincing. Claire Anderson also does excellent work as the American girl, whose curiosity leads her into greater danger.

Don't get the impression that "my car" is the best made. If we all thought the same way, there would only be one kind manufactured. Then remember that "pride goes before a fall."

AT THE ALLEN

In "Curtain!" her latest big photoplay, charming Katherine MacDonald has secured one of the most attractive vehicles of her career. A story of the stage, it tells a pretty romance of a popular actress, who gives up her career to wed the man of her choice. Later she discovers his infidelity and returns to her profession. How she works out her problem and eventually find happiness, furnishes one of the most delightful stories the screen has produced in a long time. In this photoplay Miss MacDonald is at her best.

"Curtain!" will be the attraction at the Allen Theatre, beginning Wednesday. The Katherine MacDonald Pictures Corporation is presenting it as a First National attraction.

WINNIPEG KIDDIES

The average newspaper critic endeavors to be fair and impartial. He is in the middle of a triangle—consisting of his editor, the public and the theatre manager.

Sometimes, however, one runs across a critic who not only wields a caustic pen, but gets away with it.

Such a one was a critic on one of the Saskatoon (Sask.) newspapers. Here is the terse comment with which he dismissed a certain show: "When you go to the —— this week, check your brains with your hat, because you won't need them."

Naturally, that particular show flopped for the balance of the engagement.

Theatrical productions which won the favor of this critic were considered phenomenal.

Then, into Saskatoon went The Winnipeg Kiddies, who are coming to the Grand on Wednesday.

The Saskatoon critic devoted an entire column to the Kiddies, and this is an exact reproduction of the first paragraph:

"It's a long, long time since the Empire Theatre has been swept with such storms of applause as greeted the efforts of The Winnipeg Kiddies at their opening performance Monday night. And the best of it is, the kids deserved every ounce of encouragement the audience gave them. They are easily the cleverest, brightest and most original aggregation of youngsters the city has ever seen and they have a wonderful show. It is wonderful on account of its decided novelty, its commendable 'pep' and its manner of presentation. The Winnipeg Kiddies give the best two hours of light entertainment Saskatoon has had this Winter."

The Kiddies will also give a special children's matinee at 4.15.

THE MORNING AFTER THE BIG NIGHT

The Wise Precaution of a Stuart's Dyspepsia Tablet After the Banquet Brings Pleasant Memories With the Morning Coffee.

If It hadn't Been for Stuart's Dyspepsia Tablets Like as Not I'd Have a Headache This Morning.

If you ever feel distressed after eating be sure to take a Stuart's Dyseppsia Tablet. For no matter what you eat there will be no gas, no sour risings, no lump in your throat, no biliousness, no dark brown taste in the morning. And should you now be troubled, eat a tablet as soon as possible and relief will come promptly. These tablets correct at once the faults of a weak or overworked stomach, they do the work while the stomach rests and recovers itself. Particularly effective are they for banqueters and those whose environment brings them in contact with the rich food most apt to cause stomach derangement. Relief in these cases always brings the glad smile. Get a box of Stuart's Dyspepsia Tablets, 60 cents, in any drug store. Be good to your stomach.

SAGE TEA DARKENS HAIR TO ANY SHADE

Don't Stay Gray! Here's an Old-Time Recipe that Anybody can Apply.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is mussy and out-of-date. Nowadays, by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears and after another application or two, it becomes beautifuly dark and glossy.

Can't Wipe It Off

No—it is a smile that remains, because he suffered from backache and kidney trouble until a friend advised him to use Dr. Banta's Kidney and Rheumatic Pills, and he is now as well as ever. Banta's Kidney and Rheumatic Pills will do as well for you. Right in your own City of Peterborough they have helped hundreds and if you do not get relief from these ailments return the box to your dealeer and he will refund your money.

WHITE ROSE GASOLINE FOR USE IN WINTER

WHY IT IS BETTER FOR YOUR CAR THAN LOW GRADE GAS.

Refining gasoline from crude oil is a separation process and can be likened to the process of skimming cream from milk.

Skim the top layer from milk and you have pure cream.

Dip a little further and you get cream and milk. Below this, milk only. If the bottle of milk stands long enough, you will have some water in the bottom of the bottle.

Gasoline is the first thing that comes from crude oil in the refining process. In our "Scientific Refining" process we sell as "White Rose" only the very first gasoline that comes off. A gasoline that is dry, volatile and homogeneous. On this account it starts quickly in the motor.

If, in our process of separation, we dipped a little further, like one would dip further into a milk bottle for cream, they would get both cream and milk, whereas in gasoline refining we would get coal oil.

When you use a low-grade gasoline in your automobile, here's what happens—when your car stands overnight or any length of time, coal oil being heavier than gasoline, the coal oil goes to the bottom of your carburetor and the gasoline stays on top. Result—your car starts hard. This is especially noticeable in cold weather.

"White Rose" starts easily at all times. It can be likened to the "cream" of crude oil. It is a gasoline famous for its volatile, homogeneous and uniform high quality, quick starting, smooth acceleration, full power and long mileage.

"White Rose" Gasoline is sold in Peterborough by The Banks Garage, 212-216 Charlotte Street.

TRIBUTE TO LATE REV. THOMAS MURTAGH

The members of Marmora Roman Catholic Parish have paid a loving tribute to the memory of the late Rev. Thomas Murtagh, founder of the parish and priest for so many years, by erecting a beautiful monument by his grave in the Roman Catholic Cemetery.

The monument is an old Celtic cross, decorated with the old Irish interlacing carving. The cross is hammered and carved, while the main part of the monument is highly polished and bears the following inscription in gold leaf letters:

"'Thou art a priest forever according to the Order of Melchisedech,' Ps. 109, v. 4.

"Sacred to the memory of Rev. Thomas Murtagh, first pastor and founder of the Church of the Sacred Heart of Jesus.

"Marmora, Ont. Born Oct. 9, 1863. Ordained priest June 8, 1889, in the ancient College of Carlow, Ireland, of which he was a distinguished alumnus. Died Feb. 28, 1920. May he rest in peace. Amen.

"Erected by his loving congregation, 'We have loved him in life, let us not forget him in death,' St. Ambrose."

The monument stands about twelve feet high and is made of the highest grade of Barre Vermont granite. The monument was erected by the Coughlin Monumental Works of Peterborough, and all the carving, lettering, etc., was done in their own factory in that city.

The committee and the executor of the late Father Murtagh have expressed appreciation and complete satisfaction with the monument.—Marmora Herald.

SOCIAL AND PERSONAL

Mr. and Mrs. Wm. C. Herlihy, Miss Mary Harrington and Mrs. Patrick Perdue of Downeyville, spent Saturday in Peterboro.

Miss McFayden, head milliner with Botnick Bros., this city, is in attendance at the wholesale millinery openings, studying the new spring styles and making selections for the spring season.

Mr. and Mrs. W. J. Rowe, Mark Street, were the hosts at a very pleasant little party at their home last Friday evening, when about forty of their friends and relations met in honour of Mr. and Mrs. John R. Tibben, who are leaving for their home in Syracuse, New York, after spending the winter here. Refreshments were served, and the evening was spent in the enjoyment of games and music.

Miss Mildred Lloyd, of Belleville, who is to give reading numbers at Knox Church choir concert on Thursday evening next, will be the guest of her aunt, Mrs. J. J. Pollock, 165 Perry Street, during her stay in the city.

Mrs. W. H. Flynn (nee Florence Little), of Smith's Falls, Ont., is in the city, the guest of Miss Rubye Sharp, Harvey Street.

Mrs. W. Tully, of Springville, is spending a few weeks with Mrs. K. L. Parks, of Toronto.

Mr. Robert Fair, city, and Mr. Robert Wood, Baillieboro, are in Schenectady, N.Y.

Mr. W. S. Hamilton, tenor soloist of St. Andrew's Church, Toronto, will be a guest at Knox Church Manse on Thursday. Mr. Hamilton is to sing at the choir concert at Knox Church on Thursday evening.

Mr. and Mrs. F. G. Stinson (nee Helen Warmington) returned this morning from Toronto.

VISITORS TO THE CITY.

Guests registered at the Empress Hotel: Geo. H. Wilson, L. M. Roberts, W. E. Dyer, E. D. Gates, C. B. Lewis, H. Bedlington, F. W. Lloyd, T. Rutherford, H. E. McLean, A. McDonald, S. P. Shantz, L. O. Lewis, H. J. Moore, A. W. McDowell, C. W. McCabe, of Toronto; Jno. E. Fisher, D. B. Reid, of Montreal; F. J. Lynch, Toledo, Ohio; W. M. Acker, Detroit; V. A. Philips, Kirkfield; F. W. Hutcheson, Huntsville; A. S. Taylor, Galt.; G. R. Newman, Cleveland; W. J. Drysdale, Kingston; G. A. Flavelle, Lindsay; and Mrs. E. B. Nettefield, Mrs. J. C. Moorehouse, Mrs. Hopkirk, Mrs. Segsworth, Mrs. Henderson, Mrs. Stikeman, Miss Allen, Miss McWilliams, Miss McDermid and Mrs. Wade, of Toronto.

At the White House: Jas. B. Davidson, Carman, Man.; M. J. Shaw, T. B. Norton, G. H. Fox, C. O. Burnette, N. Fleming, O. Kelly, of Toronto; R. E. Orr, Lindsay; A. Nailson, Cobourg; Jno. E. Boland, Hastings; Mr. and Mrs. E. W. Barr, Smith's Falls; C. R. Turner, Detroit; E. T. Jackson, Ottawa; C. H. McGibbon, Port Hope; R. McDougall, Perth; F. Miner, Hamilton, and Mrs. H. J. Wilson, Mrs. M. P. Shaw, Mrs. Z. Gallegher, Mrs. J. N. Smith, Mrs. W. C. Cork, Mrs. C. R. Blackburn, Mrs. P. C. Soules, Mrs. L. G. Thomson, of Toronto.

FINANCIAL AND MARKETS

All markets in the United States are closed to-day—George Washington's birthday.

MONTREAL.

MONTREAL, Feb. 22 (Canadian Press).—A straight drop of 4 points was the reaction on the stock market at the opening to-day in Canada Steamship Common to the decision of the directors yesterday to pass the dividend for the current quarter on the ordinary shares.

Among other prominent issues Abitibi sagged a quarter of a point to 42. Atlantic Sugar was unchanged at 30, Brazilian strengthened half a point to 34, and Brompton dropped from 43 7-8 to 42 1-2. Laurentide was fractionally weaker at 85, as was also National Breweries at 51. Spanish River and Wayagamack were steady at 73 1-2 and 77 respectively.

TORONTO, Feb. 22.—(Canadian Press.)— The passing of the dividend on the common stock of the company by the directorate of the Canada Steamships, Limited, had a disastrous effect on that issue during the trading on the Toronto Stock Exchange this morning and the break caused virtually the entire list to weaken. Opening four points down at thirty, Steamships was sold to the extent of over twelve hundred shares. The decline continued, a low mark of 27 7-8 being established before a slight rally sent the price up to 28 1-4 at the noon close. Preferred stock was steady, losing a small fraction at 66. Paper stocks continued to decline, Abitibi losing 2 1-4 at 40 1-2 and Brompton 1 7-8 at 42. Laurentide sold at 84 3-4. Stocks which reacted slightly, included Spanish River, Atlantic Sugar, Cement, Brazilian, Toronto Railway and Quebec Railway. C.P.R., Twin City and Steel Corporation were slightly light but firmer.

LIVE STOCK MARKET.

TORONTO, Feb. 22 (Canadian Press).—Cattle receipts medium, draggy. Quotations: Choice butcher steers, $9 to $9.50; butcher cows, medium, $5 to $7; calves, $14 to $15; lambs, $11.50 to $12.50; hogs, selects, fed and watered, $14.25 to $14.50.

Even a rotten egg is without some value. It is a fine thing to throw at a bad actor.

GRANITES, LINDSAY, ENTER THE FINALS

EMERGE SUCCESSFULLY FROM SEMI-FINALS FOR ONTARIO TANKARD.

TORONTO, Feb. 22 (Canadian Press).—Lindsay and Toronto Granites won their games in the semi-finals for the Ontario Tankard here this morning, and thus qualify for the final.

The former beat Stroud by 26 shots, and the Granites won from Queen City by 27 shots.

FIRST OFFENDERS UNDER PAROLE BD.

BOARD ALSO WOULD DEAL WITH SECOND OFFENDERS IN SOME INSTANCES.

TORONTO, Feb. 22.—(Canadian Press)—In the annual report of the Ontario Parole Board, as tabled in the legislature the hope is expressed that in the near future all first offenders in the province and all second offenders with a sentence of less than five years shall not be sent to Federal penitentiary but shall be placed under the jurisdiction of the Board. The Board expresses the hope that "Beneficient and effective work of reformation through prohibition and parole may be widened to include practically all these offenders against the law have not as yet journeyed far the on the criminal road."

LOCAL ANAESTHETIC FOR APPENDICITIS

LONDON DOCTOR PERFORMS NOVEL OPERATION—THE PATIENT FULLY CONSCIOUS.

LONDON, Ont., Feb. 22.—(Canadian Press.)—A unique operation was performed in Victoria Hospital here this morning, when Dr. A. G. Grant, a local surgeon, removed the appendix of Lorne G. Cargill, of Cargill, Ont., a third-year medical student at the Western University, using a local anaesthetic. Cargill conversed with attendants and classmates throughout the operation, and when asked to inform them when the surgeon's scaepel cut into his abdomen, stated that he felt nothing. Further, when the offending appendix was located, he complained of a dull pain and vomited slightly.

Novokaine, a modern local anaesthetic, was injected into the flesh before the operation, and the shock of the general anaesthetic was eliminated. The operation required one hour to do, extra precautions in handling the tissues being necessary under the local anaesthetic. This is the first operation of its kind to be done in London, and Cargill was reported this afternoon to be progressing favourably. Many doctors, nurses and students witnessed the operation.

FARMERS COMPLAIN OF HYDRO BLASTING.

NIAGARA FALLS, Ont., Feb. 22.—Farmers on the American side of the river are combining for possible action against the Hydro Commission for damage alleged to have been done by heavy blasting on the canal recently. It is said that considerable damage has been done and poultry farmers claim that it is interfering very much with the hatching of eggs. The hens, it is said, refuse to sit when blasting is going on.

The goose that lays the golden eggs is frequently killed but it seldom has a vacation.

ROBERT FAIR & CO., Ltd.

THE REDUCTIONS WE HAVE MADE FOR OUR

ADMISSION - 25 Cents

OBITUARY

J. WILSON DODDS.

The death occurred in Brandon Hospital on February 2nd, of J. Wilson Dodds, youngest son of Thomas Dodds, of South Monaghan. A wife and three children are left to mourn his loss; also his aged father and the following brothers and sisters: David and Mary Dodds, of South Monaghan; Rev. T. Dodds, of Cheltenham; W. H. Dodds, M.P.P., of Saskatchewan; Robert, of Western Ontario, and Peter, of Elgin, Manitoba.

THOMAS B. McGRATH.

The death occurred last evening at his home, 382 Aylmer street, of Thos B. McGrath, one of the oldest residents of the city. The deceased was born in Peterboro nearly 73 years ago and had lived here all his life. He was for 25 years City Assessor, was a member of the Board of Education and of the Separate School Board; was president of the Peterboro Building and Loan Society since its inauguration, 30 years ago, and a member of the Knights of Columbus. He leaves to mourn his loss his sorrowing wife, two sons; Fred and Thomas of Walkerville; two daughters, Mrs. L. Treacy, of Windsor, and Miss Margaret, at home, and two sisters, Mrs. T. LaPlante, and Mrs. D. Donoghue, both of Peterboro. He will be buried from St. Peter's Cathedral, at nine o'clock on Thursday morning, Feb. 24th, the date on which he was married 41 years ago.

SINN FEIN LEADER ARRESTED.

BELFAST, Feb. 22 (Canadian Press).—Sean McCraith, General Secretary of the Irish Self-Determination League, was arrested in London yesterday, according to advices received here to-day. He will be transferred to Ireland for internment.

Mr. A. Fairburn, of Lakefield, left for Toronto to-day as a delegate from the Lakefield Presbyterian Church to the Dominion Alliance Convention which will be held in Massey Hall.

REVIVAL — CHURCH OF GOD MISSION.

"What is your life?" was the burden of Evangelist Campbell's message last night at the Mission.

In a number of pointed interrogations the preacher addressed his audience, seeking by earnest appeal and argument to help each one to locate himself spiritually. That the evangelist's remarks were appreciated was evidenced by the splendid attention of the audience.

To-night the subject is to be Spurious Holiness. At the corner of Hunter and George streets. Services commence at 7.45.

TO-NIGHT AT THE S. A. TEMPLE.

Envoys Burditt and Alward, of Toronto, who have been conducting a special series of meetings at the S. A. Temple, will be heard for the last time at the S. A. Temple.

The meetings have been of the most inspiring and helpful character, many Christians having been blessed and several souls brought to a knowledge of the truth.

Envoy Burditt spent seven years in India with one of the Army's pioneer parties, and to-night he will give an acount of many of his wonderful experiences while in the Far East. No one interested in spiritual things should fail to hear these visiting officers, and you are cordially invited to come to the Temple on Simcoe Street at eight o'clock to-night. A most instructive and entertaining lecture will be given.

W. J. GRADY.

We carry a full line of Heinz' High Grade Goods, viz.:

Heinz' Pork and Beans, with tomato Sauce.
Heinz' Pork and Beans, without tomato sauce.
Heinz' Baked Beans, without meat.
Heinz' Sweet Pickles in bulk.
Heinz' Sweet Pickles in bottles.

Prompt Delivery. Phone 5-3-7.

ST. ANDREW'S SCOUTS.

The regular meeting of St. Andrew's Boy Scouts will take place to-night at 7.30 sharp. All members are to be there and uniform must be worn.

KNOX CHURCH CHOIR CONCERT.

The following artists will assist at the choir concert arranged to take place in Knox Church on Thursday evening next, Feb. 24th, at 8 o'clock sharp:

Mr. W. S. Hamilton, Toronto (tenor).
Miss Mildred Lloyd, Belleville (elocutionist).
Mrs. Percy Hooper (violinist).
Master Kenneth McCannon (boy soprano).
Miss Elizabeth Webber, Miss Grace Reid, Miss Dorothy Gillespie, Mr. F. E. Walden (pianists).

The choir and soloists will render the sacred cantata, entitled "The Rolling Seasons."

The concert will be conducted by Mr. F. E. Walden, organist and choirmaster of Knox Church.

Admission 25 cents.

HURLS TWO BABIES FROM A WINDOW.

Horrible Act of Girl Escaped From Bolshevism

NEW YORK, Feb. 22. — Two months after she had passed the mental tests incident to admission to this country, Celia Pargnan, a 20-year-old Russian, flung her two little nephews out of the second-story window of a Bronx tenement and leaped after them to the pavement. Abie Pargnan, 2½ years old, died of a fractured skull in Fordham Hospital; Harry Pargnan, 7 months old, is dying there with a fractured skull and internal injuries, and the girl herself is in a critical condition, her own skull broken.

Hardship and worry while she was escaping from Bolshevist territory in Russia is believed to have brought on a brooding type of dementia of a sort not uncommon with those who suffered more than most in the war, and to this physicians at Fordham were inclined to ascribe the girl's mad acts. She was made a prisoner in the hospital, and District Attorney Glennan, of the Bronx, questioned her there when she recovered consciousness, but could learn nothing because of her mental state.

Mrs. Leah Pargnan, the children's mother, was ill in bed when Celia who had lived with the family at 2,095 Mohegan Avenue and whose especial care the children had been, suddenly conceived her insane rage at them. Mrs. Pargnan's aged mother also was sick in the house and news of the tragedy was kept from her. Meyer Pargnan, the father, a hatmaker, was prostrated when he returned from work.

The sidewalk before the tenement was crowded with mothers sunning their babies when the bodies came hurtling out of the window. Fortunately no one was struck.

IN MEMORIAM.

In loving memory of Alice M. Downer, wife of John Johnston Downer, who died February 22nd, 1920.

We shall sleep, but not forever,
There will be a glorious dawn.
We shall meet to part,—no never,
On the resurrection morn.
—Father, Mother, Sisters and Brothers.

BIRTHS.

HOGG.—At 549 Albert Street, on Monday, Feb. 21, to Mr. and Mrs. Kenneth Hogg—a son.

ASK $12,000 COVER FIRE PROTECTION

UTILITIES CLAIMS WATERWORKS NOT RECEIVING ITS PROPER SHARE OF COST OF FIRE PROTECTION.

38 PER CENT. OF TOTAL

In asking the Council for an increase of $12,000 in their appropriation this year, the Utilities Commission have explained that this demand is not due to the proposed construction of a filtration plant, but to the fact that the city has not been paying their proper share of the cost of the fire protection furnished by the Waterworks Department, and also that the basis of apportionment of costs has not been fairly and soundly established.

The Commission, therefore, proposes to charge the city for the service that can be supplied. The quantity of water used during the year in fighting fires is scarcely worth considering. Analogous to it is the time spent by the firemen in the actual work of fighting fires. But the Fire Department has to be maintained to full strength and efficiency the whole year round, whether there are five calls or five hundred. In the some sense the waterworks capacity has to be kept up to the standard of maximum and emergency requirements. Not only does it supply domestic and industrial consumers, but it is ready for whatever fire protection may be demanded of it.

This is the nucleus of the idea back of the proposed change in the basis of charges as outlined by Messrs. C. E. Sisson and E. F. Mason of the Commission, and Superintendent Ross Dobbin at the meeting of the Committee of the Whole Council on Monday night. And just as the appropriation for the Fire Department is not fixed at a certain amount for each fireman, so the Commission contends its charge to the city should not be by hydrant rates. This old system of raising revenue from the municipality for the fire protection branch of the waterworks is obsolescent, incomplete, and generally unsatisfactory, it is contended.

Accordingly, the Commission has computed what part of the cost of the waterworks should be charged to fire protection, and from that basis have worked out the amount which they consider the Council should pay this year in the inception of the new system.

Prepared Statement.

The following satement was submitted to the Council, who appointed a committee to discuss the Commission's proposition in detail:

I beg to submit the following estimate of the portion of the total cost of running the Waterworks Department that should be chargeable to fire protection. The total investment in the Waterworks system is $673,282.35. The total debenture issue is $643,200.00. The total revenue from all sources in 1920 was $69,958.86.

(Continued on Page 2.)

M.P.'S WANT MUCH FOR FIFTY CENTS

OTTAWA, Feb. 23.— Trouble has developed again this year in the Parliamentary restaurant. Last year, certain changes were adopted that caused a lot of friction, but these had been successfully adjusted when, on moving this year into the beautiful new restaurant, several members objected to the prices, though really they are lower for the money than anywhere else. They want less style and fewer swallow tails, and the difference applied to a reduction in prices of eats. Meanwhile, they are trying with a certain success to engineer a boycott of the establishment. The menu is served at a price which represents only the cost of the food, with no allowance for overhead, but the kicking is vigorous for the rehabilitation of the five-course fifty-cent meal.

PETERBOROUGH ACCOUNTS ARE GIVEN AIRING

LIBERAL FINANCIAL CRITIC IN LEGISLATURE WANTS INFORMATION ON LOCAL CASE.

INSPECTOR STEWART

Yesterday, in the Legislature, Mr. W. E. N. Sinclair, M.P.P., asked the question of the Attorney-General, W. E. Raney, if the costs of License Inspector Stewart which were ordered to be paid by him personally, by the Honourable Mr. Justice Middleton when he quashed the conviction of Bert Hayton, of Peterborough, were paid to Mr. Stewart out of the Ontario License Board funds, and Mr. Raney said that the costs of Gordon & O'Brien, which Mr. Justice Middleton ordered Mr. Stewart to pay personally, were paid by the Ontario License Board.

The Honourable Mr. Justice Middleton made some severe comments on Inspector Stewart's interference with Police Magistrate Dumble while judgment was reserved, and for this interference, ordered Mr. Stewart to pay the costs of Bert Hayton's solicitors, but the Ontario License Board, of which Mr. Flavelle is the chairman, paid this cheque to Mr. Stewart.

GRADUAL DECLINE IN DRUG PRICES.

Many Lines Now Down to Pre-War Levels.

TORONTO, Feb. 23.—A marked tendency towards lower prices in the wholesale drug market may make the burden of the consumer of retail drugs lighter soon. Wholesale drug firms admit that the tendency had gradually been that way. Some products, however, are higher just at present than they have been throughout the period of the war. But, on the other hand, a drug that has been selling for $4 a pound has dropped to $1 and less.

This tendency, according to the New York Commercial, has resulted in an unwillingness of the retail dealers to buy at present quotations. Business is slow and the sales are only in small lots to cover pressing needs. "Demand has not been active for a long time," says the Commercial "Supplies carried by consumers are small, but the market situation is apparently not attractive enough to warrant stocking ahead. Many prices are down to a pre-war level and manufacturers are making reductions as fast as the position of the raw materials warrant. Still consumers are confident of their position and unwilling to do anything beyond their needs."

RED TROOPS ADVANCE ON JAP FORCES

BOLSHEVIKS CONCENTRATE FOR OPERATIONS AGAINST THE JAPANESE IN SIBERIA, IT IS REPORTED.

BEGIN PROPAGANDA

HARBIN, Manchuria, Feb. 23 (by Canadian Press). — Military operations by the Russian Bolsheviki against the Japanese forces in Siberia are believed to be foreshadowed by the concentration of Soviet troops in the Eastern end of the country.

There were 50,000 Bolsheviki soldiers in Chita recently, and more are said to be arriving at intervals. The units are declared to be proceeding to points further east, assembling principally in the Primorsk district, and along the Manchurian Frontier.

While badly fed and clothed, these soldiers are reported to be well armed and under severe discipline.

The troops are distributed along the whole line of the railway from Chita east to the Manchurian Frontier.

At Manchuli, on the border, Bolshevik organisations have been formed, and are asserted to be smuggling agents through into Manchuria for the work of propaganda.

ARRAIGNED IN WHITWORTH CASE

PRELIMINARY PROCEEDINGS AGAINST MEN CHARGED WITH MURDER OF DOCTOR OPEN.

HAMILTON, Ont., Feb. 23. — (Canadian Press.)—Preliminary proceedings were opened before County Magistrate Vance today in the cases of Wilfrid Meharg and Edward Cecil Dickenson, charged with the murder of Dr. E. J. Whitworth of Binbrook, when the doctor was filling their order for gasoline. The cases against these men are still in progress.

George Horning, accused of the theft of $40 at Binbrook, and Clarence Spauling, who is accused of stealing the car in whirh the men droev to Binbrook, were each commited for trial on these respective charges.

DR. LAVELL DEFINES THE CAUSES OF CRIME

PLENTY OF LAWS, BUT TOO LITTLE INCULCATION OF HIGH MORAL STANDARDS.

"There are plenty of laws in the home, but too little inculcation of high modal standards; too little discipline, and too little respect for the rules and the spirit of the game. We are all far nearer the average lawbreaker than we think. We all of us are believers in the law except the one that pinches us.

"Things are a bit badly upset now, for we are in one of those transition periods of the world when democracy is reaching out into a larger liberty, and, having discarded the old authority, has not yet found the new."

So said Dr. A. E. Lavell, Chief Executive Officer of the Ontario Board of Parole, in a recent address to the University Women's Club in Toronto. Dr. Lavell, whose father was at one time Warden of Kingston Penitentiary, declared that the causes of crime were: Physical and mental deficiency; loose ideas as to authority and property; idleness; the presence of bad literature and the absence of the good old Ballantyne and Clarke Russell stories; movies in which the convict is an attractive fellow, who lands on his feet, and the policeman is a fat, perspiring person who lands on his head.

NO SKATING BROCK ST. RINK, TO-NIGHT

DENY CHARGE RE CONCERTS SUNDAY EVE

MANAGEMENT OF GRAND OPERA HOUSE DENIES IMPUTATION THAT THEATRE WOULD MAKE ANY FINANCIAL GAIN.

DONATING THEATRE

The management of the Grand Opera House wishes to deny a wrong impression as made by the Ministerial Association to the public, both through the press and from several of the pulpits last Sunday, when it was inferred that the Grand Opera House was to receive financial gain through these concerts.

This the management wishes to deny emphatically. The Trans-Canada Theatres were donating the theatre free gratis for these charitable causes, as they have done in nearly all the cities in Canada in the west and east this winter, and it is a wrong inference of the Ministerial Association to try and belittle the Trans-Canada Theatres Limited in the eyes of the public as they have tried to do.

They also wish to inform the public that these sacred Sunday concerts were held last Sunday evening after church hours in the following cities of Canada ,and in every case the concerts were held in the theatres of the different cities named:

Winnipeg, 3 concerts, Regina, Saskatoon, Brandon, Moose Jaw, Calgary, Edmonton, Halifax 2 concerts, St. Johns, Sherbrooke, Montreal, several; St. Catharines, Ottawa.

In nearly every case the concerts were given for the benefit of the unemployed, and the financial gain for this worthy cause totals well up into the thousands of dollars, and in no city did the Opera House receive any financial gain whatever.

It was also inferted from one of the pulpits last Sunday, that this proposed concert was one of the first steps in Americanizing Canada. Probably the reverend gentleman is not aware of the fact that sacred Sunday concerts have been in vogue in England for the past 25 years, long before the United States ever thought of holding such concerts, and in Great Britain the concerts are upheld by the Sunday League, and are more popular to-day than ever. Very few cities in the British Isles are not enjoying these concerts every Sunday, at which all of the finest militray bands of the country are permited to play. Only 3 weeks ago last Sunday over 4,800 people atended the different concerts given for the unemployed in the city of Glasgow alone.

Another wrong impression has been circulated by the Ministerial Association with the inference that these concerts would soon lead to pictures being added later on with an admission fee charged.

The Trans-Canada Theatres Ltd., are operating the Grand Opera House with the sole intent to gain the good will and patronage of the public of the City of Peterborough, by giving them the highest class of theatrical amusements during the week, and not to loose the respect and confidence of the amusement-going people, and the thought of ever making Sunday a night for picture or any other form of theatrical entertainment would never be tolerated for one moment. In Montreal, where the Trans-Canada Theatres Ltd. could operate His Majesty's Theatre on Sunday without opposition, as nearly all other theatres in Monteral do, the Trans-Canada Theatres would not even produce pictures, as they are strongly opposed to Sunday shows.

It is quite true that none of the charitable institutions had been broached as to whether they would accept funds collected in this manner, but it is nearly always considered such institutions would greatly appreciate any donations offered, and from the Council news given in Tuesday evening's paper, there are several very worthy causes which would well afford to be helped in this way, since the Council find it necessary to decrease several of the appropriations.

We are sorry the Ministerial Association have taken the action they have in this matter, and know the cancellation of these proposed concerts would be a great disappointment to the public in general, for there is no question that if the voice of the masses were taken and put to a public vote, the verdict would be at least 10 to 1 in favor of the sacred Sunday night concerts for charity.

Deslippe, Witness at the Spracklin Trial Died To-day

DEAD MAN'S TESTIMONY AT THE INQUEST, HOWEVER, WILL PROBABLY BE USED AT THE PRESENT TRIAL.

PNEUMONIA THE CAUSE

WINDSOR, Feb. 23 (Canadian Press).—Ernest Deslippe, one of the star witnesses in the Spracklin manslaughter case, who has been confined to the Hotel Dieu, suffering from pneumonia since Sunday evening, died this morning.

It is understood that the evidence given by Deslippe at the inquest will be used at the trial now in progress.

WINDSOR, Feb. 23.— (Canadian Press.)—That Mrs. Trumble, wife of Beverley Trumble, had a "gun" in her hand after her husband was shot, was the admission of Jack Bannan, on cross-examination to-day, at the trial of Rev. J. O. L. Spracklin for manslaughter in connection with the death of Beverley Trumble, proprietor of the Chappel House in November last. Mrs. Trumble in giving her evidence yesterday, declared that her husband had no gun when he was shot by Spracklin.

Banan's statement to this effect was drawn from him by R. L. Brackin, counsel for the defendant. In his main evidence, Bannan, had merely repeated his story as given at the preliminary investigation. Mr. Brackin on cross examination this morning, said to the witness:

"After you went into the dining room leading from the hall into the private dining room, you say you saw Trumble and that he said to you, "I am shot." You then saw Mrs. Trumble. Did Mrs. Trumble have a gun in her hand?"

"Yes, sir," said the witness.

This answer was the signal for a demonstration of hand clapping in the court room. Sir William Mulock, presiding judge, immediately ordered the sheriff to place the disturbers under arrest. That official called for those who clapped to stand, but there was no response to this invitation. Officers were then placed about the court room to arrest, for contempt of court, any one who indulged in such demonstrations again.

At the trial yesterday afternoon, Mrs. Trumble, in spite of exhaustive cross-examination by R. I. Brackin, chief counsel for the defence, refused to materially deviate from her story of the fatality as told at the coroner's inquest on Nov. 8, and after two and one half hours' questioning, left the witness stand with her account of the shooting practically unchanged. She reiterated her previous statement that Trumble was unarmed at the moment of the shooting, and also swore that she had never heard her husband threaten the pastor-inspector regarding his activities as a license official. Mrs. Trumble gave extensive details of the night life at the Chappell House prior to November 6th, but declared that the publicity given to the roadhouse as the result of the Spracklin charges in June had considerably reduced the volume of business.

Edward Smith followed Mrs. Trumble on the stand and during his two hours as a witness underwent the most thorough grilling in the history of the Sandwich court. Damaging admissions regarding his actions immediately following the tragedy were forced from him under the relentless cross questioning of Mr. Brackin—his flight across the river a few hours after the fatal

"CANADIAN CATTLE ONLY A FLEA BITE"

LONODN, Feb. 23. —(Canadian Press.)—Sir Arthur Boscawen, the new Minister of Agriculture, who is fighting an interesting by-election in Dudley, is anoyed by statements in the London Daily Express regarding the importation of Canadian store cattle, a matter in which Lord Beaverbrook's paper is showing a lively interest. In a speech last night, Sir Arthur declared that the allegations of the paper regarding British cattle raisers' attitude to the importations were pure "bunkum." The importation of Canadian cattle would be a flea bite in the situation, he said. The new minister observed that he would not be dictated to by newspaper. He would sooner lose an election twenty times than neglect what he considered to be his duty.

WHAT MIGHT BE DONE ORDER TO BEAUTIFY CITY

PRESIDENT OF ST. THOMAS HORTICULTURAL SOCIETY TELLS WHAT RAILROAD CITY HAS ACCOMPLISHED.

CO-OPERATION NEEDED

What the St. Thomas Horticultural Society has done in beautifying the Railroad City, and what the Peterborough Horticultural Society can accomplish provided it is given full co-operation by every citizen, was set forth by Dr. F. E. Bennett, for twelve years president of the St. Thomas Society in an address to the local society last night.

The Board of Trade Rooms were crowded last night to hear Dr. Bennett, a most unusual occurrence, it might be added, for a horticultural meeting, but evidently "a better day is dawning" for the Society.

Dr. J. F. Middleton, the president, occupied the chair.

Dr. Bennett's address covered a wealth of subjects, all of interest to Peterborough, and his story of the almost miraculous achievements of St. Thomas provided an eye-opener for local enthusiasts.

Dr. Bennett is an outstanding figure in Canadian horticulture. As president for twelve years of the St. Thomas organisation, he has been largely responsible for the splendid results achieved, and his name will ever be synonymous with the beautification of St. Thomas. The society he is president of is a proud institution in St. Thomas ,with offices, salaried permanent officials, definite programmes, and a large membership—in fact, this year the objective of the society is to raise the membership to 2,500. Last year the total revenue of the society was over $17,000; so it can be seen that it is a "big" organisation carrying on a "big" work.

Dr. Bennett's usual slides did not arrive, but he showed attractive views of St. Thomas, illustrating what can be done if the people interested in flowers, gardens, and beautiful surroundings join hands and get busy on definite lines of action. He gave some particularly valuable suggestions that could be used here, referring especially to the work that can be done by cleaning up vacant lands generally used as garbage dumps and converting into gardens and parks. He showed how hedgerows, boulevards, and flower beds had beautified coal and wood yards and railway lines and other offensive accessories to a modern city, and as well increased the value of the property.

In St. Thomas, he said, the full co-operation of the steam and electrical railways in their plans had been of inestimable value. The junior population in the city was enlisted in their services through the schools. In each school was a teacher qualified to instruct the children in horticulture.

The care of the trees in St.

(Continued on page 11.)

ASYLUM FOR THE INSANE IS ON FIRE

FIRE IN HAMILTON INSTITUTION, WHICH BROKE OUT AT NOON, IS BEING FANNED BY STRONG WIND.

SOME PATIENTS ESCAPE

HAMILTON, Feb. 23. — (Canadian Press. — Several more or less insane patients secured their liberty but all of the five hundred inmates of the Orchard House wing of the Ontario Hospital for the Insane, escaped inury when that building was swept by the flames at noon to-day.

The asylum is situated on a high eminence and a heavy northwest wind is blowing. The fire brigade is fighting hard to save the other buildings of the institution.

The fire broke out on the top floor of the building and was discovered by the attendants. The perfect organization of the staff and the good discipline among the patients, was responsible for the fact that there was apparently no loss of life.

The patients were marched into another building.

PRIZES FOR CARNIVAL ON FRIDAY NIGHT

FINE TIME EXPECTED—BIG BAND IN ATTENDANCE—DON'T FAIL TO BE THERE.

The following is a list of prizes for the Carnival to be held at the Brock street rink on Friday, February 25th, under the auspices of the Peter Robinson Chapter, I.O.D.E. These prizes are on exhibition in Bond's Drug Store:

ASK $12,000 TO COVER FIRE PROTECTION

(Continued from page 1 ..

The total expense in 1920 was $76,204.25.

Assumptions.

The distribution system, as it was in the fall of 1913, would supply all the domestic demand at present, with the addition of such mains, 6 inches in diameter and under, as have been constructed since then. All mains constructed since then, including the 18-inch main partially constructe in 1913, over 6 inches in diameter are considered as purely for fire protection purposes.

The average cost of installation of a hydrant up to the present would be $100.00. There are now 293 on the system, and all of this item is chargeable to fire protection.

The cost of the dam, pumping station, and water wheel driven pumps is to be divided equally between fire and domestic purposes.

The Underwriters' Association compel us to have an installed pumping capacity equal to twice the demand.

The cost of the pump house residence is to be divided equally between the two.

Portion of the Cost Chargeable to Fire Protection.

Service Mains for Fire, 1913 to 1920	$106,606.97
Hydrants, 293 at $100.00	29,300.00
Pump House and Dam, 50 per cent. of $188,441.55	94,220.78
Water Power Pumps, 50 per cent. of $51,069.70	25,534.85
Pump House Residence, 50 per cent. of $3,908.15	1,954.08
Auxiliary Pumps, 50 per cent. of $20,817.14	10,408.57
	$268,025.25

(This amount is 39.9 per cent. of the total investment in the system.)

Expenses.

Interest	$12,784.95	
Sinking Fund	6,055.60	
Total Fixed Charges		$18,840.55
Maintenance 1920.		
Hydrants	$4,812.66	
Mains, 25 per cent. of $1,841.48	460.37	
Dam, 50 per cent. of $1,648.58	824.29	
Pump House, 50 per cent. of $8,783.37	4,391.69	
General	1,000.00	
Total Annual Cost		11,489.01
		$30,329.56
Less Private Fire Protection Charged		1,172.50
Amount to be Collected from General Tax		$29,157.06

(This is 38 per cent. of the Total Expense.)

There are 41 private fire hydrants, making a total of 334 on the system. The cost of fire protection per hydrant per annum equals $90.81.

FOR RENT

FOR RENT—HEATED OFFICE on George street. Immediate possession. Apply 437 George street.

120,000 ARE MENTALLY DISABLED IN CANADA

WARM TRIBUTE TO WORK OF WOMEN IN PROMOTING CAUSE OF MENTAL HYGIENE.

The Dominion of Canada has 120,000 mentally disabled folk within its borders. In 1918, a Canadian commission was formed for the purpose of bettering the condition of those suffering from mental disabilities. France, Belgium, Japan, Hawaii and South Africa now have national organizations of this sort, and England is preparing to follow suit.

Dr. Clarence M. Hincks, in a recent address in Toronto on this subject, paid a warm tribute to the work of Canadian women in promoting the cause of mental hygiene. He gave a sketch of the experiences of Clifford W. Beers, a Yale graduate, who spent three years in lunatic asylums, but lived through the treatment accorded him to write the book, "The Mind That Found Itself."

SPANISH HERO IS DISINTERRED.

MADRID, Feb. 23.—The body of The Cid has been disinterred at Burgos and will be transferred to the cathedral here.

The Cid, also known as El Campeador, one of Spain's principal wars with the Moors, died in the

Trade of the United States with Germany totalled $400,000,000 in the biggest year preceding the war—1913.

FORDSON TRACTOR DEMONSTRATION

PETERBOROUGH'S PROGRESSIVE FARMERS ATTEND THE TWO DAYS' COURSE AT THE DUFFUS MOTOR SALES.

On Monday and Tuesday of this week a goodly representation of the progressive farmers of this section attended the Two Days' Course of Instruction given on the efficiency of the Fordson Tractor and power farming, which was held in the large demonstration section of the Duffus Motor Sales, corner Charlotte and Water streets.

Several experts delivered practical addresses on the various features of the Fordson, and gave very entertaining and instructive lessons on the value of this Tractor to the live farmer, as well as much useful advice in handling this machine.

The mater of comparative costs was entered into freely and heartily. Comparison were made between the cost of running the Fordson Tractor and ploughing with horses, and the increased acreage worked over. It was shown that one acre ploughed right after harvest was worth two ploughed at any other time,

The care of the tractor and the treatment it should receive, the water to use in the pipes, the oil to lubricate with, the belts to use, how to regulate the kerosene, and the treatment of the air washers, etc., were all dealt with in an illuminating talk by several of the experts.

Pictures were shown illustrating many of the interesting phases of the course, which increased the interest in the proceedings.

LUNCHED DIRECTORS.

LINDSAY, Feb. 23.—At a luncheon given by President Felix Fobert, of the Horticultural Society, to the directors, it was decided to institute a drive for a thousand members this year.

MILLIONS KILLED IN ACTION

Wonderful news! Millions and millions of germs killed in action and thousands and thousands of victims relieved of bronchitis, asthma, coughs, and colds. There is great rejoicing in the fact that science has at last invented the world's surest death trap for germs—Buckley's Bronchitis Mixture. With the first dose this remedy gets right down to business, and never ceases in its destructive work until every trace of the disease is completely removed and the victim restored to normal health. Letters from all parts of Canada praising this wonderful mixture are literally pouring into headquarters. Read this letter:—"Years of suffering from that terrible affliction, bronchial asthma, ordered by all medical men to close my business in Montreal and go south to a warmer climate, but I noticed your ad. in the "Montreal Standard" for the above mixture and I said I would give one more trial to health before I leave my native town, and thank the good maker I did. My bronchial tubes are clear, the hacking cough has disappeared, the wheezing cough has ceased as if by magic, and all discomforts have gone since taking your wonderful mixture."—Herbert Corri, 417 McKay Street, Montreal. There is no reason whatever why you cannot be completely and speedily restored to health if you take this remedy. You are satisfied or the money is refunded, according to our guarantee. Don't delay. Buy a bottle now from your druggist 18

Sold in Peterboro by J. P. Bond, the Warne Drug Company and all live druggists.

FOR CONQUEST OF MOUNT EVEREST.

Royal Geographical Society Pushing Forward Plans.

WASHINGTON, Feb. 23.—Food is now 21.5 per cent. cheaper to the consumer than six months ago, Ethelbert Stewart, Goernment price expert, announced to-day.

"The decline seems to be a really substantial development in the general price situation," said Stewart, "and not based entirely on seasonal changes, which are so often deceptive. It is impossible, of course, to predict how long it will continue."

STOMACH ON A STRIKE

"Pape's Diapepsin" puts Sour, Gassy, Acid Stomachs in order at once!

Wonder what upset your stomach—which portion of the food did the damage—do you? Well, don't bother; if sick, gassy and upset, and what you just ate has fermented and turned sour; head dizzy and aches; belch gases and acids and eructate undigested food—just eat a tablet or two of Pape's Diapepsin to help neutralize acidity and in five minutes you wonder what became of the indigestion and distress.

If your stomach doesn't take care of your liberal limit without rebellion; if your food is a damage instead of a help, remember the quickest, surest, most harmless antacid is Pape's Diapepsin, which costs so little at drug stores.

PRIZEWINNERS AT APSLEY CONCERT

HARD TIMES PARTY HELD—NEW SCHOOL NEEDED.

APSLEY, Feb. 23.—The wind up of the Social Events before the Lenten season took the form of a Hard Times Party, which was held in the Parish Room on Monday before Ash Wednesday. A stranger entering the hall on that occasion would have wondered whether he had stumbled upon a meeting of the hobo fraternity, as everyone had to be dressed in a costume consistent with "hard times". By popular vote Miss Annie Coones secured the prize for the best lady's hard times outfit, while the gentleman's prize went to Mr. Charles Smith.

A Gymnasium

Great interest is being evinced among the young men in the starting of a gymnasium which has been made possible through the kindness of the Girl Guides and Boy Scouts who donated part of the proceeds of their entertainment to the purchasing of a horizontal bar and parallel bars. These were made locally by Mr. C. Hawkes and though not adapted to a high class gymnasium will serve the purpose until better apparatus can be secured.

Mr. Spence will act as instructor.

Mr. Carnegie of Pittsburg, whose cottage was lately broken into and plundered, came to Apsley on Friday last to ascertain the extent of the depredations.

A Cold Snap.

Wednesday's thaw was followed by a cold snap, 10, 12, and 15 below being registered the last three days of the week.

This was of much benefit to those who are busy hauling logs through the swamps and marshes, as if the thaw had continued this would have been stopped. Although no lumbering operations on an extensive scale are being carried on in Apsley, almost everyone is cutting on his own lot, and hauling to the banks of Eels Creek. The banks are lined for a long distance with skids of logs, and in the aggregate a good sized drive will go down the creek in the spring.

New School Needed

Some needed alterations are going to be made to the school at Apsley it is reported. A new lock has been put on the school, but, as a ratepayer was heard to remark, what is needed is a new school on the lock!

Mid-week service during Lent are held in St. George's Church on Wednesday evenings at which the Rev. C. A. G. Spence is giving a series of addresses on Christian Dogmas

CELEBRATED HER 91ST BIRTHDAY.

KINGSTON, Feb. 23.—Mrs. John Graham, mother of Ald C. J. Graham, celebrated the ninety-first anniversary of her birth recently. Mrs. Graham was born in Glenvale, and was a daughter of James Gordon. Her husband, John Graham, died twenty-one years ago. Mrs. Graham enjoys remarkably good health for her years, and is in posession of her faculties, doing her own sewing. She resides with her son, Ald Graham 480 Princess street, and has one other son, Dr. Hedley Graham, Rochester, N.Y.

CHANDOS TOWNSHIP COUNCIL MEETS

MOVEMENT TO SECURE RE-ESTABLISHMENT COE HILL AND APSLEY MAIL ROUTE.

Chandos Township Council met in Caldwell's School House February 12th. All the members were present.

Councillors Post and Tanner moved that Michael Cleary be appointed Assessor for 1921 at a salary of $60. Carried.

Councillors Hall and Post moved that the Reeve and P. Tanner be a committee to interview the Postmaster at Clydesdale and other parties in regards to getting Coe Hill and Apsley mail route re-established. Carried.

On motion of Councillors Hall and Tanner the Clerk will get municipal stationary, printing and advertising done at the office of the Peterborough Examiner.

By-laws Passed.

By-law No. 55, for conferming the appointment of the Assessor, and by-law No. 56, appointing Pathmasters, Fence-viewers and Sheep-valuators, pass their several readings.

Councillors Tanner and Post moved that the Clerk secure the required number of dog tags for use in the Township in 1921, also a book to keep the name of dog owners and their tag number in. Carried.

On motion of Councillors Mahoney and Hal Councillor A. Post and the Clerk will meet the Reeve at R. Tanner's on Tuesday evening, Feb. 22, at 6 o'clock, to arrange to place Stephen Orr in the Home of Incurables, with full power to act.

Mr. H. S. Prouty, School Attendance Officer, was present and reported his activities for the month of January.

Councillors Tanner and Mahoney moved that the School Attendance Officer's report be excepted and that he receive $3.50 per day and $1.50 extra for every day he has to use his rig, such salary to be chargeable to the school section where the work is done. Carried.

Pay Accounts.

On motion of Councillors P. Tanner and John Mahoney the following accounts will be paid:

Jas. Campbell, $22.75, rebate taxes Township lands; Fred. Wheeler, $10.00, care Stephen Orr; Jas. O'Brien, $1.50, balance account for cedar; H. S. Prouty, $7.50, January salary as S. A. Officer; members of Board of Health, $0.00, for one sitting. Total, $50.75. Voted previously, $68.99, to be added to the foregoing.

GOES THIRTY DAYS WITHOUT WATER.

Polish Woman Doctor Tries First "Dry" Fast — Organs Ceased Functioning.

(By Cross-Atlantic Newspaper Service.)

LONDON, Feb. 22.—Thirty days without liquid and forty days without solid food is a new record for fasting claimed by Dr. M. Lipinska, the well-known Polish woman doctor.

Dr. Lipinska, who is now living in London, has just completed a 40 days' fast, the first 30 days of which, she says, were without water.

"I have regularly undergone periods of fasting, increasing each year the duration of my fast," she said.

"Recently I decided to try a dry fast—a new experiment. Previous experiences of fasting had shown me that it was possible to live for several weeks without taking nourishment of any kind, but up till now I have never fasted without taking water to drink.

"On November 20 last I entered upon my dry fast. I kept it for thirty days without a drop of liquid passing my lips. After the thirtieth day I took water, but no food, and continued this regime for ten days, making the whole a period of forty days.

"The essential thing in all fasting is to expend as little energy as possible. For this reason I arranged to spend my fast at a sanatorium, where I could have everything done for me and where I could rest in bed.

"I became for the time a mere plant; for all practical purposes I might just as well have been a cabbage. My intellectual faculties were suspended, my memory refused to act except slowly and laboriously, I was incapable of thinking, reading, writing or even talking.

"After thirty days of dry fasting I decided to have a cup of cold water. When it was brought to me the coldness of the water seemed so intense that I asked to have some made hot, and this I slowly and with great difficulty swallowed.

"After forty days of fasting I had become horribly cold, my nails and limbs were blue, and my heart beat irregularly.

"Then I broke my fast. First I took a little grape juice in the morning and more later on in the day. My palate by this time had become extremely sensitive and I could not bear the acidity of lemon juice nor the sickly sweetness of sugar. On the second day I had a cup of vegetable juice and three cups of milk; on the next day the amount was doubled; by the fifth day I was drinking as much as three quarts of milk, and after that I took as much as I possibly could.

THE TEST.

The only sure test of the genuineness of your loyalty to any one man or woman is that your appreciation of the dignity of life in all men and women is increased thereby. Either your love for your friend is petty, or your friend is petty, if out of it grows not a certain increased love for all men.

1000 EGGS IN EVERY HEN

New System Of Poultry Keeping—Get Dollar A Dozen Eggs—Famous Poultryman.

TELLS HOW

"The great trouble with the poultry business has always been that the laying life of a hen was too short," says Henry Trafford, International Poultry Expert and Breeder, for nearly eighteen years Editor of Poultry Success.

The average pullet lays 150 eggs. If kept the second year, she may lay 100 more. Then she goes to market. Yet, it has been scientifically established that every pullet is born or hatched with over one thousand minute egg germs in her system—and will lay them on a highly profitable basis over a period of four to six years' time if given proper care. How to work to get 1,000 eggs from every hen; how to get pullets laying early; how to make the old hens lay like pullets; how to keep up heavy egg production all through cold winter months when eggs are highest; triple egg production; make slacker hens hustle; $5.00 profit from every hen in six months. These and many other money making poultry secrets are contained in Mr. Trafford's "1,000 EGG HEN" system of poultry raising, one copy of which will be sent absolutely free to any reader of this paper who keeps six hens or more. Eggs should go to a dollar or more a dozen this winter. This means big profit to the poultry keeper who gets the eggs. Mr. Trafford tels how, if you keep chickens and want them to make money for you, cut out this ad and send it with your name and address to Henry Trafford, Suite 580T, Tyne Bldg., Binghampton, N.Y., and a free copy of "THE 1,000 EGG HEN" will be sent by return mail.

MEXICO POSTPONES TRADE CONFERENCE.

MEXICO CITY, Feb. 23.—The International Trade Conference which was to have been held in Mexico City this month under the auspices of the American Chamber of Commerce of Mexico, has been postponed until next Fall. The reason for the change of date is said to be the proportions which the Conference has assumed, requiring more time for preparation.

OPEN NOSTRILS! END A COLD OR CATARRH

How To Get Relief When Head and Nose are Stuffed Up.

Count fifty! Your cold in head or catarrh disappears. Your clogged nostrils will open, the air passages of your head will clear and you can breathe. No more snuffing, hawking, mucous discharge, dryness or headache, no struggling for breath at night.

Get a small bottle of Ely's Cream Balm from your druggist and apply a little of this fragrant antiseptic cream in your nostrils. It penetrates through every air pasage of the head, soothing and healing the swollen or inflamed mucous membrane, giving you instant relief. Head colds and catarrh yield like magic. Don't stay stuffed-up and miserable. Relief is sure.

RUB RHEUMATISM OR SORE, ACHING JOINTS

Rub Pain right out with small trial bottle of old "St. Jacobs Oil."

Rheumatism is "pain" only. Not one case in fifty requires internal treatment. Stop drugging. Rub soothing, penetrating "St. Jacobs Oil" right into your sore, stiff, aching joints and muscles, and relief comes instantly. "St. Jacobs Oil" is a harmless rheumatism remedy which never disappoints and cannot burn the skin.

Limber up! Quit complaining! Get a small trial bottle of old, honest "St. Jacobs Oil" at any drug store, and in just a moment you'll be free from rheumatism pain, soreness, stiffness ad swelling. Don't suffer! Relief awaits you. "St. Jacobs Oil" has cured millions of rheumatism sufferers in the last half century, and is just as good for sciatica, neuralgia, lumbago, backache, sprains.

TEACHERS' SALARIES RAISED.

SMITH'S FALLS, Feb. 22.—Substantial increases in the salaries of the four Collegiate Institute teachers have been granted. The principal will now receive $2,700. Other increases were established, and two of the men teachers were given yearly increases of $100 until a minimum of $2,000 is reached.

WHEN PA IS SICK.

When pa is sick, he's scared to death,
An' ma an' us just hold our breath.
He crowls in bed an' puffs and grunts
And does all kinds of crazy stunts.
He wants the doctor mighty quick;
For when pa's ill, he gasps an' groans
An' sort of sighs: he talks so queer,
An' rolls his eyes.
Ma jumps and runs, an' oll of us,
An' all the house is in a muss;
An' peace an' joy is mighty skeerce
when pa is sick, it's somethin' fierce.

HAD BAD COUGH FOR THREE YEARS

The constant hacking, racking, persistent cough that sticks to you in spite of everything you have done to get rid of it, is the kind that is dangerous.

The longer the cough sticks, the more serious menace it becomes to your health.

There is no remedy that will relieve coughs—coughs that won't let go—like Dr. Wood's Norway Pine Syrup.

It has a healing and soothing action on the air passages, and at the same time acts as a disinfectant of the respiratory organs, destroying the germs that produce serious lung complications.

Mrs. John Miller, Minburn, Alta., writes:—"I had a very bad cough for three years. I went to several doctors and tried different cough medicines, but nothing seemed to help me. One day a friend told me about Dr. Wood's Norway Pine Syrup, and after using several bottles I became completely relieved. I always keep a bottle in the house, and also recommend it to others.

Dr. Wood's Norway Pine Syrup has been universally used for over 30 years, and so great has been its success, it is only natural that a great many imitations have been placed on the market. The genuine is put up in yellow wrapper; 3 pine trees the trade mark; price 35c. and 60c. a bottle; manufactured only by The T. Milburn Co., Limited, Toronto ,Ont.

PIONEER OF CHANDOS PASSES AWAY AT 85.

Death of Mr. John Macpherson, One of the Early Settlers.

There passed away in Chandos in the 85th year of his age John MacPherson, one of the early pioneers of that place.

Mr. MacPherson, for a man of his years, had been in robust health until about three months ago, when he suffered a "stroke," which rendered his limbs on the left side powerless. Being a man of undomitable energy, it seemed that by sheer force of will and never-give-up-ness, he gradually but slowly recovered the use of his limbs and was able to walk about indoors. Consequently, his many friends and relatives were looking forward to seeing him going about as active as usual with the advent of warm weather, but on Sunday morning last, after partaking of breakfast and being apparently in his usual health and spirits while resting comfortably in his chair, he sank into unconsciousness, from which he only partially rallied, and in spite of all efforts to revive him, passed quietly away early on Thursday morning.

The late Mr. McPherson, with his wife and three small children, came to Chandos in the early 60's, when that township was a dense wilderness where even the lumbermen had not penetrated, to hew out a home for himself.

In the Spring, Summer and Autumn he chopped his "fallows," logged them and cleared up the land for crop, and in the Winter to help to keep the figurative wolf from the door, he went far away to the lumber camps, while his wife and her small and now increasing family stayed at home and kept—not the wolf, but the wolves, the real ones—from the door. Frequently at night, when she thought the dismal howls were coming too close, she would step outside of her little cabin and fire off a gun several times to scare the animals away.

In his home-making the late Mr. MacPherson succeeded admirably. Being industrious, thrifty and a man of good habits, he soon had a comfortable home in which he lived in increasing prosperity and in the enjoyment of peace and plenty. Some years ago he retired from active farm life and sold part of his farm to Mr. T. J. Bullied, his son-in-law, who was afterwards Reeve of Chandos, for a number of years his son, Duncan, at whose residence he died, retaining the other part of the farm.

Mr. MacPherson was of good Scotch stock, his parents coming from Scotland to Canada and settling in Wellesley Township, Waterloo County, at a time when the wolf and red deer roamed there unmolested and, when the township was known as the "Queen's Bush." His wife, who predeceased him about five years, was Martha Campbell, daughter of John Campbell, also of Waterloo, and late of Glasgow, Scotland.

In religion Mr. MacPherson was a Presbyterian. In politics, although never seeking political honors for himself, he was a staunch, life-long supporter of the Liberal cause.

He leaves of his immediate family one son and three daughters. They are: Duncan, of Chandos; Martha, (Mrs. D. S. Campbell) matron of the House of Refuge, Lakefield; Agnes, (Mrs. Henry McCaskie) of Belleville, and Mary, (Mrs. T. J. Bullied) of Peterborough. (Mrs.) Agnes L. Hawkes (nee Campbell), who contributes this sketch, is a niece.

(Belleville paper please copy.)

Little babies are happy if their food is right. Since 1857 healthy babies have been raised on

Borden's EAGLE BRAND Condensed Milk

TROUBLE BREWING FOR THEATRE MANAGERS.

Stage Employees May Refuse to Work with Actors.

TORONTO, Feb. 22.—Officials of the local union, Theatrical Stage Employees of America, predict some embarrassment for local theatrical managers if the Touring Managers' Association determines to fight the Actors' Equity Association. The ultimatum of the Managers' Association to the Actors' Organization might mean, one of the local officials says, that stage employees would be asked to refuse to work with performers who were being used to break the association.

"We have been informed from New York that the Managers' Association has expressed its determination to fight the Actors' Equity Association, which is an organization affiliated with the American Federation of Labor. If the managers do so, using non-union performers, it will mean trouble in many houses of the United States and Canada," said Charles O'Donnell. "Last summer stage employees were ordered out in support of the actors. Our local organization was prepared to act at that time. The stage hands would have to refuse to work with any performers taking the places of members of the actors' organiza-

In Mexico the production of sugar is controlled by the Americans Spaniards and Mexicans.

DRIVE AWAY HEADACHE

Rub Musterole on Forehead and Temples

A headache remedy without the dangers of "headache medicine." Relieves headache and that miserable feeling from colds or congestion. And it acts at once! Musterole is a clean, white ointment, made with oil of mustard. Better than a mustard plaster and does not blister. Used only externally, and in no way can it affect stomach and heart, as some internal medicines do.

Excellent for sore throat, bronchitis, croup, stiff neck, asthma, neuralgia, congestion, pleurisy, rheumatism, lumbago, all pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet, colds of the chest (it often prevents pneumonia).

MUSTEROLE WILL NOT BLISTER

Hearst's Magazine—A Liberal Education

OUT of the RED RAYS—

THERE building itself up—in those livid colorings was a ghost-like form—

Netta Mansfield—writhing, her head pulled back, across her mouth a cloth, her wrists twisting vainly to escape from spectral hands emanating from Ahmed Hassan's body.

In a story as tense as the most dramatic of Poe's, F. Britten Austin tells how Becquerel "N" rays emanating from the human body—a scientific reality—make it possible for everyone to read the mind! See

WEDNESDAY, FEB. 23RD, 1921.

THE HYDRO SITUATION.

Sir Adam Beck's address to the members of the Ontario Legislature in regard to the development of Hydro services will be applauded by the municipalities who are partners in the Hydro enterprises. The chairman of the Commission is utterly opposed to the proposed tax scheme suggested by the special committee of the Legislature and to the super-tax upon urban power consumption to finance the distribution of Hydro power in rural areas, taking the same stand on these matters as most of the municipalities have already taken. He warns the members of the Legislature that they would jeopardize the whole future of the province by implementing the report of the special committee. It is difficult to see how any other conclusion could be arrived at with Quebec offering free sites and unlimited power to new industries. How can Ontario hope to compete with the eastern provinces if such handicaps as the proposed tax on power were put into effect? The Hydro enterprise cannot be viewed as a private company in the business, for the profits that can be made out of the scheme .The Hydro activities are operated for the benefit of the people, and the power is sold at cost. The proposed tax would, as Sir Adam pointed out, simply take the people's money from one pocket and put it in the other. As for the super-tax on urban power users, it is class legislation of the rawest type. There is no logical reason why the pepole of the cities and towns should be taxed to provide cheaper power for the rural districts. The report of the special committee should be scrapped in the interests of the province.

AVERTING ACCIDENTS.

The Ontario Government has announced its intention of curtailing grants to such organizations as the Ontario Safety League. While sympathizers with the laudable desire of the U.F.O.-Labour administration to apply principles of economy to the carrying on of the busness of the province, the Examiner doubts the wisdom of discouraging the efforts of the Safety League to lessen the number of accidents. That there is every need of the educational work of the League, the news pages of the daily papers afford ample evidence. Figures compiled in the United States show that an average of two hundred and twenty-two persons were killed every day last year in that country in accidents of various kinds. As "The American City" puts it: "During the nineteen months this country was engaged in the world war, more Americans were killed here at home than on the battlefields of Europe."

Statistics for Canada will show an almost equally appalling total of fatal accidents, of which the great majority, it is said, are caused by carelessness, either on the part of the victim himself or by others. It is with the object of awakening the people of Ontario to a realization of the necessity of paying attention to safety principles and practices. Education along this line is sadly needed and it is to be feard will continue to be needed if the Government persists in refusing to assist in the work of the Safety League.

THE HEALTH ASSOCIATION.

In dealing with the question of special grants this year the City Council has no easy task on its hands. New demands on the city's funds such as the good roads scheme, mother's allowances and unemployment relief have made it necessary for the Council to reduce other expenditures as much as possible and as a result the pruning knife has been applied to a number of the special grants. While recognizing that such action was inevitable under the circumstances, many people will regret that it has been decided to cut down the grant to the Health Association. Of all the organizations which applied to the city for assistance, the Health Association was perhaps the most deserving. Those who have come into contact with the work of the Association and know the wonderful service that has been given, will be sorry to learn that a smaller grant is to be made this year. The doctors of the city realize what the Association has accomplished, while families in every section of the city are able to testify from personal experience of the help they have received. The work will be handicapped this year unless the reduction in the civic grant is overcome by financial assistance from the public. It would be a pity if any of the activities of the Association had to be dropped because of lack of funds, for it is imperative in the interests of the whole commniuty that the organization should carry on.

GALLERY ROUGHNECKS.

Periodically in these columns the Examiner has called attention to the misguided individuals who make pestilential nuisances of themselves at public entertainments. The feather-brained person who persists in laughing in the midst of a dramatic episode on the stage, the youth who regards it as the highest form of humor to interpret a loud imitation of a kiss into a love scene on the screen, the hoodlum who feels called upon to make remarks when a musical number is too full of merit to be appreciated by people of his type, seem to be always on hand. The other night during a performance at the Grand, a few hundred people would have loved to have been able to lay hands upon some loud-voiced individual in the gallery who nearly spoiled the best number on the programme, a vocal solo that was as far superior to the rest of the performance as a Caruso is to the average choir singer. It is easy to understand that to some people the slap-stick methods of a cheap comedian are more enjoyable than a vocal solo no matter how artistically rendered, but surely common decency should compel such people to refrain from spoiling the pleasure of others by creating a disturbance during the numbers they do not like. The ejection of a few offenders from places of amusement would have a very beneficial effect for it is evident that such a lesson in manners is absolutely necessary for some of the city's population.

SAVING THE BOYS.

Speaking very broadly, when a boy goes wrong he falls into one of two classes—those who may be set right by kindness and those who need severe treatment. The youth in one group answers to the appeal to his better nature—and there is something good in the worst of human nature, some spark of the divine — while the other does not pause until he learns from a painful experience that the way of the transgressor is hard. There are some who would treat all bad boys by one or the other method, whereas each case should be considered on its merits. The nature of the offence has nothing to do with the resort to either plan. The end in view is to reform rather than to punish.

On the side of kindness a change of environment has succeeded in thousands of cases. Bad parents, or evil companions—very often both—have been responsible for the going wrong of many a boy who under other circumstances would have taken the straight road. To come into contact with sympathetic people, whose example and advice are on the side of probity, frequently represents the turning point from wrong to right—from vice to good citizenship. This is the aim of our excellent Juvenile Court under Judge Archibald. The responsibility is there in good hands, and yet Judge Archibald is often puzzled to know just the kind of treatment some cases require.

The Big Brother movement comes in at that point. It is one of the more or less numerous organizations which have sprung up in the United States and Canada, having for its aim to save bad boys. Very much, it would seem, must turn on the personality and judgment of the youth who undertakes to be a big brother to the slipping soul. But back of the well meaning men and boys who are engaged in this worthy work are doctors and nurses and other experts with their systematic study of each case from all its angles. I New York City last year 350 boys who were in trouble were handed over by the Children's Court to the Big Brother group, and that number was but 27 per cent. of the total cases dealt with by the organization.

A mawkish and utterly inhumane sentiment is sometimes interposed between a bad boy and the treatment which is best designed to take him off the toboggan of vice. Just as the really humane physician must resort to the lance for the extirpation of ulcerous developments in the body, with the attending pain, so a sound spanking is the suggested remedy in the case of some boys who have just started on the road to ruin. For several years the city of Sydney, Australia, was terrorized by groups of youths who were known as "larrikens." Prison only gave spice to their wild life. They defied all regulations and on being released were paraded through the streets as heroes. They became a great scourge; but the whole movement was as completely crushed in a single day as if it had never existed, when five of the ringleaders were smartly whipped. That took all the heroics out of the game.

It is a mistaken and misdirected humanity which stands between a bad boy and the particular treatment that would make him a good boy. A poultice may answer very well for nine cases, but the tenth may yield only to a blister. The very highest interests of the boy himself demand that a mistake should not be made in the remedy. When three or four young desperadoes enter the police station playing mouth organs and making a carnival of their arrest, all signs point to the folly of trusting to the poultice. Prisons should be only a last resort. They probably confirm vice as often as they eradicate it from the life of a budding Jesse James.

The proper handling of juvenile offenders is a big problem. Under the law as it exists in Canada, the magistrate has not the wide discretion conferred by the English statutes. In England the culprit may be sentenced to an immediate spanking, and the records prove that it has been an effective deterrent in a majority of cases. It makes the smarting youth think, and opens his senses to the realization of the painful road on which he has set out. That stage must be reached before there is any hope, and while the danger of brutalizing is always present, a wise magistrate may be trusted not to make a mistake. It is worth while to put within his discretion some of the old fashioned as well as the new fashioned methods of salvation.—Ottawa Journal.

EDITORIAL NOTES.

Judging by the height it is likely to reach, it is quite proper to describe the action of the Council in endeavouring to strike the tax rate, as an operation in high finance.

Another reason for U.F.O. opposition to the Hydro. Now it is claimed Niagara hens refuse to set because of the blasting done in Hydro operations.

Probably Hon. Peter Smith thinks "mouth organ" would be a better description of the Farmers' Sun.

With the debates in both Provincial and Dominion Houses going under a full head of steam, scientists may be able to secure some interesting data on what happens when two currents of hot air meet.

Some Ainericans do not seem yet to have grasped the idea that Canada belongs to the Canadian people or there wouldn't be any talk of selling the Dominion to the United States in payment of Britain's war debt.

We would have less wordy clamor
And more roofs to shield our domes
If the fellow with the hammer
Used it in constructing homes."
—Boston Transcript.

WISE AND OTHERWISE

"Speaking of fish bait," remarks the Backfence Cynic, "the baby-eyed stare is in a class by itself."

"And what is your conception of greatness?" asked the cub reporter on his first assignment.

"Young man," replied the Great One, "my time is limited; look me up in 'Who's Who.'"

The peculiar feature of the proposed Quebec prohibition is that it doesn't prohibit.

It may be pleasing to one's personal vanity to get a few lines in a newspaper, but any nut who can stage what looks like the freak stunt of the age gets a splurge on the front page.

"Your wife takes a great interest in your business."

"Yes; you see, I change my stenographers frequently."

Whiskey labelled "brass waste" was seized recently at Malone, N.Y. Some people would call it "crass waste."

"Jack's going in for law."

"So?"

"Yes. With the prospect of women serving on juries, he thinks that he'll be able to make a few of them listen to him after all."

"It's never too late to mend," she sighed as the clock struck the hour of midnight.

She—I don't see how those bootleggers can live unconcernedly on their ill-gotten gains when they retire.

He—Probably they'll awake in the night to listen for the tread of rubber heels.

"Madam," rasped the neighbour's voice over the telephone, "your little Cosmo has just thrown a brick through one of my windows."

"Would you mind bringing it over," sweetly replied Cosmo's mother, "we are keeping mementoes of all Cosmo's little pranks."

The Boston Transcript declares that the high hat is as much a menace to the mental and moral competency of man as the high heel to that of woman. Now what will the eminent citizen wear on Sunday mornings?

Here Are Six Specials That Will

Rouse the City

Grafton's are determined to bring prices down. They have been lopping off all profits and operating costs until they are now selling at factory cost and less, in a stupendous effort to achieve their object

MEN'S ULSTER OVERCOATS, $11.98
This is a very special line, including well-made Ulsters that are worth $20.00 to $24.00. Our big cut has divided the old price in half. Clearing at $11.98

BOYS' BLOOMERS, $1.98
Here's a rattling good bargain for the boys. These Bloomers are just the thing for school wear, made to stand the strenuous usage demanded for a live boy. Values up to $3.00. Clearing now at only $1.98

MEN'S SUITS, $14.98
When Grafton's say they are going to bring down prices you can depend on it they will lead the way. Here is a line of Suits formerly valued up to $30.00, with the price cut in two, giving you your choice of this lot for only $14.98

V NECK SWEATERS AND SWEATER COATS, 98c
Clearing lot of Boys' V Neck Pullover Sweaters, also few Men's Pullover and Sweater Coats. Worth $2.00 to $3.00. Clearing Special 98c

MEN'S FINE SHIRTS, $1.48
Widely assorted range of Men's Fine Shirts in neat patterns—stripes and checks. Bought and specially priced for our Sale. All sizes. Worth $2.50. Clearing at $1.48

NECKWEAR, 35c, 3 FOR $1.00
We are making history with this Neckwear, and you will be surprised at the range of colors and designs we are showing at this price. Opportunity is knocking three times for the price of one. Worth 75c. Clearing, 35c each, or ..... 3 for $1.00

THAT SON-IN-LAW OF PA'S — By C. H. Wellington

He Likes to Wash With Lifebuoy

Its velvety lather cleans and refreshes every pore in his skin. It makes him feel fit all over. He "looks" the difference. It is delightful and invigorating to wash with Lifebuoy.

The "health" odour in Lifebuoy is not a perfume—not the odour of a medicine—but a pure hygienic odour that tells you instantly why Lifebuoy purifies and protects—why it improves your skin.

Lifebuoy "smells clean". It is as pure as soap can be made. The velvety smoothness of a wash with Lifebuoy is a delight which is denied to those who use only ordinary soaps.

Try a cake of Lifebuoy to-day. You can get it at any grocery, drug or department store.

LIFEBUOY HEALTH SOAP

LEVER BROTHERS LIMITED, TORONTO

LB. 1

CITY'S NET WATER RATES LAST YEAR AMOUNTED TO $66,793.29

THIS INCLUDED SPECIAL FRONTAGE TAX—ACCOUNTANT HENDERSON AND WATERWORKS SUPERINTENDENT R. L. DOBBIN SUBMIT ANNUAL REPORTS.

A STEADY GROWTH

At a meeting of the Peterborough Utilities Commission, Accountant W. G. Henderson submitted exceedingly concise financial statements of the electrical and waterworks departments for 1920.

Electrical Department.

For this department Mr. Henderson gave comparative statements of earnings and expenses, assets and liabilities, cash receipts, power purchased, etc.

The total earnings for the year amounted to $147,516.57, being an increase of $20,114.87 over 1919. The division of the increase are as follows:

Domestic light revenue	$ 5,009.04
Commercial light revenue	2,528.41
Power revenue	12,142.32
Street lighting revenue	334.11
Miscellaneous revenue	100.99
Total	$20,114.87

During the year 1,072.03 was expended on sub-station equipment, $6,847.45 on construction of new lines, $13,340.11 on new transformers and $3,580.84 on new meters. The total expenditures on construction amounting to $25,012.39.

The expense accounts, including sinking fund and interest on debentures, also allowance of $2,000.00 on compensation reserve, interest on 1919 balance of compensation reserve at 5 per cent., $235.33, one-third depreciation on temporary incandescent system $152.50, depreciation of 20 per cent. on original value of trucks $565.00, depreciation of 10 per cent. on office furniture and instruments $598.05 and depreciation on general plant at 3½ per cent. $9,177.00 and general operating expense, making a total of $138,635.48, showing a net profit on the operations for the year of $8,881.09.

The cost of constructing the new 3-wire system on Charlotte Street from George Street to Bethune Street and on George Street from Charlotte Street to Canadian Pacific Railway Depot was $2,408.58.

Water Department.

During the year $12,415.22 was expended in laying mains and setting hydrants and $3,053.61 in laying services, making a total of $15,468.83 expended in construction.

Several of the windows on the north side of the pump house were bricked in permanently at a cost of $505.43, and the residence for the chief operator was completed, bringing the total cost of this structure to $3,908.15.

The net water rates, including special frontage rates, amounted to $66,793.29. To this was added $2,000.00 charged for the use of the dam for power purposes, and $1,165.57 profit on material sold and used in consumers' construction. These made a total revenue of $69,958.86.

The expense accounts, including interest and sinking fund and amount written off tools and plant, also cost of removing 5-inch main on Queen and Simcoe Streets and relaying 8-inch main, amounted to $76,470.99, showing a loss on the operations for the year of $6,512.13.

General Information.

The steady growth in the number of consumers on the electric system having caused a congestion in the billing department, it was deemed advisable to change the method of billing the domestic consumers from monthly to by-monthly accounts and on May 1st this system was inaugurated. This method has reduced the number of accounts sent out from this department by 17,700. The total number of accounts rendered for electric service for the year being 44,406 and for water and frontage 23,620, making a total of 68,026 accounts rendered, of which about 2 per cent. have to be rendered the second time due to failure of the consumer to preserve the original account.

During the year there were 1,659,204 K.W. hours sold to domestic consumers, yielding a revenue of $50,379.11, and 1,505,400 K.W. hours sold to commercial consumers, yielding a revenue of $29,629.40. To the power consumers there were sold 3,571,411 K.W. hours with an average maximum demand of 3,109 horse power, yielding a revenue of $50,077.35.

R. L. Dobbin Reports.

At the same meeting of the Commission R. L. Dobbin, Waterworks Superintendent, presented a report of operations in his department the past year, 1920, as follows:

Distribution System.

The principal items of construction were the 12-inch main on Monaghan Road from King Street to Patterson Street and the replacing of smaller mains on Queen and Simcoe Streets with 8-inch mains. This work was nearly all undertaken to increase the fire protection.

Very few services were laid, the number being the smallest for some years. It reflects the condition of the house-building industry of the city.

Pumping Station and Dam.

The steam auxillary was not used in 1920 to pump water, although during the Fall it was kept in readiness for use at various times.

An improvement has been made in the pumping station by the bricking up of most of the windows on the north side. The temperature of the interior has as a result been much higher, with a smaller amount of coal being used in the heater.

Pumpage.

On account of the cold weather of January, February and March the amount of water pumped in three months was very high. The total pumpage, 1,214,300,000 gallons, was higher than in 1919, but not as high as 1918.

The average number of gallons pumped per day was 3,326,850, and the maximum day's pumpage was 4,275,000 gallons on May 31st.

The maximum rate of demand was 7 million gallons per day on June 10th.

Laboratory.

Five hundred samples of water from the intake were tested and 515 from the city mains. The results show that the pollution of the river above the intake increased greatly during the Summer months. During 1920 the pollution was so great that even chlorine, applied at the rate of 11 pounds per million gallons, did not suffice to kill all the bacteria. The citizens were accordingly instructed on June the 29th to boil all drinking water, and were not advised to discontinue this precaution until October 1st.

The total amount of chlorine used, 6,342 pounds; in 1919 this amount was 4,446 pounds, and in 1918 the amount was 3,514 pounds.

These facts confirmed the opinion of the Commission that a filter plant was advisable and necessary, and they proceeded to put the matter to a vote of the ratepayers. The results being favorable, no obstacle remains to the installation of a suitable plant to give the City of Peterborough pure and wholesome water.

At the earliest the new filter plant cannot be in service until November, 1921, and in the meantime, extra precautions will have to be observed in patrolling the waters adjacent to the intake and in the prevention of pollution. If the pollution increases at the same ratio as it has for the last three years, we may look for an anxious time in the coming Summer.

The maximum temperature of the water was 75 degrees on August 17th. In 1919 the maximum was 80 degrees on July 16th.

Cold Weather Troubles.

The Winter of 1919-20 was a very cold one, being almost as bad as 1917-18. Over 300 services were frozen, and as a consequence, much water was wasted to keep them from freezing up again after thawing.

The fire hydrants were a source of continual worry, as the leads to them froze time and again. Extra inspectors were employed, and every hydrant was inspected at least once a day, and some of them twice. Many had to be thawed daily with steam, and altogether about 30 of them were continually either frozen or being thawed out.

Those hydrants which were lowered in 1919 on account of frost troubles during the preceeding Winter did not give any trouble whatever and this experience led the Commission to authorize the lowering of 24 more of the worst offenders. Fifteen of these hydrants have been treated and the balance will be done next season.

General.

The expenses of the department increased very greatly during the year, the extra amount being about $12,000, and of this $7,000 can be directly charged to the cold weather troubles of the Winter.

An extra amount was spent on chlorine for the year, due to the increased pollution of the water in the river.

The labor cost of replacing the 3-inch main on Queen Street with 8-inch was charged to maintenance.

Invention is the stepmother of trusts.

ADMITS THAT HE SHOT THREE MEN.

State Says Wounded Detective Was Placed in Wicker Chair and Murdered.

WILLIAMSON, Va., Feb. 22.—A wicker chair, with an alleged bullet hole through the back, played an important part in the Matewan battle trial going on here. J. W. Ferguson, one of the seven Baldwin-Felts detectives who were killed in the fight, rested in the chair on the back porch of Mrs. Mary Duty's home before he was killed several witneses testified.

John Akers told the jury that he assisted Ferguson to the Duty home after the Detective had been wounded. He said that he ran from the porch when several men armed with rifles came through the house from the front. He said he had not gone far when he heard shots. He turned into an alley on which the Duty home faced, and he saw Ferguson lying dead in the roadway with several men near the body, the witness said.

Captain Avis, of counsel for the State introduced the wicker chair as an exhibit. Pointing to the hole in the back, he said he intended to prove that the wounded man had been shot again and killed after he was taken to the Duty home.

Harry Staton, a Justice of the Peace, was one of nine witnesses heard. He said that he went to Matewan after the fight, where he met Sid Hatfield, a defendant. He testified that Hatfield shook hands with him and told him that he had killed three of the Baldwin men. Asked who the men were, Staton said they were Albert Felts, Lee Felts and C. B. Cunningham.

Miss Josephine Hamilton testified that shortly after the battle she was standing near the body of a detective. Several men passed her, she said, and as they neared the body one of them remarked.

"Ain't that good bait for fishing."

Mrs. Mary Duty, who resided in the house where Ferguson was taken after he was wounded, told the jury that she left home shortly after the detective was brought there. She said that when she departed, Ferguson was alive but that when she returned, the detective's body was lying in an alley near by.

Mrs. Rhoda Compton, aged, 61 years was called as a witness by the State. On the day of the fight, she said, Sid Hatfield and a crowd of men chased a man down the railroad track near her home. She shouted at Hatfield, she said, telling him "For Lord's sake go back and stop that trouble." Some one answered: "Ma, don't worry, no one will bother you."

Jeff Hatfield, a Matewan merchant, was called late to-day. He testified that he saw several of the defendants armed before or after the battle.

Health

Comes to you and the children if you have Dr. Pierce's Golden Medical Discovery in the house. For "little-ones" and "grown-ups" this old fashioned vegetable tonic and blood-maker is still used by the million bottles every year. It was first used by everybody 50 years ago and is still safe and sane because it contains no alcohol or narcotic. It is made up of Blood root, Oregon Grape root, Queen's root, Stone root, Cherry Bark, without alcohol. Make your blood redder and your health better by going to your nearest druggist and obtaining Dr. Pierce's Golden Medical Discovery in tablet or liquid form.

CENTRAL BUTTE, SASK.—"I have used Dr. Pierce's Golden Medical Discovery for a number of years, and am pleased to recommend it as a blood purifier. I know it has no equal, as I used it for my boy. My neighbors and friends were surprised with the results; in fact, I do not think he would be alive to-day had it not been for the 'Medical Discovery.' I also keep it on hand for coughs, as it differs so from other cough medicines; instead of upsetting the stomach, as most cough syrups do, it is good for the stomach. I only wish I had known about Dr. Pierce's medicines sooner."—MRS. PERCY WOOD.

MOTHER!

"California Syrup of Figs" Child's Best Laxative

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best and most harmless physic for the little stomach, liver and bowels. Children love its fruity taste. Full directions on each bottle. You must say "California."

HEALTH FOR WORKING GIRLS

Those Who Suffer and Are Unable to Work Need Helpful Suggestions

Springfield, Ill.—"I had periodic trouble with weakness, cramps and backache and I could not work. A neighbor recommended your medicine and I took four bottles of Lydia E. Pinkham's Vegetable Compound. I am now strong and well, able to work, and recommend your medicine to my friends."—ANNA RIMKUS, R. R. No. 8, Springfield, Ill.

Why will girls continue to suffer month in and month out as Miss Rimkus did when case after case is related where Lydia E. Pinkham's Vegetable Compound has removed the cause of the trouble and brought good health. For more than forty years this old-fashioned root and herb medicine has been the standard remedy for such ailments, and has the record of having restored more suffering women to health than any other medicine.

If there is any complication about your condition you do not understand write Lydia E. Pinkham Medicine Co., Lynn, Mass., about your health.

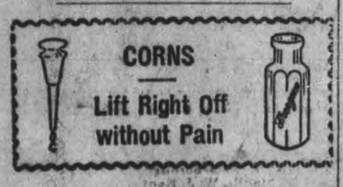
JUGGLES EXCHANGE AND JUMPS SALARY.

New British Minister at Warsaw Makes $3,500,000 This Way.

(By Cross-Atlantic Newspaper Service.)

LONDON, Feb. 22.—Three and a half million dollars a year sounds a fabulous amount for a diplomat's salary, but a little juggling with exchange rates swells to those dimensions the pay of W. G. Max Muller, the new British Minister of Warsaw, who has just taken up his post in the Polish capital.

It takes over 3,200 Polish marks to effect an exchange with a British pound. Since the Minister's stipend, 4,500 pounds per year is paid in English money, it will be seen by ready reckoning that he will be in receipt of about 14,000,000 marks a year, or, reckoning exchange at the former rate of twenty marks to the pound, his salary would be no less than 700,000 pounds.



CORNS

Lift Right Off without Pain

Magic! Drop a little "Freezone" on the aching corn, instantly that corn stops hurting, then shortly you lift it right off with your fingers. Does not hurt a bit.

Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn or corn between the toes, and calluses.

AN ICY BATH.

BOBCAYGEON, Feb. 22.—An employee of the Carew Lumber Co., Chas. McGuire, of Lindsay, had an ice-cold bath a couple of days ago in Pigeon Lake. He was hauling logs when the team broke through the ice. One horse was drowned, but McGuire managed to save the other, although he nearly perished in doing so.

Don't open your cutout or blow your horn just to attract attention. The impression you give other people is usually different from what you think.

WEDDING BELLS AND RURAL HAPPENINGS ARE A SOURCE OF JOY AND SORROW TO TO THE NEWSPAPERS WHO PRINT THEM

A CHEESE KNIFE SHOULD BE USED ON THE COUNTRY CORRESPONDENT WHO PERSISTS IN RECORDING THE AGE OLD CUSTOM OF BILL SMITH VISITING HIS GIRL ON SUNDAY AFTERNOON—WHAT A PAPER LIKE THE EXAMINER HAS TO CONTEND WITH.

By JEANNETTE.

Newspapers are very funny sometimes. Look at the things you see in the advertisements and personal columns for instance. We have all heard about the gentleman who wanted to sell a bull-dog that would eat anything, and was "very fond of children," also about the pony for disposal by a lady "with a switch tail," the cabinet to be purchased from the lady "with a movable head," and the piano from a gentleman "with solid mahogany legs." Very recently we noticed an advertisement for "two ladies and gentlemen to room together," and they sometimes come like this: "Lost, black lady's glove," or "Widow lady seeks employment in bachelor's home"—no doubt.

The Groom Remembered.

The "Wedding Bells" abounds in sticky language; "sweet" and "lovely" and "beautiful" are worked hard in these columns, and there never yet was a bride who wasn't "charming," nor a wedding repast that wasn't "sumptuous." They always leave for "other points west," and the groom is never anything but a negligible factor on these auspicious occasions. However, we noticed a proceeding lately where "the groom looked well in his immaculate suit of black," and a reporter recently seized upon an occasion where the leading man appeared in military togs to remark that "the groom was wearing his well-earned symbols of service," so this formerly inconspicuous member may at last be coming into his own.

Rural Happenings.

The reports from rural districts are sometimes very peculiar. Here's where you get them like this: "Hi Smith went in to town on Wednesday with a carload of hogs. There was room to spare, so Sam Johnson went along to make up the load." "Mr. Brown's store was broken into last week and $700 removed from the safe. The thief is still at large. Dan. Bennett has just bought a new car." "Mr. Jones, the Methodist minister, who has been giving a course of lectures on the future life, will give 'Hell' in the basement of the church next Tuesday evening at the meeting of the Ladies' Missionary Society."

"The bride entered the room on the arm of her father, who looked lovely in a gown of white satin, with a tulle veil."

"A short time ago we noticed a report to the effect that a postmistress had been appointed at Hog's Hollow in the place of a gentleman resigning on account of having disposed of his property to the Baptist Church. Just whether the gentleman had made so much money by this transaction as to enable him to permanently retire from public life, or whether he had become too uppish for further public service on account of selling his property to the church, was not explained.

Minor Happenings Important.

Minor happenings are all-important in the smaller communities. The overworked condition of the visiting gentleman "who has been threshing steady for over six months" is sympathized with, and the exertions of that member of the community is "busy sawing wood for the neighbors" are commented on, but we are pleased to learn that this gentleman does not follow up his trying avocation for more than six days in the week, for it is recorded that he visited "a local family on last Sunday evening." There is a great deal of Sunday evening visiting recorded in this epistle, but the young men seem to have the habit of calling upon Mr. and Mrs. So-and-So. Are there no eligible girls in this village? (We might say just here to any information-seeking young ladies that under no circumstances will the name of this place be divulged) or is merely a blind to conceal the true object of the call on the daughter of the house? We very much fear that the scribe himself is a misogynist, as he features masculine doings only in his narrative, but hope that the infection has not spread to other male members of the community.

The Broad Smile.

There is evidently a strong family feeling here, as a broad smile is recorded as once again enlivening the visage of Mr. Ethan Butler, directly beneath a notice regarding Mr. Nehemiah Butler's return to health.

It might not be amiss to remind that gentleman who has signified his intention of visiting Buffalo in the near future that Montreal is a little nearer home, and they brew it just as strong down there, and, in the midst of a chronicle of mere social events, we are pleased to note the enterprise of the two young gentlemen "who attended the shorthorn sale in "Toronto and brought home with them two fine heifers."

The Ladies' Meeting.

In another report, giving an account of an illustrated lecture which failed to materialize on account of refractory lights, an optimistic spirit in the midst of trial is shown by the remark that there would hardly have been a good audience in any case, since the affair was not well advertised, and too many other social gatherings would have been sure to interfere with it.

We note that the Woman's Institute in this place is not bothering about world reform, social welfare, and such-like weighty matters, being mainly concerned over the cow by-law, a phonograph required for the school, and the remissness of the Council in not using the lamps donated some time back. The rather startling statement is made that while parents, who look after the physical, spiritual and intellectual interests of their children, have full control, and the teacher has partial control in her solicitude for the intellectual and physical side of life that the minister, whose sole concern is spiritual affairs, has no control whatever. What is the world coming to?

REICHSTAG RECEIVES PECULIAR PETITIONS

One Man Modestly Asks to Be Made President of German Republic.

(By Cross-Atlantic Newspaper Service.)

BERLIN, Feb. 22.—The Reichstag, resuming its sittings after the vacation, received several thousand petitions from associations and individuals who vent their grievances or submit proposals which they would like to become law. Most of the petitions find aburial place in the waste-basket.

A German-American from Chicago asks for "promotion of harmonic interests," but fails to explain just what that means. A gentleman from Magdeburg submits a memorial on the "Improvement of Men and Law" and asks that his ideas should become law. A citizen of a Saxon village sends plans for colonization by small capitalists in Central America.

Another petitioner wants a decoration, and several demand compensation for bank notes which have been destroyed. All kinds of cranks declare that the country can only be saved if the Government forbids drinking, smoking and all amusements. A modest man from Friesack merely wants to become President of the German Republic.

Many sermons are aimed at the pocketbook instead of the heart.

Buy Your Desserts From Your Grocer

NEXT time you're telephoning the grocer, ask him to send your favorite flavor in a Pure Gold Jelly Powder.

Take a few moments to prepare it (instead of bothering with some fussy dessert), and serve it to the family that night.

Watch the look of interest on dad's face change to a smile of satisfaction as he tastes its wholesome goodness; listen to the exclamations of delight from the kiddies. You'll never have seen a dessert disappear as quickly as this will.

You can have Pure Gold Jellies on hand—always. They'll solve your dessert problem whenever a dainty dessert is needed quickly.

The better grocery stores carry Pure Gold Jelly Powders. All true fruit flavors in strawberry, raspberry, red currant, pineapple, lemon, orange, cherry and vanilla. Order your favorite flavor to-day.

Mrs. Hope and Master Spencer Hope were in Peterboro, on Saturday.

Curling News.

The curling season is drawing to a close and in spite of the winter being unfavorable for the various games, there has been considerable interest shown. Skips Craword and Rudpath are tied for first place in the local competition and the coming week will no doubt see some close games.

White flannel or white serge pleated skirts are much in evidence at Nice, worn with the short box jacket of broadcloth, flannel or duvetyn which are now much smarter than the sweater.

FLOUR DROPPED IN PRICE.

KINGSTON, Feb. 19.—When asked the price of flour, the Kingston Milling Company staed that during the past two weeks the price had dropped twenty cents a barrel. The company also stated that there was a great quantity of oats in the country, and they were selling for 55 cents a bushel.

CHARGE FALSE PRETENSES.

LINDSAY, Feb. 22.—Mr. S. Pulver, of this town, has taken proceedings against a Montreal produce firm on the charge of false pretenses. This firm purchased poultry from Mr. Pulver to the extent of -640.00 and issued a cheque for same which has been dishonored.

Your Cough will be Better

We Offer the Greatest Assortment of

Moderately Priced Millinery

This Store Has Ever Known!

ONE HUNDRED AND FIFTY

Trimmed Hats

JUST ARRIVED FROM NEW YORK

And Priced at **$5.95** *EACH*

In Our Front Window We Have Displayed As Many As It Will Hold

This assemblage of millinery, at this low price, is another proof of the efforts of this store to provide merchandise, for the people of this city, at moderate prices.

We can never remember offering such an assortment at the commencement of a season.

Let it be understood that these are not last season's hats, trimmed in a different way or made over.

They Are New Models from New York and Were Selected by Our Millinery Buyer a Few Weeks Ago

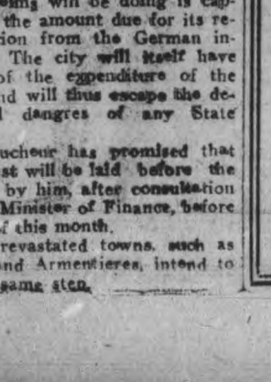
They are inexpensive but lovely, and will answer the needs of many women who desire, just such models for wear, before and after purchasing their more elaborate hat for the Easter occasion.

Your first opportunity to purchase them will be to morrow morning, but some will be displayed in our front window to-night so that you may see what excellent value they are.

You Have Choice of One Hundred and Fifty Models And All Are Different

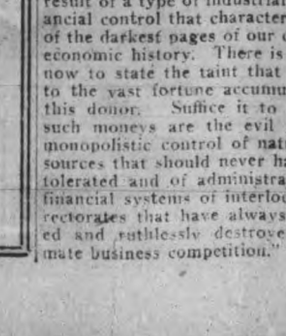
You will find a comprehensive assortment of colors, a wide variety of shapes and many different trimmings used in novel ways.

If you are partial to sailors you will like these. They introduce the becoming narrow brimmed sailor with the high crown. If you prefer a tam or a shape that rolls away from the face or a litle model that droops down, then you will also find cause for enthusiasm.



For trimming there are flowers and ribbons in abundance, and some are faced with crepe de chine. The straws that are used to make the hat itself are tagels and batavia cloth; the latter is really a straw fabric and is very adaptable and suitable for millinery.

There are so many different colors and so many different shades in each color that it would be difficult to enumerate them all, but you will find plenty of fashionable greys, tans, browns, blues and hennas.



Remember, One Hundred and Fifty Models, and All Are Different.

RHEIMS SEEKS LOAN.

Asks 500,000,000 Francs Advance on Indemnity.

PARIS, Feb. 22.—The City of Rheims has decided to ask the French Government's permission to float a loan of 500,000,000 francs to aid the work of reconstruction. This decision was taken at a meeting of the City Council and in accordance with the advice of M. Loucheur, Minister for the Devastated Regions, who recently visited Rheims.

The scheme proposed by M. Loucheur, of which the city is seeking to take advantage, provides that, while the money is raised to enable rapid reconstruction, the State accept responsibility for the loan and pay the interest. Actually what Rheims will be doing is capitalizinig the amount due for its reconstruction from the German indemnity. The city will itself have control of the expenditure of the money and will thus escape the delays and dangres of any State scheme.

M. Loucheur has promised that the request will be laid before the Chamber by him, after consultation with the Minister of Finance, before the end of this month.

Other revastated towns, such as Verdun and Armentieres, intend to take the same step.

White Voile Blouses at $1.69

—IN—

The Redfern Store

THURSDAY — FRIDAY — SATURDAY

These blouses are crisp new goods, and we present them in four different styles.

All have long sleeves and three of the styles have Tuxedo collars, the fourth has a round collar with a pointed edge. Neat trimming of embroidery, pin tucks and lace accentuate their smartness. The quality of the voile is the same throughout and is very good indeed.

FOR THE THREE DAYS ONLY

The CRESSMAN Company Limited

LABOR DISAPPROVES ROCKFELLER GIFT.

Donation of $70,000,000 to Education Board Criticized By State Federation Committee.

NEW YORK, Feb. 23.—In a statement issued yesterday the Committee on Education of the New York State Federation of Labor, of which Peter J. Brady is Chairman, votes its disapproval of the recent donation of $70,000,000 by John D. Rockefeller to the General Education Board. Of this sum $50,000,000 is to assist colleges and universities to increase teachers' salaries and $20,000,000 to improve medical education.

"The millions donated to the General Education Board," the statement says, "have been accumulated as a result of a type of industrial and financial control that characterized one of the darkest pages of our country's economic history. There is no need now to state the taint that attaches to the vast fortune accumulated by this donor. Suffice it to say that such moneys are the evil gain of monopolistic control of natural resources that should never have been tolerated and of administrative and financial systems of interlocking directorates that have always throttled and ruthlessly destroyed legitimate business competition."

ANNUAL STORE BANQUET OF THE CRESSMAN CO. HELD LAST NIGHT

SPLENDID MUSICAL PROGRAMME PROVIDED FOR THE OCCASION —WILL DISTRIBUTE PROFITS ANNUALLY.

The annual store banquet of the Cressman Company Ltd., was accounted for last evening. The affair was held under very happy auspices and was a complete success in every way.

The pretty grey lunch-room was most attractive with its bright hangings and softly- shaded lights, its trailing window-boxes with their wonderfully natural artificial blooms, and the immaculate sheen and glitter of the linen and silver. About seventy-five of the employees of the store sat down at the three long tables and a half-dozen smaller ones, the young and the older members together, the dean of them all just as merry as the smallest girl there, with her huge pale-blue bow, and the entire gathering wearing that familiar 'Cressman" look of alert cheerfulness.

Good Food and Music.

The banquet itself, complete from olives to nuts, was a triumphant testimonial to the excellence of Mrs. Edna Stewart's culinary skill, and her corp of deft-handed assistants anticipated and satisfied every want with silent celerity. Mr. I. M. Ward of the John B. Rogers Producing Co. was the pianist of the evening and the popular songs on the printed card, rolled out, under his effecient direction, in separate choruses, in whistled refrains, and in all-together bursts of tuneful melody.

The Toasts.

At the conclusion of the banquet, Mr. W. Ford proposed the toast to "The King", and "God Save the King" was sung, Mr. "Ted" Raynor for himself and his co-workers voiced their united thanks on this occasion, and toasted "The Firm", which was replied to by Mr H. W. Cressman in a neat humorous speech, expressing his appreciation of their feelings towards the company, and remarking that he was pleased to see so many of the same faces which had taken part in previous occasions of this sort. He announced a change in the profit-sharing system, which is to be distributed annually, instead of semi-annually, as heretofore, and prophesied a period of prosperity for the ensuing year. The whole company then sang "He's a Jolly Good Fellow", and Mr F. C. McBride rose to move a vote of thanks to his fellow-employees for the many kindnesses extended to them by the firm, and for their share in the profit-sharing plan. He said that in his commecial career of over 14 years, he had never encountered another organization similar to the Cressman Co., Ltd., and that he had to come to Peterboro to discover ideal working conditions in business life, a sentiment which was heartily applauded.

Songs by the Staff.

Mr. Cecil Wolff, then sang "Mother O' Mine," and Miss M. Sucee gave an excellent rendition of "Can't You Hear Me Calling Caroline", both of which were enthusiastically encored, after which Mr. Ward was called on, responding with "He Went in Like a Lion," in fine style.

Dancing and cards were enjoyed until nearly midnight, when the gathering broke up with the realization of a jolly evening, behind them, and of another happy occasion added to the annals of this firm, whose heads and whose workers seem to co-operate with the same cheerful spirit in their playtimes as they do in their hours of toil.

REV. FATHER C. J. PHELAN,

Rector of St. Peter's Cathedral, who on Wednesday of last week celebrated the 25th anniversary of his ordination to the priesthood.

OTONABEE COUNCIL TRANSACTS BUSINESS

REDUCTION IN RENT OF TOWN HALL FOR BOY SCOUTS.

Otonabee Council met on Monday, February 21st, with the members all present.

On motion Mr. John Fitzgerald was awarded one day's statute labor, refunded for being improperly assessed.

Mr. Barnes and Rev. McEachern interviewed the Council in reference to getting a reduction in rent of the Town Hall for Boy Scouts' meetings.

It was agreed to rent the Hall at $2.00 per night, this rate to take effect from the beginning of the meetings.

On motion the Clerk was instructed to order five subscriptions to the Municipal World for 1 year.

Accounts Passed.

The following accounts were passed:

Work on roads—Robert Stark, $9.00; Wm. Stark, $9.00; John Henderson, $9.00; Wm. Chapman, $4.50; John Stark, $47.90; Wm. Knox, $38.30; Max Weiss, $27.60; Stanley Johnston, $29.80; Wm. Henderson, $16.70; Jas. Davidson, $52.00; James Miller, $46.35; Robert Knox, $39.00; Harry Elliott, $40.20; Harold Weir, $32.00; Ike McNeven, $18.00; Wm. Redpath, $49.50; Ralph Humphries, $82.00; John Edwards, $28.50; C. Cook, $13.50; Geo. Weir, $24.00; A. Spiers, $12.00; John Edwards, $3.00; Wm. Fitzgerald, $47.10; Jas. Jackson, $42.10; John O'Connors, $82.00; John Shaughnessy, $44.10; Herbert Deyell, $114.30; John Hayes, $6.00; Stanley Harrison, $34.65; John Thorn, $17.40; Fred. Galloway, $15.00; Robin Thorn, $6.00; Charles Waldron, $46.50; Thomas Beatty, $12.00; Len. Clancy, $47.00; Edward Clancy, $21.60; Frank Crowley, $28.00; Joe Crowley, $38.00; George Elliott, $21.00; Geo. Harris, $31.50; Joe Burns, $52.10; R. Harrison, $70.50; Stephen Thorn, $68.40; W. Deyell, $16.50; A. Doris, $100.00; Thomas Stallery, $33.00; D. Shaughnessy, $1.50; John Thorn, $27.00; E. W. Wood, $44.98; Wm. Dawson, $15.00; Dave Crowley, $28.50; Richard Stewart, $18.00; Wm. Darle, $9.00; Hector Crowley, $9.00; H. Bonneville, $6.00.

Gravel—Mrs. D. McCarthy, $28.95; R. Harrison, $18.15; E. W. Wood, $28.00.

Blasting gravel pits—Joe Fitzgerald, $5.00; Thomas Powers, $12.00.

Blasting powder, G. S. Taylor, $55.00; Peterborough Examiner, account, $44.75; Municipal World, account, $20.82; placarding, Sam O'Brien, $2.00, cutting brush, Milton Esson, $24.00.

Council adjourned to March 21st, 1921.

BABIES' CLINIC HELD A MEETING

Dr. M. Yelland Gave an Interesting Address.

At the meeting of the Well Babies' Clinic, held in the G.W.V.A. rooms yesterday afternoon, Dr. H. M. Yelland gave a most instructive and enlightening adress on "How to Prevent Colds and Bronchitis in Children," and Miss M. Morrison demonstrated the most up-to-date methods of preparing poultices, compresses and plasters for infantile use. The room was packed with attentive listeners, an indication of the interest which is being manifested in these expert discussions and demonstrations of modern scientific practices of combating and preventing the growth of diseases in that most important of all classes of the community, the child, on whose present health and well-being depends the life and successful development of future generations.

CARUSO AT HOME

FRIENDS NOTICE A BIG CHANGE IN HER

"TANLAC HAS DONE ME A WORLD OF GOOD" DECLARES LITTLE TORONTO WOMAN.

"Since my friends are all telling me how much better I am looking, I think it's time for me to be recommending Tanlac," said Mrs. S. Ashman, of 227 Ashdale Avenue, Toronto, Ont.

"Up to about two years ago I always enjoyed splendid health, but from that time on I was in a terrible condition. My appetite was poor and my digestion bad. My nerves were all upset. I couldn't get any sound sleep, and had constant pain in the back of my head. I fell off in weight and strength and the least effort would tire me out completely.

"What I needed most was a general all-round building up, and Tanlac has certainly done that for me. By the time I had finished my fourth bottle all my troubles were gone, too. I now eat heartily, sleep fine, have gained ten pounds in weight, and feel like an entirely different person. Everybody notices the improvement in my condition. Tanlac has done me a world of good, and I just feel like praising it to the skies."

Tanlac is sold by The Warne Drug Company, Ltd.

KEPT HIS TOOLS IN MAUSOLEUM.

TUSCALOOSA, Ala., Feb. 23.—"Old Ike," a negro sexton in a Tuscaloosa cemetery, was not superstitious. That seems to have been proved with the recent demolition of a mausoleum here. When the vault fell into decay weird happenings were related, and it was pointed out as a place where ghosts congregated. It was shunned except by "Old Ike," the only name by which he was known.

There was a hole in the wall, and when Ike discovered it he decided to utilize the place for storing his pick, shovel and other tools. He is credited with saying that he never lost a tool.

ELECTRIC TIME SAVER WASHER

THIS IS THE SAFE WAY TO DO YOUR WASHING

Many housewives prefer to keep the washing in the home. This is the safe and sanitary way. Clothes sent out to be washed are mixed with everybody's, and come in contact with contaminated linen. Also by keeping the washing in the home you can supervise it closely and often prevent the ruin of some delicate garment. Clothes last much longer when washed in the home.

With a Time Saver Electric Washer you can easily get all the washing done in your own home. It saves three whole hours on wash day and makes the day an easy one. Both washer and wringer are driven by electric power and run for 2c. an hour. It is moderate in price. It pays back its cost in a year in the saving of laundry bills or washer woman's wages. We have a machine in the store for you. Let us demonstrate it in your home. Phone or call.

The Economy Basement
Phone No. 1650

A Practical Demonstration

of the Time-Saver Electric Washer, will be held in Our Economy Basement, Friday and Saturday of this week.

The manufacturers consider it a privilege to be able to hold such a demonstration. There will be two of the Factory's most capable and well-posted demonstrators in attendance, who will consider it a favor if you will come in and let them demonstrate this wonderful washer to you.

Two Days Only—Friday and Saturday of this week—in Our Economy Basement.

THE J.C. Turnbull CO. LTD

PRIZES FOR BEST ESSAYS BY THE PUPILS OF WEST PETERBORO SCHOOL

For the best three essays by pupils of rural schools in West Peterborough ,upon "The Effect of a U. S. Tariff against Canadian Farm Products, upon Canadian Farm Products and upon U. S. Farm Products," a first prize of $5.00, a second prize of $3.00 and a third prize of $2.00 in gold, will be given by Mr. J. H. Burnham. The essays are to be signed by the writers, with their addresses and the number of the rural school attended by them, and must be sent in to The Examiner Office marked on the outside, "Essay Competition," by May 1st. For the guidance of the writers it may be said that the essay is not to be longer than three folios (300 words) and that after the statement of the subject as above is made, the conclusions should be stated, to be followed by a clear but brief statement of the writer's reasons therefor. The writer is to imagine that a question is being asked, and the contestant's efforts shall be directed towards giving a clear answer and sensible reasons for the answer. The prizes will go to those who most clearly and cogently express their views.

NOTED BANDIT IS SHOT DOWN IN AN AMERICAN BANK.

Seriously Wounded in Attempt to Hold Up Financial Institution at Harrison, Ark.

HARRISON, Ark., Feb. 22.—Henry Starr, notorious Oklahoma bandit, was seriously wounded when, with two companions, he attempted to rob the People's Bank of Harrison.

When the robbers backed employees of the bank into the vault, a bank officer seized a rifle that had been hidden there and shot Starr down. He then opened fire on the other two, but they escaped.

Starr underwent an operation at the County Jail, performed in an effort to save his life. He was shot through the body, just below the heart. Physicians said they thought he would recover.

He dictated telegrams to his wife at Tulsa and his son, Henry Starr, Jr., at Oklahoma City.

"I always expected to die with my boots on," Starr told officers.

He later was said to have given the names of his companions as Buch Davis and Tom Jones.

The three bandits entered the bank shortly before noon, and drawing pistols ordered officials and employees into the vault. W. I. Meyers, a former president, and one of the principal stockholders of the bank, entered at the time, and also was ordered into the vault.

Mr. Meyers had concealed a rifle in the vault, and in the darkness was able to obtain it and open fire before his intention besame known. The two bandits who escaped fled in an automobile, but after driving a mile south of the town they set the machine on fire, and escaped into the hills. They got no loot.

Career of Crime.

Henry Starr was born in Fort Gibson, Okla., on 2nd December, 1873. His father, George Starr, was a full-blood Cherokee Indian. His mother, Mary Scott, was a quarter-blood Cherokee. Of the three children, Henry was the youngest.

After his pardon in 1902 for the killing of Deputy Marshal Wilson in the Pryor Creek train robbery, Starr married, went to Tulsa, and engaged in the real estate business. In 1907 he moved to Skiatook, Okla. With his wife and son he attended the inauguration of C. N. Haskell as first Governor of Oklahoma. Starr believed at that time he had successfully 'beaten back." Oklahoma thought the same.

But the State of Arkansas had not forgotten the Bentonville bank robbery which took place in 1893. It had an indictment hanging over Starr, and when Oklahoma came into the Union the Arkansas authorities got a requisition for Starr and asked Governor Haskell to honour it.

Starr erroneously understood this requisition had been granted, and he fled.

In 1908 he robbed the bank at Amity, Col. He was arrested a year later and sentenced to from seven to twenty-five years in the Colorado State Prison. Good conduct won a parole.

After his release he went to Polly, Col., and started a little restaurant. But he couldn't stay there. The people were afraid of him.

He then went to Wyoming with $10.00, and hunted work, but every time he got a job some one pointed him out as the "bad man from Oklahoma," and he was fired.

The robbery of the bank at Stroud was the most daring in the history of Oklahoma. On 27th March, 1915, Starr and his men rode into the town, tied their horses to the stock yards fence, left one of their number in charge, and proceeded to the two banks. The officials of the two banks were covered with revolvers, and $8,000 in currency was taken.

As the bandits were escaping, Paul Curry, a 15-year-old boy, ran into a butcher's shop and obtained a short-barreled rifle used for killing hogs. He fired at Starr. The bullet struck the outlaw in the leg, shattering it. As Starr fell Curry shouted: "Throw away your gun, or I'll kill you." And Starr did.

SIR HARRY LAUDER HOME FROM TOUR.

Four Years' Trip Through British Dominions.

LONDON, Feb. 22. — (Canadian Press—By Mail.)—Sir Harry Lauder has just returned from a four years' tour of all the British Dominions with the exception of India, "but including the United States."

New Zealand, he says, was perhaps the country that struck him most for its homliness, but there was prevailing homeliness and welcome wherever the English tongue was spoken. South Africa had a slight tinge of the foreign element. Could he get a drink in America? Well, it was no use telling lies—(laughter)—and he must at once answer, "Yes." But you could get anything you liked in America if you were prepared to pay for it, and in regard to whiskey "being prepared" meant $10 a bottle. In the United States there was a vast predominance of friendship for this country. There were rebels here as well as there, the difference being that here they could not speak out so much. The decent Irishman everywhere was persuaded that the present violence, damage, and murder were all wrong, and the reputable men were all for the consolidation of the British Empire.

Thanks to a regular life, added Sir Harry Lauder, being temperate in eating, drinking, smoking and sleeping, though his wife would say that his one smoke a day was a smoke a'l day, he felt as fit as at twenty-five. During his tour he had raised £115,000 for mained British sailors and soldiers, and his wife had made 30,000 dollars for the same cause by selling his photograph outside theatres and other places at which he was appearing.

EFFICIENCY TALK TO BUSINESS MEN TO-NIGHT IN G.W.V.A. HALL

ALL BUSINESSMEN AND CLERKS URGED TO ATTEND.

Mr. Thomas F. L. Henderson, Business Counsellor of the La Salle Extension University of Chicago, will deliver an address to business men in the G.W.V.A. Hall, Murray Street, commencing at 8 o'clock to-night. "Efficiency" will be the theme, and as Mr. Henderson is a well known expert on efficiency and sales much profit is promised from his practical talk on the things that count in the conduct of business.

Mr. Henderson has come to the front as one of the foremost of America's speakers. His forceful personality, his mastery of language, his insight into fundamentals and his ability successfully to inspire people to get the best out of themselves, makes his talks unusually effective. He has spoken at meetings of associations of commerce, business clubs, salesmanship conventions, etc, where his talks have unlocked hidden possibilities.

The Chicago Sales Managers' Association has the following to say of Mr. Henderson's work:

"We owe a debt of gratitude to your University and especially to your Mr. Thomas F. L. Henderson, who delivered before our association a most remarkable address on 'The Salesman that wins To-day.'

"Mr. Henderson has a way of making one feel that he is speaking directly to one; and this combined with his thorough knowledge of human nature and his charming personality, made his address to us of unusual interest and value. We trust we may have the pleasure of having him with us again."

Mr. C. W. Smith, of 145 London Street, is the local representative for the La Salle Extension University.

SEES IMPROVEMENT IN BUSINESS NEAR.

Chamber of Commerce Committee Reports Better Times Expected in Spring.

WASHINGTON, Feb. 23.—Business conditions will improve from now on in the opinion of members of the Committee on Statistics and Standards of the Chamber of Commerce of the United States, which has just completed its survey of the business situation in January. Archer Wall Douglas, Chairman of this Committee, in a statement, asserts that reports received indicate a growing sentiment that business will improve in the Spring, but there is no indication that there is going to be any sudden return to prosperity.

Mr. Douglas reports that farmers are gradually bringing their produce into market and that bankers throughout the country are extending money and credit to farmers and dealers.

"The most convincing evidence that we are on the highroad to recovery," Mr. Douglas says, "is found in the universal report, brought by traveling salesmen from every section of the country, of steadily growing sentiment that 'business will be better in the Spring'—not a sudden return to prosperity, which is neither likely nor desirable, but a slow and natural working out of those processes of liquidation which are now in full operation.

"There are few who are more responsible than these same traveling salesmen for the growth of this healthy sentiment, which, in effect, is the recognition of the inherent soundness of the situation and that the remedies for it lie largely in constructive action.

"Not only is sentiment improved, but there is definite increase in the volume of business done. It is not a very great increase, but, as Mercutio says, 'twill do,' for it forecasts the beginning of better days. Farmers are gradually bringing their produce to market. Bankers are slowly 'loosening up' and extending to farmers and dealers money and credit, the two vital factors needed to restore the situation. In the tobacco districts of Kentucky, where the deadlock between sellers and buyers seemed unbreakable, there are increasing reports of agreements made and sales consumated.

Would you have nerve enough to do this?

Suppose you were married and had a child and everything went wrong and you couldn't make headway financially. Would you have nerve enough to pull up stakes, to begin all over again, wiping out the advantages of several generations? Would you be willing to start considerably lower on the social scale? Before you answer, read

ALL FORMS OF JAZZ DANCE PROHIBITED

SYRACUSE COUNCIL PUTS BANN ON SUCH PASTIME IN PUBLIC PLACES.

SYRACUSE, New York, Feb. 11. —No more will the toddle, the camel walk, the Chicago flop, the face-to-face or any other of the shivering, shaking, sinuous, distorting convulsions that have passed as terpsichorean interpretation be seen in this city.

For the Common Council to-day unanimously passed an ordinance prohibiting all forms of the jazz dance in the hotels and public dance halls, ordering that all such places close their doors at midnight and forbidding any person under 16 years of age to attend these places, which hereafter must be brilliantly lighted.

Some parents had complained that dance halls were not being conducted as they should be and there was too little of the foot and too much of the rest of the body in the dances that have been popular.

HIGHER FARES FOR GUELPH

Private Bills Committee Allows Bill to Pass—Hydro Takes Over in May.

Guelph has been compelled to submit to increased fares on its municipal street railway. The city's bill providing for seven cent fares,where five cents was the cost of a single ride before, and four tickets for 25c, was approved by the Private Bills Committee of the Legislature.

The city solicitor stated that the road had a deficit of $11,000 the year before last and $13,000 last year. The Hydro Commission had advised the city that increased fares were the only means of stopping the ebb. The Hydro proposes taking over the line on May 1st between now and when the city desires higher fares.

Wilson Crockett, South Wentworth, was the only dissenting member. He advocated 6-cent fares with five for 25c.

The Bill will allow Guelph Radial Railway Company, which is really the city, to increase its capital stock $250,000 for working purposes.

MORE INTEREST IN EUCHRE LEAGUE THAN IN NATIONS' LEAGUE

CORNWALL, Ont., Feb. 23.—(Canadian Press).—In the course of a discourse in St. John's Presbyterian Church, Rev. Hugh Munroe, B. A., speaking on the subject, "The Joy of Serious Living," quoted an Ottawa correspondent to the effect that during the report given to the House of Commons on the League of Nations the members were evidently more interested in the euchre league in room 16 than they were in the League of Nations. Mr. Munroe characterized this condition of the member as entirely unworthy of men who claimed to be worth $4,000 a year to the country. The young soldiers who went from Canada a few years ago might have preferred domestic issues, too, but their time, even their lives, were claimed by the Government. The country was now in a serious mood and would support any government in eliminating the men who will not give intelligent service as members of Parliament.

Sir Harry

MURDERED IN PARK, LEFT IN SNOWDRIFT.

Unidentified Man Found in the Bronx With Two Bullets in Brain.

NEW YORK, Feb. 23.—Believed by the police to have been the victim of one of the series of murders resulting from the illicit traffic in liquor, the body of an unidentified man, about 30 years old and well dressed, was found in Crotona Park, the Bronx, last night.

The body, which lay in the space between the sidewalk and the automobile roadway of Crotona Avenue and was nearly covered by fallen and drifted snow, was discovered by Morris Corrigan of 829 Freeman Street, a 17-year-old boy. The spot where the body was lying is about 200 feet north of Crotom Park South, the street bounding the park on that side.

Way to Reach Catarrh.

Hyomei's germ-killing medication is the only sensible and safe way of treating catarrh. Goes right to the spot. Breathed through the nose and mouth. Guaranteed satisfaction or money refunded. Sold by all druggists.

LECTURE ON INDIA BY ENVOY BURDITT

HELD AUDIENCE SPELLBOUND WHILE LECTURER GAVE HIS EXPERIENCES.

One of the most instructive and interesting lectures given in this city for some time was delivered at the S. A. Temple last night, when Envoy Burditt held his large audience spellbound for over two hours while he spoke of his experiences in India.

The Envoy was one of the fifty officers sent by the Salvation Army to develop the missionary work in that country of vast evils, but also vast opportunities.

Travelling conditions in the early days were very difficult from what they are to-day, and the party was very glad when at last they reached the shores of India. Customs are very new and strange to anyone born to the habits of the western world, but the missionaries, who had left everything pertaining to European life behind them except a pillow, blanket and Bible, soon adapted themselves to the new ways. The hardships were great and often their feet were torn with walking barefoot over the rough and hot sands. Popular opinion was also greatly against the Army in India in those days, and sometimes the officers stood holding their open-airs while the air was darkened with missiles hurled at them. They stood their ground, however, and gained many converts who also stood true to their new convictions through much persecution.

Continuing, Envoy Burditt stated that there are three great evils in India, viz., famine, cholera and child marriages.

The famine is a yearly occurrence and through it a great number lose their lives, many lying down by the roadside to die.

Cholera is also a great catastrophe and carries off thousands during the year. It works so swiftly and surely that sometimes in the course of three or four hours a healthy person may be taken ill, die and be buried before help can reach them. In regard to marriage the custom is that almost from the day of birth the babies are betrothed and at as early an age as four years are married, the girl sometimes marrying a man of forty who has of course, been wedded two or three times previously. To be a widow is the worst disgrace that can befall an Indian girl, and once having lost her husband she is never allowed to remarry but becomes the drudge of the household in which she lives.

The Government of India is doing its best to alleviate these evils and the Salvation Army is working in conjunction with it, but the population is so vast and their moral and spiritual darkness so great that it is a herculean task.

In closing Envoy Burditt pleaded for a greater missionary spirit—not that everyone can go to foreign fields of labour, but that we can at least give of our money and sympathy to help the great but little known work of that band of devoted men and women who are giving of their strength and talents to help bring the heathen from the terrible cloud under which they live.

A vote of thanks was tendered Envoy Alward and Burditt for the great help they had been to the Corps over the week end, and for the splendid lecture given. This was hartily endorsed by the audience and a request made that they return at an early date for another week-end.

LAST RESTING PLACE OF THE DEAD

To those parents who numbered their boys among the "missing" of the Great War, who were unable to obtain any authentic information regarding the manner of death or mode of burial of their lost ones, a message of comfort and cheer is brought by the announcement of Captain Mullineux, M.C., who is visiting Toronto, and who records the care the British authorities have taken in France and Belgium to mark the last resting-place of the Empire's dead.

Hundreds of bodies have been recovered in the systematic search made in the Passchendaele region during the past four months, and each is given a full military service, as some may have been buried by a shell.

There are now about 1,600 military cemeteries being completed in France and Flanders, and folk who had pictured their boyss last resting-place as one of ruin and desolation, will henceforth think of them as in a garden of love and tender remembrance.

British Ground.

With that impulse of romantic generosity which is a national characteristic, the graves of the fallen Allied heroes were consecrated as British ground for ever and ever by the French people, so that their sorrowing relatives need not think of them as having their final resting-place in foreign ground.

Coloured pictures thrown on the screen revealed the beauty of these "God's Acres." In each cemetery stands a beautiful Cross of Sacrifice and the Stone of Remembrance. At each grave is the stone on which is carved the man's regimental badge, the symbol of his faith, his number, etc. Those who wish it can have a sixty-six lettered inscription added at their own expense.

The grass grows just as green over these graves in a foreign land as it would in our own cemeteries, and flower beds mark the foot of the name stones. In each cemetery there is a little rest house, where all records of all the men are kept, and relatives who cannot visit them are asked to send information to be posted here.

Memorials to the Dead.

Among the beautiful memorials shown were those of some battalions which had especially commemorated the gallantry of their regiment. At Vimy, there is a cross to the Canadian Artillery, and a tablet to the Royal Canadian Dragoons has also been set up in Amiens Cathedral.

Still another is that of the French infantry at Dead Man's Hill, where the brave Poilus repulsed the Huns' repeated attacks.

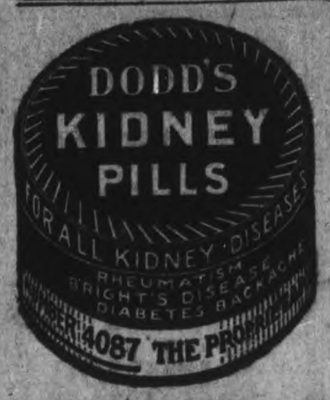
Hostels for Pilgrims.

A chain of St. Barnabas' Hostels has been established in France for the convenience of the pilgrims who go to visit their men's graves. Here they are lodged and a voluntary worker takes them to the spot they seek. A pilgrim from London can go to Ypres and return for £3 10s.

SEVENTEEN TWIN CALVES

Seventeen pairs of twin calves on one farm is an instance of productivity seldom seen, yet this has occurred on the farm of Elmer Spicer, Wellington County, since 1912. With this rate of increase it does not take long to build up a herd and in this case practically every cow lived.

The United Agricultural Association of Canada has signed a contract calling for an increase of rainfall for Medicine Hat between May 1 and August 1. The "rainmaker" broker will be paid $4,000 an inch, with a maximum of $18,000 for a four-inch rainfall.



A COMMON SCOLD MUST QUIT TOWN.

Also Sentenced to Pay Costs of Court Action.

PITTSBURG, Feb. 22.—Instead of reivving the ducking stool of Puritan days for Mrs. Bridget Rupple of Mifflin Way, Winkinsburg, who was convicted in the Criminal Court of being a common scold and who, members of seventeen families testified, had the most voluminous vocabulary of stinging, insulting epithets of any person in the country, Judge Kline sentenced her to pay the costs of the case and move from the neighborhood where she now lives. If she obeys the court's order she will be paroled for six months.

Judge Kline stated he believed it would be the best thing for both the neighbors and Mrs. Rupple if she were to move. The costs of the case, he said, would probably total between $125 and $150. Mrs. Rupple has thirty days in which to pay the costs.

The common scold charge was brought at the instance of almost a score of people who live near the Rupple home and who asserted that they were "scandalized" when they left their houses for a minute and that such epithets as "poor fish," "mountains of flesh" and "dirty long legs," were hurled at them by the woman. She, they averred, detrimentally affected the lives of the women and children who lived around her. It was a common practice for her to use terms of abuse on those whom she chanced to meet on the street, or who chanced to be on their front porches when she passed, they asserted.

WARNS OF GERMAN PROPAGANDA IN U.S.

American Legion Tells All Posts to Watch for the Expected Revival.

INDIANAPOLIS, Feb. 23.—American Legion Posts throughout the United States were asked by the Legion's National Headquarters here to watch for a revival of German propaganda in this country.

A bulletin sent out by the National Headquarters said the object of the propaganda seemed intended to turn American sentiment against the Allies and to create "a powerful national political machine by the amalgamation of the disloyal elements in our population."

Mass meetings in New York, Philadelphia, Cincinnati, Chicago, Milwaukee, Louisville, Omaha and Cleveland have been planned, according to the bulletin, as "one of the first national manifestations" of the propaganda campaign.

Havana, Cuba, has the reputation of being the richest city per capita in the world.

A Stubborn Cough Loosens Right Up

This home-made remedy is a wonder for quick results. Easily and cheaply made.

Here is a home-made syrup which millions of people have found to be the most dependable means of breaking up stubborn coughs. It is cheap and simple, but very prompt in action. Under its healing, soothing influence, chest soreness goes, phlegm loosens, breathing becomes easier, tickling in throat stops and you get a good night's restful sleep. The usual throat and chest colds are conquered by it in 24 hours or less. Nothing better for bronchitis, hoarseness, croup, throat tickle, bronchial asthma or winter coughs.

To make this splendid cough syrup, pour 2½ ounces of Pinex into a 16-oz. bottle and fill the bottle with plain granulated sugar syrup and shake thoroughly. If you prefer, use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, you get 16 ounces—a family supply—of much better cough syrup than you could buy ready-made for $2.50. Keeps perfectly and children love its pleasant taste.

Pinex is a special and highly concentrated compound of genuine Norway pine extract, known the world over for its prompt healing effect upon the membranes.

To avoid disappointment, ask your druggist for "2½ ounces of Pinex" with full directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Toronto, Ont.

EFFICIENT DISPLAY AND PROTECTION IS PROVIDED BY STORE

UP-TO-DATE EQUIPMENT LOWERS COST OF DOING BUSINESS.

There is an old anecdote about a man who had so many time-saving systems in his office that he had no time left after attending to them to do any business. But that is an extreme example. In these days of hurry and hustle, time-saving means a great deal, and, in modern crowded building conditions, conservation of space is another big factor. Many merchants could materially lower the cost of doing business by using up-to-date equipment.

Efficient Display.

The questions of efficient display and protection of fragile merchandise, also better selling service, are important considerations in mercantile problems. The old way of storing merchandise in bales and boxes has been superseded by the more convenient method of forwarding goods to the retailer in paper parcels and cartons, which are placed on the shelves. This system is particularly cumbersome in a store where many types and sizes of each article are required, and creates a condition of shelves crowded with partially-filled boxes, which eat up an enormous amount of time in showing and then replacing the goods on the shelf. Waste space in retailing is said to amount to about 50 per cent. and lost motion in selling to over 50 per cent.

New Systems.

An ingenious system of displaying goods, with a maximum of satisfaction to the customer, of protection to the merchandise and of speed and consequent elimination of a great deal of lost motion and lost conservation on the part of the clerks, has been installed by Mr. Jack Primeau. This consists of glass-doored cabinets, which instantly display waistcoats, etc., in all perfection, on individual trees, of glass-panelled drawers showing collars of different types just as they would appear on the necks of future owners, with side sections containing boxes of all the different sizes of this particular style, and glass-fronted shallow drawers for ties, socks, etc. Sample gloves are stretched out lengthwise inside of the same protecting material, and a glance suffices to get the effect of the article desired. These drawers, in the upper tiers, when pulled out to the limit, fall to an angle which allows of any article being removed easily, and there remain firmly stationary until shoved back to their original position.

Unnecessary Conservation.

This system may have the further advantage of eliminating a certain amount of glib talk from the repertoire of the average salesman, which might be considered by some as beneficial both to him and to his customer, for it isn't by any means a rare occurrence to be talked into buying an article which afterwards proves unsatisfactory, leaving a consequent feeling of dissatisfaction with oneself and the hypnotic salesman who foisted it upon one. Of course, such things are impossible to the strong-minded, but we can't all be numbered amongst that lucky class.

LIQUOR FREIGHT RATES INCREASE.

No Raising of Cost to the Consumer.

TORONTO, Feb. 22.— There is to be no freight rate increase on native Ontario wines and the owner's risk of breakage is eliminated. With these exceptions the railways got practically all the Canadian Freight Association asked in increased rates on liquor by the decision of the Dominion Railway Board handed out by Chief Commissioner Frank B. Carvell recently.

The rates on liquor in less than carload lots will be increased to double first-class rates, and on carload lots to third class. From Montreal to Toronto the new price will be $1.80 for each 100 pounds in less than carloads, and for carloads it will be 68 cents per 100 pounds. The old rates were 90 and 44 1-2 cents per 100 pounds, respectively.

When the case was heard at Ottawa Mr. Johnson, for the C.P.R., told the board that the loss of the three big railroads during 1919 was $112,000, and that the loss for the C. P. R. alone in 1920 was $127,000. Policing costs an additional $123,000, which brought the total cost up to $250,000, which represented 16 per cent. of the total loss and damage acount for the railroad.

In the judgment it was stated that, as the liquor business was to be handled very largely by the Provinces, and that a handsome profit was being made, they could afford to pay the increased rates without raising the cost to the consumer.

Seventeen hundred and eleven steam locomotives, valued at $53,629,847, were exported from the United States in 1920, nearly double the shipments of 1919. Before the war Great Britain and Germany controlled the European locomotive market, but in recent years this country has been the only nation prepared to ship locomotives in large numbers.

The average American uses three pairs of shoes a year.

GREENE MUSIC CO.

Year-End Clean-Up Sale!

February ends our business year and for the last few days before taking stock, we will give extra special bargain values and terms on all odd lines of instruments on our floors, new or used. If you are ready for a bargain when you see one

BEHIND THE SCENES AS THE VERSAILLES TREATY WAS FRAMED.

How Lloyd-George and President Wilson Lived in Paris in 1919.

By SIDNEY DARK.
(Special Correspondent Cross-Atlantic Newspaper Service.)

PARIS, Feb. 22.—The Hotel Crillon, where Mr. Lloyd George stayed for the Allied Council Conference, is on the Place de la Concorde, the famous central square of Paris, and from his bed-room window the British Prime Minister has been able to look out at the Chamber of Deputies, the great sweep of the Champs Elysees with the Arc de Triomphe at its top and the gilded dome of the Invalides.

During the Peace Conference the Hotel Crillon was the headquarters of the American Mission. President Wilson always had his own house, but his colleagues, with their innumerable secretaries, stenographers and messengers, turned the Crillon into a little bit of the United States.

During the Congress Mr. Lloyd George lived in a flat in the Rue Nitot, a quiet street, resembling one of the rather dull and essentially well-bred side turnings in South Kensington.

The Parisian journalists were quick to notice that Mr. Lloyd George was content to live without any fuss or state. Sometimes one met a very obvious Scotland Yard detective at the corner of the street, but there was nothing else to suggest that the Prime Minister's residence was any different from that of an ordinary citizen.

While Paderewski was staying at the Hotel Wagram, two comic little Polish soldiers with very long rifles stood on guard at the hotel entrance and in his house on the Place ces Estats Unis, just round the corner of the Rue Nitot, President Wilson lived, surrounded with a formidable bodyguard of French soldiers and tall saturnine American detectives.

So prominent statesman can possibly hold open house, but in Paris Mr. Lloyd George was conspicuously approachable. President Wilson girded himself with the mystery of a Grande Dame. Little fierce Clemenceau abruptly pushed aside would-be-interviewers.

It is safe to say that during the crowded eight months of the Congress no one, whether French or English, who really had anything of importance to say to Mr. Lloyd George or to ask him was barred from his presence.

Even when he is faced by the most difficult problems, and even when he is overwhelmed with insistent preoccupations, Mr. Lloyd George never lack geniality. That is perhaps his most attractive characteristic. I saw him continually during his long stay in Paris and I never saw him once apparently ruffled or once apparently fatigued.

The French are accustomed to have diplomatic relations with Englishmen who are characterized by the correctness of their attitude, by their reserve, and by a certain measure of dourness, and I think they have always been inclined a little to suspect Mr. Lloyd George because of his geniality, because he is, in most respects, so utterly unlike the conventional Briton.

They attribute this to the fact that he is a Celt, and this gave a special interest in his meetings with Premier Briand, who is also a Celt, coming from the Province of Brittany, where a few of the people still speak a Celtic language which the Welsh can understand. Mr. Lloyd George speaks Welsh but M. Briand, Breton though he is, probably knows very few words of the ancient tongue that now exists only in the districts round the Town of Finisterre.

Despite his frequent visits to France during the last few years Mr. Lloyd George speaks very few words of French, and M. Briand hardly knows any English. An interpreter, therefore, is necessary at all their interviews. English was the language spoken at the interviews in 1919 between the "big three"—Wilson, Clemenceau and Lloyd George.

Matters were complicated when the Italian delegate, Signor Orlando, attended the Conference, for he knew no English at all, and on these occasions M. Mantous was always called in. This gentleman, who now occupies an important position on the staff of the League of Nations at Geneva, was before the war a French master in Tangland.

Anything like close personal intimacy is impossible between persons who have no common language, and Mr. Lloyd George's ignorance of French has limited his personal relations with the French statesmen with whom he has to deal.

It is a common habit to describe the English as insular, and this perhaps is a social as well as a geographical truth. But though the French are on the Continent and not on an island, they are the most insular-minded people in Europe.

They are intensely interested in themselves and in their own affairs, and to a French crowd the personality of a foreign statesman is always overshadowed by the personality of his French confreres. After the signing of the Peace Treaty with Germany at Versailles, Lloyd George, Clemenceau and President Wilson left the Palace together, to be surrounded by an immense cheering crowd.

There was no doubt that to this crowd Clemenceau was the hero, though, of course, the Englishman and the American shared the plaudits. It was interesting to watch the demeanours of the three statesmen. Most men love applause.

M. Clemenceau has a fairly comprehensive contempt for his fellows, but he was evidently very happy on this sunny afternoon at Versailles. His work was finished, and he thoroughly appreciated the loudly expressed "Well dones."

Mr. Lloyd George was all smiles. He was almost boyishly elated by the enthusiasm. Here one arrives at another of his qualities. With his Celtic sensibilities he is quickly affected by atmospheres.

President Wilson was an odd contrast. He seemed detached and remote even when being good-naturedly jostled by the rejoicing mob.

Unless one gets behind the scenes it is difficult to understand how strenuous these international engagements are for the statesmen engaged in them. Imagine the conversations that have taken place between Mr. Lloyd George and M. Briand. Mr. Lloyd George perhaps first states his point of view, which has to be translated. Then points have to be submitted to various experts, and in each case the report has to be translated from French into English, or from English into French.

Barr Spangler, 100 years of age, of Marietta, Pa., claims the distinction of being the oldest active merchant in the United States. Since 1834 he has been engaged in business, and is daily at his store. Spangler is also president of the First National Bank of Marietta, and is recognized as the oldest president of a banking institution in the country.

Torpid Liver

By keeping the liver active by the use of Dr. Chase's Kidney-Liver Pills, you have no trouble from constipation, indigestion, etc. One pill a dose. 25c. a box, all dealers.

Dr. Chase's Kidney & Liver Pills

POSSESS GOOD HEALTH BY LOOKING AFTER THE BOWELS

A free motion of the bowels, once or twice a day, should be the rule of every one, as half the ills of life are caused by allowing the bowels to get into a constipated condition.

When the bowels are allowed to become constipated, the stomach gets out of order, and the liver does not do its work properly on account of holding back the bile so that it does not pass through the bowels, but is allowed to get into the blood, thus causing a poisoning of the whole system.

If you would escape constipation, sick and bilious headaches, heartburn, floating specks before the eeys, coated tongue, foul breath, the nasty irritating, bleeding, itching and protruding piles, you should keep your liver stirred up by the use of Milburn's Laxa-Liver Pills.

These pills, being purely vegetable, keep your liver working actively, helping it to resume its proper functions, and thereby removing the bile that is circulating in the blood and poisoning the whole system.

Mrs. H. Barrows, Enfield, N. S., writes:—"I was troubled with sick headaches and constipation. One day a friend told me of Milburn's Laxa-Liver Pills. I got two vials, and found they did me a world of good. I therefore have great faith in them."

Milburn's Laxa-Liver Pills are 25c. a vial, at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limied, Toronto, Ont.

SPORTING NEWS, VIEWS AND GOSSIP

OVERTIME FAILED TO SETTLE THIS BATTLE

C.G.E. AND DE LAVAL PLAYED THIRTY MINUTES EXTRA, BUT SCORE REMAINED A TIE—SETTLE TO-MORROW NIGHT.

After playing the full thirty minutes overtime allowed by the O.H.A. rules without breaking the tie the C.G.E. Tool room and De Laval teams left the ice last night with honours even and the score 2-2 It was the decisive game in the second section of the City League race and the winner was scheduled to play the Wm. Hamilton outfit winners of the first section to-morrow night in the final game for the championship. Last night's tie has upset the arrangements, however, for the final has been postponed until next week while the C.G.E. and De Laval outfits will meet to-morrow night, ice conditions permitting, in another effort to eliminate each other from the race.

Last night's battle was the hardest fought and most thrilling fixture of the season keeping the big crowd on its toes all the way The pace was terrific from start to finish and the checking close and hard. Both outfits back checked consistently while they waded into each other with every ounce of weight they had Consternation was almost impossible under the circumstances and the game resolved itself principally into a series of individual attacks.

De Laval had the edge in the first half. Their close checking smothered up the C. G. E. attack and held the electricians scoreless while they managed to neck two goals themselves and at the half they looked like winners. Grover Halpin, however saved the situation for the C. G.E in the last half when he went the length of the ring in two magnificent rushes and working in close on top of Bergoine scored twice tieing count. Three overtime periods of ten minutes each failed to break the dead lock.

Both goal keepers were at the top of their form Bergoine for the De Laval and George Butcher for the C.G.E. Halpin was easily the best. In addition to his two beautiful rushes which were the individual feature of the night his defence work was very effective in fact De Laval did not score when he was on the ice getting their two counters with Halpin in the penalty box. All the forwards did nice work with Rose's work during the overtime especially prominent.

For De Laval Sheehan was always in the limelight and Ranger and McMartin turned in very effective games

The teams were:—

C.G.E. —Goal G. Butcher, defence Halpin, Helson, forwards Rose, Williams, Butcher. Subs — Barrie, Bartley.

De Laval — Goal Bergoine, defence, Sheehan, Murray, forwards, McMartin, Hambly, Ranger. Subs—Coughlin, Lipsett.

The ice was good at the start and the teams opened out fast with De Laval having a slight edge owing to their close checking. Both goalers had to exert themselves early but they handled the drives easily and the minutes rapidly passed without a score Then Halpin drew a penalty and it was a costly one for De Laval jumped into the lead in a hurry. McMartin and Hambly combined to the mouth of the net but Hambly tried one pass too many and it was intercepted when a goal seemed certain. De Laval came right back, however, and Murray taking a pass close in from McMartin slid the rubber past Butcher for the first counter. Thirty seconds after Ranger secured the rubber from a scrimmage and his drive bulged the net putting the Separators two to the good.

C.G.E. threw everybody up on the attack in the second half and pressed from the first face off. De Laval, however were checking them closely and smothering up their attacks and looked good to hold their lead. Halpin rose to the occasion, however and breaking away from his own territory shot down the rink in a pretty rush and circling the De Laval defence beat Bergoine at close range The counter put C.G.E. back in the running and a few minutes later Halpin duplicated the play and the score was tied. It remained that way until the bell rang and three overtime periods failed to register another counter. Both teams had a great chance in the first ten minutes. Rose for C.G.E. broke away and with not one but Bergoine to beat but was fooled by the De Laval net guardian and Sheehan came back with a beautiful rush only to have Butcher tear off a sensational stop. These were the best opportunities of the overtime.

The play off to-morrow night should be a corker for the teams are as evenly matched as two teams could be

First half—

Summary.

1 De Laval—Murray.
2 De Laval—Ranger.
Second Half—
3 C. G. E. —Halpin.
4 C.G.E.—Halpin.
First Overtime Period

Second Overtime Period
No score
Third Overtime Period.
No score.

The Second Game

The second game which brought together the Bankers and Wm. Hamilton's was won by the former 4 to 1. Neither team was at full strength. Park and Gillespie being absent from the Bankers while Murray and Harold Graham were missing from the Hamilton outfit and nobody seemed to take the game seriously The Bankers were in front 1 to 0 at the end of the first half and ran their lead up to four goals before Evans finally, scored for Hamilton's on a nice rush. Thornton was the most effective for the winners getting three counters. The teams were:

Bankers— Goal, Legros, defence Kenneally, Tudhope, forwards Thornton, Thirnbeck, Soden. Subs Dixon, Cobb.

Wm. Hamiltons—Goal, L. Lebarr defence Evans, E. Lebarr, forwards Kenneally, Kennedy, Foley. Subs. Collins, F Graham.

F. C. Waghorne refereed both games in splendid fashion.

ALEX. KAY'S RINK WON THE MORROW CUP FROM J. W. M'DERMID BY 18 TO 10

DEFERRED FINAL GAME OF THE BONSPIEL ATTRACTED NUMEROUS GALLERY—M'DERMID WON THE WADDELL TROPHY—HIS RINK WENT HOME LAST NIGHT FREIGHTED WITH PRIZES.

Alex. Kay's rink won the Morrow Trophy and the accompanying sets of silver tea services last night in the concluding deferred game of the open Bonspiel, when he defeated J. W. McDermid by the score of 18 to 10 in sixteen ends.

Because two Peterborough rinks reached the finals in this major competition, it was postponed on 10th February for harder ice. McDermid had won the Waddell Trophy yesterday morning from Ray Best by 13 to 11, and Kay set out to prevent him walking off with two of the three big primary trophies of the Bonspiel.

It will be remembered that the other cup, the Matthews-Blackwell, was won by Harry McCallum of Fenelon Falls, who defeated Jack Strickland of Lakefield. The Peterborough Cup offered in the consolation round went to G. A. Davison of Unionville, who took the final game in that series from Charlie Williams of Lindsay.

Last night's Morrow Trophy finalists were as follows:

A. Gilliam	F. C. Weber
W. Montgomery	J. Wells Fraser
Walter Oke	W. J. Thompson
Alex. Kay	J. W. McDermid
Skip—18	Skip—10

The score by ends:

Kay ..... x3111x21xxx32x2—18
McDermid.... xxxxxx1xx311xx4x—10

When Kay opened up a lead of 11 to 1 in nine ends, the only remaining interest was whether McDermid could overhaul him. McDermid improved his position by taking the next three ends, making it 11 to 6. That twelfth frame gave the gallery the tit-bit of the evening. Kay lay four, and with his last stone McDermid drew inside for shot. To cut out this stone and lie would have given Kay a five-end, and made the score 16 to 5. Although he touched the McDermid stone, Kay failed to make the shot he was trying for, and McDermid counted one. Kay came right back with a three and a two. McDermid got a four at the far end, and the game ended with Kay counting two on the last.

The ice was damp, and seemed to throw the players off their form. McDermid's rink certainly didn't play up to the class they showed in the morning when they battled with Ray Best's crack rink and beat them with a last stone. Kay's rink had the edge throughout, and according to the crowd in Number 8, got most of whatever breaks occurred. Art Gilliam, his lead, made a decided hit with the veteran spectators. He is a first year man, only a novice, and the way he kept dropping his two stones on to the rings tickled the crowd. Weber, the opposing lead, also played a good game, but he had nothing on Gilliam, whose curling was exceptionally consistent.

Parenthetically, it is worth noting that Kay showed his curling judgment and also his interest in the new members by selecting Gilliam to play first stone for him in the Bonspiel. It was not only a fine experience, but also an opportunity that is not usually gained in the first year out, and the big lad made the most of it. The rest of the rink, Montgomery, Oke, and Kay, worked well together, and on their form last night certainly deserved the distinction of winning the Morrow Cup and having their names inscribed on its ebony base.

Presented the Prizes.

After the game, the prizes in both the deferred Bonspiel competitions were presented, Harry Foote, secretary of the Bonspiel Committee, presiding. Mr. George Giroux made the presentation of the Morrow Cup to Kay, and a handsome silver tea set to each member of the rink. The second prizes, won by McDermid's rink, were four electric grills.

Rev. James Rollins presented the Waddell Trophy to J. W. McDermid's rink, and also the first prizes donated by the Curling Club, four automobile rugs. The second prizes were silver-cased Pyrex pie plates, won by Ray Best's rink, composed of himself, W. D. Campbell, A. W. Archibald, and H.McIlmoyle. Ross Dobbin was the lead for this rink in the Bonspiel, but his duties prevented him from participating in the Waddell competition.

Rev. Mr. Rollins' Tribute.

"It is a great pleasure for me to make these presentations," Mr. Rollins said. "I am just as enthusiastic a curler as any of you but not as good. ("Quit your kiddin'," remarked Herb. Martin.) Curling is the finest game I know, and the Peterborough Curling Rink is the most wholesome place in the city. It does me all kinds of good to come down here, just a human being among other human beings—a man among his fellow-men, playing the game."

BANKERS WON FROM YOUNG MEN'S CLUB

The Bankers came out on top after a hard session of hockey at the Brock Street Rink last evening between 6 and 7 o'clock with the Young Men's Club of the Y.M.C.A. by a margin of one goal, the score being 1-0. The Bankers' single tally was scored by Hardill in the first half. The game was fast and clean with plenty of back-checking. Bergoine, in the nets for the "Y" boys, starred, and Hardill, on defence, was the Bankers' best man. The "Y" aggregation bombarded the Bankers' nets but the receiving teller turned the puck each time. Mr. Foley handled the bell in great style.

The teams lined up as follows:

Bankers—Goal, Flyn; right defence, Thirnbeck; left defence, Hardill; right wing, Turner; left wing, Johnston; centre, Parrington. Subs. —Healey, Cowling.

Young Men—Goal, Bergoine; right defence, Ashmore; left defence, Miller; right wing, Hopkins; left wing, Thorndyke; centre, Hensley. Subs.—Warde, Ashmore.

THE WEATHER

Some days ago I mentioned that the winter of 1877-78 was very mild, and that some of the old residents had informed me that it was even milder than this. Yesterday I had the opportunity of perusing some old local papers of 1877 and 1878, and found some interesting items regarding the winter of that year, as well as other items. On Dec. 22, 1877, the paper said: "The spring like weather of last week and the early part of this week, and the genial sun brought the grass out in renewed vigor. Last Sunday it might be seen in the neighborhood of Spalding's Bay looking quite fresh and green. We have been requested to state that the steamer Golden Eye will run an excursion on Christmas Day. This is something that has never happened before in this latitude, and no doubt many people will take the chance of a sail so that they may have something to tell to generations yet unborn." The excursion took place as advertised with the band in attendance. On Dec. 29th, the newspaper said: "We announced last week that one of Calcutt's fine of steamers would run an excursion on Christmas Day. Something so unexpected in our latitude did not fail to create great surprise, more especially as the oldest inhabitant' ransacked his memory in vain for anything equal to it. A number of citizens took the chance thus given, and the Whistle Wing steamed down to Hale's Bridge. If another excursion should be possible on New Year's Day (as now seems likely) it would be well to take a scow along for dancing." Apparently no excursion was run on New Year's Day, but the following appears on Jan. 5, 1878: "On the first day of 1878 the weather was so remarkably fine as to allow of croquet being played out of doors." The following items, though not in the weather line, appear in the news of that date: "Citizens of Peterborough will have a splendid opportunity to become acquainted this week with the latest and most wonderful invention of the day the telephone. As its name signifies sounds are heard at a distance by its aid, and on Monday night Prof. W. J. Fowler, the agent here, will give an entertainment in the opera house, when the audience will listen to music and conversation from Lindsay and Ashburnham. This invention is one of great utility, and will to a certain extent supersede the electric telegraph." This was also the date of the first importation of sparrows from England, and in the closing sentence of a write-up of the event, the article says: "We trust our little visitors may receive such a welcome here as shall induce them to remain."—W. P.

A WOMAN GOLF PLAYER IN KNICKERBOCKERS

PINEHURST, N. C., Feb. 22.—Members of the Pinehurst Tin Whistles had something to whistle about when Miss Elizabeth Clemson, of Middletown, N. Y., stepped out of a bus and walked into the Pinehurst County Club clad in brilliant golf knickerbockers and flashing golf stockings. It was the first appearance of a woman golfer in knickerbockers in Pinehurst and it created a sensation.

Miss Clemson was the most unconcerned individual in the clubhouse as she put her name on the register. It did not take long for a crowd to collect, and the comments were varied and entertaining. It was generally agreed by the men golfers that the knickerbockers looked to be practical, and that they would come into general use by women golfers.

Lots of people are too selfish to assist others in having a good time.

LIGHT AS THE DUE.

VERA MONTGOERY,

clever little terpsichorean with The Winnipeg Kiddies, who will play a farewell engagement at the Grand on Wednesday, Feb. 23rd. There will be a special children's matinee at 4.15.

MRS. CARTER DE HAVEN DANCES IN NEW COMEDY

Mr. and Mrs. Carter De Haven introduce a delightful reminder of their musical comedy and vaudeville days in their new Capitol Comedy, "Their Day of Rest," which is released through Goldwyn, and will be shown at the Allen Theatre, commencing to-day.

The day of rest is their first Sunday at home after their return from a honeymoon trip. In order to have the day all to themselves, Mrs. Newlywed invites all her girlhood friends to an afternoon tea the day before. After an enthusiastic reception of her friends, the dainty little wife is pressed to entertain her guests with an exhibition of new dancing steps. Mrs. Carter De Haven, who was known as Flora Parker in musical comedy, complies with a delightful dance. The girls form a background for the exhibition; and when it is over, are given individual instruction in the new dances. The scene is really taken from one of the many stage productions in which the De Havens have appeared.

It is Mr. De Haven's idea to introduce into his pictures as many of these little touches of the musical comedy world as his stories will permit. And with so accomplished a dancer as his wife to present their past successes on the screen, those who have enjoyed the De Haven specialties on the stage, will find them once more on the screen.

AT THE ALLEN

Just for one brief scene in Katherine MacDonald's latest screen success, "Curtain!" is shown a dancer in a new make-up that some musical comedy producer is sure to copy. The dancer—a woman—has her face made up to represent some weird savage idol and it is one of the most marvelous make-ups seen on either stage or screen. "Curtain!" comes to the Allen Theatre, beginning to-day.

GEORGE WALSH PLAY AT REGENT THEATRE

"From Now On", the Fox picture which comes to the Regent Theatre next Thursday for a run of three days, has won golden opinions wherever it has been shown and added materially to George Walsh's reputation for rapid action and daredevil escapade. The story by Frank L. Packard, author of "The Miracle Man," is said to be compelling in the intensity of its interest with a love theme threading its way with extraordinary dramatic incidents to a climax of exceptional power.

THRILLING GIRLS' HOCKEY GAME.

Mother and Daughter Play on Same Team.

BELLEVILLE, Ont., Feb. 22.—In a thrilling hockey match the Ontario School girls' team defeated Campbellford by 2 to 1. It was the second match of a home-and-home series, Campbellford having won the first by 8 to 1.

The first period ended with neither side scoring, but in the second Helen Roberts of the Ontario School tallied twice. In the last period Evelyn Irwin scored for Campbellford.

Mrs. Williams, in goal for Belleville, was practically unbeatable.

The Ontario School team was unique in having a mother and her daughter in the line-up, Mrs. Williams in goal and Betty Williams in the forward line.

Campbellford—Goal, N. Nadoo; defence, I. Carnahan and W. Armstrong; centre, E. Irwin; forwards, H. Kerr and H. Wood.

Belleville—Goal, Mrs. Williams; defence, K. Scott and H. Roberts; centre, G. Springer; forwards, B. Williams and R. Curry.

Referee—Leo Barrett.

THREE SOLDIERS FOUND DEAD.

DUBLIN, Feb. 23. — (Canadian Associated Press.)— The bodies of three soldiers were found near Woodford, County Galways, last night. Each man had been shot through the head and on each body was a note, on which was written, "Spiees, court-martialled and found guilty."

WINNIPEG KIDDIES

Did you ever see a school, the pupils of which are all stage stars?

There will be such a school in Peterborough shortly. The pupils will be the juvenile members of The Original Winnipeg Kiddies (a company of twenty-five people).

These celebrated Kiddies carry a specially-qualified teacher with them and they go to school every day. "They are ambitious at their school work and seem to learn more rapidly than the average youngsters, probably due to the fact that their wits are sharpened by travel," says their teacher.

Outside of their regular school work, the world is their school-room. They are provided with special opportunities of seeing things that other children learn in theory only. They have been taken through pulp mills, down mines, through factories, museums, and scores of interesting places, and display a keen interest as everything is explained to them.

They are kept aloof from harmful influences by the close attention of specially-appointed guardians, who take care of them day and night.

The Kiddies look on their stage work as play, despite the fact that their production is ranked on a par with the biggest successes of the day. This is testified by the fact that they have broken records in cities on both sides of the boundary line.

The Kiddies are bringing their sensational new revue to the Grand for a farewell engagement on Wednesday night. They will also give a special children's matinee at 4.15.

TANKARD FINAL BEEN POSTPONED

SLUSH AND ICE COVER QUEEN CITY RINK TO-DAY,

TORONTO, Feb. 23.—(Canadian Press)—Slush and water covered the Queen City rink here this morning causing a postponement till to-morrow night of the final in the Ontario Curling Tankard between Lindsay and the Granites.

C.G.F. AND DE LAVAL MUST BREAK TIE

PLAY TO-MORROW NIGHT FOR SIXTY MINUTES AND ONE TEAM MUST WIN.

Inability of C.G.E. and De Laval to score an odd goal last night, provided another game for City Hockey League supporters, and the two teams will battle again to-morrow night. It will be a regulation game of sixty minutes, and the contest must continue until a winner is returned. The puck will be faced at 8.30 o'clock.

The final game will be played early next week.

For the game to-morrow night the admission will be 25 cents—season tickets not accepted. Reserved seats are on sale at Bond's drug store at 50 cents and amusement tax. The main entrance and the east side entrance will be used to accommodate the crowd.

The League executive request that there wil be no smoking in the rink.

CURLING

In the gossip of the rink last night there was some talk of the likelihood of the District Cup games being played in Peterborough. Toronto has no suitable ice and unless the season dips again the season is about over. The local ice is in good condition and it is felt that the curling association should designate the District cup finals for some other rink than the Toronto's if this competition is to be played off this year.

LINDSAY CURLERS LOST TO FENELON FALLS.

LINDSAY, Feb. 23.—Two Fenelon Falls rinks administered a decisive drubbing to the locals here yesterday. The ice was in good shape. The visitors won ice No. 3 in a score of 14-7, and ice No. 3 by 18-8. The play was for the Fenelon Falls Cup.

DESLIPPE, WITNESS AT THE SPRACKLIN TRIAL, DIED TO-DAY

(Continued from Page 1)

shot had been fired; his failure to attend the inquest until after an interview with Aylmer Orton in Detroit, and his alleged conversations with Doctors Basley and Mills at the Chappell house, in which those witnesses swore that he stated that Trumble had been in possession of a gun.

Dr. W. J. Beasley, Sandwich, who was summoned to the Chappell House following the shooting, next gave evidence. Dr. Beasley stated that while in conversation with Smith in the bedroom after Trumble's death, Smith had told him that "Trumble pulled a gun, and Spracklin whirled and shot him."

Dr. C. B. Mills, who was in the room with Dr. Beasley at the time of the alleged conversation with Smith, corroborated the first doctor's evidence.

Answering questions by Crown Prosecutor Grier, Jack Bannon declared he did not see Trumble with a gun, either before or after the shooting. It was then that R. L. Brackin, taking up the questioning, asked the witness if he saw Mrs. Trumble with a gun in her hand in the private dining-room after her husband had said, "I am shot."

Bannon replied, "Yes, sir."

Interest in the trial has been accentuated and the Sandwich Court House was again crowded at the hour for resumption. Eager spectators crowded the corridors, but these gradually drifted away when they saw there was no possibility of gaining admittance to the court-room. The pastor - inspector's father, mother, wife and sister occupied seats on the front bench, while J. A. McEvery, London counsel, reinforced the lawyers defending the minister.

Important evidence was given by Mark Heaton, county constable, attached to Spracklin's squad, who was with the pastor on the night of the shooting. He declared that when he entered the room where the shooting had taken place, he saw Trumble lying on the floor. He distinctly saw a holster fastened to Trumble's left side. He also testified that a revolver was lying beside him.

Deslippe was the man who was found outside the Chappell House on the morning of the shooting in a battered condition by Rev. Spracklin and his squad of inspectors. His death was entirely unexpected, and it was thought at first that he might appear in court to give evidence regarding the events that immediately preceded the entry of the officers to the hotel. R. L. Brackin stated that Deslippe's evidence at the inquest would be submitted at the trial.

BUSINESS ON THE UP-GRADE

NEW YORK, Feb. 23.—(Canadian Press).—Interest in the stock market at the hesitant opening of to-day's session centred around Atlantic Gulf and West Indies, the most conspicuous features of the recent operations. The first transaction at 149 was followed by five hundred shares at 50, an extreme recovery of 4 1-2 points from Monday's closing price. Other shippings were firm as were also some of the oils, tobaccos and rubbers. Metal and food shares reacted fractionally with steels and equipments.

Oils, Rails, Utilities and Coppers hardened with the progress of the session and further improvement was made by Tobaccos and Textiles. Californa and Mexican Petroleums, General Asphalt, Peoples Gas and Utah Copper rose one or two points. Express company shares were conspicuous, Adams, Wells Fargo and American rising. Shorts covered in American Woollen, Central Leather and Industrial Alcohol, these issues rising one to 2 1-2 points. These buying of Rails was mostly limited to secondary shares, notably Baltimore and Ohio, Rock Island, Texas and Pacific, St. Paul, common and preferred. Shippings became uncertain, Atlantic Gulf forfeiting a part of its recovery and United Fruit showing marked heaviness. Call money opened at seven per cent.

Trade advices, which emphasized the doubtful outlook in various branches of industry caused moderate selling of obscure specialties at midday. American Agricultural Chemical, Coco Cola, Goodrich Common and Preferred, and Keystone Tire lost one to almost three points, and Tobaccos cancelled their early gains.

FOREIGN EXCHANGE.

NEW YORK, Feb. 23.— (Canadian Press.)—Sterling exchange was heavy, demand 3.88 1-4. Canadian Dollars 12 1-2 per cent. discount.

CHICAGO GRAIN.

CHICAGO, Feb. 23.— (Canadian Press.)— Strength developed in the wheat market to-day owing more or less to the word that Greece had bought 1,300,000 bushels over the holiday. Gossip that farm deliveries would decrease after February tenth also helped to encourage bullish sentiment. Opening quotations, which varied from unchanged figures to 3 1-4 higher, with March 1.77 1-4 to 1.72 1-2 and May 1.62 to 1.62 1-2, were followed by moderate gains all around and then something of a reaction.

Corn rose with wheat. After opening a shade to 1-2 lower, including May at 71 1-8 to 71 5-8, the market scored an upturn for all deliveries.

Oats were firmer as a result of the advance in other cereals. The start was unchanged to 1-4 higher, May 46 to 46 1-4, anr there waere general gains later.

MONTREAL

MONTREAL, Feb. 23.—(Canadian Press)—Much activity dominated the local stock exchange during the early trading this morning, the most important features being a 3 1-4 drop in Abitibi, which sold at thirty-five to-day after closing at 38 3-4 yesterday Atlantic Sugar was fractionally stronger at thirty one, Brompton weakened 1 1-2 points to 38. Canada Steamship Limited, whose weakness caused quite a sensation yesterday was unchanged at thirty this morning. Laurentide was steady at eighty four. National Breweries went down three quarters of a point to 49. Wayagamack strengthened a quarter point to 75 3-4.

TORONTO.

TORONTO, Feb. 23.—(Canadian Press.)—Liquidation in Abitibi features this morning's trading of the Toronto Stock Exchange, over one thousand shares being sold in brisk fashion, bringing about a drop of 3 1-4 points a share. The general tone of the market was little brighter, fitful rallies resulting in slight rallies among stocks which suffered yesterday. Abitibi closed at 35 3-4 after opening weakly at 38 1-8. Canadian Steamships was setady after yesterday's severe loss, holding at thirty. Spanish River gained 2 1-2 points at 74 1-4 on rather heavy transactions, while Provincial Paper was extremely weak, selling down to 95 1-2.

LIVESTOCK MARKET

TORONTO, Feb. 23.—(Canadian Press). — Receipts medium, trade good. Quotations—choice butcher steers, $9 to 9.75; butcher cows, medium, $5 to $7; calves $14 to $16; lambs $12 to $13. Hogs fed and watered selects $13.50 to $14.

TIME IS GETTING SHORT!

OUR

Christmas Club

WILL CLOSE FEBRUARY 28th

There is yet time to join our Christmas Club and why not make up your mind to do so. You will then be one of the large number who will have money next Christmas.

Clubs for everyone:

$1, $2, $5, $10, $20 or more.

Deposits are made weekly or in advance.

Come in and join to-day.

You will receive 3% interest.

THE MERCHANTS BANK OF CANADA

HARRY THORNTON WILL CONTINUE BLUE PENCIL SALE

SELLING ALL SEMI-READY SUITS AND MEN'S FURNISHINGS AT AND BELOW WHOLESALE COST.

"When I was in Montreal to study the men's wear situation there was one thing demonstrated to me," said Harry Thornton, of Thornton Bros.

"The Semi-ready Tailoring Shops have been selling clothes for over a year at a loss—not merely at a reduction of a deserved profit, or a sale with no profit, but at a figure that represents a money loss under present cost of production.

"And it was they who urged me to take a loss for two weeks. They argue that the times demand drastic action, and they took it.

"There is an old song of which the refrain is, 'Somebody had to stand in front so I did!' And the Semi-ready Company say that somebody has to take a big loss to bring back a readjustment of prices.

"It cannot be done in a day or a week nor a month or a year—but living expenses must come down as the dollar grows more elusive.

"We must carry on somehow.

"I am taking a loss which may run into thousands of dollars before the 5th of March. But I will have the satisfaction of having done my share and I will continue to do what I can to hold the prices down—to a just merely existing profit. My overhead expense is very small." 1d

A Man's Estate

At age 21 " twas all the Estate he had."

At age 30 he wisely increases his insurance.

At age 40 he finds the security of his Estate unquestioned by his Banker.

At age 50 he has no fear of hardship for himself or his family.

At age 60 his "Estate" fully paid for becomes a substantial fund, earning dividends.

There is but one *certain* way of having an Estate, and that is through life insurance.

"The records of the Surrogate Office of New York County, covering a period of five years, showed that the average number of deaths among adults for those years was 27,011. Of these:

23,051 or 85 per cent. left no estate at all.
1,171, or over 4 per cent. left estates valued at $300 to $1,000.
1,428, or over 5 per cent. left estates of more than $1,000, but less than $5,000.
475, or nearly 2 per cent. left estates of more than $5,000, but less than $10,000.
490, or nearly 2 per cent. left estates of more than $10,000, but less than $25,000."

The Canada Life Way

This Company will guarantee to provide at your death an Estate which is twenty or thirty times greater than the amount of your annual deposit with us. And if you live—

Every dollar of regular annual deposit will be returned at the end of twenty years, and substantial dividends will be paid at intervals.

Fifty dollars a month will be paid to you while living if you should become totally and permanently disabled before reaching the age of sixty.

Our "Capital Return" Policy

1st. Deposits are made yearly. This is what you are *saving*, and at the end of 20 years the Canada Life *guarantees* the return of every dollar paid in.

2nd. Your life is insured from the day you make the first deposit,—for $5,000, or whatever amount you decide.

3rd. Dividends are paid at stated intervals in addition to the return of all deposits at the end of 20 years.

4th. These dividends may be used to increase the amount of your insurance, or be allowed to accumulate at interest for 20 years.

5th. The cash value of Policy and Dividends represents a valuable asset, useful in business, and your "estate" is protected by the insurance.

6th. At the end of Twenty Years you can draw out all you have paid in, along with the accrued dividends—

---or---

you can draw a Special Cash Guarantee, together with the Accumulated Dividends, making a substantial sum, and leave the $5,000 Policy fully paid for and continuing to earn Dividends as long as you live—

---or---

this Special Cash Guarantee may be applied to increase a $5000 policy to more than $7500.

WHAT MIGHT BE DONE ORDER TO BEAUTIFY CITY

Continued from page one.

Thomas is left to a gardener under the supervision of the society, and the work has been complimented by visitors from all over the world. Distribution of 300,000 business envelopes showing coloured views of St. Thomas to business men of that city has been carried out by the society, and these have been sent over all the globe. The hospitals and churches of the city are supplied regularly with flowers by the society. An experimental flower garden is established in St. Thomas through a gift of land by the Michigan Central Railway, and many valuable lessons in horticulture have been developed here. At the last exhibition of the Gladioli Society of America, St. Thomas was the only municipality represented by flowers, and the invitation of St. Thomas to hold this year's exhibition there was accepted. Bulb growers all over the United States, France, and Holland have sent valuable seedlings to St. Thomas to be cultivated and exhibited this year.

The society last year distributed 125,000 bulbs. The membership is $2.00 and upwards, no fixed amount being set to allow of contributions.

The City Council assists them with a substantial grant, said Dr. Bemett. From observations made by Dr. Bennett while inspecting the city yesterday afternoon with Dr. Middleton, St. Thomas is no more fortunately situated than Peterborough, and if the local society is properly supported, he expects to hear of great improvements in this city; and he could see no reason why it could not be developed into one of the most beautiful of Ontario's cities.

A hearty vote of thanks was given Dr. Bennett at the close of the meeting.

RUM-RUNNING THE TOPIC TO-DAY AT THE CONVENTION

ONLY BY CUTTING OFF HOME ROUTE CAN IT BE ENDED, PROHIBITIONISTS DECLARE.

TORONTO, Feb. 23.—(Canadian Press.) — Rum-running in Essex County was the topic introduced at the convention this morning of the Ontario branch of the Dominion Alliance. Rev. W. D. Magee, of Essex, declared that the long river front and the high prices obtainable made it a day of opportunity for illicit traffickers, and he said that it would go on until the people of Ontario, on April 18th, voted to end the supply. He said that the home route was the key to the situation. It was very easy to get liquor, and running it over the border was merely a matter of avoiding vigilance of the officers. William Delaney discussed the situation on the Niagara frontier, where, he said, bridges and foreigners made an easy combination for illicit rum-running.

That forty-four years of yeoman service to the cause of temperance has abated nothing of the natural force and enthusiasm of the Ontario branch, Dominion Alliance, was evident from the spirit manifested at the opening of its forty-fifth convention in Massey Hall. Since the edict went forth that "John Barleycorn must die," the Alliance has been "on the job" and is still "going strong."

More than 400 delegates from all over the Province were present at the opening session of the convention yesterday, and it is expected that twice as many more will be present to-day.

Temperance Forces in Earnest.

That the temperance forces are going to leave no stone unturned to make the coming election on April 18 give the death blow to the liquor traffic in Ontario was apparent from the temper of the gathering and the strict surveillance that is being exercised over all legislation affecting the issue.

From the convention yesterday went forth a resolution to the Government at Ottawa protesting against certain provisions contained in a bill now before the Senate providing for the revision of the lists for the coming vote. It is claimed by the resolution that as the Act has already removed the necessity for local residence qualifications, the provisions provided by the present bill for registration on voting day, will make difficult, if not impossible, an effective scrutiny of the vote. The bill provides that the Provincial lists used in the general election of 1919 shall be taken as the basis, as though they had been prepared by Dominion Registrars; that in any urban districts the regular provisions of the Dominion Elections Act be followed, but that in rural districts there be no revision, it being provided that on voting day any person may, upon being vouched for by an elector whose name is upon the lists, go into the polling place and vote.

4TH C. M. G. BRIGADE BAND AND PROPOSED CONCERTS.

No statement has been made as yet to the public as to the concerts proposed to be held by this military organization. Neither have they in any way obligated themselves. Anything that has been said has arisen purely out of discussion of the matter.

The action of the City Council on this subject, as expressed last night in the Examiner, is very unbecoming and naturally gives the public the impression that some, at least, of its members must be very erratic and easily stampeded.

IN MEMORIAM.

BYERS.—In loving memory of our dear ones, Stanley and Grace Byers, who passed away 23rd and 24th February, 1920.

The month of February again is here,
For us the saddest of all the year,
And days of remembrance so sad to recall—
But down in our hearts they were loved by us all.

—Sadly missed by Father, Mother, and Ethel. — 183 Lock Street, Peterborough.

IN MEMORIAM.

In loving memory of Hugo Lundgren, who died Feb. 23rd, 1919.

1 Duplicating Machine (Roneo) $50.

NELSON'S TYPEWRITER COY.,
332½ George Street.

REVIVAL—CHURCH OF GOD MISSION

At the Mission last night Evangelist Campbell contrasted spurious holiness with genuine holiness.

I do, declared Mr. Campbell, believe in a holiness, which is a product of Christ enthroned in the soul and of God's Holy Spirit, a holiness such as Paul, Stephen, Wesley, Knox, Calvin and many others possessed. But a holiness which will not make a man quit his wrong-doing is of no value.

To-night the subject of discourse is to be 'The Churchof God—One Body.'

A hearty welcome is extended to all. At corner Hunter and George streets. Time of service, 7.45.

Wednesday, Feb. 23rd, 7.45 p.m. Regular Parade. General inspection postponed until further orders.

Leon Frazer, Major,
O.C. No. 3 Company,
4th C.M.G.B.

2d-46-5795.

THE ANNUAL MEETING

of the 57th Regiment Chapter, I.O.D.E., will be held on Thursday Afternoon, at 3 o'clock, in the Officers' Quarters in the Armouries. It is urgently requested that all members be present. 1d-46

25 p.c. off sheet music and music books during this week, year-end sale at Greene Music Store, Charlotte street. 3d-48

DR. W. N. HAYES.

Office in Barrie Building. Extraction and Plate Work a specialty. Phone 662. Residence phone 27. A nurse in attendance.

AUCTION SALE.

Friday afternoon, at Hancock's Auction Room. Parties having any furniture to dispose of may put same in this sale. 2d-47-5827

COMMENCEMENT EXERCISES

The annual commencement exercises of the Peterboro Collegiate Institute will be held on Friday night February 25th., in the Assembly Hall.

RETURNED FROM VISIT TO WHOLESALE HOUSES.

Miss McKinnon, of the new "Vanity" Millinery Salon, in the Barrie Building, has returned from a visit to the wholesale houses, where she has been inspecting and selecting the new styles for spring.

CHOIR BANQUET

The members and friends of St. Paul's Church Choir are invited to a banquet given by the Ladies Aid Society in St Paul's Schoolroom on Thursday evening at 6.30. It is hoped that all members and their friends will make a special effort to be present. 1d 46 5822

ENGINEERS' MEETING.

Thursday night's meeting of the Engineering Institute will be held in the Board of Trade Rooms at 8.15 p.m. The speaker will be Alex. J. Grant, M.E.I.C. of St. Catharines, Chief Engineer of the Welland Ship Canal, who will describe the construction of that great work.

Mr. Grant will illustrate his address with a large number of lantern slides which have been made from porgress photographs of the work.

All citizens will be welcome to this meeting, especially the ladies.

Mr. Grant will be entertained by the Engineers at a supper in the Empress Hotel Grill Room.

A MUSICAL TREAT

Is promised to all who attend the choir concert at Knox church tomorrow night, Feb. 24th.

Mr. W. S. Hamilton, of Toronto, one of Canada's leading tenors, will be present and contribute several number to the programme. Miss Mildred Lloyd, of Belleville, will give elocutionary numbers. Miss Lloyd has already been heard in this capacity in Knox church, Peterborough, and that is why her services have been sought for this occasion. Besides these there will be instrumental numbers given by local talent.

The choir of Knox church, under the able direction of Mr. F. E. Waldon, will render the sacred cantata entitled, "The Rolling Seasons."

As the programme is of good length the audience is asked to be on hand by 8 o'clock. It is the wish of the committee in charge to have the programme begin promptly at 8 o'clock. Doors of the church open at 7.15.

Hiawatha Encampment, No. 66, To-night — Degree Work, Third Reading of By-laws. Preparations for Field Day to be held on Good Friday. Large attendance requested. 1d-46-5820

ALL MUSIC LOVERS, ATTENTION.

On Thursday evening (Feb. 24th), the annual concert of Knox church choir will be held in Knox church. The following artists will appear on the programme: Mr. W. S. Hamilton, Toronto (tenor), Miss Mildred Lloyd, Belleville (reader), Mrs. Percy Hooper, Peterborough (violinist), Miss Elizabeth Webber, Miss Grace Reid; Miss Dorothy Gillespie, Mr. F. E. Waldon, pianists, Master Kenneth McCannon, boy soprano.

The choir, under the direction of Mr. F. E. Waldon, will render the sacred cantata, entitled, "The Rolling eSasons."

Doors open 7.15. Admission 25c.

MET MANAGER OF THE OPERA HOUSE

MACHINE GUN BAND WILL MEET THIS EVENING.

Mayor A. A. McIntyre and Ald. J. Hamilton explained to Mr. W. A. Phillips, manager of the Grand Opera House, last night the action the Council had taken against the proposed concerts to raise money for charitable purposes. Public sentiment was against such concerts and the ministers and boards of the churches stood four square in opposition, said the Mayor. He declared it would be a defiance of public sentiment to hold them. Mr. Phillips stated that it was only on the request of the Machine Gun Band that he had consented to give the theatre on Sunday evenings and what the band did further in the matter would govern his action.

Major Miller of the Machine Gun Corps, told Mayor McIntyre last night that the band would meet tonight and definitely decide whether to hold the concerts, if they were, as the Mayor said, defying public sentiment.

The most important inland river, commercially, in the United States is the Ohio.

SOCIAL AND PERSONAL

Mr. David Dunlop left on Monday morning for his home in Paisley after spending a month with friends in the city.

Mr. G. N. Gordon received a call to-day requiring him to go to Ottawa, where he will be sworn in to-morrow. Mr. Gordon will be back Saturday and will spend Saturday and Monday in Peterboro.

Miss Evelyn Sage has returned home after spending the week end in Port Hope, the guest of Miss O. Simpson.

Mr. and Mrs. A. E. Dawson of Lakefield leave New York this week on the Aquitania, sailing for England.

Mr. Richard Deyell and his friend, Mr. Richards, of Toronto University, have returned to Toronto, after spending a few days at the home of Mr. Deyell's parents, Park street.

At the tea held at the Curling Rink yesterday afternoon, in honor of the visiting ladies, Mrs. H. O. Fisk presided, assisted by Mrs. George Hartley, Mrs. Verner, Mrs. F. S. Schneider, Mrs. W. Comstock, Mrs. A. W. Turner, Mrs. G. S. Matthews, Mrs. J. Cameron, Miss M. Rogers, Mrs. Gerald Wood, Miss B. Mather and Miss A. Meyers. The table was very prettily decorated with yellow narcissus.

Mrs. J. B. Wood and Miss Arlie, of Fort Alberni, B.C., have returned to Toronto. They were visitors at the home of Mr. and Mrs. R. H. Bickle, Smith township.

Mrs. J. Knox of Toronto, who has been visiting her parents, Mr. and Mrs. R. H. Bickle, of Smith township, has returned home.

At the mid-winter examinations of the Canadian Academy of Music and of the Toronto College of Music, which were held last week in Toronto, Mr. J. Grant Braund, pupil of Mrs. W. A. Greenslade, successfully passed the intermediate piano examination with honors.

Miss Kathleen Wallis, violiniste, who recently returned from England, played for the first time since her arrival at Mrs. Hartley Dewart's reception yesterday. Her playing was much appreciated as was also the sympathetic accompaniment of Mrs. Clarkson. — Toronto World.

WEDDING BELLS

DAVIDSON—MORRISON.

On Saturday, Feb. 19th at 4 p.m., the marriage was solemnized by Rev. Jas. Rollins, of Miss Georgina Morrison of this city, to Mr. James Davidson of Otonabee. They were attended by Mrs. Isaac Elliott and Mr. A. W. Blade, and were entertained after the ceremony at the home of Mrs. I. Elliott, Gilchrist street.

STRIKE—BARRETT.

A quiet but very pretty wedding was solemnised at the home of Mrs. M. E. Perkins, sister of the bride, on Wednesday, 12th January, when Miss Bessie Strike, of Virden, Manitoba, became the bride of Mr. Chas. W. Barrett, of Winnipeg, son of Mrs. R. Bugg, of Peterborough. Rev. C. W. Findly, rector of St. Mary's Church, officiated. The bride was charming in a dress of cream silk crepe de chine, with beaded trimming, a veil, and handsome bouquet of white carnations and chrysanthemums. The ceremony was followed by a dainty wedding breakfast, and then the happy couple left for their future home in Winnipeg, the bride travelling in a blue serge costume.

McCLELLAND—EATON.

On Saturday, February 19th, 1921 a quiet wedding took place at the Manse of the 4th Presbyterian Church, Chicago, when Hazel Elizabeth, daughter of Mr. and Mrs A. J. Eaton, Peterboro, was united in the holy bonds of matrimony to Mr Kenneth Clarke, son of Mr. and Mrs. C. S. McClelland, Peterboro, by Rev. John R. Heyworth

Mr. and Mrs. K. C. McClelland will reside at 1016 East 62nd street Chicago

OBITUARY

CATHERINE McMILLEN.

The death occurred at her residence, 569 Bolivar street, at 5.30 this morning, of Catherine McMillen, beloved wife of Daniel McMillen. The deceased was 64 years old and had been ill for some time. She was a resident of Peterborough for the last fifteen years. Her husband is the sole survivor. The funeral will take place at 9 o'clock on Friday morning, from St. Peter's Cathedral.

CHARLES SHERMAN GARBUTT

Charles Sherman Garbutt, eldest son of H. C. Garbutt, of Smith Township, died yesterday at the family residence, Lot 22, Concession 9, after an extended illness. He leaves, besides his parents, one brother, Clark, at home.

The funeral will take place to the Lakefield Cemetery on Thursday at two o'clock, Rev. P. J. Jull, of Lakefield, officiating at the service.

RAPSEY PRINGLE.

Mr. Rapsey Pringle, son of Mrs. Ada Pringle, 315 Dawson Street, Port Arthur, died at his mother's residence after a year's illness. He was twenty-three years of age, and before his illness was with H. M. Customs at Sault Ste. Marie, starting work in the Port Arthur Post Office. Mr. Pringle was born in Peterborough, Ont., and the family went west twelve years ago, the father having died in 1907 in this city. The widow and her young family took up their residence in Port Arthur where all Mrs. Pringle's relations are living.

Surviving members of the family are his mother, one sister Mabel, the wife of Dr. Crozier, and one brother, Donald, who is employed in Crook's drug store, Port Arthur. His eldest brother, Lieut. Stanley Pringle, died of wounds overseas in June, 1917.

Interment took place in the Riverside Cemetery, Rev. A. W. McIntosh of St. Paul's Presbyterian Church officiating.

Deceased's uncle on the paternal side, Mr. G. A. Pringle, is resident in Peterborough.

Money takes its name from the goddess Monota, in whose temple in Rome the coinage was made.

Between the Eyes

The upper part of the face is noticed, first when you meet a person. If there's a scowl there, it so disfigures the face that the most attractive face is spoiled.

If you have to make an effort to see clearly you scowl without knowing it. Let Dr. Fowler prevent scowls by fitting you with proper Eye-Glasses.

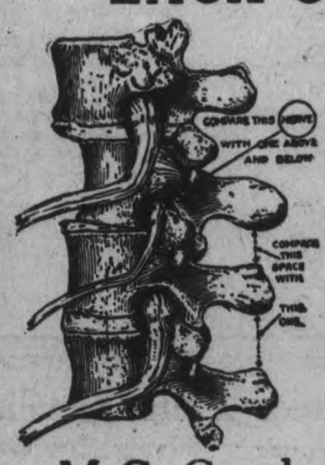
LACK OF VITAL FORCE



If there is anything wrong with your Head, Lungs, Heart, Stomach, Kidneys, or any other part of the body, you can be sure that it is due to a lack of Vital Force going to those organs, due to a pressure upon the nerves where they leave the spinal cord. The Chiropractor, by means of Chiropractic Vertebral Adjustments, given with the bare hands alone, relieves this pressure, and the Vital Force is thus permitted to flow uninterruptedly to these organs. **The result is Health.**

VOL. XLIX. NO 46 — PETERBOROUGH, THURSDAY, FEBRUARY 24, 1921 — PRICE THREE CENTS

G. N. Gordon is to Be Introduced to the House To-day

WEST PETERBOROUGH'S NEW MEMBER MET HIS LIBERAL COLLEAGUES THIS MORNING AND RECEIVED A TREMENDOUS OVATION.

BOOSTS MR. BURNHAM

(Special Despatch to the Examiner.)

OTTAWA, Feb. 24.—G. N. Gordon, newly elected M.P. for West Peterborough, arrived in Ottawa this morning and will be introduced to the House this afternoon. He was taken to the Liberal committee rooms before going to the Commons and there was introduced to the members of the Liberal Opposition by Hon. W. L. Mackenzie King, Liberal leader, and Hon. Charles Murphy. He received a tremendous ovation from his future colleagues.

In introducing Mr. Gordon, Hon. Mr. Murphy referred to him as "the Liberal hope, a six-cylinder fighter who gets what he goes after" and went on to say that it would not be long before the victor in West Peterborough would surprise his most enthusiastic admirers with the showing he would make.

The new member received many invitations to speak, and the present intention, it is said, to send him into ridings where by-elections are to take place to aid the Liberal cause.

In an interview following his introduction to his fellow Liberal members Mr. Gordon expressed his gratification with the result in West Peterborough, which he ascribed to the friends of Liberalism and the opponents of the present government. J. H. Burnham, according to Mr. Gordon, is the outstanding figure of the Conservative party in the Midland counties and he polled within 216 votes of the Government candidate, who had the biggest organization ever operated in this part of the province. He interpreted this as an indication that Mr. Burnham was the strongest man in the West Peterborough Conservative party, "but could not swallow the change of name unloaded on the old Conservative party."

The power situation, he said, is of most vital interest to Peterborough as the city lost $396,000 in cancelled orders and wages last October by reason of the government refusing to lower the water level of the upper lakes of the Trent Canal system one-tenth of an inch a week to give extra water to the Hydro plants of the district. He declared that unless some provision is made for more storage dams, tremendous losses will be sustained by the manufacturers and workingmen.

A number of Liberal Unionists joined in congratulating the new member to-day.

Commute Sentences of "Vengeance Gang"

CAIRO, Feb. 24.— (Canadian Press.)—Seven death sentences imposed by a court here last October on members of the "Vengeance Gang," an alleged anti-British Society, have been commuted to fifteen years in prison. Fifteen of the men who were given heavy prison sentences, have had the periods of their incarceration reduced and eleven who were sentenced to receive thirty lashes, have been liberated.

BOTH FACTIONS OF TURKS WILL ACCEPT RULING

REICHAD PASHA, SPEAKING FOR CONSTANTINOPLE GOVERNMENT AND NATIONALISTS, SUBMITS.

THE ALLIES' DECISION

LONDON, Feb. 24.— (Canadian Associated Press.)—Reilhad Pasha, delegate of the Constantinople government to the Near East Conference here, speaking in the name of both his group and that of the Nationalists, told the Allied conference at to-day's session that both factions of the Turks would accept the decisoins of the Allies.

The solution of the Near East problems relating to Turkey, which will be reached by the Allied Supreme Council, will be to send an Allied commission of enquiry to the Near East to examine on the spot the population claims of Greece and Turkey in the disputed provinces of Smyrnia and Thrace, it was forecasted in well-informed circles here to-day. In the meantime the cessation of hostilities between the Turks and Greeks will be declared.

Bekir Samy Bey, head of the Nationalist delegation, told the confreres that the Turks rested their case upon the principle of the Sevres Treaty, namely, the rights of nationalities. The Turks, he said, were asking for Thrace and Smyrna because in the populations of these provinces the Turks were in the majority. He told Lloyd-George that he could support this by both Turkish and foreign statistics. He then presented various documents to the Council.

The Greek Premier, Kalogeropoulos, was furnished with copies of the documents, and will be given an opportunity to reply this afternoon.

The attitude of the Turks made an excellent impresion upon the conference, Premier Briand, of France declared after the sitting that the conference had gone a long way towards a settlement.

HENRY FORD RE-HIRING MEN FOR HIS PLANTS.

Work to Be Going at Full Blast in a Few Weeks.

DETROIT, Feb. 24. — The Ford Motor Company's plants will be in full operation in a few weeks, Henry Ford said to-night. Men are being re-hired as fast as the company can take care of them.

Orders for 79,000 cars in March have already been received, Ford stated, and the huge blast furnaces and tractor plants at River Rouge have been set in operation. Between 15,000 and 20,000 men are employed in the Rouge plants.

Three thousand men will be rehired at the Highland Park plant before the end of the week, bringing the total working force in that plant to nearly 20,000.

INJURED ON G. T. R.

LINDSAY, Feb. — — Isaac Robinson is in the Ross hospital here suffering from a broken bone in his back and a sprained ankle. Robinson is an employee of the G.T.R., and when nearing Peterborough on a handcar the conveyance had to be removed from the track to avoid an approaching train. In the hurry Robinson's foot caught in the track resulting in the injuries referred to.

STATES WANT EQUAL POWER WITH ALLIES

NOTE MADE PUBLIC TO-DAY SETS FORTH CLAIM FOR HAND IN DISPOSITION OF GERMAN POSSESSIONS,

COUNCIL CONSIDERS IT

PARIS, Feb. 24. — (Canadian Press.)—The United States' Government, in its note to the League of Nations Council on the question of mandates, claims an equal concern and interest with the other principal Allied and Associated Powers in the overseas possessions of Germany and in their disposition.

The note was made public to-day and the Council again considered it this morning, with special reference to this claim advanced by the United States. Some of the members held that the United States had forfeited such rights by withdrawing as an Associated Power from the Supreme Council.

Concerning the United States' contention the note said: "As one of the principal Allied and Associated Powers, the United States has an equal concern and inseparable interest with the other principal powers in the overseas possessions of Germany, and consequently an equal voice in their disposition, which it is respectfully submitted cannot be undertaken or effected without its consent."

In a summary of the note, made public yesterday, it was revealed that the United Staes declared it had never given its consent that the Island of Yap, an important link in the Pacific chain of cable communications, be included in the territories submitted to the mandate of Japan.

LAKEFIELD NEWS

LAKEFIELD, Feb. 24.—Mr. A. Fairbairn is in Toronto for a few days.

Dr. A. A. Fraser, of Montreal, is visiting his father, Dr. I. R. Fraser.

Misses Greta and Olgina Trude, of Buckhorn, are visiting friends in the village.

Mr. and Mrs. A. E. Dawson leave on Thursday for England. They will be absent a couple of months.

Butcher Shop Burglarized.

Lakefield was startled on Wednesday by the rumour that the butcher shop of P. G. Dunk had been broken into on Tuesday night and a quantity of meat stolen. The local police are working on the case.

Farewell Tea.

Rev. and Mrs. Vipond entertained a few friends at the tea hour on Wednesday in honour of Mr. and Mrs. A. E. Dawson, who are leaving for England on Thursday.

The Late Mr. Carbutt.

The funeral of the late Mr. Charles Sherman Garbutt, who passed away on Tuesday, took place to-day at 2 o'clock, from the family residence to the Lakefield Cemetery.

FRUIT GROWERS' ASSOCIATION ASSURED.

Will Avoid Recurrence of Basket Famine.

ST. CATHARINES, Feb. 24. — The organization committee of the Niagara Fruit Growers Association, having already secured enough members and assurance that the concern would be a live factor in the community, the organization and incorporation of the association is assured. To date, business that should aggregate one and one-quarter million dollars had been promised, and the committee is meeting with much encouragement in its work.

The new concern will devote itself chiefly to the marketing problems of the growers, but has also in view the general benefit of the producers in respect to the tariff, express rates, and the production of a better quality and larger quantity of fruit.

Basket Question.

Stress has been laid upon the Government restrictions in regard to the standardization of baskets being likely to be strictly enforced in the coming season. Inspector Hastings has, at several meetings of the fruit growers, referred to the matter, impressing upon the public that the laxity of last year, made imperative by the basket famine, would not be tolerated this year, and warning the farmers to make provision for their packets in time to avoid any such trouble as arose last season.

HON. MR. FISHER BETTER.

OTTAWA, Feb. 24.—The condition of Hon. Sydney Fisher, former minister of agriculture, who has been seriously ill at his home here for some time, is reported to be considerably improved. Mr. Fisher, it was staed, was still very weak.

THE EXAMINER TO PUBLISH A NOON EDITION AND THUS FILL NEWS GAP OF FIFTEEN HOURS

Monday, February 28th, The Examiner will enter upon a new phase of its career with the publication of a NOON EDITION, thus filling the gap which now exists in the publication of news between the Toronto morning papers and the regular afternoon edition of The Examiner. This gap is approximately fifteen hours, as the Toronto morning papers close their forms shortly after midnight and the afternoon edition of The Examiner is closed at 3 o'clock in the afternoon. The new noon edition will be closed at about 11 o'clock in the morning, thus giving the news of the past twelve hours to Examiner readers at a time when previously the only news obtainable by them has been that of the morning papers, nearly twelve hours old.

The regular afternoon edition will continue to be published at the usual time.

With the publication of the noon edition there will be instituted an augmented news service for both editions. The regular Canadian Press telegraph news service will be increased and a larger and more efficient staff of district correspondents will cover the circulation territory.

This edition will prove of special convenience to rural readers and every effort will be made to cover the news of the circulation territory thoroughly and efficiently. In the past rural readers have been receiving their papers, in many cases, on the day following publication, due to the lateness of the hour at which the regular edition comes off the press. The noon edition, however, will be available throughout the entire district on the day of publication.

HOUSE HUNTING HAZARDOUS FOR EX-CHIEF HERE

CHIEF THOMPSON AND FAMILY RUN DOWN BY CAR IN WINDSOR WHILE HOUSE HUNTING.

DRIVER PAYS PENALTY

WINDSOR, Feb. 24.—House hunting in Windsor is a hazardous undertaking if the experience of Daniel Thompson, chief of Windsor police force, is any criterion. About two weeks ago, Mrs. Thompson joined the chief in Windsor, and during her stay an effort was made to locate a house for the Thompson family.

Mrs. Thompson, joined by the chief's brother-in-law, Wilfred Hamlin, of Detroit, were making a tour of the city in search of desirable houses At the corner of Ann street and Goyeau street, they were run into by a car driven by Amie Varday. A number of the occupants of Varday's car it came out in evidence this morning in court had been drinking.

Varday was found guilty of reckless driving and was remanded for sentence to February 26.

NOT TO STOP WITH WINNING A REFERENDUM

REV. BEN SPENCE DECLARES ULTIMATE OBJECT OF ALLIANCE IS A "BONE DRY" CANADA.

"A BATTLE IN A WAR"

TORONTO, Feb. 24.—(Canadian Press).—"This is not simply a campaign for a specific piece of legislation; it s a battle in a great war. The immediate objective is the passage of Bill 26 and the making of Ontario bone-dry, but our ultimate objective is the absolute elimination of strong drink from our land as the final solution of this great problem."

A prolonged cheer from the eleven hundred-odd delegates assembled at Massey Hall yesterday after noon on the second day of the 45th convention of the Ontario branch of the Dominion Alliance greeted the above words uttered by Rev. Ben Spence, Secretary of the Alliance, in an address on "Why Vote Yes." The address of Mr. Spence was a succinct presentation of the temperance struggle in its various stages leading up to the present situation and the coming vote on April 18.

In brief outline Mr. Spence showed the provisions of the Sandy Bill, which, he said, was one of the finest pieces of legislation ever enacted, though it had one distinctly objectionable clause that prevented it becoming operative until after the passing of Bill 26. "The present situation, then, is this: that while we will technically, in April, vote on Bill 26, it will be practically a vote on both bills, as the Sandy Bill will come into operation only when the other is carried."

It was being found, Mr. Spence stated, that prohibition could not be made fully effective in one Province where the sale of liquor was prmitted in another, and what the Alliance would seek was a Dominion law dealing with the export and manufacture. "So long as intoxicating liquor is manufactured in one Province and transported to any other, we, as citizens, are morally bound to stop it. Pave the way for nation-wide complete prohibition by voting "yes" for this bill," Mr. Spence concluded.

SPRACKLIN NOT GUILTY

WINDSOR, Feb. 25. — (3.30 O'clock, Canadian Press.)—Spracklin was found "not guilty' by the jury fifty-five minutes after they had retired to consider their verdict.

BIRTH.

BELL — To Mr. and Mrs. E. Bell, 546 George street, a son—Carl Ernest.

Spracklin's Case Goes to the Jury Early Afternoon

FORD PLANT WILL START FULL BLAST

DETROIT, Feb. 24. — "It is now only a question of a few weeks before our plants will be in full operation."

Henry Ford made this statement yesterday, elaborating his announcement by saying that orders for between 78,000 and 79,000 cars have been received at the Highland Park plant for the month of March.

THE TIMBER PROBE GETS MORE ABUSE

DR. GODFREY DEFENDS FERGUSON AND SCATHINGLY ATTACKS THE RIDDELL-LATCHFORD COMMISSION.

IS FINALLY "CALLED"

TORONTO, Feb. 24.—(Canadian Press).—Vigorously defending his political leader, Hon. G. Howard Ferguson, from "insinuations vile from a political moral sense," Dr. Forbes Godfrey, Conservative member for West York, bitterly criticized the Timber Commission until called to order by the Speaker in the Ontario Legislature last night.

If Mr. Justice Riddell, he said, had wanted to do "the right, the honest, the decent and square thing," he would have made public in Toronto Hon. Mr. Ferguson's much-discussed cablegram from Bermuda, and not in Sudbury, many days later. He named over all the counsel interested at one time or another in the investigation, and referred in forceful language to "the mire and muck" that had engulfed them.

To Keep Raney "Ducking."

In heated cross-floor controversies with the Attorney-General, who was leading the House in the absence of the Premier, the member for West York promised to keep him "ducking for his funk-hole" all session. The doctor was considerably nettled at being prohibited from commenting on the actions of the Timber Commissioners and promised further developments later.

ARGUMENTS OF CROWN AND DEFENSE CONCLUDED AND JURY CHARGED THIS AFTERNOON.

VERDICT BY EVENING

WINDSOR, Feb. 24.—(Canadian Press).—When the court adjourned for lunch to-day, the Spracklin jury had heard the argument of Munro Grier, Crown prosecutor, as well as the counsel for the defence, R. L. Brackin. Chief Justice Mulock will charge the jury immediately after the court resumes this afternoon and it is probable that the verdict will be returned before evening.

Rev. J. O. L. Spracklin himself took the stand in his defence last night. His story did not vary from that told at the inquest. He told the entire story of the affair from the beginning, his narrative becoming more tense as he proceeded. In describing what had occurred just before firing the fatal shot, he said: "I looked into Trumble's face and saw the expression there, and then I——"

His voice, which up to this point had been steady, broke down.

After a short pause his counsel, R. L. Brackin, asked gently: "Then what?"

"And then I pulled the trigger."

The words were spoken in a whisper.

Mr. Spracklin was on the stand for two hours when court adjourned at 9.30 p.m. His evidence throughout was much the same as that which he gave at the Coroner's inquest nearly three months ago, the only variation being that, whereas at the inquest he declared he hesitated before shooting, last night he simply stated that he "looked at Trumble and pulled the trigger."

At the conclusion of Mr. Spracklin's evidence, Mrs. Beverley Trumble was called by the prosecution in rebuttal. One witness, Jack Bannon, had stated during the afternoon that after the shooting he had seen a revolver in Mrs. Trumble's hand. This evidence Mrs. Trumble indignantly contradicted. The defence alleged that Mrs. Trumble had taken charge of the weapon. Mrs. Trumble declared: "If I had a gun that night there would have been another murder."

GEORGE STREET METHODIST CHOIR.

Practice to-night at 8 sharp. Will the men who have promised to assist in the male choir for Sunday night please be on hand at 9 o'clock sharp?

FINANCIAL AND MARKETS

WALL STREET.

NEW YORK, N. Y., Feb. 24. — (Canadian Press.)—Selling of special issues which bore marks of involuntary liquidation attended early dealings on the stock exchange today. Sears Roebuck, yesterday's weakest feature, sustained a loss of four points. Kelly Springfield Tire reacted to the same extent and other Rubber issues, as well as Motor Accessories, developed increased heaviness. Shippings and Oils, as represented by Atlantic Gulf, United Fruit, Mexican Petroleum, Royal Dutch and Texas Company were lower by one to 1 1-2 points, and Coppers denoted renewed pressure. Among Rails losses were confined to fractions.

Developments of the morning were altogether favorable to short accounts. Pittsburgh reported an approaching twenty per cent. reduction in wages by one of the largest independent steel producers. Ajax Rubber passed the quarterly dividend and rumors were current of similar action in other quarters. Equipments, Chemicals, Fertilizers and various unclassified specialties were involved in further depression of prices. The only conspicuous exceptions were Central Leather, common and preferred, which rose one and two points respectively. Kelley Springfield, Pullman, Atlantic Gulf, United Fruit, American Agriculture, Chemical, Woolworth and Remington Typewriter were included among the heaviest stocks. Call money opened at seven per cent.

FOREIGN EXCHANGE.

NEW YORK, Feb. 24.— (Canadian Press.)— Sterling Exchange heavy demand 3.88. Canadian Dollars 12 1-4 per cent. discount.

CHICAGO GRAIN.

CHICAGO, Feb. 24.— (Canadian Press.)—Bear pressure in connection with the unsatisfactory labor situation, brought about material downturns to-day in the price of wheat. Some selling too, appeared to be based on predictions of more liberal farm reserves of grain than had as a rule been looked for. Aggressive support was lacking. Initial quotations which varied from unchanged figures to 1 1-4 lower with March 170 3-4 to 171 1-4, and May 160 1-4 to 161, were followed by a set-back all around. Large receipts of Corn acted as a weight on the Corn market. After opening 3-8 to 7-8 off, including May at 70 1-2 to 70 3-4, the market rallied a trifle, but then descended lower than before. Oats were weak with other grains, starting 1-8 to 1-4 lower, May 45 5-8 to 45 3-4 and then continuing to sag. Provisions sympathized with the decline in cereals.

MONTREAL.

MONTREAL, Feb. 24.—Canadian Press.)—During early trading this morning the local stock exchange displayed some weakness, there being some sharp declines in a few of the leaders. Abitibi was down a quarter point at 34 3-4. Atlantic Sugar was unchanged at 30 1-4. Brazillian was steady at 33 1-2, but Brompton sagged two points to 37, Laurentide, too, went down half a point to 84 1-2. Other issues were quiet.

TORONTO.

TORONTO, Ont., Feb. 24.—(Canadian Press.)— Further weakness in pulp and paper stocks and strength in tractions featured this morning's trading on the Toronto stock exchange. Price fluctuations among other issues on the list were of no significance. Brompton lost 1 3-4 at 37 1-4, while Abitibi declined almost a point at 34 1-4. A rally in this stock during the morning sent the price up to 35 1-2, but this was lost before the noon close. Spanish River stood at 73 bid. Among tractions Winnipeg Railway moved up 1 3-8 to 47 3-8. Toronto Railway was higher by 3-4 at 69 1-4, and Quebec Railway advanced a fraction to 28.

LIVE STOCK MARKET.

TORONTO, Feb. 24.—(Canadian Press.)—Cattle receipts light, trade brisk. Quotations: Choice butcher steers, $9 to $9.75. Butcher cows, medium, $5 to $7. Calves, $14 to $16. Lambs, $12 to $13. Hogs, fed and watered, selects, $14.

FOR SALE

A PRESENTATION NORTH MONAGHAN

MR. ROBT. FOWLER AND MISS KATE FOWLER HONOURED.

Last evening about one hundred and thirty of their friends and neighbours gathered at the home of Mr. Robt. J. Fowler in North Monaghan, on the occasion of the departure of Mr. Fowler and Miss Kate Fowler from North Monaghan. An address, signed by Mrs. H. Clark, Mrs. J. Lang, Mrs. N. Lillico, Mr. Bert Sanderson and Reeve J. McIntosh, from the citizens of North Monaghan, was read by Mr. Jos. Sanderson, and presentations of useful gifts were made at the same time. Mr. Fowler received a handsome club-bag, presented by Miss Annie Brown, a beautiful electric reading-lamp was given to Miss Fowler by Mr. J. White, and Miss Robertson presented both Mr. and Miss Fowler with a serviceable lunch basket, equipped with thermos bottle.

During the evening, short speeches were made by Rev. Mr. Ross, Messrs. G. F. Staples and G. Hunt, instrumental duets were rendered by Mrs. Bothwell and by Mr. and Mrs. J. D. Fowler, recitations were heard from Miss Seymour and Miss Little, and Miss Clark gave a vocal solo. Dainty refreshments were also enjoyed by the assembled company.

Mr. and Miss Fowler intend to travel for a few months in the enjoyment of a well-earned holiday, after which they will return to Peterborough, residing on Gilmour Street.

The Address.

To Robert J. Fowler and Miss Kate Fowler, North Monaghan Township.
Dear Friends,

Your many relatives and friends in your immediate community have learned with regret that it is your intention to remove from the township and reside in Peterborough. While you are both severing many ties that make the vicinity dear to your hearts, we know that the severance will not now be as serious as if you were leaving for far distant points.

In going from the farm lands with which you have been associated since childhood, you are leaving, in some respects, historic ground, on which three generations have lived and grown to man and womanhood and passed, those of mature age, away. To the lands on which William Fowler, your grandfather, settled in 1819, on Lot 1, Con. 11, he afterwards added with property from the concession adjoining. And there the homestead was established by your father, and which you now vacate. It is not after that we find property originally acquired now in the hands of immediate descendents for over one hundred years.

While others of the sons and daughters have passed out into other spheres of life, you had stayed with the old folks. They in their declining years had the fraternal care that sons and daughters should manifest to the parents. All this is to your infinite credit, and a deep appreciation is felt at your faithful service.

As a citizen in the township we remember that Mr. Robert T. Fowler has given several years of service in the local Council, where his good sense and judgment in all matters affecting the municipality have been appreciated, and only discontinued because of claims for time to devote to other duties. In addition, he has given valued service as a member of the Presbyterian Church at Springville.

To Miss Fowler we tender large appreciation. Her efficient assistance in local objects will be missed. We know and keep in mind that she was the first president of the Christian Endeavour Society of the church, with which she has been identified, along with her brother. Miss Fowler held for the last ten years the office of secretary of the Women's Missionary Society, doing valuable and helpful work. A teacher in the Sunday School for many years. Zealous in Red Cross activities and other patriotic associations. And what is of large value, ever ready to assist in any communal emergency, if sickness or distress were manifest. This characteristic of evidence of the function of the Good Samaritan is gratefully remembered.

While words may express our feelings we wish that you may keep us in mind by taking the gifts which we ask you to accept. That in their association and use you may be reminded of the many friends who are still yours and will ever so remain. The club-bag to Mr. Fowler, that he may carry it with the hands of friendship. The table lamp to Miss Fowler, that its kindly light and glow may reflect the esteem of the many who will call to mind the lady and her ministrations. For any community is the better from having had among its residents people who have gained the deep respect and earnest esteem of the many with whom they have come in contact.

With all good wishes for continued health, prosperity and happiness, we ask to be remembered.

WAGES OF MAIDS ARE DOWN IN NEW YORK.

A Year Ago Conditions Were Very Different — The Help Market Has Softened.

NEW YORK, Feb. 23.—Domestic help at something like pre-war figures is at hand, Miss Henrietta Rothstein of the State Employment Bureau declared here.

"Immigrant girls now command $25 to $30 per month, but according to the present trend that soon will be the salary of experienced help," Miss Rothstein said. "When that happens immigrant help should be available at from $15 to $20."

The help market has "softened," she said. Immigration and closing down of factories have brought young women back to housework, with the result that wages have been cut from 20 to 40 per cent. Applicants for help are supplied without trouble now where a year ago long waits were necessary.

"A year ago maids demanded almost anything," Miss Rothstein said. "They got $60 or $80 a month and almost anything they wanted, even to automobiles. Just now the average wage is around $50 a month, with every indication that it will drop soon to $30 and $40.

"Applicants show more eagerness for positions now. Undoubtedly they will make better servants than before.

"Another indication of changing conditions is that the day worker will give eight hours' service now for $2. A year ago she was getting $4 to $6 and choosing her clients.

"So far as I can see there has been a falling off in the demand for help."

Independent employment agencies reported much the same condition. The maximum wage now, they said, is about what the minimum was a year ago.

Still lower wages can be expected, they said.

Street cars in Hamburg, Germany have all been equipped with mail boxes for posting letters. Telegrams with stamps for payment affixed may also be deposited in them.

FAMINE CONDITIONS IN CHINA IMPROVING

Most of the Sufferers Assured Against Starvation, at Least Until Spring.

PEKING, Feb. 23.—Most of the Chinese famine suffers are assured against starvation by the ample stocks of grain on hand at points reached by railway. The entire district affected is now within reach of relief stations, to which grain is being supplied as fast as it can be transported into the interior by cart and man power. Notwithstanding the widespread area of destitution, there have been comparatively few deaths from starvation, owing to the measures taken by relief workers.

The number of persons affected by the famine has been variously estimated at from 5,000,000 to 21,000,000, the latter being the number given by the United International Committee. It is conceded, however, that the first estimates were exaggerated, owing to the lack of an accurate census and the spotty character of the famine, which now affects neighboring towns with different degrees of severity, due to the improvement brought about by the late crops.

The crucial period, according to investigators on the ground, will come in the Spring, when the people, weakened by privation, will have to take up their work on lands that are now mortgaged and without farm animals. The Winter wheat crop, however, has been generally excellent. There have been no epidemics except the usual occasional cases of typhus.

ANCIENT MAGIC SURPASSES OUR MODERN SCIENCE.

So Says Dr. Voynich, Who Has Secret of Medieval "Black Magic."

CHICAGO, Feb. 23.—Dr. Wilfred N. De Voynich, bibliophile manuscript collector, will address the American Philosophical Society in Philadelphia on April 20, at which time, he says, he will startle the scientific world. Dr. De Voynich, who was in Chicago to-day, says he will reveal some of the secrets locked up by Roger Bacon, the thirteenth century wizard, in the code which the Doctor says he has deciphered.

Dr. De Voynich had with him photographic prints of several pages of the book of mystery, the original of which, he says came into his possession nine years ago. Bacon wrote in Latin, but his more secret writing, according to Dr. De Voynich, he concealed from the world in a code which somewhat resembles ancient Hebrew. Crude illustrations were worked into the text, and these too, according to Dr. De Voynich have their significance. Thus far he says he has deciphered about 20,000 words, but even this small part of the work, which comprises 800,000 words, is a revelation.

Beyond explaining that two of the facsimile pages had to do with the origin of life, Dr. De Voynich refused to discuss the contents of the book.

"When the time comes," he said, "I will prove to the world that the black magic of the Middle Ages consisted in discoveries far in advance of twentieth century science. For nine years I have been working on the code, the key to which was discovered by Professor William Romaine Newbold, of the University of Pennsylvania, who now has the manuscript and is proceeding with the work."

Beginning March 4, the President of the United States will have to pay an income tax of $18,400 a year from a salary of $75,000, unless special exemption legislation is enacted.

Studebaker LIGHT-SIX

—the World's Greatest Light Weight Automobile

At all driving speeds, the NEW LIGHT-SIX is freer from vibration than any car of of its approximate size or weight yet produced in America or Europe. Its powerful motor is an exclusive Studebaker design—conceived by Studebaker engineers — and built complete in Studebaker factories. It is most efficient in utilizing the low grades of fuel now on the market—no other light six-cylinder motor yet produced is as free from vibration or as flexible, economical and powerful.

Power with smoothness of operation has been the dominant idea in the construction of the NEW LIGHT-SIX motor. Its completely machined crank-shaft and connecting rods will not be found in any other light weight car yet produced in this country. This construction reduces wear and strain on the bearings and the moving parts, and means longer life and smoother riding qualities.

You can have the advantage of this motor's wonderful gasoline economy and the satisfaction of its smoothness of operation only by owning a Studebaker LIGHT-SIX.

Let us give you a demonstration of this NEW LIGHT-SIX anywhere and under any conditions you choose.

Under Your Pillow at Night

DO YOU ever wake up at night or on these cold, dark mornings and wish you knew the time? And doesn't it take almost your whole will-power to get up from your warm bed, turn on the light and try to read the time from an ordinary time-piece—your eyes squinted by the glare?

A Radiolite under your pillow—one glance at the softly glowing hands and figures—and you know the time—scarcely aroused from your doze.

But that's only one use. Look at the little pictures on this page. You probably could add a dozen more from your own experience.

Radiolites come in models adapted to special purposes: the Two-in-One is a clock-watch for bureau or table by bed; the Midget Radiolite for women and girls; the Wrist Radiolite for nurses, soldiers, sportsmen; the Waterbury, a jewelled Radiolite, a smart time-piece for business and professional men; the Maple Leaf Radiolite, an admirable model for boys and for men who do rough work of any kind.

Look for the store with a Radiolite display.

WIRE BRIEFS

RURAL CREDITS HANDLED GINGERLY

TORONTO, Feb. 23.—(Canadian Press)—The rural credits scheme, sponsored by Hon. Manning Doherty, ran on to the rocks in the Legislature last night. No definite opposition to the scheme was encountered, there seeming to be a prevalent feeling that the matter should be handled gingerly due to the fact that the Legislature as a whole has not a wide understanding of the subject of rural credits. The resolution was referred to a special committee.

150 DIVORCE CASES AHEAD

OTTAWA, Feb. 23. — (Canadian Press)—The Senate Divorce Committee on Thursday will begin work on about 150 divorce cases.

VERDICT OF MURDER

BROCKVILLE, Feb. 23.—(Canadian Press)—The coroner's jury investigating the death of Robert Wood at Caintown returned a verdict of murder yesterday against Derrick Tennant.

SPEAKERS IN PRIVY COUNCIL

OTTAWA, Feb. 23.—(Canadian Press).—Speakers Boldne of the Senate and Rhodes of the Commons were sworn in as members of the Privy Council yesterday.

REPORTS RADIUM WILL CURE CANCER.

Dr. Harvey R. Gaylord Advises New York Legislature of 202 Apparent Cures.

BUFFALO, Feb. 23.—The $250,000 worth of radium which the Legislature of New York last year made available for treatment and research work in Gratwich Laboratory, in this city, has accomplished amazing results, according to the official report of Dr. Harvey R. Gaylord, Director of the Laboratory. The direct statement that cures at the Laboratory's clinics have been obtained was made in his annual report forwarded to the Legislature.

"From the report of the cases treated the last year in the hospital," the report declares, "it will be seen that the results of treatment with radium are very encouraging. Of 537 cases which were considered not too far advanced for treatment, many of which were apparently hopeless, 358 showed marked improvement or could be classified as clinically well. Of these, 202 constitute the latter group of those apparently well at the time of making the report.

"That the immediate results of treatment with radium is in many instances astounding we have long known, but at any time one can now seen in the dispensary numbers of cases returning for examination, many of them formerly advanced cases beyond help by any other means, from whom all visible traces of the disease have disappeared."

The effectiveness of the remedy, according to Dr. Gaylord, is due to two causes—a sufficient quantity of radium for a given purpose and improved technique in its application. In developing this the Gratwick Laboratory has played an important part.

Plans are also being made for the installation in the State Laboratory of a new X-ray which will have a penetrative power greater than any heretofore used. This new apparatus will be used in connection with the radium treatment.

Dr. Gaylord thinks that the X-ray, at least in its present development, cannot take the place of radium, which remains the most effeative treatment. For the purpose of investigating the results obtained by the Germans with high voltage X-rays which are not as high as those developed by Professor Duane, of Harvard, Dr. Gaylord soon will sail for Europe.

FOOD CONTROLLER EXCEEDS AUTHORITY

Order With Regard to Potatoes is Condemned.

LONDON, Feb. 5 (Associated Press, by mail).—An order of the Food Controller with regard to potatoes was severely condemned at the Cambridge Assizes by Mr. Justice Rowlatt, by reason of its assumption of unlimited authority. The order as that of March, 1920, Clause 21 of which states:

"Except in such cases as the Food Controller may otherwise determine, all contracts (other than those contracts for the sale of potatoes in the ground), for the sale of potatoes shall be cancelled except in respect of potatoes delivered before that date."

Mr. Justice Rowlatt asked where was the power of the Controller to determine all contracts at a moment's notice. "No King, no Prince, or anybody ever had the power to do such a thing in this country.

"The grammar in this Food Controller's order," continued the Judge, "is enough to make him deserve to be whipped. If he was a small boy he would be whipped.

"It is very bad English, and it is difficult to define what it means. I suppose it means that except when the Food Controller makes a special order all contracts to sell potatoes shall be cancelled."

It was a remarkable thing that the public seemed to care nothing for its liberties, the Judge added, or it would promptly put an end to this form of Imperialism.

Smoke T&B

The name which stands for quality

My-but it makes puddings good!

Crown Brand Syrup

LITTLE clamorous tongues call loudly for more, when puddings are served with that wonderful, ready-made sauce, Crown Brand Syrup!

Have you noticed how delightfully it blends with other flavours, without losing the individuality and zest that makes it so great a favorite?

That is why chefs use it in leading hotels the world over, for cooking, baking and candy-making.

"Peterborough Presents Possibilities Unsurpassed."

THURSDAY, FEB. 24TH, 1921.

DISPOSING OF CANADA.

Americans who suggest that Canada and the British West Indies be handed over to the United States in payment of Britain's war debt have a queer idea of the British Empire. Some of them seem to think that Canadians are chafing beneath the "yoke" of Great Britain and anxious to sever their ties with the mother land. Others appear to have the opinion that this country could be disposed of without the Canadian people having anything to say in the matter. Those who hold such foolish views have utterly failed to realize the status of Canada; they seem to ignore the fact that we are a free people, that the great Dominion belongs to us and that we stand on our own footing. It seems to take a long time for some of our American cousins to realize these things, judging by some recent newspaper articles and speeches. Their conception of the British Empire is so far away from the actual condition of affairs that Canadans are inclined to think that the men responsible for some of those remarkable suggestions must have been indulging in a joke. Canada is not for sale.

RURAL CREDITS.

Hon. Manning Doherty, Minister of Agriculture, is leaving for England, in an effort to have the embargo on Canadian cattle lifted. The mission seems destined to be a fruitless one, but it will be an enjoyable trip for the Minister, and the attempt will show the farmers that the Ontario Government is always ready to look after their interests, even if the whole Cabinet has to go over and talk to the British authorities. The rest of the people will not object to Hon. Mr. Doherty's journey. But there will be objection at the Government's action in rushing the Rural Credits Bill, introduced by the Minister of Agriculture, through with little time for consideration. Simply because Mr. Doherty has to go to England. These measures are among the most important introduced into the Legislature, and the members of the House should have ample time to study the details before the bills are passed. Little chance has been given to invstigate the measures, and if Hon. Mr. Doherty has to go to England, these bills of his could easily stand over until his return; they are too important to be rushed through without earnest consideration.

THE WAGE QUESTION.

The desire to get all the remuneration possible from one's services is natural and easily understood, so that efforts on the part of various trades unions to keep the scale of wages paid their craft at the record level reached during the war years were perhaps to be expected. Nevertheless, the time seems to have arrived when labour will have to accept a lower scale. Wages climbed rapidly in the extraordinary conditions caused by the war. It was inevitable that with the scarcity of workers and the necessity of unlimited production there should be a period of extraordinary wages. But the combination of circumstances that produced this result has disappeared. There is a surplus instead of a lack of labour. Many industries are closed and jobs are in demand rather than men. Attempts to maintain wartime wage scales are folly under the circumstances and are increasing the industrial depression and hurting the cause of labour. The present year should be marked by building operations on a large scale for houses are in demand as never before, but many people hesitate to embark upon such enterprises unless there is some indication that labour charges will not render the cost of the work prohibitive. And this condition of affairs pertains to other industries as well.

PILES Do not suffer another day with Itching, Bleeding, or Protruding Piles. No surgical operation required. Sample box free if you mention this paper, and enclose 2c stamp to pay postage.

WHY PROLONG IT?

The debate on the address from the throne in the House of Commons continues to drag on and present indications are that the division will not be reached until next week at the earliest. Lord Desborough said not long ago that Canadians were too much given to listening to and making long speeches, and the proceedings in the Canadian Parliament offer unmistakeable evidence that so far as making speeches is concerned Canada will have to admit that the indictment is well founded. The British Parliament opened at the same time as the Dominion House, but the debate on the address has already been concluded, and the House is ready for other business. In Canada it seems impossible to prevent this annual outpouring of words which cuts deeply into time that might much more profitably be devoted to consideration of matters of importance. The pages of Hansard are filled with the record of these speeches in spite of the fact that the majority are scarcely worth the trouble of printing them. Wasting three weeks on this preliminary debate is a proceeding that is difficult to justify, except on the worn out plea that it has always been done, for outside the proof that it gives that there are members in all the parties in the House who can speak for two or three hours without saying anything the debate is of little value.

THE BRITISH BANKS.

It is now known that British banks had a good year in 1920. All the large banks paid dividends as usual, although abnormally large amounts were allowed for depreciation and contingencies.

Barclays paid 21 p.c. Lloyds paid 20. County and Westminster paid 20. National Provincial paid 16. Midland made a net profit of over $11,000,000.

These banks —usually known as the "Big Five," are gathered as a circle of financial fortresses around the Bank of England.

They are all young banks, as they did not realy get under way until they were made possible by the Companies Acts of 1862.

The central figure, among the "Big Five "bankers, is Reginald McKenna. He is central, not because of age or experience, but because he is the successor of Sir Edward Holden; and because he has become the ablest and most aggressive spokesman of the banks.

As a former Chancellor of the Exchequer, he knows government finance from the inside; and he has developed into the most formidable critic on the present Chancellor—Mr. Chamberlain.

During 1920, 35 new banks were registered, with a capital of $60,000,000. Two small isolated banks—Farrow's and Hennevegs, closed their doors. Taken as a whole, the British banking system was never stronger, nor more coherent, than it is to-day.

Unfortunately, it is also true that the burden of the banks was never so heavy. Never, since the first bank opened its doors in Venice in 1157, has the responsibility of British bankers been as stupendous as it is in 1921.

British bankers have for two generations finanaced many other nations, besides their own. But today the whole world is rolling on their backs.

They have not reached their limit, but they will probably do so before the end of the year, unless they are given some measure of relief by government economy, or unless American bankers can lend a hand.

British bankers simply cannot extend their credits, as they are being asked to do. The whole of Europe is crying out for long credits.

Fifty governments, with leaky treasuries and bloated with bureaucracy, are demanding more and more money; and this demand comes in the end to the British banker.

At the present rate of exchange, Britain owes America over $4,000,000,000. As to what we can do, if the rate of interest is raised to 5 p.c., and if British goods are excluded by a higher tariff, no one knows.

France owes America three billions more; and needs fully twelve billions to reconstruct her devasted regions. All that can be exepcted of France is that she will carry herself.

Italy is penniless— owes $3,500,000,000 and cannot pay any of it. At the moment, Italy has not enough money for wages, let alone interest.

Austria has very nearly abandoned self-help and is to-day standing, hat in hand, at the door of the British Treasury, asking for a loan or for soup-houses.

Germany needs a credit of at least two billions to get on her feet; and France is now threatening to confiscate the fortunes of rich Germans, unless more reparation money is paid.

In all this continent of insolvency, the one solid, confident and indestructible thing is the structure of British banking.

If it breaks, the world is gone—the European world, at least.

In this matter of finance, the League of Nations has not been able to give any assistance. Neither can it agree on a remedy.

The League of Nations is as helpless as a Sunday school, partly because it has been forbidden to discuss separation; and partly because there is no one to say what America will, or will not, do. The poor League is trying to play Hamlet, with Hamlet left out.

British bankers do not know whether America intends to be lenient or merciless. It is the one variable that may dominate the whole situation.

Nearly all the British people, outside of a few rabid politicians and journalists, are willing to agree to a general policy of reconciliation and reconstruction. The House of Commons actually voted in favor of a loan to Germany of $20,000,000, without one voice being raised in protest.

If America will be equally lenient, it is quite possible that all Europe, except Russia, may work its way back in this generation to solvency.

But if not—if the entire burden of world finance is thrown upon the British banks alone, then we shall see what we shall see. Such is the outlook, as British bankers see it today.—Wall Street Journal.

EDITORIAL NOTES.

What about the Motor Show on behalf of the Health Association? The reduction of the civic grant makes it more necessary than ever.

In the matter of Sunday concerts at least, there is evidently church union in Peterboro.

Anyway if the Sunday concerts are as slow in starting as Sunday cars, there is no immediate worry about them.

British Columbia proposes to divert any profits from government sale of liquors to the maintenance of good roads Probably in the belief that they will be needed if business is good in the Government shops.

A Polish woman has gone thirty days without water, according to a newspaper report. It is presumed the item refers to the internal use of water.

There is a lesson to be learned from the useful hen. Although the price of eggs is dropping fast she goes on producing just the same.

OVERPAY COMPANY $6,800 ON CONTRACT

And Now There's the Basis of Fine Row at Kingston.

KINGSTON, Feb. 23.—The Public Utilities Commission is requesting the Hydro-electric Commission to send George Mickler of its audit staff to Kingston to appear before it and make some explanations that Mayor Nickle demands.

Mr. Mickler and the Mayor had a wordly collision here last week, when the Hydro auditor made what Mayor Nickle calls' 'venomous statements" with regard to the conduct of the utilities here and of the incapacity of most of the civic officials.

By the adopton of the Hydro system of bookkeeping, so local officials say, the Utilities Commission overpaid a gas company $6,800 on a contract. Hence the start of the row.

WISE AND OTHERWISE

Speaking of L. J. Gauthier's recent action Hon. Rudolphe Lemieux says that he does not wish to play bridge with a corpse. But with so much talk of pairs, bluffing and showdowns it seems more like Parliamentary poker that is taking place at Ottawa.

Of course, life in the Commons is rather too strenuous to allow time for poker but an occasional game with just high enough stakes to keep the honorable gentlemen from falling asleep should help to enliven the boresome hours.

He's quite forgot her looks by now,
Her memory is obscured,
But the powder from her slender arm
On his coat sleve has endured.

Hon. F. B Carvell cryptically remarked yesterday that he didn't shake hands with the devil until he met him. Lots of people in this world seem to think they're going to have that questionable pleasure others, playing safe, will leave a standing order for the ice-man to call daily.

Books which, from their titles, would seem to be their faovrites:

Artie Meighen—"To Have and to Hold."

Willie King— "Great Expectations."

Ernie Drury—"The Board Highway."

Howie Ferguson—"Vengeance."

Hartley Dewart — "If I were King."

The crime wave looks like an inundation.

At a revival meeting recently the evangelist asked all who had done something they knew was wrong to stand up. He was the only one who stood, but he was standing when he asked the question.

With the prospect of the province becoming bone dry as a result of the April referendum the hardware stores may soon report a heavy sale of wash boilers and there may be considerable demand in the grocery trade for yeast and raisins.

Force of habit is strong and every time some ex-service men hear of M.P.'s their memories hark back to vin and blanc estaminets.

KEENE NEWS

KEENE, Feb. 23. — Owen, the 4-year-old son of Mrs. Margaret McCarthy, who underwent an operation at the Sick Children's Hospital in Toronto, last Thursday, is recovering nicely.

MILLBROOK WINTER HORSE SHOW

The ninth anual winter horse show conducted by the Millbrook Agricultural Society was held in Millbrook on Friday, Feb. 18th, and was a big success in every particular. The entries were larger than on any other previous occasion, the quality of the exhibits better and a good big crowd in town to see the show.

The awards were made by Mr. Arch. Whyte, maanger of the Hendrie Estate, Hamilton, who is one of the Departmental Judges, and who on this occasion did his work well, giving satisfaction all around.

The prize winners:

Carriage Horses.

Single Horse in Harness—1 J. F. Staples & Son, 2 and 3 G. Brown.

Pair of Horses—1 J. F. Staples & Son, 2 G. Brown.

Roadster Horses.

Single Horse in Harness Under 15-2—1 G. Caldwell, 2 J. Earl, 3 C. F. Beatty.

Single Horse in Harness Over 15-2—1. G. Caldwell.

Pair of Horses—1 C. F. Beatty.

Pacers Special— W. J. Mulligan, 2 H. A. Fallis, 3 R. Langstaff.

Gentleman's Turnout—1 G. Caldwell, 2 J. F. Staples & Son, 3 G. Brown.

High Steppers—1 J. F. Staples & Son, 2 and 3 G. Brown.

Lady Driver—1 Mrs. J. Allen, 2 Mrs. D. A. Henry, 3 Miss Lewis.

General Purpose.

Pair of Horses—1 W. Henry, 2 J. E. White.

Agricultural Horses.

Pair of Horses—1 A. J. Henderson, 2 J. Whittington, 3 Robt. McCamus.

Brood Mare—1 A. F. Henderson, 2 Joe Armstrong, 3 J. Whittington.

Heavy Draught.

Pair of Horses—1 J. Whittington, 2 H. McMahon, 3 W. Nill.

Brood Mare—1 J. F. Staples & Son, 2 Bowles Bros., 3 J. Whittington.

Championship Best Agricultural Mare or Gelding—A. J. Henderson.

Championship Best Heavy Draught Mare or Gelding—J. F. Staples & Son.

Soldiers' Memorial.

The following is the list of names of fallen soldiers from Cavan township to be placed on the memorial. Any alterations or corrections in this list will be gratefully received by the Township Clerk: T. Dee, A. B. Elliott, N. M. Fair, W. Gist, E. Guest, A. Hawkins, E. R. Hodges, A. Hann, G. Jeudin, F. W. McKnight, F. A. Newton J. A. Sisson, T. Whalley.

Field Crop Competitions.

The Millbrook Agricultural Society will hold field crop competitions again this year. Grains for competition: Fall wheat and oats. Prizes, 1st $20, 2nd $15, 3rd $12, 4th $10, 5th $8, 6th $6, 7th $4.

A new form of competition known as combined standing field crop and seed competition will be held with oats as the competing grain, if fifteen competitors can be obtained. This grain will be judged standing in the field and the threshed seed judged in the barn. From these results the awards will be made. Registered seed must be shown, which can be obtained from the Grain Growers' Association through the secretary of the society at $1.00 to $1.25 per bushel.

Prizes—1 $75, 2 $60, 3 $45, 4 $35, 5 $30, 6 $20, 7 $10.

Entries must be made immediately inorder to secure the registered seed grain.

J. N. McGill,
Sec. the Millbroow Agr. Soceity.

LAKEFIELD NEWS

LAKEFIELD, Feb. 23.—Rev. S. F. Dixon will preach on Sunday evening next on The Right to Happiness."

Mr George H. Abel of Ottawa, is in the village this week on business.

Mrs. Davis entertained the S.O.N.G. Club at her home on Regent street on Monday evening. A pleasant time was spent.

The accident which was reported to have happened to Mr. Thomas Jackson should have been reported as Mr R. H. Jackson. Mr. Jackson was seriously injured.

Chimney Blaze

A chimney blaze, which caused a small sensation, took place on Monday afternon when the Pastorium chimney took fire and for a short time it seemed if the house itself was going to be badly damaged. In spite of the fact that the horses were not available at the time the fire brigade hauled the fire engine and hose waggon over to the foot of Smith street, where they had a base but the fire was then under control. This was the first fire alarm since the formation of the brigade and their response showed zeal for the work for which they have volunteered.

The New Rink.

Plans for a new rink on strictly up-to-date lines are going forward splendidly, and it is confidently expected that next season will find the village equipped with a rink which all will be proud of. The idea is to have the buiding centrally situated and of sufficient size to allow not only the curlers more scope, but also to enable the younger sports to revive Lakefield's reputation in the hockey field. When Lakefield in 1909 won the City League Championship of Peterborough with an All Star Team, the whole village was proud of the feat and presented the heroes with a gold watch, each suitably engraved. In the winter of 1912 Lakefield once more had a good team, but since the downfall of that old village land mark, the old rink, Lakefield, though possessing some players of the old calibre, has not played a striking part in hockey. This is not due to lack of interest in our national winter game, but the present rink, is not suitable for either practice or matches Hockey enthusiasts are looking forward to seeing their village once more in the forefront.

To Open Hotel.

The prospect of the Lakefield House being re-opened is a welcome one to all who are interested in the village welfare. This commodious hotel is situated in such close proximity to the railway station that it offers special attractions to the travelling public. Lakefield can and will support two hotels and the opening of the Lakefield House indicates the wave of prosperity which seems to be coming to the village.

Public Library Board.

The annual meeting of the Public Library Board was held on Friday evening, February 18th. Since the last annual meeting the Library has been moved into the new hall, where neat and commodious library and reading rooms have been provided. During the past year $540 has been spent on books. Miss E. Griffin, who for several years has been a faithful and efficient librarian, has resigned and her place has been filled by Miss Lelia Burgess.

A hearty vote of thanks was tendered to Rev. P. L. Jull for his services as chairman of the Board Miss Griffin for her valuable work as librarian. Rev. S. F. Dixon was elected chairman of the Board for the coming year

Miss Logan of Tweed is a guest at the home of her brother, Mr. John Logan.

Mrs. Fred Richardson of Lakefield, spent the past few days with her mother, Mrs. W. Andrews.

Mrs. Jones of Thomasburg, is visiting her mother, Mrs. Fennell.

Arm Burned.

While experimenting in the High school laboratory one day last week, Miss Cora Robb, one of the students, had her arm badly burned.

Mr. Conklin and family are moving to Northport.

Miss Nettie Preston of Selwyn, is a guest of Miss MacLachlan.

Mr. and Mrs. Roy Tumelty are visiting in Toronto.

Rev. and Mrs. Terrill were in Wooller on Sunday attending the funeral of the former's uncle.

Mr. Wm. Rogers was in Peterborough on Monday.

Mrs. Trout of Wiarton, is visiting her daughter, Mrs. N. Puffer.

The Churches.

Rev. G. Graham of Warsaw, conducted the anniversary services in the Presbyterian church on Sunday.

Rev .Cafley of Westwood, preached in the Methodist church on Sunday evening. Mr. Arthur Brethen took the service in the morning, as Rev. Wickware, of Northport, who was to have been present, missed the train on Saturday.

A prayer meeting will be held on Tuesday night at the home of Mr. Matthew Elliott.

The congreagtion of the Presbyterian church have extended a call to Rev. McNaught, of Roseneath.

Mrs. E. C. Square has returned from a visit in Toronto.

Mr. and Mrs. Norton Porter have returned to Norwood from Rocansville, Sask. Mr. Porter has entered into partnership with Mr. Dinner in the grocery business.

Mr. Andrew Frost, of Peterborough, was in town on Friday.

Mr. Fife of Otonabee, was in town on Tuesday.

Eye Injured.

Master Roger McMillan, son of Mr. and Mrs. Robert McMillan, met with a serious accident last week, when a prong of a pitchfork ran into his forehead above the eye.

He was taken to the hospital in Peterborough for treatment.

On Saturday evening he was brought home, but at present it is not knowfi whether or not his eyesight will be injured.

A very enjoyable evening was spent on Friday at the pie social given in the Presbyterian church dnder the auspices of the W.M.S. and Y.W.A.

Games were indulged in for some time, after which there was an apple contest, which caused a great deal of merriment. This was followed by an impromptu programme.

Sandwiches and pies were then in order, and were, strange to say, greatly enjoyed by all. The proceeds amounted to $27.00.

WAIT TILL HARDING ASSUMES OFFICE.

Britain Silent as to Move for Naval Holiday, Bonar Law Says.

LONDON, Feb. 22.—(Associated Press Despatch.)— Andrew Bonar Law, the Government spokesman, questioned in the House of Commons to-day as to whether Great Britain would approach Japan and the United States for the purpose of conferring on naval construction, replied that until the new United States Government had taken office it would not be desirable to express an opinion or suggestion.

Another query was raised as to whether the Cabinet had decided on any policy concerning the building of capital ships, in view of the Japanese and American programs.

Mr. Bonar Law, replying, said the matter still was under consideration by the Committee on Imperial Defence, and no decision had yet been reached.

HIS LORDSHIP IMPRESSED

Lord Desborough said that his visit to Canada impressed three things upon him; the resources and possibilities of Canada, the waterways, which would make Canada the greatest manufacuring country in the world, and the willingness of Canadians to make or listen to long speeches.

TRENT RIVER

TRENT RIVER, Feb. 23. — A number of residents drove up to Havelock on Tuesday evening, to the home of Mrs. D. Greenley, and were entertained to a tea and progressive five hundred and music.

$20,000 WORTH WHISKEY IN CAR LABELLED APPLES

BRIDGEBURGH, Feb. 23.—Railway oficials have been conducting an investigation into the movements of the mysterious car of "apples" which was at this frontier terminal recently, but instead of containing barrelled apples really contained whiskey. The car was in the Bridgeburg terminal, then at the Black Rock terminal across the river, and was brought back here again, being despatched to Chicago. At Detroit it was placed under seizure.

Investigation has brought to light the fact that there was no knowledge of employees here of the contents of the car. The railway officials at Black Rock also disclaim any knowledge of the contents.

The United States Customs has also been ocnducting an investigation. The car it is said contained about $20,000 worth of American whiskey which had been imported by a Quebec firm some time ago.

Brown Your Hair With "Brownatone"

Give the Natural Beauty of Your Face a Chance.

SEND FOR TRIAL PACKAGE.

Every woman knows that a pretty face loses its beauty when framed by faded, gray, streaked or bleached hair. Even wrinkles and blemishes are not so disfiguring as streaked or faded hair. It is unfair to your children and husband, and most of all to yourself, to look older than you really are.

"Brownatone Is My Best Friend."

"Brownatone" will tint your streaked, faded or bleached hair to any shade of rich, soft brown, or glossy black if preferred, and take ten years off your looks.

"Brownatone" cannot be detected, will not rub or wash off, is odorless, and greaseless.

Absolutely Harmless.

This safe and harmless preparation is used and endorsed by thousands of women in business and in society.

Apply it yourself with comb or brush. The results will delight you. Guaranteed safe and free from lead, sulphur, silver, mercury, zinc, aniline, or coal tar products. Used for switches same as for growing hair. Two sizes, 50c and $1.50.

Brownatone is sold and recommended in Peterborough by Bond's Drug Store, and other leading dealers.

HAVELOCK

HAVELOCK, Feb. 23. — Mrs. J. B. Brynes is in Toronto, visiting her daughter, Mrs. Quinn.

Mr. Stuart Brinkman of Jackson City, Mich., is at home on a month's holiday.

Miss Evelin Heart of Madoc, was the over-Sunday guest of her sister, Miss Lilhan Heart. Both ladies spent Monday in Toronto.

Mr. and Mrs. C. A. Ghent spent Tuesday in Toronto.

Mrs. M. Leslie spent a week at her home in Perth.

Mr. Isaac Barlow spent a week in Toronto with his sons, William and Jack.

Mr. and Mrs. Bruce Puffer and son, Jackie, Mrs. J. Puffer, Miss Nellie Corneil, and Mr. H. Snider, all motored to the Cordova Mines on Tuesday.

Mr. J. M. Sexsmith, M. P., accompanied by Mrs. Sexsmith, visited Ottawa for the opening of Parliament.

Mrs. George Broadworth and children of Roseneath, have returned home after spending a month's holidays with her sister, Mrs. Martin.

Mr. William Leis, who has spent the past five years near Oryen, Alta., is home on an extended holiday and is busy renewing old acquaintances.

Mr. and Mrs. John Anderson are spending a few days in Peterboro, the guests of Mrs. John Londerville.

Mr. and Mrs. E. Williams have been in Toronto this week attending the sick bed of their son, Master Milton, who has been dangerously ill.

Wedding Bells.

On Tuesday, February 22nd, the home of Mr. and Mrs. Stuart of Wallbridge, was the scene of a pretty wedding, when their only daughter Gladys, became the bride of Mr. Stanley W. Coon, of the G.T.R. service, Kingston, and the youngest son of Mr. and Mrs. Thomas Coon, of Trenton, and formerly of Havelock. Mr and Mrs. Coon will reside in Kingston.

Real Estate.

Mr. William Copp has purchased the residence belonging to Mr. Carman Holcombe on Park street, for $1,000.

Honoured their Regent.

The I.O.D.E. having been inaugurated by Mrs. Clark Murray of Montreal, in February, 1900, the coming of age of the order was celebrated by the local Chapter on Tuesday afternoon, at the cosy home of the Regent, Mrs. William Vance. About 43 members were present and spent a happy social time. They also presented their Regent with a life membership in the order. Mrs. Vance has been Regent for four years.

You Never Forget Pyramid

The Relief Makes You a Firm Friend for All Time and You Pass the Good Word Along

Ask anyone who has ever used Pyramid Pile Suppositories what it means to get relief from itching,

"THE GROCETERIA"

THREE STORES—

429 George - Cor. Rubidge & Sherbrooke - Old Market Arcade

Voice Of The People

Editor, Examiner:

Dear Sir,—In a statement appearing on your front page of yesterday's issue, the management of the Grand Opera House complains that the Ministerial Association has given an impression that the Grand Opera House was to receive 'financial gain' through the proposed Sunday evening concerts.

The Examiner reported me as saying: "The advertisements Mr. Rollins said had indicated that all the proceeds from the concerts were to go to charity. Unless the arrangements had been materially changed in the last few days this gave a false impression. A named percentage of the proceeds were to go to the Opera House and the balance to the Machine Gun Band, who are expected to give their share to the unemployed." This would be absolutely correct were the words "some portion of" inserted before "their share" in the last clause making it read: "A named percentage of the proceeds were to go to the Grand Opera House and the balance to the Machine Gun Band, who are expected to give some portion of their share to the unemployed."

Major Miller, a gentleman for whom I have the highest respect, and one with a fine record in the war, told me when I called upon him to discuss this matter on February 15, that the Opera House people wanted a nominal fee of $10. On the evening of the 16th Major Miller told me that he had been in conference with Mr. Phillips that day, and that Mr. Phillips now wanted 20 per cent., if not 25 per cent., of the proceeds, the balance to go to the band, but that the Band must give some portion of their share to the unemployed.

Mr. Phillips, in the statement in the Examiner, avoids my phrase, "a named percentage," and complains that an impression has been given that the Grand Opera House was to receive "financial gain." I am quite of opinion that if I had to beat Saint Andrew's Church for meetings six nights in the week and receive 20 per cent., if not 25 per cent., of the proceeds of a successful concert given on the one night the building was not required for regular purposes, there would be considerable financial gain.

I am surprised at the statement attributed to Mr. Phillips on the last page of yesterday's Examiner that "it was only on the request of the Machine Gun Band that he had consented to give the theatre on Sunday evenings," because when a deputation from the Ministerial Association waited upon Mr. Phillips on Feb. 15th, the very clear impression given us was that the Grand Opera House was putting on these concerts themselves in response to a popular demand estimated at 80 per cent. of the population of Peterborough, since increased to 10 to 1. "All" the bands of the city had been there offering their services. This statement about the bands thrusting their services upon the Opera House, on being checked, proved decidedly unreliable. If the 10 to 1 estimate is no more accurate it would require to be changed before recognition. If the Grand Opera House has not been the leader in this matter, the three local items appearing in the press scarcely did the management justice.

I feel very strongly that great financial interests like the Trans-Canada Theatres, Limited, engaged in entertainment as a business, should, like other business interests, rest from their labours on the Lord's Day, and, like self-respecting business men, put their hands in their own pockets when they want to make gifts to charity or when they want to help bands to buy instruments.

I am convinced that along that way lies the path to "the goodwill and patronage of the public of the City of Peterborough." Mr. Phillips gives a list of places where Sunday evening concerts were held last Sunday night—14 cities—and adds: "In every case the concerts were held in the theatres of the different cities named." There is much food for thought in that statement. Church people have to their credit a wonderful record for generosity and philanthropy. The fact that not one of these concerts was held in a church, coupled with the undisputed generosity of church people, shows that the churches of these cities are as united in their opposition to this movement as are the churches in Peterborough. This should give us pause.—Yours truly,

James Rollins.

To the Editor of the Examiner

Dear Sir, -- I would very much like to know, if the Ministerial Association are running this city and also our City Council? or have the people any voice in the matter of Sunday concerts. I with a great number of citizens, have been looking forward with keen interest, to a series of Sunday Concerts such as are held in other cities. But, as usual, when it is anything for the people's pleasure, the Ministers of the city begin to make a fuss. It was just the same with the Sunday street car service, and if this matter was put to vote, as in case of the car service, the City Council would soon find out what the ratepayers wanted instead of letting the Ministerial Association talk them over. One has only to go into the factories among the working people to see how the land lies. The Ministerial Association are very anxious not to have their motive misunderstood. They are understood only too well. They know they can't reach the people and can't get the people to their churches, apart from their own members. And they know that a band concert would bring a crowded house hence the Dog in the Manger attitude. They offer the people a concert in one of their churches and all kinds of help for charities and the unemployed, which they never would have thought of, if Mr. Phillips had not so kindly offered the use of the Grand Opera House. Judging by the crowds that attended the Sunday concerts in the Park last summer—when to suit the ministers convenience half the churches had one service during the Sunday there is no doubt of the people wanting and enjoying Sunday concerts. The City Officials don't seem to appreciate a good band, but the people do. Even the city the size of Cobourg can have and support a band, but I see that the people of Peterboro are not even to have concerts in the Park, during the summer (that should please the Ministerial Association) and must not enjoy them during the winter months because the Ministerial Association does not approve. There are hundreds of people in this city, who do not attend the Churches after this exhibition of prejudice and narrow mindedness. I don't wonder at it. Do the ministers suppose it would be any more harmful for the young people to attend these concerts on Sunday night, than to walk the streets or stand around the street corners, yet the churches do nothing to prevent this. It is to be hoped the Band will go ahead and give us some music, there are hundreds of people, who will appreciate it an be grateful for the opportunity of attending the proposed Sunday concerts.

Thanking you, Mr. Editor for your space

Yours truly,

J. F. CLARKE.

"DANDERINE"

Girls! Save Your Hair! Make It Abundant!

Immediately after a "Danderine" massage, your hair takes on new life lustre and wondrous beauty, appearing twice as heavy and plentiful, because each hair seems to fluff and thicken. Don't let your hair stay lifeless, colorless, plain or scraggly. You, too, want lots of long, strong beautiful hair.

A 35-cent bottle of delightful "Danderine" freshen your scalp, checks dandruff and falling hair. This stimulating "beauty-tonc" gives to thin, dull, fading hair that youthful brightness and abundant thickness—All druggists!

PHYSICIANS AGREE ON REMEDY FOR COLDS

TREATMENT NOW OFFERED IN CAPSULE FORM FOR HOME USE

Physicians are generally agreed as to the treatment for colds or grippe. The ends sought are the allaying of the feverish condition, the relief of the muscular soreness and the keeping of the system open to carry off the systemic poisons generated by the cold.

In Grip-Fix, which can be obtained at any drug store will be found in capsule form just these ingredients, viz: Aspirin, Phenacetine, Quinine, Salol, Caffein, Citrate, Cascara and Camphor Monobromate. The distributors have printed the full formula on each box and any person can submit the remedy to their family physician, if desired.

Grip-Fix acts with remarkable promptness. Even a bad cold is relieved in a night while it is but rarely that grippe is not conquered in 36 hours. Get a box to-day and have it in the house for emergencies.

On sale at all druggists, 35 cents per box.

SURPRISE VISIT BY BIBLE CLASS

SOCIAL EVENING AT HOME OF MR. WM. STEVENS.

A very enjoyable social evening was spent at the home of Mr. and Mrs. Wm. Stevens, 306 Brock Street, on Monday evening last, when the members of St. Andrew's Ladies' Bible Class paid them a surprise visit on the eve of their wedding anniversary. A presentation was made and an address was read. Mr. Stevens on behalf of Mrs. Stevens and himself thanked the Class for their congratulations and good wishes, after which a programme of games and several readings by Miss Hyslop, of Orillia, were thoroughly enjoyed. Dainty refreshments were served. After wishing Mr. and Mrs. Stevens many happy returns of the day, all departed for their homes.

REMOVING THE TEMPORARY BRIDGE

The removal of the scaffolding of the main arch of the Ashburnham Bridge having been completed, the contractors have assailed the temporary bridge, and in a few days that worthy span will be eradicated, except for the piles, which until spring will remain silent sentinels of the past.

A gang of men are busy ripping and tearing up the wooden structure, and it is with sad eyes that many residents of Ashburnham witness this devastating process. Many have learned to love the bridge, and many have not. It had a brief but useful life, and now it must go.

Doubtless many people will now raise a protest against its removal on the grounds that it is "out of their way" to use the new bridge.

THIS WILL INTEREST STOMACH SUFFERERS

Says Indigestion comes from an Excess of Hydrochloric acid.

A well-known authority states that stomach trouble and indigestion are nearly always due to acidity—acid stomach—and not, as most folks believe, from a lack of digestive juices. He states that an exces of hydrochloric acid in the stomach retards digestion and starts food fermentation, then our meals sour like garbage in a can, forming acid fluids and gases which inflate the stomach like a toy balloon We then get that heavy, lumpy feeling in the chest, we eructate sour food, belch gas, or have heartburn, flatulence, waterbrash, or nausea.

He tells us to lay aside all digestive aids and instead, get from any pharmacy four ounces of Jad Salts and take a tablespoonful in a glass of water before breakfast while it is effervescing, and furthermore, to continue this for one week. While relief follows the first dose, it is important it neutralize he acidity, remove the gas-making mass, start the liver, stimulate the kidneys and thus promote a free flow of pure digestive juices.

Jad Salts is inexpensive and is made from the acid of grapes and lemon juice, combined with litha and sodum phosphate. This harmless salts is used by thouand of people for stomach trouble with excellent results.

COLUMBIA MAY GO DRY SHORTLY.

VALPARAISO, Feb. 24.—(Canadian Press).—The Colombian Congress has approved amendments to the Federal constitution which provide for "restrictions on the production and consumption of liquors and fermented beverages," according to advices received here from Bogota. These matters, heretofore, were in the hands of the various State Governments.

NEARLY CRAZY WITH ECZEMA

No rest day or night for those who are afflicted with that terrible skin disease, eczema, or as it is often called, salt rheum.

With its unbearable burning, itching and torturing, relief is gladly welcomed.

There is no remedy like Burdock Blood Bitters for giving relief to such sufferers: no remedy that has done, or can do more for those who are almost driven to distraction with the terrible torture.

Apply it externally and it takes out the stinging, itching and burning, and proomtes a healthy healing.

Take it internally and it gets at the source of the disease in the blood,—for eczema is a blood disease—and drives it out of the system.

Miss L. M. Boutilier, 89 Victoria Road, Halifax, N.S., writes:—"I have suffered for years from eczema. I could not rest day or night. I suffered great agony, and was nearly crazy with the itching and burning. I used all kinds of salves, but nothing seemed to help me. I saw Burdlock Blood Bitters advertised, and was advised to try a bottle. I found great relief, and I really cannot recommend it highly enough for what it has done for me."

Burdock Blood Bitters has been on the market for over forty years, and during that time has been manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

OMEMEE NEWS

OMEMEE, Feb. 22.—Rev. W. H. Smyth, of Toronto, visited friends in town last week.

Mr. and Mrs. T. E. MacPherson motored to Peterborough last week.

Mr. Harry Stinson, of Toronto, is visiting his parents, Mr. and Mrs. Robert Stinson.

Miss Maude Laidley, of Lindsay, visited her parents, Mr. and Mrs. A. Laidley, on Saturday.

Mr. and Mrs. Cecil Corneil were visitors to Peterborough on Saturday.

Mrs. Kelly has gone on a well-earned vacation to visit her brother in Belleville.

Dr. G. N. and Mrs. Earl, accompanied by Mr. and Mrs. E. Mitchell, motored to Peterborough on Saturday.

Mr. and Mrs. Henry Nugent have returned home after a pleasant visit with their sons, Messrs. F. C. and P. S. Nugent, of Lindsay.

Miss Vivian Parsons entertained the members of the Methodist Choir at her home on Friday evening, and a most enjoyable time was spent by all.

Mrs. H. B. Harrington and daughter, Miss Lucille, were visitors to Peterborough on Tuesday.

Mr. G. T. Wilson, of Kingston, is visiting his parents, Mr. and Mrs. Matthew Wilson, in town.

Mrs. R. J. Mulligan was in Lindsay on Saturday, attending the Portsmith-Adams nuptials.

Mr. Samuel Faulkner has purchased the house owned by Mr. Robert McQuade, near the Tannery.

Mrs. Bert Fee, of Peterborough, was the guest of Mr. and Mrs. Isaac Fee, over Sunday.

Miss Marguerite Fee entertained a number of young people at her home on Tuesday evening.

The many friends of Mr. Joseph Sanderson will be pleased to hear he is improving favourably, after his severe illness, being now able to sit up a couple of hours each day.

Mr. Sanley Sluggett has been engaged as travelling salesman for the Cockshutt Plow Co.

Mrs. B. Courtney was a visitor to Peterborough on Monday.

Mrs. J. Henderson returned last week to her home at Cobourg, after visiting her sister, Mrs. B. Sanderson.

Miss Ruby Feir, of Fenelon Falls, spent Saturday with her sister, Mrs. Robert Johnston.

Mrs. W. G. Stephenson was in Peterborough on business last week.

Mrs. Cecil Goodfellow, of Peterborough, is visiting her parents, Mr. and Mrs. John Sandy.

Mr. Milton E. Nugent, of Larrimore, N. Dakota, spent a couple of days this week with his parents, Mr. and Mrs. Henry Nugent, on his way to attend a convention of the National Educational Association at Atlantic City.

Successful Sale.

The auction sale of farm stock and implements owned by Mr. Percy Race took place on Tuesday afternoon, and was largely attended. Mr. J. H. Wilson, of Port Hope, was the able auctioneer and received highest prices for almost everything.

Married in Lindsay.

A wedding of much interest to Omemee friends took place in Lindsay on Saturday, when Miss Amy Adams became the bride of Mr. Harry Portsmith, of Islay, Alberta. Miss Adams was well-known in and around town, having resided here with her parents for many years, and attended High School.

WARSAW NEWS

WARSAW, Feb. 23.—Mrs. Robert Lennox, Lakefield, is visiting Mrs. Mark Edwards.

Miss Freena Cooper arrived home last Thursday after spending a couple of weeks with friends in Lakefield and Peterborough.

Mr. and Mrs. Archie Hawthorne and child arrived in the village last Friday evening. They will make their home here, and Mr. Hawthorne will take over the store, at present occupied by Mr. Charles Calder, about March first.

Mr. R. N. Kidd, Toronto, spent the week-end with Mr. and Mrs. Jas. Hawthorne.

Rev. Girard Graham conducted anniversary services in Norwood on Sunday. Rev. Jones, of Knox College, Toronto, took the services in Warsaw and Cotessloe.

Miss Josie MacIlvena is home from Toronto for a short time.

Lecture on League.

It is expected that Mr. Colville will give his much-postponed lecture on the "Work of the Navy League" on Monday evening next. Some people seem to think this is a sort of recruiting gathering. Not at all, its object is more to place the needs of the sailors and their families and the work they do before the people, as few realize how dependent we are on the navy, marine, fishermen, etc.

Young People's Concert.

On Friday evening the young people gave a well-rendered entertainment in the Town Hall. Mr. Arthur Morgan was chairman. The stage was arranged very tastefully, the work having been done by Misses Josie and Elsie McIlvena, Messrs. Allan Hendren, Verne, and Clifford Selkirk.

The programme consisted of a selection by the orchestra (Dr. Munro, Messrs. A. F. and H. G. E. Choate, and Miss Elsie Cooper); duet, "Hiawatha's Melody," Mr. Stephen and Miss Olga Miller; dialogue, "The Student," Misses Valleau, Vera Taylor, Cressa Crowe, Myrtle Tighe, Messrs. Fred Crowe, Harry Morgan and Allan Taylor; recitation, "More Truth Than Poetry," Mr. Fred. Crowe; dialogue, "Looking Around for a Wife," Misses Elsie MacIlvena, Helen Morgan and Jennie Barrie and Mr. Melville Miller; selection by Orchestra; song, "Old-Fashioned Mother of Mine," Mr. Henry Batten; recitation, "Soldier of Fortune," Mr. Verne Selkirk; instrumental, Dr. Munro and Mr. Stephen Miller; duet "Dear Little Girlie," Misses Vera Taylor and Freena Cooper; selection by Orchestra; recitation, "Hawkey's Dream," Mr. Wallace Anderson; solo, "Garden of Your Heart," Mr. Henry Batten; dialogue, "Silent Protector," Misses Elsie MacIlvena and Helen Morgan, Messrs. Ralph Selby, Clifford Selkirk and Harry Morgan. God Save the King.

WHEN RHEUMATISM HITS YOU HARD!

Sloan's Liniment should be kept handy for aches and pains.

WHY wait for a severe pain, an ache, a rheumatic twinge following exposure, a sore muscle, sciatica, or lumbago to make you quit work, when you should have Sloan's Liniment handy to help curb it and keep you active, and fit, and on the job?

Without rubbing, for it penetrates apply a bit to-day to the afflicted part. Note the gratifying, clean, prompt relief that follows. Sloan's Liniment couldn't keep its many thousands of friends the world over if it didn't make good. That's worth remembering. All druggists—three sizes—the largest is the most economical, 35c., 70c., $1.40. Made in Canada.

Sloan's Liniment *Keep it handy*

HASTINGS NEWS

HASTINGS, Feb. 23. — The local hockey team went to Keene during the week but were defeated in a score of 7-3.

Rev. Mr. Seymour of Havelock, conducted the services in the Methodist Church on Sunday morning and evening, and preached two excellent sermons.

Mrs. (Dr.) Seymour spent Sunday with Mrs. (Rev.) Hinton.

Rev. M. L. Hinton was in Havelock on Sunday taking the missionary services for the pastor there.

Mr. and Mrs. J. Oakley of Norwood, spent the week end with Mr. and Mrs. S. Rusaw.

Miss Gertie Huycke of Peterboro, has been the guest of Mr. and Mrs. L. T. Huycke.

A Presentation.

The friends and neighbors of Mr. and Mrs. H. Morrow met at their home recently and presented them with a couch, and the following address:

Mr. and Mrs. Morrow and family:

Having learned of your intention of shortly leaving our neighborhood, and taking up your abode in another locality. We your friends and neighbors have gathered together to-night for the purpose of spending one more pleasant evening in your hospitable home, where most of us have spent many happy evenings in past years.

We regret to lose you from our midst. During the years you have lived amongst us we have learned to know you as the kindest of friends, the best of neighbors and your home as the most pleasant of places to spend a few hours at any time.

As a token of remembrance we would ask you to accept this couch with best wishes and kind regards from us all and with the hope that you may be spared for many years to make use of it. And in the long evenings of the future may you keep a place in your memory for your old friends who are now bidding your farewell, knowing that you will meet with new friends and new neighbors, who will soon learn to think as highly of you as we do.

May you have success, happiness, and long life in your new home, and may the blessings of the Most High overshadow your home and your lives continually.

Signed on behalf of your friends.

Ed. FLEMING,
GEO. PICKENS.

Visitors to the Village.

Mr. and Mrs. McColl of Wooler, visited during the week at the home of Dr. J. H. and Mrs. Hess.

Miss Kennealey is the guest of Mr. and Mrs. A. Spellman.

Mrs. George Dickie of Belleville, has been visiting her parents, Mr. and Mrs. T. Hill.

Miss Moise of Millbrook, spent the week end with her sister, Mrs. W. Hawkins.

Mrs. Foster of Belleville, spent Saturday and Sunday with Mr. and Mrs. E. C. Prentice.

Mr. and Mrs. Morley Hess of Wooler, visited the former's brother, Dr. Hess, last week.

Miss Ella Tate of Peterboro, spent the week end with her brother, Mr. Ernest Tate, town.

Mr. James Buck of Norwood, was in town on Monday.

Mr. Eric Fowlds spent a few days here with his parents, prior to his departure from Mexico.

Mrs. A. Thistlewaite of Swift Current, is visiting friends in town.

Mr. J. Lynch of Regina is visiting his mother, Mrs. B. Lynch after an absence of 24 years.

The annual social of the Presbyterian Sunday School was held on Monday evening, and was as usual a grand success. Supper was served from 6 to 8 after which a splendid programme was given.

Mrs. James Buck of Norwood, is visiting friends here.

He was Bald

Mr. J. H. Brittain had a large bald spot on his head and thought he must always remain bald. But he used Kotalko and grew a luxuriant crop of healthy hair. Legions of other amazing cases. Get a box of Kotalko at the druggists'. Or send 10 cents, silver or stamps, for proof box of Kotalko, to Kotal Company, Limited, 366-M. Adelaide St. W., Toronto.

MAY MAKE PRISON A BUSINESS COLLEGE

LONDON, Feb. 24.—Men incarcerated in Wandsworth prison may be given a business education as a result of the interest aroused there recently by a lecture on the "Romance of Business." Many of the prisoners asked for further talks on business, and a number of them on invitation from the presiding chaplain, questioned the lecturer, asking whether practical instruction could not be given that would make them useful in business offices after they were released.

Those who attended were, for the most part, first offenders, who had records for good behaviour, and all were anxious to find new openings in life when their sentences expired. It is understood the prisoners may be taught shorthand, typwriting, elements of banking and commercial correspondence.

Military official document weighing 2000 tons are stored in a special building at Islesworth, England.

JAMS

Our Whole Distinctive Stock of High-Grade Boots

Every Pair of Boots — None in Reserve

FOR WOMEN — IN A

Great Two-Day Sale

FRIDAY AND SATURDAY

Positively for Two Days Only— Friday and Saturday

Hundreds of Pairs at From 30% to 45% Less

Women's Boots at $7.50

The Regular Price Was $12—All Sizes

One model is of black kid, with high Louis heel, plain toe, medium vamp and a nine-inch top. It is an extra good value even at $12.

The other model has a black patent vamp and a mat-calf top and hidden eyelets. It is a very dressy, smart appearing model.

Women's Boots at $6.95

Regularly $11, $12 and $13—All Sizes

There are two styles in the regular $13 models. One has a black kid vamp and a washable kid top in battleship grey color. The heels are medium. The other has a black calfskin vamp, grey suede top and medium walking heel.

A regular $12 one is of brown calfskin, has a high shaped heel, a medium length vamp and imitation brogue perforations on the toe. The same can be had in black calfskin.

Our regular $11 model is of black calfskin, has a medium walking heel and a nice length vamp. It is a good smart style. The same can be had in black kid.

Women's Boots at $5.95

Regular $8.50 Values—All Sizes

You can have either black kid or brown calfskin. They have a medium walking heel and are made on smart shapely lines. The soles are solid leather.

Are There Any Who Need Furniture and Who Have Not Heard of Our

FEBRUARY SALE OF FURNITURE!

Three Days More— FRIDAY SATURDAY AND MONDAY

Here is a sale that gives the women of this city and county an opportunity to buy the best looking, best fitting, best wearing boots in all Peterboro, at prices that are from 30% to 45% less than regular.

The time could not be more opportune—just when the winter boots are commencing to wear thin, and damp, disagreeable days are near.

Why not put away the worn shoes for safer days, and put on strong, protective, good looking boots for the rest of the winter and spring—

While You Can Buy the Best Boots in Our Store at Prices Away Less

There is not an old unsightly looking model in the whole assortment of hundreds of pairs.

There is not a pair that does not belong to our regular stock—not bargain shoes bought up specially.

We Offer the Stock Just As It Is—Except That the Prices Are 30% to 45% Less

We do not wish to mislead anyone. This sale does not include our pumps and Oxfords or low shoes of any description.

—It Is Our Splendid Assortment of Boots That We Offer

All Our Regular $14, $14.50, $15, $16 and $16.50 Models $10.95

You Have Choice of Black Kid or Calfskin
All Have Good-Year Welted Soles
Widths AA to D

OBTAINABLE IN ALL SIZES

Those that are regularly $16.50 are of a high-grade calfskin in cocoa brown shade. They have a 1½-inch military heel, reced toe, and a nine-inch top. A fine quality boot in a smart last.

The same can be had in black kid. The regular price was $16.

The regular $15 ones are of brown calfskin, with a medium walking heel, narrow recede toe and are patterned with perforations. A smarter spring model would be hard to find. You can also have a black model of fine kid that is just one weight heavier than kid gloves. It has a Louis heel, recede toe, extra light, welted sole. A very dressy and comfortable boot.

The regular $14.50 models come in a dark brown shade of calfskin and have a high leather Louis heel, a nine-inch top and recede toe. You can also have black kid with a medium walking heel, round toe and medium length vamp. These combine much comfort and style.

Those regularly selling at $14 are of brown calfskin, with a flat heel and wide toe. A splendid boot for those who wish for comfort and a conservative style. There is also a black kid model with a Cuban heel, medium length vamp with good width across the ball of the foot and a neat fitting instep and ankle.

PRESIDENT MRS. HARSTONE REPORTS ON WORK LOCAL COUNCIL OF WOMEN

At the request of the members of the Local Council of Women, this address is printed, to show what has been accomplished by them during the past year, and to set forth the aims and ideals of the National Council of Women. The following is the report read by Mrs. Robt. Harstone, President of the local organization, on the occasion of its annual meeting on Thursday, Feb. 17th, 1921:

"It is my privilege to again welcome you in annual convention, the present occasion being the eighth annual meeting since our Council was organized, and the third at which I have had the honor of presiding. The work of the Council covers such a wide field of endeavour that in looking back over the work of the year, it seemed to me that we had merely touched the fringe of what perhaps we should have done. And I was somewhat puzzled to know what should be the subject of my mesage to-day, as the various activities of the year will be fully dealt with in the reports of the corresponding secretary and the various commitees.

Lest We Forget.

"However, "lest we forget," I thought it might be of interest to review with you some of the specially outstanding items to the credit of the Council, since its organization, also a brief sketch of the work and aims of the National Council.

"This Council was organized on Feb. 23rd, 1913, and, judging from the first annual report, was a very live association. The Public Health committee waited upon the School Board and secured the appointment of a school nurse; a campaign against unsanitary conditions in the city was undertaken. Mr. Spence, the Sanitary Inspector, addressed the Council on existing conditions in the city, and the best method of improving them. This committee also brought Dr. Strothers, of Toronto, to discuss in public meeting "Medical Inspection of Schools." This work is now being done.

Moral Reform.

"The Social and Moral Reform committee formed the original "Mothers' Clubs," now called "Home and School Associations," and secured the co-operation of the School Board in carrying out this scheme, who placed rooms in the various schools at the disposal of the committee for meetings of the Club.

"Public attention was drawn to the existence of evils affecting the moral atmosphere of our city. In beginning work, the motto of the Council apparently was, "Let this be a clean city in every respect."

"The Supervised Playgrounds idea was sponsored by Mrs. Mowat, convenor of the Playgrounds committee, until it attracted public attention. It is now under the supervision of the Playgrounds Association, and we hope has become a permanent institution in our city. The public swimming places in the city are also the result of the efforts of the committee.

Lyceum Course.

"Two years ago, we undertook the Lyceum Course as an educational effort, giving the citizens the privilege of hearing lectures delivered by the ex-President of the United States, the Hon. Wm. Taft, and John Kendrick Bangs, of Boston.

Babies' Health.

The latest but not the least of our achivements, of which we are justly proud, is the formation of a Well Babies' Clinic in our city, the aim being better health and greater happiness for the children of the city. It has been stated that the care of the child is the care of the State, the measure of our civilization being the care of our children, and that the health of the people is the greatest asset of any nation. Where can care and prevention better begin than at the beginning of life? I am sure every citizen must realize the importance of this work, and give it not only sympathetic but practical support. Let us now glimpse into the past of the National Council of Women, organized 27 years ago, bringing together the thinking women of Canada for greater unity of thought and concerted action, in prosecuting any work of common interest and for the furtherance of the Golden Rule. This would prove ideal if we lived up to our privileegs.

"Let us consider certain reforms for which the members of the Council have labored, petitioning Governments year after year. A few requests have been granted, but many of these pioneers, undismayed and courageous, are still asking the Government for necessary changes in the laws affecting the welfare of women and children. The first anual programme was remarkably modern, the folowing problems being discussed: Co-operation between parents and teachers, the idea of the Mothers' Clubs; International Arbitration; Manual and Technical Training Schools; Child Welfare and Domestic Service.

Criminal Code Amendments.

"In 1896, the Council petitioned the Government to raise the age of consent to 18 years, and is still askig for it. This and other amendments to the Criminal Code have been rejected by the Senate, but will be presented again this year, firmly believing in the Equal Moral Standard and the supreme value of human life over property. They also discussed at this time: Infantile Mortality, Police Matrons, Women Factory Inspectors, Shorter Working Hours for women and children, organized the Victorian Order of Nurses on behalf of women in isolated districts, tried to have the insane and imbecile poor removed from jails, promoted dental care in the schools, asked for custodial care of the feeble-minded, and, the report says, have gone on begging ever since, while the number has grown and rolled up, until these poor misfits with their concommitant, venereal diseases, threaten our very national life. However, we now have a National Council to combat the latter evil, also a Mental Hygiene Association, and the authorities are considering ways and means for caring for and helping those of weak mentality. About the same time (1896), the first committee on Supervised Playgrounds was formed, and the convenor, Miss Mabel Peters, of St. John, N.B., gave the first public address on this subject ever delivered in Canada.

Mothers' Pensions.

"Two of the important measures were initiated by the Toronto Local Council; 'Mothers' Pensions, which became law in October last, and "The Big Sister Movements" was begun in Toronto in 1913, under the auspices of the Local Council, carried on by them for two years, when it was found necessary to have trained service and the present organization was formed.

"Measures now being asked for are Juvenile Courts in all towns, women judges and women jurors.

"We owe a debt of gratitude to these pioneers, who laid the foundations of woman's work for others to build upon, and because of their faithfulness we enjoy a broader life, but we must also build for those who come after.

Twenty-seven Societies.

"Our Council forms a unit in the National Council and is composed of 27 affiliated societies, representing nearly every phase of woman's activities, and the success of the work depends on the spirit with which we perform it. Co-operation is the driving force of the twentieth century. The standing committees are really the backbone of the Council, being formed for the purpose of studying, gathering information and creating interest in problems relating to the welfare of the country. As citizens, we should be interested in the well-being of the community. As mothers, our first duty and responsibility is undoubtedly in the home, where the foundations of all that is worthy in life must be made and the very lessons taught that must be applied to the community life later on, that of mutual help, interdependence, self-control and progressive co-operation. It is now generally recognized that the mind and heart of woman is first among the great socializing and moral agencies of the world. Let us rise to the great occasion.

Local Councils.

"As there seems to be still a misunderstanding regarding the relations between the Local Council and its affiliated societies, may I briefly explain: The basic elements of the Council idea are uniform voting powers and uniform fee. The first explains why every affiliated society, large or small, in our Council has just four votes, given by the president and three appointed representatives, but every other member is also a member of the Local Council of Women, and is eligible to attend open meetings and take part in the discussions, but may not vote."

WHEN NERVES ARE NEAR EXHAUSTION

A TONIC SHOULD BE TAKEN TO ENRICH THE BLOOD.

When you become so exhausted after a day's work that you cannot sleep, or sleep fails to refresh you, it is time to look after your health. Failure to act at once means a steady drain on your health reserve, which can result in but one thing—a nervous breakdown.

Do not wait for a breakdown. The treatment is simple enough if you do not let your condition become too far advanced. The treatment is one of nutrition of the nerve cells, requiring an effective tonic. As the nerves have to be nourished by the blood, the vital fluid must be built up. Dr. Williams' Pink Pills act directly on the blood, and with proper regulation of the diet have proved of the greatest benefit in nervous troubles.

Mrs. Mary McAdam, Sydney Mines, N. S., is one of the many who has proved this tonic treatment. She says: "Last Winter my health completely gave out. I was all run down and my nervous system in a condition that greatly alarmed me. I often had nervous headaches, and at times severe pains in the region of my heart. I felt as though I would never be well again. My husband got me a supply of Dr. Williams' Pink Pills and before the second box was finished I began to improve, and under a further use of the Pills I felt as well as ever. I would advise all weak and nervous women to give this medicine a trial."

You can get Dr. Williams' Pink Pills through any dealer in medicine, or by mail, post paid, at 50 cents a box or six boxes for $2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

MR. ROWELL IN EDMONTON.

EDMONTON, Feb. 23.—Hon. N. W. Rowell was the speaker yesterday afternoon before a large meeting of the Board of Trade, Kiwanis, and Rotary Clubs. His subject was "Some British Problems, Having Regard Particularly to South Africa."

Mrs. Cockburn's Asthma Remedy

Thousands of people who have used it can testify as to the value of this remedy.

Mrs. Cockburn, 422 Gilmour St. OTTAWA

DO NOT FORGET!

To come in and see the practical demonstration of the Time-Saver Electric Washer while down town doing your shopping on Friday or Saturday. Fifteen minutes of your time spent in Our Economy Basement on these days will convince you that the wonderful labor-saving devices of the Time-Saver Electric Washer are worth your consideration.

There will be two well-trained and capable demonstrators there to explain, each and every detail to you, or if you should wish a demonstration in your own home, just call this department and arrangements will be made to have one. You are placed under no obligation whatever to have such a demonstration.

Just for two days this demonstration will last, only Friday and Saturday, in our Economy Basement. "The Time-Saver is a Money-Saver.

Easy Way to Wash

The Time Saver Electric Washer not only washes the clothes, but wrings them too—cuts out all the drudgery of the old time wash day. You can do a big day's wash with the Time Saver and not feel a bit tired. Saves hard work enough to pay back its cost the first year.

GOOD NEWS

In Friday night's Ad. in the paper you will read some of the best news you have heard of for a long time.

It will give you all the information concerning our Big Purchase of Pure Irish Linen Table Cloths, which we have just received and will be put on sale on Saturday morning. We are quite sure that such a sale will be most welcome news for hundreds of people in Peterborough. It has been a long time since Real Irish Linens have been on sale at half their regular value, but on Saturday you will certainly be surprised at such beautiful quality cloths at such moderate prices.

(See Friday's Ad. for Full Particulars.)

CITY COUNCIL QUESTIONS UTILITIES COMMISSION'S AUTHORITY TO FIX RATE

PROPOSED CHANGE IN SYSTEM OF CHARGING CITY FOR FIRE PROTECTION PROVIDED BY THE WATERWORKS UNDER FIRE AT CONFERENCE—COUNCIL RECOGNIZES ITS DESIRABLE FEATURES, BUT ASKS THAT IT BE PUT INTO EFFECT IN EASY INSTALMENTS.

BUDGET DEBATE CONTINUES

The melancholy days of the municipal year have come for the Council as its members struggle with the 1921 estimates in an anxious and wearisome endeavour to compress the appropriations within a tax rate that will not raise too loud a chorus of protesting howls from the ratepayers. Another consideration back of the aldermanic mind is the desire to keep the rate at a comparatively low figure that will attract instead of turning away prospective new residents and manufacturers.

Last night from seven until eleven o'clock the budget was combed both ways, for the second time this week, with compensating progress, but not sufficient to close the book and pass it on to the tax collecting machinery.

Declarations of determination to lop off without ceremony expenditures which some of the members regard as unnecessary under the unsettled conditions with which the new year opens have been heard for several weeks past, but when the budget is laid out on the quartered oak operating table in the committee room the aldermanic spirit may still be willing, but the flesh is weak. Weighing against the wish to cut off a mill or two is the necessity of maintaining the civic departments up to the regular standard of efficiency. And with this influence curbing their ardour for economy most of the aldermen attack even some of the minor items with a solicitude that was far from their original purpose.

Concentrate on Utilities.

The objective of this year's Council is to hold the rate at 36½ mills if possible, and to accomplish that last night they had to prune the estimates of something like $8,000. They concentrated their attention upon the demand of the Utilities Commission for an increase of approximately $12,000 which has been produced by the Commission's plans to establish on a new basis the city's share of the waterworks department's expenses for fire protection.

Asked for Postponement.

The Council's idea was that this scheme should not be carried into full effect this year because of other heavy demands, including $14,000 for suburban road improvement, $10,000 for Mothers' Allowances, $2,000 for unemployment relief, and increases from the regular civic departments. It was therefore suggested that the Utilities Commission should reduce their estimated increase to $6,000.

A lengthy debate, a sequel to Monday night's, failed to produce the compromise the Council almost pleaded for. Mr. C. E. Sisson and Mr. E. F. Mason, members of the Commission, Mr. Ross Dobbin, superintendent of the waterworks, and Mr. George Henderson, of the office staff, argued their case at length, retired to consider the request of the Council that the Commission assist in delimiting the tax rate, and finally returned with a slight concession, which the Council graciously accepted. Then when the Commission had departed, Ald. Gordon moved that another conference with the Commission be held, and that the Council insist that the Commision's appropriation increase be cut to $6,000.

Question of Authority.

The question arose as to whether the Council could exercise any authority over the Utilities Commission. This point being in doubt, Ald. Gordon withdrew his motion, and substituted for it a resolution, seconded by Ald. Crowe, that City Solicitor Widdifield give an opinion on the question of the Utilities Commission's authority to increase their appropriation for fire protection without the assent of the Council.

Have an Alternative.

Failing to secure a reduction in this direction, there is an alternative of carrying the municipal fuel yard account, amounting to $5,143.62, for another year, and there is the possibility that Mayor McIntyre and Alderman Crowe, appointed to interview the Public Library Board, may persuade that body to cut down their estimates.

Last night's session was therefore adjourned, with nothing conclusive accomplished, but with an alternative that may solve the Council's pressing problem of restricting the tax rate to 36 mills or thereabouts.

Sympathise with Commission.

The Council unanimously voiced their sympathy with the Utilities Commission in their own difficulty. Harmony presided over their conference, and the Council's last ditch effort was proposed in the belief that, although the Commission's new basis of charging the city for fire protection afforded by the waterworks system is warranted, it might be deferred for a year without serious consequence.

Want Sound System.

To recall this particular issue in the budget debate, the Council has been paying, as its share of the cost of the fire protection provided by the waterworks, $35.00 a hydrant, and there are 293 hydrants in the city, apart from those that are private. In December before Mr. Robert Hicks, the chairman, left for Europe, the Commission decided to discard this system of assessing the Council, and to ask them to pay a percentage of the waterworks costs which they considered should be chargeable to the city through the Council

Not Following Others.

Mr. Dobbin said that most of the municipalities adhere to the hydrant rate because "they don't bookkeep enough to tell whether they have a deficit or not. They pay the difference out of the general tax just the way we have done."

To Mayor McIntyre, Mr. Sisson said that the city is now paying $35.00 a hydrant a year plus $1,500 for street watering and general purposes. "The increase means about $70.00 a hydrant as the new charge, but we do not like to speak of hydrant charge. That's what we're trying to get away from. The proposed tax is based on last year's cost."

Ald. Morrison: That's the highest cost you've had.

Mr. Sisson: If the filtration plant is built this year the domestic rates will be increased about 75 per cent.

City Clerk Armstrong figured that the additional amount asked for by the Utilities Commission would raise the hydrant rate to about $85.00, more than double the present rate of $35.00.

Ald. Hamilton: We are trying to figure on a 36½ mill rate this year.

Mayor McIntyre: And the Utilities Commission's increase alone is nearly equivalent to one mill.

Ald. Hamilton: We want this estimate cut down to keep the rate at 36½ mills. The question is, how can it be done?

Mr. Sisson: We propose to spread it over every one.

Fixed Assessments Escape.

Ald. Hay: Except large consumers who have fixed assessments. Come to us in easy stages.

Mr. Sisson: If we cut our estimate in two, we will have to increase the domestic rates at once.

Ald. Hamilton: Won't the operating costs be reduced this year?

Mr. Dobbin: Somewhat.

Mr. Sisson stated that the Commission was jolted out of its easy going way when it was confronted last year with a deficit. "We had been following that path for years. During the last seven years the installation of waterworks extensions was nearly all for fire protection."

Ald. Hamilton: Admit for argument that the Commission's contention is right. We want you to try to readjust this. Split it up.

Mayor McIntyre: If these jolts hadn't come we'd have the rate down around 32 mills.

Would Double Domestic Rate.

Mr. Sisson: If we don't put this charge for fire protection where it belongs, it means we will have to put it on the domestic rates. It would mean probably the doubling of the domestic rate.

Mayor McIntyre: The people will be prepared for it.

Referring to the list of cities charging on the basis of hydrant rates, Mr. Dobbin said that those municipalities have high domestic rates. "The plumbing fixtures in a man's house do not determine his rate for fire protection. The basis should be the value of his property.

Ald. Hay: Grant that, but very valuable properties are under-assessed. They have fixed assessments, and therefore would not bear the full share of the tax as would the ordinary householders whose assessments are not fixed.

To Mr. Dobbin it was stated that the agregate of exempt assessments was about two million dollars.

Mr. Sisson: We wouldn't have had a deficit if you had paid proper water rates for fire protection. We can get the revenue, of course, but it would have to come through the domestic charges, and as has been pointed out, under that system the man with the plumbing fixtures pays for the fire protection of the other man who hasn't them, but who is getting fire protection just the same.

The Commission withdrew to its own office for consultation at this stage, and the Committee of the Whole took up the task of revising the departmental estimates that enter into the budget.

Domestic Rates Next.

It will be understood that the remainder of the revenue for the waterworks is collected from the domestic consumers. These details have already been discussed and reported, and last night they were repeated and debated, the Commission yielding some ground, but standing firmly for the system they have formulated. Mr. Sisson and Mr. Mason stated the position clearly, and Mr. Sisson, acting chairman of the Commission, said he didn't know how he could look Mr. Hicks in the face when he returns, for retreating so far from the original demand. The reason for not acceding to the Council's request to continue the hydrant rate basis of payment was that this would require them to raise the difference in revenue from the domestic users who, next year, will have their rates increased seventy-five per cent. to meet the cost of the filtration plant.

Ald. Morrison: We should have full information as to what everyone is paying.

Ald. Hay: And also a comparative statement of the Commission's operating expenses and maintenance costs say for the last three years. Then we can discuss this intelligently.

Ald. Hamilton: I have no doubt that their contention is right.

Ald. Morrison: But we ought to have the rate increased for everybody.

The Commission's Concession.

When the Commission returned, Mr. Sisson announced that the percentage of the expenses of the waterworks asked of the Council had been reduced to 27 per cent. Originally it was 38.8 per cent., and from that figure it had been previously reduced to 30 per cent.

The Lowest Rate.

"We have allowed ourselves to be worked upon by your representations," Mr. Sisson said. "We appreciate that you have heavy expenditures and that you are anxious to keep down the rate. The amount we are prepared to name now is not based on what we had originally calcualted. We have looked at this as optimistically as we could, and taking reasonable chances on cutting down our expenses we cannot see how we can come through without asking you for less than 27 per cent of the total operating expenses of the waterworks department of last year. We received from the city last year $11,461.44. We asked for an increase of $13,431, and we are reducing that to $11,692. This would bring the cost per hydrant to about $70.00."

Ald. Gordon: What objection is there to cutting the discount of 33 1-3 per cent. on the domestic rate?

Mr. Mason: The domestic rate is fair and reasonable now, and if the filtration plant is built, the extra cost will have to be added to the domestic rate.

Ald. Gordon: The domestic rate in Peterborough has certainly been low, and if there is any body justified in increasing its rates, it is the waterworks department of the Utilities Commission.

Mr. Sisson: Mr. Mason and I are two-thirds of the Commission, and we are in full accord on this. The Commission was unanimous when the change in the system was proposed in December.

Ald. Gordon: Couldn't you continue the hydrant rate for this year and next year we could assume full responsibility?

Mr. Mason: That would throw it all on next year's Council.

Ald. Jones: That is just what the Council has always been doing.

Mr. Mason's Presentment.

Mr. Mason said that from his experience in the Council he could appreciate the difficulties confronting this year's Council. Looking over the minutes of the Commission he had found that the Council had been notified last year that this change was going to be brought into effect. As a member of the Commission he supported the change in the system of the city's paying for fire protection. When everything was adjusted and established on that basis, the affairs would work out more satisfactorily than ever before.

Mr. Mason said he recognised the fault that the people who would not have to pay a fair share of the cost of fire protection were those who had fixed assessments. Agreements had been made by the city, and most of the manufacturers for fixed assessments, and therefore the people had to pay for the privileges they had given the manufacturers.

Fixed Assessments Unfortunate.

"You must admit that this system is a fair and reasonable method of charging for fire protection," he continued. "There are flat rate contracts for water still in existence, but when these expire, and some of them end this year, they will be placed on a meter basis with the others who are now charged in that way. The unfortunate part as I see it, is the advance in the assessment which increases the rate on ordinary householders, but not on the manufacturers who have fixed assessments. In reaching this figure we have given you, we have tried to get down to the very lowest possible. At that we will still go behind unless re cut down on the work for this year, and let some of our help go. We will be about $4,000 behind, even with this 27 per cent. basis of charge

Explaining this latter point, Mr. Mason said that the overdraft last year was some $6,000, and on the proposed basis for this year this debit would be reduced by about $2,500, leaving the Commission still $4,000 behind.

This concluded the interview. After the Commissioners had gone, Ald. Gordon remarked, "If we are stuck by the Utilities Commission's charge, we can carry the coal yard another year."

Comparison of Rates.

On the basis of the original charge of 38 per cent. of the total expenses of the waterworks department the city would have had to pay the rate of $90.81 a hydrant. With a 27 per cent. demand this rate is reduced to approximately $70.00, and the current charge is $35.00.

The following statement shows the hydrant rates paid by other cities in Ontario:

Brantford $50.00, Belleville $30.00, Chatham $40.00, Fort William $50.00, Guelph $40.00, Kitchener $20.00, Lindsay $40.00, London $18.00, Niagara Falls $30.00, Orillia $37.50, Owen Sound $30.00, Port Arthur $40.00, Sault Ste. Marie $50.00, Stratford $40.00 and $30.00, Woodstock $35.00, Waterloo $35.00, Walkerville $30.00, Windsor $40.00, St. Catharines, $20.00.

Toronto 46.6 per cent. of the total maintenance Total amount collected in 1920, $828,33300.

Adopt Toronto Plan.

From the above summary provided by Superintendent Dobbin, it is shown that Peterborough is the only one that has adopted the Toronto system of a fixed charge on the maintenance and operating costs. In 1920 the Water Department of Toronto collected $828,333 from the general tax for fire protection. There are 6,556 hydrants in the Toronto system, each of which costs the city $126.00. This does not include the charge for street watering and other incidentals.

How You Can Make Hairs Quickly Disappear

(Helps to Beauty.)

Even a stubborn growth of hair will quickly vanish from the face, neck or arms after a single treatment with delatone. To remove hair from arms, neck or face, make a stiff paste with a little powdered delatone and water, apply to hairy surface and after about two minutes rub off, wash the skin and it will be left free from hair or blemish. To avoid disappointment, be quite certain you get real delatone and mix fresh.

SWALLOWS BEAN, CHOKES TO DEATH.

KINGSTON, Feb. 24.—The two-year-old son of Mr. and Mrs. Chas. Kuss, Petewawa, choked to death as the result of swallowing a bean, which lodged in his throat. In her excitement the mother ran some distance to the place where her husband was working, for assistance, and on theid return the parents found the child dead.

LANSDOWNE LODGE, S.O.E., REPORT FOR THE YEAR

The meetings of the Lodge during the past few weeks have been exceptionally well attended and the Friday evenings (to which all Englishmen in the city are invited) especially so.

The meetings have not only been well attended, but the interest of the members is shown by the large number of candidates being proposed and new members initiated. The Financial Secretary's report for the year 1920 showed that the net increase in membership and funds during the year was the largest for many years, an additional $300.00 being invested in Victory Loan bonds.

The carpet ball tournament is proving a great drawing card for the Friday evening meetings and the interest in the games is so great that they are often continued long after the majority of the members have retired to rest. The standing of the leading rinks at present is as follows:

Bro. B. Lemmon, skip, played 7, won 6, lost 1.

Bro. C. Wood, skip, played 10, won 5, lost 5.

Bro. F. Rathbone, skip, played 8, won 4, lost 4.

To-morrow night (Friday) the tournament will be continued and other social games enjoyed. To this meeting we cordially invite all the members of the Lodge and any other Englishmen who may be looking for a place to spend a pleasant evening.

Robinson	178	148	202	534
	555	852	794	2201

BRINTON CARPET TOOK 3 FROM THE GROCERS AND BREAD 3 RECORDS.

Last night, at the Water Street Alleys, in the Business Men's Five-Pin League, the Brinton Carpet took three straight from the Grocers. The Carpet bunch were right in form, breaking the League record in the three games with 2969, and single high game of 1,120. Joe Marsden also rolls the high record of 764 in three games; Pete Travers held the previous League record with 741. For the Grocers, Solomon was high with 647. Following are the scores:

Brinton Carpet.

Marsden	281	227	256	764
Bishop	183	149	243	575
Luther	226	158	142	525
Barrette	188	147	188	563
Arrowsmith	243	143	216	602
	1120	824	1045	2989

Grocers.

Ross	151	144	147	442
Routley	145	157	154	456
Boyd	176	133	155	464
Solomon	195	223	229	647
Dummy score	140	140	140	420
	807	797	825	2429

On the boards at the rink for to-night is a game between H. R. Martin and W. G. Morrow for an oyster supper.

CLASSICS DEFEAT TEAM FROM ST. PETER'S.

The Classics easily defeated a team from St. Peter's last night at the Brock Street Rink, by the score of 6 to 0. Micky McDonald, Reg. Shevlin and Reynolds combined well for the Classics, while Mahood and Cone made very formidable subs. Gallagher and McCoy were the best for St. Peter's, but could not get a chance to get away owing to the excellent back-checking of the Classics.

BORDEN HAS A FALL, IS CONFINED TO BED.

OTTAWA, Feb. 24. — (Canadian Press.)—Sir Robert Borden is still confined to his bed suffering from the effects of a heavy fall which he sustained while walking through the Hall of Fame to the Parliamentary Library. It is stated to be unlikely that the former Prime Minister will be able to resume his parliamentary

NO SMOKING IN RINK TO-NIGHT

DE LAVAL AND C.G.E. GET THEIR WISH AND WILL BATTLE ON HARD ICE.

The weatherman has been kind to the City Hockey League by providing good ice for to-night's game between De Laval and C.G.E., and the contest promises to be a hummer. Both teams will be right at home on hard ice. The winner will play Hamilton's early next week for the championship of the League.

The League Executive is going the limit to give the teams every chance to play their best hockey, and police officers will be on hand to enforce the "no smoking" regulation.

Referee Waghorne will start the teams away at 8.30 o'clock.

R. G. STURGEON HAS GIVEN TROPHY TO THE LADY CURLERS

TO BE COMPETED FOR BY RINKS COMPOSED OF TWO LADIES AND TWO GENTLEMEN WITH LADIES SKIPPING.

Robert G. Sturgeon has presented to the Ladies' Curling Club a large silver shield to be competed for annually by rinks each of which shall be composed of two ladies and two gentlemen and skipped by a lady. It is a handsome trophy and should pave the way to a series of matches of exceptional interest. The Ladies' Club has been exceptionally active this winter and the playing of the Tankard here gave the game a filip that should bring out a larger membership than ever next season. With mixed rinks in competition the ladies will have the benefit of the example and advice of the more experienced men and will also have the responsibility of skipping the games. Mr. Sturgeon is one of the first string of the Peterborough curlers and has always been keenly interested in the game.

The R. G. Sturgeon shield is suitably mounted and in the centre shows the raised figure of a curler on the tee about to deliver a stone. This trophy is a handsome one and makes a splendid addition to the prizes that are now in the possession of the Peterborough Curling Club and its big sister the Ladies' Curling Club.

The conditions accompanying the Sturgeon trophy have been prescribed by the donor as follows:

(1) The competition shall be known as the R. G. Sturgeon Trophy.
(2) The rink shall be composed of two ladies and two gentlemen.
(3) The rink shall be skipped by a lady.
(4) All games to consist of ten ends.
(5) All competitions shall be played on Peterborough ice.
(6) The first competition shall be played by Peterborough rinks only.
(7) Outside rinks may compete after the season of 1921.
(8) The winning rink shall hold the trophy for one season only and shall deliver up the same to the Peterborough Ladies' Curling Club when the next competition is to be played.
(9) O.C.A. rules to govern.

LOCAL RINKS OFF TO BOBCAYGEON

Four rinks of Peterboro curlers skiped by Tom Brightman, J. E. A. Fitzgerald, J. C. Reid and W. T. Hall, are playing in Bobcaygeon to-day, the return game in the Fitzgerald-Bottum series. Peterboro won here by five points, but the game in Bobcaygeon is expected to offer a little stiffer opposition to the local players.

MUSIC AND DRAMA

THE WINNIPEG KIDDIES.

The Winnipeg Kiddies, the most wonderful juvenile organization that Peterborough has seen, paid a return visit to the Grand last night, and the youngsters added to the laurels won on their first appearance here. A large audience enjoyed every minute of the clever performance, and to those who saw the company for the first time the work of the juvenile entertainers was a revelation. Every number was well received, with the amusing little thirteen year old Jackie Finesilver carrying off the lion's shares of the honors. This young Canadian is in a class by himself. The Holmes Twins scored heavily in their musical act. Marjorie Guthrie proved a very versatile entertainer, her singing, recitations and piano playing being of a standard of excellence. Edna Patrick, Florence Simpson and Lillian Beck, all sang nicely, as did Sterling Holmes, who was the best of the boy singers. Irene Jones and Vera Montgomery contributed some very clever dancing. The whole performance was a treat, so excellent indeed that it was difficult to realize that no one in the company was more than 14 years of age. The Winnipeg Kiddies are a Canadian attraction of which the people of this country should feel very proud. They will always be welcome to Peterborough.

BASEBALL STAR A HERO, SAVES FIVE CHILDREN.

"Dode" Paskert of the Reds Carries Children From Burning Building.

CLEVELAND, Feb. 24.—Heroic efforts of George "Dode" Paskert, outfielder of the Cincinnati National League team, saved the lives of five small children and helped save the lives of ten other persons, when fire broke out in the Union Clothing Company store on Lorain avenue and swept through the second floor where three families were sleeping.

Paskert was passing the store when the fire was discovered. He made three trips into the burning building, carrying out five children, wrapped in rugs and his overcoat and directed the other members of three families to safety.

In the rescues Paskert's hands and arms were badly burned and his face blistered by the flames. The proprietor's loss was small.

Piles

All druggists are authorized to refund the money if PAZO OINTMENT fails in the treatment of any case of ITCHING, BLIND, BLEEDING or PROTRUDING PILES.

PAZO OINTMENT instantly Relieves ITCHING PILES and you can get restful sleep after the first application.

AT THE EMPIRE

Leah Baird Comes Up Smiling After Diving Into Ocean.

Star's Feat Throws Scare Into Associates in "Cynthia-of-the-Minute."

Leath Baird, star of "Cynthia-of-the-Minute," the new Gibraltar picture made from Louis Joseph Vance's novel, which is being shown at the Empire Theatre, had one adventure in connection with the shipboard scenes of the W. W. Hodkinson release taken near Tampa, Fla., that would have added realism if it had been filmed, but it wasn't. Everbody, including the cameraman, was too busy trying to save the star from permanent eclipse.

Miss Baird was rehearsing the high dive from the rail of the steamship Carolinian wherein she swims to the rescue of Hugh Thompson. Miss Baird had made the dive once before and everything went well, but Director Perry Vekroff thought it would be better to have the plunge made from the bow.

As soon as Miss Baird struck the water she was seized in the strong rush and swirled against the anchor, disappearing from view. Vekroff was the first to realize Miss Baird's plight and he yelled to two oarsmen to pick her up. The men rowed toward the spot, and Thompson, who was swimming about a hundred yards away, turned like a water rat at the megaphone alarm, swinging to the rescue. A minute later half the company was overtide. Just as the suspense had become tense Miss Baird rose to the surface. She said she had dived to evade the whirlpool and required no assistance.

"Great stuff!" yelled Vekroff — "we'll use some of that."

But the director had reckoned without his battery. Both cameramen were in the water and there was no chance for a retake.

TARKINGTON'S "EDGAR" HAS HEAP OF TROUBLE

Strained relations usualy exist between baby brother aged four or five, and big brother, aged ten or twelve. It is so in "Edgar's Jonah Day," the third episode of the Booth Tarkington "Edgar" series, which comes to the Allen Theatre Friday. One reason for this unfortunate diplomatic situation, as described by Mr. Tarkington, was baby brother's entire lack of adaptability to big brother's schemes. The later did not regard with favor an individual whose appearance was usually coincident with the parental command to "stay home and play nicely with little brother Charlie."

When there was a merry-go-round in an adjoining yard, and all the kids were there—well, Edgar solved the problem in an original manner.

AT THE ALLEN

Every traveller to the southwest soon hears of the "Santa Ana," the sandstorm more terrifying than cyclone or tornado.

The sandstorm in "Desert Gold" is known to the millions, who have read Zane Grey's famous novel. Cameron and Burton, prospectors, lose their lives. In the photoplay of "Desert Gold," produced by Benjamin B. Hampton and Eltinge F. Warner for the author's own company, and distributed by W. W. Hodkinson through Pathe Exchange, the tragic fate of Cameron and Burton is realistically shown. Not only is the "Santa Ana" of "Desert Gold" a screen novelty, but it is absolutely faithful. Several of the scenes of the sandstorm were taken in the Colorado desert, about twenty-five miles from Mecca, and the closing scenes — the final death scenes—were taken in the bed of the Santa Ana river, near Whitewater Junction.

No man knows when the Santa Ana will come. Consequently, when Mr. Grey took the company of players into the desert, they took with they two heavy trucks, on which were mounted airplane engines and propellers. These "wind machines" were designed to create a sandstorm. Before the company had been on location two days, a genuine Santa Ana tore into the desert and mocked at their wind machines.

All the extensive "shots" needed were taken in the howling storm, to the great discomfort of the all-star troupe and camera force. Then it cleared, the huge sand dunes ceased rolling and it was necessary to bring forth the "wind machines" and finish up the job. Thanks to the real storm, Director T. Hayes Hunter took some wonderful scenes, something he claims, never before equalled in the history of motion pictures. And the beauty of it is, the audience at the Allen Theatre can sit "amid all the comforts of home" and still live through a desert terror.

FEW CHANGES IN MARKET THIS WEEK

FARMERS ARE STILL MAKING MONEY OUT OF EGGS.

Very few changes can be noticed in the local market this week, but the tendency in almost every item quoted is quite apparently downward. Hides and wool are at a particularly low level, from which at present there seems little possibility of recovery. When existing stocks of boots and shoe and leather goods are cleared from the retailers' and wholesalers' shelves, the hide market should recover.

Eggs continue to sell at 50 cents in the stores. Wholesalers are offering as low as 30 cents, but, according to reports, the farmers are not getting stung as much as they may try to make out. The hens, it is said, are laying twice as well as several weeks ago. If a hen now lays two eggs where she recently only laid one, despite the fact that they are only getting half what they were before, their financial returns ae just as great. Some farmers, however, claim that their hens have not increased their production. If that is so, they might consider some means of lighting the hen house, as one man in this city does at four o'clock in the morning by a connection to an alarm clock that turns on the light at that hour, and gives the poultry a longer day. The light summons the hens to action, and since he has tried it out, the hens have displayed phenomenal laying powers. It would be a dangerous, if not a difficult, thing though to have some system of lighting the henhouse with kerosene, as would be necessary in the country.

Oranges have receded a little, a local fruit dealer said to-day. His wholesale lists are marked down ten cents, and he has cut his prices according. Big eighty-cent oranges are now only seventy, and the others accordingly.

FIRE DUE TO SPARROWS.

It is believed that a quantity of straw, carried by sparrows into the home of J. Glover, of London, and found by workmen when repairing the house, was responsible for the fire which resulted in the death of Mrs. Glover and her three children some weeks ago.

CLUB MEETING.

The Further Educational Club of the Sacred Heart Church will hold a meeting in the hall of the Church to-morrow evening, when an address on "Business Economics and Methods of Finance" will be given, and a paper on "Art" will be read by Miss Mamie L. McCarthy. This promises to be an interesting evening, and all who are interested in either of these widely divergent topics should attend.

CARD OF THANKS.

Mr. and Mrs. Fred Griffin and family, of 559 Bethune street, wish to expresse their thanks to the nurses of the Nicholls Hospital; also to Drs. Mann and Moir, for their kindness and care to their son Earl, during the time that he spent in the hospital; also to Miss Erskine and her pupils of the Central School for the beautiful flowers sent to him.

REVIVAL—CHURCH OF GOD MISSION.

At the Mission last night Evangelist Campbell showed that the true Church of God, the Divine Ekklesia, is entered only through spiritual birth, its door of entrance being Christ. That it is made up of lively stones—not dead ones. That its officers are divinely appointed, its members set in the body as it pleased God. 1st Cor., xii., 18.

The preacher affirmed that neither belonging to a church, confirmation, nor baptism made us members of the Real Church of God, we must be born into it.

He showed further that all those who really possess this divine birth constitute One Body in Christ.

Subject for to-night's discourse is to be, "The New Birth."

A hearty invitation is extended to the public generally. Time of meeting, 7.45.

REMARKABLE RECORD

The cost of this year's winter maintenance on the G. T. R. will show a substantial reduction from that of normal seasons, owing to the remarkable record so far established for little snow. From the divisional yards at Lindsay not a snowplough has been moved this winter, and the oldest employee cannot recall a season like it in their lives. Every other year considerable money has been spent in keeping the tracks clear.

SOCIAL AND PERSONAL

Mrs. E. E. Harvey of Brock Street is visiting friends in Montreal.

Miss G. Elliott of Victoria College, Toronto, is home for the week end, visiting her parents, Mr. and Mrs. T. C. Elliott, 112 McDonald street.

Mr. Chas. O'Reilly, of Norwood, and Mr. and Mrs. A. F. Cunningham, of Lindsay, are in the city to-day attending the funeral of Mr. Thomas B. McGrath.

Miss Gladys Pearson, of Toledo, Ohio, was the guest of her aunt, Mrs. Harry Pearson, Lilac Lodge, Lakefield, over the week-end.

Mr. and Mrs. Galvin Dunford, of Douro, and Miss Haig, of Deseronto, were guests on Sunday of Mrs. Dunford's parents, Mr. and Mrs. Harry Pearson, Lakefield.

VISITORS TO THE CITY.

Guests registered at the Empress Hotel: L. Wilder, Ottawa, Gordon Bennett, R. C. Cordingly, A. A. Bowman, G. A. McCullough, M. C. Elford, A. L. Johnston, M. P. White, A. W. Binnie, C. Campbell, L. J. Sinclair, J. M. Wilson, H. C. Carter, and L. Weaver, Toronto. A. E. Caddy, Campbellford, C. S. Bray, Brantford, A. J. Grant, St. Catharines, E. W. Jefferson, Philadelphia, W. A. Dickson, B. R. Ettenberg, and L. Workman, Montreal, J. S. McLean, Hamilton, and C. Kydd, Orillia.

Guests registered at the White House: J. R. MacNicol, W. K. Mowat, J. M. Wilson, John Jolly, H. W. Long, J. S. Brown, J. McInnis, Joseph Clarke, Toronto, H. W. Stanton, and Mr. and Mrs. J. Crawford, Orillia, R. M. Allan, Ottawa, A. C. Austin Oshawa, and Wm. J. Tyers, Belleville.

Coming Events

TO-NIGHT—WATER ST. BOWLing Alleys.

TO-NIGHT—CITY LEAGUE HOCkey Championship Game.

TO-NIGHT — REMEMBER KNOX Choir concert to-night in the church at 8 o'clock sharp. Doors open at 7:15.

FRIDAY NIGHT — OLD-TIME Masquerade carnival, auspices, Peterboro Robinson chapter, I.O.D.E. in Brock street rink.

APRIL 5 — IN GRAND OPERA House, Peterborough, Male Voice Choir, 50 voices under the direction Mr J. H. Renwick.

IN MEMORIAM.

In loving memory of Hugo Lundgren, who died Feb. 24th, 1919.
Vi ses igen.
—His loving sister, Ida.

IN MEMORIAM.

BYERS—In loving memory of our dear ones, Stanley and Grace, who died February 23rd and 24th, 1920. Just when thei days seems brightest, Just when their days seem brightest, God called them from amongst us, To that home of eternal rest.
—From Mother, Father, Sisters and Brothers.

IN MEMORIAM.

LITTLE MARGARET.

Free from the sin of this world,
In a village far away,
There lies a wayside flower,
No more her prayers to say.

Her laughter that always won,
The smiles of everyone,
We only hear its echo,
But its reality is gone.

Her lips that used in rapture,
To God a prayer did say;
Filled with devotion always,
Before the end of day.

We all know the sorrow,
This dear child left behind,
But our dear mother has called her,
So with faithful steps she retraced her steps to her Mother Divine.
—Author Elizabeth Sherrow, age 16 years.

Inserted by Elizabeth in loving memory of her dear little sister, Margaret, age 5 years and 7 months, who died April 1st, 1920.

LESS PAY OR FEWER MEN IN FIRE FORCE

TENTATIVE INSTRUCTIONS GIVEN TO CHIEF GRANGE LAST NIGHT —FOUR NEW MEN WILL LIKELY BE TURNED LOOSE.

Fire Chief Grange gave the Committee of the Whole, a warm argument last night, when it was proposed to delete from the Fire Department's budget an item of $100 represening an increase in salary for the fireman who doubles as the Chief's secretary

"I have fought for that for years" he said, "and it is nothing but right that there should be something extra for the man who does this special work. I want to establish this thing now. There is a great deal of secretarial work and I should not be called upon to stay in the office to do it when I can be better engaged at other duties. Under the former Chief the work had to be sent out to be typewritten."

Ald. Crowe—"I'll tell you what to do. Cut out the $100 for your expenses and give it to the secretary.

Chief Grange—"That would give me a holiday anyway I always take my holidays during the convention."

The committee cut the appropriation for painting from $900 to $500, and also the secretary's $100, but the Chief was authorized to adjust his account to take care of that $100

With the alternative of retaining the four new men who were taken on the brigade to comply with the new legislation allowing the firemen one day's rest in seven with wages for only the six days they work, or of dismissing these four men and carrying on with the old staff paying them for seven days a week, the Committee instructed Chief Grange that he had better dismiss the extra men who were added to the force on January 1st.

"Cut the whole brigade down and go back to the old volunteers when you are at it." was Ald. Morrison's caustic remark.

Ald. Gordon suggested that the Chief need not carry out the instructions until the budget had been finally passed. The proposed reduction of the brigade to its former strength permits a saving of between four and five thousand dollars.

Ald. Crowe contended that there should be no extra pay for the drivers of the motor apparatus. Every firemen should be able to handle a car

Chief Grange replied that all the man were not adapted for this duty.

Want Pay for all Extras

Ald. Gordon—"There is a feeling that every time a man does a little extra work he must be paid extra for it. It is generally found among municipal employees and I don't think there is any ground for that opinion. I these men have superior qualities they are that much more efficient and in line for promotion.

Ald. Phelan—"I don't think we ought to spend $2600 for a car for the Chief. If he can't manage with the one he has let him get a new one but cheaper than $2600.

Ald. Crowe—"My stand is that the equipment should be kept as it stands for this year. We could take $10,000 off the original demand. If the people are satisfied to keep the brigade with the present equipment I am, and I think the people would be satisfied.

Ald. Morrison—"We haven't put one thing in there the department doesn't need."

Ald. Crowe—Weve got to think of the workingman's pocket book this year.

Ald. Gordon moved that the Mayor and Ald. Crowe interview the Public Library Board in an effort to induce them to cut down their estimates.

Ald Crowe —I don't expect to save one cent there.

Ald. Hay—We could cut $1000 off the cost of Chief Grange's car.

Increase For Mr. Miller.

Ald. Hay moved, seconded by Ald. Morrison, that Relief Officer Miller's salary be increased from $850 to $1,000 a year.

Ald. Crowe— All these men have steady jobs. That's more than a lot of the people have. I won't vote for one salary increase.

The motion carried. Ald. Gainey also voted contrary.

$1,000 For Health Association.

The Peterborough Health Association's grant was increased from $750 to $1,000 on motion of Ald. Gordon, seconded by Ald. Gainey. "I think we made a mistake by cutting that grant down the other night," said Ald. Gordon. "The ladies of this association take care of consumptives and others who would otherwise become a charge on the city. They take them milk and eggs and pay for the district nurse's care."

Assessor Gets Assistant.

City Assessor W. J. Henry asked for $1200 to pay for a second assistant in his department. The committee disposed $1,000 for this new official.

Mr. Henry explained that under the new provincial legislation the assessor has to get the names of every British subject in the city over 21 years. This is for the purpose of filling out the voters' lists. Often people are not at home, thereby necessitating second and sometimes third calls. The work has been greatly increased by this requirement, and Mr. Henry said it could not be finished in time by his present staff. Last year special men were engaged for the work, which cost $501.

OBITUARY

INFANT DAUGHTER.

The four months' old daughter of Mr. and Mrs. Edward Clark, Bell avenue, died yesterday. The funeral will take place to-morrow afternoon at two o'clock to Little Lake cemetery, Rev. McKenzie, of Knox church, conducting the funeral service.

MRS. ANNIE STEADMAN

The death occurred yesterday afternoon of Annie Steadman, aged 81 years, at the family residence, 274 Edinburgh street, after an illness extending over several months. The deceased was born in Yorkshire, England, but had lived in Canada for many years. Until 17 years ago her husband, Robert, was a gardener in Smith township, but after his death she removed to this city, where she had lived since. She leaves one sister, Hanna Burton, of this city. Two sisters predeceased her. Deceased was a life-long member of the Methodist Church, and a regular attendant at George Street church whenever it was possible for her to go out.

The funeral will take place to-morrow afternoon from the family residence to Little Lake Cemetery. Rev. Harold W. Young, pastor of George Street church, will conduct a service at the house at two o'clock.

MR. L. J. PICARD ON ADVISORY COMMITTEE

At the third anual convention of the retail clothiers of Ontario, held in Toronto, Mr. L. J. Picard, of this city, was appointed a member of the Advisory commitee. Mr. Picard is one of the firm of local clothiers on George street, known as H. BeBrun & Co.

Between the Eyes

The upper part of the face is noticed first when you meet a person. If there's a scowl there it so disfigures the face that the most attractive face is spoiled.

If you have to make an effort to see clearly you scowl without knowing it. Let Dr. Fowler prevent scowls by fitting you with proper Eye-Glasses.

DOMINION'S IMPORTS UP, EXPORTS OFF

FIGURES FOR TWELVE MONTHS ENDING IN JANUARY SHOW ADVERSE TRADE BALANCE.

U.S. OUR BIG CREDITOR

OTTAWA, Feb. 25.—(Canadian Press).—The total imports for consumption in Canada during the twelve months ending in January were over one billion and a quarter dollars in value, or an increase of more than three hundred million dollars over the importation during the previous year. A decrease of slightly more than a quarter of a million dollars was marked against the total exports.

The United States led the countries in shipping goods to the Dominion, our purchasing theory presenting an increase of 144 million dollars. There was a striking increase in purchases from Great Britain during the period reviewed, additional purchases amounting to 129 million dollars.

Immigration Increases.

During the last year the total immigration to Canada from sixty-four different countries was 147,502, of which almost fifty thousand entered from the United States. These figures, made public by the Department of Immigration and Colonization, marked an increase of over fifty thousand over the previous year.

During the year forty-nine thousand English, nineteen thousand Scotch and six thousand Irish landed in Canada. Immigration from Central Europe was fairly heavy.

AMENDMENTS TO RURAL CREDITS

REDUCE PERIODS OF LONG TERM LOANS AND ENLARGE SCOPE OF MEASURE.

TORONTO, Feb. 25.—(Canadian Press)—Select Committee of the Legislature dealing with rural credits to-day amended the bill so that the period for long term loans is reduced from thirty years to twenty years. The bill will now also provide for the inclusion of market gardeners, but loans will not be granted to persons holding less than fifty acres for longer than five years. The central board must make an annual report to the Minister of Agriculture every year on December 31 showing the amount and number of loans issued.

AT THE THEATRES

GRAND—Dark.

THE ALLEN—Zane Grey's most powerful story, "Dessert Gold," a dashing double romance of the great outdoors.

AN INCREASED CIRCULATION TERRITORY FOR ADVERTISERS

The inauguration of the noon edition of The Examiner on Monday next will mean a greatly increased circulation territory at the service of advertisers. The hour at which it will be published will enable it, by reason of the excellent noon train service, to reach points at an early hour in the afternoon which have not been included previously, in the area served by The Examiner.

Fundamentally, it will be a suburban and rural edition, devoted especially to news of the district surrounding the city, and thus will appeal to out-of-town readers. The staff of rural and suburban corespondents will undergo complete re-organization and be extended over territory which has not before been covered, and staff reporters will be sent into various strategic points to break the ice and prepare the way for the special resident correspondents who will succeed them there.

GERMANY MAY CHANGE OFFER

BERLIN RUMORS SAY GERMANY HAS NEW REPARATIONS PROPOSITION HATCHED.

PAY 120,000,000 MARKS

PARIS, Feb. 25.—(Canadian Press).—Germany will offer the Supreme Allied Council a proposition to pay 120 billion marks in reparations when the Allies and Germans meet at London next week, says the Berlin correspondent of the Journal, who declared he received this information from 'Parliamentary sources.' This payment would be made in thirty instalments of four billion marks each, either in cash or goods, according to the conditions decided upon at the conference.

WANT UNIFORM DAYLIGHT SAVING

RAILWAY ASSOCIATION OF CANADA APPEALS TO MUNICIPALITIES.

MONTREAL, Feb. 25.—(Canadian Press).—In the interests of the travelling public the Railway Association of Canada is appealing to various Canadian municipalities to adopt this year, uniform dates on which to begin and terminate "daylight saving". Much inconvenience had been caused during the past few summers owing to conflicting dates.

LEONA DALRYMPLE WED.

Author's Marriage to Clarence Wilson on Feb. 7 Gives Surprise.

PASSAIC, N. J., Feb. 25.—Miss Leona Dalrymple, a writer and the winner of a prize of $10,000 offered by a Chicago publishing firm for her novel, "Diane of the Green Van," published in 1914, surprised her friends yesterday when they learned that she became the bride of Clarence Wilson of Passaic, N. J., at a quiet ceremony in a studio apartment in Greenwich Village on Feb. 7th.

The couple have been lifelong friends, and at the time "Diane of the Green Van" won such high praise Miss Dalrymple said her fiance, Mr. Wilson, was largely instrumental in her success. She is the only daughter of former Judge H. Dalrymple and Mrs. Dalrymple. Among her other works are "Traumerei," "Jimmy, the Christmas Kid," and "Kenny," published in 1917. Mr. Wilson is Treasurer of the Wilson Instrument and Specialty Company of Passaic.

12 MARSHALS FOR FRANCE.

Government Won't Oppose Bill to Double the Present Number.

PARIS, Feb. 25.—France may soon have twelve Marshals. The award of batons last week to Generals Desperey, Lyautey and Fayolle brought a storm of criticism upon the Government from friends of other Generals who did good work in the war.

So long as France had as Marshals only Foch, Joffre and Petan no complaint was made of the law limiting the number of Marshals of France in peace times to six. But now the friends of Castelnau, Mangin and other army leaders have had introduced a bill raising the number to twelve, and the Government announces that it will not oppose the measure, which means that it will become law.

There is much discussion as to who the next six Marshals will be. It is probable that the following list will turn out to be not far wrong: Mangin, Castelnau, Gouraud, Degoutte, Berthelot and Maunoury.

EX-EMPRESS OF GERMANY DYING

NO HOPE OF RECOVERY AND PREPARATIONS BEING MADE FOR INTERMENT.

EARLY DEMISE LIKELY

POTSDAM, Germany, Feb. 25 (by Canadian Press).—Former Empress Augusta Victoria of Germany is reported to be unconscious at Doorn, Holland, in private telegrams received here last night.

It is said there is no hope of her recovery, and her early demise is indicated. Preparations for the interment of the Empress are going on here.

SPRACKLIN GETS CONGRATULATIONS

COMMENDS GRIER'S IMPARTIALITY IN CONDUCTING THE PROSECUTION.

WINDSOR, Feb. 25.— (Canadian Press.) — Rev. J. O. L. Spracklin, pastor of the Sandwich Methodist Church, spent this morning in the city attending to business which had been neglected during the trial this week.

Upon all sides he was congratulated upon the verdict which had been rendered in his case.

He said he had made no plans for the future and had nothing to say for publication in this regard. The pastor-inspector commented upon the fairness of the trial he had been given and referred especially to the impartiality with which the Crown Attorney, A. M. Grier, had conducted the case. He felt that Mr. Grier was more conscientious in discharging his duties than some crown prosecutors would have been under the circumstances.

MR. RYERSON RITCHIE HOME FOR EASTER.

Mr. and Mrs. Ryerson Ritchie are expected home from New York before Easter. Mr. Ritchie has completed the work incident to the establishment of the British Empire Chamber of Commerce in New York. This Chamber is to represent commercial Canada in the United States, as well as all other countries in the British Empire.

EGGS AND POULTRY

Toronto receipts light, market higher. Dealers paying 40c to 43c delivered, jobbing specials 52c to 53c, extras 50c to 51c; firsts 48c to 49c, seconds 40c to 42c.

Montreal receipts liberal, prices firm under increasing demand at 48c for current receipts and 46c for the States eggs.

Chicago firsts 33c.

New York extra firsts 40c, firsts 36 1-2c to 39c.

A DANGEROUS WEAPON.

BELLEVILLE, Feb. 25.—Chief of Police Kidd promptly refused a permit to the owner of a gun, the barrel of which was bound to the stock by several yards of copper wire, a nail serving as the firing pin, and a screw and wire holding in place the ejector. "Well, it's no good anyway," replied the owner, who left his old-time trophy with the Chief.

ATTEMPTED SUICIDE.

OSHAWA, Feb. 25.—John O'Brien, charged with attempting to take his own life by drinking carbolic acid in a moment of despondency, has been remanded for eight days, during which time he will be held in custody. His son, who attempted to avert the suicidal attempt, had his face badly burned by the acid.

LEAPT FROM FAST TRAIN UNINJURED

TRAIN TRAVELLING AT 45 MILES AN HOUR, BUT SHE ESCAPED WITH BRUISES.

NERVOUS BREAKDOWN

BROCKVILLE, Feb. 25.—(Canadian Press.)— While Grand Trunk train No. 18 was travelling at a speed of over 45 miles an hour near Collins' Bay early this morning, a woman passenger, believed to Mrs. Johnson, Toronto, broke the glass in the window opposite her berth in a Pullman car and jumped. Pullman Conductor C. Morrison heard the noise and, investigating, saw the woman jump. The train was stopped and the track searched without result, except for the discovery of a woman's handbag containing the above name and address. Later she was discovered at a farm house unharmed except for a few bruises. According to the conductor, the woman who was en route to Vanleek Hill, was placed on the train at Toronto by a man who said that she was suffering from a nervous breakdown.

WILL FIGHT LIQUOR LAW

MONTREAL LAWYERS ANNOUNCE INSTITUTION OF PROCEEDINGS.

MONTREAL, Feb. 25.—(Canadian Press).—Two Montreal lawyers this morning announced their intention of starting proceeding to have the Provincial liquor law, finally passed at Quebec yesterday, declared by the Courts of Justice to be null and ultra vires. The names of their clients were not announced.

THE HIBERNIANS HELD A MEETING

Last evening was a red letter occasion for the local division of the Hibernians. The work of the Degree Team was a feature of the evening's entertainment, and the whole proceedings were of a social and instructive nature. Rev. W. P. Meagher, Lakefield, County Chaplain, was in attendance, and the following local priests were present: Right Rev. Msgr. McColl, Rev. Peter McGuire, Rev. C. J. Phelan, Rector of St. Peter's Cathedral, Father Cantillon, Father Guirey and Rev. Father Costello.

Monsignor McColl gave a most interesting address. Rev. Father McGuire was in his usual happy mood, and enlivened the meeting by his witty and opportune remarks. All of the other visiting clergy contributed to the enjoyment of the evening with short and appropriate addresses. Rev. Father Meagher announced that the main object of the evening's meeting was for the purpose of having a collection taken up for the relief of the widows and orphans, and the suffering poor in Ireland. A substantial sum was contributed through the efforts of Father Meagher, and the list is still open and everyone desirous of assisting this worthy cause has an opportunity of doing so.

FORMER G. T. R. PAYMASTER DEAD.

J. Williams of Gananoque Expires Suddenly.

GANANOQUE, Feb. 25.—An aged and highly esteemed resident of this town and an old employee of the G.T.R., in the person of Mr. J. O. Williams, died very suddenly this week. When in company with a friend in his own home, he threw up his hands and dropped to the floor. Medical aid was quickly on the spot, but nothing could be done to save the afflicted man.

For years deceased was paymaster on the G. T. R. eastern lines and was widely known and respected. Besides his widow he is survived by a grown-up family of five and one adopted daughter.

ALLIES TO ARBITRATE NEAR EAST

CESSATION OF HOSTILITIES BY GREEKS AND TURKS RECOMMENDED AND INVESTIGATION

SETTLEMENT LIKELY

LONDON, Feb. 25. — (Canadian Press.—The Turkish delegation to the Near East Conference here accepted to-day the proffered arbitration of the Supreme Council between Turkey and Greece in determining the status of Smyrna and Thrace. When the conference assembled this morning the Turkish representatives made this announcement and stated that they were agreeable to the suggestion of the Allied governments that a Commission of Inquiry be appointed to verify the statistics of the population of the districts in question.

Notice was given by the Turks that they would reply at five o'clock this afternoon to the other points at issue concerning the treaty of Levres.

The question being asked by the Supreme Council of both Greeks and Turks is whether they are prepared to accept the results of such investigation by the Allies regarding Smyrna and Thrace, subject to acceptance of the remaining terms of the Turkish peace treaty. Premier Kalogeropoulos of Greece, appeared before the conference and expressed surprise that the Allies should suggest a Commission of Inquiry and the cessation of hostilities which was one of the conditions of the offer. He said it wold be of the greatest difficulty for the Greek government to arrest the victorious army in its advance. Nevertheless he would telegraph the government at Ahens and submit the proposals of the Allies.

TORONTO BANK ROBBED; CASE BAFFLING ONE

NEARLY $20,000 STOLEN FROM HEAD OFFICE OF BANK OF MONTREAL AND NO CLUES.

TORONTO, Feb. 25.—(Canadian Press) The Toronto police are confronted by what is probably one of the most baffling cases ever encountered by them following the disappearance yesterday from the head office of the Bank of Montreal here of $11,210 in cash and $10,000 in cheques.

The chief teller left his cage for about twenty minutes and while he was away three assistant tellers brought in their bundles of money and left them in his cage as usual. On his return, expecting to find it in its usual place, he discovered that it was gone An alarm was at once sent in to police headquarters but search of its 162 employees of the bank, a close watch upon all leaving and entering the building, and a police investigation failed to throw any light on the matter.

CAN'T PROHIBIT TRACK BETTING

APPELATE COURT HANDS DOWN JUDGMENT IN RACE TRACK BETTING CASE.

TORONTO, Feb. 25.— (Canadian Perss)—The Ontario Government has no power to enact legislation to prohibit race track betting on the race tracks of Ontario, according to a judgment handed down by the second individual appellate court of Ontario to-day. This judgment is in connection with the recent application relating to parimutuels.

HERBERT HOOVER,
Formerly Chairman of the Committee for the Relief of Belgium, and later United States' Federal Food Administrator, who last night accepted the post of Secretary of Commerce in the new United States' administration.

WELLAND SHIP CANAL TRACED

FORMER LOCAL ENGINEER, NOW IN CHARGE OF CONSTRUCTION, HERE AND

ADDRESSED ENGINEERS

There were few engineers in this city or immediate district who failed to hear Mr. Alex. G. Grant, M.E. I.C., engineer in charge of the Welland Ship Canal, address the Peterborough Branch of the Engineering Institute of Canada in the Board of Trade rooms last night. Three engineers noted at the meeting from out of the city were A. E. Caddy, of Campbellford, Mr. Kidd and Mr. Murphy, of Severn Falls. A supper at the Empress Hotel preceded the address. President R. H. Parsons occupied the chair and introduced the speaker to the fifty-two engineers present.

Mr. Grant is well known in this city, having been chief engineer of the Trent Canal for some years before his higher appointment on the Welland Ship Canal. He has risen to an eminent place in Canadian engineering and when on the subject of canals, is in his true element as last night's two hours' address amply indicated. Before describing the works required for the construction of the Welland Ship Canal and the work done thereon to date, he traced the origin development and construction of the various canals that make navigation possible from the Great Lakes to the sea.

Mr. Grant went fully into the history of the St. Lawrence River canals, for he said an understanding of these was necessary to a clear and comprehensive understanding of the Ship Canal project.

He told of early developments of the Welland Canal, the first canal being opened by a private company in 1829. The boats went from Lake Ontario to Port Robinson on the Chippawa River by forty wooden locks 110 feet long, 22 feet wide and 8 feet deep, and from Port Robinson the schooners descended the Chippawa River to the Niagara River and thence to Lake Erie.

In 1831 the Government of Upper Canada loaned the company fifty thousand pounds for improving the canal and continuing it from Port Robinson to Port Colborne, on Lake Erie, and in 1833 was opened what may be considered the present canal, from Port Colborne and Allanburg, but fed from the Grand River.

In 1834 the Legislature purchased the canal, later enlarging it for nine feet navigation. The forty old wooden locks were replaced by twenty-seven stone ones each 150 feet long, 26½ feet wide and 9 feet depth on the sills. As the St. Lawrence canals were completed in 1848, a boat of 140 feet long, 26 feet beam and 9 feet draught could sail from Chicago to Montreal. In 1853 the depth was raised to 10 feet. In 1882 the depth was again increased, this time 12 feet, with Lake Erie as a feeder at a cost of $14,000,000. At a further cost of $2,000,000 the canal was deepened to 14 feet and opened in 1887 to navigation.

No further changes were made in the canal and its inadequacy to cope with the ever increasing navigation demands began to be seen. The construction of great harbour works at Port Colborne and public agitation for the building of a Canadian deep waterway via the Welland Canal and the St. Lawrence River versus the Georgian Bay route finally led to exhaustive surveys being made of a ship canal across the Niagara Peninsula. These surveys were carried out between 1907 and 1912. The only route found satisfactory was

(Continued on page 13.)

G. N. GORDON INTRODUCED TO COMMONS

CHEERED FROM THE TIME HE ENTERED THE HOUSE BY HIS FELLOW-LIBERALS.

MAY SPEAK VERY SOON

(Special Despatch to the Examiner.)

OTTAWA, February 25. — Geo. N. Gordon, the recent Liberal victor in the West Peterboro bye-election, took his seat in the House of Commons yesterday. The Liberals made it an ocasion of celebration and Mr. Gordon was cheered to the echo by his fellow Liberal members.

After he had shaken the hand of the Speaker, he was introduced by the Liberal leader, Hon. W. L. Mackenzie King, who recited the usual formal words.

With the Liberal leader was Hon. Charles Murphy.

The trio was cheered from the time of entering the chambers. Mr. Gordon shook hands with Mr. King, Mr. Fielding, Mr. Murphy and Mr. Lapointe, all of whom spoke in his interests during the bye-election. He was showered with congratulations. He is seated with Mr. A. Stein, Liberal member for Kamouraska.

A few days ago in the House some of Mr. Gordon's statements in Peterborough were quoted by a government follower who attacked them. At the time, Hon. R. Lemieux said that the gentleman would be here himself shortly and would reply, so it is expected that Mr. Gordon will make his maiden speech before many days.

LADIES' AID SOCIETY GAVE A BANQUET

A very pleasing event took place last evening when the Ladies' Aid Society provided and served a most sumptuous dinner in the Sunday school room to the men of Mark street church.

As the guests were seating themselves at the table, the hostesses suddenly disapeared, and the men were left to enjoy that unrestrained boyish hilarity which is usually kept in check by the presence of ladies. However, a faint clapping of the hands from time to time indicated that the milder sex was not far away, should their assistance be required. However, all the guests felt that something was lacking when the ladies were not there.

At the request of the pastor, Mr. Thos. Sargent occupied the chair and did justice to the position. Col. Johnson, Dr. A. Fowler, Mr. M. McIntyre, and Mr. S. Taylor made very pointed and spicy addresses. Messrs. J. Speer, V. Boorman, C. Houston and C. G. McKillican gave a quartette which was well received. Mr. W. A. Gamble proposed a toast to the "ladies" which was responded to by Mr. J. Suscee.

About thirty men responded to the invitation, which was given to the adult men of the church. The meeting was a great success and all report a good time.

THE WEATHER

Last night's lowest temperature was one degree above the zero mark. The previous night it was 2 degrees above. During February up to the present time it has been below zero but once, and then only slightly.—W. P.

SCOTLAND WOOLLEN MILLS AT HICKEY'S

THE "MILL TO MAN" CLOTHES MADE TO MEASURE FOR $30—NO MORE, NO LESS," IN PETERBOROUGH.

Elsewhere, the public announcement is made to men that the Scotland Woollen Mills Co., Limited, of Toronto, have perfected a business arrangement with Hickey, the local gent.'s furnisher of 345 George Street, this city, whereby he secures the Peterborough branch of this well-known firm of clothing manufacturers. This old-established clothing manufacturing company produce a wide range of styles in men's, young men's, and youths' clothing. The newest models that are popular are produced by the Scotland Woollen Mills Company, such as belters, waistline seams, form-fitting, and two and three button suits, and are made up from imported and Canadian woollens of the newest designs, shades, and colours.

But the saving in their suits is equally important. "From mill to man" is the forceful way the Scotland Woollen Mills Co. have of educating buyers to understand that they have eliminated the middleman, and that their clothing is made from woollens direct from the mills. This gives them a special advantage, which will be quickly appreciated by buyers.

Hickey has secured a revised list of the Scotland Woollen Mill prices now effective in their other branches, the prices being all lowered to meet the present trend of trade. The regular stocks will mean much to men who know these standards.

BRITISH LABOR NOT TO ACCEPT REDUCED WAGE SCALE, STATED.

Even With Prospect of Lowering Prices Would Not Do So.

(Special to the Examiner by Cross-Atlantic Newspaper Service).

LONDON, Feb. 25.— J. R Clynes, M.P., and vice-chairman of the Parliamentary Labor Party, warns employers that Labor will stand for no general reduction of wages.

"Wage reductions may be reached in certain individual cases by mutual agreement", he says, "But as a matter of general policy, organizations acting either through national bodies or through responsible executions will not agree to reductions."

"Prices were raised very soon after the war began, and long prior to any demand for increased wages. Indeed that demand arose only because the pressure of ascending prices was too great for labor to hear. From then until very recently the race between prices and wages has been continued. Many other factors increased prices in addition to such higher wages as the workers may have obtained. In many businesses profits have increased in a greater degree than wages."

"As prices went up without the influence of higher wages, or at least in advance of them, what guarantee is there that prices would come down if wages were reduced. The principal item of expense in the workingman's household is for food, and prices are not likely to be materially reduced for some time. Then too most of the food of the country is carried from overseas, and submission to wages reductions here would in no way guarantee price reduction in other countries."

"No labour will reject any proposal for general reduction in wages with the object of securing a reduction in prices."

BRITISH SHIPPING INTERESTS SUFFER.

Shipping Millionaires Rapidly Disappearing and Stocks Tumble.

(Cross-Atlantic News Service.)

LONDON, Feb. 25.—The shipping millionaires of Great Britain are rapidly disappearing. While British shipping interests are inclined to blame America, and especially the large concentration of tonnage under the U. S. Shipping Board for their plight, the real reason seems to be that a great part of the tonnage that came through the war was either built or purchased or recapitalised on the basis of war cost of production, and no commercial concerns can earn profits on that basis of value in ordinary business times.

Shares of shipping companies are selling on the Cardiff exchange at less than half the prices they were bringing during the war. During one week recently, there were two days of sensational breaks. One company which had a hundred thousand tons of shipping at the end of the war, which had cost an average of thirty-one pounds a ton, added forty thousand tons of new shipping at about the same price, but can not value the total bottoms above twelve pounds a ton, or about the investment in the new tonnage.

The feeling against America is bitter in shipping circles, and reports from Scandinavian countries indicate that it is mirrored there.

FEAR RED ATTACK ON SCANDINAVIA.

If Finland is Attacked All Scandinavia Will Assist Her.

(By Polonius, Staff Correspondent, Cross-Atlantic Newspaper Service.)

COPENHAGEN, Feb. 25. — Reports from Finland are that that country, the bulwark and outpost of the Scandinavian countries against the Bolsheviki, is hastily preparing for either an invasion by Soviet armies, a rebellion of Finnish Reds financed and armed by Russia, or a combination of the two.

All Scandinavia is looking with anxiety towards Finland. Should the outbreak take the form of an invasion, it would surprise no one if armies were hurried to the support of the Finnish troops from all the Scandinavian countries, for while Finland is the best established, economically and politically, of the Republics which broke from Russia, yet no one in the Northland has forgotten the Red days of 1918 when Red and White armies battled for control there, and the fall of Finland to the Reds would be but the first step of the onward sweep against all Scandinavia.

Purchase by Lenine of immense war stores from Britain is believed to have to do with the proposed Sovietisation of Finland. The Finnish Government has the fullest confidence in the ability of its voluntary army of about one hundred thousand war veterans and its national police to control the situation.

However, the Reds maintain open headquarters in Helsingfors, with an organisation extending into every town and village, and boast that the approaching return of about 5,000 Red workers of Finnish origin from Russia will be the signal for the revolt.

"Don't fear these returning revolutionists," M. Seelberg, the Finnish Minister here told me. "They will be divided into groups of 500 and scattered throughout the country in a way that their massed effectiveness will be destroyed, though it is more probable that they are returning, disgusted with the blows and starvation of Soviet Russia, and ready to be patriots."

SOLD LIQUOR; GETS SIX MONTHS IN JAIL

OSHAWA, Feb. 25.—Convicted of having liquor for sale between Jan. 1st and Feb. 3rd this year, Charles Carnegie, who pleaded guilty of this, his second conviction, was given the minimum sentence of six months with hard labor in the County Jail.

POLICE MAGISTRATE D. W. DUMBLE ENTERS UPON 85TH MILESTONE

DEAN OF THE PETERBORO BAR IS STILL HALE AND HEARTY—HE CONDUCTS POLICE COURT DAILY.

Police Magistrate D. W. Dumble, K.C., to-day attained his eighty-fourth year. The event was unnoticed in any way by the venerable magistrate, albeit there was a keener twinkle in his eye, and his step a little brisker as he looked toward the eighty-fifth milestone of his life. The dean of the bar was busy receiving birthday congratulations from a host of friends who remembered the date to-day, but in many respects the day is a sad one to Magistrate Dumble for memories of old friends long since gone to their rest, and associations of years ago are recalled and birthdays are periods glad to be hurried over and forgotten by him as they are by others.

Born in Ireland.

David William Dumble was born at Ballymoreeustace, County Wicklow, Ireland, on February 25, 1837, So he is an Irishman, but he was not destined to stay long in the Emerald Isle. His father, Thomas Dumble, was a Cornishman, and an officer of the Royal Sappers and Miners (later called the Engineers.)

Mrs. Dumble, his mother, came of Irish stock, from County Down. David Wiliam Dumble therefore came honestly of the good characteristics of two peoples.

His father was an expert surveyor, and the third son, David, was born while a survey of certain sections of Ireland was being made. When the survey was completed, four years later, the corps of "Sapers and Miners' were moved to Yorkshire to carry on a similar work, and with them went the mother and her family. Three years the family were in Yorkshire, and Magistrate Dumble's first recollections are of that northern country. Engineering was at that time controlled by the government and the corps was ever on the move.

Ordered to America.

In 1844 the entire surveying corps, of which Thomas Dumble was a member, was ordered to America to take part in the survey of the Maine and New Brunswick boundary, under the Ashburton Treaty. On the "Resistance," one of Nelson's three-dacker warships, the corps, including the Dumble family, came to Canada. The crossing occupied just six weeks, and Magistrate Dumble's remembrances of the trip are undimmed to-day. Shipboard life on the great wooden sailing vessel is remembered well and one incident at the end of the voyage when the ship struck an uncharted rock in the St. Lawrence, and a woman passenger nearly went into hysteriics, although the ship got safely off, is still verdant in his memory. The long sea voyage was ended at Quebec, and the Dumble family separated, the mother and family going to Cobourg, where the family had relatives, the father and the eldest son, John, going to New Brunswick.

While on this survey John Dumble worked as topographical engineer for the British forces, and John Pope (then a young officer who later became a general in chief of the northern forces of the American army and played a leading part in the civil war) was similarly employed by the American government.

The survey and later detailed completion of the work at Washington, ocupied three years. At the end of that time Thomas Dumble had completed twenty-one years service in the army and was honorably retired. The family was reunited at Cobourg. David Dumble was then ten years old and attending school.

His Early Life.

His early life, divided between sports and play, he believes has resulted in his unusual robust constitution. In 1860 he graduated from Victoria College, with the letters B. A. tacked on to his name. He studied law first in the office of the late Senator Kerr of Cobourg, father of F. D. Kerr of this city, and finished his law studies in Toronto, under the late Chief Justice Harrison, of the firm of Paterson and Harrison. In 1863 he was admitted to the bar in Toronto.

The year previously he had joined the ranks of the benedicts by marrying Mary Louis Harry of Lockport, New York state, after a courtship (he confided this) of five years.

Came to Peterboro.

"I came to Peterboro in 1863 with my wife and one child, and I have lived here in peace and comfort ever since. I have had a smooth, quiet life," states Magistrate Dumble. He opened a law office here competing for business with old-established barristers, and within a few years he was one of the outstanding legal lights of the city. Recognition of his abilities is found in his appointment in 1883 as police magistrate of this city, a position he has filled continuously for 38 years, with marked success. Twenty years experience in law practice, diversified study and reading, his inherent qualities of a Christian gentleman, clear perception and probity, all fitted him for elevation to the magisterial bench to succeed the late Magistrate Hatton. During his thirty-eight years as police magistrate he had dealt with thousands of cases impartially and fairly and little need be said of the magistrate's equity to unfortunates and juveniles brought before him. "I've enjoyed the duties—I've always tried to do right." This is all Magistrate Dumble will say of his 38 years service.

Made Kings Counsel.

In 1902 he was made King's Counsel, a distinct honour, and an appreciation of his legal qualifications.

Peterboro was but a small town, when he first assumed his magisterial duties. As it has grown so has the work increased but he has always filled his position capably. No case has been too long and the occasions on which he has gone without his dinner to hear another witness in a police court case, are without number.

Chief Constables may come and Chief Constables may go, but the Police Magistrate goes on forever, and every morning sharp at ten o'clock or a few minutes after, the door of the police station flies open with a bang to admit the hale, and hustling magistrate. There can never be any complaints that he sidestepped his magisterial work.

In his law practice he has been associated for many years with his son-in-law, Mr. William F. Johnston.

Police Magistrate Dumble's brother, John, became Chief Engineer of the old Cobourg and Harwood Railway and an engineer of considerable fame in Ontario and Quebec. His father had charge of much road building in Durham and Northumberland Counties and the name of his brother Thomas, will be remembered with road construction in Ontario. Of the four sons and four daughters, only David and Albert Edward, born the same day as and called after King Edwad VII, are living. Albert Dumble is conducting a fruit farm in Florida, and has frequently visited his brother. His mother died shortly after he came to Peterboro; his father some 38 years ago.

Served on the School Board.

Magistrate Dumble's chief service to the city was on the school board on which he served 26 unbroken terms. He was one year on the council. He is according to his own statement a "dyed-in-the-wool" Liberal. Once he ran on the Grit ticket but was defeated by W. H. Scott, by two votes. Never again did he venture into the political arena.

In religion Magistrate Dumble has been an adherent to the Methodist faith and since 1863 associated with the George street Methodist church, in which he has filled practically all of the church offices.

A Fisherman.

Of late years hunting and fishing occasionally have satisfied his taste for sports. His hobby has been gardening and he likes to tell of people gazing at him through the mists of early morn as he hoes his garden. In the summer he unfailingly rises before daylight so he can get his gardening done and be down to his office early.

Police Magistrate Dumble has six sons, William of California; Frank, of Rochester; Clarence of Alberta; Hal., of Winnipeg; Oscar, of Toronto; and Fred of Peterboro; and two daughters, Mrs. W. F. Johnston, and Mrs. Chas. F. Reid, residing in this city.

Next year, on May 23rd, he and Mrs. Dumble will celebrate their diamond wedding and the event will be fittingly observed. To-day he celebrates his eigthy-fourth birthday and as a body the citizens will wish Magistrate Dumble "Many happy returns of the day."

BETTER.

At gambling all his coin he blows,
He bets his coin with careless laugh;
His wife is angry, for she knows
Her husband is her better half

SUCCESSFUL YEAR FOR THE 57TH REGT. CHAPTER OF I.O.D.E.

FINANCES IN HEALTHY CONDITION AFTER GENEROUS DONATIONS TO WORTHY CAUSES---OFFICERS ELECTED.

The annual meeting of the 57th Regiment Chapter was held yesterday afternoon in the Armouries, the Regent presiding. The following officers were elected for 1921:

Regent—Mrs. E. B. Clegg.
1st V. Regent—Mrs. V. Eastwood.
2nd V. Regent—Mrs. A. W. Turner.
Cor. Sec.—Mrs. C. R. Widdifield.
Rec. Sec.—Mrs. Gillespie.
Educ. Sec.—Mrs. A. Macdonald.
Echoes Sec.—Mrs. R. T. Hounsell.
Treasurer—Mrs. W. Sharpe.
Standard Bearer—Miss S. Robinson.
Executive—Miss Davidson, Mrs. A. Sharpe, Mrs. J. H. Eastwood, Mrs. Rush, Mrs. Walker, Mrs. G. Hall, Mrs. Gemmell, Mrs. Cottrell, Mrs. Foote, Miss Rubidge.

Meetings in Y.W.C.A.

Mrs. Jamieson read a most interesting report on the educational work of the I.O.D.E. as a whole, also outlining the work done by this Chapter in the past year. Mrs. A. Macdonald read a paper on "The New British Commonwealth," a very clever and historical outline of the growths of constitutional government and Imperial unity. During the coming year the meetings will be held in the Y.W.C.A.

Miss Helen Hall, treasurer, submitted her annual report, which showed the Chapter's finances to be in a healthy condition. The receipts from different sources totalled $1,000.14, including a balance from 1919 of $93.50. The expenditures amounted to $643.49, leaving a surplus of $356.65. During the past year donations were made to Soldiers' Comfort, Baby Clinic, the Preventorium, Local Council of Women prizes at boys' camp, Y.M.C.A., and Peterborough Rangers.

Secretary's Report.

Mrs. C. R. Widdifield, corresponding secretary, submitted the following report of the year's activities.

During the past year there have been nine regular meetings, as no meetings were held in July, August and December. Financially, the year has been a great success. In the spring the Chapter gave a most enjoyable bridge and dance, but nothing more was done till the fall, when a rummage sale was held in October, netting about $50. In November a tea was given on armistice afternoon, in lieu of the dance the Chapter had decided upon as an annual affair to commemorate Armistice Day. Our annual bazaar held in December was a great success, bringing almost $500 into the treasury, and the play, "King Dodo," which the Chapter is putting on early in March is hoped shall have the same success.

The Chapter has given generously of its funds. $100 was sent to the Preventorium, $50 was given to the Baby Clinic, and socks were sent to the Navy League at Christmas. A convention fund has been started in the Chapter for delegates to the various I.O.D.E. meetings.

The Chapter is to be congratulated on the appointment of Mrs. Duncan Walker to the Provincial Executive of the I.O.D.E.

Empire Day was observed as usual by the placing of flags on soldiers' graves.

Mrs. John Bruce, retiring National President of the Order, addressed the June meeting, giving a most interesting account of the annual meeting in Calgary; she laid great emphasis on the important work that lies before us in carrying out the aims and objects for which the Order is formed.

The Chapter deeply regrets the necessity for retiring of our former Regent, Mrs. Davidson, and realizes that the community at large has lost a very valuable citizen, but her position has been ably filled by the 1st Vice-Regent, Mrs. E. B. Clegg.

As worthy Daughters of the Empire it is incumbent upon us all to see that due respect is paid to the National Anthem, and also to barr the Hearst publications from our homes

CRERAR SLAPS BOTH PARTIES

SAYS HE WILL SUPPORT KING AMENDMENT FOR AN ELECTION

OTTAWA, Feb. 25. — (Canadian Press).—Speaking in the debate on the address, Hon. T. A. Crerar, leader of the Progressive party, announced yesterday afternoon in the Commons that he would support the King amendment, not because he believed that the Government were usurpers, but because he believed that they had lost the confidence of the people.

He advocated the naval holiday idea and stated that the acceptance of warships from Britain by Canada was wrong. He also urged closer trade relations with the United States which he believed to be Canada's best market, and stated that the present high United States tariff was the outcome of the defeat of reciprocity in 1911. He favored a special committee to deal with the National Railways situation and declared that, properly handled, they should become a national asset.

He criticized both old parties and characterized the speech from the Throne as a meagre bill of fare which was very much like the balance sheet of a firm going into bankruptcy. He summed Mr. King's speech up as "the Government should get out" and Mr. Meighen's as "the Government will stay in power as long as it can."

"DESERT GOLD" THE GREATEST OF ZANE GREY'S WORKS

Zane Grey's "Desert Gold," which comes to the Allen Theatre, beginning to-day, is certain to add lustre to the fame of America's premier novelist. Not only has "Desert Gold" been acclaimed the greatest of Zane Grey's works, but the screen version produced by Benjamin B. Hampton and Eltinge F. Warner for Zane Grey Pictures, Inc., is the **first** production from a Zane Grey novel that has won the author's approbation. A cast of brilliant players, headed by E. K. Lincoln, star of countless cinema success, includes Eileen Percy, Margery Wilson, Edward Coxen, Walter Long, W. Lawson Butt, Russell Simpson, and Arthur Morrison.

"Desert Gold," a W. W. Hodkinson release, depicts the stirring adventures of Dick Gale, a sturdy soldier of fortune. He encounters an old college mate, Captain Thorne, on his travels, and assists with the aid of two cowboys in rescuing the army officer's sweetheart, Mercedes Castenada, from Rojas, an outlaw, and his pack of plunderers. Thorne returns to duty, but Dick and the cowboys journey with Mercedes to Rio Forlorn to seek refuge for her at the home of Jim Belding, a rancher.

That night Gale, Thorne, and the cowboys outwit the bandits and make their way to Yuma. Hiding Mercedes in a cave, Gale and the others take their stand to battle the outlaws. The desperado band is wiped out, with the exception of Rojas, who finds Mercedes and attacks her. Yaqui rushes to the rescue and throws the bandit chief over the cliff.

Even with Rojas out of the way, there are obstacles aplenty in Gale's fight for the hand of Nell, Belding's foster daughter. How his valiant ranch rider sweeps them aside leads to a smashing climax—a thriller that will at once surprise and hold spellbound an already highly thrilled audience.

"Peterborough Presents Possibilities Unsurpassed."

FRIDAY, FEBRUARY 25TH, 1921.

CONGRATULATIONS.

Citizens of Peterborough will join with the Examiner in congratulating Police Magistrate D. W. Dumble to-day on the occasion of his eighty-fourth birthday. His Worship, who has presided over the proceedings of the Peterborough police court for thirty-eight years, seems to have found the much-sought fountain of youth, for each day finds him alert and ready for the opening of court, and the passing years appear to have touched him but lightly. For nearly three score years Mr. Dumble has been a resident of Peterborough and has ever taken a keen interest in public affars and in the welfare of the community. The citizens will unite in wishing him many repetitions of today's anniversary.

THE COUNCIL OF WOMEN.

The report of Mrs. Robert Harstone, President of the Local Council of Women, which appeared in last night's issue of the Examiner, was a revelation to many citizens who have not kept closely in touch with the aims and activities of the Council. The record of what the organization has accomplished since its formation eight years ago is a remarkable story of achievement. The securing of a school nurse, the launching of a Mothers' Club in the city, the inspiration of the movement which resulted in the organization of the Playgrounds Association, and the formation of the Well Babies' Clinic, these are results of which any Association wolud have good reason to feel proud. Twenty-seven different local societies are affiliated with the Peterborough Council of Women and apparently the enthusiasm of t members is being maintained at the same level that permited these splendid results to be attained. Further work of the same kind may therefore be expected from the Council, whose activities during the coming year will be watched with much interest.

THE RADIAL INQUIRY.

The lawyers engaged in the inquiry into the feasibility of a Hydro radial system in Ontario claim that they are not responsible for the manner in which the investigation is being dragged along. One of the counsel declares that he is heartily tired of the inqury and in that respect he is on the same ground as many other people. Even those who aproved the decision of the Drury government to investigate the question of radials before committing the province in any way are beginning to wonder if the commission is ever going to terminate the inquiry. So-called experts, with minds full of theories and speculation, have been called to discuss the matter in such numbers that the record of the evidence must be of record-breaking length. And there are hundreds more waiting their turn to air their views on the Radial question. By the time they have all been heard, the development of aerial transportation may have rendered radials a thing of the past.

THE SPEED LIMIT.

The resolution recently passed by the local Police Commissioners at the instigation of Police Magistrate Dumble, advocating a reduction in the speed limit for automobiles, has made its appearance in the Ontario Legislature in the form of a measure introduced by Thos. Tooms, M.P., calling for a ten mile an hour limit in cities, towns and villages, and for a reduction to eight miles an hour when approaching street intersections, where the view is obstructed. Some amusement apparently followed the introduction of the measure, and according to the press reports, Dr. Forbes Godfrey and H. H. Dewart, K.C., were prominent in the chaffing. However, it was not to be expected that a lower speed limit would appeal very strongly to all doctors and lawyers. The present limit of twenty miles an hour is a much more profitable source of revenue to both professions than the speed advocated by the Peterborough resolution would be, so that the mirth of some memebrs of the Legislature is not difficult to understand.

STRIKING THE RATE.

This week the City Council is busy with that important operation commonly referred to as "striking the rate." In other words, the aldermen are endeavouring to decide upon the appropriations for the year and to keep the tax rate from climbing to dizzy heights. The annual problem is the most difficult with which the Council has to contend, and this year it is complicated by new demands that include $10,000, the city's share of the cost of mothers' allowances, $14,000 for suburban road allowances, and $2,000 for unemployment relief, while in addition the Utilities Commission's proposed change in the system of charging the city for its share of the waterworks department's expenses for fire protection. Each year the appropriations are attacked in the laudable desire to economize, but, as naturally might be expected, while every chiarman is willing to cut down the estimates, he usually wants to trim everybody's appropriations but his own. The result generally is, therefore, that none of the estimates are reduced as much as they might be, in spite of the sincere desire of the aldermen to keep the civic expenditure as low as possible. A very large amount of the money annually expended by the city is beyond the control of the Council, and when these expenditures are subtracted from the total it will be seen that the adoption of vigorous methods of economy, almost amounting to parsimony ,are required to keep the tax rate at a level that will not cause too many complaints from the ratepayers. The civic departments cannot be allowed to deteriorate, and in addition there are various public institutions which are at least partly dependent upon financial assistance from the city. All these considerations enter into the striking of the rate and, give the alderman who takes his civic duties seriously, a good many anxious moments.

ONTARIO AND THE HIGHER EDUCATION.

The report made public of the Ontario Commission on University finances seems, on the whole, an admirable one. It clearly proceeds on the principle that the people of Ontario owe big money to the cause of the higher education; and it recognises the principle that other universities than Toronto should receive support from the Provincial treasury. The recommendation that Toronto University should get annually one-half of the Provincial revenue from the inheritance tax looks a bad one, when stated without qualifications; but as the summary of the report sent over the wires from Toronto yesterday intimates that there are qualifications, without saying what, comment on this recommendation need not be made hastily.

But as regards the wisdom of spending public money on the universities, there should be no question in the minds of intelligent men. Whatever advance mankind has made in efficiency has been due to education. Genius is a wonderful thing; but genius could have affected the world but little but for the aids supplied by ordinary men with powers developed by education. The poems of Homer have had effect on human mind for well night three thousand years, the gospel of Christ has moulded Western civilsation for two thousand years, but neither could ever have touched anything but an infinitesimal portion of the human mind or heart but for the inventions of paper and printing; and these discoveries, like almost all inventions and discoveries, have been the products of common intelligences more or less educated. All human science, almost all human knowledge of anything but the animal side of human life, is the product direct or indirect of education. A man may be an efficient, even a remarkable individual without education, but without the presence of much education no race or community of men can be efficient, much less remarkable or permanent. A man can make money without education; no community as a whole can attain much wealth or much comfort or much justice without a strong leaven of education. Education has enabled man to discover the facts of the universe, the distance of the stars, the path of the planets; education has introduced him to the powers of light and heat and electricity; education has enabled him to live beneath the sea and travel among the clouds; education has revealed to him the ways and means of crossing a continent or an ocean in almost a day, of whispering across in a few seconds, and of flinging a word into the air and having it received in a moment a thousand miles away. Education has gven to the farmer and the mechanic machinery which enables one man to do the work which used to take ten, fifty, or a thousand men the same time. Education has supplied means to banish from mankind the awful pain of surgical operations, and supplied means to prevent the attacks of many diseases. Education has made chemistry and metallurgy tremendous factors in human affairs. The mariner's compass, the miner's dynamite, the railway locomotive's steam, artificial fertilisers of the soil, are gifts from education. But why go on? Whatever conquest over nature man has made has been due to the progressive development and training of human faculties which we call education. Reading, writing and arithmetic in the common schools lay the basis of the ability of men and women to take advantage of all that has been learned in the world before they came; and beyond the reading, writing and arithmetic of the common schools is needed that further training and equipment of the human intelligence which is called the higher education, which assists the mind of man to wrestle with investigation of all the possibilities and potentialities of himself and the universe in which he s individually but an atom.

Most of us in our human communities jog around in a little orbit of routine, earning our daily bread with little thought beyond the immediate needs and interests and desires of our business and family life, not troubling with speculations and experiments in more or less abstruse matters. But in these abstruse matters lies a vast deal of importance, and the minority among us who keep dabbling in them with faculties sharpened and equipped by education are the saving salt of human progress. Some "successful" men have been known to sneer at college education. Their brains are of the narrow-gauge type. Civilisation would not be worth shucks to-day but for college education.

"High-brow" is a shibboleth of ridicule. Never was there a sillier one. The so-called practical man, be he day labourer or millionaire, who imagines himself to be something useful and efficient, would be only a half-idiotic cave-dweller but for the high-brow. It is the dreamer, and chiefly the educated dreamer, who has made human dignity possible, and human efficiency high. And if in the spirit of man there is anything worth while, it can be brought to its best and widest reach only by a resolute promotion of all the education which can help to develop and promote intelligence and morality. Ontario should be anxious to spare nothing towards this end. Ottawa Journal.

EDITORIAL NOTES.

Magistrate Dumble is 84 years old to-day. And he has given away a good many years, too.

The committee of the Legislature appointed to probe the marketing of Ontario's fruit should endeavor to find out why Ontario people are dependent upon British Columbia, Oregon and Washington for apples.

Toronto members seem to find the proposal to reduce the automobile speed amusing. From the record of accidents in Toronto it might have been imagined that the Queen City's representatives would be strongly in favour of a lower limit.

The Council has decided to make the Health Association grant the same amount as last year. The people will approve of the decision, for the work of the Association has impressed itself upon the citizens.

So far there has been more discord than harmony in connection with those Sunday concerts.

WISE AND OTHERWISE

Although the United States' President-elect has been asked not to smoke cigarettes, he intimates that he will soon smoke the pipe of peace with Germany.

And incidentally the woman who did the asking is now minus her job as organizer for a reform league. Evidently professional reforming requires a watch-your-step policy unless you want to step out of your job.

"Pop," asked little Willie, buried in the front page of a newspaper, "what are public accounts?"

"They must be the bills which are sent in unsealed envelopes."

Extract from a speech sent out to newspapers by the publicity department of a certain institution recently: "Tell your story in electric railway cards, in the display advertising columns of the daily newspapers, through YOUR EMPLOYEES — everywhere that there is BLANK SPACE to fill."

"Am I speaking to the head of the house?" asked the canvasser.

"Just a moment, I'll call her," replied Mr. Henpecked.

London, Ontario, has sunk a huge well which is expected to increase the city's water supply by about half a million gallons. This should give the border cities food for thought.

The young lady next door is still wondering who sent her the valentine in an unsealed envelope, apparently in order to save a cent in postage.

"The tongue is mightier than the pen," gasped the editor as the indignant woman visitor swept grandlyout of the sanctum.

The New York Tribune fails to agree with the critic who claims that much social unrest is due to the portraits of the young man of abnormal shoulders and pinched waist who grins from the art galleries of the magazines. Perhaps the Tribune is right, but some of these portraits would make the normal man restless to tear them up.

The three principal exports of Canada are wheat, flour and lumber

TELLS COURT OF BIG LIQUOR PLOT.

Chicago Saloon Keeper Tells of $200,000 Conspiracy.

CHICAGO, Feb. 25.—Morris Joy, a West Side saloonkeeper, yesterday told the Court his story of the alleged $200,000 Chicago-Louisville liquor conspiracy in which he said he lost $10,824, a diamond pin, a watch, and other valuables.

Despite objections of counsel for the defence, Joy testified that arrangements for distributing the carload of liquor were made in Nathaniel Perlman's saloon, and he named among those present Timothy Judge and Edward Smale, both policemen. Joy said his truckload of liquor was held up and that he and his partner were robbed of their personal effects. He testified Smale was one of the party which held up the truck.

Two dozen Louisville and Chicago men are defendants in the case.

STEADY GROWTH SAVINGS BANKS.

Provincial Institutions May Finance Rural Credits.

WINNIPEG, Man., Feb. 24 (by Canadian Press).—The majority of the undertakings of the Province will ultimately be financed by the Provincial savings banks, Hon. Edward Brown, Provincial Treasurer, states.

Announcement was made recently by E. A. Weir, chairman of the Provincial savings banks, that deposits already exceed $1,750,000. He predicted that the $4,000,000 mark will be reached before the end of the fiscal year. A comprehensive plan for opening branches in every centre of the Province is being drafted, and will be carried into effect as soon as conditions warrant the extension of the service. Many new accounts are being opened daily at the six branches operating in Manitoba.

The sum of $31,000,000 was required for financing Manitoba during 1920. This included consolidated and capital expenditures, repayment of debentures falling due, and payment of interest charges on treasury bills and Provincial bond issues.

It is expected that the Provincial banks will be able to finance all rural credits and farm loans during 1921. It is anticipated that over $3,000,000 will be required for these two items during the present year. The growth of the rural credits movement has corresponded to that of the savings banks. Fifty-eight operated in Manitoba last year. It is expected over 100 will be organised before the end of the year. Loans for 1920 totalled $1,460,000.

"Perkins," said Mrs. Snob to her Maid, "go down to the beach and see if the ocean is occupied. If no other lady is using it, I may take a dip!"

INSURES LIFE TO AID WHITMAN INQUIRY.

Edward Hatch Obtains $75,000 Policy Payable in Event of Death by Violence.

NEW YORK, Feb. 24.—Edward Hatch, who, before the city appropriated funds for the Whitman inquiry into the city departments, sent a $20,000 check to former Governor Whitman for use in the inquiry, has taken out a $75,000 life insurance policy to create a trust fund to be used in investigating graft charges. The fund will come into being only in the event of Mr. Hatch's death by violence as a result of his part in the graft inquiry. The obtaining o fthe insurance was inspired as the result of threatening letters received by Mr. Hatch.

Mr. Hatch admitted to reporters last night that the policy had been obtained for the specific purpose of creating the fund and that it was so endorsed in the policy. He declined to discuss the details of the proposed fund or to name the insurance company that had issued the policy.

"I have had a number of threatening letters as a result of the inquiry," Mr. Hatch said. "This circumstance was the inspiration for taking out the insurance. I thought that if any one did attempt to get me out of the way success would prove a boomerang to those who do not want the graft inquiry to continue."

Some of the letters to Mr. Hatch have been investigated, so far as was possible, but they were anonymous and there was nothing in them to give any "leads" in the search for the writers. The threats are said to be similar to those reported to have been made against Mr. Whitman and some of his assistants. Mr. Hatch began to receive them after he had turned over to Mr. Whitman his certified check for $20,000 for use in the inquiry, at a time when the activities of the graft prosecutors seemed about to be hampered for lack of funds. Later the Board of Estimate passed an appropriation to pay for the inquiry and Mr. Hatch's check was not used, although it is still in Mr. Whitman's hands.

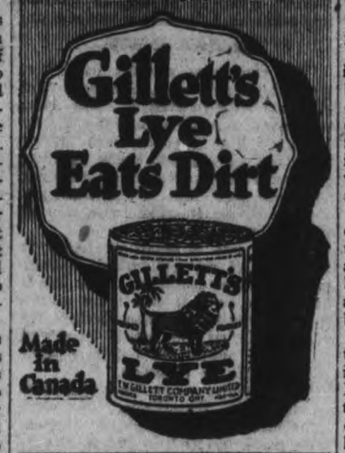
"TAG DAYS" MAY BE ELIMINATED.

Proposal to Collect Funds By "General Drive."

WINNIPEG, Feb. 24 (Canadian Press).—Proposals to eliminate tag days in Winnipeg and distribute funds to charitable institutions through a Federated Budget Board are being considered and probably will be adopted in the near future, according to information obtained at the City Hall. The Board would have 12 members, including a manager, a secretary of information and publicity, and an executive of five members. Funds from the public would be collected by means of a "general drive," and not by piecemeal contributions.

Household Necessity

Make Gillett's Lye your household assistant. Use it for making soap—for washing dishes—for cleaning sinks—for washing greasy pots and pans. It cleans and disinfects



CURIOUS WILL OF TEXTILE MAGNATE.

Disposal of Capital Sum of Estate to be Conditional.

(Special Correspondence, Cross-Atlantic Newsaper Service.)

LONDON, Feb. 24.—Ninety-seven Atlantic crossings was the record of John Sharman, a Yorkshire textile manufacturer, who died recently leaving a somewhat curious will. He bequeathed to his son, Wybert, $3,000 a year with conditional disposal of the capital sum. He directed that his son "shall live well, but not be extravagant, and have such social pleasures as may appeal to him." He also desired Wybert not to leave any legacies to religious societies.

Another interesting will just published is that of Mrs. Charlotte Auguste Haig, a daughter of the late William Astor of New York, who left over $300,000. Among her legacies was the silver plate with his crest or initials belonging to her late husband, George Ogilvie Haig, which she left to her brother-in-law, Field Marshal Earl Haig.

With the possible exception of the influenza germ microbes are said to be easily measured.

TRADE OUTLOOK NOW BRIGHTER IN ENGLAND.

Many British Bankers and Industrial Leaders Believe Worst of Depression Has Been Reached.

LONDON, Feb. 24.—(Associated Press).—Many British bankers and industrial leaders say they believe the worst of the recent trade depression in this country has been reached and that the outlook is brighter.

At the annual meeting of the Bank of Liverpool and Marine Bank, the Chairman, Edward Paul, while admitting the extent and severity of the existing trade depression, did not despair of the power of Great Britain to emerge at no distant date from the difficulties through which it is passing.

He said there were some reassuring features and a good deal of sound business was being done in various directions. The cost of food was coming down gradually and the fall in prices in many commodities, while it caused serious loss to many individual traders, was a relief to other sections of the nation.

He pointed to the rise in the American exchange as a favorable factor and said, while there had been a few failures, the fact that there had been no general catastrophe was a great tribute to the economic stability of the country.

Frank H. Houlder, Chairman of the Houlder Shipping Line, presiding at the annual meeting of the Line, said: "My hope and belief is that the present depression has been overdone and that we may soon look for some little rebound which will enable business to be resumed and developed, with a moderate margin of profit. At the moment, however, there is no gain saving the fact that the outlook is very unpromising."

Lord Colwyn, presiding at the annual meeting of the Lancashire and Yorkshire Bank, said from a trade standpoint 1921 had opened in depression, but he could see no reason to be unduly despondent about the future. Lancashire had weathered worse storms in the past.

Sir Herbert Austin, of the Austin Motor Company, said there was a certain amount of depression in the motor trade, and throughout the country at present, but he was certain that the majority of firms in trade were selling more cars today than they did in the same time of the year previous to the war.

"I believe," he continued, "we have come to the bottom of the depression and that we are going to see a recovery in our particular trade and in many other trades of the country."

H. Dixon, presiding at the annual meeting of James Tattersall and Sons, cotton manufacturers, said Germany must be got moving again before there could be any real steady trade. Given that, with the excess profit tax out of the way and the bank rate reduced, he thought there would be a very prosperous trade.

F. J. Blackmore, President of the National Chamber of Trade, said: "I can promise the country that food prices are going to fall much lower than they are at the present time. The index figure at the Ministry of Labor is now 11 points down from the highest point it reached. I forecast that during 1921 the present dark clouds of unemployment will rapidly pass away and that when this year has passed into history we shall unanimously agree that it has been one of the best years this country has ever been experienced."

LUTHERANS AND PROTESTANTS IN BIG CELEBRATION.

Will Participate in World-Wide Observance of 400th Anniversary of Martin Luther's Arraignment Before Diet at Worms.

NEW YORK, Feb. 24.—(Associated Press).—Eighty millions of Lutherans and innumerable other Protestants, it was announced here to-day by the National Lutheran Council, will participate in a world-wide celebration on April 17 of the 400th anniversary of the arraignment of Martin Luther before the Diet at Worms.

"When Luther nailed his ninety-five theses upon the door of the University of Wittenberg and refused to recant his alleged heresies despite the threat of excommunication," says the statement of the Council, "he helped to usher in modern religious and civil liberty. Denouncing as tyranny the enslavement of Christian conscience, the dauntless monk declared the Bible to be the only infallible rule of faith and practice and closed his defence with the words, 'There I stand. I can do naught otherwise. So help me God! Amen.'"

The Main Purpose.

The main purpose of the celebration, it is stated, is to obtain a clearer understanding of how Lutherans and Christians of other denominations throughout the world may become "more effective in bringing God's will to bear powerfully upon present unhappy world conditions." To this end, special congregational services will be held on Sunday, April 17, and at 4 p.m. on that day, the hour when Luther was summoned to confront his judges, all Christians are invited to read the Scriptures, meditate and pray for "purity and unity of the Christian faith, effectiveness in all good work and the advancement of true Christian liberty, brotherhood and universal goodwill."

A message from the Council, addressed to the Lutherans of every land, recommended the quadricentenary as "a fitting time to review the benefits inherited from Luther's unshakeable utterance. The tribunal before which Luther appeared was the most imposing assemblage of church and state potentates that could have been gathered anywhere in the world at that time." It continued:

"A century earlier John Huss appeared before such a body under very similar charges and was burned at the stake. Luther knew that but he went fearlessly forward to the test. He knew that his writings gave expression to the deepest yearnings of multitudes of pious souls among his countrymen. He had arrived at a new principle of religious authority. He definitely rejected all authority except the word of God in matters of religion. With the dramatic scene at Worms, Luther burned all bridges behind him.

Church and State.

"The incident contributed another principle that is vital to the modern world: The principle of separate functions for church and state; the only principle that guarantees freedom of conscience, right of private judgment and religious toleration.

"Times not yet born were listening. Thus the spirit of modern liberty was conceived in the first quarter of the 16th century in the rugged soul of a mediaeval monk. It was born in the last quarter of the 18th century on the Atlantic seaboard of the North American Continent. And now, in this first quarter of 20th century by the grace of God it is coming to full maturity all over the world."

The Programme.

The programme for the celebration will include, beside special gatherings in churches and halls by congregations, women's organizations, young people's societies and men's brotherhoods, other features such as Sunday School exercises, music of the reformation period and street pageants. Large art posters and a quadricentenary handbook symbolizing Luther's work will be distributed.

Messages from Lutherans in every walk of life throughout the world will be read at most of the meetings. They will be received by the Council here and after being compiled will be sent broadcast to all churches. The messages will be confined to these topics: "The influence of Luther's stand at Worms on subsequent individual, church and civil life. An estimate of the successes and failures of the Lutheran Church and the reasons and the means by which Christianity may be made more effectual in its work for mankind."

IF you want healthy, sturdy children, you must provide them with the right kind of food. At the same time it must be food that they enjoy.

The value of Cocoa as a beverage for children cannot be too strongly emphasized. It is both food and drink. It not only provides the hot drink which children crave, particularly in the winter, but it is rich in concentrated nourishment.

Often a child will refuse milk when it is essential to his health. Give him Cocoa and he loves it, and gets far more of the requisite nourishment than he would in a glass of milk.

Cowan's Cocoa, made in Canada, is prepared with an understanding of the requirements of Canadian children, and the mother who gives it to her children every day, is helping them to develop strong, healthy bodies and to withstand cold and illness.

A RAW, SORE THROAT

Eases Quickly When You Apply a Little Musterole.

And Musterole won't blister like the old-fashioned mustard plaster. Just spread it on with your fingers. It penetrates to the sore spot with a gentle tingle, loosens the congestion and draws out the soreness and pain.

Musterole is a clean, white ointment made with oil of mustard. It is fine for quick relief from sore throat, bronchitis, tonsilitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet, colds on the chest. Nothing like Musterole for croupy children. Keep it handy for instant use.

MUSTEROLE
WILL NOT BLISTER

COAL BURNING UNDER SCRANTON.

Fire Fighters Fail to Check Blaze in Old Mine.

SCRANTON, Pa., Feb. 23. — A red-hot coal, ten feet in thickness, and at least 500 feet in length, is blazing 400 feet under Scranton.

The fire is located in the abandoned workings of the old Central Mine, West Scranton,, and is steadily creeping eastward, consuming in its course thousands of tons of anthracite. All efforts of 200 fire fighters to extinguish the fire, or even to check its progress, have up to the present, been of no avail. Seven streams of water have for weeks been pouring upon the burning coal with no apparent result, the water causing fantastic vapours in the white heat which serve only to hamper the work of the fire fighters, already hampered enough by the heat and poisonous gases issuing from the burning coal.

The firemen enter the mine through a shaft two miles away. They are unable, on account of the terrible heat, to venture any nearer the fire than 500 feet. A perpendicular airshaft, located directly above the fire and communicating with the open air 400 feet above affords a draught greater than that of the most towering smokestack. Grave danger confronts the men fighting the flames, as a sudden depression in the atmospheric conditions above might send the sulphurous gases backward, resulting in suffocation.

All faith in the efficiency of water to extinguish the flames has been abandoned, and the erection of walls to exclude air and cause the fire to die of enert gas is the plan of fire fighters, following an investigation by a commission from the State Department of Mining. Concrete walls four feet thick are being built in all tunnels and crevices leading to the fire.

In sections of adjacent veins, remote from the scene of the fire, temperatures of 170 degrees Fahrenheit have been recorded as a result of the fire.

The abandoned mines of the People's Coal Company, communicating with the Central Mine, where the fire is located, contain large quantities of gas. If the fire should come in contact with this gas, an explosion would result, the effects of which are incalculable, according to experts. There is no immediate danger of this, the experts add comfortingly, and it is predicted that within a few weeks, through the present method of fighting the flames, the fire will be smothered.

PRISON METHODS OF BOLSHEVIKI LACK DECENCY.

California Labor Leader Tells Story of Inhumane Treatment of Self and Wife by Russian Soviets

BERLIN, Feb. 5.—(By Mail).—(Associated Press).—Bolshevik prison methods lack all elements of decency and civilization, says M. Schwartz, California Socialist and labor leader, who, with his wife, was thrown into Bolshevist prisons in Moscow for four months after he had failed to voice approval of the Bolshevist Government. His wife died of the effects of a hunger strike started while in prison, as he has made known in previous statements.

Deprived of Wife.

"My first two months in prison were the worst," Mr. Schwartz said after arriving in Berlin. "My wife, who could not speak a word of any language but English, was taken from me. I did not know whether she was in the same prison, or what had become of her. I could not get a word of satisfaction from any of the prison officials.

"There was a small peephole in the door of my cell which opened into the main corridor. This had a little slide over it and there was a sign in Russian warning the inmates of the cell that they would be placed in solitary confinement if they peeked out into the corridor.

"Many times a day footsteps passed the door. Sometimes there were light steps and I imagined women were passing. To the horror of other men in the cell with me, I occasionally moved the slide the least bit in the hope of getting a glimpse of my poor wife. I became bolder and bolder. The corridor was so dark it was difficult to recognize the people who were passing.

"Finally, in sheer desperation, I pushed the slide far back one day when light footsteps were audible. To my horror the eye of the guard almost touched mine. He opened the door and asked me if I could read Russian. I admitted I could and explained to him that my anxiety about my wife was responsible for the violation of regulations.

Confined in Dark Cell.

"I was immediately taken to a dark cell in the cellar. It was full of hungry rats. Water and sewer pipes ran all around the walls and there was so much gas that I felt I was choking. I began pounding on the door but the guard warned me not to and threatened to put me into a still lower cell if I didn't keep quiet.

"At the end of three hours I was so badly overcome by the gas that I pounded on the door in desperation and asked to see the Commissar who was in charge of the prison. The guard was apparently uneasy about my condition and called the Commissar.

"I told the Commissar my anxiety about my wife and asked him if he would not have peeped through the hole under the same condition. He was moved by my appeal and asked me if I would promise not to repeat the offense if he let me back into my old cell.

"You may be sure I promised, and I kept my promise. I had companions in my old cell, and there weren't any rats and gas there. I can't tell you how horrible it is to be confined alone. Even if one's companions have no common language, human companionship makes a cell more endurable. Solitary confinement, such as my wife endured for two months, is the most horrible punishment that can be inflicted.

Died After Release.

"Think of a cultivated, refined American woman being treated as she was by the Bolshevists! It is no wonder that her constitution was so undermined by her jail experiences that she died shortly after we were released. But her blood is on the hands of Lenine and Trotzky and Chitcherin (Foreign Minister). She appealed to them repeatedly for a hearing and so did I. She finally effected our release by her hunger strike, but her strength was not sufficient to survive the awful agony she endured."

PADEREWSKI LIKES "JAZZ," IS TYPICAL OF AMERICANS.

PITTSBURG, Feb 24.—The shimmering strains and discordant notes of "jazz" are typical of American enthusiasm, Ignace Paderewski believes, and in an interview here he said he liked it.

"There is no music with more strength, vitality and verve than American popular music," he said. "It can be distinguished anywhere because of these characteristics."

The pianist who deserted his art to assume leadership of his country during the war is here to attend the Polish conference.

IRISH EDITORS WARNED BY THE SINN FEINERS.

Must Not Print Details of Executions by the Crown Forces.

DUBLIN, Feb. 24.—The newspaper editor of Dublin have been notified by the "Irish Republican Army" that publication of certain prohibited details of the executions of Sinn Feiners by the Crown forces will be punished with death. The notice reads:

"The editor is hereby warned that any exploiting for vulgar, pandering to sensation, or mongering, in reports of executions of the above will be punished with death within 24 hours of publication. Particular reference is directed to the following:

"Firstly—No descriptive details of the arrival of hangmen or their assistants or the mode of procedure, or any gruesome details are to be published.

"Secondly—No descriptions of weeping clergymen leaving the precincts of a prison are to appear.

"Thirdly—The mere statement that these men died for Ireland will convey to the Irish Republic all they wish to know of these incidents.

"Fourthly—In the case of Kevin Barry (a medical student executed Nov. 1 last for taking part in an attack on a military escort in Dublin last summer, in which two British soldiers were killed), the details were threshed out to the most extreme annoyance and bitter resentment of his friends and relatives.

"The above warning is given in due time, and its strict observance is recommended.

(Sgd.) "Grand Headquarters, "Irish Republican Army."

Says Phosphate Is What Thin, Nervous People Need.

The organic phosphate (discovered by Pelouz, the French scientist(which is known to druggists in this country as Bitro-Phosphate and which is safe to take as well as inexpensive, is now being highly recommended by many phyiscians as a real strength builder and for nervousness and general run down conditions. Scores of people all over the country have been benefitted by this remedy. McDermid & Jury and all good druggists keep a supply of Bitro-Phosphate. Try it if you are not feeling up to good form.

DENY EFFICACY INFANT BAPTISM.

PARIS, Feb. 24. — (Canadian Press).—The Rumanian Government, with the object of checking the strong anabaptist movement in Transylvania, has issued a decree forbidding a change of religion without permission of the Ministry of the Interior, says a dispatch from Bucharest by the Hungarian News Agency.

The anabaptists deny the efficacy of infant baptism and insist on baptism by immersion.

FULL OF JAZZ AND GINGER!

Off to school with bounding buoyancy and vigor, tackling study and play with dash and daring, star performer in all athletic contests—that's the Shredded Wheat boy, the boy who eats Shredded Wheat for breakfast, for lunch, for dinner, and in between meals. PROPOSED GREAT POWER SCHEME IN WESTERN PART OF ENGLAND

A VERY INTERESTING ARTICLE BY TRADE COMMISSIONER NORMAN D. JOHNSTON ON A SCHEME FOR HARMONIZING THE FORCES OF THE TIDES.

TRADE COMMISSIONER NORMAN D. JOHNSTON.

BRISTOL, December 29, 1920.—A scheme for harnessing the forces of the tides on a scale which will make it the greatest water-power undertaking in the world has been worked out by the Civil Engineering Department of the British Ministry of Transport. The scheme provides for the construction of a great barrage in the estuary of the river Severn from which it is estimated about 500,000 electrical horse power per day could be generated at a cost of little more than a halfpenny per Board of Trade unit. This plan has not been definitely decided upon as it will be necessary to get the opinions of independent experts and take all matters into consideration, but it would appear to be the first scheme worked out in detail and brought to a logical conclusion for using the rotating forces of the earth in conjunction with the attractive powers of the sun and moon for the use and benefit of mankind.

The Ministry of Transport, in putting forward their Severn Barrage, Road and Railway Scheme, state that the power available in the Severn river dwarfs into insignificance all the other potential sources of inland water power within the United Kingdom put together. The Severn is unique in combining in itself all the conditions essential to the economic development of tidal water-power on a large scale.

These consist of:—

An exceptionally high range of tide.
An estuary of large capacity.
An ideal geographical situation, in relation to the industrial centres of the country.
Suitable land along the banks of the estuary for the development of industrialism.

Power Available as Compared With Other Installations.

The necessity for increased railway communication between South Wales and other parts of the kingdom, the long-felt need of access over the Severn estuary for vehicular traffic, and the possibility of combining these with a large scheme for cheaper power for industrial purposes, led to a detailed study of the whole project being undertaken by the Ministry of Transport. These studies have resulted in the formulation of a comprehensive scheme which provides over a half a million horse-power during a ten-hour day, with a peak-load capacity of over a million horse-power. In order to appreciate the magnitude of the power to be made thus available, comparison may be made with the world's greatest water-power installations:

	H.-P.
1. Amalgamated Niagara Falls Power Co.	385,500
2. Creek Development Pacific Light and Power Co.	350,000
3. Ontario Power Co.	200,000
4. Capdella, River Flamisell, Spain	150,000
5. Toronto Power Co.	146,000
6. Keokuk Dam on the Mississippi	150,000
7. Kinlochleven (Scotland)	30,660

Advantages of the Scheme.

By the use of this exormous power there would be a saving of about 3,000,000 to 4,000,000 tons of coal per annum, which would thus be available for export and would result in the amelioration of the living conditions in the great industrial areas. In addition, from a transport point of view, the scheme provides for a level road for vehicular traffic over the Severn, which obviates a detour for all traffic between Newport and Bristol of about fifty miles via Gloucester. It also provides for the quadrupling of the Great Western Railway Company's line when required between the west of England and South Wales at a considerably less cost than could be achieved in any other way. Lastly, the scheme creates a gigantic locked basin for shipping purposes on the upper Severn above the line of the Severn tunnel, of over twenty-seven square miles in extent, a very large portion of which would be suitable for the accommodation of vessels of the largest size and would be usable at all states of the tide.

The Handling of Cargoes From Ocean-Going Vessels.

It is also stated that this portion of the scheme, combined with the enormous power available at cheap rates, may confidently be anticipated to lead to vast industrial development over the whole of this area, and by bringing the great shipping further up the estuary and nearer to the existing industrial areas, thus materially shorten the distance and lessen the cost of transit to inland places such as Birmingham.

The great basin will accommodate large ocean-going steamers, and its configuration will readily admit of the construction of deep-water wharves at which shipments of all kinds can be dealt with.

In the event of the resuscitation of inland navigation as a great carrying agency taking place on such lines as were suggested by the Royal Commission on Canals in 1905, it would no longer be necessary to provide for "sea-going" traffic via canals to the great Birmingham area, as the ordinary canal barges would come alongside, and the merchandise be transhipped from the ocean liners direct into the barges in the basin.

The execution of these plans would mean the employment for a number of years of a very large number of men of all grades, both technical and labouring.

Great Engineering Works in Connection With Tidal Difficulties.

The engineering difficulties which are inseparable from any attempt to harness the tides are very formidable on account of the constantly changing times at which the tides occur and the great difference in the height of the tide at the period of spring and at the period of neap tides. There is about five times as much water-power available during a big spring tide on the Severn as there is during a small neap tide. The method of energy storage which has been adopted is that of pumping sea water from a low level to a high level when surplus energy is available, and of using the same water to drive other turbines in passing from the high level to the low level at periods when the stored-up energy is required for industrial purposes.

The Transport Ministry say that some years ago such a project would have been quite impracticable of execution owing to the low efficiency and high cost of the pumping plant which could then have been installed. Wonderful developments, however, have taken place in the evolution of the centrifugal pump, and pumps of great size have now been designed which will raise water hundreds of feet with very high efficiency. In this case the quantity of energy which has to be stored is enormous, and an artificial salt-water lake has been provided for at a high elevation in order to achieve the object desired. It is intended to force the water up from the low level of the river Wye through a tunnel driven through more than a mile of solid rock and made to discharge into the great lake. This tunnel will be forty feet in diameter, or nearly four times the area of an ordinary double-line railway tunnel, and will be the largest tunnel of its kind in the world.

Two separate installations required in connection with the power scheme are:—

(1) A great concrete dam or barrage across the Severn within which sluices and turbines would be installed for utilizing the power of the tides, and with which will be combined the road bridge and the railway bridge over the Severn at this place.

(2) The energy storage plant comprising a great high-level lake and tunnel in combination with an immense pumping and turbine power house on the banks of the tidal portion of the Wye.

Description of the Site.

The site which has been selected for the great dam or barrage lies close to the line of the Severn tunnel. At this place the estuary is about two and a half miles wide, with low-lying country on either side. The greater part of the bed of the river is exposed dry at low water and there are great sheets of rock known as "English Stones," covered with seaweed, occupying an area of very nearly a square mile.

The upper structure of these rocks is what is known as "Keuper marl," and between these rocks on the English side and the rocks on the Monmouth shore side there is a wide, deep channel worn out of the solid pennant sandstone, known as "The Shoots". The rocks on either side shelve steeply into this deep gully, as a tail race for carrying away the water from the turbines, and an ingenious form of dam has been devised of great structural strength in reinforced concrete to suit the circumstances of the case. Within this dam there will be chambers in which the turbines and generating machinery will be housed.

Trapping The Water.

The method which it is proposed to adopt in order to utilize the power of the tides in the Severn is to trap the water in the upper part of the estuary above the dam at high water, so as to create an artificial difference in the level between the water thus impounded above the dam and the water in the estuary below the dam, for a period of several hours round about the period of low tide. During these hours when the difference of level exists between the water inside and the water outside, sufficient water inside will be allowed to pass through the turbines in the hydro-electric barrage to generate more than a million horse-power.

The water is trapped in the principal part of the estuary by means of gigantic horizontally-hung sluices or doors which will automatically shut on the turn of the tide. The water will then only be able to escape through the turbines.

High Level Lake and Tunnel.

The second installation comprises the large high-level lake, and tunnel, already alluded to, in combination with a mammoth pumping and turbine power-house on the banks of the tidal portion of the river Wye. In this power-house electrical energy derived from the tidal turbines in the Severn and transmitted by power cables will be used to force water up to the reservoir at such periods as the supply of tidal power permits. When, however, the demand for electrical energy is greater than the tidal turbines in the Severn are able to supply, or when for tidal reasons the turbines are idle, this power house will automatically cease to function as a pumping station and will function instead as a generating station and will be a source of supply of electrical energy actuated by high pressure turbines supplied with water from the reservoir.

The Passage of Railway, Road and River Traffic.

One of the principal novel features of the present design is the way in which the difficulty of allowing ships to pass up and down the river without in any way interfering with the passage of trains across the bridge has been overcome. A locking basin capable of taking the largest ships has been provided on the line of the navigable channel and intersecting the barrage. The ships will be led into and worked through this locking basin by electric locomotives somewhat similar to those in use on the Panama canal. The railway and road traffic is passed over either end of this basin by means of lifting bridges operating in such a way as to ensure that there is no delay either to railway, road, or river traffic. This is effected by duplicating the railway into the form of a loop where it crosses the locking basin, and so controlling and interlocking the arrangements as to allow continuous free passage for the railway or road traffic on one or other of the branches of the loop with absolute safety.

In order to provide for the ever-increasing traffic, schemes for a high level bridge have been considered and the site of one of these is at Beachley, three miles higher up the river than the site of the present Severn tunnel. The crossing here is not so wide, but great difficulties would have to be overcome in securing and constructing the foundations; added to this, long gradients on both sides of the river and a considerable detour of the main line would be entailed. The cost of widening a high level bridge to take additional lines of railway which might possibly be required in future would necessarily be great; in this respect the low level crossing in connection with the hydro-electric barrage at the "English Stones" presents advantages over the high level route, in that the cost of quadrupling the lines would be, comparatively speaking, a simple and inexpensive matter.

The Present Tunnel.

In connection with the proposed low level bridge over the Severn in the neighborhood of the "English Stones" it may be noted that this appears to be the most direct way of gaining access to South Wales from England. The project has probably not hitherto been considered seriously on account of interruption to navigation on the river and to the road traffic over the bridge, and also, perhaps, to some extent on account of the great width of the estuary at that point and the consequent cost.

The present railway tunnel, carrying the bulk of the Welsh traffic, which was opened for traffic in 1886, is not altogether satisfactory from a traffic working point of view on account of the heavy gradients is to be found in the fact that the gully in the estuary known as "The Shoots" is of great depth, and it was necessary to construct the tunnel at a safe depth beneath it. One of the results of the great depth of the tunnel is that the ventilation presents difficulties, and the tunnel may be said to be a weak link in the main line of communication between Sotuh Wales and England.

Road Transport.

Anybody who wishes to pass from, say, Bristol to Cardiff by road is obliged at the present time to make a detour of about fifty miles via Gloucester. The proposed road bridge over the Severn would therefore not only make provision against the future, but would fulfil a very great present need.

Outlets For Electric Energy.

The originators of the scheme have four main outlets for this energy in mind. The first is that in the immediate neighborhood of the Severn, and would be created by the growth of industries requiring cheap power on the banks of the river, in much the same way as there have arisen a group of power-absorbing industries in the neighborhood of the Niagara falls. The second would be the industrial area of South Wales, which lies within a radius of fifty miles of the barrage.

A third outlet would be found in the Midlands. Birmingham is approximately 70 miles and Stoke-on-Trent approximately 100 miles from the barrage. It is anticipated that there will be considerable difficulty in setting up steam super-power stations in the Midlands on account of the lack of condensing water available in that area, and on this account the supply of the Severn power would be particularly advantageous for the Midlands.

The fourth outlet is for the supply of the Thames valley and London. London is 115 miles from the barrage, and it may be possible to transmit the energy at 120,000 volts in this instance. The cost of the transmission line and the loss of energy is not by any means so formidable as might at first be supposed. The cost of a line capable of conveying 500,000 kilowatts with a 10 per cent loss in the line would be approximately £1,250,000. This cost and the transmission loss taken together therefore would only add a small fraction of a penny to the cost of the B.O.T. unit delivered in London.

It is thought that the appropriate use for the electrical energy of the Severn, having in view the storage reservoir and storage power house which is capable of producing peak-load output at short notice, is to apply the energy to take up the peak-load in industrial areas. That is to say, the Severn scheme would be made to work largely in conjunction with steam-generating stations so as to enable the latter to work with a load factor of from 70 per cent to 80 per cent instead of from 20 per cent to 50 per cent as at present.

Effect of Scheme on Bristol and Channel Ports.

Bristol is concerned with the Severn scheme because of its unknown effects on Bristol Channel navigation and on the access to this port. It is, however, feared that the plan as set out might close the Bristol docks, upon whieh the city has spent between seven and eight millions sterling. The existence of the docks depend upon the depth of the channel at the confluence of the Avon and Severn rivers. If the mouth of the Avon is silted up with Severn mud, the docks would cease to be accessible to any but small vessels. What prevents this from happening is the scour of the outgoing tide. By the proposed scheme the water that comes down the Severn when the tide is ebbing and is reinforced in the wet seasons by immense quantities of flood water from Hereford, Shropshire, and Wales, will be prevented from escaping in any other way than through the turbines. It is therefore feared that this will have the effect of narrowing the deep-water channel below the dam, and consequently of tending to leave the entrance to Avonmouth (Bristol) and the Avon, if not high and dry, at least deprived of the chief cause of the deep-water channel that now exists. No thorough expert investigation has as yet been made, and until that is done it is difficult to know what the absolute effect of the scheme will be. If it will hurt Bristol the question will then have to be be decided whether the benefit to the nation will be great enough to run the risk of harming such an important dock undertaking and city as Bristol and certain other Bristol Channel ports.

In any case it may be said that the scheme, if realized, will probably effect a change little short of a revolution in the industrial life of the West and Midlands of England.

RAILWAY EXTENSION COST $18,000,000.

VICTORIA, B. C., Feb. 24.—(Canadian Press).—To carry the Pacific Great Eastern Railway from Prince George northerly and easterly to the inter-provincial boundary between British Columbia and Alberta will cost about $18,000,000, according to an estimate made by C. Williams, surveyor, employed by the Government to determine feasible routes.

His report, which has been tabled in the Legislature, outlines two routes—one from Prince George to Swan Lake via Pine Pass, a distance of 316 miles; the other from Vanderhoof to Hudson's Hope, 296 miles; from Hudson's Hope to Pine River, 48 miles, and from Pine River to Swan Lake, 82 miles, or 426 miles in all.

Use it for pipe satisfaction

The Ideal Laxative for Children

Mothers, give the little ones Dr. Caldwell's Laxative Syrup Pepsin for constipation. Acts mildly and gently. Formula on the package.

THE alert mother, ever anxious to find something better for her children's health, will interest herself in learning what is best to give them when they are constipated, have a headache, cold or fever, are bilious or dyspeptic. It stands to reason that the remedy that might be suitable for you, at your age, might be too drastic for a child.

By all means do what you can to regulate the diet, giving preference to the light, easily digested foods. But when diet fails you will have to help Nature with medicine. It would then be well for you to avoid the harsher cathartics and physics, castor oil, calomel and such, even if disguised in tablets or pills, for they weaken the child and make it irritable.

A better plan is to give half a teaspoonful of Dr. Caldwell's Laxative Syrup Pepsin, which is a combination of simple laxative herbs with pepsin. It acts mildly and gently and does not gripe or weaken. It has the unusual merit of being safe for the tiniest baby yet equally effective for grownups. The formula is plainly on the package, and a sixty-cent bottle is sufficient to last an average family many months.

There is nothing better or safer than Dr. Caldwell's Laxative Syrup Pepsin for stomach, liver and bowel troubles, and as it contains no narcotics or mercurials, mothers can feel safe in giving it to any member of the family needing a constipation medicine. It is syrupy and delightfully pleasant to take. It must meet the taste of the majority, for last year over eight million bottles were bought in drug stores, the largest sale of the kind in the world.

Buy a sixty-cent bottle today with the understanding that if for any reason it does not do exactly as claimed your money will be refunded. Dr. Caldwell's Laxative Syrup Pepsin has been on sale in drug stores for thirty years so you would not be experimenting with anything new.

Try It FREE

There are heads of families who will want to prove to their own satisfaction that my Laxative Syrup Pepsin is as effective in constipation, as mild and gentle in action, as plensant-tasting and safe, as I claim. Let such write me for a sample. It will be sent postpaid. Simply say, "Dr. W. B. Caldwell, 19 Front St., Bridgeburg, Ont.: Send a free trial bottle of Dr. Caldwell's Laxative Syrup Pepsin to—" and give your name and address. I will see that the rest is attended to promptly.

COST OF PRODUCING NEWSPAPER

In the production of newspapers, costs are at the very peak, with prospects that they will either be maintained at the present level or advanced still further. There has been no "deflation" in wages paid compositors, pressmen or stereotypers, no reduction in cost of paper, ink, postage, etc., and no contraction in salaries of reporters and editorial writers.

The Minneapolis Tribune has compiled some figures which are typical of the whole newspaper industry. To meet the 411% increase in total production costs the Tribune in 1918 advanced the selling price of its paper a penny and on the per-inch-per-thousand-circulation basis raised its advertising rate between 1907 and 1921 by only 36%.

Here are the cost results which this paper has summarized and based on 100 as the starting point in 1907:

	1907	1914	1917	1919	1921
Wages	100	178	191	245	393
Newsprint (paper)	100	177	367	383	623
Newspaper postage	100	147	166	214	337
Ink	100	200	204	192	331
Editorial news	100	120	125	182	241
Taxes—state, county and city	100	127	158	222	428
Miscellaneous	100	125	133	112	244
Total	100	159	222	249	411

RUSSIANS ACQUITTED ON CHARGE OF MURDER.

Found Not Guilty of the Murder of Popow at Brantford.

BRANTFORD, Feb. 23.—The cell doors were unlocked for Steve Cibeluk, Russian, yesterday afternoon, when, at the conclusion of the evidence of the prosecution against Cibeluk and his fellow-countryman, M. Balinski, charged with the murder of Vassil (George) Popow, Hon. Mr. Justice Rose declared that there was no evidence to justify the conviction of Cibeluk and ordered the jury to bring in a verdict of not guilty without leaving the court-room. This was done and last evening the defence in the case of Mike Balinski was submitted.

Coughs and colds sneezes and sniffles quickly yield to BAUME BENGUÉ

The relief is most gratifying and so refreshing.

RELIEVES PAIN

SPAWNING BEDS FULL OF FISH.

VANCOUVER, B.C., Feb. 23.—(Canadian Press.)— As a result of large scale hatchery operations reports from the Fraser river and other streams indicate that there are more fish on the spawning beds than for many years. In fact, the problems of feeding the vast numbers of fish is requiring deep consideration by the department of fisheries.

There are at present 85,000,000 fry in the hatcheries. It is estimated that it requires about 450 pounds of canned salmon or other foods to feed a million fry per day after they are 12 to 15 months old. The salmon fry in British Columbia are developing into epicures, thus complicating the tites call for a canned fish and livtitesl cal for a canned fisher and liver spiced with caviar. The latter class of food is obtained by taking unfertile fish eggs and drying them.

MATHISON VS. BELMONT.

HAVELOCK, Feb. 24. — Judge Huycke has again deferred judgment in the Division court case of Wm. Mathison vs. township of Belmont and Methuen, in which plaintiff has brought suit to recover $58.03 for taxes and damages incurred when he alleges his lands were unlawfully sold by the county for taxes. No additional light was shown in the evidence at court's recent siting.

INDIAN BOYCOTT NOW SPREADING.

CALCUTTA, Feb. 24.—(Associated Press).—(India Information Bureau).—Ten Calcutta colleges are now affected by the strike of students, who are putting into practice the program of boycott of British institutions recently proclaimed by the All-India Students' Conference at Nagpur. It is estimated that 2,000 students are out. Meetings are being held at which students are urged by the speakers to spread the boycott to all educational institutions under British control.

Strikes of taxi drivers and of drivers of private cars still continue.

In Ye Olden Time

hoop skirts were worn by those who first asked the druggist for, and insisted on having the genuine Favorite Prescription put up by Doctor Pierce over fifty years ago. Dress has changed very much since then! But Dr. Pierce's medicines contain the same dependable ingredients. They are standard today just as they were fifty years ago and never contained alcohol.

Beauty depends upon health.

Worry, sleepless nights, headaches, pains, disorders and weakness of a distinctly feminine character in a short time bring the dull eye, the "crow's feet," the haggard look, drooping shoulders, and the faltering step.

To retain the appearance of youth you must retain health. Instead of lotions, powders and paints, ask your druggist for Doctor Pierce's Favorite Prescription.

PHIPPEN, Sask.—"Doctor Pierce's Favorite Prescription cured me when all other medicines failed. The home doctors could do nothing for me. I happened to see Dr. Pierce's advertisement in the paper, sent for the medicine, and felt a great benefit from even the first few doses. I took but a few bottles until I was entirely well. I cannot speak too highly of the merits of the Prescription." MRS. JANET BROWN, R. R. 1.

LARGE GROCERY CATALOGUE

A life size descriptive Grocery Catalogue with the latest low market prices marked in plain figures, where you can see the goods. Help yourself and get the best quick service, that is the definition of—

DUKE OF ATHOL MAINTAINS ARMY.

Brought Out By Question of Horatio Bottomley in Commons.

LONDON, Feb. 23.—(Cross-Atlantic Newspaper Service.)—A small private "army" maintained by a Scottish Duke is perhaps the last remnant of feudalism lingering in Great Britain. That such a mediaeval relic still exists has been brought to mind by an inquiry from Horatio Bottomley who is to ask War Minister Winston Churchill in the House of Commons regarding the Duke of Atholl's private army.

The Duke of Atholl, who is the eighth duke of his line and holds almost a dozen Scottish peerages and three British ones, does maintain three companies of Highland infantry, his ancestor having been given permission by Queen Victoria in 1845 to raise the little force of three hundred men. The army is not maintained out of public funds, but it is difficult to say for what purpose it exists, unless it is family pride and the upkeep of old Highland tradition.

The Atholl Highlanders are a magnificent body of men, averaging over six feet in height, and are dressed in the picturesque Highland uniform, with kilts of the Atholl tartan. They are stationed at Blair Castle, the Duke's stately home in Perthshire. During the war a large number of them transferred to the regular army and gave a good account of themselves.

HOMER PIGEONS FOR DESPATCHES.

EDMONTON, Alta., Feb. 24.—(Canadian Press).—Preparatory to their extensive development of the Fort Norman oil fields this Spring, the Imperial Oil Company purchased twenty-four homing pigeons from local fanciers to be used in dispatch communication work between the far north and Peace River town.

The company plans to establish two relay stations between Peace River town and Fort Norman the distance to be covered by each relay of pigeon carriers amounting to 250 miles.

PERMITTED TO SLANDER "FLAG."

KINGSTON, Feb. 24.—The G. W. V. A. in session here this week decided to take some action in the near future regarding the uncalled-for speeches made by two non-residents of this city at a banquet held recently. The branch went on record as deploring the fact "that people who called themselves citizens of Canada and who enjoyed the freedom of this country should be permitted to slander the "flag" for which the members of this association had fought."

GOMPERS OPPOSES MOVIE CENSORSHIP.

Calls Proposed New York State Legislation Repressive and Coercive.

WASHINGTON, Feb. 23.—A protest against the enactment by New York State of legislation providing for censorship of the moving-picture industry was made to-day by Samuel Gompers, President of the American Federation of Labor, on the ground that it is dangerous because repressive in principle.

"I hope," said Mr. Gompers, "the New York Legislature will demonstrate a better understanding of our time than to add one more to the already too long list of repressive and coercive measures on our various law books.

"There is a kind of censorship that is both effective and in keeping with the true American concept. It is voluntary censorship, organized by the industry itself, with the proper representation of those who patronize motion pictures. There is between compulsion and voluntary action all of the difference between tyranny and democracy. It is my hope that compulsory governmental censorship will make no further inroads upon American freedom of expression through motion pictures.

"It is regrettable that advocates of governmental motion-picture censorship again are active in the endeavor to place one more restriction upon the exercise of freedom of expression. I trust they will not be successful. I am aware of all the arguments used by those who propose censorship and I am aware that a great many pictures are produced which might better be left unproduced.

"But there must somewhere be an end to restriction, to censorship, to the exercise of the arbitrary judgment of a few over the doings of the masses, or we shall lose our democratic character entirely and become a nation of subjects.

"Nothing to be gained by the possible suppression of a few unworthy pictures can compensate for the loss of freedom that would result nor for the sense of being subjected in our pleasures to the personal judgment or whims of a court of censors.

"The public will take care of its own standards if left free. The idea of censorship is not an American idea, and cannot with safety be introduced into our life. Once we are started upon the censorship road we are again engaged in the age-old contest between free government and government by compulsion, by decree, by caste.

"Rather than accept the 'thou shalt not' of whosoever may be able to control censorship, the American people will prefer to deliver their own verdict in person and in their own way. This is not the land of 'thou shalt not'—this is not the home of 'verboten,' and may it never be."

LITTLE REMAINS OF ACE'S PLANE.

ORANGE, N.J., Feb. 22.—Bit by bit the historic French battleplane on exhibition in front of the Orange High School has been dismantled and picked by souvenir hunters until nothing is left but the five-ton motor, the propeller and parts of the fuselage which were powerfully riveted together.

The little of the carcas that remains is badly battered from the wrecking devices employed on it by the relic lovers of these parts. Shortly after the last sentimentalist laid aside the hammer and crowbar in despair a policeman appeared. The debris has since been assiduously guarded.

The machine was "Vieux Charles," the plane in which George Guynemeyer was shot down. It was sent to Orange by the French High Commission of New York last Saturday in an automobile truck and set up on the school grounds to advertise "Flashes of Action," a war film.

"Vieux Charles" was then a picturesque wreck, its planes and body all smashed and much of its metal twisted in its fall with its famous pilot. Loose bits were broken off here and there at first by admiring throngs. Amateurs in war trophies soon swarmed on it, shaking with excitement that resembled gold fever. Pincers, chisels, saws, hammers and hatchets were soon at work and the fury to acquire remembrances of France did not end until the noted craft was picked clean to the bones.

Orange Post of the American Legion announces that would send a letter of apology on behalf of the post and the town of Orange to the French High Commission. The Post announced also that it would make a formal protest at the failure of the town authorities to guard the machine until the last obtainable souvenior had been torn from it.

LAST BRITISH OFFICER HAS LEFT SIBERIA.

He is of the Opinion That Bolshevism Will Not Give Way This Year.

VANCOUVER, B. C. Feb. 24.—(Canadian Press).—Russia has lost the last bit of living, tangible evidence that she once billeted British troops, heard the rapid-fire of British machine-guns, the unfamiliar sound of British orders snapped out on the paraee ground The last British officer has come out of Siberia, and arrived in this city from Hong Kong recently.

His name is Captain N. A. L. Stilling, and he is virtually the only man left of the late General Knox mission, which went into Siberia to the relief of Admiral Kolchak, and with the siege of Ekaterinburg and the subsequent death of the Admiral, were withdrawn. Captain Stilling was left behind for 'special duty."

The Captain is absolutely of the opinion that Bolshevism will give way—not this year, perhaps, or next, but it will come. He said the people throughout Siberia are rising, declaring against the dealers of the Government. They cannot be kept down forever.

Captain Stilling is probably the only British officer who witnessed the recent evacuations of the rebel leaders, notably that of Semenoff from Chita. Semenoff is now under Japanese protection at Port Arthur, Korea. His army, said Captain Stilling, is scattered in the environs of Vladivostok, disarmed but not wholly disorganized for all that.

TEACHERS' PAY ROLL INCREASE.

VANCOUVER, B. C., Feb. 24.—(Canadian Press).—Vancouver Public and High School teachers will draw more than one million dollars in salaries this year, including salaries for teachers, substitute teachers, manual and domestic science, medical men, dental clinic, employees, etc. The pay roll has been increased $96,620 over last year.

It is pure linen, made from fine flax, and is pure white. When the Sale commences there will be three patterns to select from. The width is 72 inches.

50c and 55c Galateas, etc., at 37c yard

Galateas, Oxford Shirtings and Rock Fast Drills in a series of stripe and broken patterns on light and dark grounds. They are between 29 and 30 inches wide.

"Dorcas" Ripple Finish Bed Spreads, $3.19

These Spreads are desirable because they are easy to wash, because they wear well and because they are daintily patterned. The size is 63 x 90 inches—suitable for a double bed.

55c, 60c and 75c English Nainsooks and Madapolam at 46c yard

The Nainsook is a very fine quality and the Madapolam is just as fine but a little heavier. Both are 42 inches wide and both are suitable for lingerie purposes.

36-Inch Middy Twill at 33c yard

This is the best quality twilled finished Middy Cloth we sell for children's wash suits, middies or ladies' wear. The price is the lowest it has been in two years.

REMNANTS AT REMNANT PRICES

You will find hundreds of them.

Prints, Ginghams, Flannelette, Towellings, Shirtings, etc.

Good Georgette or Silk Blouses at $5.25 Are Rare But We Have Them For To-Morrow

The georgettes and crepe de chines are well tailored and made in over effects with round collars and ¾ sleeves. The colors are navy, grey, rose and Copenhagen blue.

The others are of a good quality of wash silk and come in pretty stripe patterns. The style is tailored, the collars convertible and the sleeves long.

Spring Suits With Much to Recommend Them, $45

If a Suit is to retain its good appearance for long it is important that it be all-wool. These are, and they are of serge—navy or black. The Coats are thirty inches long and are made with side panels and are trimmed with braid and lock stitching.

Their general loveliness is bound to captivate your fancy.

Such Lovely Silk Jersey Underskirts are Very Moderately Priced at $5.95

Besides being a good quality of Jersey they are well made and have a nine-inch flounce of a contrasting color. You can choose from the following combinations: green and rose, gold and purple, Copenhagen and American Beauty and brown and azure blue.

New Music at the Music Counter

"You Tell 'Em."
"Kismet"
"June"
"Will You Remember"
"I Know Where The Flies Go"
"Margie"
"Cuban Moon"

There Will Be Music in the Tea-Room To-Morrow Afternoon From 4 to 6 O'clock

Some Splendid Garments Not At All High-Priced

ON SECOND FLOOR

$25 and $29 Cloth Dresses at $19.95

The serge is a good grade of botany and you can have either navy blue or black. The styles will be popular this season—straight princess, overskirts and panier patterns. Embroidery, braiding buttons and fine tucks relieve their plainness.

$3.49 "Carlsbad" Flannelette Night Gowns at $2.49 If You Buy Them To-morrow

Some are plain white and others are striped, but all are noted "Carlsbad" and are well made and show a fine regard for such details as, good quality pearl buttons firmly sewn on, properly finished seams and the collar properly adjusted. Finishing braid is used on the collars and cuffs.

$2.39 Middies Can Now Be Had at $1.19

You can have all-white or white with a navy blue or a cadet blue collar and cuffs. The middy cloth is a very good quality. Sizes 6, 8, 10 and 12.

Spring Suits of All-Wool Botany Serge at $49

There are several smart styles in these Suits and there are several smart colors—beige, grey, navy blue and black. Semi-tailored effects and ripple hips effects give them a modish turn. The designers have used numerous accessories to trim them, principal among these being embroidery workings, military braid and tiny tucks and cordings. To emphasize their smartness floral silk lining is used.

$12 to $15 Skirts of Cloth or Silk at $9.95

The cloth ones are of serge in navy blue and black, also tweed mixtures. The silks are taffeta and duchess; you can have navy, black or wisteria. The styles are fashionable and have many pleasing effects.

$9.75 Habutai Silk Petticoats at $6.49

These Skirts are a nice weight to wear under the new Spring suit. The flounce is twelve inches deep, is accordion pleated and arranged with contrasting but harmonious colors. You can have green, wisteria, rose, navy or black.

A FEBRUARY SALE OF PURE IRISH LINEN TABLE CLOTHS

At Prices That Represent Only About Half Their Present Values

This is not an ordinary sale of old stock. It is a Sale of highest quality pure Irish Linen Table Cloths at Prices which are practically half the actual value. The reason for this unusual offering is that they are seconds from one of the foremost makers of high grade Irish Table Linen.

They are classed as Seconds because of some slight imperfections in the weaving or small oil stain from the machinery, therefore failed to pass the rigid inspection insisted upon. The largest and best cloth in the shipment is classed as a second on account of one flaw in the selvidge which can hardly be detected, a miss in the weaving, but it could not interfere in any way with the wearing ability of the cloth. Another has the smallest oil stain which is practically unnoticeable. Every flaw or stain is marked and will be pointed out to you before you make your purchase.

WE WOULD LIKE TO EMPHASIZE TWO IMPORTANT THINGS — FIRST, THE HIGH QUALITY OF THIS MERCHANDISE—SECOND, THE VERY MODERATE PRICES AT WHICH IT WILL BE SOLD. WHEN YOU CONSIDER THE SCARCITY OF HIGH-GRADE LINENS SUCH AS THESE, NO DOUBT CAUSED BY THE WAR, YOU WILL AGREE THAT WE ARE EXCEEDINGLY FORTUNATE IN BEING ABLE TO MAKE THIS LARGE PURCHASE.

To give customers more room and for better light for the purpose of examining these cloths very carefully, we have decided to hold this sale in our millinery show-room, third floor. There will be plenty of space, and sufficient salesmen to give you any information regarding the Table Cloths you want.

HERE ARE THE SIZES OF A FEW OF THE TABLE CLOTHS

17	Cloths	Size 71 x 72	Inches
6	"	" 80 x 80	"
4	"	" 72 x 108	"
8	"	" 45 x 54	"
26	"	" 48 x 48	"
26	"	" 54 x 54	"
16	"	" 63 x 63	"
20	"	" 68 x 68	"
30	"	" 70 x 70	"
3	"	" 96 x 144	"
2	"	" 72 x 90	"

This Sale starts at 8.30 Saturday Morning, in the Millinery Department, Third Floor

And the Prices Are Just—

SURVEY ALBERTA LAND.

EDMONTON, Feb. 24.—(Canadian Press).—The Provincial Government will probably undertake a survey into the character of the land in Southern Alberta, and a reclassification of farm lands with a view, possibly, to removing settlers from districts unsuitable for operation. This action was intimated by the Government in reply to a delegation from the United Farmers that recently held a conference with the Executive Council.

Break up a cold right at the start before it develops.

ONCE a cold fastens on you, you know that it means weeks of discomfort. Sneezes degenerate into sore throat, and the cold develops into bronchitis, tonsillitis and a racking cough that sometimes lasts for months.

Keep a box always in the house. At the first sign of a cold or feverish condition, take one or two tablets, and you are pretty sure to get immediate relief and find, the next morning, that you are quite all right.

Fool the cold with DOMINION C. B. Q. TABLETS. Drive it right out of the system with these quick-acting, pleasant tasting tablets of Cascara, Bromide and Quinine.

D-O-MINION C. B. Q. TABLETS are prepared by National Drug and Chemical Company of Canada, Limited. Insist on having Dominion C.B.Q. 20

EXTRAVAGANCE AND POVERTY IN VIENNA GO HAND-IN-HAND.

Visitors Are Shocked by Paradoxical Economic Conditions — Others Hardened to Contradictory Sights.

VIENNA, Jan. 25.—(By Mail).—(Associated Press).—Vulgar display of extravagance in food and clothing is a nightly picture at the gay restaurants here while only a few blocks away hungry and scantily-clothed persons are being poorly fed in community kitchens. Visitors to Vienna are shocked by this paradoxical economic condition. Others are either hardened to the contradictory sights or, in their inability to alter either extreme, can only shut their eyes to them.

Crowded theatres and operas at tremendously advanced prices, concerts sold out in advance, masked ball following masked ball in an endless riot against the coming of Lent, cabarets whose risque dancers would bring out the police in New York and where nothing to drink but wine is served, cafes and restaurants with never an empty table, not a room to be had in the big hotels whose prices go up from week to week—that is one picture. On its reverse, foreign relief straining itself and demanding unceasing contributions in aid of a suffering populace.

Regulations Violated.

In Austria it is the custom on New Year's Eve to bring squealing suckling pigs to public dining-rooms and the red ribbon with which they are decorated is distributed in bits to guests as talismans for the coming year. The newspapers report that in one fashionable resort a woman seized the pig and bathed it in a cooler full of wine. Other women caught the original idea and imitated it to the cost of many bottles. That restaurant, incidentally, has had its license suspended for constant violation of the food and closing regulations.

Viennese claim that in all these resorts where display and expenditure of the most vulgar kind are evidenced not one real Austrian can be found, that they have not the money. They say they are supported by the horde of profiteers of every race and every nationalit that infest and infect the city.

A recent demonstration of the populace is acknowledged to have been inspired by this prodigal display of extravagance and ready money on the part of this small element of the population.

The workingmen demand the Government shall suppress profiteering and eliminate the sheba (profiteering wholesaler or middleman) and the sleichandler (illicit trader) in an effort to lower the daily mounting cost of living, else they will undertake to do so on their own account. They carried a minature gallows in a recent demonstration.

Harmful Extravagance.

The authorities and thoughtful Austrians acknowledge that this superficial froth of extravagance and display is doing great harm to the city and the country. Casual travellers who spend a few days in the inner city, visit these gorgeous resorts and see the high-class restaurants crowded at every meal, tea dances in the afternoon, exceptionally well dressed men and women and the display of furs and jewels and articles of luxury in the shop windows probably unexcelled in any capital, are hard to convince that beneath this veneer lies widespread privation and in certain strata actual bitter suffering.

Some 400,000 children are being fed one nourishing meal a day by American charity. Through American aid the hospitals are being refurnished with long absent necessities. Nearly 200,000 Austrian children are charity guests in other countries. Indeed the charity of all non-suffering peoples is being extended bountifully to this country regardless of creed or race, and all investigators who dig deeply into conditions acknowledge it is needed.

But not infrequently the visitor, especially the American, when he is told this, gazes on the evidence of wealth and well-being about him and remarks that it might be well to spend some of this money at home instead of demanding aid from other lands. One answer is that this phase of Vienna life brings money in and keeps it circulating. Another is that the temperament of a people must be considered.

Fancy Dress Balls.

The billboards are filled with announcements of redouts (masked or fancy dress balls). Wine is always served at these affairs at high prices. Among those about to occur, the star event, is one at the State Opera for the benefit of the pension fund of the singers and musicians. The boxes, long since sold, went for from 20,000 to 28,000 crowds each and single tickets of admission for 2,000 crowns.

Even in depreciated Austrian currency 20,000 crowns represents about 30 perfectly good American dollars or a good many balanced ration meals such as Americans are giving Vienna's children.

Much of the money thus spent comes from the wild speculation on the stock exchange that has followed the constantly fluctuating crown, and from wide open speculation in foreign monies, theoretically prohibited but in full operation in cafes and restaurants and well covered private offices.

Big Speculation.

One American told the correspondent that in the Black Exchange, a little street where these operators gather and trade, he saw one man with $200,000, American money, and who admitted he had made 1,000,000 crowns a day on speculation.

The possibilities of this money market are made plain in one week's crown quotations against dollars. Private sales were made on Wednesday at 800 crowns to the dollar. The market closed on Saturday with dollars at 632.

Fluctuations in the stock market of thousands of crowns per share are commonplace. Men with foreign money, smuggled in and out of other countries as the exchange rate varies, fatten on speculation and for them all Vienna is the Mecca.

Dear Marie,

Guess again, old dear, — for it was Jack! And we had the scrummiest time at the dance. But I have a terribly stiff neck this morning — feel just like a lofty giraffe! — for you know Jack always gives me a line-up of such tall men.

But I don't care how stiff my neck is the morning after so long as it's nice and white and velvety-looking like the night before. And Marie my dear, I've really at last discovered the secret. Do you want to hear it right out too, dearie, and buy a bottle of Campana's Italian Balm and you'll never need to worry about looking old!

Now do be a sweet good child and answer real immediately, for I'm just dying to hear from you.

Peggy.

IMPROPER NOVEL COSTS WOMAN $50.

Greenwich Village Publisher and Her Editor Fined for Producing "Ulysses."

NEW YORK, Feb. 24.—Margaret C. Anderson and Jane Heap, publisher and editor respectively of The Little Review, at 28 West Eighth Street, each paid fines of $50 imposed by Justices McInerney, Kernochan and Moss in Special Sessions yesterday, for publishing an improper novel in the July and August, 1920, issues of the magazine. John S. Summer Secretary of the New York Society for the Prevention of Vice, was the complainant. The defendants were accompanied to court by several Greenwich Village artists and writers.

WHERE EMPLOYEES FIX OWN SALARIES.

Coach-building Plant Near London Run on Co-operative Plan.

LONDON, Feb. 24.—(Cross-Atlantic Newspaper Service).—Amid an epidemic of labor unrest, strikes are unknown at a coach-building plant at Croydon, near London, where the employees practically fix their own rates of pay. The concern a run on co-operative lines and the staff are so happy that during a recent coach-builders' strike, theirs was the only concern in the district that continued working.

Herbert E. Wills, now the owner, started working at this same plant at the age of nine, when he ran away from local poorhouse to take the job. He was taken back, but at thirteen was apprenticed to the work.

ROME MINISTRY INVADED.

3,000 Employees Wreck Furniture; Demand More Pay.

MILAN, Feb. 25.—A sensational event has occurred in Rome, where 3,000 employees of the Treasury and Finance Ministry held an uproarious meeting urging an advance in salary, finally entering the ministerial offices. The furniture was reduced to splinters, windows and doors were smashed and the dismantling was carried even to the private reception rooms of the ministers.

It was finally decided to send a commission to submit the claims to Giolitti. This event, happening after the students' rioting, creates an impression that the bourgeoisie is adopting communistic methods.

PROSPECTS GOOD FOR IDEAL CROP.

Conditions Very Favorable in Manitoba.

WINNIPEG, Feb. 24.—(Canadian Press).—"To date conditions for a splendid crop in 1921 have been ideal," Hon. G. H. Malcolm, Minister of Agriculture for Manitoba, declares. "The enormous Fall plowing will enable to get their crops in this Spring under better conditions than for many years. Approximately 2,730,000 acres were prepared for crop by Fall plowing in Manitoba. The crop acreage should be larger than usual this year.

"The Winter, too, has been unusually favorable for stock," stated Mr. Malcolm. "Reports received by my department fail to indicate a single complaint regarding the Wintering of stock. The dairy industry," continued the Minister, "should be in admirable shape this Spring. There is every indication of an early growth of grass, which is most favorable, and the splendid condition of livestock is a splendid indication of a remarkable year in dairying."

GAS IN THE STOMACH IS DANGEROUS

RECOMMENDS DAILY USE OF MAGNESIA TO OVERCOME TROUBLE, CAUSED BY FERMENTING FOOD AND ACID INDIGESTION

Gas and wind in the stomach, accompanied by that full, bloated feeling after eating, are almost certain evidence of the presence of excessive hydrochloric acid in the stomach, creating so-called "acid indigeston."

Acid stomachs are dangerous because too much acid irritates the delicate lining of the stomach, often leading to gastritis, accompanied by serious stomach ulcers. Food ferments and sours, creating the distressing gas, which distends the stomach and hampers the normal functions of the vital internal organs, often affecting the heart.

It is the worst of folly to neglect such a serious condition or to treat with ordinary digestive aids which have no neutralizing effect on the stomach acids. Instead get from any druggist a few ounces of Bisurated Magnesia and take a teaspoonful in a quarter glass of water, right after eating. This will drive the gas, wind, and bloat right out of the body, sweeten the stomach, neutralize the excess acid, and prevent its formation, and there is no sourness or pain. Bisurated Magnesia in powder or tablet form—never liquid or milk—is harmless to the stomach, inexpensive to take, and the best form of magnesia for stomach purposes. It is used by thousands of people, who enjoy their meals with no more fear of indigestion.

PARIS REVELS IN SPRING

Sheds Overcoat and Rides in Open Taxis as Leaves Bud.

PARIS, Feb.24.—Paris is enjoying balmy, Spring weather with bright sunshine and leaves already are budding on the trees along the Boulevard. Men without overcoats and women without furs throng the Avenue Bois de Boulgone in open taxicabs, automobiles and coaches.

The thermometer registered 75 degrees Fahrenheit at 3 o'clock this afternoon.

STOP THAT TICKLING IN THE THROAT

BY USING

DR. WOOD'S NORWAY PINE SYRUP

That tickling in the throat sensation is most distressing and causes a nasty, irritating, dry cough that not only keeps you in misery all day long, but also prevents you enjoying a god night's rest.

Dr. Wood's Norway Pine Syrup, which is composed of the most soothing and healing expectorant herbs and barks combined with the lung-healing virtues of the world-famous Norway pine tree, will give almost instant relief in all cases of this nature.

Mr. E. A. Price, Port Carling, Ont., writes: "For about a month last fall, I had a bad cold and cough and a tickling in my throat. I coughed nearly all the time. I tried different remedies and cough syrups, but could get no relief. A friend advised me to use Dr. Wood's Norway Pine Syrup, and before I had used two bottles, my cough was all gone, and gone for good. I have not coughed since."

Dr. Wood's Norway Pine Syrup is put up in a yellow wrapper; three pine trees the trade mark; price 35c and 60c a bottle at all dealers; manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

ENOUGH CUTLERY FOR 12 BANQUETS

Found in Home of Kingston Man.

KINGSTON, Feb. 25.—Finding enough knives, forks and spoons to serve a dozen banquets at the home of a man named Coady, the police are questioning if some of this cutlery is not part of that missing by the Militia Department. In searching Coady's premises the police acted on information that he had been trying to sell cutlery. It is alleged that Coady asserted he found the property at a dump on Bagot Street.

1 Pill a Laxative, 2 Pills a Cathartic, 3 Pills a Purgative,

This is the Way Millburn's Laxa-Liver Pills Work.

You will never use any of the old griping, nauseating, sickening, purging pills, containing as they do calomel and other drastic mineral ingredients, once you use Milburn's Laxa-Liver, a pill that is purely vegetable.

Owing to the great care used in procuring the highest grade of drugs from which they are manufactured, they are as near perfect as it is possible to get a laxative remedy.

They work gently and effectively, without a gripe or pain.

If you are troubled with constipation, biliousness; driven to distraction with sick headaches, if your tongue is coated, your breath bad, your complexion muddy, your eyes yellow, have floating specks before the eyes, jaundice, itching, bleeding, or protruding piles, stir up your sluggish liver with a few doses of Milburn's Laxa-Liver Pills.

Mrs. Roy Mackie, Orillia, Ont., writes: "I desire to express my thanks for the relief I have had by using Milburn's Laxa-Liver Pills. I had been suffering for some time from constipation and bad headaches. I tried all sorts of cures, which did me no good, until I was advised to try your pills. I got great relief after taking only a few doses."

Price 25c a vial, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

PARK MURDER VICTIM CIGAR STORE BANDIT.

Clerk, Struck Down in Broadway Shop, Identifies Body Found in Snow

NEW YORK, Feb. 23. — The body of the man found slain in a snowdrift in Crotona Park, the Bronx, Sunday night was recognized yesterday as that of the bandit who on the night of Feb. 13 last robbed a safe in the United Cigar Store at 1,769 Broadway of $800 after he had struck down the clerk with a heavy cane.

A premium certificate of the United Cigar Stores Company was found near the body and this led to the discovery by detectives yesterday that the slain man with two companions had visited one of the company's stores at Claremont Parkway and Third Avenue, about a quarter of a mile from Crotona Park, shortly after 6 o'clock Sunday night.

A clerk in the store said he recalled selling a package of cigarettes to the dead man because of the suspicious action of the man and his companians. The clerk was talking to two friends when the men entered, and his attention was drawn to the trio when they conversed in whispers at the entrance to the store for two minutes before they left. The clerk said he believed they intended a hold-up, but were dissuaded when they realized that he and his friends had become suspicious of them an had taken advantageous positions in the store.

Detectives thought that the slain man's two companions may have ben confederates of the assassin and sent the man to his death in the park after advancing a proposal to hold up the cigar store as a subterfuge to get him into that neighborhood.

J. Franklin Mull, the clerk, visited the Fordham Morgue yesterday with Detective Sergeant Dennison of the West Sixty-eighth Street Station. He was positive the body was that of his assailant. Detective Dennison said he was confident the dead man was the robber who held up several cigar stores on the upper west side within the last two months He expressed the belief that the silk handkerchief, with two slits in it, which was found in the man's pocket was used by him as a mask. Several pieces of rope, also found in the slain man's clothing, the detective said, were of the kind frequently used by hold-up men in binding cigar store clerks.

Captain Andrew Wines of the Bronx Detective Bureau said the man probably was slain by another robber after a quarrel over loot. Detectives throughout the city were ordered to send victims of all recent hold-ups to the Fordham Hospital to see if they could identify the body.

Fingerpints of the dead man were compared with police records and showed there was no record that he had ever been arrested in this city. Captain Wines said, however, that he expected to have the slain man identified within a few hours. He intimated that his detectives had found a clue to his identity among the man's effects.

An autopsy performed by Dr. John Biegelman, Assistant Medical Examiner, disclosed that the man had been shot three times through the head. It is believed he was shot from behind while walking through a road in Crotona Park about 200 feet north of Crotona Park South. When the man, after the first shot, staggered toward the snowdrift, his slayer is believed to have sent two more bullets through his face.

The bullets, Dr. Riegelman found were the steel-jacketed kind used in a 32-calibre automatic pistol. He said that the surroundings indicated clearly that the man had been shot on the spot, and that the body had not been carried by an automobile from a distance, as was first supposed.

The detectives said that a clip containing seven .45-calibre bullets found in the man's pocket indicated that he carried a pistol which his slayer probably appropriated. A pocketknife with a seven-inch blade, found about twenty feet away from the body, the police believe, was dropped by the murderer as he fled.

The dead man, Dr. Riegelman said, apparently was an Italian. The police theory is that he was decoyed to the park by an appointment, the assassin lying in wait behind a tree.

REVIVAL OF TEMPERANCE DRIVE PLANNED BY JAPANESE WOMEN

TOKIO, Feb. 25.—The new women's temperance movement will be revived, says the Hokio Asahi, and some 3,000 educationalists, including a number of prominent men and women, will support it. It is also reported that in the current session of the Diet a temperance bill proposing to restrict the hours for the sale of wine and the quantity of wine to be sold to individuals at a time will again be introduced by Mr. Hoshijimi, one of the warmest supporters of the movement.

HICKEY'S

With "Better Clothes" for Spring

THIS SPRING OPENING with "Better Clothes" is going to be a humdinger. We never go into anything and spend money on advertising unless we are sure we have the goods—better goods than we or anyone else ever offered before. We have something now that is going to bring you eventually to our store so you might as well come to-morrow and get a tremendous choice in suitings

AT ONE PRICE ONLY!

We want to assure you that it is worth while. We want to tell you that there never was and we doubt, ever will be again, such a splendid assortment of patterns in all-wool cloth of varied weaves, which means everything that your heart desires—including BLUE SERGES of standard weight and *absolutely guaranteed.*

It may be rough and cold to-day or it may be Old Sol is breaking through; but whatever it is, there is no doubt that Spring is just around the corner. And it's a chance for you to get your Spring clothes, "BETTER CLOTHES" made to your measure, and at a price that stands alone in the tailoring world to-day.

Your Choice of Any Material in the House

MADE-TO-MEASURE

NO MORE $30 NO LESS

Scotland Woollen Mills Co. tell me that their aim is "Better Clothes." They assure me that the suits and overcoats they are making to-day are "Better Clothes," better in material and better in workmanship than they ever tailored before. Being Mill-to-Man tailors, with years of experience, they should know, and I did not take up the selling of their clothes without satisfying myself that they are making splendid garments—splendid every way—splendid in design, in tailoring and in finish. That is why I am talking "Better Clothes."

MISS PANKHURST REFUSES $50 TO BE SAWN IN TWO

Suffrage Leader, While Advertising for a Job, Rejects Offer of Illusionist.

LONDON, Feb. 25.—Miss Christabel Pankhurst, the suffrage leader, recently advertised in the daily press for a job, saying that the success of the suffrage movement had removed the cause for further suffrage activity and that she needed to earn a living. She has not accepted a position, but has refused the proposal of a vaudeville "illusionist," who offered her $50 a day for being sawn in two on the stage of local music halls.

The illusionist's act consists of placing a woman in a coffin-like box on trestles. The cover of the box is padlocked, and two husky woodsmen with a double-handled saw proceed to cut the box in two in the middle. When the ends fall apart the woman steps out unhurt.

When the illusionist recently advertised for women to be sawn in two at his performance a queue of 226 girls lined up the next morning at the stage door. Miss Pankhurst, to whom the illusionist had written a special offer, decided not to enter the field.

CHINA PAINTING

Mrs. LangleyMc Carthy

TEACHES BISCOFF'S NEW AND BEAUTIFUL WORK IN CHINA PAINTING.

The population of Tarsus, celebrated as the birthplace of St. Paul, has dropped within the last five years from 20,000 to 8,000.

IF HAIR IS TURNING GRAY, USE SAGE TEA

HERE'S GRANDMOTHER'S RECIPE TO DARKEN AND BEAUTIFY FADED HAIR.

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray or streaked, just an application or two of Sage and Sulphur enhances its apearance a hundredfold.

Don't bother to prepare the mixture; you can get the famous old recipe improved by the addition of other ingredients at small cost, all ready for use. It is called Wyeth's Sage and Sulphur Compound. This can always be depended upon to bring back the natural color and the lustre of your hair.

Everybody uses "Wyeth's" Sage and Sulphur Compond now because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or a soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy and lustrous.

EVEN THE PRINCE OF WALES WAS HELD UP

GATEKEEPER'S MISTAKE WENT UNDISCOVERED THROUGH A WHIM OF DUKE.

LONDON, Feb. 25.—(Cross-Atlantic Newspaper Service).—Even the Prince of Wales cannot walk about wherever he likes as he found out the other day when he tried a short cut to his favorite golf course.

With his brother, the Duke of York, and Sir. Philip Sassoon, the Prince drove up on a Saturday afternoon in his auto to the gate of a private road which is closed to the public at week-ends. The old gatekeeper refused to let him through. Without disclosing his identity the Prince assured the gatekeeper that the owner of the private road knew him well and would certainly let him through.

The gatekeeper shook his head.

"Oh, no," he said emphatically, "you couldn't come past here on a Saturday—no, or on a Sunday neither mark you, young sir—not if you was the King himself!"

The Duke of York laughed heartily, and saying that the yoke was too good to kill, advised his brother to take the more circuitous route.

YOUNG WOMAN THINKS IT SAVED HER LIFE

MISS JINKS WAS ON VERGE OF DESPAIR WHEN SHE BEGAN TAKING TANLAC—NOW WELL AND HAPPY.

"If it hadn't been for Tanlac I don't believe I would be alive today, much less enjoying the splendid health that I am," declared Miss Lillian Jinks, popular young lady residing at 883 Gerrard Street East, Toronto, Ont., and employed by the Canadian General Electric Co.

"Two years ago this Fall a severe operation kept me in the hospital for several weeks, following which I had to remain in bed at home for nine months longer. Inflamatory rheumatism came on me, and I had a swelling in my hands and feet that caused me no end of trouble. My nerves seemed to be completely shattered and I was so nervous and worn out I felt like I would never be up and about again. I was simply miserable and was almost ready to give up in despair.

"My grandmother got me to try Tanlac, and the medicine has certainly proved a blessing to me, for it has given me a wonderful appetite and everything agrees with me so well I've actually gained fifteen pounds in weight. The rheumatism and swelling have completely disappeared and I'm entirely free from nervousness. I never even dreamed I could get so strong and healthy, for I never felt so well in all my life as I do now. Tanlac is certainly a grand medicine and if anybody wants to know anything about it just refer them to my case."

Tanlac is sold by the Warne Drug Co., Ltd.

LEGISLATING TO JAZZ ORCHESTRA.

Uganda Parliament Adopts Novel Method Getting Floor.

LONDON, Feb. 25.—(Cross Atlantic Newspaper Service).—A "jazz band" Parliament is presided over by the King of Ukanda, Central Africa. The Rev. B. C. Everett, of Windsor, who has sat in the "strangers' gallery" of this noisy assembly, gives a diverting account of a typical sitting. Members, he says, have no trouble about "catching the Speaker's eye," as the method of debate is that everyone speaks at once. The native King, who was presiding on his throne, had a jazz band at his elbow. When he wanted to break into the hubbub with an observation of his own he gave a signal and the band burst in. Thus, by making it impossible for the M.P.'s to hear themselves, a momentary silence was obtained when the band stopped, and the King was able to say a few words.

Drinking a Glass of Hot Water is a Splendid Habit

Cleanse and sweeten the system each morning and wash away poisonous, stagnant matter.

Those of us who are accustomed to feel dull and heavy when we arise; splitting headache, stuffy from cold, foul tongue, nasty breath, acid stomach, lame back, can, instead, both look and feel as fresh as a daisy always by washing the poisons and toxins from the body with phosphated hot water each morning.

We should drink, before breakfast a glass of hot water with a teaspoonful of limestone phosphate in it to flush from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary tract before eating more food.

The action of limestone phosphate and hot water on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a fine appetite for breakfast. A quarter pound of limestone phosphate costs very little at the drug store, but is enough to make anyone who is bothered with biliousness, constipation, stomach trouble or rheumatism an enthusiast on internal sanitation.

WELLAND SHIP CANAL TRACED

(Continued from Page 1.)

via the Ten-Mile Creek, but when work was finally started, the European war put a stop to it.

Welland Ship Canal.

The ship canal as finally located follows the valley of the Ten-Mile Creek between its mouth, about 3 miles east of Port Dalhousie, and Thbrold crossing the present canal below Lock No. 11 where the water level of both is at 3020. Between Thorold and Allanburg a new cut will be made for the purpose of straightening the alignment between these points. The canal will again cross the present one below Lock No. 25. From Allanburg to Port Colborne it will closely follow the present canal. The canal will be 25 miles long, 2½ miles shorter than the present one; there will be seven locks with a lift of 46½ feet each. The usable dimensions of the locks are 800 feet long, 80 feet wide with 30 feet depth on the sills.

Mr. Grant, with various lantern slides, gave a detailed exhaustive explanation of the locks and entire construction of the canal of exceeding interest to the engineering body. He was given a hearty vote of thanks.

May Trip the Light Fantastic.

At last night's meeting tentative steps were taken for an Engineers' dance by appointing Messrs. McLaren (chairman), Reid, Rose, Hess, Munro, Flitton and Richardson a committee to report on possibilities of the Engineers holding such an affair, with it to become an annual event if successful.

Raise Status.

The Honorary Chairman, R. B. Rogers, gave notice of a motion he will bring in at the next meeting giving junior members the vote and allowing them to hold office.

100 RED OFFICERS ARE PUT ON TRIAL.

Embezzlement and Mishandling Funds are Charged.

(Special to The Examiner by Cross-Atlantic Newspaper Service.)

PETROGRAD, Feb. 25.—Over a hundred Bolshevik officials, including Commissaries, commanders of Red troops, and heads of food departments are here on trial for embezzlement and irregularities in the handling of public funds.

This has caused great unrest, and has gone far to destroy the confidence of the peasants in the Government.

In addition, reports from Kieff are intensely disquieting. The Cossacks are in rebellion, and in two bodies are hovering near that city. They have already captured Byskov, Janogoredke, Berodjanka, and Dymor. The rebellion has spread over an area of 1,500 square miles, and is growing.

LONDON HOTELS HIRE SPECIAL POLICE FOR PROTECTION IN RIOT

LONDON, Feb. 25.—(Cross Atlantic Newspaper Service).—To guard big London hotels in case of riot special police have been enrolled among their staffs. The first hotel to have a police force of its own was the Savoy, the greatest rendezvous of wealth and luxury in London.

A meeting of the staff decided to accede to the request made by the Commissioner of Police for the enrollment of a special body to guard the hotel in case of riot.

It was made clear that the members of the force would not be expected to act in any way to break strikes, but would only be called upon in case of emergency which threatened the safety of the hotel. Every man has been provided with the uniform of a special constable.

VENIZELOS' FLIGHT FROM ATHENS RISKY.

Filled Tunnel With Soldiers and Escaped Under Guard.

(Special to The Examiner by Cross-Atlantic Newspaper Service.)

ATHENS, Feb. 25.—Stories of the flight of ex-Preimer Venizelos from Athens in the face of the triumphant progress of King Constantine are beginning to be believed in Allied circles and to put a different face on the view the rest of Europe has been holding of this country.

Venizelos knew that he was doomed to defeat at the popular election. Even before it was held, he lived in a house here which had as secret means of egress two tunnels leading to two cottages near the American Embassy, and these two cottages he kept filled with soldiers from Crete, in whose loyalty he had absolute confidence.

Even before the result of the elections was fully known, he left Athens for Phaleron, where a friend had placed a yacht at his disposal. He left in secret in a closed automobile, with one motor lorry filled with soldiers ahead of him and another behind.

At Phaleron, when he walked from the automobile across the quay to the yacht, he pulled up his coat collar and pulled down his hat to hide his face from recognition. His body was covered with a mailed shirt underneath his coat.

Mason wasps are magnificent engineers, being especially expert in construction of tunnels.

ARREST 3, GET 85,000 FALSE RUM STAMPS.

Raid on Printing Shop and Houses Reveals Counterfeit Revenue Strips and Labels.

NEW YORK, Feb. 25.—After shadowing for several weeks two alleged employes of the printing shop of Joseph Di Santi, at 41 Oliver Street, Secret Service agents under John H. Tucker raided the establishment and two houses yesterday, where they seized more than 85,000 counterfeit revenue stamps. In addition, the agents confiscated a large quantity of printed labels of well-known brands of whisky.

Three men were arrested and locked up in Police Headquarters until to-day, when they will be arraigned before United States Commissioner Hitchcock. They were Di Santi, who said he was 45 years old and lived at 38 Oliver Street; Jerry Scotty, 20 years old, a printer, of 51 Mott Street, and Michael Taranto, 21 years old, an ink mixer, living at 81 Bayard Street. A fourth man who entered the printing shop while the agents were there was questioned, but Mr. Tucker did not disclose his name.

Participating with Tucker in the raids were Secret Service operatives Manasse, Rabano, Cavanagh and Sullivan. For more than a month the detectives have been watching the home of Taranto, which Tucker said seemed to be the headquarters of the trio. Yesterday morning when Taranto and Scotty emerged from 81 Bayard Street the agents trailed them for several blocks, then stopped and searched them. According to Tucker, his men found 2,000 strip and fifty-three case stamps in the men's pockets.

The agents then descended on the printing shop in the rear of which they said they found Di Santi in the act of cutting apart strip stamps. According to the detectives there were three electrically operated presses and sixteen plates from which the stamps had been printed. Tucker said his men found 39,000 strip stamps in addition to several bundles of labels printed to resemble those used on former popular brands of whiskey.

The detectives, with Di Santi, Taranto and Scotty, next visited Di Santi's home at 38 Oliver Street. Here they said they seized 30,000 more strip stamps and 10,000 case stamps. A search of Taranto's home at 81 Bayard Street revealed 15,000 strip stamps and six plates, according to the agents.

"It is my belief that eighty per cent. of the so-called bottled in bond liquor which is being sold at present as popular brands is imitation stuff," Tucker said. "The labels which were printed in this shop, I am informed, were sold at from $30 to $35 a thousand."

Mr. Tucker showed newspapermen one full bottle and one half bottle of imitation whiskey of a well known brand. Except for a slight flaw in the counterfeit stamp over the cork, the contents, bottle and labels strongly resembled the genuine product of the distillery. A small quantity of charcoal had even been put in the fluid to give it the appearance of having been drawn from the wood.

The raid was the third largest in the past two weeks in this section of the country. Agents in Philadelphia last week confiscated 100,000 counterfeit revenue stamps in a similar raid.

"Economy is the easy chair of old age."

LOST SIGHT OF EYE.

Master Roger McMillan, son of Mr. and Mrs. Robert McMillan, of Asphodel, has lost the sight of an eye through falling on the prong of a pitchfork, which pierced the lad's forehead. He was brought to Peterborough for treatment by Dr. Buchanan. This makes the fourth case of accident in this vicinity by which parties have lost the sight of an eye.

NEW PRINCIPAL FOR NORWOOD PUBLIC SCHOOL

NORWOOD, Feb. 25.—Norwood School Board at their last meeting received eight applications for the principalship of the Public School rendered vacant by the death of Mr. Adams. The salaries asked ranged from $900 to $1,500 a year. Mr. W. G. Summers, of Ottawa, received the appointment at a salary of $1,200.

A union has been formed by the bull-fighters of Madrid, Spain.

SPORTING NEWS, VIEWS AND GOSSIP

5-4 VICTORY FOR DE LAVAL PUTS C.G.E. OUT OF RACE

ELECTRICIANS BEATEN IN PLAY-OFF FOR CHAMPIONSHIP OF THE SECOND SECTION OF THE CITY LEAGUE, AND DE LAVAL WILL NOW MEET WILLIAM HAMILTON'S—THE FINAL.

CAME FROM BEHIND

In one of the most thrilling battles of the season, and before a record City League crowd, the De Laval team eliminated the C.G.E. Toolroom from the City League race last night by beating last year's champs by 5 goals to 4 in the play-off for the championship of the second section of the League schedule. The Separators thereby qualified for the finals and will clash with the Wm. Hamilton team, winners of the first section, for the Fowler cup and the city championship.

To win out last night the De Laval had to come from behind, for with eight minutes to play C.G.E. were in front 4 to 3. A shot from the side by Hambly tied the score and two minutes later the same player again beat Butcher, and the Electricians were beaten. It was a memorable battle which De Laval deserved to win because of their determination and spirit, which kept them in the contest when many a team would have cracked. They were outplayed in the first period, for although the score was only 2 to 1 against them, the C.G.E. had the defence beaten three or four times and were unlucky to have had only a one goal lead at the end of the session. But the Separators refused to lose heart, and although the losers increased their margin early in the second period, De Laval came right back with a counter. Once again C.G.E. boosted their lead by another tally, but De Laavl immediately returned the compliment, so that only one goal separated the teams when they skated off the ice for their second rest.

The last period was the most exciting twenty minutes of the game. De Laval threw everybody up on the attack and they held the Electricians in their own end of the rink most of the period, while they pelted away at Butcher from all angles. The checking was close and hard and as the period slipped by and C.G.E. still held their slender lead, while De Laval worked their heads off to grab the counter that would save the day the crowd was wild with excitement. Twelve minutes had elapsed when Hambly went down the side and slanted a drive past Butcher. Two minutes later the Canadian General outfit's chances for the title vanished when Hambly again hit the twine behind Butcher with an accurate shot from outside the defence. De Laval, with the game won if they could protect their lead, immediately dropped three men back on the defence and shooting the rubber down the ice whenever they secured possession, held off the desperate attacks of the C.G.E. until the final bell rang, terminating one of the most exciting struggles of the year.

Every man on the De Laval team gave every last bit of energy to win and the same is true of the Canadian General outfit, although they did not seem to stand the going as well as the winners, who had a wide margin on the play in the last period.

While every player contributed to the victory no one had a greater share in De Laval's win than Chris. Bergoine, the little goalkeeper, whose work was sensational. C.G.E. gave him a lot of vicious dead-on shots to handle, but he coolly smothered shots from all angles, and the the four that beat him were from point blank range, when he did not have a chance to save. Sheehan was the first period, being a feature. Halattack, while on the forward line, Ranger was the star, doing some great rushing and shooting. Jimmy McMartin was also in the limelight at all times, while Hambly proved the "pinch hitter" of the game by scoring the tieing and winning goal in the last period.

For the losers, Williams was perhaps the most effective, his stickhandling and skating, especially in the qrst period, being a feature. Halpin was a tower of strength on the dfence, and Helson teamed up with him nicely. Rose and Bartley were always prominent, and Butcher did fine work in the nets.

Last nights game was a play off of Tuesday night's tie when the teams went thirty minutes' overtime with honours even. That there is little to pick between the outfits is shown by the fact that after one hundred and thirty minutes of hockey only one goal separated the two teams.

F. C. Waghorne, of Toronto, made a splendid job of refereeing the battle. He was strict and impartial, and neither team has any legitimate cause to complain. The ice conditions were perfect, Manager Thirnbeck having the finest sheet of the season ready for the fixture.

The teams:

De Laval — Goal, Bergoine; defence, McMartin, Sheehan; centre, Murray; right wing, Hambly; left wing, Ranger. Subs, Campbell, Lipsett.

C.G.E.—Goal, G. Butcher; defence, Halpin, Helson; centre, Rose; right wing, Williams; left wing, Bartley. Subs, Barrie, A. Butcher.

The game got away well on time and at a clip that was lightning fast. De Laval were first to stage an effective atack, Sheehan and McMartin combining for a dangerous rush, but Butcher was in the way. The checking was very close and the teams found it hard to break away. McMartin cut loose a bullet drive from centre that Butcher blocked, and a few seconds later the C.G.E. goaler turned aside a hot one from Murray. Halpin went down and let drive from outside the defence, Bergoine handling the shot nicely. C.G.E. lost a great chance to score when Bartley got right inside on a combination rush and took all kinds of time to make his shot, only to have Bergoine pull off a sensational stop. Ray Rose was in on top of the rebound, but again Bergoine saved. Then the play drifted the other way. McMartin shot from outside the defence and following in for the rebound, had a second shot which also failed. Ranger however, was on the job and slapped the rubber past Butcher for the first counter.

C.G.E. were not long in tieing it up, when Rose scooped the equalizing goal past Bergoine on a neat pass from Bartley.

That left it 1—1, and the Electricians forged ahead shortly after when Sheehan was benched for holding Williams. Almost from the face-off that followed, Butcher passed to Williams, who worked his way inside. He was upset at the mouth of the net, but batted the rubber past Bergoine as he fell ,and the C.G.E. were in front. Williams had several good chances in the next few minutes, but could not score.

Early in the second period, Williams was penalized for hooking, but there was no scoring while he was off, although De Laval had several opportunities. The teams were even again when C.G.E. increased their lead. From a scrimmage in the corner Rose passed out to Williams, who was left unchecked in front of the nets and he completed the play by ripping a close range shot past Bergoine.

The C.G.E. rooters were still applauding this play when De Laval got the counter back again. Ranger took a pass from Murray and dashing down the boards fooled Butcher nicely with a swift side shot.

Williams drew a minute for dumping McMartin and Ranger followed him for tripping. De Laval were pressing hard, but could not beat Butcher and it was C.G.E. who finally scored. Rose and Williams tore off a nice combined rush and when the latter's shot hit the post, Alex. Butcher batted it into the net and the score was 4 to 2.

That figure did not last long, for thirty seconds after "Red" Sheehan went down alone and took Butcher's measure with a swift, low shot from outside the defence. It was 4 to 3 when the period ended.

Needing a goal to tie the score, De Laval sent their defence pair up on the attack in the last period, and they soon had C.G.E. bottled up. The Electricians fought with every ounce they had to hold the lead. Butcher made a number of great saves and his team mates averted goals by close checking at critical moments. The minutes were flying past and although De Laval had the big edge of the play they could not seem to solve the problem of how to get the goal they needed. Finally however, Hambly broke away, and going down the side cut loose with a drive that caught the corner of the net. Ranger drew a penalty, but the odd man advanage did not help C.G.E., who could not break away from the close checking of the Separators, who saw victory coming and were full of "pep." Hambly settled the argument with six minutes to go when he recovered a loose puck Ranger 2, Murray. Total 4. C.G.E. tore through his hand and dropped into the nets.

There was still time to pull the game out of the fire, and the Electricians chased their defence up in a desperate effort to save the situation. De Laval dropped three men back and took no chances, killing time by shooting the rubber down the rink, and these tactics were successful in holding their lead safe. Ranger and Williams were both hurt in the last few minutes, only a few seconds being left when the latter was injured.

First Period.

1 De Laval, Ranger, 10 mins.
2 C.G.E., Rose ,2 mins.
3 C.G.E., Williams, 3 mins.

Second Period.

4 C.G.E., Williams, 7 mins.
5 De Laval, Ranger, 30 secs.
6 C.G.E., Butcher, 9 mins.
7 De Laval, Sheehan, 30 secs.

Third Period.

8 De Laval, Hambly, 12 mins.
9 De Laval, Hambly, 2 mins.

Penalties — De Laval, Sheehan. Raner 2, Murray. Total 4. C.G.E. —Williams 2, Bartley. Total 3.

CURLING

MORROW DEFEATED MARTIN.

W. G. Morrow handed Herb Martin a neat trimming last night in a challenge game for an oyster supper that was won by the score of 17 to 8. The rinks were as follows:

A. Ross	Tom McArthur
Rev. J. Rollins	M. Comstock
R. F. Dowsey	W. J. Thompson
W. R. Martin	W. G. Morrow
Skip 8	Skip 17

The score by ends:

Martin. . . . . 00001040020—8
Morrow. . . . . 21210240203—17

Martin had been anticipating the pleasure of lunching at the expense of Morrow, and fought all the way to win, but he dropped behind at the start and was finally routed. George Benor played second stone instead of Manson Comstock, the regular second on the Morrow rink. After the game Martin's rink entertained the victors, the losers paying the shot.

GRANITES WON CURLING CLASSIC

DEFEATED LINDSAY IN TANKARD FINAL BY 39 TO 32,

TORONTO, Feb. 25.—Early this morning the Toronto Granite Curling Club's rinks were declared winners of the Ontario Tankard over the Lindsay representatives by a majority of seven shots, the score being 39 to 32. The final was one of the most interesting matches in years. The sudden lowering of the temperature enabled the curlers to perform on an excellent sheet of ic at Queen City rink. The large gallery attracted to the final remained to the finish, so interesting was the competition, and so uncertain the outcome.

At the conclusion of the game the famous old silver tankard was presented to the winners by Mr. Justice Sutherland, himself an old curler. His remarks were brief but fitting, as were also those of the recipients. The rival rinks were heartily cheered each by the other at the conclusion of the presentation ceremony.

The game was somewhat late in starting, and the players proceeded slowly and carefully, the game being seen at its best because of the calibre of the opposing rinks and the keenness of the ice. In the earlier stages of the competition, it appeared as though the Granites would win with ease, but Lindsay refused to be beaten without making their customary stubborn fight.

Lindsay were fourteen shots down on the fourteenth end, Little having lost eight consecutive ends to Suckling. Then the Lindsay skip made a six on the fifteenth and a four on the sixteenth. Meanwhile the other Lindsay rink were making a one and a three, fourteen shots in two ends on both sheets for the visitors. That made the game a battle with three ends to go, and Granites only three shots up. The Church street candidates held their advantage to the end, and put on four shots for good measure. Scores:

Ontario Tankard—Final.

Toronto Granite.	Lindsay.

FINAL GAME ON MONDAY NIGHT

DE LAVAL AND HAMILTONS WILL PLAY ONE GAME FOR CITY LEAGUE CHAMPIONSHIP.

The two finalists in the City Hockey League, De Laval and Hamilton's, have been notified to be ready to play the final game next Monday night. If ice conditions are not satisfactory, the game will be postponed, in the event of which the clubs and fans must be prepared for a game called on short notice, in which the weatherman will be the deciding factor.

There will be no change in the admission prices, general admission being 25 cents and 50 cents and amusement tax for reserved seats. The reserved seat sale will open at Bond's Drug Store Saturday morning.

The League Executive wish to thank the fans for the splendid order maintained last night. Smoking in the Rink was practically eliminated, and it is hoped the same thoughtfulness for the players' welfare will prevail at the final game.

LAST TEST CRICKET MATCH IS STARTED

ENGLAND MADE ONLY 204 IN FIRST INNINGS.

SYDNEY, N. S. W., Feb. 25.—(Canadian Press).—The last "test" match between the English and Australian cricket teams began here today in fine weather and on an excellent wicket. The English team batted first and could only score 204. Australia had lost two wickets for 70 when the stumps were drawn.

LOCAL TEAM TO GO TO KINGSTON

Peterborough O.B.A.A. team plays Queen's to-night in the Limestone City, and to-morrow night will meet the strong Belleville team. Doug. Loomis is coaching the team, and will likely line his men up as follows: Centre, Sutherland; forwards, Seely, Nicholls and Jobbitt; defence, Darling, Stewart and T. Pogue. Belleville defeated the University boys, and Peterborough trimmed Belleville here, so the odds on to-night's battle would seem to be in favour of the locals. However, Queen's may have pulled up, and the battle may be a fast one.

HOCKEY RESULTS

Ontario Hockey Association.

CHURCH LEAGUE BOWLING

The Church League will resume the schedule of games next week at the Y.M.C.A. and the balance of the schedule will be as follows:

Tuesday, March 1.—St. Paul's vs. Excelsiors
Wednesday March 2.—George St. vs. Trinity.
Thursday March 3.—All Saints vs Murray.
Tuesday March 8.—St. Andrews vs. Trinity
Wednesday March 9.—Murray vs. Excelsiors.
Thursday March 10.—St. Paul's vs. All Saints.
Tuesday March 15.—St Andrews vs. Murray.
Wednesday March 16.—All Saints vs. Excelsiors.
Thursday March 17.— St. Paul's vs. St Lukes.
Tuesday March 22.—St. Pauls vs. St. Andrews.
Wednesday, March 23. — Trinity vs. Excelsiors.
Thusday March 24.—George St., vs. All Saints.
Tuesday March 29.—Excelsiors vs George St.
Wednesday March 30.— Murray vs. Trinity.
Thursday March 31.—All Saints St. Lukes.
Tuesday April 5.—George St. vs. Murray.
Wednesday April 6.—Trinity vs. St. Pauls.
Thursday, April 7.—Excelsiors vs St. Lukes.
Tuesday, April 12.—Murray vs. St. Lukes.
Wednesday, April 13. — St. Andrews vs Excelsiors.
Thursday, April, 14—Trinity vs. All Saints.
Friday April 15 — St. Pauls vs. George St.

The standing of the teams in the second section of the league is:

	Won	Lost
George St.	6	0
St. Pauls	2	1
St. Lukes	4	5
St. Andrews	2	4
Murray	1	2
Trinity	0	3

All Saints and Excelsiors have not played to date. The individual standing will be published later.

MR. SPRACKLIN IS UNDECIDED

WHETHER TO APPLY FOR REINSTATEMENT AS SPECIAL LICENSE INSPECTOR.

WINDSOR, Feb. 25.—Rev. J. O. L. Spracklin will preach Sunday in the Sandwich Methodist Church. Later he may resume work as a Liquor License Inspector, but as to this he has not yet definitely decided.

After being formally acquitted of th charge of manslaughter, Mr. Spracklin and his wife went to the home of his father, J. J. Spracklin, 63 Cameron avenue, where they spent the night. Interviewed there, Mr. Spracklin said he had not fully made his plans for the future. He was still undecided whether he would apply for reinstatement in the service of the Provincial Govrnment as License Inspector, or if he would continue as pastor of the Sandwich Church. It will be several days before he is ready to announce his plans, he said.

Mr. Spracklin has sent word that he would like to see several of the men who worked with him in the war on illicit whiskey dealing. It is thought that this conference will have some weight in framing the decision the pastor will make.

SANDWICH, Ont., Feb. 24. — "Somebody may think it is too harsh and may think it should not be enforced at all, but the Ontario Temperance Act is the law of this province and it must be enforced as such," said R. L. Brackin, addressing the assize jury this morning in the trial of Rev. J. O. L. Spracklin, being tried for manslaughter in connection with the death of Beverly Trumble during a raid on the Chappell House on the morning of Nov. 6.

Mr. Brackin argued that when Trumble ran into the house, after having been outside with Spracklin and Deslippe, who had been injured, he ran in especially to get his gun. Trumble anticipated that someone was to be killed. He was determined that it should not be he. Counsel held that the jury should not permit itself to be tied down by anyone to the actual time taken by the events directly preceding the shooting.

A Lapse of Time.

"It's like a man asked which lives the longest, a married or single man, and who replies that while the married man doesn't actually live the longest, it seems longer," said Mr. Brackin.

"It is, therefore, a matter of opinion differing with different people, as to how long the backing of the Bell brothers out of the room at the point of a gun by Trumble took. Similarly, opinion varies as to the length of time elapsing between the threat of Trumble to shoot Spracklin and the shot fired by Spracklin."

Interest in Case.

In opening his address, Mr. Brackin commented upon the wide public interest in the States and Canada occasioned by this case. The jury in this case, said counsel, had a great service that it might perform for the people of this country. He said that ordinarily a minister of the Gospel should not be a liquor law enforcement officer, but in this case circumstances made his appointment almost a direct necessity.

"But it was a vile disgrace for the Ontario Government to put the responsibility of enforcing this law upon Mr. Spracklin," said Mr. Brackin.

He argued that it is immaterial what the law says about self-defence so long as the jury is convinced of Spracklin's necessity for defending himself in view of Trumble's threats to kill the accused as soon as he entered the Chappell House.

Thinks Story Untrue.

"I have always been on the other side in cases in which I met Spracklin, but the Almighty could not permit Spracklin to lie as to whether Trumble had a gun or not," said counsel, who expressed his belief that the story of Mrs. Trumble was a lie concocted that she might get revenge on Spracklin.

Comment was made on the desultory search for Trumble's gun by P.C. Snider, of Sandwich, who did not look for it in anyone's pocket. That morning Ed. Smith ran away to Detroit, where he registered under an assumed name. On Monday night he went to see Wm. Morton, who owned the Chappell House after Trumble was fined, and then he came back to the inquest with his story ready. He said that the bullet went through Trumble and bruised his leg. Mrs. Trumble also swore to this, but as he left Canada at 8 o'clock in the morning, five hours after the shooting, how could Mrs. Trumble know Smith's leg was wounded? Did he show her this wound? Mrs. Trumble would say anything to convict Spracklin.

Slammed Door in Face.

Counsel also contended that Smith slammed the door in Frank Bell's face so that he, Smith, might get Trumble's gun and conceal it. Trumble ,according to the evidence, did not have his finger on the trigger of his gun when backing the Bells out of the private living room, but when he turned the gun on Spracklin, he not only said he would shoot him but he put his finger on the trigger, indicating his intention to shoot.

In leaving the house after the shooting, Mr. Brackin argued that Spracklin was justified as so many threats against his life had been made.

Was He Justified?

Counsel admitted that Spracklin killed Trumble, but urged that the only question to be determined is whether or not the prisoner was justified in shooting in self-defence.

"The facts are that Trumble said 'G— d—— you, Spracklin, I'll shoot you,' and then placed his gun against Spracklin's stomach.

"In such cases a man shoots first and speculates to to probabilities afterwards," said counsel, who forebore to say anything regarding the family connections of the accused, characterizing such references as "cheap stuff."

Support of Law.

"It is essential that a man who goes out to enforce a law of this country may know that he has the support of the law of the country in so enforcing those laws. There will be more joy in the hearts of the people of this country if Spracklin is acquitted than if found guilty. The latter verdict being pleasing only to such persons as Mrs. Trumble, Edward Smith and people of that character," concluded Mr. Brackin.

Search Inefficient.

Crown Counsel A. M. Grier said in opening his address that a conviction is not entirely dependent on the evidence of Mrs. Trumble and Ed. Smith. He agreed that Snider's search of the Chappell House for a gun after the shooting was very inefficient. The Crown had put in this evidence simply as dealing with something that happened. No particular importance was attached to this evidence by the Crown.

Should Have Left.

Mr. Grier agreed that the case has aroused interest outside of Canada. He did not propose asking for a conviction, but merely to help in determining the facts. He agreed that as Spracklin entered the Chappell House to investigate the assault on Ernie Deslippe his duty as a law enforcement officer ceased as soon as he finished that matter. Therefore, while entry was legal, Spracklin's legal right to be in the house ceased before he shot Trumble. It was Spracklin's duty to get out of the house when first he heard Trumble's threat to shoot if the posse did not leave the hotel. Spracklin should have then taken his men out with him. There was ample opportunity for his retirement after threats by Trumble without any necessity for using his gun at all.

He held that Spracklin might not have acted as the man of courage as portrayed by the defence. In covering Trumble with his gun it was argued that Spracklin was defending Bell. But he did not shoot until his own life was endangered. While pointing out that there was no evidence brought out by the Crown that Trumble had a gun; Mr. Grier made the admission of Trumble having had one when dealing with this point.

Mr. Grier concluded his address without having analyzed in any minuteness even his own evidence and at 12.30 ajournment was made. Sir William Mulock will deliver his charge to the jury this afternoon.

ANOTHER IRISH AMBUSH.

MACROOM, Ireland, Feb. 25 (by Canadian Press).—Fifty Auxiliary Police, travelling in lorries, were ambushed between this village and Ballvourney this morning by three hundred men. The ambushing party opened fire from the cover of rocks along the road, killing one policeman and wounding six. The fight was still going on at latest reports.

SKIPS PLAYED ONE TIE-BREAKING END

PETERBORO AND BOBCAYGEON HAD EQUAL SCORE FOR THE FITZGERALD-BOTTUM TROPHY —BOBCAYGEON WON IN DECIDING END.

Four rinks took the Fitzgerald-Bottum Shield to Bobcaygeon yesterday and left it there. In the games played here during the bonspiel Bobcaygeon was down five, but on yesterday's play they tied up the score for the trophy. It was then decided that two rinks should play one deciding end, and Jack Reid was sent out against Albert Bottoum. The Bobcaygeon skip dropped his first stone right on the tee and Reid bounced one against the end of the rink. Bottum put the next in the ring and the Peterborough skip stopped outside the hog line. Thus Bobcaygeon holds the Fitzgerald-Bottum trophy for this year. The Peterborough skips selected for yesterday's games were J. E. A. Fitzgerald, Tom Brightman, W. T. Hall and John Reid. The Bobcaygeon curlers entertained the Peterborough skips at a banquet in the Rockland House, and generally extended their finest brand of hospitality.

In the United States there are more than 100,000,000,000 eggs consumed every year It is now classed as a $1,000,000,000 industry.

PETERBORO RINKS IN FIRST ROUND

OF THE DISTRICT CUP FINALS— BELLEVILLE DEFAULTED.

TORONTO, Feb. 25.— Canadian Press.) — The District Cup finals were started this morning under present curling conditions. Harriston defaulted to Toronto Granites, Ingersoll to Hamilton Victorias, and Belleville to Peterborough. The scores in the games played were as follows: Galt Granites 26, Strouds 25, Orillia 28, Agincourt 27, High Park, Toronto 30, Brockville 28..

Peterborough's rinks are: Cruthers, Archibald, Campbell and Best; and F. C. Weber, T. O. Donaldson, J. W. Fraser and J. W. McDermid. Last night McDermid wasn't certain whether to play Donaldson or Fraser as vice. He had expected Jimmy Metheral to play in that position, but Metheral wasn't in condition to go through two or three eighteen end games.

SHOE PRICES CUT

B. Chesler tells in his large advertisement in this issue of several special purchases bought low for spot cash from the best shoe manufacturers in the business. He is passing on the big savings he made to his customers. Find the store on your first shopping trip—at 330 George Street.

CANTATA IN KNOX CHURCH

Knox church was filled last night on the occasion of the concert by the choir and the visiting artists. The concert as a whole was splendidly carried out, and the Cantata, "The Rolling Seasons," was a triumphant exhibition of beautiful voices and much hard work on the part of the conductor, Mr. F. E. Walden, and of all those taking part. Every member seemed to take a direct personal interest in the different parts of the work, the solos, duets and concerted melodies moving along with a smoothly flowing rhythm, while the organ, the motif of the cantata weaving in and out like a soft refrain, gave the effect now of the on-rushing waves of a mighty sea, and again of the softly fluted notes of a fairy piper, walking through an enchanted forest. Mr. Walden, the organist certainly gets some wonderful effects from this instrument.

Mr. W. S. Hamilton, tenor soloist of St.Andrew's Presbyterian Church, Toronto, delighted his hearers with a miscellaneous offering of songs. He has a rich tenor with up-swelling major notes and wonderfully sustained final minor cadences. He was heard to great advantage in a group of sacred songs, and in a duet with Rev. J. A. McKenzie, "Lead Kindly Light," the two fine voices blending perfectly in this wonderful prayer. Mr. Hamilton excels, perhaps, in the Scotch airs, which suit the timbre of his voice to perfection, and the Irish ballads were very sweet.

Miss Mildred Lloyd, of Albert College Belleville, gave some enthusiastically received readings, her powers of mimicry and expression being loudly applauded.

Master Kenneth McCannon sang "The Holy City." This small man has a very pleasing voice, and was encored repeatedly.

Mrs. Percy Hooper gave a beautiful rendition of Wieniawski's "The Legend,' with her usual finished technique and masterly handling of that king of musical instruments the Violin.

The piano duet, "Sequidilla," by Miss Dorothy Gillespie, and Mr. F. E. Walden, was splendidly executed, the clear, bell like notes and gay, rapid tempo of the old dance; with the click-clack of the tambourine, in its rippling arpeggios making a most attractive number.

A piano solo, Godar's "4th Mazurka," by Miss Elizabeth Webber, and a piano duet "Overture from Norma, by Miss Webber and Miss Grace Reid, were good examples of careful training and careful study on the part of both the teacher and the performers. These young ladies evidenced in their numbers, the same strict attention to technical detail which made the whole concert a very pleasing musical offering.

Inhabitants of Massachusetts last year lost between $30,000,000 and $50,000,000 by investing in fake securities and get-rich-quick schemes.

FINANCIAL AND MARKETS

WALL STREET.

NEW YORK, Feb. 25.— (Canadian Press.)—Liquidation of speculative issues made further substantial headway at the broad and active opening of to-day's stock market. Especial weakness was again shown by Shippings, Motors, Coppers and several of the Steels and Equipments. An initial decline in Atlantic Gulf and West Indies was seen extended to 3 1-2 points. Kelly-Springfield Tire dropped two points; Crucible Steel, Chandler Motor, Utah Copper and Retail Stores one point each. Oils and Food Specialties were fractionally lower and Sears Roebuck approximated its recent low quotations at a further loss of 1 1-2 points.

Renewed selling of Atlantic Gulf, Common and Preferred, the latter losing two points, checked the rebound at mid-day. Most other leaders rested half way between the high and low levels of the morning, but specialties were irregular, Remington Typewriter falling three points, while Famous Players rose three points.

Early prices proved to be the lowest of the forenoon, the market rallying briskly within the first hour. Atlantic Gulf recovered the greater part of its loss and American International and United Fruit were over yesterday's final prices. Shorts covered hurriedly in Rubbers and Tobaccos, as well as in some of the Textile and Chemical issues. There was a marked absence of interest, however, in the home representative Industrials and Rails. Purchases of the latter were restricted to minor shares such as St. Paul, Missouri Pacific and St. Louis and South-Western. The seven per cent. opening rate for call money also applied to renewals into next week.

Close—Atlantic Gulf suffered another set-back later with Vanadium Steel, but the general list, especially Oils and Rubbers, improved as call money declined to six per cent. The closing was irregular.

Standard shares of Railway and Industrial groups were comparatively steady to-day, but Shipping, Motor and Food issues added variably to recent losses. Sales approximated 475,000 shares.

FOREIGN EXCHANGE.

NEW YORK, Feb. 25.—(Canadian Press).—Sterling exchange steady, demand 3.86 1-8; Canadian dollars, 12 3-8 per cent. discount.

CHICAGO GRAIN.

CHICAGO, Feb. 25. — (Canadian Press).—New set-backs in the price of wheat took place to-day, chiefly as a result of selling that was ascertained to be due to uneasiness concerning the economic outlook. Anticipation of a bearish Government report on farm reserves on March 1 tended also to weaken values. Support was lacking except after material declines. The opening quotations, which ranged from 3-4 to 2⅛ lower, were followed by a slight rally, but then by down-turns further than before.

Large receipts had a depressing effect on corn. After opening 3-8 to 1¼ down, including May at 68⅛ to 69¼, the market continued to sag.

Oats were weak with other cereals starting 1-8 to 5-8 off, May 44 1-8 to 44⅛, and later suffering an additional decline. Upturns in the value of hogs gave strength to provisions.

Close—Wheat, March 1.67½, May 157 3-4. Corn, May 70, July 72. Oats, May 45¼, July 46¼. Pork, May 21.20. Lard, May 12.12, July 12.45.

TORONTO.

TORONTO, Feb. 25.—(Canadian Press).—Improved sentiment this morning brought about a slight recovery in stocks that had suffered most during the recent depression on the Toronto Stock Exchange. Short covering contributed also to higher prices. However, trading fell off and stocks which were not subjected to pressure during the early part of the week sagged back and then moved forward, ranging within narrow limits.

Abitibi advanced two points to 36, while Brompton gained 1 3-8 to 35 3-8. Spanish River moved up one to 72¼. Lake of Woods opened at 152, but fell off to 142, and Mackay was also weaker at 76.

MONTREAL.

MONTREAL, Feb. 25. — (Canadian Press.)—Local stock exchange displayed signs of recovering from its extreme weakness of the last few days during early trading this morning and many of the leaders registered substantial advances, the most prominent of which was a 3 3-4 jump in Abitibi which closed at 33 1-4 and sold at 36 3-4 to-day. Atlantic Sugar remained steady and unchanged at 31, Brompton strengthening three-quarters of a point to 34 3-4. Laurentide proved an exception this morning by weakening a half to 83 1-2. National Breweries was unchanged at 49 1-2, as was also Spanish River at 72 1-2. Other issues were quiet.

Saturday is a Day You'll Save Money at

Thornton's Semi-ready BLUE PENCIL SALE

Prices Cannot Go Lower. IT'S A HUMMER

Men! Get busy and Buy NOW. Bedrock Prices are Hit! And remember, while we are Dropping the Prices, we're not Dropping the Standard of "Semi-Ready" Clothes.

ROTARY CLUB TO BE ESTABLISHED HERE NEXT WEEK

WILL OPEN UP WITH CHARTER MEMBERSHIP OF TWENTY-FIVE.

On Tuesday, March 1st, there will be inaugurated in Petedboro' a branch of the Rotary Club, which is already organized in many important Canadian centres as well as very extensively in the United States.

It will open up in Peterboro with a charter membership of 25, and for the occasion some 150 visitors will be present from Belleville, Toronto and Oshawa, including some of the following prominent gentlemen:

District Governor Harry Stanton and President Norman Tovell of the Toronto Club. E. Gus Porter, President of the Belleville Club. H. L. Kerr and Frank Littlefield of Toronto, the latter being the speaker of the evening.

The Rotary Clubs are organized for the purpose of giving service, and have proven to be a very efficient organization in many lines of activity, and those in Peterboro, who have been anxious for the formation of a Rotary Club here will be pleased to hear that Peterboro is to be represented on Rotary affairs in future.

LAKEFIELD NEWS

LAKEFIELD, Feb. 25.—The entertainment given on Tuesday night in the Memorial Hall under the auspices of Knox Minstrels, of Peterborough, was the first concert in the new Town Hall. The hall was fairly well filled. The specially good numbers included violin selections by Mr. Joe Nazareth and the solos by Miss Pearson, Miss Kennedy and Messrs. Ted. Jackson and Art. White. This is the second appearance of Knox Minstrels in this village.

Personal Mention.

Miss Amy Watson was in Peterborough for a couple of days this week.

Mrs. J. C. Smith and son returned from Peterborough on Thursday.

PASSENGER RATES INCREASE

NEW YORK, Feb. 25 (Canadian Press).—Effective yesterday, the first-class passenger rates from the United States to European points advanced 10 per cent.

CARUSO HAS SAID SO

That the Heintzman & Co. grand piano, manufactured by Ye Olde Firme, Heintzman & Co., Limited, George and Hunter Streets, Peterborough, has met every expectation of Caruso in his Canadian tourney, is the frank and candid expression of this great artist himself. It is something to bring pride to Canadians that they have manufactured in their own country a piano that has never yet failed to meet the most exacting demands of the world's greatest artists.

Voice Of The People

To the Editor of The Examiner:

Dear Sir,—The letter written by Rev. James Rollins published in last night's Examiner stating that I had avoided any phrase relative to the percentage basis on which the Grand Opera House is to share on the proceeds obtained through the proposed Sunday night concerts, is not true.

When the subject was broached to me by the General Public and taken up afterwards by the Band, I stated that I would not charge any rent at all, but would consider 10 per cent. should be given to the Opera House as a minimum, of the collection, to help pay for the electric light and stage help, and the maximum would be $20 to $25, not per cent., as stated by Mr. Rollins. The stage boys are paid $4 each, and it requires 4 men to look after the lights, curtain, etc. These boys stated they wanted the privilege of donating their pay to either the Band or the Charitable cause for which the Concert was held, but they would do that themselves, as they saw fit, after receiving their pay from the theatre. The electric light bill would be covered by the balance. Therefore if the collection amounted to $50.00 the minimum mentioned of 10 per cent. would amount to $5.00 to pay the above cost. Where is the financail gain in this, as stated by Mr. Rollins. With regard to heating the theatre, this item was never thought of, as the Opera House has to be heated all the time during the winter months, on account of the apartments and stores in the front of the building.

Mr. Rollins also states that I told the members of the Ministerial Association that all the bands had volunteered their services. This is not so. What I said was, that the proposed concerts were open to all the bands of the city to offer their services ,and that Adjt. Bunton of the Salvation Army had been in to talk the matter over, and had asked me to write him the proposition, and he would take the matter up, which I did, and have a copy of that letter on file.

Mr. Rollins also states there are several paragraphs in my front page statement on Wednesday evening, in the Examiner, that were food for thought. I am now stating a news item from the Ottawa papers of last Monday which will also be food for thought, for Mr. Rollins and the Ministerial Association:

"At the Sunday night concert given last Sunday at the Russell Theatre by the band of the Governor-General, the Duke and Duchess of Devonshire and Suite were in attendance."

The letter written by Mr. J. F. Clarke, published under the letter of Mr. Rollins, is a fair indication of the general trend of public sentiment regarding Sunday night concerts.

W. L. PHILLIPS,
Manager Grand Opera House.

REBELLION IN RUSSIA.

COPENHAGEN, Feb. 25 (Canadian Press).—Reports from points in Eastern Russia state that widespread rebellions have broken out over the failure of the Moscow Government to provide food and fuel for the inhabitants.

BRITISH RAILWAY CRISIS.

Signalmen Threaten to Strike Unless Demands Are Granted.

LONDON, Feb. 25.—Yet another railway crisis has arisen here. Thirty thousand signal men, who are all members of the Union of Railway Men, threaten to strike if their demands for standardization of wage rates is not met within the next fortnight.

The men are angry with their own executive because of delay in the negotiations with the railway companies and complain that every other grade of railway workers, except the shopmen and themselves, obtained the standardization promised after the last national strike.

The National Delegate Conference of Miners held in London to-day rejected a "direct action" proposal of South Wales delegates. The suggestion was that fourteen days' notice be given to the Government that unless the Labor Party's scheme for dealing with unemployment is carried out forthwith the miners of the country will strike at the end of that period.

BANQUET TENDERED TO ST. PAUL'S CHOIR

Excellent Musical Programme Provided —About Sixty took part.

The members and friends of St. Paul's Church Choir were tendered a banquet last evening by the Ladies' Aid Society. This took place in the Sunday School room, and about eighty people sat down to a sumptuous repast, prepared by the ladies under the capable leadership of Mrs. White, President. The tables were laden with good things, and were artistically decorated. After the dinner, a musical programme was presented, in which Mrs. Ellis, Mrs. Davidson Mrs. Wells and Mr. Tattersall took part. A vote of thanks to the Ladies' Aid Society was moved by Mr. D. H. Moore, and seconded by Mr. Frank Tattersall.

ROOF SIGNS GUIDE FLIERS.

Many English Towns Paint Names on Buildings to Aid Pilots.

LONDON.—Now that commercial aviation has reached a permanent stage in England, the names of many towns are being painted on the roofs of railway stations for the guidance of pilots. The custom is growing, and probably it will not be long until every town on a frequented air route will be so marked. Ashford was the first to seize this opportunity, and Basingstoke, Reading and Brentwood followed suit. Aylesburt and Slough have their names marked in huge chalk letters near the station.

IN MEMORIAM.

CLYSDALE—In loving memory of Wm. Clysdale, who died February 23rd, 1920.

Oh, how oft our thoughts do wander
To a grave not far away,
Where they laid our dear loved one
Just one year ago to-day.

Yes, one year has past and gone
But we miss thee more and more,
But we will meet again, dear one
Where parting is no more.
—His Wife and Family.

OBITUARY

CORA LOUISE HARPER

The death occurred this morning of little Cora Louise Harper, daughter, of Mr. and Mrs. Norman Harpeth, 565 Gilmour street. Deceased, who was ten years of age had been ill about three weeks. There are left to mourn her loss, her parents and two sister, Vernabelle, and Kathleen.

The funeral will take place Saturday afternoon at three o'clock to Little Lake Cemetery. Rev. A. J. McKenzie will officiate.

MRS. MARY BUSH.

BUFFALO, N.Y., Feb. 24.—Mrs. Mary Bush, born 79 years ago in Peterborough, Ont., died Monday night following a brief illness, at her home, on the Lilly Dale camp camp grounds at Fredonia, N.Y., and interment was Wednesday afternoon in Cassadaga, N.Y. The late Mrs. Bush was a daughter of the late Richard Cramer, of Peterborough, Ont.

SARAH JANE GRIFFIN

The death occurred at 8.45 last night of Sarah Jane Griffin of West Gilford, Haliburton County at the residence of her brother-in-law, Arthur Williams, 133 Romaine street, after an illness of four weeks. Deceased was 59 years of age and had lived in Haliburton practically all her life. She leaves besides her husband Joseph, three sons and four daughters Deceased was a Methodist and service will be held at 133 Romaine street to-night by Rev. J. F. Chapman of St James' Methodist Church before the remains are forwarded to Haliburton on the 8.20 G.T.R. train to-morrow morning.

SOCIAL AND PERSONAL

Rev. Jas Smythe, B.A.L.L.D. of Montreal and Mrs. Smythe are the guests of Rev. Harold and Mrs. Young during their stay in the city.

Mr. Robert Hicks arrived home from England this morning, having parted company with the other Canadian curlers after their final games in the old country and before setting out on a visit to France.

Mr. J. J. Hartley, who has been quite ill for the past ten days, has taken a change for the better and his speedy recovery is anticipated.

Miss Mary Driscoll, nurse-in-training at Hotel Dieu Hospital, Windsor, having recently recovered from an attack of typhoid, returned to her home yesterday, where she will spend two months before resuming her studies.

On Friday evening last a surprise party was held at the home of Mrs. E. Houghton, Orpington Road, on the occasion of the marriage of her daughter Bessie to Mr. E. Simmons. About thirty-five of their neighbours and friends attended, and presented the happy pair with a number of useful souvenirs. Refreshments were served, and the evening was spent in music and dancing.

A delightful tea was given by Miss Rosamond Huycke yesterday afternoon at her home on Engleburn Avenue, at which about 70 ladies were present. The tea-room was very prettily decorated with yellow daffodils. Those assisting were: Mrs. Birks, Mrs. G. Matthews, Mrs. Harry Cressman, Miss Jessie Cressman, Miss Dorothy Hill and Miss Nora Hatton.

VISITORS TO CITY

Guests registered at the Empress Hotel:—R. Bowman, J. G. Carroll, F. F. Fry, F. Peckitt, W. H Clayson, S. W. Lewis, T N Rutherford, A. E. Richards, and L. J. Lugsdin, of Toronto, W Kampf, Guelph, J. D. McLean, Mrs. D B Cutcliffe, Norwood, P. A. Morgan, Montreal, S. A. Flavelle, Lindsay, W. Weatherston, Brockville, W. T May and J. D. McLean, Hamilton, F. Donovan, Brooklin, Mass., R Everett, London, J. C. Carrity, Pittsburgh, Pa. F. O. Seibert, Ottawa, A. Musgrave Chicago, C. D. McPherson, Woodstock, M Jacobi, Oshawa, and W. Adamson, Detroit.

At the White House—A. Black, G. O. Tyndall, S. M. Scott, J. R. Cotterell, J. R. MacNicol and W. R Mowat, Toronto, R. Johnson, Lakefield, V. Dillson, Stratford, and J. A. Virtue, Brantford.

ANOTHER CURB ON SHIMMY, JAZZ, ETC.

New York Senator Introduces Bill to Regulate Public Dances.

ALBANY, Feb. 25.—A bill designed to regulate public dance halls, the passage of which he believes would eliminate "the bunny hug, alligator glide, shimmy and other disgraceful dances," was introduced in the Legislature to-day by Senator Salvatore A. Cotillo, of New York.

In a statement explaining the purposes of the measure, Senator Cotillo said the proposed act would give the Commissioner of Licenses exclusive powers of determining whether a building to be used for a public dance was a proper place for such an affair and those seeking licenses must be responsible persons or organizations.

He asserted that the measure had the support of many welfare organizations, and expressed the hope that the public would give favorable attention to it, as the bill "concerns the very home conditions."

Religious, charitable and educational soceities would not be affected by the bill in the matter of obtaining licenses, Senator Cotillo added.

Coming Events

TO-NIGHT—WATER ST. BOWLing Alleys.

MONDAY NIGHT, FEB. 28.—Business Men's Class of the Y will hold their regular monthly dinner.

TO-NIGHT—FURTHER EDUCAtional Club of Sacred Heart church will meet in the hall of the church.

TO-NIGHT—TRINITY CHURCH Mission Band concert in Reid street hall at 8 o'clock.

TO-MORROW AFTERNOON — Ladies' Auxiliary G.W.V.A., Tea-Dance in G.W.V.A. Hall, 4.30 to 7. Admission 50c.

MARCH 8TH OR 9TH — KEEP the date, March 8th or 9th, for King Dodo at the Grand Theatre, under the auspices of the 57th Regiment Chapter.

Between the Eyes

The upper part of the face is noticed first when you meet a person. If there's a scowl there it so disfigures the face that the most attractive face is spoiled.

If you have to make an effort to see clearly you scowl without knowing it. Let Dr. Fowler prevent scowls by fitting you with proper Eye-Glasses.

VOL. XLIX. NO 48 PETERBOROUGH, SATURDAY, FEBRUARY 26, 1921 PRICE THREE CENTS

GOVERNMENT NO MANDATE, SAYS "A. K."

EX-MINISTER IN UNION CABINET WILL SUPPORT KING AMENDMENT FOR AN ELECTION.

IMMEDIATE DISSOLUTION

OTTAWA, Feb. 26. — (Canadian Press.)— Expressing his firm belief that the people of Canada were under the impression at the time of the last election, that this Parliament would exist only during the period of the war, Hon. A. K. MacLean, former Minister without portfolio in the Union government, who recently crossed the floor of the House, yesterday announced his intention of supporting the Opposition amendment demanding dissolution and an election.

Mr. MacLean asserted that he had no regrets for entering the Union government in 1917. "I only trust that I lived honorably up to the obligations which acceptance of that position implied,' he said. Mr. MacLean said he did not think that redistribution of seats was sufficient reason for prolonging the life of Parliament when there were so many good reasons for dissolving it. The people of the west were, he thought, prepared to forego redistribution if an election could be secured. Placing redistribution as an essential before an election was a political doctrine of "might is right." He could not see that any province was suffering from want of adevuate representation.

When the House assembled amendments to the Dominion Elections Act providing for the taking of a prohibition referendum in Ontario were immediately proceeded with, and after a somewhat stormy course the amended bill was reported from the committee and given its third reading.

Other speakers in the debate were, Dr. Blake, Winnipeg; F. H. Scott, South Waterloo; H. H. Halliday, Bow River; J. P. Reid, MacKenzie, and O. E. Gould, Assiniboia.

THE WEATHER

Last night's lowest was 5 degrees above the zero mark. A year ago this morning it was 7 below; on the 27th, 13 below; on the 28th, 20 below; on March 2nd, 12 below, and March 3rd, 3 below. This was the last below zero of the season. At this date we had 25 inches of snow on the level. A thaw on the 10th March took much of it away, and by March 20th it was almost completely gone. The creeks were at their highest point March 12th, and wheels were in general use by the 13th. Robins apeared in large numbers on the 22nd, although stragglers were around some days previous. The blackbirds came March 27th. With these dates to refer to we may easily see if the events of the spring season follow their usual sequence.—W. P.

AT THE THEATRES

GRAND—Dark.

THE ALLEN—Zane Grey's most powerful story, "Dessert Gold," a dashing double romance of the great outdoors.

CREAM OF NEWSPAPER FICTION FOR READERS OF THE EXAMINER

Beginning on Monday, The Examiner will adopt a policy of publishing daily the best fiction available for newspaper use. In this way Examiner readers will secure from ten to twelve excellent novels a year at no extra cost, and which, if published in book form at $1.50 each (the lowest price at which copyright fiction can be purchased) would cost them from $15.00 to $18.00 a year.

Among the stories already contracted for are some which have not yet been published in book form, and will not be, until they have been released for newspaper use. Chief among these is "Laramie Holds the Range," by Frank H. Spearman, illustrated by Herbert Morton Stoops, an epic of the frontier, when it was the land of romance, clean, colorful and red-blooded, a story which will grip you with its intensity and lift you out of the prosaic world of everyday. Spellman has an established reputation as a teller of such tales, and the fact that it is one of the Blue Ribbon Series of The Chicago Tribune Syndicate, speaks for itself. This story will begin in The Examiner, on Monday, March 14th, the first time that it has been published in any form.

On Monday next will be published the first installment of "Love," by Katherine Moore, the story of a woman's great understanding and the far-sightedness of her love, which enabled her to look beyond the act of her husband's infidelity and see the man she believed him still to be. This will be furnished to The Examiner exclusively in this district, and will run for twelve weeks.

As soon as these two serials have run out others will at once take their place.

THREE KILLED IN SNOWSLIDE

CANADIAN NATIONAL RAILWAYS LINE BLOCKED AT MOUNT RESPLENDENT.

ONE BADLY INJURED

EDMONTO, Alta., Feb. 26.—(Canadian Press).— Three killed and one seriously injured is the result of a snow slide on the Canadian National Railway, forty six miles west of Jasper at Mount Resplendent Thursday night. The dead are:—Operat or Menvier and Firemen Berry of Jasjeh and Roadmaster Willis of McBride. The injured man is Brantwan Fortin of Jasper. The first slide occurred on Thursday afternoon and a rotary plow left Jasper to clear line.

MONTREAL HERALD TO HAVE A STAFF OF RETURNED MEN

PAPER GOES UNDER NEW MANAGEMENT AND ADOPTS NEW POLICY.

MONTREAL, Feb. 26. — (Canadian Press.) — The announcement is made of a change of ownership and amangement of the Montreal Herald and the Herald Press, Limited, is made. The new organization is to have a distinctly military flavor in that it will be staffed as far as possible by ex-members of the Canadian expeditionary forces.

The executive will be composed of well known Montrealers, who served overseas.

Mayor John F. Hylan, of New York City, crossed Brooklyn bridge 21 years ago, with a $1 bill as his only possesion.

Evangelist J. Edward Campbell, who is to speak at the Church of God Mission to-morrow,

"The Crime of Neglect" is to be the subject of discourse in the afternoon at 2.45. In the evening at 7, the subject is to be, "The Two Ways." Mr. Campbell is a forceful, earnest speaker, and his messages concerning the grand truths of the Bible are vital. At the corner of Hunter and George Streets (over Royal Bank). A hearty invitation is extended to the public to attend these services.

SKATING AT ARMORIES RINK GOOD ICE !

COMMENCEMENT AT COLLEGIATE

INCREASED ACCOMMODATION SOON, SAY BOARD OF EDUCATION MEMBERS.

BRILLIANT EXERCISES

The annual Commencement Exercises of the Peterborough Collegiate Institute, held last night in the Assembly Hall, strikingly indicated that the esprit de crops existing between pupils and staff was stronger than ever before, if such were possible. Every participant in the evening's programme had seemingly but one desire—to make the evening a success, and a source of real entertainment to the parents and friends of the pupils present.

Mr. Fowler Chairman.

In the absence of Dr. F. C. Neal, chairman of the Board of Education, Mr. A. A. Fowler, chairman of the Committee on Supervision, acted as chairman, and in his opening remarks he expressed the confidence of both the Board and the public alike in the Collegiate staff. To the pupils he expressed the hope that steps would be taken in the near future to provide additional accommodation sufficient to meet the ever growing demands upon "our Collegiate, which is second to none in the province."

Choruses.

A new and pleasing feature of the programme was the presenting of each one present with a song sheet so that all could join in the choruses under the leadership of Mr. Carl S. Brown. The vim in which the entire audience sang the old stand-bys showed that the idea was fully appreciated.

Presentation of Scholarships.

After a musical selection by the P.C.I. orchestra, Trustee Mrs. W. R. Morris presented the Nicholls Scholarships. She said that she felt sure additional room would soon be provided at the school, so no children would need to be deprived through lack of educational facilities of a High school education. She complimented each of the following students on behalf of the School Board on their attainment: Miss Florence Pammett, Faculty Entrance Part II, Miss Madeline Stinson, Faculty Entrance Part I, Miss Jean Elliot, Honor Matriculation, Roy Morrow, Pass Matriculation, Donald M. Carmichael, Middle School Normal Entrance, Miss Ruth Sharp, Lower School Normal Entrance.

Departmental Diplomas Presented.

The presentation of the Departmental Diplomas was made by Rev. R. B. Grobb, B.A. "I think I can understand the joy of congratulating those who have attained these certificates," he said. Rev. Grobb impressed upon the graduates the value of an University education, but he also said that for various reasons many had to enter the university of life, and he urged upon them to "play the game" in life just as fairly and cleanly as they had at school. He presented the diplomas as follows:

Middle School Normal Entrance: Donald Carmichael (honors), Roy Morrow, Harold Baptie, Alma Blanchard, Fred Brooks, Doris Clegg, Edna Conner, John Hardill, Alberta Hunter, Herman Hunter, Verda Huston, Mabel Hutchison, Karl Kirn, Allin Lewis, Elwood McBrien, Annie Matchett, Jean Middleton, Tom Pogue, Harold Pollock, John Ritchie, Donald Sanderson, Bertha Sargent, Alex. Sollitt, Marjorie Stenton, Daisy Webber, Clement Leggett (starred in one subject), Arthur McClure (starred in one subject).

Complete Junior Matriculation: Hary Baptie, Donald Carmichael, Doris Clegg, Iosbel Donnelly, Laura Gardner, Karl Kirn, Elwood McBrien, Jean Middleton, Roy Morrow, Tom Pogue, May Read, John Ritchie, Donald Sanderson, Bertha Sargent, John Hardill.

Not the least important item was the presentation of athletic prizes by Mr. V. R. Henry, M.A., and Miss

(Continued on page 11.)

TAXING ALL POWER HERE IS OPPOSED

MUNICIPAL ELECTRIC ASSOCIATION TAKES ISSUE WITH LEGISLATURE COMMITTEE.

WANTS INVESTIGATION

TORONTO, Feb. 26. — (Canadian Press.) — After considerable discussion at the annual meeting of the Ontario Municipal Electric Association yesterday, the two hundred delegates present adopted resolutions strongly opposing the report of the special committee of the Legislature, which proposed among other things a tax of $2 per horse power on all power developed in the province to create funds from which to make grants towards the cost of building rural power transmission lines. The association placed itself on record "as being entirely opposed to the recommendations in this report," and recommended that the Legislature "do not take action along the lines suggested by the report without a thorough investigation by competent authorities giving all parties full oportunity to be heard."

The resolution was carried with only one dissenting voince.

TORONTO OFFICERS AT TEMPLE SUNDAY

COL. AND MRS. GIDEON MILLER WILL ALSO TAKE SERVICES TO-NIGHT.

Special visiting officers from Toronto will again be in charge of the week-end services at the Salvation Army Temple in the persons of Colonel and Mrs. Miller. These officers are quite well-known in this city and good crowds should attend their meetings. Colonel and Mrs. Miller have both spent many years as officers of the Salvation Army, and their experience has given them the case of experienced public speakers.

On Saturday night Colonel Miller will speak on "The Greatness of Little Things." On Sunday morning Mrs. Miller will speak in the Holiness service on "God's Pure Gold," and in the afternoon on "The Watch Tower." At night Colonel Miller will speak on "The Remedy For All the Ills of Life." These subjects promise to be very interesting, and everyone who attends is assured of a cordial welcome, abundance of first-class sacred music by band and songsters, and interesting sermons.

Do not forget these services and be sure to come to them. Seats free and everyone invited.

STORM SWEEPING LOWER ONTARIO

TRAFFIC TIE-UPS IN MANY PLACES AND RAILWAY DELAYS EXPECTED

TORONTO, Feb. 26.—(Canadian Press).—All lower Ontario is to-day being swept by one of the worst snow storms of the season, interfering in some towns and cities with radial and street traffic, and promising to delay steam services before the end of the day. Colder weather is promised for to-morrow, with clearing skies. In Northern Ontario the thermometer has taken quite a drop. White River reported 38 below this morning. In Eastern Ontario and Quebec it is fairly nippy to-day, but in Western Canada the weather is comparatively balmy. The Maritimes report fairly mild weather.

The per capita annual tax in dollar in Germany is $7.50, in Italy $7.34, in France $28.08 and in Great Britain $83.87.

HON. A. K. MACLEAN,
M. P. for Halifax, and former member of the Union Cabinet, who yesterday declared that the government mandate had expired.

SOCIALISTS FROWN UPON BOLSHEVISM

INTERNATIONAL CONFERENCE CONDEMNS IT AS A WEAKENING OF THE CAUSEOF LABOR.

NO PROLETARIAT RULE

VIENNA, Feb. 26. — (Canadian Associated Press.) — General condemnation of Bolshevikism marked yesterday's proceedings of the International Socialist conference, in session here. Speakers from many countries believed that present world conditions make the task of achieving proletarial control virtually impossible. The yadmitted that the present conference would serve only to assist in a general effort to crystalize the sentiment of labor.

It was declared that Bolshevism would only weaken the labor movement, which, it was asserted, must depend alone upon revolutionary Socialism.

BOLSHEVIKS OCCUPY TIFLIS ONCE AGAIN

FRENCH FOREIGN OFFICE CONFIRMS UNOFFICIAL REPORTS.

CONSTANTINOPLE, Feb. 26. — (Canadian Press).—Tiflis, capital of Georgia, is again in the hands of the Bolsheviki, according to reports received here to-day. The Soviet forces, which were reported in recent advices to have been expelled by the Georgians, are now said to be re-entering the city.

PARIS, Feb. 26.—The announcement that the Georgian forces had evacuated Tiflis was made by the French Foreign Office this afternoon.

POTATOES DOWN TO $1, EGGS AT 40 CTS.

BUTTER WAS SLIGHTLY HIGHER ON TO-DAY'S MARKET

"This was the unkindest cut of all." The basketeers on to-day's market must have had some thoughts for eggs were down again. To-day they sold at 40 and 45 cents. Butter has stiffened a little and is up to 65 cents. Chickens were in demand but were not very plentiful. Potatoes were down to $1 again after a futile atempt to recover their hold on the market.

Beef sold at 14 to 16 cents and pork was 2 cents lower, 23c. to 25c.

PROVINCIAL ACTS ARE ULTRA VIRES

PRIVY COUNCIL RENDERS DECISION REGARDING POWERS OVER COMPANIES.

LONDON, Feb. 26. —(Canadian Press.)— Consolidated appeals concerning Dominion companies being subject to Provincial legisilation, as a condition of their exercising corporate powers in Canadian provinces was up before the Privy Council yesterday and appears were allowed declaring that provisions of the Companies Acts of Ontario, Manitoba and Sasaktchewan which applied to these companies were ultra vires.

The Rural Society of Buenos Aires, S.A., reports that of the 32,000,000 head of cattle in the country 3,000,000 are milk cows.

Peterboro's Veteran Police Magistrate, who passed His 84th Birthday on Friday, February 25th. He was born in County Wicklow, Ireland 1837 and was appointed Police Magistrate of Peterboro in 1883.

NATIONALISTS ASK FOR TIME

WISH TO COMMUNICATE WITH ANGORA REGARDING ECONOMIC POINTS OF TREATY.

REPLY BY MONDAY

LONDON, Feb. 26. — (Canadian Press.) — Bekir Samy Bey, chief of the Nationalist delegation, who has taken the place of the head of the Turkish delegation, to the Near East conference, reiterated yesterday the acceptance by the Turks of the Allies' suggestion for the appointment of a ocmmission to determine what disposition is to be made of Thrace and Smyrna, asked for time to communicate with Angora respecting the other parts of the treaty of Sevres, affecting the economic life of the country. He said that he hoped to obtain a reply by Monday and the confidence acceded to the request.

Lloyd George assured Bekir Samy that the allies would carry out the investigation with complete fairness and impartiality and decide questions at issue between Greece and Turkey on the principles of justice.

LONDON, Feb. 26. — (Canadian Press). — Armenian representatives were heard this morning by the Allied representatives gathered here for the Near East Conference. Later questions affecting Armenia and Kurdistan were taken up with the Turkish delegates to the conference. While it was generally expected the representatives of the Turkish Nationalist Government would agree to proposals for a solution of the Near Eastern question, it was forecasted the Greek answer would probably be in the negative It was stated, however, at the Foreign Office that M. Kalogeropoulos, the Greek Premier, would be appointed a member of the Inter-Allied Commission which will conduct an investigation of condition in Thrace and Smyrna, and the fact that this inquiry would be held did not imply that the Greeks would be compelled to evacuate the territories they occupy. Greek occupation of strategic points along the Dardanelles, it was said, would not be affected necessarily. Foreign Minister Sforza, of Italy, is credited with the success attending the Allied efforts to impress the Turks as to the necessity of moderating their demands. He bluntly told them that in view of the proposed investigation they must refrain from raising greater difficulties on other points.

SURPRISE PARTY NORTH MONAGHAN.

Bride Honored By Her Many Friends on Friday Evening Last.

On Friday evening a surprise party and presentation was held at the home of Mrs. E. Houghton, Orpington Road, North Monaghan, in honour of the recent marriage of Mrs. E. Simmons (nee Miss B. Houghton). About thirty-five friends took part in the event, including a representative gathering of girls from the Wire Department of the C. G. E. The bride received many useful presents. Refreshmenst were served during the evening. Dancing and music was also provided.

OPPOSITION OPENS FIRE ON FARMERS

DOHERTY'S TRIP TO BRITAIN UNITES LIBERAL AND CONSERVATIVE GROUPS IN ATTACK.

DRURY LEADS DEFENCE

TORONTO, Feb. 26.—(Canadian Press).—Liberal and Conservative members of the legislature with the notable exception of Sam Clarke of West Northumberland, joined forces yesterday in an ineffectual last hour protest against the departure for Great Britain of the Minister of Agriculture who left last night to resume his efforts for the removal of the embargo on Canadian cattle. The combined onslaught of the opposition groups brought a vigorous response from Premier Drury who denied allegation of the opposition members that his government was interferring in British Politics. The Premier agrued for continued protest against the embago

RAILWAY MAIL CLERKS WANT INCREASE.

Ask Government to Restore Classification.

OTTAWA, Feb. 26.—The maximum classification of $1,680 a year may be restored to the Dominion's railway clerks as a result of a deputation from their association who this week interviewed Dr. Coulter, Deputy Postmaster-General; Mr. B. M. Armstrong, comptroller of the railway mail service, and Hon. Dr. W. J. Roche, Chairman of the Civil Service Commission. In each case they were given a most courteous and sympathetic hearing, and have high hope that their mission will be successful.

These clerks had been allowed the maximum classification of $1,680 up to last year, but the Board of Hearing reduced it to $1,560.

MONUMENT TO ISABEL OF SPAIN.

May Be Erected in City of Mexico.

MEXICO CITY, Feb. 26.—(Associated Press.)— A monument dedicated to Queen Isabel of Spain who materially aided Christopher Columbus in his search for a new world, may be erected here. The movement was launched at a recent banquet of bankers and merchants.

A similar monument to Hernando Cortez, the intrepid Spaniard who conquered Mexico from the Aztecs, was suggested but the idea was not enthusiastically received.

It is hoped to unveil the monument to the Queen at the time of centenary of Mexico's independence next year.

12 MILES HOUR EXCESSIVE RATE

For Cars To Travel on Busy Streets.

"The daily slaughter caused by reckless or careless driving of motor cars is the best evidence that 12 miles an hour is an excessive and dangerous speed for motorists to travel on streets where traffic is ordinarily heavy."

Such was Mr. Justice Idington's opinion expressed in the Supreme Court at Ottawa during argument in a case where McCarthy, of Regina, was found guilty of manslaughter for the killing of a man named Young while motoring on the streets.

WHAT TO DO WITH WOMEN JURORS IS VEXING QUESTION IN ENGLAND

SHAW IS INDIGNANT AT "GROSS ABSURDITY" OF BLUSHING BARRISTERS WHO SAY THEY SHOULDN'T BE MADE TO LISTEN TO "ABOMINABLE" EVIDENCE IN DIVORCES.

LONDON, February 25.

Rock-a-bye, baby, yell till you're hoarse,
Mother is trying a case for divorce.
(Facts in the evidence, darling, are torrid,
Morals to-day are most shockingly horrid.)
Rock-a-bye, baby, abstain from your fury,
Mother's been summoned to sit on the jury.

—English Folk Song.

Can women be successful jurors?

Should women be forced to listen to evidence of unpleasant or disgusting nature frequently given in divorce suits?

What about the jurywoman's child?

These questions are agitating all England since the recent inauguration of mixed juries here. Six men and six women have just tried a divorce case where the evidence submitted was described as "abominable and beastly." Sir Edward Marshall Hall, counsel for the wife, says that the trial was a harrowing experience and that he hopes he shall never have another such case before a jury with women members.

Shaw Is Indignant.

George Bernard Shaw, indignant at the "gross absurdity" of the blushing barristers, says that it is ridiculous to believe that women cannot listen to any evidence that men can listen to.

The suit was that in which the wife of Major Harold Allen asked for a decree of restitution of conjugal rights, and the husband sought a divorce, alleging misconduct between his wife and her cousin, Captain Hugh Jack Meville. The charges were denied. The wife, Mary Allen, said she had been brought up with her cousin and they called each other by the nicknames of "Hughpot" and "Marypot." They were friendly, but there had been no close intimacy between them.

The wife, in her suit, introduced as evidence letters written to her by her husband while in France. The letters are said to have contained suggestive and "disgusting" statements. Mr. Justice Horridge, trying the case, said that no language could be too strong to refer to them. Counsel Sir Edward Marshall Hall said that reading the letters made him feel physically sick. Some of these letters were read aloud in court, although the sensitive lawyers regretted doing this before the lady jury members. One exhibit of the evidence was a transparency, containing an alleged obscene picture, but this was shown only to the men jurors in the front row of the jury box. One of their number was delegated to describe the picture to the women jurors.

Doesn't Approve Modesty.

G. B. Shaw doesn't approve of this modest attitude at all. In an open letter to The Daily News he says:

"As a member of the male sex, will you allow me to protest indignantly against the proceedings reported by you in your issue of the 26th as having occurred in the divorce court on Tuesday last?

"The conclusion arrived at seems to have been that as all men are familiar with abominable and beastly letters and obscene picture cards, they should examine these documents and tell the innocent women what they thought of them. Now, I am a married man in my fifty-fifth year, and I solemnly protest that I am entirely guiltless of this alleged male habit of reading abominable and beastly letters and gloating over pornographic pictures.

"Sir Edward Marshall Hall's assumption that my sensibilities in this matter are less delicate than those of women is not only unfounded, but extremely offensive. It was part of his case that these 'exhibits' had passed between a man and a woman. Then why in the name of common sense did this blushing barrister exclude the six jurymen from the apology which he thought it necessary to make for presenting them to the six jurywomen?

Calls Woman Competent.

"I need not emphasize the gross absurdity of referring Miss Lillian Barker (one of the jurywomen), whose extraordinary record as a welfare worker during the war, to say nothing of her present responsible employment, makes her judgment more valuable in any question of domestic morality than that of the whole British bar and bench, to the nearest juryman, possibly a bashful novice of twenty-two, for instruction as to what she should think of improper pictures. . . .

"If the published letter are fair samples of the 'abominable and beastly' documents I can say without fear of contradiction that nothing in the case was half so shocking to sensible delicacy as the unfortunate discussion with which it opened. If the leaders of the bar are really so sensitive as Mr. Silas Wegg, with his 'Not before Mrs. Boffin, sir,' then I suggest that it will be on the whole less socially inconvenient for themselves to change their professions, or confine themselves to Admiralty practice, than for Parliament to repeal the act in deference to their bashfulness."

Women Jurors Silent.

No one has found out yet what the women jurors think of it and the jury has twice failed to agree on a verdict. A third trial will now be held.

But the question of social delicacy is not the only complicating factor of the new situation. At every stage of the trial it was evident that the bench doesn't know quite what to do with women juries. When the jury was drawn women came forward with many new excuses to avoid jury duty. One woman was released because of "extreme nervousness," another because she ran a tobacco shop and it was "a one-man business." Then came the problem of how to address the jury box. You couldn't say "Gentlemen of the jury," "Ladies and gentlemen of the jury" was tried, "Gentlefolk of the jury" found a brief favor. Finally "Members of the jury" was decided upon.

Now comes distressing news from Leicester—the sad case of the jurywoman's child. A mixed jury was sitting on a murder case. After a long session the court was adjourned at 8 o'clock on Friday evening and the jury conducted to a neighboring hotel, where they were to pass the night, resuming the trial in the morning.

About 9 o'clock a desperate young man rushed up to the constable on duty at the court and asked news of his wife, a jury member.

"I've got to see her," he said. "I can do nothing with the child. It keeps crying for its mamma. I've called in all the neighbors, but they can't stop its crying. I've tried my hardest to sooth it. It's no use. Can't I take the baby to its mother?"

The law was adamant. It is not recorded what the young father did to amuse the baby until the case was concluded, at 2.30 p.m., the next day.

RATHCREEDAN GIVES IMPRESSIONS OF U. S.

English Lord Recently Returned from States Describes 'New American.'

By LORD RATHCREEDAN

(Who recently returned from the United States where he took part in the Mayflower Tercentenary celebrations.)

LONDON, Feb. 24.—(Cross Atlantic Newspaper Service).—Episodes and impressions tumble over each other almost in their insistent demand to be recorded. But there is one impression even more insistent than the others; we were received not as strangers in a strange land, but as guests welcomed by very near relatives. And so I have no fear of what the future may hold for John Bull and Uncle Sam.

A great change has come over the outlook of the United States citizen. A few years ago he was represented abroad by the boastful "Yankee," who was going to "lick creation." That attitude has vanished. The United States citizen has come to realize that perhaps the old world is not yet played out. The change expresses itself in many ways, not least among them being the admiration for things British which I found on all hands during my visit. The educated classes, let me say most emphatically, are strongly pro-British—so strongly pro-British, in fact, that one of their chief ambitions is to acquire an English accent!

The whole country is pouring out money like water. I remarked one day on the appalling display of wealth which I saw to a big financier I happened to meet, and his reply is worth quoting: "Yes," he said, "but you have a lot of quiet wealth at home in England."

To my mind the typical American, if such a one exists, is like a schoolboy, expansive and kind-hearted when you win his confidence, but self-conscious withal and sensitive of his short-comings however much he may try to conceal them by bluff. The women, I think, are smarter and better dressed than our women. They go in for the striking in clothes, and even in the morning wear what we would regard as essentially afternoon garments. They have a cleverness of expression that is entirely their own, and tend to sparkle in conversation in a way that would amaze our most brilliant conversationalists.

I was surprised to discover that there still remains a slight undercurrent of bitterness between the North and the South. For the economic effects of the Civil War are still felt. It made the North rich and the South poor; it left the South with no great industries save cotton and tobacco to depend on as its staple, with the result that it is today many years behind the North in its development.

On our tour we were concerned very largely with the universities and colleges, which play a much greater part in the life of the country than do ours. University students are reckoned by the thousand where ours are counted in hundreds; their presidents, concerned far more with administration than with teaching, rank in importance and influence next to the President of the United States himself, the members of the Senate, and a few of the biggest financiers. But the students, I could not help feeling, are often poorer in general culture at the end of their courses than ours. For one thing they are younger, and a year or two in the late teens means a big difference in capacity.

With politics I was not directly concerned during my visit, but it was impossible not to gain certain definite impressions by the way. The first was that in many towns, such as Boston and New York, for instance, the Irish and other immigrants rule the roost. With immigration at the rate of nearly a million and a quarter a year—during the last week I was there some 27,000 Europeans landed in New York alone—the position is difficult in the extreme, and, as I read the signs, the Anglo-Saxon element in the population is nervous about its position and power passing into other hands, and is apprehensive of its own definite characteristics being altogether lost.

This fear is one of the influences which are rapidly drawing the real Americans [illegible]

SALARIES INSUFFICIENT

PARIS, Feb. 26. — (Canadian Press).—Wages in Budapest are only 15 to 20 times higher than they were in 1914, writes James A. Pedlow, the American Red Cross Commissioner to Hungary. The cost of living, however, Mr. Pedlow estimates at least 100 times higher than seven years ago.

"The average yearly income of 5,700 city employees is 12,000 crowns," he states. "In many instances such a salary is insufficient even to maintain life."

HOOVER REFUSES CABINET POSITION.

NEW YORK, Feb. 23. — Herbert Hoover, who has been generally accepted as the choice for Secretary of Commerce in the Harding Cabinet "has no desire for political office." and feels "he could do a better public service outside than inside the Cabinet," according to a statement issued from his office here yesterday. in fine condition, and the music sup-

UNIONS TO DEFINE OPEN SHOP POLICY.

National and International Leaders Will Take Up Question Thursday.

WASHINGTON, Feb. 23.—Labor leaders from all parts of the country are on their way to Washington to attend the extraordinary meeting of the officers of the 100 national and international unions affiliated with the American Federation of Labor, which has been called for Thursday by Samuel Gompers, President of the Federation. There have been only four or five special meetings of the kind in the history of the Federation called at critical periods in labor's history.

That the whole question of the open shop versus trade unionism will be opened up, and definite steps taken to advance the cause of organized labor, is one of the conclusions drawn. Meetings of groups of prominent labor officials and persons who have been called into consultation already are in progress, and on Wednesday just prior to the international meeting, the Executive Committee of the Federation will hold a session. While some of the labor leaders are putting the soft pedal on talk of a "show down," so far as the question of the open shop is concerned, it is admitted that the position which must be taken in regard to leaders of industry who, it is alleged, are trying to smash the labor unions, is one of the questions involved in the preliminary discussions. Some of the national and international leaders, it is said, are heading for Washington with chips on their shoulders and with very definite ideas on the subject.

The row which has been in progress before the Federal Labor Board in Chicago in regard to wages and working conditions for the railroad workers has served to emphasize the issue of the alleged open shop movement. Affiliated with the American Federation of Labor are hundreds of thousands of railroad workers, members of the railway employe's department of the Federation, who are directly involved in the row. They are charging, through their spokesmen, that the railroad executives, headed by W. W. Atterbury, Vice-President of the Pennsylvania Lines and Chairman of the Labor Committee of the Association of Railway Executives, are trying to destroy the power of the organized workers, render impotent the Labor Board, which was created under the Transportation Act of 1920, and place the labor organizations in a less favorable position than before the war.

SATURDAY, FEB. 26TH, 1921.

THE HYDRO COMMISSION.

It is to be hoped that the report that Mr. W. H. Cassellman, a U.F.O. member of the Legislature, is to succeed the Hon. Mr. Lucas as a member of the Hydro-Electric Commission, is not founded on fact, not that the resignation of Mr. Lucas would be particularly regretted, but because there is a general feeling among the municipalities who are copartners in the Hydro enterprise that these municipalities who put up the money for the carrying out of the work should be allowed to nominate a representative on the Commission. The United Farmers have no reason to complain as they already are represented by Hon. D. Carmichael. The appointment of a second Farmer member of the commission would be strongly resented by the towns and cities of Ontario who feel that their investment in the Hydro scheme should entitle them to representation, and who, in any case, are not likely to regard Mr. Cassellman as qualified, either in ability or experience, for such a responsible position. His appointment would be looked upon as another evidence of the lukewarm support the Farmers' government is giving the Hydro-Electric policy and would give the Farmers' Sun, which is openly hostile to Sir Adam Beck, a fine opportunity to rejoice.

A WARNING NEEDED.

Apparently some officials in the employ of the Ontario government need a lesson in the proprieties of their office. The action of Rev. J. A. Ayearst, Chief License Inspector for Ontario, in going before the prohibition convention this week and discussing the question of appeals against the Ontario Temperance Act while that matter is under the consideration of the Legislature, is an example. Mr. Ayearst is a servant of the government and he has no business discussing, in public, policies which are before the Legislature. He is paid to look after the enforcement of the liquor regulations, not to air opinions on questions of policy, and if the discussion in the Legislature has not awakened the Provincial Inspector to a realization of these acts, the government should call his attention to the impropriety of his conduct in a way that would be convincing. And at the same time Professor J. B. Reynolds of the Ontario Agricultural College, who is given to public eulogies of the United Farmers' policy, might be reminded taht he, too, is paid by the people of Ontario to preside over the destinies of the O.A.C. and not to make political speeches or addresses that have a strong political flavour.

CANADA'S TRADE.

The figures dealing with Canada's trade for the twelve months ending January 1921, afford food for serious thought for they show that while the exports of merchandise from this country reached a smaller total than in the preceding year, the imports increased enormously. The total imports, in fact, were appoximately $300,000,000 greater, while the exports decreased by over $28,000,000. The reason for the adverse exchange rate is indicated in the fact that in the twelve months under review, Canadian purchases in the United States reached the huge total of $898,984,675, while the value of the exports from this country into the United States were much less than this figure. The necessity of increasing our exports as much as possible and of buying outside of Canada only what cannot be secured in this country, is clearly revealed in these returns. Canadians should resolve to confine their buying whenever possible to goods made in Canada so that the adverse trade balance may be adjusted and so that Canadian factories shall be kept running and employment provided for Canadian workmen. It should be apparent that until the wisdom of this policy is generally adopted and acted upon that we shall continue to suffer from the exchange situation and Canadian factories will not be kept going at their fullest capacity.

LETTERS FROM THE FRONT.

Mr. W. H. Dunsford, local manager of the Canadian Bank of Commerce, has received a copy of "Letters from the Front," Volume I, the splendid memorial book covering the record of the part played by employees of the Bank of Commerce in the great war. Probably no more artistic or striking memorial work has been published in Canada in connection with the war than this volume, which not only gives a list of enlistments from the different branches of the Bank, but devotes many pages to splendid portraits of the members of the Bank's staff who made the supreme sacrifice, and of those who received decorations or were mentioned in despatches for their good work. Among the latter was Mr. Dunsford's son, Capt. Martin Dunsford. Included in the volume are many letters from members of the Bank on active service. They are from every fighting front on which the forces of Great Britain were engaged, for former members of the Bank of Commerce staff were everywhere with the Canadian and British forces, fighting on land, on the sea and in the air. The letters found in the memorial work were originally published in the form of brochures under the title, "Letters From the Front," and arranged by Mr. C. L. Foster of the Head Office staff. For their publication in the new and larger volume they have been re-arranged by Mr. William Smith Duthie, himself a veteran of the war and they present a vivid series of human interest documents that reveal the spirit that carried Canada's soldiers through the awful experiences of the great struggle. They are invaluable for the sidelights they give on the war adventures of the Canadian forces, and the more striking because they were written in the midst of the episodes they record and because they give first-hand evidence of the dauntless courage of the men who formed the British lines.

Incidentally, "Letters From the Front" is a record of the spirit shown by the employees of the Bank of Commerce, for it will be a revelation to most people to learn that from this one Canadian financial institution no fewer than 1,701 employees went forth to battle for the Empire, 259 of them gave up their lives in the struggle and many others were badly injured. As to the bravery of these men, the pages of portraits of those who were decorated form eloquent testimony.

"Letters From the Front" has not been published for general sale, but for private circulation, as a gift-book for the relatives of the fallen and the equally brave members of the bank's "business family" who returned from the front.

It is a volumble upon which the Canadian Bank of Commerce is to be congratulated.

TAXATION LESS VEXATION.

Broadly speaking, the principles of concerted public opinion are always correct. They express the basic need of the nation and demand action by the country's administrators. Canadian business men are united in their realisation of the injustice and destructive action of our present system of taxation; one proposal in its place is the gross sales or turnover tax. As the date of the tabling of the 1921 Budget approaches, official Ottawa becomes more reticent, and Sir Henry Drayton frankly admits his desire to hear the opinions of the taxpayers.

He is doubtful if any financial problem is more confusing than the present multiplicity of our interlocking and overlapping systems of raising Government revenue. That revenue must be raised. That all classes

must bear their fair share of the load, is agreed, but that the system of collection and application must be more equitable than in the past has become an insistent cry.

The four basic principles of taxation, as laid down by Adam Smith, need no repetition. They do, however, merit consideration at this time as a means of analysing the proposed extension of the present Sales Tax into a generally applied turnover tax. Briefly stated these four principles are:

1—The burden must be distributed in proportion to individual ability to pay; or according to national benefits received.

2—The tax must be certain and not arbitrary; the time, manner, and quantity of payment must be clear alike to the payee and all others.

3—All should be levied proportionately and in the time and manner most convenient.

4—The tax should be collected cheaply.

It may be well questioned if any of our existing taxes comply with these fundamentals, though on the other hand it is interesting to observe that of the twelve classes of taxation described by Adam Smith, eleven offended one or more of his maxims. Clearly, therefore, the problem becomes one of selecting the lesser of a number of evils.

That some definite action of the Finance Department may be expected at the present session seems fully in order, judging from the following opinion from Sir Henry Drayton's budget speech in May, 1920:

"Much undoubtedly may be said against the Business Profits War Tax. Under normal conditions it would indeed be hard to find an argument that would justify its continuance. It may possibly be that with another year some measure of deflation and retrenchment will have occurred; that there will be some decrease in the inflated prices of commodities, and that no Business Profits Tax ought to be employed."

An examination of the statement of revenue and expenditure on account of Consolidated Funds as of 31st January, 1921, issued by the Department of Finance, clearly indicates, what every business man expected, the fallacy of the Business Profits Tax. The total for the month of January, 1920, was $5,746,256, while January, 1921, totalled only $3,985,518, a clear loss of over one and three-quarter millions. Yet right here, to the credit of Canadian industry, it should be noted that this loss in revenue is much smaller, comparatively, than has been experienced in England. Correspondingly it reflects the better health of Canadian industry. Similarly the fact that this tax produced nearly $4,000,000 in January might be argued as a reason for its retention. The idea is unsound in principle. No tax, however remunerative, is justifiable when its application is obviously discriminatory and when it not only bears unevenly upon one class of people, but throttles commerce and places a premium on creative enterprise.

The present Sales Tax is the mudens about which can be developed the larger application of the Turnover Tax. It has stood the test of over three years' application, and out of that experience the Finance Department may be reasonably expected to evolve a system that will be free, in so far as is humanly possible, from the ills of the present system.

The plan proposes the abolition of the Business Profits, the Luxury, the Manufacturers', and some minor taxes. It would require that every one expecting to buy or sell anything should take out a yearly license, at a cost say, of one dollar, and thereby appear on the books of the district tax collector. It is then merely necessary for the licensee to total his gross sales for the month, or any agreed tax period, and figure the amount of his tax at the previously determined percentage.

In considering the first of the above principles, the equity of "distribution" is submitted. Those persons, or companies, using the largest monetary value of commodities or services, would bear the largest tax. The question of collection, however, is open to criticism. It is urged that the inspection and supervision of this tax, over the multitude of retail stores, would be a task costing more than the returns would justify. At the same time it can hardly be disputed that the cost could not exceed the expense of following up the greater auditing deatil and complexity of the present systems. Yet even were this so, the imposition of a larger tax at the source of manufacture or origin, while withholding the tax on retail sales, would eliminate their objection and at the same time have the effect of making the tax less apparent and more indirect though none the less equally distributed.—Financial Post.

EDITORIAL NOTES.

Mr. Morrison says the U.F.O. is "all embracing." In other words its policy seems to be the same as that vogue at Inglebrook Farm.

The aldermen will have gone a long way towards solving the rate problems when they have convinced the people that full value is being received for the money expended.

The Hydro policy of the Drury government seems to be affected with an overdose of class consciousness.

The Farmers Sun's love for Sir Adam Beeck is only surpassed by the Toronto Telegram's affection for Premier Drury.

WISE AND OTHERWISE

"Why does she close her eyes when I kiss her?" mused the sensitive man as he gazed into the mirror.

The Louisville, Kentucky, police have forbidden raffles. Members of Raffles' profession have also been forbidden to no avail.

The gold claim which has been located in the heart of the city of Denver is remindful of the rentals on many downtown lots in large cities.

The young lady next door has been reading in the papers about the "open shop" dispute and thinks that the men should have a warm, closed-in shop during the winter.

Recent developments indicate that there may be trouble over the Island of Yap mandate, but then who ever heard of a yap who didn't start trouble of some kind?

The superintendent of the Chicago schools would allow the teaching of "It is me" as a correct form. Since Chicago holds the world's record for murders, what is the use in murdering the English language?

Senator Smoot told the United States' Senate recently that work in the government offices in Washington moves so leisurely that the girl employees make their trousseaus during "working" hours. If the Senator is right, Ottawa evidently has a rival.

From the South Sea comes news of the mysterious disappearance of a group of islands. Startling, but not nearly so much so to some Ontario people as the immediate possibility of the disappearance of their reservoir.

"One despatch in this paper says that Caruso will never sin gaagin, and the other declares that he will." "Probably they represent the views of two musical critics who heard him give a trial warble."

NEW SCHEME OF GOVERNMENT FOR IRELAND.

Proposed by Prof. Alfred O'Rahilly, Registrar of Cork University.

CORK, Feb. 26.—(Associated Press).—An original scheme of government for Ireland, proposed by Professor Alfred O'Rahilly, Registrar of the University of Cork, is arousing great interest in Ireland. The correspondent has been informed that the plan has been indorsed by many men prominent in the Sinn Fein movement, in which Professor O'Rahilly is a recognized leader.

Briefly, the scheme calls for an Irish confederation and, according to Professor O'Rahilly, who discussed it at length in an interview with the correspondent, it provides the only solution of the Northeast Ulster question.

Professor O'Rahilly is not opposed to the idea of partition. "Our proper attitude," he said, "should be to insist on more partition. Ireland should be divided not into two but into 40 regions. By tradition, instinct, faith and circumstances we ought to aim at decentralization and regionalism and uphold the sovereignty of the people.

"What many quite fair-minded Ulster business men fear is the possibility of an all-powerful central parliament in Dublin. And to tell the truth Cork men are not really enthusiastic about a Dublin Westminster, nor are Connemara peasants likely to favor a central sovereign assembly controlling all the minutiae of Irish life.

"It's a mistake to think there is merely an Ulster problem. There are about 40 problems. We are a hetereogeneous people and to remain true to ourselves we must have far more local liberty and regional autonomy than is allowed in the ideal of a central parliament or two assemblies in Belfast and Dublin."

In Switzerland, he pointed out, there are 22 sovereign states differing in religion, language, size and economic position, although Switzerland is only half the size of Ireland.

"Every Irish county," he went on, "has as much right to partition as County Down or Belfast. The real objection to the Partition Act is that it doesn't give Belfast and Ulster enough local liberty and power. In an Irish confederation they ought to get far more."

The proposed federal system, Professor O'Rahilly said, might be either dominion or republican. There would be a federal assembly consisting of a national council and a council of counties.

DOUBT REDS DARE TO ATTACK JAPAN.

But Rumors of Massing Troops in Eastern Siberia Are Persistent.

PETROGRAD, Feb. 25.—(Special to The Examiner by Cross-Atlantic Newspaper Service.)—Rumors, basbased on the concentration of Red troops at Iman and Habarovsk, persist that the Soviet is planning a military demonstration against Japan if it continues to refuse recognition to the Russian Far Eastern Republic. It is said that 200,000 men will be available at the first offensive and that these have already been formed into the first line of battle.

Foreign observers here doubt if the Soviet will dare match strength with Japan at this time when its own country is so disturbed politically and economically, but many Russians, who know the operations of the minds of their people, say that a foreign war would weld Russia into one nation again with a single purpose as nothing else could, and the Reds might plot it for this purpose. The Soviet leaders also are anticipating a clash between the United States and Japan, or at least further strain the relations between these countries, under cover of which they might venture demonstrations against Japan they would not otherwise dare. They expect Japan to be busy watching the United States and holding her forces in readiness to meet the power of that great nation she will not dare hurl her full power at the Soviets.

On the other hand a semi-official explanation of the massing of Red troops at Habarovsk is that it is pointed against the Kappel and Semionov troops and to gain control of the food suplies there from which the diminishing stores at Chita can be replenished.

WINTER HARD ON BABY

The winter season is a hard one on the baby. He is more or less confined to stuffy, badly ventilated rooms. It is so often stormy that the mother does not get out in the fresh air as often as she should. He catches colds which rack his little system; his stomach and his bowels get out of order and he becomes peevish and cross. To guard against this the mother should keep a box of Baby's Own Tablets in the house. They regulate the stomach and bowels and break up colds. They are sold by medicine dealers or by mail at 25 cents a box from the Dr. Williams' Medicine Co., Brockville, Ont.

THIEF RETURNS BIG BOND.

Says $25,000 is Too Much—Keeps Smaller Bonds.

JACKSONVILLE, Fla., Feb. 25.—A regretful note accompanied a $25,000 Liberty bond returned through the mail yesterday to the Clement D. Cates Company, stock brokers, from which it had been stolen.

"It's too big to handle safely," the robber said, but he kept two smaller stolen bonds.

SIR GEORGE PERLEY TO RESIGN, REPORT.

Agent-Generals and Colonial Office Question Up Again.

LONDON, Feb. 25.—(Cross Atlantic Newspaper Service).—D. C. Griffith, Official Secretary at the office of the High Commissioner or Canada, is making another visit to the Dominion. Since his last trip the rumor of Sir George Perley's resignation has again got abroad. Mr. Griffith, in some quarters, is credited with having this in his pocket.

In the meantime there has again cropped up the question of independent access to the Colonial Secretary by the various Agents-General in London. Mr. J. Howard, Agent-General for Nova Scotia, is particularly emphatic in his views on this point. "During the war," he said to me to-day, "this office accomplished a lot of work in independent action in half the time it would have taken through the more complicated routing of the High Commissioner's office.

"Of course, there are issues which can only be dealt with by the High Commissioner, but where a particular province is solely concerned, the Agent-General for that province should have direct right of approach of the Colonial Office."

This view is also that of Mr. F. C. Wade, the Agent-General for British Columbia, and of Dr. G. C. Creelman, the Agent-General for Ontario. Dr. Creelman, however, is quite against the interference of provincial ministers and representatives in obviously Imperial measures, such as the cattle embargo.

With five provinces already having no office or representative in London—More or less as a result of this bone of contention—it is the opinion of some Canadians in London that the other offices will sooner or later follow the lead and leave the High Commissioner the field to himself.

MAY DISCOVER MORE CANADIAN COAL SEAMS.

Report on Exploitation of Deposits of Cape Breton Island.

GLACE BAY, N. S., Feb. 24.—(Canadian Press).—"I believe coal seams as yet unknown will be discovered in Cape Breton, in Cumberland and in Pictou Counties," said T. J. Brown, mining expert, at a recent meeting of the Nova Scotia Mining Society. Mr. Brown, who has collected an amazingly complete compendium of data covering every feature of the exploitation and development of the coal deposits of Cane Breton Island, is recognized as perhaps the keenest observer of conditions and details respecting the Sydney coal fields in Nova Scotia.

Charles J. Mitchell, consulting mining expert with the Dominion Coal Company, holds a similar opinion to that expressed by Mr. Brown, and the notion that perhaps vast stores of the "black diamond" lie in undiscovered treasure houses of Nova Scotia is borne out by the well founded suppositions of other mining engineers who have studied the Bluenose deposits.

Ever since 1897 when Sir William Dawson, director of the Geological Survey of Canada, suggested that "there may be large areas of coal hitherto undiscovered not more than fifteen miles from Louisburg Harbor," explorers of the Cape Breton coal fields have been successful in prospecting and undertaking the development of new outcroppings of coal in the section about Sydney, North Sydney, Sydney Mines, Louisburg and Glace Bay. Within recent years the district immediately about Sydney and the country lying between Sydney and Glace Bay has given evidence of surprisingly rich deposits, and several privately-owned enterprises have found it, if not an Eldorado at least, "a very good thing."

"The Dominion Coal Company," says the Glace Bay Gazette referring to probable developments of the coal fields of Cape Breton, "has planned extensive new developments for the immediate future. Had it not been for the unavoidable delay in the consummation of the British Empire Steel Merger, contemplated advancements of this big corporation would ere now have been quite near realization."

"The next half decade will surely witness for Nova Scotia progress that will tend to make the pioneers of Cape Breton coal mining fairly turn in their graves," the paper adds.

The story of Cape Breton coal fields from the early 17's when French fishermen dug for coal in New Aberdeen almost in what was later the cellar of old St. John's Church, down to the time when Dr. J. Ami, famous authority on Cape Breton geology, sore on the Holy Bible before Justice Longley that coal was made in Glace Bay fifty million years ago, reads like a romance. The human history of Cape Breton is inextricably bound up with that of King Coal, who has blessed with ever-increasing wealth the people of the Island.

WALDORF BURGLAR CAPTURED IN FIGHT.

Battle Rages All Around Room in Which Detective Surprises Armed Intruder.

NEW YORK, Feb. 25.—After a dangerous battle with an armed burgler in which men guests joined while women screamed in fright, detectives in the Hotel Waldorf Astoria last night captured a man whom they suspect of having committed a series of recent depredationsc in which the Waldorf, the Claridge and the McAlpine all suffered.

In the West Thirtieth Street Station, whither Detectives Doyle and O'Connell took him after he had been beaten almost into insensibility, the man gave his name as William Baker, 25 years old, his address as the Mills Hotel, Seventh Avenue and Thirty-sixth Street, and his occupation, as a laborer. His good clothes and well-kept soft hands belied the occupation to which he laid claim, however. He was charged with burglary and violation of the Sullivan law. Detectives from the other hotels mentioned, as well as guests who had been recent victims of burglaries, were asked to visit the station in an effort to identify him.

Mrs. Mary Gallagher, of San Francisco, who occupied room 633 on the sixth floor of the Waldorf, was absent from her room for a brief time last Saturday night. On returning she discovered that a robber, after a thorough search, had taken jewelry valued at $1,000.

Detectives Keep Vigil.

Joseph Smith, head detective at the hotel, failing to find any trace of the man and believing the intruder would return, stationed one of his men on each floor of the big hotel night after night.

Their vigil was vain the first three nights, but last night, Tony Cappurro, one of Smith's lieutenants saw a man approach Room 633 stealthily, glance hurriedly around, then unlock the door and enter. The man locked the door behind him, and Cappurro, fearing he might be a guest, hesitated a moment. Then he decided to go after the man.

As he entered he found the room in darkness, except for a single light at the dresser over which the man was bending intently. As the detective came in the intruder whirled, thrust one hand into his right pocket and regarded the visitor steadily. Asked what he was doing there the man answered that he had been sent by a guest to get something he had forgotten.

"That won't go," said Cappurro, but before he could say more Baker who all along had been edging towards door, thrust his hand inside his coat pocket and the weapon it held straight at the detective and said:

"Keep quiet till I beat it, or you'll get hurt."

Cappurro, big and husky, made one dash for the burglar, and the two rolled on the floor. The detective's grip upon the man's wrist inside his overcoat pocket made it impossible for him to shoot.

Fight Rages All Around Room.

The two struggled to their feet and fought all around the room, Baker holding on to his pistol, Cappuro clutching Baker's wrist.

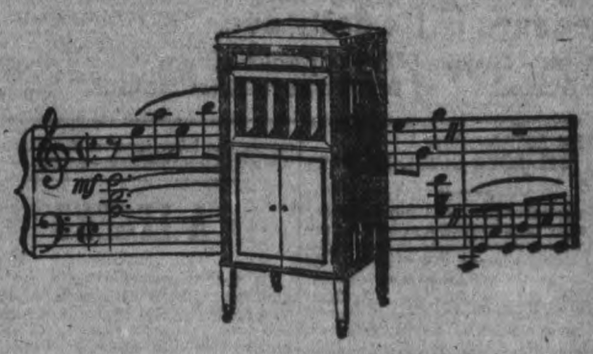
After they had overturned furniture and scrambled about for several minutes without either being able to conquer the other, they staggered into the hall, still holding tight to each other. By then Cappuro had gotten the head-lock, which has become such a storm centre among wrestling critics, on his adversary and Baker was weakening, but still fighting hard.

The noise of the struggle in the brightly lighted corridor brought guests from their rooms. Several men hesitated, then seeing that one of the men evidently was in authority and the other was trying to escape they closed with Baker. Meantime several women's screams had apprised the floor clerk of what was afoot and she telephoned the alarm to the office.

Smith and several other house detectives came raising to the sixth floor in time to join in the last round of the battle. After a moment all the fight was gone out of Baker and he was badly battered and bruised. The weapon in his pocket proved to be a high-calibred automatic, loaded.

Baker said he got the key from a room clerk, but this was denied. The detectives think he had a false pass key.

Columbia Grafonola



Musical Notes

Every Columbia Grafonola is scientifically designed and built up to round out every musical note that the record carries. Every tone shade, soft or brilliant, is picked up and carried to you accurately by the

Columbia Grafonola

You get *reproductions* of exactly what the artists themselves *produced* on the original wax.

The straight metal one-piece tone arm allows the music to develop fully and naturally. Distorted tones are impossible. Pure, clear, well-rounded music comes to you with all its original harmony and tonal richness.

And when the last musical notes fade away, then and only then the Columbia Grafonola stops, for the *Non Set Automatic Stop* found *exclusively* on the Columbia Grafonola makes it stop. Never stops before it should. Always stops at the very end. Nothing to move or set or measure. Any Columbia dealer will demonstrate the stop that needs no setting.

WAS THE JUTLAND NAVAL VICTORY TACTICAL ONE?

Official Despatches of Great Battle Leaves This Question Open to Controversy.

The official despatches concerning the battle of Jutland, covering the period from May 30 to June 1, 1916, have just been issued by the British Admiralty in the form of a blue book. They are in two volumes, the first being 600 pages of documents, the second charts and tsackings of the battle, and were compiled with the object of throwing light on the unsettled questions of this much disputed sea battle.

The salient facts brought out by the papers are:

1.—That while Jutland was a British victory in fact—the German high sea fleet being crippled and forced to retreat to its base—the question of whether it was a tactical victory still remains open to controversy. The papers show that due to low visibility and the confusion of battle, there was not the highest possible co-operation of the battleship and cruiser forces, and that battle contract of the highest possible efficacy was not achieved and maintained.

2.—Beyond this fact, however, the British secret service, the Admiralty and the grand fleet worked with complete co-ordination, and Jutland was fought along previously determined lines. Jellicoe's much criticized action in "turning away from the enemy" resulted in saving his own ships and also in placing himself between his enemy and their base, thus obtaining a position of greatest strategic value. Only the loss of contact, due to visibility, prevented the annihilation of the German fleet.

3.—The main lesson of Jutland is that it shows the vital importance of new naval weapons, the destroyer, submarine, seaplane and the mine field. Much of Jellicoe's criticized caution was due to his fear of being led into a mine field or decoyed into submarine nests. The value of the destroyers, both as a screen and for reconnoitring, is emphasized, and seaplane reconnoiters provided valuable strategic data.

I KNOW A WOMAN'S SUFFERINGS

I am a woman.
What I have suffered is a far better guide than any MAN'S experience gained secondhand.
I know your need for sympathy and health.
And the treatment that gave me health and strength, new interest in life, I want to pass on to you, that you, too, may enjoy the priceless boon of health.
Are you unhappy, unfit for your duties? Write and tell me how you feel and I will send you ten days' FREE trial of a home treatment to meet your individual needs, together with references to women in Canada who have passed through your troubles and regained health; or you can secure this FREE treatment for your daughter, sister or mother.
If you suffer from pain in the head, back, or bowels, feeling of weight and dragging down sensations, falling or displacement of internal organs, bladder irritation with frequent urination, obstinate constipation or piles, pain in the sides regularly or irregularly, bloating, dyspepsia, extreme nervousness, depressed spirits, melancholy, desire to cry, fear of something evil about to happen, creeping feeling up the spine, palpitation, hot flashes, weariness, sallow complexion, with dark circles under the eyes, pain in the left breast or a general feeling that life is not worth living, I invite you to send to-day for my complete ten days' treatment entirely free and postpaid, to prove to yourself that these ailments can be easily and surely overcome at your own home, without the expense of hospital treatment, or the dangers of an operation. Women everywhere are escaping the surgeon's knife by knowing of my simple method of home treatment, and when you have been benefited, my sister, I shall only ask you to pass the good word along to some other sufferer. My home treatment is for all,—young or old.
MRS. M. SUMMERS, Box 917 - - Windsor, Ontario

Read My FREE Offer:
To Mothers of Daughters, I will explain a simple home treatment which speedily and effectually dispels green-sickness (chlorosis), irregularities, headaches and lassitude in young women, and restores them to plumpness and health. Tell me if you are worried about your daughter. Remember it costs you nothing to give my method of home treatment a complete ten days trial, and if you wish to continue, it costs only a few cents a week to do so, and it does not interfere with one's daily work. Is health worth asking for? Write for the free treatment suited to your needs, and I will send it in plain wrapper by return mail. Cut out this offer, mark the places that tell your feelings, and return to me. Write and ask for the free treatment to-day, as you may not see this offer again. Address:

IF THE AUTOMOBILE SPLASHER GUARD RATTLES

The splasher guard of the front fender is usually bent inward and held to the frame by a row of common iron stove bolts—often without lock washers. Of course they loosen under the constant vibration and wracking, iand if a rubber filler strip is put between the guard and the frame this dries up and perishes, which makes the looseness worse than ever.

There are two easy ways of curing this. One is to reinforce the edge of the guard, provide the reinforcement with three or four lugs or projections so that it will only actually touch the frame at these points, and then put a decent-sized bolt through each point of contact. This allows the guard and the frame to weave independently and eliminates chafe.

The other method is to bead the edge of the guard over a stiffening wire and clip it rigidly to the fender irons. The beaded edge of the guard then comes close to the frame—an eighth of an inch, but does not actually touch it and is not actually attached to it. Firm sockets for the fender irons generally are used, and with this design they are all that is needed to make a squeakless job. Also if the fender ever has to come off for any reason, the labor involved in detaching it is cut in less than half.—Motor.

A LEGEND

On the Minnesota prairies, not far from the St. Peter's River, lies a placid lake, hidden by oak trees. It was about this secluded spot that the Dakota Indians told their children a wonderful legend.

They told it also, according to report to John Smelling, son of the United States officer who gave his name to Fort Snelling, in the same state. And so men have told and retold the Indian's tale of the prairie.

The Dakotas named this region the home of the thunder. Here, in the shelter of the old oaks, the thunder, which they called Waukiau, is said to have been unexpectedly wakened from his long sleep. The event startled every living thing.

From the earliest times Waukiau rested by the shore. Curled up on the gnarled branches of the oldest oak the giant slept from the beginning of the world—slept a deep sleep in the quiet of the primeval forest. But during a beautiful dream he moved—drew a full breath and moved. Then he first revealed his true nature to denizens of the wood.

The giant's breath smote the old oak. Overcome by the blow, the oak now bowed his head, and its gnarled branches let his heavy body fall to the ground; whereupon the great vault of heaven resounded for a time. But amid the rumbling he sprang to his feet—a huge form, blinking its dazed eyes, and still dreaming the wseet dream! How frightful, Waukiau, who smiled so mildly in his sleep—how frightful now to behold!

They Fled in Terror.

Dark clouds soon enveloped the naked body of the awakened thunder. But as he leaned against the protruding roots of his oak tree he flashed fire from his eyes and from his mouth, and, besides, he struck fire with his hands. In fact he became so frightened that the Indians and the wild deer, seeing Waukiau awake and furious, fled from him in terror.

And even to the birds, seeing him relapse into another, still more violent rage, hid in the foliage; for he stalked forth with stride a mile long. Advancing over the tops of the great trees as if they were soft grass beneath his feet, he moved across forest and lake of his rolling prairie and far beyond the Mississippi. Such was Waukiau's departure from his home.

Arriving at the distant shore of Lake Superior, he paused. There he stood, looking out over the vast expanse of peaceful water, and while he stood looking, he breathed so deeply that his breath set the water of the laike in motion. But the water seemed to recall to his mind the lake of his home, and that in turn to recall his beautiful dream; for he again flew into a rage, and again cast bolts of fire among the trees.

Then, abandoning himself completely to his passion, he shrieked wildly, rose from the earth and vanished in the sky. All that remained of the giant was his footprints on the boulders on Lake Superior's shore.

The thunder returns sometimes to its former home. Though the old oak in which Waukiau slept disappeared long ago, he still likes to visit the charming lake. But the instant he recalls his sweet dream the anger within him rises to such a pitch that he makes the heavens resound. Unable to endure the reminder of his disappointment, he again vanishes.

Stop That Cough Now!

Start right now to take

NADRUCO Syrup of Tar with Cod Liver Oil Compound

and get rid of the annoying hacking—the irritated throat—the tight feeling in the chest—the restless sleep and stuffy feeling in the head.

NADRUCO SYRUP OF TAR with COD LIVER OIL COMPOUND stops the cough because it heals the throat and bronchial tubes, and drives the cold out of the system.

Agreeable to the taste. Excellent for children. Keep a bottle handy. *Sold By All Druggists.* 28

COWAIN ELECTRIC CO., 188½ Charlotte St.

ADOPTS HIS EIGHTH CHILD ON SALARY OF $22 A WEEK

WATCHMAN, WHOSE WIFE LONGED FOR A BABY TO FUSS AROUND WITH, HAS FAMILY OF GROWNUPS THAT EARN $116 A WEEK, HOWEVER.

NEW YORK, Feb. 26.—The family of John Lind, a $22 a week watchman employed by the New York Edison Company, was increased to eight yesterday when Surrogate Foley permitted him to adopt Elinor Lane, 5 years old, daughter of John J. Lane, of 207 Thirty-third Street, Brooklyn. The little girl was carried out of court by Mrs. Lind and taken to the Lind residence, 253 Clinton Street.

Before obtaining custody of the child, Lind explained that he was well able to support her, even though his own salary is but $22 a week. He said that he and his wife already had reared a family of five boys and girls, all of whom are now working and bringing the total income up to $116 a week. He then explained why he wanted to assume more responsibility.

With Mrs. Lind to help him, he explained that now his household, long composed principally of youngsters, is one of grown ups. His wife, he said, simply longed to have a baby to fuss around with.

Several weeks ago Mrs. Lind went over to Brooklyn and through friends learned that the little daughter of John Lane was motherless and possibly available for adoption. She made inquiries, told her husband about the girl and took him to Brooklyn to see her. Yesterday Lane took his daughter, dressed in her smartest frock, into the Surrogate's Court and signed the necessary papers. Elinor left court in the arms of her new mother and Lane went home, satisfied she will receive the best of care.

THE RECONCILIATION.

As through the land at eve we went,
And pluck'd the ripen'd ears,
We fell out, my wife and I,—
Oh, we fell out, I know not why,
And kiss'd again with tears.

For when we came where lies the child
We lost in other years,
There above the little grave
Oh, there above the little grave,
We kiss'd again with tears.

Alfred Tennyson.

Someone once made the remark that experience is a book which all of us write but which no one ever reads. There is a great deal of food for thought in that little remark. If we could only read the experiences of others and profit by them how much trouble and pain would be saved for us. But each one must experiment for himself and write his own little book. If all these books could be collected we would probably find thousands of duplicates of nearly every experience known to man. Yet we all plunge wildly on, the wise as well as the foolish, each one blindly thinking that he will find within himself the means of averting disaster. It sometimes seems like a blind, hopeless muddle, yet trouble, pain and sorrow are wonderful refiners of human thought and actions. Probably in this they are serving their purpose for the advancement of the human cause.

February is the month during which we celebrate the birthday of the two men who have often been conceded to be the greatest in a country of great men, Lincoln and Washington. We often hear of debates when people try to decide which man was the greater—a question which we claim cannot be decided. Each man and the conditions of his time were so entirely different that it is not possible for us who live in another century and under still varying conditions, to decide such a question. It remains only for us to feel thankful that each man fulfilled so well his part in God's great plan for America and the world.

We are prone to think of age as an unlovely time, an undesirable thing, but surely there are compensations in being seventy years young. Life has taught us its lessons and we are no longer assailed by doubt and uncertainty. Life has brought to us no burden that we could not bear, and we can face it serenely and fearlessly. We have earned the right by years of labor and conflict, to do just as we please, and let the world fare on in its folly and strife, its storm and passion its work and worry We have earned a right to the stately surroundings that suit the dignity of age. If we do not possess such surroundings, if the fine mansions, carriages, service, riches, that are so becoming in age, are not for us still we may possess treasurers that no one can take from us—honor, wisdom, experience and the grateful love and respect of the younger generation.

The only way to live happily is to size up one's means, and live within them. Going in debt for things that one can do without, trying to make a $2,000 salary do the work of $5,000 is what ruins tempers and brings gray hairs about the temples, fills suicide's graves, and breaks up homes. The tendency of the times is toward inflation, happiness lies in the other direction, and the woman of the house can have a wholesome influence in the right direction, if they but exert themselves. Many a man is started on the wrong path by the demands of a selfish wife for more than he can honestly furnish her in the way of the house and personal adornments. No man will go very far wrong whose wife exerts the right influence over him.

For really satisfactory reading that leaves a wholesome feeling behind it we can recommend nothing better than the writings of David Grayson. After all the hectic philosophy one reads these days, a little of the home spun variety comes as a relief.

Let us not waste our time looking for great work, but cheerfully do the duties nearest to us, for God never designed that many of us should do great deeds. It is the little things that make up life. "What the world wants daily is little, kindly deeds." So many of us are standing idle because we cannot do lofty work; we should improve the opportunities as they come; then when the opportunity for doing great work presents itself we shall be prepared to meet it.

FINLAND TO LIFT IMPORTS EMBARGO.

COPENHAGEN, Feb. 25 (Associated Press).—There is no unemployment in Finland, says M. Viljanef, chief of the Trade and Industry Department of the Finnish Government, who is visiting here. He attributed Finland's good fortune in this respect, as compared to most other countries, to the prohibition of imports. This had the effect of making the country's industrial production greater than at the beginning of the war.

Finland is now considering the advisability of gradually discontinuing the embargo on imports, he said. This country has begun to transhipp goods for Russia, and has established a free port at Hango.

FREE PRIZE PUZZLE $5400.00

In Cash has been Given Away FREE also hundreds of Merchandise Prizes $200.00 more IN CASH will be Given Away as follows

1st Prize, $50.00 in Cash
2nd Prize, $40.00 in Cash
3rd Prize, $35.00 in Cash
4th Prize, $25.00 in Cash
5th to 9th Prizes—Each $10.00
TOGETHER WITH MANY MERCHANDISE PRIZES

Solve this puzzle and win a CASH PRIZE. There are 8 faces in the picture besides the spectators. Can you find them? If so mark each one with an X, cut out the picture, and write on a separate piece of paper these words, "I have found all the faces and marked them" and mail same to us with your name and address. In case of ties, handwriting and neatness will be considered factors. If correct we will advise you by return mail of a simple condition to fulfill. Don't send any money. You can be a prize winner without spending one cent of your money.

WHERE can you find a more pleasing picture than a group of young, healthy, vigorous girls playing tennis?

Alert, quick to think, and quick to act, their faces aglow with enthusiasm and radiant with health.

How many there are, however, among our growing girls of whom this cannot be said. You see them sitting on the side benches looking on, or lolling around in a listless, careless manner, and, as a rule, irritable and nervous.

Nature intended women to be strong, and healthy and happy as the day is long. MILBURN'S HEART AND NERVE PILLS have proved so beneficial in such a multitude of cases, that they can be recommended without hesitation.

They give sound, restful sleep, tone up the nerves, make the heart beat regular and strong, create new red blood corpuscles, and impart that sense of buoyancy to the spirits that is only possible when enjoying mental and physical vigor.

Mrs. Fred Lee, Almonte, Ont., writes:—"My oldest daughter was so bad for over a year, with her heart and nerves, that she was compelled to give up her work. I was very discouraged about her, as I had her to two doctors, but they did not seem to do her much good. She could not sleep at night, would have to walk the floor, and felt as if she would go out of her mind. One day a friend told me to use Milburn's Heart and Nerve Pills, and I cannot speak too highly of them. She used three boxes and is feeling fine, and started back to work again two months ago."

Milburn's Heart and Nerve Pills are 50c. a box at all dealers, or mailed direct on receipt of price by

GOOD NIGHT STORIES

DICKY MEETS MR. FRILLED LIZARD

"My goodness!" exclaimed Dicky, "I almost stepped on your tail."

"Well, I'm glad you didn't!" laughed a funny-looking creature, raising his head from the grasses. "Of course, it wouldn't hurt very much, but the repairing business would take some little time."

"Yes, but I might have broken it in two," suggested Dicky, "and that would have been terrible. One day, one of my boy friends broke his arm, and, dear me, it did hurt!"

"It doesn't hurt much if my tail is stepped on," replied the funny creature, "but it's rather inconvenient waiting for it to grow out again."

"Grow out again!" exclaimed Dicky, trying not to laugh at the funny fellow. "I knew that Mr. Crab could grow out new parts when he lost those he had—but lizards!"

"Why not lizards?" laughed the funny creature. "I'm called Frilled Lizard, and I can grow a new tail or any part of it in case I lose the one I have. How do you like my new style of dress, anyway?"

"Well, the name certainly suits you," said Dicky, as he looked the little lizard over. "I'm crazy over your frilled collar and that lovely ruffle running down your back."

"So am I," laughed Mr. Frilled Lizard. "And you know my cousins seemed to think I was foolish to dress so fancy. I rather like it. I always did hate to be classed with my plainer relatives. Of course, when it's time to change my clothes it's a great deal harder work, but pooh! What's a little extra work if one looks distinguished after he's through?"

Dicky laughed heartily at this. He wondered how in the world Mr. Frilled Lizard could ever get rid of so much trimming.

"It's a good thing you're not like Mr. Green Frog," he laughed, "or you'd be in a pretty pickle when changing time rolled around."

"Oh, I don't know!" laughed Mr. Frilled Lizard, "I think the laugh is on you, all right, instead of me. Mr. Green Frog has nothing on me. I can do just about everything he can."

"Yes, but you don't swallow your worn-out clothes as he does, I'll bet!" laughed Dicky.

"Indeed I do," snapped Mr. Frilled Lizard. "Mr. Frog—"

"What Swallow all those ruffles, too?" cried Dicky. "My goodness! What a task it must be!"

"Pooh!" laughed Mr. Frilled Lizard. "I guess you wouldn't think it too much trouble to take off a suit if it was too tight for you. That's what we lizards do. When our suits grow too tight we cast them off. And if there's one thing I do hate, it's to go a-visiting and see old clothes hanging all over the house; so I get rid of mine the second I shed them. Swallowing seems the best way, so swallow them I do." With a merry little noise that sounded like a laugh, Mr. Frilled Lizard darted through the grass and flopped into the water before Dicky could say scat.

"Who ever heard of the like!" laughed Dicky, and, whistling merrily, her anon to his aunt's house to ask her if Mr. Frilled Lizard had told the truth.

BANK NOTE OVER 100 YEARS OLD.

A curiosity in the shape of a bank bill more than a hundred years old is possessed by J. Burns, Prince George Hotel, Toronto. It states that "the president and directors of the Bank of Upper Canada promise to pay the bearer $2, payable on demand out of the funds, joint funds of the association and no other." On top it is stated: "Payable at Bank of Canada, Montreal." It is dated Kingston, Jan. 1st, 1820.

The United Mine Workers of America, with a membership of 600,000, is now the biggest trade union in the ...

GOVT. LIQUOR CONTROL WILL GIVE TAX RELIEF.

H. B. Thomson Contends the Saving to Taxpayers Will be $6,000,000 Annually.

(Canadian Press.)

VICTORIA, B. C.—That government control and sale of liquor, if properly managed, should result in substantial tax relief in British Columbia, amounting to possibly as much as $6,000,000 yearly, is the belief of H. B. Thomson, former food controller for Canada, as expressed in an interview published in the Victoria Colonist.

Mr. Thomson, in stating his views, predicted that the job of effective administrating the liquor business would soon be recognized as the heaviest confronting the government, and declared that the appointment of a cabinet minister whose sole duty would be the administration of liquor control affairs, would be essential to the efficient handling of the problem.

"The control of liquor will be a monopoly, and prices and profits may be fixed to yield almost any revenue. The government, while taking care to make a good round profit, would have to guard against class legislation which would have the effect of allowing the rich to enjoy what the poor could not buy.

"Taking into consideration the requirements and the vast possibilities of expansion, it would be fair to estimate a turnover of about $30,000,000 a year, and this should yield a net profit to the treasury of between $5,000,000 and $6,000,000 annually.

"If the business were economically and well handled, as I have no doubt it will be, it should have the result of cutting the individual taxpayers' burden in half, and leave a sufficient amount to provide adequate funds for the maintenance of roads and hospitals and similar institutions," continued Mr. Thompson. "This can be figured out by ascertaining our normal revenue from lands, minerals, timber and other basic sources and only taking into account the individual taxpayer's contribution."

Referring to the possibilities of developing the liquor business, Mr. Thomson stated that a large income could be expected as a result of the money expended in British Columbia by visitors and residents, the majority of whom being from the United States and other arid spots.

"One would be foolish to overlook the great quantity of liquor which will cross the line," said Mr. Thomson. "It will be humanly impossible to prevent illegal shipments out of the province. When you consider that a bottle of good Scotch whiskey which normally cost $1.50, can be sold in many places in the United States for $40, which, plus exchange, would bring the price up to $45, the bait is far too alluring to be resisted by those on the lookout for easy money and aren't particular about their methods of getting it.

"When all is considered, the handling of the liquor business will be found, the heaviest administrative job the government has, and it should be taken in hand by a cabinet minister with no other demands on his time or thought. This point cannot be emphasized too strongly, because the success or failure of the government control plan will mean so much to the people of the province, and the relief from taxation will be so great if the task is properly managed."

NEW HIGHWAY MAKES WORK FOR 150 MEN

KINGSTON, Feb. 25.—About 150 men will be given work this spring and summer now that McGinnis and O'Connor, of this city, have been awarded the contract for building the new highway on the Gananoque road, east of Kingston.

The new road will extend for seven and three-quarter miles east of Kingston, commencing at the top of Barriefield hill. It will be waterbound macadam, with 10 1-4 inches of loose stone.

HOLD-UP MAN DYING BY JEWELLER'S SHOT.

Brooklyn Shopkeeper Foils Daylight Raid After He Is Hit With Blackjack.

NEW YORK, Feb. 26.—In a pistol battle yesterday afternoon between Irving E. Solowey, proprietor of a jewelry store at 125 Sands Street, Brooklyn, and two hold-up men, one of the latter was shot and probably mortally wounded by the jeweler, and the second escaped while a policeman struggled with the wounded man, who attempted to shoot him.

Solowey was standing at the entrance of his store shortly after 4 o'clock, when his attention was drawn to two roughly dressed men across the street. There have been many hold-ups in the neighborhood, and the jeweler became suspicious. He stepped behind a showcase near the door to watch the men, but they had disappeared. In a few minutes both men rushed into the store, and one of them, who later said that he was Charles Madison of 174 Sands Street, struck Solowey on the head with a blackjack.

Solowey held on to the showcase, and prevented himself from falling, and dodged another blow from the blackjack. The second robber started toward the safe at the rear of the store, containing more than $40,000 worth of jewelry, with the doors open.

Despite the threat of the first robber to shoot him if he moved from behind the showcase, Solowey dropped to the floor and crawled toward the safe in advance of the second robber and seized a .32 calibre pistol in the safe. He opened fire on the second man, who was within three feet of the safe, and the latter backed away in the direction of the door. Madison, the other man, fired at Solowey with a .45 calibre automatic pistol, but the jeweler dodged behind the counted near the safe and fired two more shots.

Shot Attracts Passersby.

One of Soloweys bullets crashed through the window, attracting the attention of passersby, some of whom ran to the door. When they saw the intruders backing toward the door with pistols in hand they scattered, and Solowey fired another shot, which passed through Madison's back.

Madison ran out with his confederate, but when they were about fifty feet away the robbers saw Policeman Charles McGovern of the Poplar Street Station coming toward them. The second robber changed his course and ran past the store and Madison tried to frighten the policeman with his pistol.

McGovern had drawn his pistol and when within ten feet of the wounded robber shouted: "Throw that pistol away or I'll kill you."

The policeman said later that he believed that Madison, in his excitement, must have thrown on the safety clutch of the pistol, for the man tried several times to pull the trigger, but it failed to work. This gave the policeman an opportunity to close with the robber, and for the next five minutes, despite the fact that Madison was growing weak from the bullet in his back, he struggled with the policeman for possession of the pistol. McGovern struck the robber over the head with the butt of his own pistol before he could wrest the other's weapon from him.

Solowey had closed the safe and was about the start in pursuit when the policeman arrived with his prisoner. He did not know at the time that Madison had been shot, and it was not until Solowey had started to describe the hold-up that Madison collapsed.

"They WORK while you sleep"

Cascarets

You are constipated, bilious, and what you need is one or two Cascarets tonight sure for your liver and bowels. Then you will wake up wondering what became of your dizziness, sick headache, bad cold, or upset, gassy stomach. No griping—no inconvenience. Children love Cascarets too. 10, 25, 50 cents.

THE TWO MOST POPULAR MEN

COPENHAGEN, Feb. 22.—Refugees lately arrived from Russia tell me that the two most popular men in Moscow today are the famous Russian musical clowns Bim and Bom, who, although they appear very rarely—about once every six or nine months—on the arena of the local circus, are literally the talk of the town. The reason why their turns are billed so rarely lies in the fact that Messrs. Bim and Bom practically spend the whole of their time in prison, as each appearance of theirs ends by a compulsory visit to the Estraordinary Committee in the Lubianski Prospect and from there to the Butyrski Prison!

The following are some of the gags which Bim and Bom have introduced into their turns:

Bim comes out into the circus arena, sits down on a camp stool and starts munching a crust of black bread in a melancholy fashion. He continues silently munching his crust for about five or ten minutes.

Bom, who is seated in the stalls, gets up and cries impatiently to Bim: "Hi, there! Chuck that! You have been eating for ten minutes without saying a single word!"

Bim shrugs his shoulders and answers, pointing to the audience: "Well, and what about it? All these people over there haven't had a square meal for three years, and they also are silent." Thunders of applause, and a visit for Bim and Bom to the Extraordinary Committee.

Again, a few months later, when Bim and Bom have been released from prison, they walk around the arena pretending that they are removing to a new flat. Bim has hanging from his neck portraits of Lenin and of Trotsky.

Bom asks him, pointing to the portraits—"What are we going to do with them?" Bim answers—"We will hang up this one and the other we will stand up against the wall."

This gag nearly cost Bim and Bom their lives, as some Red Guards in the audience wanted to lynch the clowns, and only the energetic protests of the audience, which rose en masse in defence of its favorites, saved them. But Bim and Bom were again arrested and again spent several months in prison.

When they were released and made their next appearance in the circus they "produced" the following "turn"—Bim comes out carrying a very tiny log of wood. Behind him staggers Bom carrying an enormous sack stuffed with paper. Answering questions shouted from the auditorium, the clowns explain: Bim has just received his winter ration of firewood and Bom is carrying in the sack all the official "cards" and "documents" and "permits" necessary to get it!

The complete censorship, the ban on all political cartoons, satires, and humorous and "comic" papers has made the rare appearance of Bim and Bom quite an outstanding feature in Moscow life.

CONSECRATION.

Oh God, at Thy altar I light my torch,
I would set the world on fire.
I would give new aims, new hopes to men,
That should crush all base desire.

I would lead them out to the fields and woods,
Away from all unreal things,
Have them listen to happy little birds
In their nests as they sweetly sing.

I would light up Heaven and shew them Thee,
In Thy wonderful power above,
I would shew them Jesus so kind and true,
In His agonizing love.

I would touch mens' hearts 'till they wept with pain,
Over injustice and wrong,
I would teach them by gentleness and love
To whom their lives belong.

I would open wide the prison doors
And let them peep within,
At budding manhood, lying there
For no great crime or sin.

I would bid them look at other men
Who rob in lavish style,
And live their mean and selfish lives
And escape the law meanwhile.

I would say to the church, Awake! Awake!
Your beautiful garments put on,
Comfort the weary, and heal sick hearts
By hopeful, confident song.

I would have them take an interest in all,
That goes on in this sinful world
And for the sake of God and man,
March forward with banner unfurled.

Oh, Christ, Thou dids't not come to condemn,
The world of sinful men,
But to save by love, blot out my sins,
And let me shine for them.

God help the mothers who weep in shame,
For children gone astray,
I consecrate myself for them
And Thee, dear God, this day.

THREE SAILINGS A WEEK FOR AMERICA

COPENHAGEN, Feb 26.—(Canadian Press).—By an agreement betwen the Nordenfjeldske and the Strays steamship companies steamers for America will leave Finnish and other Baltic ports three times each week commencing the end of February.

GOSH!

We think we have located the place where the Stork finds the babies. It must be Bird City, Kansas, because Dr. Stork lives there.

PURE LUCK HAS IMPORTANT PART IN FOOTBALL PLAY.

Such Great Players as Bob Crompton and Jesse Pennington Have Never Won Cup Medals.

(By W. H. Scott.)

Nobody would ever succeed in persuading footballers in general that the cup competition is other than a great lottery. In other words, luck plays such an important part that the great majority of footballers are convinced that no team has ever yet won the cup—or at any rate in recent times—without having a good share of luck in the doing of it. There is the luck of the draw, and the luck of certain matches.

It is equally true that this luck business applies to individual players as well as to teams as a whole. I have been moving among footballers for years, and I have come to the conclusion that if there is one honor which the average footballer covets more than another, it is to be a member of the side which wins the cup.

Yet there are scores of great players who have never realized this ambition. Bob Crompton, for instance, as great a full-back as football has ever known, has found his way into retirement without once leading his team to success in the cup, while another almost equally famous full-back, Jesse Pennington, has had a similar experience, altho the West Bromwich Albion captain has got as far with his side as the cup final.

The Lucky Ones.

Other players are remarkably lucky for they just step into a team at the right moment and win a cup medal before they have been in the game many minutes, in a manner of speaking. Last season, for instance, Barson, the Aston Villa centre-half, had a stroke of luck, for he went into the Villa from Barnsley at the right time, and helped to win the cup in what was really his first season in top class football. Incidentally, of course, he helped himself to one of those cup medals which they are also keen about.

Meredith's Successor.

The members of the Welsh F. A. had such a high opinion of the abilities of Rees Williams, the Merthyr man, that they gave him his cup without his taking part in the trial at Wrexham.

"Reesio," or "Tabeen," as he is known familiarly at the pit-head at Abercanaid, was a schoolboy international. As he grew his reputation grew and extended even to Merthyr, but the directors did not seem particularly inclined to engage local men. In fact, Williams was almost overlooked this season, so busy was the club in the vicinity of Coventry.

Rees Williams could have migrated to the north, but he had consideration for his widowed mother, and he would rather go back to the pit than leave Abercanaid, his birthplace, where he learned his football on the Taff bank.

He has rare turn of speed, and won several handicap sprints last summer. He takes the ball on his stride, controls it with either foot, and has a shot in each locker.

His shortage of inches—5 ft. 5 ins., and 140 lbs.—make him a difficult proposition for any hefty back who cannot quickly settle to his elusive qualities. His centres are the delight of inside men with "heads."

A year ago Rees Williams was kept in the second string because "he was too small and not strong enough for southern league football." His claims for recognition were pressed by two local press men, and they take the credit of having forced a chance for their prodigy. Today $15,000 would not be accepted for his transfer.

Grimsby's Forward.

David John Collier, the Grimsby Town forward, who has been honored by the Welsh selectors, is a young player with a future. Born some 23 years ago at Llmynypia, he first played with Saint Cyons, a church team in Rhondda league, and after a successful season, in which the club won the championship, the whole side was taken over intact by the Mid-Rhondda Club management as reserves for their Southern League team.

Collier, who he was serving with the 16th Welsh Regiment, played regularly with Mid-Rhondda, and Haydu Price recommended Grimsby to secure him.

Though his experience is limited to three clubs Collier has qualities which make him a very useful raider. He is fast, very clever with the ball, and above all, fearless. He loses nothing for the want of trying, and Grimsby's opinion is that he is a young player who has not by any means reached his best yet.

At Wrexham he had, as he admitted, one of his best days, and he won his place absolutely on the merit of the game he played. Collier stands 5 ft. 4 ins., and weighs 154 lbs.

A Coming Inside Left.

Among several reversals of form some weeks ago not one was more remarkable than that of Manchester United, who prevailed on the ground of West Bromwich Albion—so that each of these teams won the ground of their opponents.

Partridge, the inside left of the United is cultivating the useful habit of scoring and he was the first man to placed the ball in the net of the Hawthorns. He only arrived in first-class football on the 9th of October last, when he appeared at the outside left in the Manchester United team against Oldham Athletic and Old Trafford.

PUBLISH ASSESSMENT.

The town of Renfrew has concluded to publish the total assessment of each ratepayer opposite his or her name on the voters' list. In this way each ratepaper will have oportunity to compare others' assessments with his own without examining the roll itself, a task which usually calls for aid from the assessor.

RHEUMATIC PAIN

Rub it right out - Try this!

Rheumatism is "pain only."

Not one case in fifty requires internal treatment. Stop drugging! Rub the misery right away! Rub soothing, penetrating "St. Jacobs Oil" directly into the sore, stiff joints and muscles and relief comes instantly. "St. Jacobs Oil" conquers pain. It is a harmless rheumatism remedy, which never disappoints and does not blister.

Limber up! Quit complaining! Get a small trial bottle of old-time "St. Jacobs Oil" at any drug store and in just a moment you'll be free from rheumatic pain, soreness and stiffness. Don't suffer! Relief awaits you. Get it! "St. Jacobs Oil" is just as good for sciatica, neuralgia, lumbago, backache, sprains and swellings.

THE "FLU" Dare Not Return

The "Flu" will certainly get a warm reception this winter if it dares show its ugly head in our peaceful midst, for the people are confident now that they can deal it such a smashing blow it will never survive. In every village, town and city in Canada, families are fortifying themselves with the greatest "Flu" ammunition known to science—Buckley's Bronchitis Mixture. Colds, coughs, etc.—the advance guards of Flu—are met with withering fire, and relief from these troubles is sure every time. One hundred thousand Canadians are only too willing to testify to the great healing power this remedy contains. It has conquered coughs of 35 years' standing. It cannot fail to do for you what it has done for others. You have everything to gain and nothing to lose, as it is sold under a money-back guarantee to banish coughs, colds, bronchitis, bronchial asthma and prevent you from getting the "Flu." It is not a syrup, but a scientific mixture, 20 times stronger than any other cough cure. One dose gives instant relief. Price, 75 cents. Take no substitute. None genuine without my signature. Ask your druggist 17

Sold in Peterboro by J. P. Bond, the Warne Drug Company and all live druggists.

CHINESE EXECUTE CAPTURED BANDITS.

Earnest in Attempt to Suppress Disorder.

(Canadian Press.)

SHANGHAI.—Reports brought to Shanghai by river craft from the upper Yangtsze are that the Chinese authorities in seeking to quell outlawry and suppress disorder, following the looting of the city of Ichang by mutinous troops, have adopted the most drastic methods. All captured bandits, say the reports, are executed with little or no formality.

A scene characteristic of descriptions of the working of Chinese justice was described by Captain T. F. Doyle, of the steamer Mai Shun which recently came to Shanghai. When his steamer was at Wanhsien coaling Captain Doyle said those aboard saw 28 culprits led to the river bank. These were forced to kneel in a line and then the executioner with his heavy two-handed sword proceeded slowly down the line, a head falling with each swing of the sword.

Such wholesale executions, the captain said, became almost daily events in the winter months at centers on the river like Wanhsien.

WAS SUFFERING FROM INDIGESTION

NO FEAR OF PAINS NOW

Indigestion is one of the worst forms of stomach trouble, and many people suffer terribly after every meal they eat. The rising and souring of the food, pains in the stomach, heartburn, water brash, belching of wind ,vomiting shortly after eating, etc., are some of the symptoms.

There is no need for any person to be troubled with indiegstion, dyspepsia or any other stomach trouble if they would only take Burdock Blood Bitters, which contains a combination of nature's roots, herbs, barks and berries; a combination that cannot help but put the stomach right.

Mr. H. H. Collins, Norton, N.B., writes:—"I was with the overseas forces for four years and two months, and in October, 1916, I was unfortunate enough to be wounded and taken prisoner. I was a prisoner for 2 1-2 years, and the food they gave us was not good, at times, and after a few months I found I was suffering from indigestion. When I came home in July, 1919, I was nearly a wreck. I was told to use Burdock Blood Bitters. I did so and found great relief, and can now eat without fear of pains and sickness. I would recommend B.B.B. to all who suffer from indigestion."

Burdock Blood Bitters has been on the market for over forty years, and during that time has made a reputation second to none for relieving all stomach troubles. Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

GRAMME RADIUM FOR MME. CURIE.

Tribute to Her Discovery of This Potential Agency.

NEW YORK, Feb. 26.—The Carroll Club, an organization of 6,000 Catholic business girls of this city, has volunteered to help in raising the $100,000 with which will be purchased one gramme of radium to be presented to Mme. Curie in the name of American women. Mme. Curie, who discovered radium, will visit this country in May, when the presentation will be made. Mrs. Nicholas Brady, president of the club's board of directors, and Mrs. Evelyn Smith Tobey, resident director, have planned a comprehensive campaign. Proceeds of a play in the Carroll Club theatre, directed by Miss Alice White, will go to the fund, as will the proceeds of a basketball game with the girls' team of Columbia University, a glee club concert directed by Miss Edith Bennet, formerly leader of the glee club at Smith College, and a fancy dress party.

Mme. Curie was asked recently what she would choose if the whole world were spread at her feet. She said: "Only this: Enough radium to carry on my work here at the institute. I should like to have a gramme of radium for experimentation."

As a protection both to passengers and ticket agents, the Pennsylvania Railroad has decided to print the price on the face of each railroad ticket.

FORESTRY DEVELOPMENT

(Canadian Press.)

WASHINGTON, D. .C.—Extensive forestry development is now being carried on in Great Britain according to a report received by the Department of Commerce from the U. S. Consul in London. Reforestation, which is still in the experimental stage in Canada, is now being rapidly developed in the Old Country and large tracts have been planted for the purpose of maintaining the timber resources of the country. Of this phase of the work, the consular report says:

"The Forestry Commission, established in November, 1919, for the development and conservation of the timber resources of the United Kingdom, is reported to have planted in the first year of its existence 1,500 acres of land and to have acquired 80,000 acres for development and reforestation.

"According to the tentative plan of this organization, during its second year a further 5,400 acres will be planted. The programme covers in its entirety a period of at least 10 years, and if the plans under consideration are carried out a total area of 4,770,000 acres of forests will be provided in the United Kingdom. The commission has also obtained possession of tracts of land totalling more than 300 acres of nursery ground, and the programme involved the ultimate rearing of 24,000,000 seedlings annually.

"A very large proportion of the forestry development in the United Kingdom will take place in Scotland, where areas highly suitable for reforestation can be acquired at very low prices. Similar tracts of land in the northwest part of England, embracing the counties of Cumberland and Westmoreland, are also being marked out for forestry development."

Nothing Like Internal Bathing for Constipation

If people only knew what Internal Bathing is doing for thousands of others there would be fewer Pills and Laxatives swallowed, and very much less suffering from Constipation and the accompanying Stomach and Nervous Troubles resulting from it.

J. A. Darrach, Copper Cliff, Ont., writes: "I have been using your J. B. L. Cascade for the past three months, and am convinced that it is the most modern and scientific method of dealing with Constipation that has ever been devised, and I will lose no opportunity to promote its use among my friends, as I can speak truthfully and enthusiastically as to its merits."

By the proper application of Nature's cure, warm water, by means of the J.B.L. Cascade, the lower intestines are kept free from all poisonous waste. Drugs force Nature. Internal bathing assists her.

Dr. Chas. A. Tyrrell, of New York, a specialist on Internal Bathing, invented and perfected the J. B. L. Cascade, which has done more during the past 20 years in restoring health and lessening disease than all other means combined.

Ask Warne Drug Co., Druggists, Peterborough, Ont., for booklet, "Why Man of To-day is Only 50 Per Cent. Efficient." They will also be pleased to show and explain the J. B. L. Cascade to you, or write to Tyrrell's Hygienic Institute, 163 Colleeg Street, Toronto.

LAST THEATRICAL STOCK COMPANY.

Players Practically Lived at the Theatre.

An interesting sidelight on old English stock companies is the resurrected story of the old Britannia Theatre in London. This was the last theatre to run a stock company. It was erected in 1841 and rebuilt in 1858 to the size of Drury Lane. The performance began at 7 o'clock and continued until 11.30 and a typical program consisted of a play, an act from the "Merchant of Venice," a ballet, a comic dance, two songs and then a new drama. It could all be seen for 3d. (six cents) in the gallery.

They kept a stock dramatist, Colin Hazelwood, who turned out a new play once a fortnight, at a salary of £2, 10s. ($12) a week. The artists practically lived at the theatre, the best of them being Joseph Reynolds, who joined the company in 1851, and stayed for 36 years, playing over 1,000 parts. Compared with them, modern actors do not know the meaning of the word "work."

London has definitely decided for "Deburran," the French masterpiece, at present playing in London during this spring and the London managers have invited David Belasco to help with the English production.

"Irene" has reached its 350th performance at the Empire Theatre, London.

"Happy Hawaii," Mildred Leo Clemens' entertainment, which Toronto saw in the beginning og the season, is now playing in a London theatre. Miss Clemens, who is a cousin of Mark Twain, took six Hawaiians with her to England.

One of the objects of her visit is to acquaint English people with the work of the affiliated Lyceum and Chautangua Association of America. The Canadian manager of this organization is also in London, with the idea of possibly opening a London office of the Chautangua movement, and completing the circuit. A number of British speakers recently have come to this country, but Miss Clemens is the first speaker to go to England from here.

Since the war, lectures have increased 50 per cent. People got so used to lectures during the war that they now insist on having them.

Constipation

It is a disease-producing malady, and if not corrected may result in serious complications. In good health the bowels should move freely at least once every day, carrying away the waste products from the Blood and Liver. If this function fails or is irregular, the work of removing the poisons falls on the Skin and Kidneys, with the result of the latter organs becoming congested and clogged. The Blood becomes poisoned, Indigestion sets in, the Kidneys become deranged, and a severe if not fatal illness is brought on. DR. HENDERSON'S HERB TABLETS correct this trouble by its action on the Liver, causing a healthy flow of Bile, and exerting a soothing and toning influence on the whole Intestinal Track.

Dr. Henderson's Herb Tablets are put up in three sizes—25c, 50c, $1.00 per Box. For sale at Warne's Drug Store, Peterborough.

A Start in the Right Direction

The temptation to spend money in your pocket is greater than when your money is in a savings account in the bank. That margin of temptation may mark the difference between an opportunity to go into business later on or of working for wages with nothing saved and nothing ahead, at the end of your working years.

Why not open a savings account in The Bank of Nova Scotia to-day?

Your account will be welcomed and you will have made a start in the right direction. 212

CONSECRATED CHURCH

LINDSAY, Feb. 25.— St. Paul's Anglican Church, Lindsay, having been freed of debt, the secred edifice was consecrated yesterday morning by Right Rev. J. F. Sweeney, D.D., Bishop of Toronto. The congregation was large and the service impressive.

According to the postal authorities, Boston is the thriftiest city in the United States. Postal saving deposits there during 1920 increased $1,548,326.

MOTHER!

"California Syrup of Figs" Child's Best Laxative

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best and most harmless physic for the little stomach, liver and bowels. Children love its fruity taste. Full directions on each bottle. You must say "California."

CORNS

Lift Off with Fingers

Doesn't hurt a bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly!

Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

"The Touch of Courtesy Does it"

THE courtesy with which patrons of The Bank of Toronto are treated is a tradition of this institution and a matter of quiet pride with every employee. This is one reason why our depositors like to come to our Branches, not only to deposit their money, but to transact other banking business.

The co-operation of the Bank's local Managers in financing the business of its customers really amounts to a helpful alliance in which both customer and the Bank participate.

HONORED AFTER 42 YEARS WITH ENGLISH RAILWAY.

Sir George Perley Presided at Dinner to James Wright, Recently Retired

LONDON, Feb. 5, by mail (Canadian Press).—James Wright, who recently retired from the service of the London and North-Western Railway Company after 42 years' work, was entertained at dinner at the Hotel Cecil recently by a number of friends in the railway, shipping, emigration and theatrical circles, among them several Canadians, who gave him an illuminated address, which is to be followed by the presentation of a grandfather's clock.

Sir George Perley, High Commissioner for Canada, who presided, said that the fact that Mr. Wright had managed to keep so popular with the public for over forty years was a proof of his good nature and sincere desire to be of service to everybody. Mr. Wright had successfully handled the Canadian passenger agent's work for many years, and in that capacity he had been of great service to Canada. He had charge of the Canadian Manufacturers' Association tour fifteen years ago, and he managed it to the satisfaction of everybody. He also piloted Canadian school teachers through this country more than once, and had charge of the tour of the Empire Parliamentary Association delegates from Canada. During the war he greatly helped the Canadian military authorities in their various transport troubles. Mr. Wright had also arranged successfully for the transportation of thousands of Canadian immigrants, including those sent out by Dr. Barnardo's Homes and the Salvation Army, and he was instrumental in bringing about the improved facilities for passenger traffic between the railway station and the docks.

James Glover paid a tribute to Mr. Wright's work for the theatrical profession in such matters as the provision of special trains. Sir Herbert Tree, he said, one day received a Royal command to appear at Ballater, Scotland, which threatened to interfere with an opening night in Dublin. The telegram was private and confidential, and Sir Herbert Tree, "with true theatrical instinct," showed it to everyone in the club smoking-room. One of his friends remarked, "Any fully-developed idiot when he got a telegram like this would send for Jimmy Wright." (Laughter.)

Sir Thomas Fisher mentioned that Mr. Wright entered the railway department about the same time that the Canadian Pacific Railway extended its enterprise in England, and that Canadian immigration began to develop. It took him two years' hard work to get special trains for the boats. Mr. Wright was spurred on to this by the competition of Southampton. He hoped competition would be maintained in spite of all the Ministries of Transport.

BABY ROY TAYLOR.

"As hard as nails."

29, Third Avenue,
Bordesley Green,
Birmingham.

Dear Sirs,

Enclosed please find photos of my baby boy Roy, age 14 months, who since he was 3 months old has been brought up on Virol. He had an attack of diarrhoea and sickness when 3 months, which pulled him down a lot, so I started him on Virol (which had proved such a good friend to my little girl, aged 5), and now he is as hard as nails, and well equipped for the coming winter.

(Signed) Mrs. E. TAYLOR.

Virol is invaluable for the expectant and nursing mother herself, whilst for children it supplies those vital principles that are destroyed in the sterilising of milk; it is also bone and tissue-building food of immense value. Virol babies have firm flesh, strong bones, and good colour.

GUNMEN KIDNAP ELECTION WORKERS

Ballots Stolen in Some Chicago Wards.

CHICAGO, Feb. 26.—Washington's birthday was observed here with an old-fashioned Aldermanic election, in which guns and kidnappers played their part, and a city-wide vote on a proposal to sell $800,000,000 in bonds to cover a financial deficit. The bond issue carried by a big majority.

Considerable violence was reported from the river wards, where curtained automobiles carrying crews of gunmen brandishing drawn revolvers succeeded in kidnapping election workers, stealing ballots and attempting to establish a region of terror wherever the underworld dynasty seemed to be imperilled by the legal voting.

The police captured 200 pounds of dynamite, a number of loaded shells for sawed-off shot guns and two men, who said they were supporters of Alderman John Powers, the Democratic incumbent of the Nineteenth ward, on a lonely farm on the south side. The dynamite was hidden under a pile of hay in a barn. The men arrested were Italians, and explained that the powder was to be used to kill bugs. They admitted that they were residents of the Nineteenth ward. They are under arrest.

The climax to one of the most peaceful elections in the history of the city came when Robert Duncan, a voter in the notorious First ward, was thrown into the river by a Republican enthusiast, who took exception to Duncan's remarks that the Democrats were the only people with whom George Washington associated. Duncan was rescued with difficulty.

PAY FOR MEMORIAL OUT OF BARRIE'S TAXES.

BARRIE, Feb. 25. — A representative meeting of citizens has agreed that a soldiers' memorial for this town shall be paid for out of the general taxes. A sub-committee has been appointed to get designs and estimates immediately so that the amount may be included in this year's estimates, if the council approves the committee's recommendations.

THE FEUD OF THE FOREIGNER

(By G. K. CHESTERTON)

(Copyright, 1921, by Cross-Atlantic Newspaper Service, Inc.)

Everybody knows that a short time ago the English narrowly escaped being crushed by an enormous monument, apparently to be set up with the approval of Sir Alfred Mond. It was in something recalling the Egyptian or Babylonian manner; and as Mr. J. C. Squire pointed out, in a most excellent and effective passage, even its merits were for our own patriotic purposes not so much monumental as monstrous. It seemed to typify a brutal and even a bestial triumph. We were then gravely told that it avoided offence to the various religions in the alliance; or, to put the meaning more plainly, that it avoided Christianity, at any rate; and did not offend any religion except our own religion. Even that claim may well be questioned. It is a little hard to see why all religions should be included in a temple apparently dedicated to Baal or Moloch. And it is still more hard to see why it should soothe the feelings of devout Moslems or Jews to rear the typical trophies of idols, which they condemn even more than we do. But anyone knowing the real world of to-day will know it is no exaggeration to say that it probably would soothe a certain Semitic plutocracy, merely by not being Christian. And in this it was an allegory. We do manage sometimes to resist that Semitic influence when it is public like a public monument. We are helpless before it when it is secret, as in most of the motives of our public policy.

Our principles are always being illustrated by working models in modern politics, or rather by models of how modern politics will not work. The whole falsity of the position of the Jews is, of course, concentrated in the single case of Poland. There is a fierce and even fanatical hatred felt by the Jews, as a nation, for the Poles, as a nation. Perhaps it is reciprocated, perhaps it is provoked. Let us assume either or both for the sake of argument. Anyhow, we do not for a moment class it merely with the lower vices of the more venal Jews. We do not class this Jewish fanaticism with Jewish usury, or the hatred of the Poles, with opression of the poor. On the contrary, we are willing to class it, for the sake of argument, with the highest and most honorable of such historic hatreds. It is a historical fact that the Jews hate the Poles as it is a historical fact that the French hate the Prussians, though we think that they are fully entitled to hate them. But there is one thing at least that they would not be entitled to. It would not be just even to Prussia if Georges Clemenceau under the name of George Klementz became the most powerful politician in Saxony and worked to detach and neutralize in the interests of the French. It would not be reasonable if Maurice Barres called himself Moritz Baur and edited the wealthiest and most widely-read paper in Munich, published for the sole purpose of separating the Bavarians from Prussia. It would be better for the Bavarians in every possible way if they had been separated from Prussia; but in the interests of Bavaria, not solely in the interests of France. A Frenchman has a right to advise them, but they have a right to know that it is a Frenchman who is advising them. They have a right to know it is another foreigner who is hindering us from supporting the Pole.

He is a foreigner far more remote from us than is a Bavarian from a Frenchman; he is divided by the same type of division as that between us and a Chinaman or a Hindoo. He not only is not, but never was, of the same race. He not only is not, but never was, of the same religion. If we think it unreasonable that a Romanized Gaul should pose as a native in the old Roman town of Cologne, it is far more unreasonable that two brothers of the same nomadic tribe from Asia should pose respectively as natives, one of the Town of Cologne and the other of the Town of Paris. But it is quite intolerable when the two work together in the two separate cities to control the policy of two separate countries. It is intolerable when they prevent these countries from defending themselves because the strategy involves the defence of something else that these aliens do not happen to like. It would be intolerably illogical even if the third thing were a thing like Prussia; it is intolerably immoral, as well as illogical, when it is a thing like Poland. Since the Jews hate Poland, let us try to judge fairly between the Jewish nation and the Polish nation, but not allow Jews to become judges by pretending not to be Jews. This has always been a matter of moral justice; just now it is also a matter of mortal peril.

For at the last moment the last steps that can save England may be tripped up by secret hostilities with which we have nothing whatever to do. It is bad enough to have to pander to the tastes of a total stranger without having to take up all his distastes as well. We already suffer corruption for his family interests; we really cannot suffer ruin for all his family feuds. It is exactly as if a man had taken a wild Highlander into his house as a butler or a secretary and then found he could get no wine because the wine merchant's name was Campbell, or that his letters were thrown out of the window because the postman's name was Fraser instead of Grant, or Grant instead of Fraser. But such a position, indeed, would be far better than ours. For the wild Highlander would at least be wild. The employer of the wild Highlander would at least be warned. The spectacle of a butler dancing the Highland fling in Highland kilt could not but attract remark. The conduct of a secretary who used a claymore for a paper knife would in itself arrest the attention of the passer-by. Such a butler could not play the bagpipe without the sounds being recognizable, even when they came from the wine-cellar sacred to his calling, or from the most outlying parts of the reader's own palatial servant's hall. Could he, absent-mindedly, stick a carving knife in his stocking the fourth underfootman might draw his attention to the fact. Thus he might be stopped in time before he stuck a carving knife in a less abstracted fashion into Mr. Fraser, the postman, or Mr. Campbell, the wine merchant. And what is most important of all, he could be stopped before he stabbed them with his master's carving knife in such a way as to make it look like his master's crime.

But our butler comes to us concealing his family name, and therefore concealing his family feud. Our secretary does not fling the letters back at the postman in a fury, but quietly intercepts them and decorously puts them in his pocket. He does not wear his dirk in his stocking, but very much up his sleeve. He is a Highlander who does not want to have his fling. He does not want to make your ancient family castle ring with the pibroch of Donal Dhu played on the bagpipes. The Jew's harp is a smaller instrument and can be more unobtrusively enjoyed. He does not want the claymore, but is quite content with the paper-knife; only when he cuts the pages of a book he sometimes cuts them out. And we may be perfectly certain that from first to last we shall not understand what are his motives or meditations. We shall not be told whether or why he has his knife into the postman. If he has a private quarrel with the wine merchant, it will be put down to any reason except the right one; it will be said, perhaps, that the wine merchant is so wicked as to sell wine. But most people in our position will not know about it at all, or will not know till it is too late. We shall not discover that he has been using our weapons for his vendetta till we find ourselves arrested for murder.

Now there are Christians to whom this description does not apply since they have been awake to the peril for many years past, and so there are Jews to whom this description does not apply since they have been sincere about the situation from the first. And among these were those original and genuine Zionists like Mr. Zangwill and Dr. Eder. But even touching the mass of medium Jews, too comfortable to be idealists and too well-meaning to be conspirators, the logical or rather illogical position still remains. Such hatreds as are in their hearts are not English hatreds; neither healthy ones like the hate for the Germans, or foolish ones like the hate for the Irish. The wrongs they would avenge, or perhaps only avert, are not blows falling on England, but blows falling on their own brethren, who are citizens of a foreign land. This feeling is perfectly natural, and even right; it is only the concealment of it that is wrong. It is quite intolerable wrong that it should be concealed and gratified. Before we consider an English case for England, or even an English case against Poland, we must purge it drastically and entirely of the Jewish case against Poland. That case has nothing to do with us, except that it may destroy us.

There has arisen on the ruins of Russia a Jewish servile State, the strongest Jewish power hitherto known in history. We do not say, we should certainly deny, that every Jew is its friend; but we do say that no Jew is in the national sense its enemy. It will be, and it must be, and it ought to be, a question asked about every man advising or influencing let alone conducting a government, "Is he, or is he not, a Jew?" I do not in the least mean, as some of the Jews will certainly say I do mean, merely that we should give the dog a bad name and hang him. I not only have no desire to hang him, but I have no desire to give him a bad name. I merely propose that the naturalist should make a note of the fact that the dog is a dog, and not a cat, or a cow, or a cuckatoo; in short, I would give a dog his own name and leave him in complete liberty to judge whether it was a bad one.

Recognizing, in short, the objective fact that Jews and Poles do quarrel like cats and dogs, any Englishman with the smallest common sense will refuse to listen to somebody like Sir Stuart Samuel reporting on Poland. He will refuse to allow Mond or Isaacs to have any influence on his mind, and he may, possibly, in a very uncommon burst of common sense, refuse to allow them to run any longer even the low business of ruling his country. If we had had our way ten years ago, the thing could have been done in time of peace and security with perfect dignity and justice. It may yet be done after all in times of danger and desperation, but done too hurriedly, too harshly and, perhaps, too late.

The Best Cough Syrup is Home-made.

Here's an easy way to save $2, and yet have the best cough remedy you ever tried.

You've probably heard of this well-known plan of making cough syrup at home. But have you ever used it? When you do, you will understand why thousands of families, the world over, feel that they could hardly keep house without it. It's simple and cheap, but the way it takes hold of a cough will quickly earn it a permanent place in your home.

Into a 16-oz. bottle, pour 2½ ounces of Pinex; then add plain granulated sugar syrup to fill up the bottle. Or, if desired, use clarified molasses, honey, or corn syrup instead of sugar syrup. Either way, it tastes good, never spoils, and gives you 16 ounces of better cough remedy than you could buy ready-made for $2.50.

It is really wonderful how quickly this home-made remedy conquers a cough—usually in 24 hours or less. It seems to penetrate through every air passage, loosens a dry, hoarse or tight cough, lifts the phlegm, heals the membranes, and gives almost immediate relief. Splendid for throat tickle, hoarseness, croup, bronchitis and bronchial asthma.

Pinex is a highly concentrated compound of genuine Norway pine extract, and has been used for generations for throat and chest ailments.

To avoid disappointment, ask your druggist for "2½ ounces of Pinex" with directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded. The Pinex Co., Toronto, Ont.

TOOK $8,000 FOR HIS RAINY DAY.

Getting Old, Employee Robs His Boss.

BROOKLYN, N. Y., Feb. 26.—"I'm getting old and wanted to lay enough away for a rainy day," pleaded Thomas Sutclise of this city when charged in the Police Court with the theft of silks valued at $8,000 from his employer, E. B. Kursheedt. He was held in $1,000 bail for further examination.

The stolen property, the police said, has been recovered. The thefts were said to have taken place systematically over a period of months. Last Tuesday, it was said, Sutclise removed aprons valued at $1,000 from the loft.

THE FRIENDLY TREE.

(By Jeannette.)

Down from the sandy, wind-swept knoll
Where for years it had flourished free,
In haste, for the joyful season was near,
They carried the Christmas Tree.

They set it up in a hospital ward,
Bedecked with tinsel and toys,
That sick little children, pent within
Might share in Yuletide joys.

The tree stood firm on its sturdy stock,
And deep in its evergreen heart,
Seemed to take in the merry, festal time,
A balsam-scented part.

But——that was yesterday, Christmast is o'er,
I saw it standing to-day,
Stiff and straight, with its chee-ful look,
At the tail of the ash-man's dray.

And as it passed down the snowy street,
Its gallant head raised to the sky,
I felt like waving this friendly tree,
A lingering good-bye.

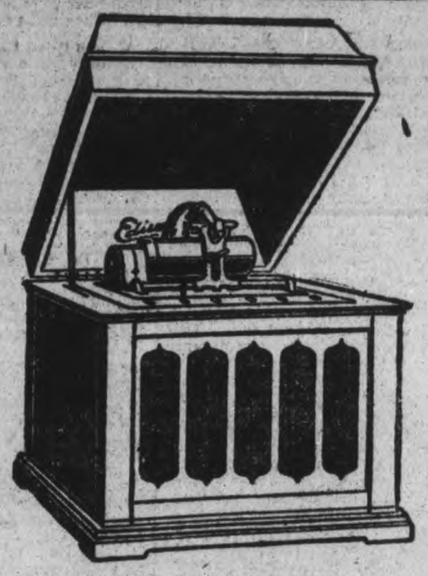
FREE!

Mr. Edison's Wish Makes This Offer Possible!



3 Days FREE Trial In Your Home!

EDISON'S NEW DIAMOND
AMBEROLA

Edison's Amberola is one phonograph that *can* successfully pass the critical test of a Free Trial *in your home.* Many purchasers of "talking machines" and ordinary phonographs have discovered *too late* that the machines didn't sound the same in their homes as in the store when they bought them—possibly because they had more time to note the shrillness and metallic sound of these machines in the quiet of their homes.

The *pure tone* of the Amberola will meet *any* test. That is why we will gladly place one of Mr. Edison's wonderful phonographs right in your home for *a three days' FREE Trial.* This trial places you under no obligation whatever. It does not cost you one cent. Come to our store and select your Amberola and a dozen records. We will deliver these promptly to your home and allow you three days to judge and compare the Amberola with any higher priced "talking machines" or commercial phonographs. At the end of the three days just let us know whether or not you wish to keep the Amberola—that is all.

Moreover, if the Amberola's pure musical *tone,* permanent *Diamond Point Reproducer* and long-lasting Amberol records *have* convinced you, we will arrange the most satisfactory terms of payment you could wish. As this Free Trial offer is only for a limited time, we urge you to call or write to us *at once.* Talk it over with the family tonight—and let us hear from you tomorrow.

Ladies' spring and summer weight undervests in two styles. One has short sleeves and the other is "Cumfy Cut" without sleeves. There is a draw tape at the neck. They are full generous sizes and have a lisle finish.

PRISONER BECOMES JAILER; COMPANIONS GO ON STRIKE

NEWFANE, VT., PRISON HAS NOVEL EXPERIENCE WHEN KEEPER IS SENT TO HOSPITAL—PRISONER SUBSTITUTE CARRIES KEYS TO CELLS.

NEWFANE, Vt., Feb. 26.—A prisoner's objection to having another prisoner as his keeper has called attention to a novel condition at Newfane jail. When Jailer H. M. Burke was taken to a hospital for treatment the institution was left without a head. John Corcoran, one of the prisoners, sent word to a Brattleboro newspaper that Samuel Boyd, a fellow prisoner, had been placed in charge and that prisoners had gone on strike to obtain food.

High Sheriff F. L. Wellman of Brattleboro said to-day that while Boyd in the emergency had been given certain responsibilities he was never in charge.

A substitute and later a successor to Burke have been on duty, the Sheriff said, but he added that Boyd had performed duties of which he would not have approved. The prisoner was given the keys to the cells, released and confined other prisoners, took them out on working parties and in other ways helped out.

At one time the prisoner-keeper ordered prisoners working on the wood-pile to turn to shovelling snow. They went on strike and were returned to their cells by Boyd, refusing to work for a time. This was probably the strike referred to by Corcoran, Sheriff Wellman thought. He added that Boyd had committed no crime, being at the jail under a civil procedure, and was the best man available to help out in the emergency.

BIG SUCCESS OF TORONTO MAN'S INVENTIONS

PHENOMENAL DEMAND FOR DONALD JOHNSTON'S CLEAR RAY REFLECTORS.

Less than three months ago Donald Johnston, sole Canadian Agent of the Stewart Products, designed and patented a unique device, the Johnston Clear-Ray Reflector, for the elimination of glare from automobile headlights. This invention was based on his belief that motorists wanted something which would not only stop glare but also give them more light for night driving; in addition, it should be inexpensive in price and unbreakable. All these requirements are met by the Johnston Clear-Ray Reflector.

Ontario motorists have given this device their hearty approval. Over 20,000 sets have been sold during the last 60 days. Several automobile manufacturers have adopted it as standard equipment, and it is now about to be placed on the American market in a large way.

This is not the first of Mr. Johnston's inventions which has filled a real need, as he is the inventor of the Ford Instrument Board, of which over a million have been installed by Ford owners.

The Clear-Ray Reflector enables the motorist to use bulbs up to 32 candle power if he desires, which is the strongest bulb allowed by the Ontario Government. He does not have to remove the plain glass from his lamps. If one of these gets broken, it costs very little to replace it. The Reflector itself is unbreakable, and it gives a full, clear illumination of the road far ahead and to the sides, which is what all motorists want, especially in country driving.

NEED TO RESTORE GOLD STANDARD.

Emphasized in England by Financial Experts.

LONDON, Feb. 25 (Associated Press).—Need of restoration of gold standard in Great Britain was emphasised at a meeting of the Sound Currency Association recently held here.

Sir George Paish, financial expert, who visited the United States about a year ago, said the financial position of this country would not be sound until the gold standard was restored. "We could then be able to pay for things we require from other countries in goods or services without needing credit operations and without fearing the gold drain from this country," he said. "The gold standard of Europe must also be re-established. We will not be able to resume the gold standard here until we are able to put out new capital abroad to the extent of £400,000,000."

D. M. Mason, who presided, said the Chancellor of the Exchequer had estimated that he would have at the end of the fiscal year a surplus of £234,000,000, which he proposed to use for the reduction of the public debt.

Mr. Mason suggested that if £50,000,000 or £100,000,000 were set aside for the purpose of gradually redeeming the redundant currency, in a comparatively short time there would be parity of exchange between Great Britain and the United States and other gold standard countries.

TIMELY HEALTH HINTS FOR READERS

RELIABLE HOME TREATMENT FOR CASES OF COLDS OR GRIPPE

"Never neglect a cold" is a safe rule in every home. If it were followed many cases of severe illness would be avoided. The time to start treatment for a cold is right when it starts—the moment the first signs—sneezing, running at the nose, feverish condition, etc.—appear.

Start taking Grip-Fix (which you can get at any drug store) at once. In a single night your cold will be conquered, and, even if it has reached the grippe stage, 24 to 36 hours' treatment will be effective. Coming in capsule form, it is both convenient for home use and prompt in action. The ingredients, which are probably just what your physician would recommend, are plainly printed on each box.

Be sure you get the genuine Grip-Fix. It has been sold all over Canada for many years, is a reliable remedy for home use. On sale by all druggists, 35c. per box.

RICH, RED BLOOD MEANS HEALTH

PALE CHEEKS AND BLOODLESS LIPS ARE A DANGER SIGNAL.

To be pale is no longer the fashion; to be languid is an affliction. To-day the most winsome girl is the one with the pink tinge of health in her cheeks, lips naturally red, and eyes sparkling with life. Add to this a quick active step and everyone can tell the girl whose veins are full of the pure, rich blood of health. How different she appears from her ailing sisters, whose aching limbs and weak backs make them pale and dejected. Anaemia is the cause of so much suffering among girls and women that it cannot be too widely known that Dr. Williams' Pink Pills have transformed thousands of delicate, healthy women. These pills help to put rich red blood into the veins, and this blood reaches every part of the body, giving strength, rosy cheeks and brightness in place of weakness, prostrating headaches and a wretched state of half health. Miss Edna E. Weaver, R.R. No. 1, Chippewa, Ont., says "I was verey much run down, weak, nervous and troubled with pains in the side. I tried different medicines but without any benefit until I began the use of Dr. Williams' Pink Pills. Under the use of this medicine I gained strength had better appetite, slept better and the pain in my side disappeared. My health has since remained excellent and I advise any one troubled with anaemia, or weakness, to give Dr. Williams' Pink Pills a fair trial."

Try Dr. Williams' Pink Pills for anaemia, rheumatism, neuralgia and nervousness. Build up your blood and note how the purer and richer blood fights your battles against disease. Take Dr. Williams' Pink Pills as a tonic if you are not in the best physical condition and cultivate a resistance that with the observance of ordinary rules of health will keep you well and strong. Get a box from the nearest drug store and begin the treatment now, or send to The Dr. Williams' Medicine Co., Brockville, Ont., and the pills will be sent you postpaid at 50 cents a box or six boxes for $2.50.

EAR HUSBAND CUT OFF IS GRAFTED ON WIFE AGAIN

Jersey City Man Accused of Atrocious Assault.

NEW YORK, Feb. 26.—A left ear, which it is said Antonio Romano, of 537 Grand Avenue, Jersey City, cut from his wife's head with a razor, was grafted on again later in the day at the Jersey City Hospital. Dr. A. W. Gallagher, who performed the operation, said it appeared to have been successful.

Romano was caught by the police, after a search of five hours, at the Pennsylvania railroad ferry in Jersey City. He was arraigned in First Criminal Court, and told Police Judge Sullivan that he had been drunk and did not recall just what had happened. He was held for the Grand Jury on a charge of atrocious assault. Mrs. Romano's screams brought aid. She said her husband had pursued her about the house and when she fell, wielded the razor. The ear was severed by the thrust.

OXO cubes

Modern medical practice tends more and more towards *prevention* of illness, and this is where OXO is of such value; it imparts strength to resist the attacks of disease, and thus is a powerful promoter of health and well-being.

QUEBEC WILL BE THE MECCA FOR U. S. WETS.

If Proposed Liquor Control Legislation Comes Into Force.

LONDON, Feb. 5, by Mail (Canadian Press).—The Daily Telegraph in a recent issue discusses at some length a despatch from its Montreal correspondent stating that a general caucus of supporters of the Administration has been held to discuss the proposed policy of the Government control of the liquor business throughout the Province, and that the result has been the definite adoption of that policy, which will have the full support of the majority in the Legislature.

The Telegraph says of the scheme: If the proposed legislation comes into force in Quebec, the United States will, for the first time, have a Canadian neighbour whose Government is directly interested in the sale of liquor—a strange proximity for a country which has done what is possible to make liquor wholly unobtainable within its borders. But it need scarcely be said that the authorities in Quebec do not propose to stand behind the vast organisation of bootlegging which is carried on at present on both sides of the frontier. So far as Quebec is concerned, that organisation is likely to disappear. The trade done by the Government is, of course, to be a legitimate one, and it is intended to enforce the law with severity when it comes into operation. One industry which is doomed to destruction, according to our correspondent, is that of the large number of physicians in "dry" areas who profit by the exception made in favour of persons who need liquor for medical reasons. These practitioners, it is stated, sell signed prescriptions at a dollar a-piece, with a space left blank for the name of the particular "medicine" required—a particularly unsavoury example of the vast growth of fraud and hypocrisy which seems inevitably to follow on the enactment of "dry" legislation. But when all forms of illegitimate business are ruled out, there appears to be no question that the Quebec Exchequer stands to benefit very largely by the policy which is about to take statutory shape. The Province will still be, as our correspondent puts it, "the Mecca of the people of the United States and the 'dry' provinces" who need a respite from Prohibition sufficiently to seek it in Quebec; and of these there are apparently enough to create a busy tourist traffic from all parts of the English-speaking North America. The experiment, whatever may be said of it—and it will come under a hot fire of criticism from widely different bodies of opinion and interest—will be highly interesting to observe in its development; and it may very easily be more successful in its practical social results than Prohibition at present seems to be.

MISSED $50,000 WORTH DIAMONDS.

Got Away With Small Quantity Jewellery.

NEW YORK, Feb. 26.—A New York shoe lace dealer ascending in the elevator to his office on the fourth floor of the National Bank, heard suspicious sounds when passing the third floor, and started to investigate the cause thereof. In his search he found three young men who said they were looking for a dentist and scurried away. Shortly afterwards Mr. Rudner discovered that the jewelry shop of Louis Swirsky had been entered, the combination knocked off the safe and the outer safe door unhinged. Some of the show cases had been broken. The robbers had given up the attempt to open the safe, which it was said contained $50,000 in diamonds, and made off with a small quantity of jewelry which had been left over night in the show cases.

OLD SHOES LOOK LIKE NEW

WONDERFUL how we can put New Life and Wear into old Shoes that look as though they were only fit for the scrap heap.

Our Up-to-date Electric Machinery enables us to turn out the Highest Quality Repair Work, and to do it quickly.

Bring the Shoes of the entire Family here---we'll make them do good service yet, and have them ready for Spring.

The Home Circle Column

BABY IS GOING TO SCHOOL.

The baby is going to school; ah me!
What will the mother do.
With never a call to button or pin,
Or tie a little shoe?
How can she keep herself busy all day,
With the little "hindering thing" away?

Another basket to fill with lunch,
Another "good-bye" to say,
And the mother stands at the door to see
Her baby march away;
And turns, with a sigh that is half relief
And half a something akin to grief.

She thinks of a possible future morn,
When the children, one by one,
Will go from their home out into the world
To battle with life alone;
And not even the baby be left to cheer
The desolate home of that future year.

She picks up garments here and there,
Thrown down in careless haste,
And tries to think how it would seem
If nothing were displaced;
If the house were always as still as this,
How would she bear the loneliness?

Many young people who have had no early opportunities and who see no chance for a college course throw away any thought of self-improvement. If they cannot have several years at college they see no use in trying to educate themselves. If they could only realize the immense value of spare moments and what can be accomplished in ten or fifteen minutes each day they would change their minds. Instead of throwing away all the long winter evenings in profitless pleasure spend a few of them in worth while reading and concentrated thought. It is possible to pick up an education in the odds and ends of time which most people throw away. Many of the world's most eminent men acquired their education in scraps of time. If there is a real thirsting for knowledge, you can usually make the opportunity to obtain it. Do not whine about your lack of advantages, but get to work.

"A young man may have many friends," says Sir Thomas Lipton, "But he will find none so steadfast, so constant, so ready to respond to his wants, so capable of pushing him ahead, as a little leather-covered book, with the name of the bank on the cover. Saving is the first great principle of success.

It creates independence, it gives a young man standing, it fills him with vigor, it stimulates him with proper energy, in fact, it brings to him the best part of any success—happiness."

This is a time when the doctrine of thrift cannot be too strongly preached. In every household some member needs to study economy. Sometimes the husband with his tobacco swallows up the careful economy of his wife. Sometimes the wife with her household extravagance destroys the savings of her husband. Someone has estimated, Edward Atkinson, I believe that in the United States the waste from bad cooking alone is over a hundred million dollars a year!

And the young people of the household! For simple luxuries these days they spend an ordinary income. Nickels, dimes and quarters are a nuisance until they are spent. Then they wonder wher all their money goes.

The squirrels know that it will not always be summer. They store food for the winter which they know is coming; but scores of human beings do not profit by the examples of these furry little creatures. They store nothing, consume everything as they go along and sickness and old age finds them with no reserve. They have sacrificed their future for the present.

Too many fond parents forget that they were ever young and they expect their children to settle down into the habits of middle age in their teens. They won't do it and the sooner parents find it out the better. The animal spirits of youth must escape naturally or explosively. When the latter is the case it is always the parents' fault. Don't expect the impossible. Your children must learn a few things by experience the same as you did. You can't expect them to take your word for everything.

WELLS REPORTS ON DARKEST RUSSIA.

Desolation of Cities Revealed in New Book.

LONDON, (By Mail).—Whatever else may be said of H. G. Wells, he is unquestionably one of the best living reporters. Many other writers have attempted to portray the tragic desolation of the great cities of Soviet Russia. But Wells in his new work, "Russia in the Shadows," surpasses them all in the vigor of his descriptions, in the vivid, concrete reality of his images. What a lifelike picture of suffering Petrograd is conjured up in the following sentences:

"There are perhaps half a dozen shops still open in Peterburg. There is a government crockery shop, where I bought a plate or so as a souvenir for 700 or 800 rubles each, and there are a few flower shops. It is a wonderful fact, I think, that in this city, in which most of the shrinking population is already nearly starving, and hardly any one possesses a second suit of clothes or more than a single change of worn and patched linen, flowers can be and are still bought and sold. For 5,000 rubles, which is about six shillings eightpence at the current rate of exchange, one can get a very pleasing bunch of big chrysanthemums."

But whatever instances of haste and superficiality may be found in the book, it is an extremely valuable addition to our literature of information about revolutionary Russia. And in the sketches of those aspects of Russian life which fell under his observation we find the distinguished qualities of Wells at his best; common sense relieved by frequent touches of humor; keen observation tempered and mellowed by warm human sympathy.

STRIKES IN INDIA

BOMBAY, Feb. 1.— (Canadian Press)—(India inormation Bureau). The labor situation in Bombay is still unsettled pending a decision whether a mill strike affecting 100,000 operatives will take place. Three thousand workmen in the Koh-i-Noor mill are still out. They have formulated their demands but the employers have not yet considered them.

POLICE!

A bootlegger may be a crook,
His ways I'll not commend;
But he will treat a patron right,
For he's his "boozem" friend.
—Simian Goober.

HEADLIGHTS

A Simple and Efficient Way to Make Them Legal

Instead of throwing away your plain Head-lamp Glasses and installing Heavy and Expensive Lenses, attach **Johnston's Clear-Ray Reflectors** to your Headlight Bulbs.

Give most powerful driving light, using bulbs up to 32 c.p., and are Government approved. Before you can get your 1921 license, you must have an approved non-glare device.

With each pair of Johnston's Clear-Ray Reflectors we supply a Government certificate.

Unbreakable, can be installed in two minutes, cannot get out of alignment.

Only $1.50 Per Set.

Sold by all leading Jobbers, Garages and Dealers, or sent by registered mail, postpaid, on receipt of $1.50.

When ordering state whether for small bulb (1¼-inch diameter) or large bulb (2-inch diameter).

Two Great Sales are in Progress

Sale of Linens. Sale of Girls Dresses

——LINENS——

This has been one of the greatest sales held in this store for a number of years.

When you consider that we are selling pure Irish Linen Table Cloths at practically half their present value, you will understand why this sale has been such a success.

If you have not seen these wonderful bargains, make a special effort to visit the store to-night, before the best have been picked up.

This sale is held in our Millinery Show-rooms, third floor, where more space and better lighting enables a closer inspection.

GIRLS' DRESSES

Washable Dresses for Girls at 3 Clearing Prices

REG. $6.00 REG. $5.00 REG. $4.00

$3.95 $2.98 $1.98

The materials are Ginghams, Chambrays, Percales and Crepes.

Mothers of small girls should take advantage of this exceptional wash dress sale.

They were a clearing lot, from a manufacturer well known for the making of better quality kiddies' dresses. That is the reason of such wonderful values.

The styles are very becoming and we are certain that every little girl would be delighted to have one or more.

The sizes are from 4 years to 14 years.

On Sale Third Floor.

This is 95c Day at the Hosiery Counter

See full particulars in Friday's edition.
95c is worth just twice its real value to-day.

MUSIC IN THE BALCONY BY "TURNBULLS THREE-PIECE ORCHESTRA." SPECIAL FEATURE: VIOLIN SOLO BY MASTER NASIMOK.

A PET CAT ATTACKS MOTHER AND CHILD.

Animal Was Jealous at the Arrival of Two Children in Its Home.

NEW YORK, Feb. 26.—Crazed with jealousy when Mrs. John J. Reardon, 506 West 166th Street, started to feed her eight-months-old son, Poodles, a big red and white cat viciously attacked the little one. Before the animal's purpose was realized he leaped at the child, scratched and bit him a dozen times and then turning on the mother inflicted more than thirty wounds on her chest and arms. For almost fifteen minutes Mrs. Reardon, alone with the baby and a second son, Eugene, 2½ years, fought desperately to protect herself and finally succeeded in locking the cat in the parlor.

The Reardons moved into the house recently, taking over the apartment of Mr. Reardon's mother, who died last week. For several months the cat had been cared for by Mr. Reardon's sister, and the advent of another woman with two little children aroused his anger. In the forenoon, soon after the children came to the house, Poodles retreated to a dark corner. He came out after luncheon and made an attempt to play with Mrs. Reardon. But the children were taking her attention and she had no time to bother with Poodles.

In the afternoon Poodles was watching the crib in the parlor when Mrs. Reardon entered and started to take the baby in her lap to feed it. There was a cry from the cat and his body shot through the air. He passed under Mrs. Reardon's arm and landed on the child. The mother, hearing the child scream with pain, seized the cat by the neck and found that his teeth were fastened in the baby's shoulder. She choked the infuriated animal until he loosed his hold on the baby and then flung him arcoss the room with all her strength. The shock of striking the wall did not stun him, and the cat came back with a rush and a spring that carried him to Mrs. Reardon's back.

Mrs. Reardon strove to push the crib into the hallway and shut the door. The cat made frantic efforts to get at the baby again, and when Mrs. Reardon tried to throw him to the floor he bit deep into her hands. She succeeded in choking the animal a second time and flung him to the floor. While he was recovering the mother rushed the cradle into the hallway and escaped from the room with the second child.

Aroused by the woman's cries, neighbors in the hall were unable to help, the door being fastened. When the mother made her exit with the child a policeman and Mr. Reardon were summoned, who captured the cat and took him to the station.

The mother's and baby's wounds have been thoroughly caulerized and they are in a physician's care.

DISMISSES THE WOMEN TEACHERS

Women teachers are no longer employed in French schools for boys. The authorization to employ them, granted during the war, has been withdrawn, because the return to normal life has rendered men teachers available.

New Drug Makes You Feel 100% Better in One Night

Only Drug known that acts directly upon the Liver. Doctors are surprised at the wonderful results obtained by Tanated Calomel.

Your complexion is not clear, you have pains between the shoulder blades, you are constipated, have no energy, no appetite, headaches, rheumatism, etc. These are all the well-known signs that your Liver is out of order, and is not excreting Bile into the Bowels, thereby causing all these pains and aches.

Doctors will tell you that 99% of the people who come to them for treatment have trouble due directly to the Liver. It is simple when you stop to think about it. When your Liver becomes inactive and fails to pour Bile into the intestines, your system is unable to excrete the waste, then the blood begins to distribute this waste throughout the whole system, striking at the weakest organ. Until this Liver trouble is overcome, you cannot expect to have perfect health, and life to you will be a drudgery.

Doctors recommend that you take one Tanated Calomel about fifteen minutes before each meal, or you may take two at bedtime, and you will wake up the next morning feeling tip-top. No seidlitz, salts, or castor oil are necessary to eliminate the Calomel, as it is self-eliminating.

Tanated Calomel is quickly assimilated by the system, and begins to act soon after taking. It has no bad after-effects, as nausea, sick headaches, griping, etc., but acts very mild and smoothly, causing a natural elimination of the waste, relieving your system of all this waste poison, making you look and feel bright, alert, vigorous, and vivacious again.

Tanated Calomel is sold by F. C. Weber, Druggist, Peterborough.

MEXICAN AMBASSADOR.

MEXICO CITY, Feb. 26.—(Associated Press.)—Mexico will appoint no ambassador to the United States until recognition is tendered by the American government. A statement to this effect was made recently by the Foreign Office.

CATARRHAL DEAFNESS AND HEAD NOISES

TELLS SAFE, SIMPLE WAY TO TREAT AND RELIEVE AT HOME.

If you have catarrh, catarrhal deafness or head noises caused by catarrh, or if phlegm drops in your throat and has caused catarrh of the stomach or bowels you will be glad to know that these distressing symptoms may be entirely overcome in many instances by the following treatment which you can easily prepare in your own home at little cost. Secure from your druggist 1 ounce of Parmint (Double Strength). Take this home and add to it ¼ pint of hot water and a little granulated sugar; stir until dissolved. Take one tablespoonful four times a day. An improvement is sometimes noted after the first day's treatment. Breathing should become easy, while the distressing head noises, headaches, dullness, cloudy thinking, etc., should gradually disappear under the tonic action of the treatment. Loss of smell, taste, defective hearing and mucus dropping in the back of the throat are other symptoms which suggest the presence of catarrh and which may often be overcome by this efficacious treatment. It is said that nearly ninety per cent. of all ear troubles are caused by catarrh and there must, therefore, be many people whose hearing may be restored by this simple, harmless, home treatment.

A BOY BEGGAR EARNS $20 DAY.

Thirteen-Year-Old Clever Mendicant.

OTTAWA, Feb. 26.—A 13-year-old boy, now in care of the Children's Aid Society, has been named "Ottawa's cleverest beggar," in recognition of his extraordinary skill as a mendicant. It was not unusual for this youthful beggar to make $20 a day, and recently $10 was found on his person at noon, the result of the slackest half of a beggar's day.

Investigation into the lad's circumstances showed that he is one of a large family, all under age, the youngest being but two months old. His father had died nearly two years ago.

It has been planned to send the elder boy to school, and afterward to place him in healthy environment, and also to help the other members of the family.

CRITICISM AND REMINISCENCE

(PATERFAMILIAS)

PETER ROBINSON AND EMPIRE'S DAUGHTERS.

While in a reminiscent mood and calling to mind the splendid patriotic work during the war and since undertaken by that section of Peterborough's loyal womanhood banded together under the banner of the Daughters of the Empire, our cogitations centred for some time on the names chosen by Canada's hundreds of chapters, and their significance reflecting the order's loyal objects and aims. Some, of course, are more peculiarly fitting to such chapters than others as a title under which to operate, but I was especially struck by the appropriateness of the name selected by one local organization, I. O. D. E., that of "Peter Robinson," who may be said to have been the original founder of Peterborough County and subsequent town and city. A Britisher loyal to the core and having great faith in the future of Upper Canada, so much so that he was mainly instrumental in directing the tide of emigration to this district now known as Peterborough County, the name "Peter Robinson" Chapter—originally organized in support of and aid to descendants of those immigrants taken prisoner during the Great War in defence of Peterborough and Empire—does seem indeed synonymous with those principles of Canadian patriotism inculcated by the example of Hon. Peter Robinson and his co-workers.

And this leads to a brief retrospection of Peterborough's early history, in connection with which Mr. Peter Robinson engaged so prominently that Peterborough is named after him. In May, 1818, Adam Scott, with a small party of young men, came from Ontario Lake front across Rice Lake and up the Otonabee River to the spot known as Spaulding's Bay, where the George Street Wharf is now situated. The party split up into prospecting groups, but Scott and one or two companions remained here, and shortly settlers began to build their log huts around the mill which Scott built in 1820 at the foot of King Street on a creek flowing into the Otonabee River. In later years this mill was operated by Henry Denne. As late as 1825 "Peterborough town" was inhabitated by only Adam Scott himself and a small number of workmen in his mill, which ground grain for a few settlers in the future Monaghan, Douro and Smith Townships. At this time, what is now known as Peterborough County, and north of Rice Lake and the Trent River, could boast of but 500 settlers all told. The two first families to locate in Douro were Robert Reid and Thomas Alexander Stewart, later a life member of the Legislative Council of Upper Canada.

But while on a visit to England in 1825, the Hon. Peter Robinson organized a party of 415 families willing to accept grants of land and other necessary aid to settle in Upper Canada: and this immigration proved the foundation of the Town of Peterborough and the development of its surrounding country, the major portions of those immigrants settling in Douro, Smith, Otonabee, Asphodel and Belmont Townships.

Hon. Peter Robinson personally conducted this party of immigrants, sailing from Liverpool to New York, thence proceeding to Little York (now Toronto) by way of Niagara. From Little York the party sailed on a steamer to Cobourg, on Lake Ontario, and onward overland to Rice Lake and thence by boat over this body of water and up the Otonabee River to Scott's Plains, as what is now Peterborough City was then named.

Then, Mr. Robinson found a very energetic assistant in the settlement work at and around Peterborough in Captain Charles Rubidge, a name still well known to older residents. Captain Rubidge was the son of Robert and Margaret Rubidge and was born in St. George's, East London, England, April 20th, 1787. In 1796 he entered the Royal Navy and saw much service under Lord Nelson, of immartial fame, and Lord Cochrane, being when lieutenant publicly congratulated by the latter for gallantry in action. He served in the battles of Aboukir and Copenhagen, also at Basque Roads in 1809, where he sustained a severe wound in the right leg. In June, 1819, Catain Rubidge, then retired, emigrated with his wife and three children to Upper Canada, and subsequently proved an invaluable coadjutor of Peter Robinson in this city's early settlement. In 1831 this gallant Captain was appointed Immigrant Agent at Peterborough, and in that year located no less than 4,000 people from the Old Country in Peterborough County. From 1870 he held the registrarship of the County of Peterborough until his death in January, 1873. Captain Rubidge had three sons and three daughters. George W. Rubidge, son of his eldest boy, Charles, for some years conducted the leading tobacco and cigar business in Peterborough town, the same store as now run by A. W. Clydesdale, tobacconist, 382 George Street, east side, between Hunter and Simcoe Streets. Both G. W. Rubidge and his lady, now deceased, were staunch Anglicans.

As stated before, Peterborough is named after its founder, Hon. "Peter" Robinson, and the name also recalls that quaint old English cathedral city of Peterborough.

And so, we see the significance of the title "Peter Robinson" Chapter, I.O.D.E. It betokens patriotism, loyalty, tenacity, energy and initiative, all of which have been and are characteristics reflected in the work of this and other loyal and Dominion chapters of an Empire-famed order.

IMPORTANT INDUSTRY AT LAKEFIELD.

Situated on the Otonabee river, both sides, ten miles north of Peterborough, lies the thriving village of Lakefield, whose early history is linked up with the Strickland family, Colonel Samuel Strickland having settled on its site as far back as 1831. And to the business energy of Messrs. R. and G. Strickland was due in no small measure the laying of that foundation for growth and prosperity which made Lakefield village possible. Like Peterborough, Lakefield found its first corporation root in the lumber and associate industries, and in 1884 the large mill owned by the Messrs. Strickland, were cutting 75,000 feet of lumebr a day, besides lath and shingles; forty mill hands were then employed.

Of late years, however, with the retrocession of the timber limits, Lakefield has had to reach out for other lines of industry, of which its newest of any magnitude, and one, the importance of which as a valuable commuity asset, can hardly be over-rated, is that of the Canada Cement Company, Limited. This plant is now undergoing extensive re-construction to increase its capacity and improve facilities for manufacturing Portland cement; hence brief reference to the company's operations and plans may here be found of interest, especially to Lakefield readers.

A New Process.

The old Lakefield cement plant produced Portland cement by the "wet process" from marl. With the present day cost of coal this was not found to be profitable and it was decided to scrap the plant.

Shortly after this, suitable rock was found near the site of the plant, and plans were made to convert it into a dry process plant. To this end the majority of the excavation work was completed and a start made in pouring concrete in the foundations early in January this year, and work has been progressing steadily since then.

Plant of 9 Kilns.

It is expected that the plant will have six kilns in operation by the beginning of 1922, which will give a production of 2,200 barrels per day. On completion there will be nine kilns in operation producing 3,150 barrels per day.

The plant has been designed to use the minimum of man power, and the operating labour will be about 120 men. Local labour will be employed as far as possible, but it will be necessary to bring in a few men who are skilled in certain phases of cement operations.

24 Cars a Day.

In this country the cement business is more or less seasonal, large reserves are stocked during the winter months and mostly shipped in the summer. In order to maintain production during the slack period large stock houses are necessary, and the one being erected at Lakefield will hold 350,000 barrels of cement. The normal shipping capacity of the plant in the open season will be 4,000 barrels or 25 cars per day.

Increased Production.

It is anticipated that about one-fifth more cement will be used in Canada this year than during the last year and this amount can be supplied by existing factories. Then, a considerable export trade with the United States has developed during the last year and it is expected that this will increase. The export trade to Brazil is also gradually coming back to where it was in 1914 though the adverse state of the Brazilian exchange is against it at present.

No Price Reduction.

There is not likely to be a reduction in the price of cement during the present year. Since 1914 the wholesale price of cement has only increased 90 p.c., whereas the cost of labor used in the cement industry has increased 195 p.c. and all other articles used from 200 p.c. to 500 p.c. over the 1914 prices. Before any reduction can be made in the preesnt prices it will be necessary for commodity and labour prices to come down to the same level that cement is at present.

AN OLD, OLD WARNING.

There is really nothing new in the wide publicity given of late to the deplorable depletion of one of Canada's greatest asets—her forests—without thought of the morrow or any attempt at systematised conservation, to say nothing of reforestation. And now that our legislators have at last awakened to the expediency of instituting a policy of reforestation to replace that stupendous destruction of valuable timber—young and old—of which our forefathers, aye, and even the immediate past generation, have been guilty, it is to be hoped that the movement will be no mere flash in the pan of transient executive effort. Not only is reforestation needed, but also the continued "enforcement" of a commonsense application of axe and saw which will conserve and perpetuate Canada's timber. Why, the warning went forth years and years ago that Canadians were criminally wasteful of their heritage and that legislators should take vigorous action to check such waste and enforce conservation. As far back as 1883 Mr. R. W. Phipps, in his report on forestry to the Ontario Government, said no destruction of timber was more ruthless, more injurious, more lasting in its effects, or more difficult of repair, than that to which, for the (then) past hundred years Canadians had cheered each other on. He told of a man who, to save a matter of ten or twenty dollars, let fire run through 50 acres of good hemlock bush, killing young trees, girdling the old and half ruining the soil for future agricultural purposes. He referred to another man burning great logs of black walnut, and to great heaps of clear pine near Toronto being given over to the flames. Mr. Phipps sounded his note of warning and proposed a careful system of forest culture, to which little heed, if any, was given.

But as far back as 1696 the attention of the French Government of Old Quebec Province was drawn to the wilful destruction of Canada's forests, and we read that they were called upon to check it. Nothing, however, was then done, and not very much since. "Easy come, easy go" was then the policy; and has, to a considerable extent, continued the policy up to very recent years at any rate.

The foregoing is cited in proof that the warning to conserve our forests was issued with clarion pronouncement throughout Ontario in 1883, and in Quebec, the Dominion's oldest Province, 225 years ago. Now that the warning seems to have been heeded in earnest throughout the length and breadth of this Dominion, let us pray that Governments may do their part in, by education and by law enforcement, systematically applying the principles of reforestation and conservation, that what forests are left may be perpetuated, and the growth of new timber assured.

SOME PRETTY VOCAL SELECTIONS

A good song is always a welcome addition to one's repertoire of Victrola Records. Here are several attractive Records, double-faced, selling at $1.00 for each—two selections. The names are: 18487, "Garden of My Dreams" and "Any Old Time At All"; 18502, "That Soothing Serenade" and "On the Level You're a Little Devil"; 18508, "Dreaming of Home Sweet Home" and "Rose of No Man's Land"; 18517, "Mother Here's Your Boy" and "Watch, Hope and Wait, Little Girl". Just write Heintzman & Co., Limited, Victrola Parlors, George and Hunter Streets, Peterborough, and anything you choose will be sent you.

CALEDONIAN CLUB SUCCESSFUL DANCE

EXCELLENT DANCE PROGRAMME AND REFRESHMENTS.

A large number of Scots people participated in the Dance last evening in the G.W.V.A. Hall, under the auspices of the Caledonian Club, to the excellent music provided by Mrs. Hyde at the piano and Mr. Pickles at a concertino that brought back memories of the homeland, when the old favorites were played to the "Quadrilles" and the everlasting favorite—"The Eightsome Reel. The latest music was played to the up-to-date dances—Waltz (Canadian Style) and One-Step which was responded with an encore. The Executive Committee had exquisite little programmes printed for the occasion—the work of the Examiner Job Department — that started with a Grand March Waltz, Pas-de-quarte, Quadrilles, Military Two-Step; One-Step; Waltz Veletta Eightsome reel, Le Militare, Fox-Trot, Highland Scottische, Waltz, Lancers, Waltz, Hesitation, Eightsome Reel, Boston Two-Step, Canadian Waltz, Quadrilles (Jig Time) asd Home Waltz.

At midnight dainty refreshments were served to the gathering by the Ladies Executive of the Auxiliary.

After the last dance, the company gathered together in the Scots fashion to sing "Auld Lang Syne" all declaring the dance a great success.

Mr. David Moir made a very efficient master of ceremonies for all the dances.

NO FREIGHT CARS TO CARRY FOOD.

Adds to Distress in the Near East.

LONDON, Feb. 28 (Associated Press).—Lack of locomotives and freight cars to transport food and other supplies is one of the worst features of the distressing situation which prevails in Eastern and Southern Europe, says M. Hotovec, the Czecho-Slovak Minister for Foreign Trade, who has been visiting in London.

The Minister said that there were tens of thousands of freight cars in those parts of Europe which were in need of repairs, but could not be restored to use because of lack of necessary material and technical experts to do the work.

He asserted that the Peace Treaty had laid down the proposition that the Reparations Commission would distribute all railway rolling stock and locomotives which had belonged to Austria-Hungary and those which were surrendered by Germany, but that virtually nothing had been done in this direction, although more than three years had elapsed since the Treaty. M. Hotovec declared that this was the cause of non-development of trade and the consequent food prices in Central Europe.

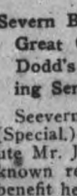
Czecho-Slovakia, he said, had been supplying coal and sugar to Austria conveyed in her own railway cars. They had, however, never been returned. There were at present 8,000 such cars in Austria which Czecho-Slovakia could not get back. There were also about 1,000 each in Jugo-Slavia and Roumania. Czecho-Slovakia had purchased 100,000 tons of grain and flour in Roumania and Jugo-Slavia, but was unable to obtain delivery.

SWELLINGS

come down, just as soreness and lameness come out, when "ABSORBINE JR." is rubbed in.

Enlarged glands, varicose veins, veins, cysts, soft bunches, boils, and other inflammations quickly reduced or healed by

Absorbine Jr.
THE ANTISEPTIC LINIMENT



When an accident happens, you want help quick! A bottle of "ABSORBINE JR." in the house is the best emergency treatment for cuts, burns, bruises, sprains, strains. It relieves the pain—reduces inflammation—prevents infection. Pleasant, no stain, no grease.

$1.25 a bottle—at most druggists' or sent postpaid by

W. F. YOUNG, Inc., 54 Lyman Building, Montreal.

QUITS AS UNION ORGANIZER.

Employing Printer Finds Wage Demands Too High.

BINGHAMPTON, N. Y., Feb. 26.—Fred F. Kennedy, for forty years prominently identified with the union labor movement here, has surrendered his commission as general organizer of the American Federation of Labor and announced that his printing establishment is to be conducted on a mutual benefit plan.

His severance of the ties of years is in connection with the demand of Binghampton printers for higher wages which, he declares, will mean that his company, the Kennedy-Morris Corporation, must either go bankrupt or drop out of the union.

HE SUFFERED FOR A YEAR WITH HIS BACK

NOW JOHN BOWERS SINGS THE PRAISES OF DODD'S KIDNEY PILLS.

Severn Bridge Man Looks on the Great Canadian Kidney Remedy, Dodd's Kidney Pills, as a Blessing Sent From Above.

Seevern Bridge, Ont., Feb. 25th.—(Special.)—Sincere indeed is the tribute Mr. John J. W. Bowers, a well-known resident here, pays to the benefit he has received from the use of Dodd's Kidney Pills.

'I had been suffering for a year with a bad back," Mr. Bowers staes. "Sometimes I could not work with the pain. Six boxes of Dodd's Kidney Pills took the pain all out and I feel like a new man.

"I highly recommend Dodd's Kidney Pills to everyone suffering with pain in the back and I say that the pills are a blessing from God sent into the world."

One of the earliest symptoms of kidney trouble is pain in the back. It in itself is the cause of a great deal of suffering. But kidney trouble, unless given prompt attention, frequently develops into much more serious form such as urinary troubles, rheumatism, dropsy, lumbago, diabetes and heart disease.

To be assured of good health the kidneys must be kept in good working order all the time. At the first sign of trouble use Dodd's Kidney Pills.

Ask your neighbors if Dodd's Kidney Pills are not the best remedy for sick kidneys.

A WOMAN'S CLUB IN NEW YORK.

NEW YORK, Feb. 26 (Canadian Press).—A Canadian Business and Professional Women's Club has been launched in New York by a number of women from the Dominion who are engaged in business in this city. The object is to provide a medium of social intercourse for Canadian women resident here and to provide a means for assisting those who may be temporarily in need of help. At a recent meeting the organisation was formally launched and officers were elected.

A Sure Relief for Women's Disorders—10 Days Treatment Free

Orange Lily is a certain relief for all disorders of women. It is applied locally and is absorbed into the suffering tissue. The dead waste matter in the congested region is expelled, giving immediate mental and physical relief; the blood vessels and nerves are toned and strengthened; and the circulation is rendered to normal. As this treatment is based on strictly scientific principles and acts on the actual location of the disease, it cannot help but do good in all forms of female troubles, including delayed and painful menstruation, leucorhoea, falling of the womb, etc. Price $2.00 per box, which is sufficient for one month's treatment. A Free Trial Treatment, enough for ten days, worth 75c, will be sent Free to any suffering woman who will send me her address.

Enclose 3 stamps and address, MRS. LYDIA W. LADD, Windsor, Ontario.

SOLD BY LEADING DRUGGISTS EVERYWHERE.

Scientific Irrigation to Barren Business

Newspaper advertising is to business enterprise what irrigation is to barren lands. It is a vital necessity.

The land has in it the source of fruitfulness. The water alone is required to render it fertile.

Thereafter the thing is a matter of industry on the part of the planter.

Supply does not create demand; nor does demand create supply—in the first instance.

Both are created by Desire; the fruit of Suggestion.

The Daily Newspaper is the most effective channel to propagate the IDEA of Desire and the means of satisfying it.

The upkeep of Demand—the cultivation of a sensitive and responsive ground; or the REACTION of it—is another phase of the subject.

That is the province wherein modern advertising operates.

All the great merchants you ever heard of were, and are, bountiful users of Daily Newspaper Advertising. Eaton, Wanamaker, Marshall Field, Selfridge, Harrods, Hudson's Bay Company.

Isn't that your cue?

Issued by Canadian Daily Newspapers Association, Head Office, Toronto.

L.A. 7

NO SPECIAL PROVIDENCE PROTECTING CANADA.

New York Herald Says Dominion Peculiarly Placed Agriculturally.

(Canadian Press.)

NEW YORK.—Commenting on a report issued by the Canadian Bank of Commerce on trade conditions in Canada, the New York Herald, under the heading "Canada's Trade Wisdom," says:

"Canada being particularly placed as a producer of field crops to experience the full effect of the drop in prices of agricultural products, the question arises as to why the noises of disaster incident to deflation have been emanating from almost every other part of the globe except the Dominion. No special precedence protected Canada from the trials of depression experienced elsewhere. The answer, therefore, must be that Canadian farmers and Canadian business men have found the precious formula which mitigates the more severe pains of liquidation. Further, these farmers and business men, not only found the formula but acted upon it."

After quoting prices of a number of staple commodities which indicate that, while the Dominion has not escaped all hardships, there is little evidence of declining prosperity, the Herald continues.

"The real secret, the precious formula which Canada has used in easing her descent from the heights of inflation, has been the readiness of her producers and middlemen to slash prices, to sell the crops which had been grown and cultivated at high cost levels, whether the prevailing market prices meant a profit or a loss. Canadian wheat went to market continuously, and this kept in circulation money that otherwise would have been tied up in farm bank loans. The Canadian had his mind set on keeping liquid rather than on making a profit. The result was that he came off with not so much profit as he had anticipated but with more money to spend that he had ever had before.

"Naturally this made it easier for the great majority of urban business houses.

"The active buying and the liquidity of money precluded the necessity of drastic price cutting, and the descent from the higher to the lower plane of price was anything but violent. In fact the wholesale price decline in Canada during the year 1920 was only about 10 per cent. compared with a decline fully three times as high in the United States.

"The worst of the depression having passed it is likely that Canada will not be called upon to meet the extreme reduction in prices the United States must face, but as Canadian prices drift lower they will accost our prices on the reaction upward with the resumption of more active business."

Throughout the world there are 88 days, exclusive of Sunday, listed as holidays for the present year.

For the first time in history, regular full-size hydroplanes are being sold in a department store in New York City.

ARMENIANS HOLDING BORCHALU TERRITORY

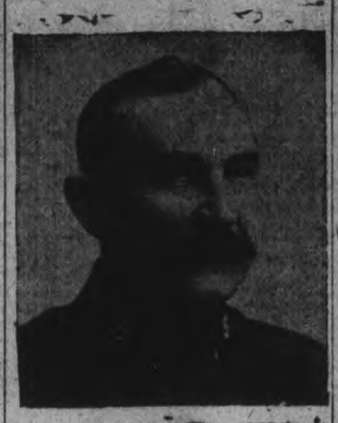
LULL IN THE FIGHTING BETWEEN THEM AND GEORGIANS.

LONDON, Feb. 26 (Canadian Press).—Fighting between Georgian and Armenian troops in the Borchalu district, between the two republics, appears to have terminated for the time being, says a Constantinople despatch to the London Times.

The Armenians are holding the Borchalu territory, the title to which was contested by the two nations.

The Russian Bolshevik attacks on Tiflis, the Georgian capital, seem to have been checked, the despatch also states.

M. Tchitcherin, Soviet Foreign Minister, is reported to have offered his friendly offices with a view to arranging a settlement between Armenia and Georgia.



COL. GIDEON MILLER
Toronto Officer who will conduct the week end services at the Salvation Army Temple.

EDUCATION

(JEANNETTE)

"THE UNIVERSITY IN OVERALLS."

By Alfred Fitzpatrick — Hunter Rose & Co., Ltd., Toronto.

This is a plea for increased efforts toward extending higher education to that vast majority of the manual workers of the Dominion who have been denied the advantages of a university training, in fact, as in the case of so many, have never received anything more than the merely elementary courses and is an exposition of the idea of the Frontier College.

An Erroneous Idea.

The author says: "Let us give up the old idea that a university consists only of "highbrows", students, and buildings protected by the flaming word of a dread and mighty registrar. Rather let us see clearly that teachers and students alone make a union, no matter where housed."

The Motto.

"Take the college to the man", is the motto of this organization, and the working idea is to send men who have passed through the universities into camps and factories out into the bush even, to mingle with, and take part in the work of, those men who toil with their hands, and in so doing, to encourage and direct them, and arouse their latent ambition to an interest in the Frontier College methods. Women too may do this pioneer work in the shirt factories, the cotton mills, and the crowded offices, where women are herded together, that is, to bridge the gap between the schools and the universities on the one hand, and the camps, mills and works on the other.

Experimental Stages Passed

During the 20 years of its experimental work, 100,000 men have had the privilege of a night school and the healthy incentive of a resident instructor, many foreigners have learned the English language, and 180,000 men have had a chance, from access to good literature, to live in decency, and to keep in touch with the outside world.

This is a form of educational missionary work which should appeal strongly to the minds of those who see in the great mass of its almost unlettered people a stumbling-block to a nation's progress, and who feel that the advantages of further education should not be denied to that class which contains so many brilliant but untutored minds—the the horny-handed toilers of the world.

GOLD VEIN IS FOUND HEART OF DENVER.

Prospectors Record Claim Running Under City Hall.

DENVER, Feb. 26.—Peter Noona and Wm. Wickersham to-day recorded a gold claim in the heart of the city of Denver. In the ground beneath the territory containing the City Hall, the Union Station and a great part of the business district the men allege they have struck a rich find of gold.

The two men, who looked like typical old time prospectors, appeared at a window of the recorder's office and dumped the contents of two canvas sacks on the counter.

"We dug these out of lots in the heart of Denver," they explained, "and claim the ore bodies from which they came by right of discovery. We want the ore and our claims recorded."

Later they presented the proper paper.

If a woman is heartless it is the fault of some man.

Where to Worship

GEORGE ST. METHODIST CHURCH

Rev. W. HAROLD YOUNG, M.A., B.D., PASTOR

11 a.m. **THE PASTOR.**

ST. PETER'S CATHEDRAL.
There will be three masses celebrated. Low masses at 8 a.m. and 9.15 a.m; High Mass at 10:30 a.m. At 7 p.m., Vespers and sermon.

COMMENCEMENT AT COLLEGIATE

(Continued from Page 1.)

M. Wallace, B.A. Both teachers reviewed the successful athletic year of the school and activities now under way. They also emphasized the important part athletics should and do play in school life, and the impression athletics make on the students' after life. The prize winners for 1920 were:

Staff Cup—Alex. Elliott.

Senior Championship Medal — Alex. Elliott.

The Hugh S. Macdonald Cup — Grant Miller.

Junior Championship Medal — Grant Miller.

Winners of First Place in One or More Events— Elwood McBrien, Fred Green, Gregg Roberts, Howard Cole, Alfred Johnston, Ernest Legon, Eric Finlay, Jack Pulkinghorn, Joseph Nasimok, Garnet Stephens, Benjamin Sims, Boyd Craw, Raymond Derrick, Howard Bleecker, Fred Ash, and Daisy Davidson, Edna Forster, Sheila Thomson, Doris Clegg, Doris Cowan, Audrey Milburn, Isabel Nelson, Lenore Wolstenholme, Mary Long, Mary Donoghue.

Inaugurates New Prize.

Miss Agnes Logan more than delighted her audience with a piano solo, after which Mr. H. R. H. Kenner, principal of the college, made the following announcement: Next year he would be pleased to give a prize to the best all-round pupil for the year 1920-21. He said he would have the staff and pupils assist him in the selection. Points would determine his selection. For scholarship he would allot 25 points out of 100; for proficiency in athletics 25, for character 25, and for leadership 25. In this way the winner would be the best all round pupil. "I have not decided how to select the best all-round pupil, but I think the staff and pupils can arrive at a satisfactory selection," Principal Kenner concluded.

Elwood McBrien Wins Prize.

The unexpected annoucement of this new prize created considerable flurry, for it had not been presaged in any way, but Mr. Kenner's further annoucement that he had selected this year's winner, came as a greater surprise to staff and pupils alike. After tantalizingly withholding the name a few moments, Mr. Kenner remarked the winner was a boy of which the school should be proud. "He has not the power of speech, or of hearing but in three years, despite those handicaps, he has passed both the Matriculation and Middle School Normal Entrande examinations. That boy is Elwood McBrien.

In presenting this year's prize to this outstanding student, Mr. Kenner said: "I congratulate and am proud of you ,and I think all the boys and girls are also."

Annual Report Bad Boys.

Mr. G. O. Cameron formed a part of the programme that would have been missed had it been omitted. He, as chief functionary, read the annual report of the A.O.B.B. which, decipiered, is, the "Ancient Order of Bad Boys." Mr. Cameron shows an elucid familiarity with the school boy, particularly high school trials and temptations, and suffice it to say that with a few more Mr. Camerons the public mind would be ready to accept the bad boys of this country as a unit in which to take pride and as a national institution like the Rockefeller foundation.

Miss Jean Elliot, winner of the Nicholls Scholarship for Honor Matriculation, now a student at Toronto University, read the valedictory adress on behalf of last year's graduates. Miss Elliott's valedictory was very favourably commented on last night. Well delivered, neither too long nor too brief, and light enough to be relishable, it embodied all the true and necessary embodiments of a valedictory.

The singing of the National Anthem closed the Commencement Exercises.

SHOOTING AFFRAY IN WINGHAM.

WINGHAM, Ont., Feb. 26 (Canadian Press).—Ex-Councillor William Patterson, jeweller, is in jail, and Albert Lutitt, butcher, is in the hospital with a bullet in the abdomen as a result of a shooting affair in Patterson's residence.

Welcome to all.

KHAN OF KHIVA IS A PRISONER.

He and His Staff Confined in Moscow.

COPENHAGEN, Feb. 26.—(Associated Press.) — The Khan of Khiva, his Prime Minister, members of his Military Staff and dignitaries of his Court, are imprisoned in Moscow, says a Danish business man, who recently arrived here after having been in a Moscow prison for about a month.

The Khanate of Khiva, of which the city of Khiva is the capital, is in Russia Turkestan, and formerly was an important kingdom of Asia. In 1873 it became virtually subject to Russia though for a time thereafter it maintained a certain amount of independence.

That the Soviet Government has been active in Turkestan has been indicated by recent wireless messages from Moscow, stating that a congress of young Bolshevists was recently held at Tashkent. Other Moscow despatches have told of meetings of some of the Mohammedan races of Central Asia, ostensibly for educational purposes.

MONUMENT to OTONABEE'S FALLEN SOLDIERS

The Committee in charge of the Erection of a Monument at Keene to Fallen Soldiers Born in Otonabee, or who Enlisted from the Township, and made the Supreme Sacrifice, are anxious that the List should be as Correct as possible. The Names to hand are as follow:

Anyone knowing of Names which should be added to the above, is respectfully requested to send such information at once to

JOHN LANG, KEENE, ONT.

MRS. GIDEON MILLER
Who with her husband, Col. Miller of Toronto, will preach the week end services at the Salvation Army Temple.

Clean Wholesome Milk

Why Pasteurization?

Why bother with all this additional expense and trouble?

Why is it necessary to buy all this expensive apparatus for Pasteurizing?

Why couldn't milk be produced a lot cheaper if Pasteurization was left out?

One big reason is: that Pasteurization protects. It makes unsafe milk **safe.**

If any disease producing germs are introduced in the handling of milk or from the cow, these are destroyed by Pasteurization.

Every city which has had Pasteurization in effect long enough to test the results, reports great improvements in their infant mortality.

There are many reasons for Pasteurization, and they are growing bigger each year. But the biggest of all is your babies' health.

J. E. SULLIVAN GAVE ADDRESS ON BUSINESS

TO THE EDUCATIONAL CLUB OF THE CHURCH OF THE SACRED HEART LAST NIGHT.

At the meeting of the Further Educational Club of the Sacred Heart Church held last evening, the chairman, Mr. Joseph Lazure, opened the meeting with a reference to the Adolescent Act, and remarked on the great advantages to be obtained by the organization of industrial technical schools.

A short but very interesting talk was given by Mr. John E. Sullivan, on "Business Economics." This rather dry subject was made interesting by the short, concise form of the address, and the manner in which the speaker, who has evidently made a close study of this important question, and has his information right at his finger tips, delivered his speech. He reviewed the causes of the present constricted financial situation from 1914, when that great struggle broke out, wrich left in its wake, along with many more serious evils, a disorganized condition of world business.

Pre-War and Present Values.

In 1914 the English pound was worth $4.86. To-day it is represented by $3.77. The mark, which was about 23 4-5 cents is now 1 2-3 cents; the lire, then 19 cents, is now about 3 1-2 cents; the franc worth 19 cents before the war, has deteriorated to 7 cents; the Austrian crown, which equalled 20 1-5 cents, is in the worst case of all, having fallen to about 1-5th of one cent; and the instance was quoted of a Swiss merchant who is using Austrian crowns for labels.

Financial Consequences of the War.

Reference was made to the unemployment situation of the British Isles, with a million men idle at the present time, to the loans due the United States by Great Britian, which amount to about four billions, and the loans due Great Britain of nearly eight billions. The speaker remarked that if Russia contrives to escape paying her great war debt —which she is trying to do—it will be the first time in the history of the world that such a thing has occurred. There is the amount of about $140,000,000 owing to Canada by England, which is supposed to be all wiped off by September next; and the $2,706,0000,000 owed by Canada to England, which has an annual interest burden of $125,000,000 alone.

Essentials for Business.

The budget of Canada, which is three times that of pre-war times, and national and individual extravagance was sketched, and the four essentials for business re-organization were characterized ac Capital, Capability, Courage and Character.

Paper on Art.

Miss Mamie L. McCarthy then read a paper on "Art," this being an exceptionally interesting and scholarly dissertation on that most fascinating subject, the art of painting, which, delivered by one who has had an extensive experience in the study and teaching of it, was therefore given from a professional standpoint. For sale

The art of the centuries, from the stiff, symbolical cult of the ancient Egyptians to the various impressionistic fads and fancies of the present day, was briefly reviewed, and that indispensable characteristic of the artist, the faculty of experiencing original sensation, was remarked on, that faculty which makes it so easy to detect the individual style of the masters, and to discover, almost at a glance, the handiwork of a Raphael, a Corot, a Rembrandt or a Watts.

Choice of Noble Subject.

The first characteristic of greatness in painting is choice of a noble subject, and in this choice, particularly in the case of sacred portrayals, the artistic creation to be of value, must be sincere. The second characteristic is that as much beauty as possible, so long as it is consistent with truth, be introduced into the work of the artist. In this respect schools of art become higher in exact proportion to the degree in which they apprehend and love the beautiful, and the decadence of the schools of high art, so far as this particular quality is concerned, consists in the sacrifice of truth to beauty. The next characteristic of great art is that it includes the largest possible quantity of truth in the most perfect possible harmony, and the last requirement is that it must be inventive, that is, produced by the imagination.

In conclusion, great art may be said to be simply the aggregation of all the powers of the human soul, involving, as it does, right moral choice, true love of beauty, proper grasp of truth, poetical or imaginative power and complete accuracy of memory.

Rev. Father Garvey expressed his appreciation of the two addresses delivered, and during the evening Miss Kate Masterson and Miss Minnie Allen renedered vocal solos, accompanied by Mr. J. Armstrong.

Too Fat?

Do not try to become slender by drastic doses of thyroid or salts. Reduce weight and waistline; also blackheads, skin, etc. by the safe, reliable Korein system. The shadow on this picture gives you an idea how she looked and felt. By taking Korein and following easy directions of Korein system she reduced from clumsy features to graceful proportions. Now she is agile, attractive, mentally alert and in better health. Why not you? Reliable anti-fat self-treatment.

Let Korein Make You Slender

Many, both sexes, report they have reduced 10 to 60 pounds. No starving; no exhausting exercises. *Become exquisitely slender and remain so.* Safe, pleasant method, endorsed by physicians. Legions of testimonials. $1000 GUARANTEE or money refund. Buy Korein (pronounced *koreen*) at busy druggists'. Or write for free booklet to Korein Company, 277-A, Toronto, Ont.

Voice Of The People

WOMEN TEACHERS' SALARIES.

To the Editor of Examiner:

Dear Sir,— A wrong impression seems to be abroad among the citizens of Peterborough, regarding the increase granted to the women teachers of the Public schools, by the Board of Education at their last meeting.

At that meeting the maximum salary was fixed at $1,500—the minimum salary of male assistant teachers.

However, no Normal trained teacher on the staff will receive this amount before Sept. 1924—three and one half years hence. None of these teachers are yet receiving $1,200, regardless of ability and years of experience, while inexperienced graduates from Normal schools are egtting salaries of $1,000 and upwards.

Having taught for the year 1920, at the present rate of salary, the teachers asked for an increase dating from Jan. 1, 1921. The fact that this increase was not granted has caused decided dissatisfaction among the women teachers.

The Board has been asked to reconsider the request at their meeting on Tusday evening, March first.

The Women Teachers of the Public Schools.

WHY CHURCH LOST ITS GRIP RE SUNDAY CONCERTS.

Editor of The Examiner.

Sir,—It is with particular interest that I have read the different opinions on Sunday concerts. The ulterior motive seems to have been exploded, and in any case I must take the teaching of theosophy, and so look to the god that is in everything and eschew the evil. Therefore, seeing the ass in the ditch (the unemployed), even though it is the Sabbath, I would pull him out, and so relieve suffering and inconvenience.

The Ministerial Association is an asset, and a much-respected organisation, and does not claim infallibility and, gentlemen, if I may presume to say in any activities of mine, they are simply prompted by the same spirit which prompts you, "Christian ethics." Therefore, I would suggest that the feeding of the five thousand be a thought and a text for Sunday next: St. John, chap. 6, "Whence shall we buy bread that these may eat," for people cannot understand the teachings of Christ on an empty stomach. The Church should ask itself, why are there empty stomachs? There are millions of acres of God-given land, from which wealth is produced, idle, lying practically waste. The true basis of religion is an economic one.

Gentlemen of the Ministerial Association, I most respectfully submit to you that the Church must take a stand on the economic questions of to-day in order that poverty must be done away with as much as possible. The cry must be, like the one of two thousand years ago, against the greater sin—the economic sin. The sin against the flesh is apparent, and brings its own just retribution; but the economic sin of selfish tyranny can be "a whited sepulchre full of dead men's bones." The present situation is not solved by giving doles of charity, that may be amelioration, but not a solution. The solution lies in the hands of the Church; it is up to you to preach the gospel of a brotherhood; and condemning the sin of lust for wealth, the basis of all corruption, preach a more equitable distribution of wealth, that the stomach of the people may be filled, and these brothers and sisters of yours and mine may listen in contentment to the wonderful and ideal teachings that have brought such things to pass.—Yours in humility,

THOMAS TOOMS.

HISTORY OF CAST IRON

The pluck and perseverance of a Welsh shepherd boy in saving his master's sheep from a snowdrift was instrumental in revolutionizing one of the most important of British industries.

The cast-iron which to-day comes from the blast-furnaces may, from its useful quality and fusibility, be immediately used for manuacturing purposes by remelting it and pouring it into molds of any required shape, this, of course, being the business of the iron-founder.

The use of cast-iron is comparatively modern. Though it may be traced as having been used as early as the fifteenth century, the process of casting was beset with numerous mechanical difficulties, and it was not until 1700 or thereabouts ,that they were completely overcome.

This triumph was partly due to an intelligent mechanic named Abraham Darby, who brought some Dutch workmen to England and established a brass foundry at Bristol. It was here that he conceived the idea of substituting the cast-iron for brass. He prevailed upon his workmen to try the experiment, but their efforts did not meet with success.

At this time an incident took place which was destined to play an important part in the solution of the problem. A shepherd boy, named John Thomas, after saving his master's flock from a heavy snowdrift, swam across a river in order to fetch home a herd of mountain cattle.

He collected the cattle and drove them to the river. Finding that the ord had become a torrent, he crossed it astride an ox, and so brought the whole herd home in safety.

For this gallant act his master rewarded him by presenting him with four of the sheep he had saved. He sold their wool, and afterwards disposed of the sheep in order to obtain the money to set out for Bristol in search of fortune.

When in Bristol he requested his master to recommend him as an apprentice to a relative who happened to be one of Darby's partners at the Baptist mills. Accordingly, he went into the brass works until he could obtain more remunerative employment.

One day, as he was watching the Dutch workmen who were still endeavoring to cast iron, he remarked to Darby that he thought he saw how they had missed making the process a success.

After the workshop had closed for the night, he and his employer remained behind and conducted further experiments. Before morning they had succeeded in casting an iron pot. Darby was so delighted that he offered to take the boy into partnership and an agreement was entered into.

Though enticed to leave by an offer of double wages the boy stood by his master, and when Darby died

TOM MOORE
STAR IN GOLDWYN PICTURES

he showed his fidelity by materially assisting the latter's widow and children.

For more than one hundred years after the eventful night when young Thomas and his master made their successful experiment of producing an iron casting in a mold of fine sand, the same process was practiced and kept a secret at Coalbrookdale, where the keyholes were plugged and the doors were barred.—London Tit-Bits.

A QUIET LIFE IN THE SMALL TOWN?

Three Weddings and Two Runaways One Day.

Anyone who imagines that life in the small Ontario town is altogether calm and peaceful, had better read the following from The Flesherton Advance:

"Wednesday of last week afforded an unusual amount of excitement in town. There were three weddings, two runaways and one horse dropped dead on the street. A livery team upset a sleigh and ran away.

"Mr. John Hales had his horse hitched to an ice cream can at Cargoe's grocery, and becoming scared it jerked the can off its feet and ran a couple of blocks with the can flying wildly in the air from the halter strap. The swing of the can threw the horse off its balance and it fell heavily while going at a record gait and skated along the ground for some distance on its side. The animal's tongue was cut and no doubt if it could speak there would have been a long story of pains, aches and bruises over a wide area.

"In the afternoon a team belonging to Mr. Mark Wilson undertook to draw a load of wedding celebrators to the station to witness the departure of two bran new wedding parties. It is said there as 25 people in the large sleigh. It is thought he team could have managed these all right, only that each individual was loaded down with confetti. This was too much and one of the horses, a mare, dropped dead on the road. The animal was not accustomed to so much excitement—and confetti."

It is now laid down among the regulations of Britain's civil service not only that all female candidates shall be unmarried or widows, but that women already holding civil service appointments shall resign on marriage.

Bernard crepe de chine is the leading fabric at Palm Beach, gray and white are predominating, the gray crepe with ladder hand stitching being a favourite and the hand hemstitched tucks as well, whole some of the skirts are accordeon pleated, but more often they are made plain with long lines and now and again a tunic.

A Bad Case

Eczema All Over His Body—His Legs—His Arms Covered

John Clark of Brookville, N. B., crowds a story of great suffering into a few words.

"I was tormented beyond words. I could not sleep. You could not put a pin on my whole body. I tried several doctors. They said it was scrofula. Three dollar bottles of D. D. D. is all I used. I have not had a sore for five months."

Each week we are selecting a letter from some Canadian sufferer to show what can be done to itching, burning skin disease by the clear, purifying liquid wash, D. D. D.

Stop that itch today. You are not asked to use D. D. D. for weeks before you receive results. If you don't get relief from the very first bottle we hand your money back. $1.00 a bottle. Try D. D. D. Soap, too.

D.D.D.

BALL TEAMS OFF TO SUNNY SOUTH.

New York Teams Starting Out on Training Trips With Pennant Hopes.

NEW YORK, Feb. 23.—Recent announcements of the departure of ball players for the training camps in the South or of other intended departures in the near future bring forcibly to mind the fact that another season is near at hand and fans are beginning to speculate on the chances of their favorite tems. With harmony again ruling in baseabll circles nothing but bright days loom up in the offing, and this condition of affairs makes the diamond enthusiast all the more keen for the playing season to get under way.

Among New Yorkers on both sides of the various bridges optimism of the brightest hue prevails. Followers of the Giants cannot figure how the McGraw machine can be beaten out in the next pennant hunt, and Brooklyn fans believe that the team which ruled the National League at the close of the 1920 race is still the best of the circuit. Those enthusiasts who trail with the Yankees are satisfied that the long awaited pennant will be theirs when the curtain is rung down next October. Some of these optimists must be disappointed. It is barely possible that all the New York fans will have their hopes crushed, but Spring optimism is a wonderful thing.

That the Giants will enter the campaign stronger than they were a year ago at the start of the training season goes without saying. Bancroft was not with the team until the season was well under way and now he is one of the more important cogs of the machine. Frisch is not likely to be forced out again for a period of two months, and the team with Frisch and Bancroft on daily duty is much stronger than were the Giants of last Spring. Other departments being as strong as before, the ensemble appears to better advantage.

Brooklyn fans base hope on that veteran pitching staff, which is as good as it was a year ago. The trade of Marquard for Ruether is the only change that has been made, and that hardly weakened the pitching force. Despite the fact that no National League club has been able to repeat as a pennant winner since the Giants of 1912-13, the belief is strong on the other side of the East River that the Robins can, and will, repeat.

The optimism of those who follow the Yankees is grounded on changes which have been made during the Winter. The Yanks of last year finished about three games behind the champion Indians. Huggins has added speed through the acquisition of Roth, Schang and McNally. The hitting strength has been increased by the addition of Schang and Roth as regulars, and it is probable that Baker will be back. Hoyt and Harper are expected to improve the pitching staff. There seems real reason for hope that the team will do better than in 1920. If so the optimism of the Yankee followers may be justified and the dream of New Yorkers—a world's series at the Polo Grounds—may serve as a fitting wind-up of the season.

VOTE AGAINST SUNDAY PLAYS.

LONDON, (Associated Press)—British actors and actresses have no desire to emulate their fellow players in America by giving Sunday theatrical performances. A proposal to open London theaters on Sundays has just been voted down by an overwhelming majority at a meeting organized by the British Drama League. Most of those who voted were members of the theatrical profession.

The suggestion that plays be given on Sunday was made by Arthur Bouchier, an actor, and Father Adderley, a popular Socialist divine.

Mr. Bouchier said that only such plays should be produced on Sundays as did not occupy the usual weekly bill and that acting on Sundays should be optional. Any attempt at coercion, he declared, should be made illegal.

Father Adderley urged that it was a question of commonsense not of religion, that the fourth commandment had long ceased to be God's law. He believed that Sunday should be a day of recreation, and that 'if there is one thing that really does recreate it is seeing a play."

George Bernard Shaw quickly had the house roaring with laughter. He began by supporting the proposal with extraordinary enthusiasm, in his capacity of playwright who wanted to make money out of his plays, and ended by condemning it with even greater fervor as a "friend of the actor."

"If you give up your present Sunday holiday under the impression that Sunday will be any different from other days in the theater, or that you will be getting any more money for seven day's work than for six, then I shall continue to hold the same opinion of your political intelligenc, as members of the British public, as I have held in the past."

O'ROURKE DEFENDS BACKHAND PUNCH.

Tom O'Rourke, the veteran manager of boxers, rises to defend the backhand blow. Just why O'Rourke is so interested in this matter is not quite clear unless it is that some one of his battlers has come in for criticism for using this wallop. In any case, what he has to say on the subject is interesting. He writes:

"There are a few men who are trying to insinuate that the backhand blow delivered without a pivot is a foul blow. How any man who knows anything of the art of boxing should hold such an idea I cannot conceive.

"Any professor of boxing who teaches the art will instruct his pupil when he hooks with either hand and misses to bring his glove back again in a chop. It is not a knockout punch, although men have been known to be knocked out with it, but it seldom fails to jar an opponent so badly that he leaves himself open for a more decisive wallop.

"You will not find the ordinary fighter of to-day using the punch, although there are a few of the smartest who realize its value. In the old days Jim Corbett, Jim Hall, Kid McCoy, Bob Fitzsimmons, Tommy Ryan, Joe Walcott, Abe Attell, Jem Driscoll and all our English and Australian cousins were adepts in its delivery.

"Often they would deliberately miss with a hook, and then before their opponent had had time to get over his self-congratulation they would whip the fist back to the jaw. It is a most disconcerting wallop, and in the old days often was the means of making an opening for the winning punch."

As O'Rourke says, there is nothing in the rules, that makes a backmard chop foul, provided it is delivered with the knuckles of the glove. Yet fight fans evidently have an idea that there is something wrong about it, for they invariably hiss its use.

Of the present set of bovers Soldier Bartfield uses this blow more often than any of the others, but he never does a great deal of damage with it. A negro known as Smoke Jones, who boxed during the early days of the Frawley law, depended almost altogether on a backhand wallop with his left. He swung his long thick, powerful arm like a hammer and he sent many an opponent to sleep with the wallop.

"HOW MY POOR BACK DOES ACHE!"

Many a woman keeps Sloan's handy for this, but it's great for other pains, too.

THAT dragging, wearing backache, that so many women regularly suffer from, is quickly eased by a little Sloan's Liniment.

But it is good for all the family. Apply it, without rubbing, for all kinds of aches, and pains, from the sharp neuralgic twinge to the dull, tearing ache of rheumatism.

Then there's sciatica, lumbago, sore muscles, stiff joints. Keep a bottle handy, for you never'll know when you will need it.

Largest size is the most economical. At all druggists—35c., 70c., $1.40. Made in Canada.

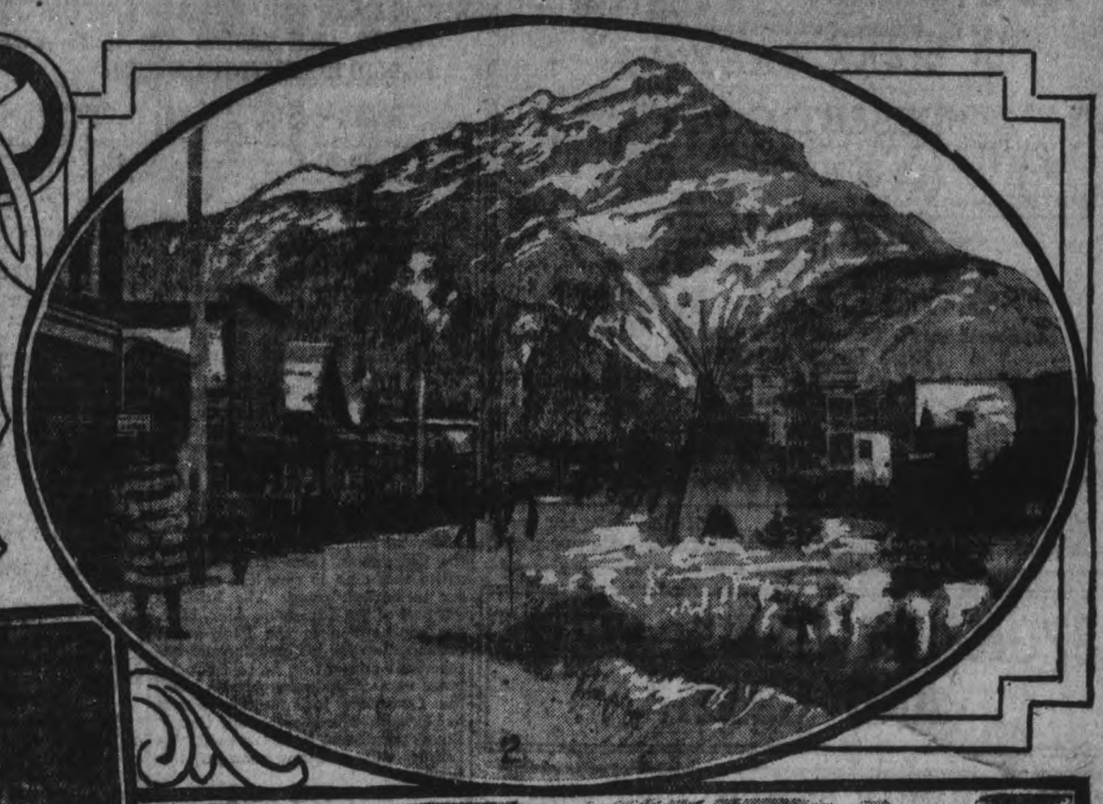
Winter Carnival At Beautiful Banff



(1) Preparing for the ski races. (2) An interesting street scene, showing the Indian teepees. (3) Dog sleighing. (4) The ski slide. (5) Cow punchers packing contest. (6) Indian Pow-wow. (7) The Tug of War. (8) Typical Indian Women. (9) The famous ice palace and carnival officials. (10) Winner of the dog sleigh race. (11) Indian teepees arranged down the main street at Banff. (12) Fancy skating. (13) Stoney Indian Chiefs pose for pictures. (14) Building tent competition. (15) The ski race.

Banff has long been famed as a summer resort for tourists. During the last few years this town, in the midst of the Canadian Pacific Rockies, has attracted many visitors in the winter months. Five years ago a winter sports carnival was inaugurated, and a carnival has been held every winter since. Each carnival has surpassed the one previous to it. The 1921 carnival is now over; it was the best yet held. The weather was splendid during the several days the event occupied. At night the weather was below zero, tightening up the ice for the sportsmen and sportswomen. During the daytime the weather was above zero. There is no more beautiful scenery in the world than that around Banff. It is as wonderful in winter as in summer. The village was en fete, the streets profusely decorated with flags and bunting. Indian teepees were pitched the length of the boulevard on Banff avenue, and several families of Indians from the Morley Reserve occupied the tents during the day. The ice palace constructed of many hundred tons of clear-as-crystal ice was the most imposing ever attempted, and at night it was ablaze with myriads of colored electric lights. The toboggan slide ran under one of the wings of the palace adding greatly to the effect and pleasure of that sport.

There were hundreds of visitors from all parts of Canada and the United States at the carnival. The hotel registers bore the names of several from England, Australia, and Holland. All expressed delight at the sports. The programme was made up of curling, skating, ski-ing, snowshoeing, tobogganing, ski-joring, sleighing, trap shooting, dancing, and many side sports. Hockey matches with lady and gentlemen teams were very popular. The ladies took a very important place in the programme. On the streets and in the hotels one saw the latest in ladies' costumes, with the catch of the northern trappers cunningly wrought into priceless fur coats, and wraps, mingling with girls attired in sporting costumes, consisting of knee breeches, woollen stocking, and mocassins, and rubbing shoulders with squaws from the Morley Indian Reserve with rainbow blankets wrapped about their persons.

While Banff is essentially cosmopolitan at all times, during the winter carnival everyone vies with his or her neighbors in wearing carnival dress. The club colors of the Banff Winter Sports Association are purple and white, and these colors predominated. But the whole carnival displayed a riot of many different colors.

The thousands who attended Banff Carnival this year thoroughly enjoyed themselves. They left, hoping that they would be able to attend again next year. Of Banff a poet might say:

Divers are the dresses
Of her summer bowers,
Golden are her tresses
Through the autumn hours.

But when she's appearing
In a garb of white
She is as endearing,
Knows as sweet delight.

Then from distant places
Swains and lasses go
And with ruddy faces
Hail the frost and snow.

Ski-ing, sleighing, skating
Merrily they go,
When dear Banff is mating
With the frost and snow.

TOUR CANADIAN CURLERS REVIEWED; INTEREST IN THE GAME IN OLD LAND

MILDER WINTERS OF LATE HAD INTERRUPTED CURLING AND THE CANADIANS WERE TOLD THAT MORE ARTIFICIAL RINKS WOULD BE BUILT—ONLY TWO IN USE THIS SEASON.

"The visit of the Canadian curlers to the Old Country will have an incalculable effect on the future of the game," said Mr. R. Hicks last night. "There are two curling rinks, both of them with artificial ice, one in Edinburgh and the other in Manchester. There is another in Glasgow, but it was requisitioned by the Government during the war, and has not yet been vacated and turned back to the curlers. From what I learned the winters have been changing during the last few years, and have been so mild that outdoor curling on natural ice has been impossible. Many of the old clubs have been unable to continue the game, with the result that the interest in it was on the decline. The visit of the Canadians brought the old curlers out in large numbers, and with such a renewal of the desire to play the game that were were frequently told additional artificial ice rinks would be built. Apparently our visit was most timely. The fact that Scotland won the Strathcona Cup, taking three of the five test games, was a great encouragement to the Scottish curlers. All the games were close; in fact, they were brilliantly played, and keenly contested. The Caledonians are expected to tour Canada in the winter of 1923 two years hence, and they will bring the pick of the curlers."

Mr. Hicks said that his trip had been one long round of curling. He played in 34 of 36 games, and was so occupied with the matches that he found little time to tour the country as he had wished. He met a number of Peterborough men, including Jack Costain, formerly of the local club. The hospitality of the people of the Old Land was wonderful, and the experience was a privilege, Mr. Hicks said, that few visitors receive.

RICKARD DENIES OUTDOOR ARENA.

Promoter Says Location is Still Undecided.

NEW YORK, Feb. 22.—"I don't know anything about the matter. I have not discussed leases of Brooklyn property, nor have I arranged for any. In fact, I have been so busy with other things that I have not even looked at a piece of property, let alone paid for any. If I had been contracting for a lease of a site, you can rest assured that my negotiations would not have become public until I was ready to disclose my plans, or gave permission for their divulgence. Right now I haven't any positive idea where I will build my arena. I have a preference in the matter, naturally, but whether I can get the site I want, I don't know. I don't know where the Brooklyn reports came from, but you can be assured there is no truth in them."

Tex Rickard, Madison Square Garden promoter, who is scheduled to conduct the world's heavyweight championship bout between Jack Dempsey and Georges Carpentier, denied, in the above words, the reports that he had completed negotiations for a site in Brooklyn on which to erect the open-air arena he plans to operate. According to the reports, Rickard had completed his arrangements for leasing the Brooklyn property, and was engaged in plans for his arena with a contemplated capacity of 50,000. The Garden promoter declared that he had been flooded with real estate literature from the time he first announced that he was planning to erect an outdoor arena in the metropolitan district, and added that he had not yet made a selection.

Rickard declared there were no new developments in the Dempsey-Carpentier matter. He is awaiting the return of William A. Brady, who, with Charles B. Cochran, London promoter, was associated with Rickard in the original plans for promoting the title bout. Brady is expected back in this city early next week, when, it is also expected, a letter of authority to act in his behalf will be received from Cochran by Brady. As soon as this endorsement is received Rickard and Brady will consult with Nathan Vidaver, attorney for the promoters, on the business of transferring the Brady - Cochran interests to Rickard.

DEFEATED GALT.

In the first round games yesterday afternoon Peterborough defeated the Galt Granites by eight shots. McDermid's rink was up six shots, with the score of 18 to 12, and Ray Best was two to the good, with 14 to 12.

Peterborough went into the semi-finals last night.

KANE SIGNS WITH GIANTS.

Second Baseman Purchased From Hartford Ready to Go South.

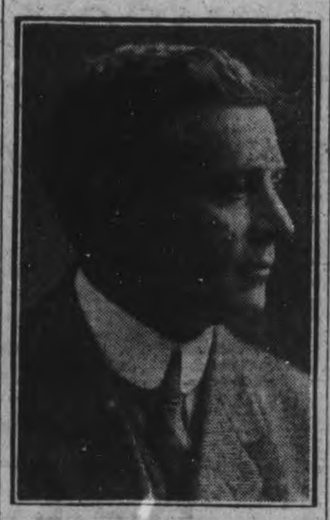
NEW YORK, Feb. 25.—The signed contract of Leo B. Kane, a secoad baseman, was received at the office of the Giants yesterday, along with word that the player was in readiness to make the trip to San Antonio for Spring training. Kane was purchased by the Giants from the Hartford Club, and is one of the five second basemen who will try out under the tutelage of Manager John McGraw. Kane bats and throws right-handed.

ATHLETICS BEGIN PRACTICE.

Connie Mack Says He Has Practically Same Team as Last Year.

PHILADELPHIA, Feb. 25.—The Philadelphia American League Baseball Club will enter the 1921 season with virtually the same team it carried last year, Manager Mack announced to-day in a dispatch from the Athletics' Spring training camp at Lake Charles, La. He added that he expected to develop another fast infielder and an additional outfielder, and that he was confident his aggregation would give a good account of itself this year.

Spring practice was started yesterday, the dispatch said. All the catchers and all but three of the pitchers—Perry, Moore and Wray—have reported and were in uniform. They are to be given only light workouts for the next few days. The main body of the team will leave here Friday for the Southern training quarters.



ROBERT HICKS

Chairman of the Utilities Commission who was the first of the Canadian Curlers to arrive home from their recent tour of England and Scotland.

NO REGISTRATION FORMS FOR FOOTBALL CLUB UNTIL MARCH 1ST

OFFICIAL NOTICE FROM ONTARIO SECRETARY—LOCAL TRANSFERS STARTED—VISIT AROUND THE CLUBS—REFEREES WANTED—TORONTO HAS FORTY-THREE CLUBS.

At the last two meetings of the Peterboorugh Football Association held recently the question of more Ontario registration forms was always brought to the notice of the local secretary, Mr. Fred Sutcliffe, by the representatives of the various clubs in the city. The only answer he could give was that he had sent a letter to Mr. Muir, the Ontario football secretary, and had not received a reply, but on Monday of this week he received a communication stating that no registration forms are issued before March 1st. There is sure to be a lively scramble for some players when the official documents arrive in the city, as the clubs will be out to pick up all the first-class players they can, and it is certain that many of the old players will be seen in new colors during the coming season.

Local Transfers Started.

Mr. Stewart McMillan, captain of the Caledonian team last year, has asked that club to give him a transfer to be left open. The brilliant left half of the Comrades, Alex. Morris, has applied to the Park street organiaztion for his transfer and has reeceived consent so as to to registered as a Caledonian player. Still the Comrades lose another player in Nicholls, who is slated for the De Laval team, and it is rumored that Leach will seek new puarters this season.

Around the Clubs.

The Great War Veterans held a meeting last Friday evening to consider the question of organizing this season. Nothing of importance was transacted except that some new faces will be seen in the team.

The Canadian Woollens held a special meeting last Wednesday to appoint new office-bearers for the season. It is stated that Mr. Jack Cridland will act as manager and Mr. Matt Shaw as captain of the team, and the representative of the club will be Jos. W. Worth to look after the interests of the club at the executive meetings.

At a special meeting of the Comrades' Football Club held on Thursday evening, new officials were appointed as follows: Hon. President, Rev. W. E. Morrow; Vice-President, Mr. J. Haw; Secretary, Mr. Jackson; Treasurer, Mr. George Moore; Captain, Mr. J. McDougall, Vice-Captain, Mr. J. Mallinson; Representative to Executive, Mr. J. Haw.

The Caledonians held an enthusiastic meeting on Wednesday evening in Woodmen of World hall. Officials were appointed: Mr. Peter McArthur, President; Mr. Harry Taylor Vice-President; Mr. J. Cummings, Secretary-Treasurer and Club representative. Mr. David Moir was the unanimous choice for the position of captain this season. Executive committee: Mr. T. F. McArthur, Mr. W. Hill and Mr. E. G. Hardie. The Caledonians have lost the services of some of last year's team in McCrone, now in Fernie, B.C.; J. McMillan and younger brother McMillan, who contemplated playing centre forward.

Nothing of interest for publication comes from the C.G.E., except that all the players are in the best of shape and are very anxious to get out and have a kick at the ball. The most of last seasons' players are available.

Referees Wanted.

All gentlemen who acted in the capacity of official referees last year or any old player desiring to act as a "knight of the whistle," are requested to get acquainted with the local secretary as soon as possible. They will be asked to attend a special meeting of the executive in G. W.V.A. rooms on March 7th so as to conform with the O.F.A. rules. The executive are going to be very stringent in upholding all the referees decisions.

Toronto Has 43 Clubs.

Toronto and district formed up four divisions this year: 1st division has 10 clubs; 2nd division 10 clubs; 3rd division 11 clubs; 4th division 12 clubs, a total of 43 organizations, making the Toronto Leagues the biggest organization in the Dominion. Oshawa is in the 3rd division. Brampton in the 2nd division.

Made Collegians Hustle to Win

Local Basketball Team Five Points Behind in Game at Kingston.

The Peterboro Y.M.C.A. basketball team lost to the Queen's five at Kingston last night, the score being 28 to 23. This gives the Collegeans a lead of five points for the return game here next week.

The locals play in Belleville tonight with a lead of sixteen points gained in the contest here last Saturday night.

Curling Team Is On Way Home

Sailed This Morning Bearing Many Mementoes of Trip

LONDON, Feb. 26.—(Canadian Press).—The Canadian curlers sailed for home this morning, bearing with them many mementoes of their triumphal tour of Great Britain.

AUSTRALIANS LEAD IN TEST CRICKET MATCH

MADE 392 TO ENGLAND'S 204 IN FIRST INNINGS YESTERDAY

SYDNEY, N.S.W., Feb. 26.—(Canadian Press).—The Australians made 392 in their first innings in the last Test match against the English team's 204. The English team had lost two wickets for 24 at the close of the day's play, and look to be in danger of a single innings defeat. The feature of the play to-day was the 170 of McCartney for Australia.

St. Peter's School Won, Score of 6-5

St. Peter's School hockey team added another game to their string of victories, when they journeyed to Lakefield last night and defeated the village team by the score of 6 to 5.

The packed house of leather-lunged rooters were afforded plenty of thrills, which kept the place in a continuous uproar. The play was fast and clean throughout, and they witnessed one of the best games ever seen at Lakefield in some time.

About eight motor loads of supporters from the city were present, and they agreed that the S. P. S. have a lively bunch of youngsters, who will bear watching in the future.

The line-ups were:

Lakefield—Goal, Hill; r. defence, J. Sabatino; l. defence, L. Sabatino; r. wing, Ridpath; l. wing, Erskine; centre, McIlmoyle; sub., Walton.

S. P. S.—Goal, Bergoine; r. defence, Holland; l. defence, Wolfe; r. wing, N. Collins; l. wing, L. Collins; centre, McPherson; subs., Henry and Buchannan.

Referee—Harry Thornton.

The strap sandal pump outnumbers all others at smart affairs at Nice.

H. V. ESMOND, famous English actor-playwright, coming to the Grand, Saturday, March 5th, with Eva Moore and entire London Company, in the farcial comedy, "Eliza Comes to Stay."

One of the most diverting comedies on the English stage, and one of the wittiest works from the pen of that clever actor-author, Mr. H. V. Esmond, will be presented here at the Grand Theatre on Saturday, matinee and evening, March 5th, when Mr. Esmond and his distinguished wife, Miss Eva Moore, are seen in "Eliza Comes to Stay."

This comedy, which was written some years ago by Mr. Esmond, is based upon the adventures of a girl, Eliza, who finds herself unexpectedly dumped into a family and a community of whom she knows little or nothing and with whom she finds herself entirely out of sympathy.

But Eliza, in addition to being slangy, witty, and irrepressible, is also affectionate and understanding and possessed of sound common sense, with the result that she makes the best of everything and eventually blossoms out fom chrysalic into a most fascinating butterfly, at the same time shedding a good deal of happiness around wherever she goes.

In this role, Miss Eva Moore, a commedienne of great natural gifts, has a part in which she revels and in which she scored in England one of the greatest successes of her notable career. Mr. Esmond is seen as Sandy, Eliza's lover, in which role he not only has opportunity to make love charmingly, but also to contribute very largely to the comedy, which is rich.

The play abounds in diverting situations, unexpectedly witty sayings, smart dialogue, and healthy, breezy, unfailing comedy of the most wholesome and irresistible type.

A New Trophy For Ball League

Mr. Ed. Wright Donates Cup For Jake Solomon's East Peteboro Organization.

Mr. Ed. Wright, whose interest in amateur sport is widely known, has offered a handsome trophy for competition in the East Peterborough Baseball League, if Jake Solomon gets his League under way again this year.

Mr. Solomon expects a stronger East Peterborough organisation during the coming season. Douro and Nassau are expected to enter teams, as well as Lakefield, Keene, and Norwood, while Campbellford and Hastings are applying for entrance into the League.

WOMAN—MAN'S INSPIRATION

SO THINKS POPULAR FILM PLAYER

Following along theline of the old adage that "The hand that rocks the cradle is the hand that rules the world," Anna Q. Nilsson, popular film actress who supports Eugene O'Brien in his latest Selznick picture, "The Figurehead," which is showing at the Empire Theatre on Monday, declares that "behind the success of every man there is the shadow of a woman." Miss Nilsson declares that woman, as the silent partner, has contributed more to the world's knowledge and civilisation than anyone else.

"I do not say that woman has done these things single-handed, but she has either been the inspiration or the creator of the ideal," qualifies Miss Nilsson. "When any great man has ever been asked who or what was, in his opinion, most responsible for his success, no answer is on record that it was his father or brother. It has always been 'my mother,' 'my sister,' or 'my wife.'

"One of the most successful men I ever knew recently confided to me that he dates the beginning of his success back to a certain day in childhood when a little freckle-faced, sunbonneted girl stamped her foot in anger, told him she hated him, and that he wouldn't ever amount to a 'hill of beans.' He told me he literally worked his head off for three years in order to get ahead so that he might dash back and humble that little girl with his greatness. His hard work brought him success, but at the end of the three years he found himself progressing so pleasingly that some of the gall turned to sugar, and when he did go back he must have humbled her plenty—she's his wife now."

WOMEN SEND MASH NOTES TO A DEEP-DYED VILLAIN

How true is the saying that the thing we run away from is often the thing that we run into. This was demonstrated recently to James Mason, the well known screen villain, who plays Red Pawl in the Goldwyn picture "Godless Men," directed by Reginald Barker, which comes to the Allen Theatre for two days commencing on Monday.

Now Mason has never been a ladies' man. He hugged himself in the thought that hearts are not flung at the feet of deep-dyed villains.

RUSSELL SIMPSON in "Godless Men" A Reginald Barker production GOLDWYN

But the psychology of beauty and the beast—that peculiar fascination of the ruthless man for the fair and lovely—was at work, and with Red Pawl it was soon to bear results. The storm broke recently when Mason's mail carried several tinted, scented envelopes. To his amazed eyes appeared written in a dainty feminine hand, "I know you cannot be the villain you appear in the play. It is an injustice to your manliness. I send you my sympathy." Mason groaned aloud as his eye ran over other references to his "adorable, wicked eyes," and his "fascinating, cruel mouth."

It took the argument of director and the entire cast to convince him of being a perfectly good villain, which was probably the reason for his charm.

Peterboro Plays Orillia In Final

TORONTO, Feb. 26.(Canadian Press).—The Orillia and Peterboro rinks play off to-day in the final game for the District Cup The best game last night was between Peterboro and High Park of Toronto, Peterboro winning by 33 to 24.

PLAY RACQUETS WITH BALLS A CENTURY OLD.

Only New Feature is That They Are Re-covered in Leather.

NEW YORK.—Incredible though it may sound, some of the balls used in the recent national racquets championship at the Racquet and Tennis Club are more than a century old. The club claims to have proof of it. Long before the Racquet and Tennis Club acquired them decades ago the tiny balls were used by some of the greatest professional and amateur champions of England. Constant use renders racquets balls harder and more resilient, and the old balls, therefore, have been treasured far above their intrinsic value.

The only new thing about the balls that have been preserved from decade to decade is the leather covering, which has to be changed constantly. Such is the destructive effect of the sharp rap of the ball against the slate walls that the leather casing is ripped open sometimes in a single rally. Accordingly, anywhere from fifty to seventy balls may be used for a match of ordinary length. At the rate of 10 cents a ball the cost of a single match, not figuring the wear and tear on the racquets, is from $5 to $7. After a contest the balls are gathered up, handed over to beginners to practise with and then shipped to England, where the art of covering racquets balls is better advanced than in this country.

Many of the balls have travelled back and forth across the Atlantic more often than the oldest ocean steamship in service.

SPORT IN BRITAIN

By HUGH DRYDEN
(Staff Correspondent Cross-Atlantic Newspaper Service.)

LONDON, Feb. 25.—"Sackcloth, but no ashes," read a mournfully witty newspaper placard in London when the disastrous result of the third cricket "test" match between England and Australia was flashed from the Antipodes. "Ashes" was an allusion to a previous test series which resulted more happily for England, whose victorious team was proudly said to have "brought home the ashes," of British cricket, sacrificed to Australian prowess on a still earlier occasion. Although the full five matches must be played out, Australia's three straight wins settled the business and deprived the remaining two games of almost all their interest.

Har luck doged the English players throughout, and not even the brilliant scores of such abtesmen as Hobbs, Russell and Hendren compensated for the repeated missed catches (attributed to the unfamiliar dazzle of Australian skies) which gave so much adavntage to the Australians. Also the British team, besides getting very hard luck by sickness and by losing the toss every time, was somewhat handicapped by a distinct "tail" of second-rate players. However, it is hoped that next Summer when the Australians come over to England for another "test" series, there may be another story to tell.

* * * *

The golfing world on this side is more than interested in the coming invasion of Britain by a small army of amateur and professional golfers from the United States—it it getting gravely alarmed. The advent of "Chick" Evans, Francis Ouimet, Bobby Jones, Davidson Herron, Max Marston, Reginald Lewis Nelson Whitney and other amateur cracks, and of half a dozen of the best professionals in America, is viewed as a menace to British golf. Scotch and English players will be challenged to a stiff fight in defense of the British amateur championship at Hoylake and the open championship at St. Andrews.

But those who are familiar with golf courses on both sides of the Atlantic view the prospect more calmly. Writing in the "Morning Post," a leading authority says: "This dual invasion—amateur and professional—is clearly intended to be a menace to British golf, but whether it is a serious menace is quite another matter. I do not think it is, therefore I cannot share in the forebodings. Most people leave out of their calculations one very vital point, namely that golf in America is quite different from that in this country. The vast majority of courses in the States are inland—fine tests of golf in their way in that they are severely bunkered and the holes of ideal lengths. But these attributes are not everything. To complete the list of essential conditions there must be wind—searching blasts that one usually encounters on the links along the seashore. This is one of nature's elements which the American golfer does not have to contend with to any serious extent.

"That terribly and persistent wind which blows forcibly over one's left shoulder and reduces the golfer with a touch of 'cut' in his shots to a state brodering on impotence, is almost unknown to the inland-bred American player. On their sheltered inland courses there is usually calm throughout the golfing season, and the wind factor—the use and avoidance of it—does not perplex him.

"There was a striking illustration of this at Deal last Summer in the open championship. Walter Hagen, the American champion, had played carefully and consistently until he reached the turn. On the homeward journey he discovered that he had to battle against a baffling wind that blew over his left shoulder. He had as much control of the ball as a child has over a toy baloon in a gale. Almost every shot went careering away to the right, deep in the bents and sand. Being a natural slicer with a slight drift from left to right and incapable of making a drastic alteration in tactics to meet a sudden emergency, his case was hopeless.

"With the exception of Barnes, who plays most shots with a little hook, I would be surprised if any other American golfer would fare better in similar circumstances. This is one of the chief reasons why I think we should not be too pessimistic about the coming American attack upon British golf. Apart altogether from the question of wind, there are other factors, perfectly obvious ones, which make the playing of the game at the seaside far different from and infinitely more difficult than that played on beautifully kept fairways which are rolled and cut daily to resemble billiard-table surfaces."

* * * *

Canadian football fans are promised a novelty in the shape of a team of women players from England. The famous football girls from Dick Kerr & Company's electrical plant are considering an invitation they have received to make an extensive tour in Canada. Whether it will be accepted or declined is not yet known, and, of course, depends on many circumstances. These feminine football players take the game very seriously, and are not afraid of the jolts and buffets inseparable from a strenuous tussle. The British sports girl is becoming a force to be reckoned with, as the American hockey team discovered when they visited England last Fall.

* * * *

The lawn tennis championship games to be fought out at Wimbledon next Summer will constitute a record in importance. The entries for the world titles this year will be more numerous, more surely representative of the best type of game in more countries, and more comprehensive of the most gifted exponents of lawn tennis than in any previous tournament. There will be assembled at Wimbledon the greatest players from England, United States, France, Spain, Japan, India, Australia, Greece, Sweden, Rumania, Russia and other countries.

The spectators will undoubtedly see, not merely some wonderful lawn tennis, but also extraordinary competition for the chief honors of the game. Indeed, it is safe to say that there never has been such strenuous rivalry in the singles and in the doubles of the men's events as will be witnessed this year.

JOHN TOBIN OF THE BROWNS LIVED DOWN BEING CALLED SECOND TY COBB BY SWATTING TWICE IN ONE FRAME

By ERNEST J. LANIGAN.

John Tobin of the Browns, one of the few athletes able to overcome the handicap of being called a second Ty Cobb (Fielder Allison Jones pronounced him another Peach before the season of 1916 started), was the one American Leaguer of 1920 to twice rip off hits in one inning, there being 15 of these individuals. None of them was able to set any records for the junior organization in his accomplishments along this line, and the year's output of two an inning stunts was not sensational, though it was prolific.

American Leaguers of the past have been known to kick in with a pair of doubles and a pair of long hits in one session, but both these feats were beyond the reach of the 1920 Johnsonites, though in many ways it was a record year for hitting.

Joe Jackson of Chicago and Kenneth Williams of St. Louis laid claim to the premier accomplishment for one round by inserting a single and a triple into said round. The Gleasonite did this in the fourth against Cleveland, on June 16, Caldwell and Faeth pitching; the Burksman in the second against New York, on July 15, Mafs and Thormahlen hurling.

Players who had a single and a double to show for an inning's work were Roth of Washington and Jacobson and Tobin of St. Louis.

Got Two Here.

The second Tyrus Raymond Cobb of 1916 made two hits for a total of three bases in the second spasm of the game with the Athletes on September 17 against the pitching of Naylor and Bigbee. On June 12 John, in the first round of the conflict with Boston, Samuel Pond Jones pitching, singled twice.

The other American Leaguers who got a pair of one spots in one inning last year were Weaver and John Collins of Chicago, Rice and Brower of Washington, Hannah and Shawkey of New York, and Perkins, Griffin, Rommel and C. Walker of Philadelphia.

Of players who had a pass and a bJow to show for two trips to the plate in one chapter, there were 11, Chicago represented by Eddie Collins; Cleveland by Tris Speaker; New York by Babe Ruth and Walter Pipp; Philadelphia by Charley High and Frank Welsh, and St. Louis by George Sisler, John Tobin, Joe Gedeon, Adrian Lynch and Hank Severoid. The Browns had probably more large scoring sessions than any of their rivals, and it was poor pitching, not poor batting, that kept them from fighting it out with the leaders.

Joe Judge of Washington and George Orme of Boston stood in a class by themselves in being able to get two passes from pitchers in one inning, but there were a dozen men who went from plate to plate twice before the third out was recorded. Five Yanks did this in the fifth against Washington, on July 6; three Athletics turned the trick in the seventh against Detroit, on August 11.

Distinguished Himself.

Young Mr. Hiller of the Red Sox distinguished himself at Detroit on September 17 by striking out twice in the seventh, Messrs. Bogert and Morrisette hanging the K. sign on him. He thus popularized himself with the Detroit scribes, for if he hadn't fanned twice the inning probably never would have been finished.

These American Leaguers did a day's work in one inning last season:

MADE TWO HITS IN ONE INNING.

Single and Triple.

June 26—Jackson, Chicago, in fourth, against Cleveland, Caldwell and Faeth pitching.

July 16—Williams, St. Louis, in second, against New York, Mays and Thormahlen pitching.

Single and Double.

May 29—Roth, Washington, in second, against Philadelphia, Perry pitching.

September 15—Jacobson, St. Louis, in third, against Boston, Kerr and Hoyt pitching.

September 17—Tobin, St. Louis, in second, against Philadelphia, Naylor and Bigbee pitching.

Two Singles.

May 12—Hannah and Shawkey, New York, in sixth, against Chicago, Williams and Lowdermilk pitching.

June 26—Weaver, Chicago, in fourth, against Cleveland, Caldwell and Faeth pitching.

June 12—Tobin, St. Louis, in first, against Boston, Jones pitching.

July 5—J. Collins, Chicago, in eighth, against Cleveland, Coveleskie pitching.

July 27—Rice, Washington, in second, against Cleveland, Caldwell and Uhle pitching.

August 11—Perkins, Griffin and Rommel, Philadelphia, in seventh, against Detroit, Dauss pitching.

September 17—C. Walker, Philadelphia, in sixth, against St. Louis, Lynch and Burwell, pitching.

October 2—Brower, Washington, in second, against Philadelphia, Slappey pitching.

Walked Twice in One Inning.

July 27—Judge, Washington, in second, against Cleveland, Caldwell and Uhle pitching.

September 17—Orme, Boston, in seventh, against Detroit, Bogert pitching.

Scored Twice in One Inning.

May 5—Gedeon, St. Louis, in fourth, against Detroit.

July 6—Vick, Pipp, Ruth, Bodie and Pratt, New York, in fifth, against Washington.

July 27—Judge, Washington, in second, against Cleveland.

August 11—Perkins, Griffin and Rommel, Philadelphia, in seventh, against Detroit.

September 15—Jacobson and Sisler, St. Louis, in third, against Boston.

Whiffed Twice in One Inning.

September 17—Hiller, Boston, in seventh, against Detroit, Bogert and Morrisette pitching.

KENTUCKY DERBY HEADS ALL STAKES FOR THIS SEASON.

Most Richly Endowed Race For Three-Year-Olds — Has Value of $55,000.

LOUISVILLE, Ky., Feb. 23.—The Kentucky derby, with a value of $50,000 in added money, is the most important of the twenty-six stakes to be decided at Churchill Downs, Lexington and Latonia in the course of sixty-one days of racing next Spring and Summer. The twenty-six stakes, six of which will be run at Lexington, eight at Churchill Downs, and twelve at Latonia, will yield $217,500 in added money. Their gross value, when subscriptions, forfeits and starting fees are counted in with the added money, will be close to $300,000. And this stake program will be supplemented by a program of overnight races of from $1,000 to $2,500 in value each that will bring the total distribution of money among the horsemen who may participate in the ten weeks of Blue Grass racing to between $800,000 and $900,000.

The Kentucky derby will be the most richly endowed race for three-year-olds that will be decided anywhere in the world in 1921 unless a couple of such three-year-olds as Sir Barton and Purchase were two seasons back develop a rivalry that may tempt the Kentucky Jockey Club or some other American or Canadian racing association to offer some such purse for a decisive meeting between them as was hung up last Fall by the Kenilworth Park Jockey Club for the race of October 12th between Man o' War and Sir Barton.

The Maryland Jockey Club has announced that the Preakness stakes will have a value of $40,000 in added money this year. The British derby will have a value of $32,500, the French Belmont will not pay more than $40,000 at the outside, and neither the Belmont nor the Lawrence Realization will have a greater value than $20,000. The Latonia championship should be worth about $35,000 to the winner.

Starting Fee $250.

The Kentucky derby should have a gross value of between $55,000 and $60,000. The subscription fee will be $25, and the derby is sure to attract every three-year-old in the country that showed the least promise last season. The starting fee will be $250, and it is reasonably certain that a dozen or more of the smartest of the three-year-olds that will be named for it will line up before the starter. The Kentucky derby will be the first of the great three-yer-old specials of American racing decided and, in early May, every trainer with a colt or a filly capable of galloping a mile in 1.40 or thereabouts will be disposed to bet $250 against $55,000 to $60,000. The distance of the derby this year, as it has been in the past, will be one mile and a quarter.

Among the other specials for three-year-olds that will be decided in the course of the Churchill Downs meeting—7th to 30th May—will be The Oaks, $10,000 added, one mile and a furlong, for fillies, and the Proctor Knott handicap, $5,000 added, one mile and a quarter, for colts, filies, and geldings. The two-year-old specials will be the Debutante, four furlongs, for fillies, and the Bashford Manor and Spring Trial, each at four and a half furlongs. These races will pay $5,000 each in added money. The Kentucky handicap, $10,000 added, one mile and a quarter, and the Clark Handicap, $7,500 added, one mile and a sixteenth, will be the Churchill Downs features for horses of mature years.

Lexington Meeting.

The Lexington Meeting — 23rd April to 1st May—will be marked by the running of the Hinata and Idle Hour Stakes, $3,000 races at four furlongs, for two-year-olds; the Ashland Oaks, $3,000 added, one mile, for three-year-old fillies; the Blue Grass Stakes, $3,000 added, one mile and a furlong, for three-year-olds of all sorts; and the Ben Ali and Camden handicaps, one mile and a quarter respectively, the former a $3,000 race, the latter a $5,000 gallop, for three-year-olds and over.

Latonia's outstanding features will be the Latonia Derby, $15,000 added, one mile and a half, and the Latonia Oaks, $10,000 added, one mile and a quarter, the former for colts, fillies, and geldings, the latter for fillies three years old; also the $15,000 Independence Handicap, one mile and a half, and the $10,000 Daniel Boone Handicap, one mile and three-sixteenths, for three-year-olds and over.

Lesser features will be the $5,000 Ten Broeck Handicap, one mile and a quarter, for three-year-olds; the $5,000 Enquirer, one mile and a sixteenth; the $5,000 Quickstep, six furlongs; and the $5,000 Inaugural, one mile and a sixteenth, for three-year-olds and over; and the $5,000 Clipsetta, five furlongs; the $5,000 Harold, five furlongs; and the $5,000 Cincinnati Trophy, six furlongs, for two-year-olds.

With these spring specials will be closed the Queen City, a $10,000 handicap at one mile, for two-year-olds, that will be run in the fall.

NOSE CLOGGED FROM A COLD OR CATARRH

Apply Cream in Nostrils To Open Up Air Passages.

Ah! What relief! Your clogged nostrils open right up, the air passages of your head are clear and you can breathe freely. No more hawking, snuffling, mucous discharge, headache, dryness—no struggling for breath at night, your cold or catarrh is gone.

Don't stay stuffed up. Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic cream in your nostrils, let it penetrate through every air passage of the head, soothe and heal the swoolen, inflamed mucous membrane, giving you instant relief. Ely's Cream Balm is just what every cold and catarrh sufferer has been seeking. It's just splendid.

DRY AGENT WARNS AGAINST HOOTCH.

Federal Supervisor Says It Contains Poisonous Fusel Oil and Color Matter.

NEW YORK, Feb. 26.—Virtually all intoxicating liquors now being handled by "bootleggers" are newly made from non-beverage alcohol, water and a little burnt sugar or prune juice, in the opinion of Samuel M. Sewell, Acting Federal Supervising Prohibition Agent. He said yesterday that the greatest problem with which the enforcement agents have to deal at hits time is the diversion of alcohol from legitimate industrial purposes.

Large quantities of the newly made stuff are being seized every day, Mr. Sewell said. The liquor is crude and contains the poisonous fusel oil. "A few drinks are sufficient to knock out the average person, in the opinion of Mr. Sewell. Formerly much of the fairly good whiskey was made from alcohol, Mr. Sewell said. The 190 proof alcohol was reduced to about 90 or 100 proof and then run through a charcoal process, which gave a neutral spirit. To every forty-five gallons of this five gallons of whiskey were added, making a fair whiskey. But now the alcohol is not put through this process and, with about 100 per cent. water and a little coloring, is put on the market.

Every effort is being made, according to Mr. Sewell, to check the supply of alcohol going to permit holders. The agents find that they have a difficult task, however, because of the large number of permit holders. It has been found that many barbers obtain large quantities of alcohol on the representation that they need it for the manufacture of their hair tonics and other preparations.

Mr. Sewell mentioned one hair dresser who last week obtained 100 barrels of alcohol on a permit. Agents have been searching the records as well as carrying on other investigations to determine what became of the alcohol. It was never in the man's place of business, which is a small room, and so far there is no indication of where it went.

BUNGALOW BURGLAR NOT LANDIS PUPIL.

Mercy, Good Advice and a Job Didn't Change Boy.

CHICAGO, Feb. 26.—"Jimmie," said Judge David of the Criminal Court to a seventeen-year-old "bungalow burglar" a week ago, "we are giving you a chance. You are paroled and you can accept the job one of the jurors offers you at $12 a week. Now, when you are getting $90 a month don't do what Francis Carey did down at Ottawa."

Carey, incidentally, is the bank clerk sent home by Judge Landis, whose leniency toward the young man has been sharply criticized.

James Wicks didn't copy Carey. He didn't wait that long. He is locked up at the Oak Park police station after having been caught last night, the police say, as he was climbing in the rear window of the bungalow of Edwin Kettlewell. Young Wicks was questioned by Chief Ripke of the Oak Park police.

"I think it's the sixth job I've pulled since I was paroled," Wicks confessed.

Judge David was notified of the arrest of the youth to whom he gave a chance and announced that he would not be so merciful another time. He gave orders to return Wicks to Chicago.

"He will get the maximum penalty this time," said the Judge.

INDIGESTION

"Pape's Diapepsin" makes Disordered Stomachs feel fine at once!

Lumps of undigested food causing pain. When your stomach is acid, and is gassy, sour or you have heartburn, flatulence, headache or dyspepsia, here is speedy relief—no waiting.

Eat a tablet or two of Pape's Diapepsin and instantly your stomach feels fine. **All the indigestion** pain, gases, acidity and misery in the stomach caused by acidity ends.

Pape's Diapepsin tablets cost little at any drug store but there is no surer or quicker stomach antacid known.

EXPECT COMPETITION IN SHIPPING INTENSE

UNITED STATES FEDERAL RESERVE BOARD SURVEYS SHIPPING CONDITIONS.

WASHINGTON, Feb. 26.—(Canadian Press). — A period of intense competition in world shipping was foreseen to-day by the United States Federal Reserve Board in a survey of foreign and domestic shipping conditions. As a result of over-production, the Board said there probably will be for a time an excess of ships above the immediate needs of commerce. Shipping interests already are realizing, the Board declared, that the production of shipping has been in excess of present needs. Reports are coming from abroad of the cancellation of shipbuilding contracts on a considerable scale in several countries.

WEDDED IN TRENTON.

The marriage of Miss Minnie Moon to Mr. Harry Trew was solemnized at Trenton, at the residence of the bride's mother, the Rev. C. S. Applegath performing the ceremony. After a brief honeymoon Mr. and Mrs. Trew will take up their residence in Port Hope.

McIntosh, $1; G. A. Benor, $1; Clarinet account, $5; total $10.75. Previously acknowledged, $35.50. Total to date $46.25.

MOCK ELECTION.

All are cordially invited to attend the "Mock Election" under the auspices of Trinity Church Epworth League on Monday evening, February 28th. The election proceedings will be in charge of Messrs. Downey Best and Mattice, and acceptable features of the programme are assured in Hawaiian musical numbers by Mr. Harry Wagner and pupils of the Conservatory of Music. An enjoyable evening is promised.

PRINCIPAL SMYTH AT TRINITY CHURCH.

At Trinity Church on Sunday morning, the congregation will have an opportunity of hearing the Rev. James Smyth, LL.D., of Montreal. At the evening service, Miss Palmer, the gifted violiniste will assist Mr. King and the choir in a splendid service of song. The pastor will give the second sermon of the series on Vital Questions Answered. Young people are cordially invited to these services.

AT ST. ANDREW'S

We have laid so much emphasis on individualism that we are in danger of overlooking the value of institutionalism. We need to be reminded that the individual only realizes himself through combinations with other individuals in institutional life.

To-morrow evening, in Saint Andrew's Church Rev. James Rollins will preach again on the Christian Church — the institution without which there would have been no Christian civilization. The individual who takes himself and the times in which he lives seriously will recognize the importance of this great subject. Strangers and visitors are always welcome.

SUNDAY AT GEORGE STREET.

One of the most outstanding religious leaders of this country will be the preacher at the evening service in George street church to-morrow. The service will be of especial interest to young men, though of great helpfulness to all. The speaker, Rev. James Smyth, LL.D., is now principal of the Wesleyan College in Montreal, having come to that position for the pastorate of important churches in Ireland a few years ago. He is a young man's man, and his address on "The Message of the Master for Men of To-day" will be an inspiration to those who are facing the problems of life as we meet it in this generation. The music will be led by a male choir under Mr. J. H. Renwick. It will be advisable to come well in advance of seven o'clock in order to secure seats. At the morning service Mr. Young will preach, his topic being, "The Credentials of a Prophet." All are invited to these services.

HAS YOUR CAR A TROUBLE LAMP?

There should be a trouble wire with a good length of wire as an integral part of the car.

The most important aid a trouble lamp could give would be to light a lamp for tire changing. One with a magnetic base exists. The current which lights the lamp magnetizes a little iron button in the bottom of the socket so that the lamp can be stuck against any steel part of the chassis and will hold itself there. Failing this refinement a little screw clamp could easily be designed

FINANCIAL AND MARKETS

THE WEEK IN WALL STREET

NEW YORK, Feb 26.—(Canadian Press). Experiencing little or no interruption the stock market this week continued to adjust itself to further changes in the Financial Situation and a more unsettled state of affairs in general lines of industry and trade.

Selling for both accounts with a preponderance of short offerings, effected increased impairment of quoted values in all shares of railway and industrial divisions. Issues of no particular classification suffered extreme reactions from 3 to over 10 points, some selling under the low records of last December. The developments were mainly of a character to discourage public interest, these ranging from further unfavorable statements of earnings by transportation companies to additional dividend suspensions and expanion of unemployment.

The money market was apparently easier, but actually unchanged, so far as quotations or offerings referring to long time accommodations, local banks bought sparingly of commercial paper and bank acceptances were firm on the rigid attitude of the Federal reserve board.

International credits were again rendered irregular by the shifting of events in connection with the approaching conferences of the reparations commission and the latest official figures denoting a sharp falling off of United States Foreign Trade.

WALL STREET.

NEW YORK, Feb. 26.—(Canadian Press).—The trend of prices in the early stages of to-day's short stock market session was again downward shippings and rails featuring the irregular re-action. Atlantic Gulf duplicated yesterday's low price on a two point decline. Reading lost ¾ and Famous Players 1¼. Fractional declines were made by most of the steels, motors and oils, the latter responding to further cuts in prices of raw and refined products. Stromberg Carburetor recovered two points from yesterday's acute depression, and Utah Copper rose 1 3-4 in connection with reports of prospective heavy exports of metal. Exchange on London held at yesterday's final quotations, despite extensive imports of gold from that centre.

12,000 A YEAR JOB TO CREELMAN

TO MANAGE NIAGARA PENINSULAR GROWERS' ASSOCIATION.

TORONTO, Feb. 26.—(Canadian Press).—Dr. G. C. Creelman, formerly President of the Ontario Agricultural College, Guelph, and former Commissioner of Agriculture for Ontario, and now Agent-General for Ontario in Great Britain, with headquarters at London, has been selected by the Proposed Niagara Peninsular Growers, Limited, as their general manager. The man is "big enough to warrant a big salary," as Hon. Manning Doherty said when he offered a few weeks ago to pay the salary of the accepted manager of that organization for the first year. The salary will be approximately one thousand a month.

CARNIVAL BROUGHT OUT MANY COSTUMES

LIST OF PRIZE WINNERS AT SKATING MASQUERADE.

The old-time Masquerade Skating Carnival, held last night in the Brock Street Rink under the anspices of the Peter Robinson Chapter, I.O. D.E., was a complete success in every way. The varied assortment of fancy and comic costumes made a brilliant spectacle, and the crowd of over 50 participants and spectators seemed to enjoy the evening's entertainment immensely. The following is a list of the prizes and their winners:

Ladies, fancy, half-dozen sherbet glasses, Mrs. Chas. Stapleton as an Eastern Lady. Gentlemen, fancy, set of military brushes, Mr. D. L. McLaren, as a Turk. Ladies, comic, silver vase, Mrs. Dr.) Morgan as Witch Hazel. Gentleman, comic, gold cuff links, Mr. T. E. McIntosh as a Clown. Girls, fancy (under 18), 2lb. box of chocolates, Miss Dorothy Mortimer as Folly. Boys, fancy (under 18), belt and silver buckle, Stanley Jones as an Indian Boy. Girls, comic (under 18), 2lb. box of chocolates, Miss Watson as Pierrette. Boys, comic (under 18), silver Eversharp pencil, Mr. Williamson as Parrot.

Hail 1921

During a period of temporary curtailment wild rumors fly and prophets of disaster gather unaccustomed audiences. As far as pessimism refers to the motor vehicle industry, we have but one basic fact to remember. In 1916 there were built in this country 1,493,000 motor cars. The life of a car in this country is averaged at between four and five years. Therefore, there will go to the scrapheap in 1921 practically 1,500,000 motor vehicles. All these must be replaced and this may be safely accepted as the basis of the demand for motor vehicles in 1921. Add to these 1,500,000 replacement cars, the new owners who automatically step into the breech each year and the lowest possible minimum of demand on the automobile industry during the coming year is going above 2,000,000 vehicles, which will call for the best efforts of our factories to produce. Ave 1921, the biggest year in the history of the automobile industry.

VEGETABLES DOWN.

PORT HOPE, Feb. 26.—The bottom has fallen completely out of the vegetable market, according to Mr. Reginald Black, of the Ontario Gardens. It was said here there was not a wholesale house in Toronto would order a carload of cabbages Last year onions sold at eight and nine dollars per hundred, and to-day they are down to $1.25. Toronto buyers are giving only sixty cents per bag for potatoes.

AS DICKENS SAW LAW AND LAWYERS

ADDRESS BY DR. JAMES SMYTHE OF MONTREAL TO WOMEN'S CANADIAN CLUB.

At the meeting of the Canadian Women's Club, held in the Public Library yesterday afternoon, the President, Mrs Jas. Kendry, read some of the resolution passed at the recent conventions in Hamilton and Montreal emphasizing those particularly which dealt with the ban on the Hearst publications in Canada, with the organizing of junior Canadian Clubs, and with the movement to raise the standard of censorship of moving-pictures, and to form closer connection between the boards of censors and citizens.

Dr. Smythe's Address

Dr. Jas. Smythe, B.A. LL.D. of Montreal, in his opening sentences, congratulated the ladies on their choice of a subject for his address Charles Dickens on "Law and Lawyers" He remarked that "there never was a more fascinating figure in the whole of English literature than Charles Dickens" and that although to most people the question of "Law and Lawyers" was always more interesting in a theoretical than in a practical sense, still Dickens in several of his great works, had, through his delineations of "Law and Lawyers" made it a fascinating study and had wrought many needed reforms in the courts and prisons of England. He had drawn a halo of romance about the ancient Inns of Court, in London, those old places where Dickens labored in his early years and where so many of the incidents and characters which later on enriched his volumes came under his observation and within his daily experience. In "Pickwick Papers" and in "Bleak House," the law and its devious windings and the shortcomings of its practitioners, are flailed unmercifully, and the speaker remarked that Dickens rarely wrote on this subject in a kindly vein perhaps the only exception to his attacks being the character of Tommy Traddles, that rather ineffective student, who was always going "to marry the dearest girl in the world."

SOCIAL AND PERSONAL

Mr. and Mrs. T. C. Dodds, of Belleville, are visiting Mr. and Mrs. F. J. Bullied, 22 Cricket Place.

Valueless. The handling of the

Mr. Claude Bartlett has returned to his position, after spending a few weeks with his parents and little son.

Mr. Harry Miller spent the week end with his brother, Mr. Roy Miller, works manager of the Salada Tea Company of Toronto.

Mr. S. Henderson of Toronto, is visiting his sister, Mrs. Brodigan, for the week end.

WEDDING BELLS

TAYLOR—CROWE.

On Wednesday, Feb. 23rd, at 6.30 p.m., the marriage was solemnized at St. James' Methodist parsonage, of Miss Blanche Ellen Crowe and Mr. Allen Taylor, both of Peterborough, Rev. J. F. Chapman, B.A., officiating. fi

CONCERT BY TRINITY CHURCH MISSION BAND

The Trinity Church Mission Band gave a concert in Reid street Hall on Friday night. The ladies of the Church who trained and directed the children who put on the entertainment deserve great credit for the successful evening The special features were a little play: "Dolls as Missionaries", the Harvesters' Drill, and a drama with tableau; "The Light that Shines". There was also an exercise entitled "Missionary Fruit" by six girls, a Penny exercise, by ten girls recitations were given by the following, James Redyard, Earl Kirn, Helen Hodgins, Mabel Madill, and Harry King. Miss Eleanor Malott gave a globe talk, Miss Irene King and Miss Jean Robinson gave instrumental solos an instrumental duet was rendered by the Misses Ida McBride and Alma Blanchard, and a trio of Miss Mildred Greene and the Messrs. Greene also played. Miss Beulah Huffman and Edith Culcheth sang and a group of wee tots gave a cradle song.

Wilmot Gordon and George Cunningham acted as ushers, Kenneth Brown and Willie Neville had charge of the curtains, and Alan Neil was chairman.

PRESENTATION TO MR. AND MRS. NORTHEY

A number of neighbours and friends gathered at the home of Mr. and Mrs. J. R. Northey, of Young's Point, and an enjoyable evening was spent in games and music. The following address was read by Mr. Harry Ayotte, and a handsome leather rocking chair was presented by Mr. Herb. Matthews.

Mr. Northey thanked the friends for their handsome gift, and wished them all years of prosperity on their farms, and hoped they would all come and see him in his new home at Lakefield.

The Address.

Dear Mr. and Mrs. J. R. Northey,

—It is with feeling of deep regret that we learned of your intended departure from our midst. How much we shall miss you, words cannot express. Our intercourse with you has ever been of the pleasantest, while your untiring zeal and genuine good fellowship the best. The one little ray of comfort is, you are not going so very far away, and we trust that as you shall make new friends, you will not forget the old ones in Young's Point.

We feel we could not let this opportunity pass without expressing our feeling of your good friendship.

As a slight token of our esteem and true friendship, we, a few of your neighbours, ask you to accept this little gift, and with it our best wishes for your every success in your new home.

Signed on behalf of your neighbours,

Herb Mathews, Joseph P. Ayotte, Peter Bullock, Harry J. Ayotte, R. A. Charlton, John G. Ayotte, Robert Northey, Joseph G. Ayotte, Cephas Bullock, Maxwell Kidd, Wm. Bullock, George Ayotte, Thomas Dugan.

Between the Eyes

The upper part of the face is noticed first when you meet a person. If there's a scowl there it so disfigures the face that the most attractive face is spoiled.

If you have to make an effort to see clearly you scowl without knowing it. Let Dr. Fowler prevent scowls by fitting you with proper Eye-Glasses.

IN MEMORIAM.

In memory of Kindred Young, who died February 26th, 1920.

The home has been darkened
By shadow of death,
It was one a loving brother
And him we'll ne'er forget.

The gates of heaven were left ajar,
A voice had whispered 'Come,'
And in the early morning light
God took His loved one home.

Far and oft our thoughts do wander
To a grave that's far away,
Where they laid our loving brother,
Just one year ago to-day.

A vacant chair now tells the tale
Of the debt that he has paid,
Angels bright watch day and night
O'er the grave where he is laid.

The silver cord is broken
A life well spent is o'er,
At rest asleep in Jesus
He rests forever more.
—Inserted by his sister, Mrs. R. H. Allison.

IN MEMORIAM.

In memory of Kindred Young, aged 9 years, who died, Feb. 26th, 1920.

One year has passed our hearts still sore,
As time flies by we miss him more;
His loving smile, his welcome face,
No one can fill his vacant place.

Forget him, No—we never will,
We loved him then, we love him still;
His memory is as fresh to-day
As in the hour he passed away.

The Gates of Heaven were left ajar,
A voice had whispered 'Come,'
And in the silence of the night,
God took His loved one home.

We think of him in silence
And his name we oft recall,
For there's nothing left to answer
But his photo on the wall.
—Inserted by his parents, Mr. and Mrs. Young, Haultain, Ont.

GRAIN TRADE PROBE TO BE FOUGHT FOR

NOW CERTAIN THAT WESTERN MEMBERS WILL MAKE A DRIVE TO HAVE AN INVESTIGATION.

APPOINT COMMISSION

OTTAWA, Feb. 28.—(Canadian Press). — That Western Government members will make a concerted drive for the appointment of a Royal Commission to investigate the Western Grain Trade situation predicted on Saturday became a certainty this morning when it was learned that the western members were organizing a direct campaign to insist on such steps being taken immediately. Just what attitude the National progressives will take toward this drive has not been definitely stated but it is believed strenuous opposition will come from that party.

In spite of the fact that many members have expressed the intention to take part in the debate on the address his week, a division in the house on the opposition motion of non-confidence in the government may be reached by Thursday As is usual, a number of members will waive their right to speak if all parties are ready for a division by Thursday, the party whips are ready for division anytime after Tuesday.

STOLE PARCEL MONEY FROM EXPRESS COMPANY.

BELLEVILLE, Feb. 28.—Protase Blanchard, accused of having stolen a parcel of money from the Dominion Express Co., has elected trial by the county judge, and date of trial is set for Wednesday, March 9th. Blanchard, who only returned from Lethbridge a few days ago, had previously elected to be tried by a jury.

SELL FAIR BUILDINGS.

PRESCOTT, Feb. 28.—The town is offering for sale the land and buildings north of the town formerly owned by the South Grenville Agricultural Society and commonly known as the Prescott Fair Grounds. The Fair has been out of existence for some years.

INFORMATION WANTED.

David Hill, of International Falls, Minnesota, has written Chief of Police Newhall, asking for information of Samuel Hill, who is supposed to have come from Greenock, Scotland, some years ago to live with people in Peterborough by the name of Hamilton. Anyone who has information of this person are asked to notify the Chief of Police.

NO DECISION TO COMPEL GERMANY

LONDON, Feb. 28.—(Canadian Press).—Following a weekend at Chequers Court, the new home of Premier Lloyd George, Marshal Foch said that no decision was reached for using strong measures to compel Germany to yield on the reparations question. During Sunday the matter was discussed informally, he said, but nothing had been decided without consulting the Italian and Belgian delegates. Members of the Supreme Council expressed belief that nothing could be done until the Germans disclosed their counter proposals.

COMPETITION FOR STUDENTS

MR. J. H. BURNHAM OFFERS PRIZES TO RURAL SCHOOL CHILDREN FOR TARIFF ESSAY

CLOSES ON MAY FIRST

The Examiner has received a cheque for $10 from Mr. J. H. Burnham, to cover the prizes to be awarded by him for the best three essays by pupils of rural schools in West Peterborough upon "The Effect of a U. S. Tariff Against Canadian Farm Products, Upon Canadian Farm Products and upon U. S. Farm Products." A first prize of $5, a second prize of $3, and a third prize of $2 in gold will be given by Mr. Burnham. The essays are to be signed by the writers, with their addresses and the number of the rural school attended by them, and must be sent to the Examiner Office, marked on the outside, "Essay Competition," by May 1st. For the guidance of the writers, it may be said that the essay is not to be longer than three folios (300 words) and that after the statement of the subject as above is made, the conclusions should be stated, to be followed by a clear but brief statement of the writer's reasons therefor. The writer is to imagine that a question is being asked, and the contestant's efforts shall be directed towards giving a clear answer and sensible reasons for the answer. The prizes will go to those who most clearly and cogently express their views.

THE WEATHER

February, which is now nearing its end, has proved one of the mildest months ever recorded. We had but one day below zero, that of the 18th, and then only one degree below the zero point. The nearest approach to this month was Feb. of 1909, with three days below zero. On one of these days, however, it was 18 below. Mild as January was, February was much milder. The snowfall also has been very slight this winter, and it is quite possible that even yet nature may send us a plentiful supply of her white covering.—W. P.

BOY WHO STOLE $65 IS SENT TO MIMICO.

TRENTON, Feb. 28.—Convicted of having stolen $65 from a woman here, Magistrate O'Rourke has committed a boy of tender years to the Mimico Industrial School at Toronto. The boy had several previous convictions against him.

EGGS DOWN TO 35c

KINGSTON, Feb. 28.—Eggs sold on the market here Saturday for 40 and 45 cents a dozen, while some farmers were offering them at 35c. Two weeks ago they were selling at 60 and 70 cents a dozen.

UNITED FARMERS OF ONTARIO.

MR. J. J. MORRISON WILL ADDRESS A PUBLIC MEETING IN KEENE TOWN HALL TUESDAY EVENING, MARCH 1ST. EVERYBODY WELCOME.
2d-50-5913.

DEEP SEA MISSION

This space is cheerfully granted by The Examiner to the local Branch of the Deep Sea Mision for the Week beginning with To-day.

This heroic work of Dr. Wilfred Grenfell and his noble helpers in Labrador should appeal to every Citizen of Peterborough.

The Ministerial Association has unanimously and enthusiastically endorsed this cause, and urges all the Friends of the Mission to send in their Gifts at once that our own interest may kindle that of many another.

The Examiner will receive and acknowledge all Subscriptions. The Honorary Treasurer is Mrs. James Wood, P.O. Box 990.

GREECE HAS REJECTED A SETTLEMENT

REFUSES TO ACCEPT ALLIES' PROPOSALS FOR ALTERNATIONS IN SEVRES TREATY.

ORDERS FROM ATHENS

LONDON, Feb. 28. — (Canadian Associated Press.)—Greece has refused to accept proposals that an investigation of conditions be made in Thrace and Smyrna preparatory to making alterations to the Sevres Treaty. M. Kalogeropouls, Greek Premier, to-day received a telegram to this effect from the Athens government. The telegram was not officially presented to the Allied premiers and they were simply allowed to know the contents indirectly. The Greek refusal was not taken seriously it was said in Allied circles.

U. S. DESTROYER SUNK IN CRASH

Woolsey Cut in Two in Collision With Freighter in Pacific.

WASHINGTON, Feb. 28.— One naval enlisted man is dead, 15 are missing and two are injured as the result of a collision here between the United States destroyer Woolsey and the United States steamer Steel Inventor off the Pacific coast of Panama.

The Woolsey was cut in two at the after tank by the collision and sank at 6 o'clock this morning while in tow of the destroyer Aaron Ward, which, with the destroyer Philip Have, had 112 of the Woolsey's survivors aboard.

The collision was reported to the Navy Department by Admiral Rodman, Commander-in-chief of the Pacific fleet, to which the Woolsey, one of the United States navy's most modern destroyers, was attached.

HOTEL MUST PAY $115 FOR A GOWN.

Waiter Spilled Plate of Soup on Woman's Dress.

DETROIT, Feb. 28.—An unusual lawsuit was decided here when Justice Richter awarded $115 damages to Mrs. Katherine Seymour against Hotel Statler for damage done to a costly gown she wore one evening when a waitress spilled a plate of soup in her lap.

The accident occurred during a dinner tendered Mrs. Corinne Roosevelt Robinson, sister of the late Theodore Roosevelt, last fall. At the first hearing of the case the hotel asked for a re-trial on the ground that Mrs. Ralph Ainsworth, one of the guests, "jiggled" the arm of the waitress, causing the soup to be spilled.

The court held that, as the damage was done at the hotel and was caused by one of the hotel employees, the owners must stand the loss.

FOR THE RELIEF INDIGENT PERSONS

NEW YORK, Feb. 28.—(Canadian Press.)—As the result of a meeting called by Capt. Gloster Armstrong, British Consul General in this city, a committee has been formed for the relief of indigent British subjects in New York, in co-operation with St. George's Society, St. Andrew's Society and St. David's Society.

That there is urgent need for the relief of British subjects here—ex-service men, soldiers, sailors and civilians— has been brought home during the past few months, and the outlook is that in the near future this will be very greatly increased. While the societies above mentioned will continue, as they have done for years, to carry on their charitable work, it is felt that the situation demands the aid of a united committee to enlarge and make still more effective the splendid work they have been doing.

Arrangements have been made for the immediate relief of pressing necessities for food and lodging and for urgent cases with the British Great War Veterans, who will act as the almonor of the committee through their secretary. For the present, the generosity of the societies represented on the committee will provide the necessary means. There is an averag of twenty-five applicants a day for relief, and the committee is able to get employment, so far, for an average of but four or five men a week.

WAGE DECREASE.

HALIFAX, Feb. 28.—Wages of some 1,300 men employed at the Halifax Shipyards, Limited, will be reduced five cents an hour, beginning to-day, it was announced by General Manager J. M. McLurg. The cut means a reduction of slightly less than 10 per cent., in the payroll of the yards.

DISCOUNT ON CANADIAN DOLLAR 12¼c

GOVERNMENT'S IRISH POLICY TO REMAIN

LONDON, Feb. 28 (Canadian Press).—The British Government does not intend to alter its present policy for maintaining order in Ireland, Lloyd-George announced in the House of Commons to-day.

The Chief Secretary for Ireland would be allowed to carry his administration to a successful conclusion.

The statement came at a moment when many rumours were afloat that Sir Hamar Greenwood was about to resign because of a controversy over the alleged lack of discipline among the Crown forces in Ireland.

THE BOARD OF TRADE HOPEFUL

EXPECT THIS YEAR TO ESTABLISH A MARKED RECORD IN ITS ACTIVITIES.

ELECTIONS TO-MORROW

If the nominations for the Executive Council for the New Year, commencing March 8th, act as any criterion to the future success of the Board of Trade, Mr. Edgar Worth, the president, considers that this third year of re-organization should establish a marked record.

It will be noticed by the list previously published, that all of those named are particularly active in various other organizations of the city, and yet have seen fit to assume office as public-spirited citizens in an organization supporting every phase of community welfare.

In the balloting to-morrow (Tuesday) on fifteen of the thirty nominated, there will, without a doubt, be a close vote, and the five judges, under the chairmanship of Mr. F. C. Hungerford, are expecting a number of tie votes, which will be decided by them casting lots. Mr. Hungerford is expecting that a large majority of the three hundred members will take advantage of the ballot, and is arranging to have all judges at the poll, in the Board's Chambers, from 12 noon to 2 p.m., and from 7 to 8.30 in the evening.

The fifteen elected to-morrow will elect from their own number the officers for the ensuing year, and will then be formally installed in office at the thirty - second annual meeting to be held in the G.W.V.A. Hall on Tuesday, March 8th.

REFUSED TO ACT AS SPIES FOR POLICE.

Concierges in Vienna Rise in Protest Against Old Institution.

VIENNA, Feb. 28 (Assoicated Press).—The concierges, or janitors, of Vienna apartment houses have risen in protest against one of the oldest and most distinctive institutions of Europe and refused longer to act as spies for the police.

The employment of concierges as police spies has been the custom for so long that its origin seems to be lost in history, and they have been counted as one of the most valuable aids to the police of most continental capitals.

They have been required to note and report the coming and going of their tenants and generally to maintain an espionage over the people whom they serve.

This practice has been one of the most objectionable features of foreign life to Americans who have made their homes temporarily or permanently in French and Austrian cities, for Americans are unused to having their daily actions the subject of reports to the police.

The concierges of Vienna have always received most of their income from the tips of tenants. They carry the keys to the building, and without their aid tenants could not obtain admission at night. The janitors now refuse to stay up all hours of the night to open doors for late comers, and, instead of tips, demand fixed salaries from the landlords. They also ask for clean, dry rooms, sick insurance benefit at the proprietors' expense, and other reforms. They insist that every tenant shall be provided with a front door key.

COMBUSTION ENGINES.

ROTTERDAM, Feb. 28 (Associated Press).—The motor ship Java, of 13,500 tons deadweight measurement, has been launched at Nakskov. She was built for the East Asia Company, and is one of the largest ships to be fitted with internal combustion engines.

WEST TAKES OPTIMISTIC TRADE VIEW

PETERBORO MAN HOME FROM WEST SAYS DEPRESSION EXPECTED TO END BY SPRING.

LUMBER OUTLOOK GOOD

Mr. Jas. J. Raleigh, a former Peterborough boy, who is home on a flying trip from the West, gave an Examiner representative a few interesting sidelights on business conditions on the coast. Mr. Raleigh is travelling freight agent for the Canadian National and G. T. Railway, and for the G.T.P. Coast S. S. Co., with headquarters at Prince Rupert, B.C., and has affairs of trade under observation most of the time.

The Lumber Market.

Although the West has experienced a period of depression similar to that felt in the East, primarily due to the after-effects of the war, it seems to be the consensus of opinion that, with the opening up of spring, things will have returned to an almost normal, pre-war status. Practically all of the western and coast industries have suffered alike from depressed markets, due largely to adverse exchange, the lumber industry in particular, the greater portion of the mills being closed at the present time. Good, rough spruce lumber, which during the war and after sold for from $60 to $70 per thousand, can now be bought at some of the mills on the coast for $23 per thousand, and, as there are large stocks on hand, and the credit situation is easing up somewhat, the lumber men, who affirm that the domestic market is only about half supplied at the present time, are quite optimistic about the immediate future. In all likelihood, an extensive building programme will be carried on throughout the West this year. Winnipeg alone having signified its intention of expending in the neighbourhood of $6,000,000 in this way.

Agriculture.

Western Canada last year harvested the greatest crop in its history, about 75 per cent. of that yield has by this time been marketed at a very good figure, and there is no present indication of a curtailment in the acreage to be sown this year. The West, with its immense acreage of fine land, attracts many thousands of emigrants every year, but the most desirable settler, of course, comes from our own eastern farms.

Fishing Industry.

The canned-salmon industry on the coast suffered a set - back this year, owing again to the depreciation in European money - values. Europe has always been a market for certain grades of this foodstuff, and domestic consumption is not extensive enough to dispose of the immense annual output.

The fresh fish market, on the contrary, has suffered no reverse whatever. Halibut landed at the docks is still bringing the fishermen 18 cents per pound, and finds a ready market at all times.

Normal Conditions.

The pulp and paper industry on the coast is also operating under normal conditions, the demand for these products being continuous and dependable, and practically all of the mills are running full capacity.

There has been a considerable slump throughout the West in the retail business, due to lowered prices and a tendency towards more conservative buying on the part of the public, but, although there seems to be large stocks still on hand, which were bought at high prices, the merchants do not appear to be making much effort to dispose of them through the medium of sales. From personal observation, Mr. Raleigh remarked that the price of foodstuffs and clothing, boots, shoes, etc., seemed to be considerably lower in the east.

No Failures.

There have been very few business failures in the West, rents are still up, and the housing problem is almost as serious as in the east. There is comparatively little unemployment, and the factories are gradually lowering their wage scales.

Coal operators in Alberta are finding a considerable market for their product in the east, and some is being shipped also to the Pacific Coast, in competition with the Vancouver Island coal. There are some very fine grades of coal found in Alberta, and new mines are being opened up continually.

Altogether, with the prospects of a fine crop for the coming year, the tendency toward a freer money market, and the promising outlook for a return to more normal conditions of trade and commerce, there is a very optimistic spirit manifested throughout the whole of Western Canada.

SPECIAL PARADE FOR TUESDAY, MARCH 1ST, 1921.

A MEETING OF THE OFFICERS PETERBOROUGH RANGERS WIL BE HELD TUESDAY EVENING, MARCH 1ST, 1921.
1d-50.

Block Set Against Wrecked Train, the Towerman States

CANADIAN PACIFIC TRAIN RAN PAST THE SIGNAL BLOCK AND WAS HIT BY EXPRESS HAVING THE RIGHT OF WAY AT INTERSECTION OF TWO TRACKS.

ENGINEER DENIES TOWERMAN'S STORY

(For full account of the wreck see front page of noon edition, which forms page 3 of this edition).

PORTER, Ind., Feb. 28.—(Canadian Press).—Several Canadians were among the victims of the wreck of the New York Central and Michigan Central (Chicago-Montreal Express) passenger train which occurred here last night, killing about forty people. Canadians identified up to eight this morning were: J. Collins and wife, London; Gordon Campbell, Revelstoke, B. C., and Peter Kane, Regina.

Relief crews early to-day had taken thirty-three bodies and scores of injured from the wreckage and at least six bodies were visible, entangled in the debris. Darkness and the tangled mass of wreckage made the rescue work slow. The first group of those critically injured were rushed in an ambulance to Michigan City, Ind., two dying on the way. The hospitals and private homes at Michigan City and Gary received the injured.

A statement by Towerman Cook on duty at the crossing declared the block two miles away was set against the Michigan Central train, while the track was left clear for the New York Central. Railroad officials at the scene of the wreck said Engineer Long of the Chicago-Montreal train, who escaped unhurt, declared he had received a clear signal and had checked it with his fireman. He left early to-day for his home.

His train struck a derailer six hundred feet from the crossing, he said. From that point eight coaches bumped along the ties, coming to a standstill with the third and fourth coaches at the intersection of the tracks. An instant later the New York Central train burst through. The bodies of the New York Central's engine crew were taken from the tangled wreckage this morning.

Forty two bodies had been collected early this morning from the wreck. Three victims were Canadians.

It was a diamond shaped crossing, permitting the New York train which struck as the other sprawled, derailed, across the intersection, to rake the Michigan Central cars instead of cutting them at right angles.

All the dead were in two Michigan Central coaches which carried a few through passengers.

Upwards of 50 persons bound for Quebec, Montreal and Toronto were aboard the East bound Canadian. Their cars were not much damaged. The New York train was bound for Chicago.

W. Fierke, of Grand Rapids, Mich., who stood on a platform of a coach of the Michigan Central train, just a few feet from the point where it was hit, gave a graphic description of the wreck to-day. After relating how the train had bumped along the ties at full speed for a few yards following the derailment, he said:

"I then heard a whistle. There was another train bearing down on us at full speed. My tongue stuck up in the roof of my mouth. I tried to open the door of the coach to shout to the people. My hand refused to function."

He then described the 30 seconds from the time he saw the train until it had hit them. Everything was made as light as day by the searchlight of the approaching train. It seemed like ten years, and Fierke thought that he would surely be killed.

"Suddenly the side of the car buckled in," he said. "My last conscious impression was of everything dissolving in front of me. I remember seeing the nose of the engine. I remember the lights in the car going out suddenly and hearing a scream that I shall never forget—and then came darkness."

Fierke was thrown 50 feet and alighted on the ground, all breath being knocked out of him. "It was a little hell there for a few minutes. I shall never forget the expression of the faces of those poor people as they died," he said. "Staring eyes of one man looked directly into mine. That face is going to come to me for the rest of my life."

Outside of a number of bruises, Fierke was unhurt while the platform on which he stood was smashed to fragments.

LONDON CATERERS BEWAIL SLUMP IN REVENUE.

Receipts Slump 50 Per Cent. — Difference Lies Chiefly in Mines.

LONDON.—(Associated Press).—Proprietors of fashionable West-End hotels and restaurants are bewailing the slump in their receipts which they declare has taken place.

"We have the same number of people dining each night," said the manager of one of the best known restaurants, "but our receipts are 50 per cent. below those of a year ago. The difference," he added, "is chiefly a matter of wines. During the war, and before the war, it was customary for a small party here to have a magnum of champagne. Now they are satisfied with a bottle of Chablis or some other wine which costs much less than champagne."

"Apart from the greater expense," said a famous bon vivant, "it must be admitted that dining out is not as pleasant as it used to be. The restaurants where there used to be refinement and charm, not only in the surroundings but in the people themselves have been invaded by a new type of diner.

"The conversation and behaviour of these new clients have rather vulgarized some of the best restaurants and the old frequenters prefer to dine at home or at their clubs. Two nights ago I saw a man in what used to be one of the most fashionable and refined of London restaurants dining with his serviette tucked all around his collar. That sort of thing rather spoils the charm of dining out for patrons of the old school."

"As far as the best brands of champagne are concerned, the sale is dead," said the head of a large firm of wine merchants in Pall Mall. "We are selling very little champagne to our private customers, who are instead drinking port, sherry, Marsala and claret. People cannot afford champagne. They could when it could be had at from eight to nine shillings a bottle, but what with increased taxes and high prices generally, they naturally fight shy of paying from 16 to 20 shillings for a bottle of champagne, which is now demanded of them."

4TH C.M.C. BRIGADE BAND.

The proceeds of Sunday night's concert amounted to $61.00, additional amounts having been received after the announcement from the platform.
The distribution now is made as follows:

Grand Opera House	$6.00
C.M.G. Band	$27.50
Unemployed	$27.50

The Band are very grateful to their audience of last night for their very generous contribution and moral support.
They wish to thank Miss Harrison for her very excellent solos, and also the Oddfellows' Quartette for their much appreciated selection.
The programme for the next concert will be announced later, also the charity that will share in the proceeds.

Since the above announcement was issued it has been stated that the Relief Officer will not accept the amount allotted to unemployment upon the grounds that the city is not desirous of becoming involved in the controversy.

NO STATEMENT YET RECEIVED

AMSTERDAM.—No statement has yet been received by officials of the International Federation of Labor as to Canada's stand in regard to labor legislation recommended by the conference held at Washington in 1919, the only communication from the Dominion on the subject being merely a formal acknowledgement of the receipt of the recommendations. Other countries are not indicating any great interest in the proposed legislation and officials of the labor federation are not nearly so optimistic about the progress made as a result of the Washington meeting as are officials of the labor section of the League of Nations at Geneva.
While Albert Thomas of France said in a recent report of the League section that adoption of the Washington recommendations was coming more rapidly than had been the case a few months ago, Edo Fimmon, secretary of the International Federation of Labor has compiled statistics to the contrary.
"Up to the present," said Mr. Fimmen, "there is only one country in the world—Greece—that has ratified the resolutions in their entirety. This, of course, is not much for the world's laborers.
"In Belgium, some of the recommendations of Washington have been carried out, and, in France, the stipulations as to the work of mothers before and after childbirth have been regulated.
"Other countries have either proposed one or more bills aiming at improvement of labor conditions, or will do so shortly. Among these are Great Britain, South Africa, Italy, Venezuela, Germany, Chili, Spain and Rumania.
"Another group includes British India, Norway, Nicaragua, Panama, Poland, Sweden and Switzerland, which are still studying the problem.
"Canada, New Zealand, Columbia, Denmark, Bolivia, Honduras, Liberia, Salvador, Siam, Uruguay, Portugal, merely announced receipt, while Australia, Brazil, China, Guatemala, Equador, Cuba, Finland, Haiti, Hedjaz, Holland, Japan, Paraguay, Peru, Persia, and Jugoslavia have not been replied to."
William Oudegeest, one of the directors of the International Federation, was quoted as having said at Geneva, a few months ago, that general strikes would be procla med to force adoption of the programme. Mr. Fimmen, however, said this probably expressed only Mr. Oudegeest's personal opinion.

CANADA TO MOVE FORWARD

The time has come for all of us in Canada to move forward—unitedly and with determination—into an era of sound prosperity.
We are due to come into our own. Now is none too soon.
We must make up our minds to go ahead—flash this signal all along the line. The way is open if our will is strong.
The wheels of industry will turn in response to our command, expressed in terms of action.
It is up to YOU, to all of US, to say the right word and do the right thing to stabilize business. Stability waits on activity, plus faith, that all is well—faith in ourselves, in one another, in business.
FAITH is the very foundation of prosperity. Make it the cornerstone of your thinking and of your action.
TODAY, let us start putting our shoulders to the wheel, all together. Let us work a little more, think a little harder, buy without forebodings—and sell with a conscience. We must keep a clear eye out for the other fellow's interests as well
The one rule that assures a full measure of prosperity is the golden rule. It is simple, sure, safe. Work this rule and let it rule your work.
Some say there has been a breaking down of faith by the recent scramble to "get while the getting is good." Even if that is so, we must dismiss from our minds that phase of reaction from war endeavors and declare for new, high standards.
Nothing tangible is holding us back. The fundamental factors making for prosperity are all favorable.
At core our business is solid.
At heart our men and women are courageous.
We must show the world, each other, ourselves, what Canadian spirit really means.
Forward now, together, confidently. Business is getting its stride again.
It is going to keep a steady pace it can keep. Swing along with it; the best is yet to come.
Recent months have marked a return to normal habits and wholesome standards.
Recent months have marked a return to normal habits and wholesome standards. Business houses are in training to conserve strength and build up vital powers on a better, broader basis.
Prices have reached, or are reaching, stable levels.
Goods and services no longer sell themselves. They must be sold.
Good salesmanship is the order of the day. It is a help-the-buyer kind. It puts service on a par with profit. Its aim is to attract buyers by making buying attractive.
Merchants and all sellers are not merely getting business, they are building it on foundations of integrity.
Just recently the president of a national business spent thousands of dollars to apologize to the public for misstatements in advertising published in hundreds of newspapers by his company.
He said policies of truth-telling and fair-treatment must be maintained by his company at any cost, because he valued the confidence of the public and the good will of his business too much to have it impaired by wrong practices.
Legitimate business believes in "playing fair" and "dealing square." It aims to safeguard the interests of the purchaser in all transactions.
With the spirit of service as a guiding force, business is worthy of your faith on which its activity relies. There is the nub of the whole matter.
Our security lies not only in our mines, forests, factories and farms, but also in the work of our hands and the confidence in our hearts.
Let us turn these to constructive purposes and enjoy a wholesome measure of prosperity.—A message from the Associated Advertising Clubs of the World.

Drecoll favours taffeta as the medium for evening or dinner dresses following the 1850 line, off-the-shoulder decolletage, tight bodice and full skirt, particularly in black.

45 Meet Death in C. P. R. Train Wreck

Germany Standing Over Volcano; New Plots Discovered

ROYALISTS AND RADICALS CONSPIRE TO OVERTHROW REPUBLIC AND LUDENDORF AND REVENTLOW IMPLICATED.

TROUBLE NEXT MONTH

BY VIGGO TOEPFER.
(Staff Correspondent Cross-Atlantic Newspaper Service.)

BERLIN, Feb. 28. — Desperate means are to be tried by the "patriotic royalist party" in order to bring back to power the Hohenzollern dynasty, if one is to believe in the revelations made in the communistic daily "Rote Fahne."

The paper has just published some most remarkable documents signed by such men as Von Ludendorff, Count Ernest Von Reventlow and the leader of the notorious "Orgesch" organization, Escherich, which, if proved authentic, will make these men liable to punishment for high treason against the German Republic.

The documents contain detailed plans, according to which the royalist party in case of a communistic "putsh" is to seize the power in Germany. In March, it is said, most serious disturbances are to be expected from the rapidly increasing army of unemployed. But the plans of the Kaiser's followers go further, and in case these disturbances should fail to come as expected, the royalists must not hesitate to provoke them by discharging workers wholesale, refusing to negotiate with the labor unions and cutting down wages.

Rules are also given for the creation of emergency courts of justice, with unlimted powers to crush all resistance on the part of the workers. The documents contain very complete details in the form of strategic plans which appear to prove that military experts have taken part in the making of them.

The German press as a whole does not appear to take these papers very seriously, and several of the most important papers point out that it seems more than unlikely that men like Ludendorff and Escherich would be foolish enough to put their signatures to documents of so compromising a kind, while both of these men immediately denied having the slightest knowledge of them.

The reactoinary press is inclined to see in the publication of the papers an attempt to conceal secret plans on the part of the extremists and this view is confirmed by the fact that the police at Dusseldorf recently claimed to have arrested "the commander in chief of the German red army." Simultaneously with this arrest, it is asserted, most extensive military plans with maps and orders in detail for a communistic revolution along military lines were seized, but the police so far refuse to make known the name of the arrested person.

It has long been well known that there is serious unrest among the workers in the great industrial centres along the Rhine, and it cannot be denied that this unrest under the present circumstances when the number of unemployed is growing by the thousand every day, may spread to other parts of Germany, which may well be compared to a barrel of powder where the smallest spark may cause an explosion.

That the situation in Berlin is far from reassuring is evident from the fact that a number of very lively meetings between labor leaders and trade councils have taken place lately after a number of metal factories had closed down, and had thus added to the already large army of unemployed. The recent closing down of factories has caused the greatest uneasiness among the workers, who fear it is only the beginning of a general closing down of factories from reactionary political motives.

At one of these meetings the extremist communists proposed the immediate declaration of a general strike for 24 hours all over the German capital as a protest against the discharge of workers, to be extended indefinitely if it did not bring about the desired effect. The moderate leaders of the trade union council however, maintained that this must not be done until after a conference with the government and the employers, and their resolution was carried after a bitter struggle. Unless something is done, however, to give employment to the unemployed, it is certain that one must be prepared for anything here. The situation is exceedingly serious and fraught with danger.

PETERSON'S WILL ON HALF SHEET

FORMER PRINCIPAL OF M'GILL LEFT ESTATE TO HIS WIDOW.

LONDON, Feb. 28.—(Canadian Press)—By the will written on a half sheet of note paper, Sir William Peterson, former principal of McGill University, disposes of £15,186 to his widow.

DECEIVE THE PUBLIC.

WASHINGTON, Feb. 28.—"Tandsticksfabriks" or "sakerhots tandstickor" or similar words or symbols "suggestive of Swedish origin" are regarded by the United States Federal Trade Commission as no proper markings for matches made in Japan to be sold in the United States. After trial, the Commission found that such symbols "have a natural tendency to deceive the public" and has ordered importers of the Japanese product to discontinue their use.

RICE LAKE ROBBERIES

PORT HOPE, Feb. 28.—It is believed the thieves are known who committed several robberies from Rice Lake cottages recently, icluding places owned by Col. MacNachtan, J. D. Hayden, S Purser and C Brown. Furniture, bedding, etc., were stolen, to an amount running up to near $1,000. Provincial Constable Andrews is investigating.

THE EXAMINER YOUR PAPER AS WELL AS PETERBOROUGH PAPER IN EVERY RESPECT

This edition is not only a Peterborough paper; it is the paper of Eastern Central Ontario as well, devoted to the interests of the territory in which it will circulate and thoroughly and efficiently covering the news of that territory. It is not an outside newspaper. It is the paper of your own home town. It is a Peterborough paper only in that it is published in the City of Peterborough.

Its staff of correspondents will cover its circulation territory, getting ALL THE NEWS more efficiently than a local paper could because of the organization which stands behind THE EXAMINER. Moreover, its press services will supply you with the important news of Canada and the world. The big foreign papers can do as much in the supplying of telegraph news but they cannot cover the news of YOUR DISTRICT as THE EXAMINER can and will.

This edition of THE EXAMINER is entirely separate from the regular city edition and its interests are your interests. Central Ontario presents possibilities unparelleled and THE EXAMINER stands for the development of these possibilities. Its organization is at your service and where ever necessary staff reporters will be sent in to cover the news fully.

Through the Canadian Press, THE EXAMINER is able to publish all Canadian and foreign news of importance and carry it to you within a few hours. Its foreign news service is augmented by the exclusive Cross-Atlantic Newspaper Service and correspondents in the various principal cities of Eastern Canada are prepared to provide special stories in the event of big news breaking. In addition to the general news it can provide you with news of sport and of the New York, Montreal and Toronto stock exchanges and the grain and produce markets.

In addition to this, the Cross-Atlantic Service provides articles on subjects of world-wide importance by experts and men of note in world affairs. A few of the men who have contributed such articles recently include ex-President Poincare of France, Lord Leverhulme, Lord Rathcreedan, Sir George Foster, and a number of well known writers. Gilbert K. Chesterton, noted British journalist, author, and humorist, contributes a weekly article.

Beginning to-day THE EXAMINER will adopt the policy of publishing the cream of newspaper fiction. Many of the serials which will be published during the year have never appeared before in any form and will not until they have been first released for newspaper use. Notable among these is "Laramie Holds The Range," an epic of the frontier when it was the land of romance, clean, colorful, and red-blooded, which will lift you from the prosaic life of everyday. On March 15th the first installment of "Love!", by Katharine Moore, the story of how a woman's great understanding and the farsightedness of her love enabled her to look beyond the act of her husband's infidelity and see the man as she believed him still to be. From ten to twelve such serials will be published in a year. If bought in book form at $1.50 each (the lowest price at which copyright fiction can be obtained), they would cost from $15.00 to $18.00 a year while in THE EXAMINER you get them at no additional cost.

The noon edition carries all news which has developed since the closing of the regular afternoon edition of the previous day and in addition includes the important news of the previous afternoon edition in order that its subscribers may miss nothing.

Bad Condition of Metal Markets Is Closing Up Mines

BRITISH-AMERICAN NICKEL CORPORATION FORCED TO CLOSE MINES, SMELTER AND REFINERY.

THOUSAND MEN AFFECTED

SUDBURY, Feb. 28.— (Canadian Press.) — Following statement was made Saturday by General Manager Carlye of the British American Nickel Corporation, announcing the closing down of the mine and smelter on Saturday afternoon.

"Owing to the extremely bad condition of the market for all metals the Corporation finds it necessary to discontinue operations and close down until such time as the markets have become more normal. The directors sincerely regret that this circumstance over which they have no control, compels them to stop the employment of so many employees, especially at this period of the year, but unfortunately no other course is possible."

As a result of this action between six and eight hundred hands will be thrown out of work for an indefinite period. This will shortly be increased by four hundred more when the refinery of the Corporation at Ottawa will also close down. This will follow as soon as matter now being shipped has been refined.

GERMANS LEAVE FOR LONDON CONFERENCE

BERLIN, Feb. 28.—(Canadian Press.) — Eight German delegates to the conference with the Allies in London, headed by Foreign Minister Simons, and accompanied by a staff of some fifty secretaries and clerks and a party of seven German newspaper men, left Berlin at noon on a special train yesterday en route to England.

J. J. MORRISON SPEAKS, KEENE

PUBLIC MEETING OF U.F.O. THERE TO-MORROW NIGHT TO HEAR THE SECRETARY LEADER.

M'DONALD TO SPEAK

A public meeting of the U.F.O. will be held in Keene to-morrow evening with Mr. J. J. Morrison as the chief speaker. Mr. Morrison is secretary of the U.F.O. movement in Ontario, and in the light of recent provincial political events his address will be of special interest. Mr. E. N. McDonald, M.P.P. for East Peterborough, will also speak at the meeting. The U.F.O. movement is well established in Otonabee township. A number of district officers of the Otonabee branch will address the meeting.

Chicago to Montreal Flyer Is Cut in Two by New York Central Train at Crossing

NEW YORK TRAIN TRAVELLING SIXTY MILES AN HOUR PLUNGES INTO CANADIAN PACIFIC FLYER AT POINT WHERE THE TWO TRACKS CROSS FIFTY MILES FROM CHICAGO.

PULLMANS DEMOLISHED AND WRECKAGE BURNS

PORTER, IND., February 28. — Canadian Press. — At least forty-five passengers were killed, and scores were injured at Porter, Ind., last night, when the Canadian Pacific Chicago-Toronto-Montreal flyer, No. 20 locally known as the Canadian, running over the Michigan Central tracks, was cut in two by the New York Central Inter-State Express, No. 151.

The C. P. R. train was due to arrive in Toronto at 8.23 this morning. The New York Central train was bound from Boston to Chicago. Among the victims are passengers booked to Canadian points.

The Canadian Pacific train consisted of nine cars, two of which were remolished. Both were practically solid Pullman trains. The accident occurred at 6.35 o'clock, and the wreckage took fire.

At ten o'clock twenty six bodies had been taken from the wreckage and the railway officials were of the opinion that the total death list might exceed 45. Some estimates place the death list between 30 and 40.

Twenty bodies were taken to Chesterton, Ind., and four to Michigan City, Ind., in automobiles. Identification of many of bodies was impossible because of their mangled condition.

The scene of the wreck is at the exact spot where the Hagenbach-Wallace circus train was demolished and approximately 80 persons were killed, several years ago.

The Canadian Pacific train was derailed on the New York Central track when the New York Central train bore down on it at 60 miles an hour, and the result was one of the most disastrous wrecks in history. Both of the engines plunged down the embankment.

Porter, Ind., is a railway junction point about 50 miles east of Chicago. It is here that the New York Central lines cross those of the Pere Marquette. The nearest cities are Gary, and Michigan City, Ind. The tracks cross in the open country and are visible for a considerable distance from either direction. All but four of the killed and injured were in the Canadian Pacific train. The tracks of the two railroads intersect here at a sharp angle, being almost parallel. The Michigan Central train was believed to have started across the intersection and then to have been stranded.

All of the victims so far as known, except two members of the New York Central engine crew, were occupants of the wooden day coach, and were mostly residents of Illinois, Indiana and Michigan points.

According to the railway officials the disaster was caused by the failure of the engineer of the Canadian Pacific train to heed the block signal at the cross over where the Michigan Central and the New York Central tracks intersect.

The farmers for miles around gathered to assist in the rescue work. There is no physician in Porter, and there were none on the train. The injured lay in agony for an hour before medical attention was available. A special train was put out from Gary, Ind., with nurses and supplies and the injured were taken back to Gary on this train. Fire broke out in the wreckage before all the victims could be removed. The flames were extinguished by volunteer firemen from Porter. It is said that some of the injured died in the flames.

The Canadians identified up to 8 o'clock this morning were: J. Collins and wife, London; Gordon Campbell, Revelstoke, B. C., Peter Kane, Regina, Sask.

TO RELEASE "LOVE" ABOUT MARCH 15TH

PUBLISHERS ARE ENTHUSIASTIC OVER EXAMINER'S NEW SERIOL STORY.

The following letter reached this office on Saturday and explains why we will not be able to relase the first of our new story entitled "LOVE" until about the middle of March. The letter follows:

February 24, /21.

The Examiner,
Peterborough.

Thank you very much for your telegram accepting the new serial story by Katharine Moore, entitled "LOVE." We are not ready to announce the starting date just yet.

We will probably be able to release the story about the middle of March. We assure you that in "LOVE" you have secured an intensely interesting story, clean and wholesome and one we are sure is going to be immensely enjoyed by all the readers of the Examiner. Our editors are very enthusiastic about this story and we believe you, too, will be the same as the story progresses each day.

Your very truly,
The George Matthew Adams Service.

FURTHER BOOM IN LAKEFIELD SEEMS LIKELY

SPRING CERTAIN TO BRING INCREASED INDUSTRIAL ACTIVITY AND SOME BUILDING.

RUSHING CEMENT PLANT

A year ago Lakefield had the greatest real estate boom in her history, and while it seemed almost impossible that this year will rival it, still there are many prospects of another boom in the Spring.

Property of all kinds is in demand as the price of building material is very high, still there is not likely to be a great deal of building done. There are some new buildings going up this spring which will do something to improve the appearance of the village. The spring will see increased activity in industrial circles. The work will be resumed on the new dam and the cement plant will be rushed along. Canadian winters do not allow for great activity at outdoor work though this year has been remarkably mild.

Canoe Trade Re-Established

The canoe companies are working hard on orders which are being shipped to various parts of the globe and the pre-war trade is coming back. The Lakefield company has made no effort to recapture the German trade which was suspended in the war years but trade with France and England and the Dominions is brisk. Lakefield canoes have made a great reputation for themselves.

New Public Library Popular.

The Public Library which is now established in its permanent quarters in the new town hall, is becomingly increasingly popular and the number of books going out each night is surprising when one considers the number of books. In order to relieve the congestion which occurs, especially on Friday nights, an open afternoon for the school children should prove effective.

The larger number of books that are in circulation are fiction and probably the juvenile have the next place. Poetry also ranks high which is rather a surprise to a great many. The Times' History of the War is one of the special features and was purchased at a considerable expense. These books are not used as much as their real worth merits.

One delightful feautre of the new rooms is the splendid lighting. During the day the large windows give light for those who use the reading room, and the electric lights are well placed for light in the evening. One more light over the case on the northwest side would be very helpful.

Sports Lag.

No one this year has been able to adopt the cry, so popular amongst some young people, "I'm tired of skating and winter sports." One skates when one can, and as for snow shoeing, so far it is non-existent. Even the curlers, who are enthusiasts, have found the winter rather a disappointment. The last ten days have been colder and have made the ice up to standard again, and in consequence the curlers are busy again.

New Residence.

Mr. N. A. Moore's handsome new cement block residence on Clementi street, is now nearing completion, and he expects to move in very soon.

Snowfalls help Farmers.

The snow falls on Thursday and Friday gave a new impetus to the farmers who are bringing in wood. This year it has been very difficult to get in wood and fully one-half of the fuel burned in the village comes in during the winter on bob sleighs, from the country, and the lack of snow has been rather alarming to many who sow their wood piles decreasing in an alarming manner and no fresh supply coming in. The few days of good sleighing are being made full use of.

Honestly is not only the best policy. It is the best principle.

You can lose just as much by speculating as you can by gambling.

The peacemaker has only one friend—the fellow who is being licked.

THE REFERENDUM LISTS.

The decision of the Dominion Parliament to make the qualification for voting upon the referendum in regard to the importation of liquor into Ontario two months' residence in the province, rather than in any particular constituency, is open to the objection that it makes it easier for fraudulent voters to take part in the referendum, but on other counts there is much to be said in favour of the method adopted. In the first place, it prevents a number of bona fide voters who, by reason of frequent change of residence, would otherwise be without a vote, from being disenfranchised. In the referendum taken in West it was found that there were many people without a vote because they had moved from one district to another just before the plebiscite was taken. There is no logical reason in a vote of this kind why such people should be refused a chance to express their opinion, for the referendum is being taken to secure the views of the whole province, not of any particular electoral district. No man or woman who is a bona fide resident of Ontario should be debarred from voting on such a question simply because he or she has moved from one part of the province to another. The amendment to the Dominion Election Act remedies this condition of affairs, so far as the referendum is concerned, and all that is required is two months' residence in the province.

THE SPEED LIMIT.

"The daily slaughter caused by reckless or careless driving of motor cars is the best evidence that 12 miles an hour is an excessive and dangerous speed for motorists to travel on streets where traffic is ordinarily heavy." Such is the opinion of Mr. Justice Idington, as expressed in a recent Supreme Court case at Ottawa, and his words are a strong endorsation of the resolution passed by the local Police Commissioners, asking for a reduction in the legal speed limit for motor cars. Some of the newspapers have been inclined to indulge in a little mild amusement at the expense of Peterborough, as a result of the bill introduced into the Legislature by Mr. Tooms, but the subject is too serious to be made the subject of jest. The "daily slaughter," as Mr. Justice Idington puts it, shows that the present limit is too high. Not even the most careful motorist can be considered safe from the danger of an accident when his car is travelling twenty miles an hour on a busy street, while the reckless or inexperienced motorist who drives at that speed is a menace to the community. The only solution, the only way to check the speed craze that seems to have so many car owners in its grip is to reduce the speed limit and see that the regulations are vigorously enforced.

HANDS OFF THE HYDRO.

Premier Drury cannot ignore the speeches made and the resolutions passed at the meeting of the Ontario Municipal Association in regard to Hydro-Electric matters. Unanimously the municipalities of the Province, partners in the great Hydro enterprise, have spoken, and the Government cannot fail to hear the united voices of the cities and towns. They have faith in the Hydro Commission, faith in the whole scheme of publicly owned and operated power, faith in themselves and their ability to contribute their share toward the success of the enterprise. They want no monkey wrench thrown into the machinery in the shape of a tax upon urban power users; they want no such interference with the progress of the great undertaking as would be bound to come if the Hydro were to be dragged into politics. They are opposed utterly to the appointment of a Minister of Power, because they recognise that to place the control of Hydro under such a Minister would be to bring the scheme into the field of politics, and once there its chances of success would be at least retarded, if not ultimately killed altogether. The Premier and his associates would be well advised to listen to the municipalities; in regard to Hydro affairs they are a much safer guide than The Farmers' Sun.

T&B
A Blend of Imported Virginia Leaf

A REDISTRIBUTION POLICY.

According to Ottawa advices Premier Meighen is preparing, if he weathers the present session of the House, to undertake the redistribution of the constituencies in Canada, according to the new figures of population shown by the census which is to be taken this year. Redistribution is a matter in which the people of Peterborough County are likely to be vitally concerned, for a report from an usually authentic source declares that according to the Government plans this county is likely to be represented by only one Federal member instead of two—the ridings of East and West Peterborough to be joined into one constituency.

It is not difficult to see, provided such a change is made, that a Farmer candidate under present conditions would have a royal chance of carrying the riding. East Peterborough is almost entirely rural, and with its voting strength added to that of the townships in West Peterborough, an Agrarian candidate would have a unique advantage, especially as the city vote would likely be split up between standard-bearers of the old parties.

There have been rumours, too, that the city of Peterborough was to be made a separate constituency, but the latest report seems to be the most likely development, especially as it is stated that Kingston, which has been a separate riding, is to be merged into the constituency of Frontenac.

THE GERMAN VIEWPOINT.

Germany is going to the London conference with a delegation of 60 experts to show the Allies, if they can, that to meet their demands means national bankruptcy. At the head of this imposing delegation is Dr. von Simons, Foreign Minister, who celebrates his departure with a typical outburst against Allied inhumanity and a declaration, in the best Brockdorff-Rantzau vein, of his willingness to "die in his boots" before consenting to such injustice.

The Allies are getting used to these tirades. So far as their direct effect is concerned they are hardly worth consideration. Their danger lies in the possibility that a wedge may be driven into Allied co-operation, which has already shown many fissures in its armour. Fortunately the Germans come to the conference with the Franco-British entente standing more solidly than it has done for many months past. M. Briand's crushing reply to M. Tardieu, courled with Premier Lloyd-George's magnetic appeal in the House of Commons, indicate, to those who care to read, that the peace front of the Allies is stronger and more unitel than it has been at any time since the Armistice.

Such unity and harmony must come as a warning to Germany that the Allies have no intention of being trifled with. Herr Erzberger, a few days ago, in the Reichstag, asked for a statement from the leader of the Social Democrats as to the consequences of a refusal of the Allied terms. Herr Scheideman replied on behalf of his own party, the Majority Socialists, pointing out that refusal would mean reprisals, Communism, hunger, the breaking-up of the federated states, which are even now chafing under the chains of restraint, and the disappearance of Germany as a world power.

The speech of Herr Schiedeman did not deal in mock heroics. It was a cynical but cold presentation of the facts, and with the words of this debate ringing in his ears Dr. Simons starts for London with arrogance in his heart and a tongue that shouts defiance to the Allies. Dr. Simons persists in his "come-what-may" attitude, and talks of tearing up the Treaty.

Germany is a most forgetful nation. She instituted a great war by breaking a treaty, and in the face of this recent experience she talks of disregarding the Treaty of Versailles. Such a shortness of memory may prove fatal. Treaties are not mere "scraps of paper."

Germany under the Treaty of Versailles may indicate how best she can meet the obligations for the payment of indemnities which its terms force upon her, but the terms themselves remain fixed and immutable by the order of those who framed them—the Allies.

Lloyd-George has made the situation quite clear. He declared in his speech in the British House of Common, the Allies may still have to deal with the same Germany that they dealt with in 1914—with men animated by "the same desires, inspired by the same purpose, waiting to achieve its ends."

All Germany, even including the Schiedeman Socialists, willed and were guilty of the war. The Allies will not tolerate any attempt, by defiance or subterfuge, to escape the just consequences of that crime. It is a matter of elementary justice that the wrongdoers must atone for their sins. Germany is still invited to tell the Allies how best she can pay, but Allied patience will be exhausted if Germany contineus her lean and flashy arrogance.

Yet when patience is exhausted, the Allies still have Foch.—Montreal Star.

EDITORIAL NOTES.

Well, any way, it will be a nice holiday for Hon. Manning Doherty.

And if Great Britain did happen to lift that embargo, what a chance for the U.F.O. Government to crow!

Premier Drury knows now, if he did not realize before, just what the municipalities of Ontario think about the Hydro policy advocated by the Special Committee of the Legislature.

By all means let the farmers have the benefit of Hydro Electric power, but don't ask the power users of the cities and towns to pay the shot.

Edmund Bristol, M.P., couldn't attend a banquet in Toronto because of his "parliamentary duties," so he informed the committee in charge. Those who know how seldom Mr. Bristol has been in his seat in the House have enjoyed many a chuckle over the message.

Ontario is more concerned about the Hydro policy of the Drury Government than it is over the British embargo on Canadian cattle.

A good many people would do well to heed the words of Sir William Mulock that the Ontario Temperance Act was not an issue in the Spracklin case.

February has been such a warm friend this year that there is not the usual gladness in saying good-bye to the shortest month in the year.

Striking the rate may be hard work for the Aldermen, but wait until the rate strikes us.

There has been no trouble this year in seeing that the snow-plough men got one day off in seven.

WISE AND OTHERWISE

Since the science of spookism seems to be making such excellent progress we may soon learn what great-grandmother, who powdered her hair, thinks of her modern descendant, who powders her nose.

With some twenty wars playing to crowded houses in Europe, and a few more booked, Mexico has shamefacedly conceded its failure as a stage-manager and has given the hook to revolution.

"Do you believe that environment is a contributing factor in the moulding of chaarcter?" asked the soulful eyed bit of vapour.

"Most certainly," he replied, "look at Kupon Klipper, the financial wizard, who was born on the first of the month."

Medical science is devoting considerable study to sleeping sickness, but the perpetrators of inspirational literature have been studying a form of the disease for some time.

"Greatness does not depend on size; if Napoleon had been living today he would never have got a job as a cop," read Jingo from the uplift pamphlet.

"Nope," admitted Bingo, "nor as a model for men's clothes advertisement illustrations."

"Speaking of the missing link," remarks the Backfence Cynic, "in reconstructing the world it looks as though the power of independent thought has been lost."

When Barnum made his famous remark about there being one born every minute he probably little thought that he was elucidating the principle of many so-called professions later to come into being.

TRADE WITH CANADA IS ONE-EIGHTH U. S. TOTAL.

WASHINGTON, Feb. 28. — Exports to and imports from Canada constituted 12 per cent. of the total United States trade during 1920, according to a statement issued here at the Department of Commerce.

Trade with Latin-America is increasing rapidly, and now constitutes one-fourth of all the foreign commerce. Forty-two per cent. of the total trade last year was with Europe and 19 per cent. with the Far East. Two per cent. of the trade was with Africa, the statement said.

A change of 21 engines is needed to pull the fastest present day passenger express train between New York and San Francisco.

STRONG AGRARIAN MOVEMENT SEEN IN EASTERN PROVINCES

Seed Sown Broadcast By Three United Farmers' Hired Men is Falling on Fruitful Ground.

CHARLOTTETOWN, P. E. I.—(Canadian Press).—The seed of the agrarian movement is being sown broadcast over the three counties of Prince Edward Island by three "hired men" of the United Farmers of the Province, and since eighty per cent. of the Islanders live by tilling the soil and raising stock, it is safe to say that it is falling on not unfruitful soil. The movement, unlike that spreading throughout other parts of the Dominion, is up to the present almost non-political in character and confines its attention pretty largely to economic problems, chief of which is the co-operative buying and selling proposition.

The question of amalgamation of the Canada Farm Products, Limited, the Prince Edward Island co-operative organization, which last year did a three hundded thousand dollar business with the United Farmers, Limited, a New Brunswick concern, was up for discussion at the first annual convention of the United Farmers of the Province in January. R. K. Tracey, of Centreville, N. B., President of the United Farmers Company, was present on behalf of that organization, and in the course of his address dwelt at some length on the advantages of co-operative buying and collective selling, dealing with the operations of his company, which has a chain of twenty-five stores. H. L. Taggart, M.P.P. of Truro, President of the United Farmers of Nova Scotia, spoke on the same matter.

A resolution looking toward the betterment of transportation facilities, which was unanimously passed by the convention, condemned the Canadian National Railways for high passenged and freight rates. Other resolutions strongly urged the standardization of the guage of the P. E. I. Railway and the building of a second car-ferry steamer to improve the Island-mainland service.

Although no resolution bearing directly on matters political was passed at the convention, there seemed to be a widespread opinion freely expressed that there should be a good many farmers in the Provincial House. A resolution was introduced suggesting that the number of representatives in the local Legislature be reduced from thirty to fifteen, but this matter was turned over to local branches for further consideration.

THE PIGS ATE BROKEN GLASS

WHITBY, Feb. 25. —While auctioneer Maw was conducting an auction sale of pigs in Uxbridge townships, 12 porkers in a pen, growing hungry, ate considerable glass from a window pane some one had broken. These pigs were sold for $17.50 each, and now that they are expected to succumb to their unnatural meal, the question arises, "who is going to pay for them." When sold neither auctioneer nor purchaser knew the pigs had been eating glass.

DON'T SUFFER WITH NEURALGIA

Use Soothing Musterole

When those sharp pains go shooting through your head, when your skull seems as if it would split, just rub a little Musterole on your temples and neck. It draws out the inflammation, soothes away the pain, usually giving quick relief.

Musterole is a clean, white ointment, made with oil of mustard. Better than a mustard plaster and does not blister.

Many doctors and nurses frankly recommend Musterole for sore throat, bronchitis, croup, stiff neck, asthma, neuralgia, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet—colds of the chest (it often prevents pneumonia). It is always dependable.

Employers may purchase for their employees—school boards for their teachers—congregations for their ministers.

Apply to your postmaster; or write, postage free, to S. T. Bastedo, Superintendent of Annuities, Ottawa, for new booklet and other information desired. State sex and age last birthday.

RAILWAYMEN STRIKE TO BEAT REDUCTION.

Woollen Mill to Re-open Fully—Important Industrial Troubles.

JOPLIN, Feb. 28.—A strike order, which union officials declared would tie up the Missouri and North Arkansas Railroad, operating between Joplin and Helena, Ark., was in effect Saturday. Enginemen, trainmen, telegraphers and station agents are affected by the call, which union leaders said was issued because of wage reductions of twenty per cent., ordered Feb. 1. Shopmen of the railroad walked out at Harrison, Ark., when the reduction was made.

TO FULL CAPACITY.

WORCESTER, Mass., Feb. 28.—The Worcester Woollen Mill Company announced Saturday that it will begin operating at full capacity as soon as its working force can be increased to its old size of 300 hands. The plant has been running several months with a force of only fifty in manufacturing heavy woollens.

REDUCING FORCES.

SCRANTON, Pa., Feb. 28.—Further reductions in the working force at all shops of the Delaware, Lackawanna and Western Railroad was announced here Saturday. Ten per cent. of all employees are to be laid off on March 1, the announcement stated. This is the second reduction, ten per cent. being laid off about a month ago.

A PRESENTATION TO LAKEFIELD CITIZENS.

Mrs. Adams and daughter, on the eve of their removal from Lakefield to Peterborough, were both presented by the Ladies' Aid Society of the Methodist Church with gifts and the following address of regret at their loss to the village and church:

Dear Mrs. and Miss Adams,—We, the members of the Ladies' Aid Society of the Methodist Church, wish to express to you our regret that you are about to move from amongst us. During your short stay you have proved valuable members, always willing in whatever way you could to assist in our work.

Wishing you to carry away something more tangible than the fond memories, we ask you to accept these gifts, and with them the best wishes of the society. May God grant to you success in your new field, wherever that may be.

Signed on behalf of the L.A.S.

For herself and daughter, Mrs. Adams made a suitable and graceful acknowledgment.

TELLETT REPRIEVED.

TORONTO, Feb. 26 (Canadian Press).—Charles Tellett, the Canadian soldier condemned to be hanged in London, England, next week, has been reprieved till 7th March.

Wakefield 4, Huddersfield 8.
Widnes 41, Durham 5.
Featherston 41, Pendlebury 0.
Broughton 15, Wigan Highfield 10.

OLD-TIME LANDMARK.

In the east end of Deseronto, Benjamin Richardson is tearing down a building that was undoubtedly erected by or for the late Colonel Culbertson before Deseronto was in the dream stage. Of material hewed by hand the building was perhaps the first school at what was then known as Culbertson's wharf. Some of our older people got their first knowledge of the rudiments of education within the four walls of it. Mr. Hearnes bought the property from Col. Culbertson and in time it passed on to his son, James H. Hearnes, now a resident of Deseronto. The building was probably the oldest in the town—going back over a hundred years to the date of erection. The material in it is in a good state of preservation. Mr. Richardson will use it to put up a stable on his property.

"To him that hath shall be given"—

Was the Biblical version of our modern saying: "Nothing succeeds like success." So it was with Dr. Pierce, of Buffalo, N.Y., who, over 50 years ago, gave to the world a Prescription which has never been equalled as a tonic for the weaknesses of women. Many women in every hamlet, town or city will gladly testify that Dr. Pierce's Favorite Prescription did them a world of good. Ask your neighbor.

Another of this great physician's successful remedies is known as Dr. Pierce's Golden Medical Discovery and, like the "Prescription," is now sold by druggists everywhere, in both liquid and tablets. This medicine was a success from the start, for the list of men and women all over the universe who have successfully used it for indigestion and as a blood tonic and system builder, makes an amazing total of thousands.

Rheumatism
Neuritis, Sciatica, Neuralgia.

Templeton's Rheumatic Capsules

Have brought good health to half-a-million sufferers.

A healthful, money-saving remedy, well known for fifteen years, prescribed by doctors, sold by druggists, $1.00 a box. Ask our agents or write for a free trial package. Templetons, 142 King W., Toronto

Local Agents — McDermid and Jury and E. L. Payne's Drug Stores. Lakefield—Tanner Drug Co.

TOO ATTRACTIVE.

SPRINGFIELD Ohio, Feb. 28. (Canadian Press).—Common Pleas Judge Goiger has promised women members of the jury he will have a curtain erected along the front of the jury box at least waist high. They had requested the Court to arrange it so litigants and attorneys might give their undivided attention to cases before the Court.

HAD AN ANNOYING HACKING COUGH
GOT NO REST AT NIGHT

Hacking coughs are wearing on the system. The constant coughing disturbs the rest and keeps the lungs and the bronchial tubes in such an irritated and inflamed condition that unless you get immediate relief the cough may become settled and serious lung trouble ensue.

There is no better remedy than Dr Wood's Norway Pine Syrup for relieving all kinds of coughs or colds, combining as it does the lung healing virtues of the pine trees with which is combined wild cherry bark, and the soothing and healing expectorant properties of other excellent herbs and barks.

Mrs. E. J. Ross, Penhold, Alta., writes "About three years ago I caught a very bad cold, accompanied with a sore throat and hoarseness, I was so hoarse that you could not hear me speak. I could get no rest at night with the terrible annoying hacking cough. I tried several remedies, but they did me no good. I finally saw Dr. Wood's Norway Pine Syrup advertised so I got a bottle, and after using four of them my cough had all gone. Now I always keep it in the house."

"Dr. Wood's" is put up in a yellow wrapper; three pine trees the trade mark, price 35c and only 60c a bottle. Manufactured only by the T. Milburn Co., Toronto, Ont.

WOMAN JUMPS FROM GRAND TRUNK TRAIN

Suffering From Nervous Breakdown, She Broke Pullman Car Window and Leaped.

BROCKVILLE, Feb. 28.—Suffering from nervous breakdown, a woman named Mrs. M. Johnston, jumped from the Pullman car window opposite her berth on Grand Trunk train No. 18, bound east from Toronto, where she had been placed on the train en route for Vankleek Hill. Travelling at a speed of 45 miles an hour, the train was nearing Collin's Bay shortly before daybreak, when the woman broke the glass and leaped to the ground. Pullman Conductor C. Morrison heard the noise and saw Mrs. Johnston leap. The train was at once stopped, and a search of the track revealed nothing but a woman's handbag containing the name, "Mrs. M. Johnston," Toronto. Later the woman was found in a farm house, uninjured, except for several cuts about the head, for treatment of which she was conveyed to Rockwood hospital, Kingston.

MEIGHEN MEMBERS WANT GRAIN PROBE

Immediate and Thorough Action Urged by Western Members of Parliament.

OTTAWA, Feb. 28.—There is evidence of strong pressure to come from western government supporters for a royal commission to investigate the whole western grain situation. The suggestion that there should be a complete investigation came first in the speech of R. C. Henders (Macdonald, Man.), who has since been given support in his request by all the western farmer members on the government side.

The balance of the debate will probably see a strong demand for the appointment of such a royal commission from the other western government supporters who are yet to speak, and it is believed that the government will not be averse to granting the wishes of the western members. If a commission is appointed requests will be made of the government to have it start work at the earliest possible date, and to investigate the operations of the Winnipeg Grain Exchange for several years back.

Western members on the government side are also showing considerable interest in the suggestion thrown out last night by Colonel Norman Lang (Humboldt) that the government should organize an "improved wheat pool," which would handle the marketing of all grain on a co-operative basis and have the backing of the government and the banks. Several of them this morning stated that they would not be surprised to see something of that nature worked out.

ONTARIO FARM LAND WORTH $70 AN ACRE.

Values Increase During 1920, But Live Stock Prices Decrease.

OTTAWA, Feb. 28 — The average values of farm land in Canada were higher in 1920, as also were farm wages but values of farm live stock and of wool showed a considerable decrease, according to the Dominion bureau of statistics' annual report for the year in question.

The average values of occupied farm land in Canada, including both improved and unimproved land, together with all classes of farm buildings, was $48 per acre, as compared with $46 in 1919, $41 in 1918, $38 in 1917, $36 in 1916, $35 in 1915. British Columbia led the provinces owing to the special value of land there for fruit growing. The average values in that province was $175. In Ontario the average value was $70.

Average farm wages increased over the preceding year. Alberta and Saskatchewan farmers paid the highest 1920 farm wages in Canada. The total value of live stock for 1920 amounted to $1,041,246,000, as compared with $1,296,602,000. The total value of farm poultry in 1920 was $37,015,000.

LEG BROKEN BY AN AUTOMOBILE.

Motorist Crashes Into Young Farmer's Cutter — Goes on His Way Without Offering Help.

KINGSTON, Feb. 28.—H. Hughes, a young farmer residing a few miles down the Rideau, lies in the general hospital here, suffering from a fractured leg and other injuries received when a Ford car smashed into the cutter in which he was driving with his sister to this city.

Although night when the incident occurred, it was quite bright, and the road could be followed with little difficulty. The car came up behind with only one front light burning, and Hughes turned out to give passage. The motorist, however, instead of keeping to his side of the road, crashed into Hughes' cutter, throwing him and his sister to the ground. The horse took fright and bolted. Miss Hughes escaped free of any injury whatever. The car driver slowed down slightly, but passed on without stopping to ascertain what damage had been done. The police are trying to locate him.

'FLU EPIDEMIC IN HALIBURTON

HALIBURTON, Feb. 28. — An epidemic of what is almost the same as last year's "flu" is abroad in Haliburton village, but is affecting the young children more than others. Scores of little ones, two years and under have been ill, many of them with pneumonia.

THE TIMBER WOLF.

WASHINGTON, Feb. 28. (Canadian Press).—A mighty deer slayer, with a side line taste for sheep, is to be exhibited soon at the National Zoo here. He is a timber wolf trapped by a government hunter in the Cascade Mountains in the Pacific North-West after having killed a thousand deer. With its mate, the deer slayer is credited with having killed twenty-seven sheep in a single night.

WHISKEY IN BATH TUB.

GREENVILLE, S. C., Feb. 28. — (Canadian Press.) — The police recentuy discovered a 75 gallon capacity whiskey distillery in full operation at the home of George Hall. A suction system emptied the liquor through faucets into a bath tub and when the officers arrived a woman hopped into the tub and splashed around in an effort to throw off suspicion. But the inventor forgot to devise an odor absorber.

Time for a "forced march"

"A man he seems of cheerful Yesterdays, and confident To-morrows—"

And—there you are! Selling goods or advice is a matter of complete understanding of two things: conveyance of information as to nature and quality to buyers; and the creation of a desire to buy, in their minds.

It is simple.

Like all things essentially simple and apparently easy, it is, however, full of pitfalls for the unwary.

One mistake most readily made by the advertiser who is not a deep student of the subject is to curtail or omit his customary expenditure for advertising in periods of uncertainty.

• • •

Whereas that is the time for a Forced March.

The keener the competition among producers and sellers, and the less eager or more diffident the consumers, the greater is the need for additional activity and intensity by the advertiser.

This is the Time of Times for using Daily Newspaper Advertising.

The Daily Newspaper is the medium of the moment—the axis of opportunity; flexible, powerful and instantaneous in its ability to create sales.

The Daily Newspapers of Canada welcome the challenge of present business conditions. They can be used to overcome them by almost every manufacturer and merchant prepared to make a "Forced March" with his advertising.

Advice as to the best ways and means of doing this will be given to those who inquire of us; or consult any recognized advertising agency—a list supplied on request.

Issued by the Canadian Daily Newspapers Association.
Head Office—Toronto.

C.A.S.

THE OPPORTUNITY IS HERE FOR YOU TO BUY THESE NEWEST OF **SILKS AT SPECIAL PRICES.** SEE THEIR QUALITIES AND RICH, ALLURING SHADES—**THEN BUY BY COMPARISON!**

RICHARD HALL & SON

REV. JAMES SMYTH AT GEORGE STREET

Yesterday Rev. James Smyth, B.A., LL.D., of Montreal, delivered two interesting and instructive sermons. In the morning he preached at Trinity Church, and in the evening addressed a large gathering at George Street Methodist Church. At the evening service Rev. Mr. Smyth took for his subject "The Message of the Master to the Men of To-day." The service at George Street Church was specially for young men. A male choir was provided for the occasion, and gave several musical numbers, under the direction of Mr. J. H. Renwick. Mr. Joseph Nasimok and Mr. E. Haggart contributed a violin number. Mr. Earl Barrie led in prayer, and Mr. Charles Armstrong read the evening lesson.

The Evening Address.

"For the Son of Man is come to seek and to save that which is lost."—St. Luke 19, verse 10.

This was Dr. Smyth's text at the George Street service. In his opening phrases he made reference to Christ's adoption of the phrase, Son of Man. No one other than He mentioned this name, and after His time the phrase was dropped and He was called the Son of God. In letting the name sink into oblivion, Dr. Smyth felt that the Christian Church had made a mistake for all that the term had meant, Christ's love for man, was obscured at the same time.

"What Is the Message?"

Men everywhere, he said, are asking what is the message of the Christian Church to them to-day. The Methodist Church has a committee at present in Toronto investigating this matter. "What is the message and mission of Christianity to-day?" It seems to me to-day we must get at the message and mission of Jesus Christ if we are to determine what the Church's message and mission should be. "We must find out what the message and mission of Jesus Christ was while in this world."

Progress of the Church.

Twenty or thirty years ago, Dr. Smyth pointed out the Church was not as worldly in the sense that it did not have such a wide furrow to plough as to-day. The Church is advised that it must enter into the economics of the land, separate capital and labour, interest itself in politics, and so on. When he was a young man the Church did not think of these in connection with the Church programme. The congregations sang

"I'm but a stranger here,
Heaven is my home;
Earth is a desert drear—
Heaven is my home."

They may have longed for heaven inwardly, but outwardly there was no manifestation of ethereal ambitions, he said. "I do not think that the people will be content with the Gospel of our fathers—that is to say, the men of to-day will not accept a doctrine on a post-mortem appeal. Between those fanatics who demand a wide broadening out of the Church and those who still believe the Church's main function is to save souls from purgatory, Dr. Smyth saw a middle road. He admitted that the Church to-day must concern itself somewhat with economics and world struggles, but what he declared the world needed to-day was "sane evangelism" and "good news" — that is optimism of the Church's activities and the conquering of evil.

Christ's Example.

Zacchaeus, the rich publican, was a sinner, so the people said, and they scoffed at Jesus associating with him, but He reminded them that "the Son of Man came to seek and to save that which is lost," and salvation came to Zacchaeus. The minister, continuing, told how Jesus restored those who had fallen—the woman who would have been stoned, the crucified robber—Christ came to save all this, for He knew of it. He knew the shepherds were to blame. "For the state of Montreal, Toronto, or Peterborough who is to blame? Is it the Church? Is it the Gospel they preach? Is it the Gospel of Christ—to seek and to save? If not, why not? Dr. Smyth asked. He said he knew of one Church following Christ's teaching — the Salvation Army, and he warmly praised that organisation for its humanitarian, uplifting efforts. "Methodism used to do it," he said pointedly.

Scores Churches for Aloofness.

He scored the Churches for their aloofness to working in the slums and underworld, and getting under the surface. "Many of our Churches have become comfortable and respectable clubrooms for the rich," was his slashing statement. He declared that while he taught theology, he believed "that there is enough theology in the parable of the prodigal son to save anybody." There should be fewer fine churches filled with slum landlords, ostensible Christians, and more work like the Salvation Army carries on, according to the speaker. "We have forgotten the example of the Master. Christ violated all the religious conventionalities of the day, for He saw a faithless Church, false ecclesiastics, and false standards of goodness, and while Dr. Smyth would not say the Churches to-day were in that condition, they had not been all they should have been. There was too much sham and gilt paint.

Christ mingled with the ordinary men and women, and His footsteps should be followed by the Church to-day. Concluding, Dr. Smyth quoted from Thomas Moore's great hymn, "Earth has no sorrows that heaven cannot heal."

ADDRESSED KEENE MEMBERS OF CLUB

EGG CIRCLE PROPOSED FOR THE DISTRICT—KEENE NEWS OF INTEREST.

KEENE, Feb. 28. — Messrs. McCrea and Brethon, of Norwood, addressed the ladies of the U.F.W.O. Club on Friday afternoon for the purpose of forming an egg circle. A final decision will be reached when delegates from the different clubs will meet at Norwood on March 11th.

Soldiers' Memorial.

The Coughlin Monumental Works, of Peterborough, who are the contractors for the municipality of Otonabee memorial monument, have made the delivery, and work on the erection will begin at once, and the committee of arrangements are hoping to have the unveiling on the 24th of May.

Mrs. George Hunter received word on Friday of the death of her brother, Mr. George Skinkle of Warsaw.

Visited Hastings.

Misses Josephine Kenneally and Pearl McCann motored to Hastings Sunday evening and spent the evening with friends.

Mr. R. Gillman, of Harwood, was in the village Friday on business.

Mrs. John Edwards spent a few days the past week with Peterborough friends.

Getting Better.

Little Owen McCarthey was able to return home with his mother, Mrs. Margaret Marthey on Saturday from the Sick Children's Hospital, Toronto, where he has been convalescing since an operation a week ago.

Mrs. Stanley Taylor was in Peterborough a few days the past week.

Rev. A. J. Terrill, B.A., B.D., of Norwood, will occupy the pulpit on Keene Circuit next Sabbath.

Mr. and Mrs. John Hetcher returned on Saturday from Bewdley and other points in Monaghan, where they had been visiting friends.

Quilting Bee.

Mrs. John McFee entertained twelve ladies with a quilting bee at her home last Thursday afternoon. A very pleasant time is reported.

Miss Laura Myers is with friends in Peterborough.

Misses Kate McNeil and Kate Skinner were in Peterborough on Friday.

Miss Dinah Nelson is very ill.

Curling Match.

Two rinks of Norwood curlers played with Keene curlers on Wednesday afternoon and evening. A return game was played on Friday, when two rinks from Keene played in Norwood.

Mr. S. E. Dickerson, of Toronto, spent the past week at the home of Mr. and Mrs. Henry Fletcher.

Congregational Meeting.

Last Tuesday evening the members of the Methodist Church held their annual congregational meeting. Various reports were given from the different branches of church work, which was followed with dainty refreshments and a social evening.

Miss Belle McIntyre has been quite ill during the past week.

Miss Mary Connall is visiting friends in Toronto.

Welfare Club.

The members of the Social Welfare Club of the Methodist Church have rented the Foresters' Hall, which they will fit up and use for a clubroom.

Messrs. John Drummond and William Fletcher, auditors, have been busy the past week auditing the township books.

The Ladies' U.F.W.O. Club will hold a meeting at the home of Mrs. Fred. McIntyre on Thursday afternoon of this week.

Mr. William Shearer, of Peterborough, was in the village the past week on business.

Louis, the seven-year-old daughter of Mr. and Mrs. Vincent McCarthey, has been very ill the past week with pneumonia.

A Partnership.

Mr. George Edwards has entered into partnership with Mr. J. J. Barraclough in his sales and garage stable on Main Street.

Mrs. William Stillman, of Campbellford, was called home this past week on the account of the serious illness of her father, Mr. Edward Braden.

The Knox Minstrels, of Peterborough, gave their entertainment in the Town Hall last Friday evening.

Mr. Malcolm McIntyre, of Peterborough, is busy remodelling and putting in hardwood floors in the property belonging to Mr. B. Kindred on Church Street.

Mr. William Kemp was in Peterborough Saturday on business.

Mr. Garfield McKinnon, secretary, representing the Rural Mail Carriers' Association, was in the village on Saturday on business.

Mr. and Mrs. Andrew Brown, of Peterborough, were in the village on Sunday.

Mrs. James McCann spent the week-end with friend at Peterborough.

PETERBORO BOY OPERATES STATION

On Forest Hill, in Kitchener, there is a little wireless station owned by a Mr. Carl Rumpel, now being operated in his absence by Hubert S. Gowan, a son of the late Dr. Gowan of this city. It is rather surprising to learn that an amateur station of this sort in a little place like Kitchener has sufficient strength to pick up calls and messages being sent out hundreds of miles away, but the operators say that it is nothing out of the ordinary to hear messages from Kentucky and other States far in the South.

At times here the ether seems alive with messages, each of its own distinctive pitch, flooding in upon each other as the tuning apparatus is regulated to select one call from among the many. When this is done, the desired call is heard louder, while the interference caused by other messages being sent at the same time is practically eliminated.

In the midst of a succession of calls and messages, suddenly there comes at times the sound of a human voice, clear and distinct. Only a word or two can be heard at a time, and as there are no strong wireless telephone sets in Ontario, it is presumed that these stray voices are carried through the ether from somewhere to the south of the Great Lakes.

Aside from the strength of its receiving appartus, the Forest Hill station is also equipped with a transmitting outfit of good strength. Up to the present, Walkerville, Toronto and intermediate points have been reached. It is thought, however, that under good atmospheric condition, the set is capable of sending to the south shore of the Great Lakes.

The young operators have had much success with their experiments, which have been conducted for over a year now.

CHARLOTTE STREET RESIDENTS SUFFER SCREECHING NOISE

There is one thing that modern science and modern invention, in the onward march of progress of this wonderful world of ours, seems to ignore completely and that one thing is that minute interweaving network which controls all our actions and feelings, our nervous organization. Our forefathers, with their long lives and placid existences, had none of the time-saving appliances that surround us on every side, but they had peace, good eyesight and good hearing. We have the telephone, a wonderful convenience, with its jangling bell; the telegraph, click-clacking all day long; the automobile and its raucous siren to replace the rythmic beat of the horses' hoofs and the merry tickle of the sleigh bells, and we have in our own town some fine examples of the blatant street car. These new one-man arrangements are the noisiest contraptions that a person could wish for. The door opens with a long-drawn hiss, even while the car stands motionless some invisible demon clanks his dismal chains, and a trip down town is a bumping, clattering, rattling, banging ride that absolutely prohibits all conversation and makes one wonder how the gentleman in charge of this noisy chariot can manage to stand it out for any length of time.

Now comes a complaint from the peaceful citizens on Charlotte Street and near the boundary that, added to all this, these cars have taken advantage of the icy rails to include an unbearable, scraping, screeching noise to their daily musical offerings, and a request has been made for a pail of grease or something similar to soothe the cries of the agonized steel in this vicinity of the city.

SURPRISE PARTY FOR MISS P. LUCY

Social Event at the home of Miss Ollie Foster, Park Street.

A very pleasant evening was spent Friday last when Miss Ollie Foster entertained a large number of friends at her home, 287 Park street.

The event was a miscellaneous shower given in honour of Miss Pearl Lucy. After a programme of instrumental and vocal numbers had been given the real surprise of the evening was sprung upon Miss Lucy, when a huge basket of useful and costly gifts was emptied in front of her chair. Although taken by surprise Miss Lucy replied in feeling terms her appreciation of the kindness of those assembled.

Dainty refreshments were then served by Miss Foster, assisted by Mrs. Williston.

After a hearty vote of thanks had been tendered the hostess and many good wishes passed on to Miss Lucy, the happy gathering dispersed to their separate homes declaring the evening one to be long remembered in their social circles.

IRONY IN DRESS

BOSTON, Feb. 26.—Ironic definitions of articles of feminine apparel now in fash on were given at a conference of the Massachusetts parent-teachers' association by Mrs. Dallas Lore Sharp, chairman of the social community life department. Some of them were.

"Dress: A way not to cover.

"Hat: A way to smother the head.

"Blouses: A way to expose, often indecent the most characterist cally feminine portion of woman's anatomy.

"Shoes: A way to make cripples.'

"We women," Mrs. Sharp added, "have surely earned the right to the title of the silly sex."

BANK CLEARINGS FOR THE MONTH

Clearings for month of February, 1921—$3,378,990.

Febraury, 1920—$3,177,888.

February, 1919—2,486,985.

WRONG PRICE QUOTED.

In Friday's and Saturday's advertisement for the Canadian Packing Company, Ltd., a mistake was made in the pricing of Rose Brand Lard and Pure Lard, much to the annoyance of both the customers who read the advertisement and to the stores of the company in having to explain that it was a mistake. The advertisement is appearing correctly today and to-morrow, quoting Rose Brand Lard at 28c and Pure Lard at 25c.

WINTER RECIPES

Bran Muffins.

Mix a cup of sour milk, a teaspoon of soda, two tablespoons of molasses, half a cup of flour, a cup and a half of bran, a little salt and one egg. Turn into muffin tins and bake.

Oatmeal Cookies.

Mix two-thirds of a cup of shortening or oleo, one cup of sugar, one egg, a fourth of a cup of milk, two teaspoons of baking powder, three tablespoons of cocoa, a cup and a half of rolled oats, and just flour enough to make the cookies stiff enough to roll. Bake in a quick over.

Apple Pot Pie.

Fill a deep dish with pared and sliced apples. Add a little boiling water and bake in a hot oven until tender. Cover with a pastry made as follows: Mix a cup and a half of flour with four tablespoons of oleo and a little salt. When well mixed add enough cold water to make a dough, toss on a floured board and gently knead a minute. Spread with a thin layer of oleo and gently pat together. Cover the dish of apples with this and bake in a quick oven. Serve with a sauce made by boiling two tablespoons of butter, a cup of maple syrup into which a tablespoon of flour has been dissolved. Serve hot.

SINN FEINERS EXECUTED.

CORK, Feb. 28. — (Canadian Press).—Six Sinn Feiners held in jail here who had been found guilty of levying war against the Crown forces and were condemned to death, were duly executed by the military this morning. The men were shot in batches of two each at intervals of fifteen minutes. An appeal for clemency had recently been made by the Cork corporation.

We Are on the Threshold of Spring— When We Doff the Old and Don the New!

As crisp and refreshing as a bundle of new spring blossoms are the new garments for spring.

Made of many lovely fabrics in charming colors and in beautiful models. Each one seems specially designed for some stylish maid or matron, as though your own clever dressmaker had created it just for you.

Styles are delightfully original. The materials have been chosen with much taste and discrimination. The workmanship and finish are above criticism. Chief charm of all is their becomingness when you try them on.

For Springtime Wear— The All Important Suit

WOMEN who are looking for Easter suits that are different will be pleased with our unusual assortment. So varied are the styles that it is impossible to describe each and every one of them in detail. Some are strictly tailored, others loose jacketed models, a few cleverly stitched with hand embroidery, emphasizing the new Czecho-Slovakian influence. The values are interesting and you are sure to find the suit most fitted to your taste in this group. Prices range all the way from $39 to $95.

Wraps Smart Women Will Wear This Spring

ALL the most representative wraps are here, from the short swagger sports model with raglan sleeves and belt to the dressy cape coat and the wrap which shows Czecho-Slovakian influence in its lines and embroidery. There are coats and wraps for every hour and fashion of the day. The price range is as comprehensive as the styles beginning low in the scale for those who would pay little and get much for it to prices which define the most exclusive in workmanship, style and fabric. Priced from $19.95 to $98.95.

Frocks of Taffeta Are Here to Meet Spring at Only $29

A VOGUE that is conceded more and more popularity is the frock of taffeta. This fresh, crisp fabric has been made up into delightful little models that breathe of old-fashioned charm and simplicity. All the newest spring colors: silver grey, dove grey, Dutch blue, taupe, brown, navy and black. From $29 to $62.

New Spring Blouses of French Voile and Batiste

WHAT could be more distinctive than these sheer French voile and batiste blouses with exquisite hand drawn work. Fichu and jabot effects, specially good with the Spring suit. The colors include flesh, cherry, green and white. Priced from $3 to $8.50.

The Fashionable Woman Adds to Her Comfort and Style, the Separate Skirt

TAILORED, box or side pleated—there must be a separate skirt for street and sports wear. We have an excellent range to choose from in Burrell's serge and wool plaids and stripes. Priced from $15 to $29.

SLEEP SICKNESS IS MYSTERY YET

NEW YORK DOCTOR CLAIMS THAT IT IS AN OLD DISEASE, VIRULENT IN WINTER.

NEW YORK, Feb. 28.—Sleeping sickness is communicable and the many forms of the disease are due to a microbe, said Dr. Simon Flexner of the Rockefeller Institute, lecturing on the ailment yesterday in the New York Infirmarry for Women and Children, 321 East Fifteenth Street.

It is not correct to call the disease "lethargica encephalitis," he said, since it frequently does not display the sleep symtom. Often it induces excessive wakefulness, restlessness and delirium.

Because of its variable course, Dr. Flexner suggested that it be named "epidemic encephalitis."

"I can only hope," he said, "to give an account of the disease which will fairly summarize our present knowledge of it, particularly in its pathological relations. When a new disease is announced, feeling about it is unusually of two kinds. On the one hand there is skepticism and on the other fear and a little panic because the physician who handles a case never has had one before.

"It is a fair assumption that there is no such thing as a new disease, at least there has been no discovery of a new disease in modern times. Sleeping sickness is not new in the sense that the world is being introduced to it; it is new in the sense that it is being introduced into this country. Historically the disease is old, just how old it is difficult to say.

Hard to Trace Its Age.

"The difficulty in estimating its age arises from the outstanding symptom—coma. Coma is common to many diseases and in going back to the great outbreaks of sickness in the past it is difficult to single out coma from sleeping sickness and coma from something else.

'An epidemic of sleeping sickness prevailed in 1712 in Germany. The next evidence of its epidemic form was in 1890 when it broke out on the borderland between Italy and Austria and raged for two years. The present crop of sleeping sickness came into being in 1916 near Vienna. By 1918 it had got into France and England and early in 1919 it came here and we have had it ever since.

"It is essentially a disease of the central nervous system. There is something about diseases of this system which make them especially complicated. In sleeping sickness the symtoms appear according to which part of the nervous system is attacked. The disease is not always accompanied by deep slumber; it is not always lethargic. Often the patient is restless, maniacal and delirious.

"While the manifestations may vary, it is highly probable that they are due to one cause. It surely is due to a micro-organism—that is, it is infectious.

"There has been some increase in the last few weeks, both here and abroad, but it has not meen great. This is the period when it is due to prevail; it is a mid-winter ailment. You are to think of it as a micro-organism that sets up an inflammation in the brain, "usually as the third ventricle. No one has yet seen this micro-organism.

Cause of Sleep Mystery.

"What causes the patient's sleep? There is no reason to believe in the light of the studies so far carried out that it is caused by poison in the blood, a toxin produced by the disease. It seems more probable to attribute the slumber to mechanical causes, to cells which are carried to the optic mechanism ,shutting out light and induing the pre-requisites for sleep."

Dr. Flexner characterized the sleep malady 'as the second of a great epidemic of nervous diseases, the first having been poliomyelitis or infantile paralysis. In a discussion of encephalitis and kindred nerve complaints, Dr. Flexner spoke of the "Australian disease,' a mysterious malady which appeared in 1917 in Queensland, New South Wales and Victoria, the eastern seaboard of Australia. He said that it was a destructive disease, the mortality averaging 70 per cent. It first was thought to be a virulent form of poliomyelitis; but tests disclosed that it attacked the brain instead of the spinal cord, somewhat after the fashion of "epidemic encephalitis."

TO BE TROUBLED WITH CONSTIPATION

THE CAUSE OF MANY ILLS

If you do not feel well and go to your family physician, one of the first things he will do is to ask you to hold out your tongue. The reason for this is that the condition of the tongue shows the condition of the stomach and bowels.

If you allow your bowels to become constipated you will have bilious attacks, sick headaches, coated tongue, foul breath, heartburn, water brash, etc, and those troublesome piles which cause so much annoyance and misery.

Keep ouyr bowels moving regularly and you won't be sick.

In Milburn's Laxa-Liver Pills you will find just the remedy you require for this purpose. They are purely vegetable and do not gripe, weaken or sicken.

Mr. James S. Harris, Box 9934, Halifax, N. S., writes: "For two years I sugered with constipation. I could not get anything to cure me, and hardly anything would give me even temporary relief. One day my uncle induced me to try Milburn's Laxa-Liver Pills, and even brought me a vial. I tried them without much faith, but I soon found that they were doing me good, and after using the second vial I was relieved of the trouble."

Milburn's Laxa-Liver Pills are 25c a vial at all dealers, or mailed direct on receipt of price, by The T. Milburn Company, Limited, Toronto, Ont.

CAVAN NEWS

CAVAN, Feb. 28.—Mrs. I. Wood, who has been spending the winter in Toronto, has returned home.

Mrs. Hill, Sr., is visiting relatives in Haldimand.

The Boys' Club held a basket social in the basement of the church on Wednesday evening last, which was well attended. The proceeds amounted to over fifty dollars.

Miss E. Wellsted, of Tamworth, has been spending a few days with friends here.

Mrs. Robt. Hutchinson, who has been seriously ill, is now convalescent.

Mr. Teasdale Harkness has purchased the Vance farm at Ida, having sold his own to his brother, Thomas, of Millbrook.

GENTLEMAN'S AGREEMENT.

COBOURG, Feb. 28.— While it has been reported that Mr. Hurt, of Hamilton, had been engaged by the town council as bandmaster of Cobourg's band, at a salary of $1,200 a year ($700 to be paid by the corporation and $500 by the pavilion), Mayor Hooey announces that this was but a gentlemen's agreement. The resolution, he says, to guarantee a salary of $1,200 was not put to Council and carried. Personally, the Mayor will not stand for more than $500 going into the town estimates for any bandmaster.

HANDY TO HAVE

A convenient receptacle to have around the garage for cleaning bolts nuts, and other small parts is made by removing the bottom from a 1 lb coffee tin and soldering in its place a coarse wire screen. The parts to be cleaned are then placed in the tin, the cover put on and the receptable is shaken in a larger pail containing kerosene or gasoline. Dirt and grease is separated from the parts by the oil and is allowed to fall through the mesh

LESS MEAT IF BACK AND KIDNEYS HURT

Take a Glass of Salts to Flush Kidneys if Bladder Bothers You.

Eating meat regularly eventually produces kidney trouble in some form or other, says a well known authority, because the uric acid in meat excites the kidneys, they become overworked; get sluggish, clog up and cause all sorts of distress, particularly backache and misery in the kidney region, rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation

The moment your back hurts or the kidneys are not acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days, and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder troubles.

Jad Salts cannot injure anybody, makes a delightful effervescent lithia water drink which millions of men and women take now and then to keep the kidneys and the urinary organs clean, thus avoiding serious kidney disease.

ROUND UP 36 AT HULL COCKFIGHT

HULL POLICE FOLLOW EXAMPLE OF TORONTO AND RAID COCKPIT.

OTTAWA, Feb. 28.—(Canadian Press)—Thirty six Ottawa, Hull and Eastview Sportsmen were caught in the Police Net when the Hull City Police raided a cockpit at 221 Notre Dame street, Hull, yesterday. Eight of the twenty one birds were dead when fights were interrupted by the officers.

KNUT AGAIN IN FULL LANGOUR

Almost Human Intelligence Behind Monocle.

LONDON. — (By Mail). — The gilded youth, immortalized in pre-war musical comedy as "Gilbert the Filbert, the Knut with a K," has not yet made his reappearance in his old haunts—not in any quantity, that is. But still here and there an occasional specimen is to be seen. A man I know was waiting for an omnibus in the Tottenham court road the other day when a perfect specimen strolled up, a creature so beautifully tailored, so disdainful of all the workaday world around him, that he seemed to be almost too good to be true. Screwing his monocle tightly into his eye, he addressed the omnibus conductor in tones of exquisite languor. "I say," he said, "does this 'bus go up—ah—Piccadilly?"

"Yes, sir," said the conductor.

"What?" drawled the young exquisite. "Past Dover Street and Albermarle Street, and all that sort of thing—what?"

"Yes, sir," replied the conductor again.

The young man's face took on an appearance of almost human intelligence. "By gad, you know," he said, as he prepared to clamber aboard, "this old 'bus is going to do me a bit of good!"

WOULD SELL THE ALIMONY CLUB.

Regret and Remorse By Bill Nye and Others.

NEW YORK.—Who wants to buy a nice, comfortable, steam-heated, hot and cold watered jail? Can be remodelled into three-room apartments or used as a sanitarium for persons recovering from the effects of the Eighteenth Amendment. Has walled in handball court and promenade. Suitable for bachelor quarters. Property has southern exposure on Essex Market place. Apply to David H. Knott, Sheriff of New York County.

Since many a true world is spoken in jest, there is more truth than poetry in the above announcement. For Ludlow Street Jail, the hoosgow that once held Bill Nye and inspired him to write, "A Guest at the Ludlow," and which has given a vacation to many an erring husband, is for sale. Sheriff Knott intends to put the bastile up at auction. He declared yesterday that it has ceased to be a jail and has become a white elephant.

"The city could keep prisoners more cheaply at Waldorf than Ludlow Street Jail," he said.

And in accordance with this pronouncement the Sheriff has recommended to Mayor Hylan and Commissioner Hamilton of the Department of Correction that the world famed Alimony Club pass into history. As an alternative Mr. Knott suggests the city provide some other jail for erring husbands and other offenders against the civil law. The Tombs is out of the question, he states, because the law provides that a civil prisoner must not be incarcerated with criminal offenders. West Side Prison, the Sheriff feels, would be an ideal home for the celebrated club.

Sheriff Knott argues that it costs the city $41,000 a year to house an average of 175 prisoners a year in the jail. At the present time there are about twelve inmates, which is about the usual number. The enforced visitors stay for varied periods, some for only a day or two, others from three to six months, and an occasional hard-shelled alimony dodger spend a year within the walls. The land and building are assessed for $200,000, from which, of course, the city obtains no revenue.

At any rate, the jail is not what it used to be. A recently enacted law robbed it of the romance which had surrounded it for years. This measure makes it possible to jail a delinquent alimoner again and again if he does not keep up his payments. The result has been that the tribute paying ex-husbands have found it easier to pay or else leave the jurisdiction of the State courts.

SUGAR CANE GROWING.

VALPARAISO. Feb. 26.—(Associated Press).—Sugar cane growing is to be attempted in northern Chile. Experiments are now in progress under the direction of a Spanish expert, and work soon is to be started on canals to irrigate the lands recently purchased by a sugar company of Tacna.

TELEGRAPH CASE DECISION.

NEW YORK, Feb. 26 Canadian Press).—Federal Judge Hand has denied the United States Government the rights to prevent the Western Union Telegraph Company from laying a cable from the Barbadoes to Miami, Florida.

Wise is the chap who apologizes before he gets a black eye.

It is sweeter to suffer when we suffer for those we love.

It's unlucky to bet $13 on another man's game on Friday.

Hustling and happiness are twins.

SHE TOOK HER MOTHER'S ADVICE

Now is in the Best of Health because she took Lydia E. Pinkham's Vegetable Compound

Kessock, Sask.—"My mother has taken Lydia E. Pinkham's Vegetable Compound and upon learning of my troubles advised me to try it, as I seemed all run down after the flu and had leucorrhoea very bad. I have taken Lydia E. Pinkham's Vegetable Compound and Lydia E. Pinkham's Blood Medicine and used the Sanitive Wash also Dr. Brown's Capsules and Prescription and am much better in every way. I am willing for you to use my letter as a testimonial as I recommend your medicines."—Mrs. IRENE NELSON, Kessock, Sask.

It is not always in business that a woman is forced to give up her work on account of ill health. It is quite as often the woman who does her own work at home. When backaches and headaches drive out all ambition, when that bearing-down sensation attacks you, when you are nervous and blue, the one great help for such ailments is Lydia E. Pinkham's Vegetable Compound.

B. C. HOPS IN BRITAIN.

LONDON, Feb. 28.—In the future hops grown in British Columbia will be placed on the same basis in the British market as the British-grown hops, though certain restrictions will still be maintained against foreign-grown hops, according to a statement made by Mr. Wade, agent-general for British Columbia.

DANGEROUS HIGHWAY.

COBOURG, Feb. 28.—A man here who took the C.N.R. for a public highway, was promptly arrested for driving his horse and rig up the track and over the viaduct. He was fined $10 and costs.

FORDNEY BILL ADOPTED AND SENT TO SENATE.

WASHINGTON, Feb. 28. — The conference report on the Fordney emergency tariff bill was adopted here by the House and sent to the Senate for final action. The vote was 205 to 127.

MRS. W. F. BAKER, of Milwaukie, Oregon, who says she has been restored to perfect health by Tanlac after having suffered for twenty years. Her statement is remarkable.

"For the last twenty years I have suffered from stomach trouble in its worst form. I was in misery all the time. If I took a drink of coffee or milk or even water, it would cause belching of gas. In fact, absolutely nothing would digest in my stomach. I always had an awful burning sensation in the pit of my stomach. I believe I have taken almost a wagon load of soda for stomach trouble. I would have to take it night and day. Gas would bloat me up so badly I couldn't fasten my clothes. At times my heart would palpitate and flutter so badly I would nearly smother and I would have to gasp for breath. In fact I thought I had heart trouble.

"I was very fond of cheese and the least bite would throw me right into spasms. I was also very fond of onions, but they would upset me terribly.

"My whole system was out of shape and I was also bothered with rheumatism and neuritis. Pains in my arms and other joints were almost unbearable. I had to carry one of my arms in a sling and couldn't raise it up to my head. My hands would swell up and for a long time I was in just an awful condition.

"I told my husband I guessed I would have to give up and die, as the doctors' medicines and other things I took didn't do me any good. Then he got me some Tanlac and said I had to take it. Well, before I finished one bottle, I found the things I would eat did not bother me so much. I kept gradually getting better and finally after taking five bottles, my trouble was entirely relieved. I can now eat onions, cheese or anything I want. In fact, I am in perfect health in every way. My neuritis and rheumatism have also left me. I know that five dollars' worth of Tanlac has done me more good than a hundred dollars' worth of other medicines. I will sing the praise of Tanlac as long as I live."

The above remarkable statement was made by Mrs. W. F. Baker, whose address is Milwaukie, Oregon, F. P. N. 2.

Tanlac is sold by the Warne Drug Co., Ltd.

SPRING FASHIONS

The Newest Suit Styles of the Year

Simple, sheer in straightness of silhouette, and altogether delightful in its youth suggestion of smart, short jacketing, and neatness of trim. The materials have new lusters in surfacings, and a pleasing gayety in the varied colorings which offer perfect opportunities for the most becoming - - - - selection to your individual taste. - - - -

The New Dresses for Spring Are Moderately Priced and Display a Host of Original Ideas

Never before have we shown such an array of Smart Cloth Dresses for Spring, and so altogether different in Style and Design. For instance, a Misses' model of beautiful Tricotine of Navy Blue, fashioned in the new Coat style, with Underdress of Brown Charmeuse. The Coat effect is extremely new and like a Man's Dress Coat, it fastens in front with a link. The lines are perfectly straight, except for the flare of the Skirt.

Other becoming and delightful modes are here in a myriad of Models, trimmed with rows of Silk Braid: also all-over, conventionally-cut designs worked on Navy Serge, with a contrasting coloured Braid.

The necks are shown in the majority of cases round or square. The sleeves are very fashionable, either three-quarter or full length.

But we must not forget to mention the striking and so different Dress with the flared, uneven Skirt, which we cannot help but feel will be very popular among the Misses, or even among the older type, as its smartness is delightfully becoming.

It Is Important—

That you do not overlook the fact that our **Sale of Pure Irish Linen Table Cloths Continues.** There are beautiful Cloths for a number of people yet who have not taken advantage of this Sale.

We might mention the fact that when this supply has been exhausted, we will not be able to duplicate the order. Therefore, we suggest an Early purchase before the Better Cloths have been chosen.

NEEDLE POINTS ON DRESS

By MARGERY STREETE
(Staff Correspondent of Cross-Atlantic Newspaper Service.)

LONDON, Feb. 28.— Gloves are mended more neatly if darned with cotton of the same shade rather than with silk.

To avoid tiresome ladders in the tops of your stockings, run a line of machine stitching an inch below where the supporter generally grips the stocking, stretching the stocking out well while machining.

All stockings will last longer if you darn them finely at heels, knees and toes before wearing them, while silk ones should be run out of clean, cold water, slightly blued, every time you take them off. You will get three times the wear out of silk stockings if you follow this cold water treatment.

When your white silk or crepe de chine blouse becomes yellow from laundering, you can turn it into a new-looking blouse by adding a few drops of ink to the rinsing water. Green ink gives you a delicate green, red an exquisite pink, or a mixture of blue and red a charming lilac, though sometimes I am content to color the rinsing water with some strong tea or a little coffee. Tea and coffee give you cream and old ivory tints. One word of warning when tinting—keep the blouses, ribbons or undies moving through the water. Do not let them lie, or they streak. You can liven up the color of your faded pink lingerie by dipping it in the red-ink-tinted water.

I always attach the ribbons, bows and rosettes to my boudoir caps and lingerie by means of patent fasteners, sewing one part to the bows and the other to the cap or garment, for being able to unclip instead of unpick them, saves a good deal of time and trouble when washing-day comes around.

It is not necessary to send a gown to the cleaner just because the lace yoke or insertions have become soiled. Instead, rub powdered starch into the lace, let it lie for a few hours, and then brush it out, when you will find the starch has absorbed both the grease and dust.

Do not bother with dust caps if you happen to have a rubber bathing cap. It is better, first, because it does not allow the dust to penetrate; second, because it never needs washing or ironing; third, because it does not allow the odour of cooking to get into the hair.

If the flowers of your hat look faded you throw them away. But you should not, for if you steam them over the tea-kettle, then pull them into shape, they will look as fresh as they ever did.

Nothing so increases the size of the ankles as baggy looking gaiters. So if your gaiters have become unshapely and badly fitting through hard wear, smarten them up by pressing them with a very hot iron over a cloth wrung out of hot water.

How to Look Your Best.

One reason why Englishwomen are acquiring a world reputation for smartness in dress is because they have at last taken counsel of their French sisters and learned the value of buying one good thing at one time and wearing it often, instead of purchasing a lot of fairly good things and seldom using them.

This is the secret of the well-dressed woman everywhere. The idea that you must spend a great deal of money to dress well was never falser than to-day, when all the shops are concentrating on the worth of the bargains they offer.

If you have only a moderate dress allowance you will double its value if you have but one costume of the best material and good cut. Moreover, if you have it tailored or even buy it ready made, choose something with smart, plain lines, and make sure that they suit your particular style.

Also resist the temptation to dissipate your allowance on several types and colors of hats. Instead choose one only and that on the special study of your own face, your hair, features, and then the lines of your costume.

A small, close-fitting toque of the same color or harmonizing shade should belong to the costume and always be worn with it. Also think in special terms for your gloves and shoes. Do not just drop into some shop and buy something because it is low-priced and "will come in use some time." The shops are full of special sizes and colors in this year of individuality. Yours are there if you will just search for them, and make sure that they are worn as part of the special toilette.

Feet Show Style.

The ubiquitous foot of to-day is almost the salient point of woman's smartness—it does not "peep" from beneath her flounces, nor does it suggest itself shyly from amidst billows of lace and frilliness; it steps boldly and proclaims a symmetry and beauty all unsuspected and differing completely from the type of which a century-old poet sings when he lilts of "her little twinkling feet."

A sage of modern times asserts that feet are indicative of type and character, that the beauty of a woman's foot depends upon its straight-lying toes, its grace of obvious comfort and the beautiful arched instep whose curve is unimpaired by unnatural pressure. Compared with this the pinched little foot pathetically mincing along in comfortless, if elegant, shoes is neither picturesque nor artistic, and the whole poise of the body, that can be so gracefully attractive in its freedom, is completely spoilt.

This fact has been widely recognized of late, and the change in the clothing and action of the foot of the modern woman is very remarkable. It may be large in comparison with the poor little foot that had to be crammed into "size two," whatever its real need, to fulfill the romantic demand of the poets who sang unvaryiigly of tiny feet; large, perhaps, but distinctly beautiful and, now that the admiring eye has become trained to its more generous proportions, attractive also.

Not only have the smartest makers of modern footwear awakened to the new feminine demand, but they have studied the true sense of the foot, and have produced models of extreme grace and beauty, seductive enough to charm the eye of the most critical, which in wearing leave the foot so free and unfettered that its perfect shape is as lovely when unshod as when clad in the daintiness of shoes.

After many years of high favor also, it is interesting to note the exit of the high heel, at any rate for regular walking, though it dies hard and goes out with something of a gasp.

The swinging grace of the woman of to-day is the result, although when amidst shaded lights and the brocade and foamy billows of evening, after the shedding of smart tailor-made and the compactness of morning gear, the high heel has its allure and is permissable.

Incidentally it may be remarked that an examination of the bare foot makes it evident that heels to footwear are quite unnecessary. There is no indication at present what we, owing to anatomical changes in our feet, intend eventually to walk on our toes. The upright position of the body can be maintained and the natural movements of the lower extremities in walking can be performed without the intervention of anything but the natural heel.

Protection, however, must be given against the roughness of the road and hardness of the pavement. And this, in days long gone by, was the original reason of high heels.

BIG BREAD WASTERS

NEW YORK, Feb. 26.—New Yorkers eat 2,500,000 loaves of bread daily and waste 1,000.000 loaves weekly declared Mrs. Louis Reed Welzmiller,, deputy markets commissioner at a meeting of housewives and wholesale bakers.

REPEAT PERFORMANCE FOR "OLD-FASHIONED MOTHER"

On Friday, Feb. 25th, the play, "An Old-Fashioned Mother," was repeated in Victoria Hall with great success. There was a large attendance and the performers received enthusiastic applause for their efforts. The quartette, "Sweet and Low," by Mrs. F. Russell, Miss D. Goodwin, Mr. H. Goodwin and Mr. M. Dunkley, was very beautifully rendered, and beteen acts Mr. M. Dunkley sang "An Old-Fashioned Mother of Mine."

HELD SUCCESSFUL TEA ON SATURDAY

The Ladies' Auxiliary of the G. W. V. A. held a very successful tea dance on Saturday afternoon from 4.30 to 7 o'clock in the War Veterans' Hall. The tables were prettily decorated with daffodils and excellent music was supplied by Follis' Orchestra.

NAPANEE THE GOOD.

NAPANEE, Feb. 28.—Since January first this year only an old man has been before the police magistrate of Napanee for drunkenness, reports Chief of Police Barrett.

CHURCH SERVICES AT MARK STREET

BOTH SERVICES WERE WELL ATTENDED—THE MORNING SUBJECT.

As usual, the morning congregation at Mark street was large and the full choir did excellent work. Rev. G. E. Ross took as his morning subject, "The Potter and the Clay." The discourse was founded on Jer. xviii, 4, "And the vessel that he made of clay was marred in the hand of the potter, so he made it again another vessel as seemed good to the potter to make it."

The Potter at the Wheel With the Passive Clay.

Jeremiah sees the potter engaged in a task to which he is devoting all his thoughts. He designs to make from the clay a vessel of a certain shape. The form of the vessel is present in the mind of the workman, and he is resolved that the material on which he works shall come forth in that form and no other. But apparently the clay disappoints him. Again and again the vessel flies to pieces when the work is almost done. Some inherent hardness in the clay comes in contact with the artist's hand, and the plastic vessel on the wheel is marred. The potter, gathering up the broken pieces, proceeds to do the best he can with the clay in his hands, but the vase which he now makes cannot be what it might have been. However, the fault is not with the potter, but with the material. The force and worth of this analogy is simply this, that God is trying to mould men and nations according to a divine plan.

There is a Divine Ideal Possible For Every Man.

Every human life is, first of all, an idea in the mind of God. The potter is an artist, and he embodies in the vessel the thoughts of his own master mind. Our beings are divine productions. God has not made any man simply for destruction, he has a pattern before him which it is possible for each man to reach. This divine ideal is not the same for every man, but it is appropriate to and in correspondence with each man's own environment. God does the best with the materials at hand. This ideal can only be attained by implicit faith in God, and willing obedience to his commands. A great philosopher has said, "We command nature by obeying her." And similarly we may say humbly we command God by obeying Him. If this faith and obedience is denied to God, the man's history is marred, and it is no longer possible for that man to be what, otherwise, he might have been. Sin mars the divine ideal for a man. It deprives him of the full advantage of the skill and help of God in the development of his character.

The Use of the Vessel Governs Its Shape.

This holds good in the shaping of human life. Man is created to be a vessel for God and of God; vessels for His sanctuary, set apart for his service. Lives tried in one shape are sometimes broken up and reformed to fulfil themselves in new spheres of different capacities and shapes of the Divine character and life. God leaves it to man to decide whether he shall be a vessel of honour or dishonour. Man is more than clay, and this is his crown. If we were mere clay, God being Lord and Maker of us, each would pass to the fulfilment of the Divine intention as stars and trees do, and there would be no after-story of sorrow—no divergence from the Divine plan. But we are human beings, not mere clay. The Creator has power over the lives he has moulded, but it is never so wielded as to quench the power of choice He has given us. And yet that very power of choice may be the inherent hardness in the clay which wrecks the Divine purpose in us and for us.

What is the Shape of the Vessel?

Some vases were costly. Thousands of pounds were paid for a single piece. One vase held the ashes of the mighty dead. Another bore wine to the monarch. Others burned incense in the temple of the Gods. What is the Divine intention for thee? The great Householders reserves for the highest honour the cup which carries the wine to his own lips, or to the lips of his guests. Oh, my people, can we not be cups for our God, and vessels of honour in his service here and now? The conflict against our Lord and His blood-bought church is becoming more desperate every day. To cover up thir greed of gain, every imaginable scheme that hell can devise, every kind of trick and trap that the devil can invent is placed in the path of youth to snare the unwary feet; and this is done by men who cry out "dog in the manger" simply because the church must do her duty. Let these men have the moral management of this city for one year and they would run themselves and every moral movement on the rocks. But the gates of hell shall not prevail against the church. This has been promised by Him whose word is truth.

God Puts Nations on the Wheel.

God would make the character of nations as well as men. Mighty England was long under the fashioning hand of her God. There has been resistance to the hand of the Artist at times, but on the whole she has yielded to the Divine Potter. This is why England to-day holds in her hand the peace of the world. Not so Germany. She was honoured by God. She was made the custodian of truth. But pride, jealousy, hate and unholy ambition came in contact with the potter's hand and Germany flew to pieces. This mighty nation was marred in the hand of the potter. You remember how our students of science, art, and even theology felt that it was necessary to go over to Germany to get rounded up. Yes, and our theological students came back loaded up, many of them, with higher criticism, and they began to tamper with the "Truth," and the "Divinity of Christ," and other great doctrines, until the modern pulpit, in many cases, is paralyzed. And yet we wonder why we have failed to reach the people. Happy is the man and nation whose character is fashioned by the hand of the Divine Potter.

SUNDAY CONCERT HEARD AT GRAND

BAND OF THE 4TH MACHINE GUN BRIGADE RENDERED ENJOYABLE PROGRAMME LAST EVENING.

The first of a series of Sunday evening concerts was given in the Grand Opera House last night by the band of the 4th Machine Gun Brigade, under the direction of Lieut. W. Peryer. The Grand was fairly well filled, and it was announced that the collection at the door amounted to $55.17, one-tenth of which, Major Miller announced, would go to the Opera House, $25.00 would be devoted to the relief of local unemployed, and the balance would be devoted to the instrument fund of the Machine Gun Band.

Considering that the band was only re-organised several weeks ago, and little oportunity has been found to rehearse the programme offered by the organisation was very promising, and the band should develop into a well-balanced musical aggregation. Its offerings last night included such exacting numbers as the "Lutspeil" Overture, the grand opera selection "Il Trovatore," and Gounod's impressive "Bells Across the Snow," in which the tubular chimes were effectively introduced by Bandsman W. Dyer.

Miss Florence Harriosn delighted the audience with a sacred solo, in which her rich, young soprano voice was effectively displayed, and she had to respond to an encore; while quartette, composed of Messrs. Lee, Turner, Hartshorn, and Baldry gave an effective rendition of "Watchman, What of the Night?"

Y.M.C.A. NOTES

The activities for the week at the Young Women's Christian Association are as follows:

Monday—4:30, Junior Aesthetic Dancing; 7:30, Senior Gymnasium.

Tuesday—4:30, Senior School Girls Gymnasium; 6:00, Athena Club; 7:30 Campers' League.; 8:00, Basket Ball, T.M.T.M. Club vs. Athena.

Wednesday—4:30, Junior School Girls' Gymnasium; 7:00, Special Aesthetic Dancing; 8:00 French Class.

Thursday — 7:30, Intermediate Gymnasium; 8:30 English and Arithmetic Class; 8:00, Old Country Club.

Friday—4:15, Full rehearsal for Earth's Awakening; 8:15 Earth's Awakening, Conservatory of Music Hall.

Saturday—9:30, Junior Gymnasium; 10:30, Little Tots' Gymnasium; 2:00, Ever Bright Club; 2:30 Sunshine Club.

Sunday—8:30, Sing Song.

PLAYED WITH MATCHES SET FIRE TO HOME

KINGSTON, Feb 28.—The home and contents of Mr. Mat Morgan, 398 Barrie street, have been considerably damaged by fire resulting from a child playing with matches beneath the bed. A lively blaze ensued for a time, which firemen subdued after a hard fight. Both buildinug and contents are covered by insurance.

CANNOT ACCEPT CONCERT MONEY

UNEMPLOYMENT COMMITTEE UNABLE TO ACCEPT DONATION, IT IS ANNOUNCED.

Although it was announced that $25 of the collection taken at the Sunday evening concert in the Grand last night was to be handed over to the Unemployment Committee for the relief of the unemployed, some other disposition will, however, have to be made of the money, for Relief Officer Miller informed the Examiner to-day that the committee would not accept donations of this kind.

TROUBLE AT GORE'S LANDING OVER THE POSTMASTERSHIP

PORT HOPE, Feb 28.—Considerable trouble has arisen at Gore's Landing, Rice Lake, over the postmastership rendered vacant by the removal of F. W. Pratt to Cobourg. When Mr. Pratt left Mr. Gerald Harris, a returned soldier, was appointed, and he had Mr. hos. Neill, who took over Mr. Pratt's store, as assistant postmaster. After a few days on the job Mr. Harris resigned and Capt. Pasker Harris, another returned soldier, was appointed. The latter had the post office removed from its former position to his father's store. In the meantime a petition, containing 74 names, was sent to Ottawa asking that the post office be not moved from is former location and a reply is anxiously awaited.

MEMORIAL SKATING RINK

CAYUGA, Feb. 28.—A public meeting of residents here decided that Cayuga's memorial to their soldiers shall take the shape of a skating rink, towards which $4,000 has already been subscribed. The memorial front will embody a handsome brass tablet with the names thereon of the boys who fell in the war.

ABOLISH HOME WORK

OTTAWA, Feb. 28. — At the annual meeting of Ottawa teachers here on Saturday, Dr. W. J. Kerr, of the Normal School, advocated the abolition of written homework on the ground that this often caused irritation in the home. Five hundred teachers were in attendance.

BARE FISTS BEST, SAYS BAT NELSON.

Speaking of the "good old days of bare fist fighting," Batling Nelson made an interesting assertion last week. He said he would put on four-ounce gloves and let any good man, Benny Leonard, for instance, use his bare fists in a four round bout. Bat says he would keep his shoulder over his jaw and let his opponent break his hands up on the side of his face and top of his head. Then with the man's hands useless, the Battler would have his inning. So far as Nelson's head is concerned, it does not appear that Leonard, or anyone else could do much more to it than has been done. Both his ears are curled up, his nose flattened, his cheeks bulged. But there does seem a lot of sense in the Battler's theory that gloves protect a fighter's hands and this give him an advantage over the bare knuckle fighter.

PETERBORO CURLERS CELEBRATE WINNING OF THE DISTRICT CUP

RINKS SKIPPED BY J. W. M'DERMID AND RAY BEST BRING PROVINCIAL CHAMPIONSHIP TO PETERBORO — RECEPTION AT THE C.P.R. STATION AND AT THE RINK.

PETERBORO'S FOURTH WIN

Peterboro won the District Cup by defeating Orillia by the score of 30 to 25 at the Queen City rink, Toronto, on Saturday afternoon. The personnel of the finalists was as follows:—

Peterboro	Orillia
W. M. Cruthers	Jos. Hinds
A. W Archibald	Dr. C. A. Harvie
W. D. Campbell	Dr. Carson
R. P. Best	A Thompson
Skip—15	Skip— 7
F. C. Weber	W. J. McFadden
J. W. Fraser	C. E. McKonkey
T. O. Donaldson	T. Thompson
J. W. McDermid	Dr. Kirkpatrick
Skip—15	Skip—18
30	25

Score by ends:—
Best — .....030 210 111 121 20—15
Thompson —.104 001 000 000 01— 7
McDermid —010 410 040 011 12 —15
Kirkpatrick— 204 001 205 400 00—18

Provincial Championship

It remained for the Curling Club to bring a winter championship to Peterboro. Although generally regarded as secondary to the Tankard the rinks that reach the finals of the District Cup Competition are actually of Tankard calibre. They are the winners of the various groups into which the province is divided. The local district was sub-divided into two sections with the games called for Peterboro and Lindsay. Both these clubs were winners and in the play-off in Lindsay the two Peterboro District Cup rinks carried the group. Saturday's victory was another instance of the old maxim "kep trying". These rinks have more than once got within reach of the trophy only to lose it in the finals. Their persistence was rewarded this year with a clean cut sweeping victory. Both rinks skipped by Ray Best and J. W. McDermid proved splendid representatives of the Peterboro Club. They went through the preliminary round by Belleville's default, and after that played three games, two on Friday and the deciding one on Saturday. When one fell behind in the score the other rink more than made up the difference ,and in the last game it fell to Ray Best to pile up a lead of eight shots. McDermid was down three and the combined result was the secure margin of five shots. This fact alone was conclusive evidence that the final game like the others Peterboro played were fought right up to the last stone. The semi-final with High Park on Friday night required an extra end. Best's rink finished first and the result of both games then showed the High Parkers down two. R. B. Storey who opposed McDermid came through in the pinch and tied it up, but in the extra frame Best got three and McDermid two.

The scores of the Peterboro games preceding the final were as follows:—

Peterboro.

J. W. McDermid	18
R. P. Best	14
	32

Galt Granites

Dr. Cummings	12
E. B Litzer	12
	24

Peterboro.

J. W. McDermid	18
R. P. Best	10
	28

High Park

R. B. Storey	9
W. Fowler	14
	23

Reception to the Winners

The news of Peterboro's victory was received at the Charlotte street rink late Saturday afternoon with rounds of cheers. Arrangements were made to welcome the two rinks and when they arrived home on the C.P.R. local nearly one hundred of their fellow curlers greeted them, and paraded up town ahead of the automobiles that conveyed them and the captive silverware to the rink. There wasn't time to engage a band, but Jack Smith of the Caledonian pipers headed the procession with appropriate bagpipe music.

It was a hearty home-coming at the rink and after the waves of cheering had subsided Dr. Wightman, president of the Curling Club, warmly congratulated the District Cup rinks and called upon the Vice-President, Mr. John Cameron, to convey the greetings of the club.

"This is a night of rejoicing for the curlers of Peterboro", said Mr. Cameron in part. "We welcome home the rinks that played so well and successfully in Toronto. They Galley two of curling hisspg have brought great credit not only on the Curling Club, but upon themselves and the city of Peterboro. We are glad to welcome and congratulate them, and I know every curler feels just as I do."

McDermid's Reply

"I want to thank the Club for the fine reception you have given us," said Mr. McDermid in reply. "We appreciate it more than we can tell. We represented the Club the best we knew how, The games were all hard and were never won until the last stone. We enjoyed the games after all, and especially the winning of the Cup."

Mr. Campbell.

"It is indeed a pleasure to have been successful after many attempts to bring the District Cup to Peterboro again", said Mr. Campbell, vice-skip on Ray Best Bests's rink. "They were hard games and that's the kind good curlers enjoy. One thing we value greatly is the fact that we enjoy the respect and esteem of the curlers as shown by the fine demonstration to-night."

Mr. Cameron wasn't unprepared to give the reception a final touch. He presented the rinks each with a box of cigars. "When you are warming yourselves before your hearth fires and the smoke of these cigars curls upward I hope you will think of the games you won so handsomely and the pride the Peterboro curlers take in your victory."

The impromptu meeting in the club rooms closed with cheers for the rinks and the singing of the National Anthem.

The Fourth Time.

This is the fourth time the District Cup has been won by the Peteroro Curling Club as the four permanent trophies in the cabinet at the rink splendidly testify. Not only are the District Cup honors held for one year but a silver trophy given by the Ontario Curling Association becomes the permanent possession of the winners

It was first brought home in 1908 by the following rinks:—Llewellyn Hall, Dr. Eastwood, W. M. Lang and C. E. Frost, skip; and M. C. Tooley, D. Hall, R. M. Waddell and H. E. Foote. The runners up were the Toronto Granites

In 1910 Peterboro and the Toronto Granites again reached the finals. The victorious Peterboro rinks were W. G. Read, R. Hicks, W M. Lang, and H. F. Foote, skip; and L. Hall, W. H. Taylor, T. Brightman and J. E. A. Fitzgerald, skip.

Peterboro captured it the following year, in 1911, defeating Palmerston in the concluding game. The rinks winning the local group were not entirely the same as those that played off in Toronto The players who contributed to that year's victory were: W. P. Adamson, W. D. Campbell, E. L. Bowes and W. H. Taylor, vice-skips, and T. E. Butler Yeats skip; and W. G. Read, Ross Cameron, A R. Moore and R. Hicks vice-skips and W. M. Lang, skip.

A Great District

That the standard of curling in the Peterboro-Lindsay district is just about the best in the whole of Ontario is amply demonstrated not alone by the number of times Lindsay club has won the Tankard and Peterboro the District Cup, but particularly this year by the fact that Peterboro won the District Cup series and Lindsay came within an ace of bringing home the Tankard. They were defeated in the final game.

The local club's rejoicing has been tempered by regrets that their Lindsay neighbours were deprived of the distinction of again clinching the Tankard. Had they won that competition all the honours in the gift of the Ontario Curling Association would have come to the local group.

AUSTRALIANS STILL LEAD IN LAST MATCH

ONLY 93 RUNS TO MAKE TO WIN THE MATCH AND 25 SCORED ALREADY.

SYDNEY, N.S.W., Feb. 28.—(Canadian Press). — The English team could only make 280 runs in their second innings of the last test match here to-day, which leaves the Australians with only 93 runs to make to win.

At the close of the day, 25 runs had been secured with the loss of a wicket.

To-day's play was somewhat marred by a demonstration by the crowd against Wilson and Fender the English players who were barracked continuously owing to some criticism they had made of the Australian cricketers.

ANNUAL MEETING BASEBALL LEAGUE

The annual meeting of the Central Ontario Amateur Baseball League, of whose executive committee Mr. Jake Solomon of this city is a member, will be held in the Quinte Hotel at Belleville, at one o'clock on Tuesday, 8th March. The president's address, secretary-treasurer's report, election of officers for the ensuing year, delegates to the annual meeting of the O.B.A.A., and general business for the welfare of the League is on the programme.

ONE FOR THE MIDGETS.

The Perry street Midgets beat the Lakefield Flyers on Saturday by 14 to 5 on the Perry street rink. The line up was as follows: Midgets: Goal, Bannon; defence, Cullen and R. Jones; centre, Buott; left wing, J. Emubury, right wing, W. Austin. The return game will be played next Saturday on the Lake street rink.

GODLESS MEN AT THE ALLEN

Nothing is so fascinating as an adventure story of the sea, if it is good. "Godless Men," taken from the Saturday Evening Post Story by Ben Ames Williams, is more than merely a good story. It is one of the most powerful blood stirring dramas ever filmed—a Jack London theme handled in a way that will hold you breathless from the start to finish. Don't miss this unusual picture at the Allen to-day.

WILLIAM HAMILTON TOOK TWO FROM THE C.G.E.

On Friday night at the Water St. Alleys in the five pin league William Hamilton took two out of the three from the C.G.E. The last game was tied up and an extra frame had to be rolled when the Hamilton bunch won out. For Hamilton Frost was high with 609; Roberts next with 516; for the C. G. E. Metheral was high with 573, Craig, 523.

Following was the score:

Hamilton's.				
Frost	205	188	205—	608
Kennedy	147	92	139—	378
Harris	146	149	149—	494
Thorndyke	129	145	178—	432
Roberts	173	174	169—	516
	800	759	840	2399
C. G. E. —				
Sullivan	144	144	167—	455
Metheral	268	124	181—	573
Rightmyer	123	159	164—	446
Craig	194	109	220—	523
Gifford	135	183	108—	426
	864	719	840	2423

Advertise in the Examiner

H. V. ESMOND, famous English actor playwright, returning to the Grand, Saturday, March 5th, with EVA MOORE and the entire London Company in the farcial comedy "Eliza Comes to Stay."

FAST BANK TEAM WILL PLAY HERE

UNION BANK OF TORONTO TO CLASH WITH LOCAL BANKERS WEDNESDAY NIGHT.

Peterborough fans will get a chance to see a fast outside team perform here on Wednesday night, when the crack Union Bank team of Toronto will clash at Brock street rink with the Bankers team of the local City League. The Toronto outfit haven't lost a game in the intermediate series of the Toronto Bank League and their players include such well known performers as Russell Stephenson, of the Aura Lee seniors. The line-up of the two teams will be announced to-morrow. In the meantime the fans are asked to keep the date open for what should be a real hockey battle.

CHAMPIONSHIP GAME TO-NIGHT

DE LAVAL AND HAMILTONS PLAY FINAL GAME FOR HONORS OF CITY HOCKEY LEAGUE.

With the reserved seat section practically sold out, and everybody talking hockey, it looks like a packed house for the City Hockey League final between Hamilton's and De Laval to-night. Fred Waghorne will face the puck at 8.30 o'clock.

The rink is closed to-day and the ice is standing up well, and should hold out for the major part of the game.

Both teams are taking the game seriously and will go on the ice determined to give the crowd everything they have in the line of hockey.

The request is again made that there be no smoking in the rink to-night.

FIRST ROUND OF STURGEON TROPHY

RESULTS OF TO DAY'S MATCHES AT CHARLOTTE STREET RINK.

The first round for the handsome Sturgeon Trophy, donated by Mr. R. G. Sturgeon, for competition between mixed rinks skipped by ladies, was played at the curling rink this morning. Twelve rinks competed for the trophy, only two rinks, Mrs. Jamieson's and Mrs. Macdonald's failing to report at ten o'clock when the games were started. The second round will be played to-morrow morning. The results of to-day's matches were:

Miss Rogers 12, Miss Gladman 9.
Miss Davidson 12, Mrs. Sanderson 8.
Mrs. Schneider 11, Mrs. Fisk 4.
Mrs. Oke 8, Mrs. Eastwood 6.
Mrs. Hill 10, Mrs. A. Turner 7.
Mrs. Cressman 9, Mrs Kenner 8.

PETERBORO TEAM WON THE ROUND

The basketball team of the "Y" played a return game with Belleville on Saturday evening. The score was 25-25 at the close. Peterborough won the round by sixteen points.

CAPTURED GIBSON TROPHY.

On Friday afternoon Miss Morrow's rink captured the Gibson Trophy for lady curlers. Miss Morrow's star rink was composed of Miss J. Cresman lead, Mrs. R. Wood second, and Mrs. H. R. H. Kenner vice.

AT THE EMPIRE

Eugene O'Brien's new starring vehicle for Selznick Pictures is "The Figurehead," by John Lynch, showing at the Empire Theatre to-day. It is a tale of love and political intrigue, which gives O'Brien an opportunity to appear in an entirely new role—as a "silk-stocking Willie," who is put up by a secret combination of apparently rival bosses as a candidate for Mayor who will be easily beaten by the "machine" nominee.

The young aristocrat has really accepted the nomination only as an amusement, but, fired by a transforming love, he puts up a great fight and throws fear into the hearts of the bosses, who try all sorts of strategy to get him to withdraw. Finally, they try to "frame" him and involve him in a manufactured scandal, and it is then that he shows the great qualities which heretofore were latent in him.

Robert Ellis directed "The Figurehead," which includes some of the most pretentious settings and colorful mob scenes ever planned in motion pictures. A cast remarkable for its general excellence supports Mr. O'Brien, some of its members being Anna Q. Nilsson, Ora Carewe, Edwin Stevens, Joseph Girard, Frances Parks, and Kate Price. The company includes 400 persons.

AT THE ALLEN

Helene Chadwick, the only woman who played aboard ship off Catalina Island with the Goldwyn Company, making "Godless Men," under the direction of Reginald Barker, has the laugh on twenty big husky men. When they first sailed out on the heavy rolling waves the men were solicitious as to the fair member, fearing that she would suffer from seasickness. She is the only member of the company who was not all. "Godless Men" will be seen for two days commencing to-day at the Allen Theatre.

AT THE REGENT

"THE WHITE CIRCLE," MAURICE TOURNEUR'S LATEST PHOTOPLAY.

Spectacular Scenes Feature of Paramount Picture Adapted From Stevenson Tale.

Maurice Tourneur, who was so successful recently in his picturization of "Treasure Island," has taken another Robert Louis Stevenson story as the basis of his latest production, "The White Circle," coming to the Regent Theatre to-day (Monday). The picture was adapted from "The Pavilion on the Links."

The story centres around the attempted escape of Bernard Huddlestone, a London banker who has absconded with the funds of the Carbonari, an Italian secret society, Northmour, a gentleman adverturer, consents to help Huddlestone get away, provided the banker will grant him the hand of his pretty daughter, Clara. The fugitives land from Northmour's yacht onto the lonely Scottish coast and take refuge in a country house there. Thither come the Carbonari, also a youthful wanderer named Cassilis, and a drama of love and conflict develops to a startling denouement.

"The White Circle" abounds in spectacular effects and artistic backgrounds which are always associated with Maurice Tourneur's name. Janice Wilson, Snottiswoode Aiken, and Jack Gilbert have the leading roles. It is a Paramount Artcraft picture.

H. V. ESMOND AND MISS EVA MOORE IN "ELIZA COMES TO STAY" HERE

The eminent English comedian, H. V. Esmond, and Miss Mary Moore, whose reputation is too well known on the English-speaking stage to call for comment, will appear at the Grand theatre here on Saturday in a return visit in Mr. Esmond's own delightful comedy, "Eliza Comes to Stay." This was a tremendous success when first produced in England, but has never been presented to a Canadian audience prior to the present tour of Mr. Esmond and Miss Moore.

Mr. Esmond is at his best when writing light comedy, and in "Eliza Comes to Stay" he has penned a charming play, rich in good-humored fun, wholesome, breezy, stimulating and irresistibly amusing. The play provides Miss Moore with a role in which she has scored one of her greatest successes, and Mr. Esmond in the role of Sandy, the lover, finds ample opportunity for acting of that polished type which he has already made familiar to Canadian audiences.

SEPARATORS TOOK THREE FROM THE CRESCENTS

Saturday night in De Laval Ten Pin League at the Water street Alleys the Separators took three straights from the Crescents. Mr. French was high for the Separators, with 545, Barrette and Garrow next with 486; for the Crescents Allen was high with 476.

ANNIVERSARY OF PAARDEBERG BATTLE.

Yesterday, Sunday, Feb. 27th, was the twenty-first anniversary of the battle of Paardeberg, fought during the South African war, February 27, 1900, and marked the close of a nine days' siege of the town by the British forces under the late Lord Roberts, the downfall of General Cronje and the surrender of 4,000 Boer soldiers. Many Canadians, including several Ottawans still living, participated in this memorial encounter which ended one of the most crucial phases of the South African conflict.

GOSPEL HALL NOTES.

Mr. Bentley opened his Gospel campaign last night with an address on Noah and the Flood, comparing conditions then and now. It was wonderful what a similarity existed The large company present gave promise of revival, as many are real seekers after the truth as given in the Holy Scriptures. Every night Mr. Bentley will speak on subjects most interesting to the seeker after God's way.

PETERBOROUGH MALE VOICE CHOIR.

This organisation is fast coming to the point where the members will feel prepared to go before the footlights with a programme of which any choir might well be proud. The practice last Tuesday evening in the George Street Church hall was attended by over forty members, and the work acomplished was of much worth. The newest number, "Estudiantina," is a tuneful, lilting Spanish students' song, and was taken up with vim and verve. The other three part songs, "Martyrs of the Arena" (De Rille), "In Vocal Combat" (by Dudley Buck), and "Watchman! What of the Night?" (Salter) received much attention, and the result was also a big stride in the progress of the rendition of the pieces.

There are now but eight practices, and it behoves all the fifty voices of the choir to be on hand punctually at every practice from now on, as much depends on the attendance and attention as to the outcome of the concert—which, by the way, is to be held in the Grand Opera House on 5th April next.

And the choir will be assisted by two of Canada's most prominent artistes on that occasion—Boris Hambourg, of Toronto, 'cellist, and Miss Pearl Newton, an elocutionist of very high standing. These names alone mean a bumper house and a delightful programme.

The choir, too, are working tooth and nail along the line of success, and at the next practice, to-morrow night, a full attendance is expected and urgently requested, by Mr. J. H. Renwick and the executive of the choir; and will be held at Greene's Music Room, at 8 o'clock sharp.

IN MEMORIAM.

In loving memory of Carman Howard Carter, who passed away away on Feb. 27th, 1920:
One year has passed since that sad day,
The one we loved was called away;
God took him home, it was His will,
But in our hearts he liveth still.
—From Father and Mother.

IN MEMORIAM.

In loving memory of Franklin George Found, who died Feb. 28th, 1920, at Field, B.C. Deeply mourned.

One year has passed since "daddy" left us
To join the white robed throng,
And in all the bright forever,
To sing the glad, new song.

Our loss is great, the shock severe,
We had no thought that death was near
And only those who have lost can tell,
The pain of parting without farewell.

In our hearts are grief and sorrow,
Hidden deep from the world's cold stare,
And we're longing for the morning,
When we'll meet again up there.
Wife and Boys.

Lines to my darling baby Frederick George Found, who was born Oct. 4th, 1920, and died October 9th, 1920.

He came to us in our sorrow
Straight from the courts above,
Like a gleam of Heaven's sunshine—
Sweet messenger of God's love.

Five short sweet days he lingered—
And Oh! we loved him so!
What it meant to us to lose him,
Only our aching hearts can know.

Of, for a touch of the clinging fingers
Just to hold him once more in my arms!
But he is safe in the good Shepherd's keeping,
And from this world's sin and alarms.
Mother and Brothers.

RINK DOORS WILL OPEN AT 7:45 P.M.

The management of the City League Hockey Club has decided to keep the doors of the Brock Street Rink closed this evening until 7.40 o'clock. The fans are asked to bear this in mind.

SOCIAL AND PERSONAL

WEDDING BELLS

MACKENZIE—DAWSON.

At St. James' Cathedral, Toronto, on Saturday, February 26th, by the Rev. W. H. White, M.A. (formerly Rector of St. Luke's Church, Peterborough), the marriage was solemnized of Alice Roberta, daughter of the late Adam Dawson, Esq., and Mrs. Dawson, Peterborough, Ont., to Kenneth James MacKenzie, of Chicago, son of the late Mr. and Mrs. Wm. Mackenzie, of Milton, Ont.

HUFFMAN—MORROW.

At 2.30 on Saturday afternoon, Feb. 26th, the marriage was solemnized at the home of the bride's sister, Mrs. Clarke, of Miss Fannie Morrow to Mr. Chas. Huffman. The happy couple left on a short honeymoon, and on their return will reside at 400 Downie Streets.

OBITUARY

GERTRUDE POWERS.

The death occurred yesterday morning of Gertrude Powers, the 15-months old daughter of Mr. and Mrs Pierie Powers, of Otonabee. The funeral took place this afternoon at 3 oclock to St. Peter's Cemetery.

MRS. N. MERCIER

Mrs. N. Mercier, an old and highly esteemed resident of this city, passed away at the family residence, 308 Burnham street, East City, Saturday night, aged 95 years Deceased lady was born in St. Jaques, Quebec, and came to Peterborough, 58 years ago, residing here ever since. A faithful member of and energetic worker for the Church of the Immaculate Conception, she was exceedingly popular, and beloved for her open-handed charity to institutions and individuals, also taking great interest in the welfare of orphan children.

The late Mrs Mercier, who will be missed by a large circle of friends and acquaintances, enjoyed remarkably good health up to a week ago. Her husband predeceased her 19 years ago, and of her immediate survivors there are two sons and three daughters are:— Miss Agness, Gunnison, Colorado; Mrs. C. Brisbois, and Miss Lydia, this city; Louis of Detroit, Mich.; Albert of Pasedena, California.

Funeral to-morrow, Tuesday, from the Church of the Immaculate Conception at 9 o'clock to St. Peter's Cemetery.

FARMS SUPPLY THE BULK OF CANADA'S EXPORTS.

OTTAWA, Feb. 28 (Canadian Press).—Agricultural products take firs place among Canada's exports for the last twelve months, according to the trade statement from the Dominion Bureau of Statistics for the twelve-month period ending January, 1921. The total of agricultural products exported was well over $700,000,000 of a total exportation of Canadian produce of $1,235,000,000.

Bureau of Information.

Editor—"Tell him it's to keep the hens from picking the grain out of the wood."

FINANCIAL AND MARKETS

WALL STREET.

NEW YORK, Feb. 28.—(Canadian Press).—On the Stock Exchange the week opened with a recurrence of the recent uncertain trend. Shippings and oils were reactionary, while rails and equipments were steady. Atlantic Gulf, American International, Mexican Petroleum, Royal Dutch and American Woollen lost ground on the first few transactions. Southern Pacific, Baldwin Locomotive, International Paper and People's Gas hardened moderately on short covering. U. S. Steel, selling ex-dividend with numerous other popular issues, lost a fraction.

Price movements during the morning were highly confusing, irregular advances among oils, equipments, and tobaccos being offset by losses of one to three points among the cheaper motors, utilities, Central Leather, Sears Roebuck, and various specialties. Mexican Petroleum and Associated, Houston, and Pacific oils, American and Baldwin Locomotives, Crucible Steel, Utah Copper, and Kelsey Wheel all advanced. Lorillard Tobacco showed exceptional strength, gaining 9 points.

There was active trading in Southern Pacific rights at a gain of 1 1-4, but in General Rails were bull and little changed. Early call loans were made at 7 per cent.

Shippings, rubbers, and textiles were the objects of a bear attack during the noon hour. Atlantic Gulf fell 4 points to a new low price for the current movement, and United Fruit, Mercantile Marine Common, United States Rubber, and American Woollen lost one to two and a half points.

NEW YORK, Feb. 28 (Canadian Press). — Sterling exchange easy; demand $3.86 1-8; Canadian dollars, 12 1-2 per cent. discount.

MONTREAL Feb. 28 (Canadian Press).—The local Stock Exchange was only moderately active during trading this morning, but throughout was strong. Abitibi went up half a point to 40. Atlantic Sugar remained unchanged at 31, Brompton, however, was the feature of the first half-hour, rising from 36 3-8 to 39. Dominion Steel was up a half at 47, while National Breweries and Spanish River were steady at 50 and 74 respectively.

CHICAGO GRAIN

CHICAGO, Feb. 28.—(Canadian Press)—Wheat prices declined today largely as a result of sales of wheat to go into store here and because of larger arrivals from the southwest. More over, bears contended that wheat values were greatly out of line with almost everything else. Important commission houses led the selling whereas demand was only scattering. Initial quotations with March 1.67 1-4 and May 1.55 1-2 were followed by a material further set back

Liberal receipts weakened corn. After opening 3-8 to 1 cent lower the market continued to sag. Oats were depressed wih oher grains, lower quotations on hogs pulled down provisions.

TORONTO

TORONTO, Feb. 28.—(Canadian Press.)—Canadian General Electric at a gain of 2 1-4 points proved the feature of a quiet morning on the Toronto Stock Exchange today Opening at 108, one point above Saturday's close, this stock soon advanced to 109 1-4 in brisk buying. Quebec Railway was in demand and advanced one point to 29 1-2 Dominion canners made one of its occasional upward spurts opening at 30 1-2 and advancing two points. Spanish River was slightly higher at 74. Abitibi was steady and Brazilian factionally lower at 33 1-8.

LIVE STOCK MARKET.

TORONTO, Feb. 28 (Canadian Press).—Receipts were heavy, trade steady. Quotations: Choice butcher steers, $9 to $10; butchen cows, medium, $5 to $7; calves, $14 to $15.50; lambs, $13 to $14; hogs, fed and watered, selects, $13.75 to $14.

OPPORTUNITY TO STUDY HOME RULE MEASURE.

Publicity Campaign Will Be Launched in South of Ireland By Greenwood.

DUBLIN, Feb. 28.— (Associated Press.)—An intensive campaign of publicity to convince the people of the south of Ireland that it would be to their advantage to accept the new Home Rule act will be launched shortly.

Opposition to the measure, centering in the south, is believed in official circles to be due largely to ignorance of the powers conferred by its provisions. Sir Hamar Greenwood, the Chief Secretary, is said to be determined that everyone the length and breadth of Ireland shall have full opportunity to study the law.

Thousands of copies of the act have been printed for gratuitous circulation. The country will be flooded with these circulars accompanied by a memorandum explaining the effect of the measure. Particular efforts will be made to see that the publicity reaches persons in position to influence public opinion. Copies will be mailed to school teachers, priests and others prominent in community life. It is planned to make the campaign an effective weapon directly aimed at the Sinn Fein movement.

No important section of Irish opinion has shown any willingness thus far to regard the act as even a basis for peace negotiations with the British officials.

All Southern parties object to partition and, while willing to accord separate treatment to North-east Ulster, object to a separate and equal parliament for that section. The North-east Ulster men are equally determined in their position and declare they will oppose such extension of the powers of Southern Ireland as would enable it to set up a tariff against either England or Ulster.

The publicity campaign is expected by the British authorities to clear up many of the sectional differences by giving the people a thorough explanation of the exact powers and requirements for which the act provides.

FIRE IN PACKING PLANT RENDERS 2,000 MEN IDLE.

EAST ST. LOUIS, Ills., Feb. 28.—Fire caused damage estimated at $500,000 to the plant of Morris & Co., packers, at the National Stock Yards, just north of here. About 2,000 men will be thrown out of employment, it was said.

GRIEF.

—x—

There is a grief too deep for words,
When faith in man seems fled,
When every hope and every joy
Concerning earth is dead;
When every flower in the heart,
All blasted, droop and die,
When every fountain is dried up
And every river dry.
Oh, then, my God, I look above,
With streaming heart and eye;
I know that Thou art left to me—
Oh, answer when I cry.

301 GEORGE STREET | Opposite the Paramount Bldg.
mwf

MANY CONVICTIONS UNDER THE B.O.T.A.

According to the annual report of Superintendent Joseph E. Rogers, of the Provincial Police Force, during the past fiscal year the Force seized 23,315 bottles of whiskey, one keg of whiskey, 219 bottles of beer; also four barrels and two kegs of beer, five gallons of high wines and 54 gallons of alcohol, all of which was turned over to the License Department.

The Force during the year secured 418 convictions or B.O.T.A. Fines were imposed for B.O.T.R. to the extent of $116,203. Under the Inland Revenue Act, for manufacturing liquor 37 convictions were secured, and fines imposed to the amount of $6,610.

The total amount of fines imposed in all cases handled by the force for the year was $135,838, an increase of $54,659. This is the highest figure in fines since the Force was organized. The expense of the Police Force, including salaries, insurance, contingencies, uniforms, phones and travelling expenses, amounted to $72,423. It has, according to Superintendent Rogers, more than paid for its maintenance by $63,415.

The amount of expenses repayable by the counties in respect to various investigations, the request for such services having been made by the County Crown Attorneys, is $2,005. The amount of fees received by the officers of the Force and turned into the Treasury Department was $4,766.

The number of convictions secured was 1,222, which is slightly over 83 per cent. of all arrests made and summons served.

What passes for optimism is often nothing but hot air.

VOL. XLIX. NO 50 — PETERBOROUGH, TUESDAY, MARCH 1, 1921 — PRICE THREE CENTS

BLOCK PLAN OF REDUCED REPARATION

GERMAN OFFER REFUSED BY ALLIES AT OPENING OF INDEMNITY CONFERENCE TO-DAY.

LLOYD GEORGE FIRM

LONDON, March 1.—(Canadian Press).—Germany through her delegates to the Conference with the Allies here to-day made reparation offers of approximately thirty billion gold marks or about seven billion five hundred million dollars. It was understood outside the Conference that after the German Foreign Minister, Dr. Simons, had finished his statement on reparations to the Conference, Lloyd George replied in substance that unless the Germans had something more to offer than appeared in Dr. Simons' statement there was no need of continuing the Conference.

The British Premier told the German Foreign Minister:

"If the written proposals are of the same general character as the explanation, it isn't worth while for us to read them. You have complete lack of comprehension of the position of the Allies and of your own position. We will discuss among ourselves our reply and give it to you to-morrow at eleven o'clock."

The Germans appeared greatly depressed as they left the Chamber.

JOHNSTON COUPLE GET YEAR SENTENCE

MAN GOES TO PRISON, GIRL TO THE MERCER — CHARGE WAS HOUSEBREAKING.

Sentence has been given by His Honour Judge Huycke in the Johnstone case, in which James Johnston and his alleged wife, Eva Laplante, were charged with breaking into the cottage of Andrew Carnegie, on Loon Lake. James Johnston was sentenced to a term not exceeding a year, and Eva Laplante was given a similar term in the Mercer. His Honour pointed out the difficulties in dealing with such a case, and while the reformatories were not the desired places to send the young man and woman, he believed, to allow them to go on suspended sentence, would be to destroy all hope of ever making respectable Canadians of them. At the reformatories they would be given an education, or the rudiments of one, both mental and moral.

ATTEMPTS OWN LIFE; SUSPENDED SENTENCE

OSHAWA, March 1.—John McBrien was placed under suspended sentence here, on a recognizance of $100 to appear at any time called, when he pleaded guilty in the police court to having made an attempt on his own life by drinking carbolic acid, in which he was frustrated by his own son.

The affair resulted over some slight domestic trouble and the act was commited in the middle of a dispute. The accused had taken the acid home for household use undoubtedly, and in a moment of depression, had attempted to commit this act. McBrien had stated that under no circumstances would he attempt such a thing again, at the same time regretting very much this last occurrence.

AT THE THEATRES

REGENT— "The White Circle," another thrilling romance of adventure by Robert Louis Stevenson. Also Charles Hutchinson in "The Whirlwind."

POOR EYES MEAN POOR WORK.

Bay eyes cause jump enrves and annoying headaches that make concentration impossible. Lack of concentration will cause you to fall short of real success. If your eyes bother you consult W. H. Lacey, Optometrist, 410 George street.

FREIGHT EXCHANGE IS 14 1-4 PER CENT.

OTTAWA, March 1.—(Canadian Press).—The Railway Commission has fixed the rate of exchange in connection with shipments of freight between points in Canada and the United States from March 1 to March 14, inclusive, at 14 and a quarter per cent., and the surcharge on said traffic will be 9 per cent.

THE HASTINGS PROBE OPENED

JUDICIAL INQUIRY INTO ADMINISTRATION OF JUSTICE BY DUNNVILLE MAGISTRATE.

EIGHT CHARGES LAID

CAYUGA, Ont., March 1.—(Canadan Press.)—Judicial inquiry into the administration of justice in the Dunnville police court granted by Hon. W. E. Raney following the suspension of Magistrate David Hastings, who declined to resign his position, opened this morning before J. A. Paterson, K.C., Toronto, as a single member commission.

Fifty odd witnesses were subpoenaed by the Crown, which was represented by Egerton Tovering and R. U. McPherson of Toronto. Magistrate Hastings was represented by W. T Robb, Dunnville and J. Counsell, Hamilton.

Mr. Paterson stated that the inquiry was not a trial but an investigation to learn facts. He then read a list of eight charges made by Dunnville residents. Thees alleged that the administration of justice in the Dunnville police court had ceased to command respect, Mr. Hastings being largely responsible, and that the magistrate is influenced in the law administration by F. R. Lalor, M.P., President of the Monarch Knitting Mills, and a group of men associated with him, all being opposed to the O.T.A. and its enforcement.

Other charges were made against the magistrate in connection with his administration of the O. T. A. He is alleged to be an active politician and editor and publisher of a partisan newspaper.

Three railway and express officials were the first witnesses, and they filed statements showing the amount of liquor received in Dunnville during 1920. It was announced that the quantity in gallons would be given out later. David Sylvester, Provincial officer at Dunnville under the Ontario License Board, stated that some very large amounts of liquor had been received by residents and disposed of illegally. He prosecuted a large number of cases before Magistrate Hastings. He stated he secured a warrant for the arrest of one, Harry Clark, for a breach of the O.T.A., and later, when he attempted to arrest him, accused produced a receipt for a thousand dollars cash bail. How could Clark have so quickly learned of the warrant for his arrest, he asked.

4TH C.M.G. BRIGADE FAND DONATION TO UNEMPLOYED

For reasons best explained by the Relieving Officer, a cheque for $27.50 being 45 per cent of the proceeds of the Sunday night Band Concert, was refused when offered yesterday.

As this money was subscribed for the express purpose of assisting the unemployed of the city of Peterborough it naturally follows that it should be accepted for that purpose.

On behalf of the 4th C. M. C. Bde Band, Major Miller wishes to state that if this amount is not claimed before Saturday the 5th inst. by the organization for which it was intended or some other organization relieving distress within the City he will consider himself free to donate the same on the first Tag Day held for charitable purposes.

Changed Circumstances.

"You were too lenient with the chauffeur of that motor truck," said a fussy pedestrian.

"I know he violated the law," said the Paris traffic policeman, "but I didn't have the heart to arrest him. He used to be a grand duke and everybody got out of the way of his car."

DISCOUNT ON CANADIAN DOLLAR ..... 12 5-16 CTS.

IS SAID TO SATISFY U.S. ON MANDATES

REPLY OF LEAGUE COUNCIL TO UNITED STATES WAS DELIVERED THIS MORNING.

RELATIVE TO YAP

PARIS, March 1. — (Canadian Press).—The reply of the League of Nations Council to the United States note on the mandates question was delivered to the United States relative to the Japanese Mandatory over the Island of Yap is understood to be given.

COMMITTED PERJURY SENTENCED TO PRISON

MERCHANT FOUND GUILTY OF GIVING FALSE INFORMATION TO FIRE MARSHALL.

SUDBURY, March 1.— Antoine Gelinas, a St, Charles' merchant, found guilty on five or six counts, charging perjury, was sentenced to four years in prison by Justice Kelly. The charges arose out of a fire at Gelinas' store, and affidavits he made to Deputy Marshal Saville. He later contradicted the statements contained therein, all of which related to the stock carried and business done at the time of the fire. In sentencing him the court said he was a corrupting influence of which the community would be well rid of. Gelinas has entered an action for slander against Father Seguin, who witnessed his second statement about the fire, but it was sent on to the next court.

Larvin is showing the butcher cuffs in Christopher Columbus fashion.

WRECKED TRAIN WAS NOT C.P.R.

Early despatches from Porter, Indiana, yesterday, regarding the double train wreck at the intersection of the Michigan Central and New York Central railroads, referred to the wrecked train on the Michigan Central as a Candian Pacific Railway train travelling over the Michigan Central lines. As a matter of fact it was a Michigan Central train, manned by Michigan Central employees. A portion of its equipment was C.P.R. due to the fact that Canadian Pacific equipment is carried through to Chicago over the Michigan Central in order to avoid the necessity of through passengers changing at Windsor. This train does not become a Canadian Pacific train until it crosses the international boundary at Windsor.

PROTEST STAY OF THE PROBE

RIDDELL-LATCHFORD COMMISSION MOVES FOR ORDER DETERMINING ITS JURISDICTION.

ARGUMENT IS BEGUN

TORONTO, March 1.—(Canadian Press.—Acting on behalf of the Ontario Timber Probe Commissioners, Shirley Denison, K.C., to-day moved for an order determining the exact jurisdiction of that Commission, whose labors have been stayed by the proceedings taken by officials of the Spanish River Pulp and Paper Mills to prevent the Commission enquiring further into certain details of that Company's business. Mr. Dennison submitted that this action on the part of the company was vexatious and frivolous and to the great injury of the Province of Ontario. Argument proceeded this afternoon.

FINANCIAL AND MARKETS

WALL STREET.

NEW YORK, March 1.—(Canadian Press.)— One conspicuous exception at the heavy opening of today's stock market was Consolidated Gas, which rose 2 3-8 points as a result of the court decision allowing the company to charge a higher rate. Atlantic Gulf and Mexican Petroleum also rose moderately, but the general list was distinctly reactionary, foreign advices giving momentum to the decline. Western Pacific forfeited part of yesterday's brisk advance and other rails were fractionally lower. Steels, Equipments, Motors, Oils, Chemicals and Coppers also eased.

Shorts sold freely during the morning, when cables indicated that Germany's proposals were disappointing. Oils, shippings, steels and food and chemical shares were the weakest. General Asphalt fell 5, and other oils 1 to 1½. Atlantic Gulf reacted to a new low and Mercantile Marine Preferred and United Fruit lost 1¼, Vanadium Steel fell 2½, and Crucible 1. Fairly heavy selling of rails forced Northern Pacific and Norfolk and Western down 2 points, St. Paul losing 1½, and Lehigh Valley 1. Other reactionary issues included General Electric, Willys, Stromberg Carburetor, Cluett Peabody, May Department Stores and International Paper. American Woollen strengthened on the declaration of the regular dividend. Call money opened at the usual rate of 7 per cent.

The passing of the Kennecott Copper and Columbia Graphaphone dividends were among the adverse incidents of mid-session. The metal group easied moderately, but Columbia Graphaphone Preferred fell 3 points. Further liquidation extended the loss in General Asphalt to over six points.

FOREIGN EXCHANGE.

NEW YORK, March 1.—(Canadan Press).—Sterling exchange firm, demand 3.88. Canadian dollars, 12 5-16 discount.

CHICAGO GRAIN.

CHICAGO, March 1.—(Canadian Press).—Bullish political news from Europe gave a little firmness to the wheat market to-day. Besides, there was some evidence of foreign demand. Most of the trading, however, was of a local character, and the market was easily influneced. Opening quotations, with March 1.66½ and May 1.56½ to 1.57, were followed by moderate general gains, and then by numerous changes both ways from yesterday's finish. Corn paralleled the action of wheat. Continued call from the seaboard was noted. After opening unchanged, the market hardened further, and then reacted somewhat. Oats were governed by the course of other cereals. Provisions advanced owing chiefly to strength in the hog market.

MONTREAL.

MONTREAL, March 1.—(Canadian Press.)—Local Stock Exchange was very active during early trading this morning, but nothing of especial significance took place. Abitibi went down half a point to 37. Asbestos strengthened one to 76, while Atlantic Sugar remained unchanged at 31 1-2. Brompton was down 5-8 of a point to 35 7-8. Laurentide was steady at 83. National Breweries weakened a half point to 49, as did also Spanish River to 72. Other issues were quiet.

TORONTO.

TORONTO, March 1.—(Canadian Press).—Gains and losses were about evenly distributed at the end of this morning's circular trading on the Toronto Stock Exchange, with paper stocks showing especial weakness in heavy transactions. Canadian General Electric was again the leader in the firmer issues, with many indications that shares of the company are tightly held. Closing sales this morning were made at 110½, a gain of two points over last night's final quotation. Winnipeg Railway was one up at 45. Spanish River was the weakest of the paper issues, declining 3½ points to 70½. Abitibi lost 1½ at 36¼. C.P.R. sold off two points to 131. Quebec Railway and Brompton were fractionally weaker.

LIVESTOCK MARKET.

TORONTO, March 1.—(Canadian Press).—Cattle receipts light, trade steady. Quotations:

Choice butcher steers, $9 to $9.75; butcher cows, medium, $5 to $7; calves, $14 to $15.50; lambs, $13 to $14; hogs, fed and watered, selects, $13.75 to $14.

CAN YOU NOT HELP?

For many years Dr. Wilfred Grenfell has labored unceasingly amongst the deep-sea fishermen on the bleak coasts of Labrador and Newfoundland. These men and women lead a hard and precarious existence, often coming to the end of a life spent in the hardest of drudgery with nothing saved and nothing to look forward to but a pauper's grave. Can we not help a little in the midst of our prosperous lives, human beings who eke out a bare existence on these stormy rock-bound coasts?

The Examiner will receive and acknowledge all subscriptions.

The Honorary Treasurer is Mrs. James Wood, P. O. Box 990.

A BUILDING RENEWAL IS LOOKED FOR

DECLINE IN CONSTRUCTION MATERIALS AND IMPERATIVE HOUSING NEED THE REASONS.

EFFICIENCY UNCHANGED

With the gradual return to more normal times and prices, we may begin to look for a renewal of building operations, which have experienced a condition of stagnation in late years leading to a very undesirable constriction in the housing situation. The Labor Department keeps a check on 48 of the principal materials of construction, and in over half of them a decline was noted in December or January. Lumber is down about $5 a thousand, and also paints, oils, builders' hardware and miscellaneous material. Brick remains firm.

Very Little Lowered Efficiency.

Wages show some indication of coming down, and in all the trades new wage agreements will be negotiated before May 1st. Although there have been many charges of lowered efficiency by workmen, this is not substantiated by inquiries made by the Minister of Labor. Out of 4,000 questionnaries to employers, 63 per cent. reported that their men are normally efficient, while 37 per cent. reported that there had been a decline.

An analysis of the entire cost of building, according to experts, shows that 80 per cent. of the expenditure is represented by and lies in the hands of labor, which alone can bring down the costs to a reasonable basis.

With a standard in 1914 of 100 per cent. efficiency in labor, a $10,000 building in that year was made up of $500 potential values, $1,500 contractor's profits, and $8,000 in pay envelopes. By 1919 labor had doubled, broadly speaking, and presumino that the contractor's profits had also doubled, a $10,000 building worked out in the following way: Potential values, unchanged, $500; contractor's profits, doubled, $4,000; pay envelopes doubled, and labor efficiency decreased from 100 to 64 per cent., making the cost of labor $25,000, a total of $29,500, whereas if labor had been working at 100 per cent. efficiency the total would have been $19,500.

Building Programmes.

At the present time, Toronto is looking forward to a normal building season, which will be made possible, it is thought, by the erection of several new schools, some Government buildings, and a project now before the City Council for the loaning of $1,000,000 to builders who will undertake to build a stated number of small houses at a reasonable rate, to be purchased by citizens. Montreal and Ottawa also show a spirit of optimism in regard to building programmes, and Winnipeg has signified its intention of expending $6,000,000 in this way.

No Appreciable Drop.

One of our local dealers states that there is no likelihood of any appreciable drop in prices of lumber in Peterborough for the next year, as there are no heavy stocks on hand to be disposed of, there was no reduction in the scale of wages until after Christmas, and the supplies for men and horses sent into the camps last fall were all purchased at the high prices, consequently most of the cutting was done at a high scale, and there will be very little change in the cost of the hauling—the smallest end of the operation. As it takes nearly a year and a half for the logs to be hauled, dried, cut and marketed, it is hardly reasonable to expect that lumber which was taken out at a high figure can be sold at a low one, and there is no bearing condition to force prices down until the cutting is started next fall by men at a lower rate of wages and lower cost of commodities. Some of the men on the north shore have taken a cut in wages of about $20 per month, while here there has been a cut of nearly $15 per month, and there has been a slight reduction in the selling price of hardwood flooring, of shingles, and of hemlock.

Local Prices Lower.

While the average Ontario town is obliged to ship its lumber in, thus increasing the cost by from five to six dollars per thousand in freight charges, the people of Peterborough have enjoyed the advantages of home production, and a comparison of retail prices for January shows that rough hemlock sells here for from ten to fifteen dollars less per thousand than in Toronto and other points in Ontario, while in dressed pine the advantage in our favour is from five to ten dollars per thousand.

RAN INTO TRAIN.

LINDSAY, March 1. — The G. T. R. local despatcher received a report yesterday that a motor car had crashed into the Sutton-Toronto regular train. The car was smashed, but no further damage resulted.

BUTCHERS' STRIKE PARALYZES MARKET

MONTEAL, March 1.—(Canadian Press.—Five hundred butchers, employees of the Davies Packing Company, Canadian Packing Company, and Montreal Abbatoirs, struck this morning for wage increases and shorter hours. The strike paralyzed operations on the Montreal cattle market.

GERMANS ANGLE FOR PRIVILEGES

WANT SILESIAN PLEBISCITE MADE FAVORABLE TO THEM AND FREE COMMERCE PRIVILEGES.

PROPOSED TO ALLIES

LONDON, March 1.—(Canadian Press).—The German financial proposals, it was learned, were made subject to conditions that the Pleb iscite in Upper Silesia should result in favor of Germany and secondly that Germany should have restored to her free commercial privileges throughout the world.

BROWN ARRAIGNED AND IS REMANDED

DID NOT PLEAD OR ELECT, BUT WAS HAGGARD AND VISIBLY MOVED.

TORONTO, March 1.—(Canadian Press).—E. M. Brown, arrested last night on a charge of theft of over twenty thousand dollars from Bank of Montreal, appeared in police court this morning, and without pleading or electing, was remanded until next Tuesday. He appeared very haggard and was visibly moved in court.

"I am glad the suspense is over, I have made a terrible blunder," he said. At the same time asking newspapermen not to bother his wife, whom he said was absolutely innocent of any wrong doing.

OBITUARY

ROBERT JOHN WEIR.

A resident of East City for over fifty years died last night in the person of Robert John Weir, aged 63. The deceased was a son of the late Robert Weir and was born in Cobourg, but came to this city when only four or five years of age. For many years he was a well-known grocer of East City, but he gave up business life some ten years ago. He had always enjoyed good health until the last year. During the past six months he was in failing health, but pneumonia was the cause of death.

He leaves his wife, whose maiden name was Ipsa Mowry of Peterobrough, and four brothers, Fred. W., Sidney B., Albert C. and Bert, all of Toronto.

He was a methodist in religion and a regular member of Mark Street Methodist Church. Deceased was identified with the I.O.O.F.

The funeral will be held on Thursday afternoon at two-thirty o'clock from the family residence, 294 Burnham Street, to Little Lake Cemetery. Service will be conducted at the house at two o'clock by Rev. G. Ross of Mark Street Church.

ELIZABETH W. SERVISS

BUFFALO, March 1 — (Special Despatch).— Mrs. Elizabeth W. Serviss, aged 37, a sister of Mrs. William Judd, Peterboro, died Sunday night after a brief illness at her home at Oneida, New York. Her husband, two daughters, her mother and another sister survive. Interment on Wednesday afternoon at Oneida.

PREACH IN NEW YORK.

Bishop Farthing of Montreal, well known to Peterborough Anglicans, will preach at a series of special services to be held at Trinity church, New York, during Holy Week, begining March 21st. Rev. Dr. Farthing will also be the principal speaker at the Good Friday services.

A SPECIAL MEETING OF ALL RETURNED SOLDIERS WILL BE HELD THIS EVENING, MARCH 1, WHEN COMRADE E. HOWE, CIRCULATION MANAGER OF THE VETERAN MAGAZINE, WILL BE THE CHIEF SPEAKER. HE WILL OUTLINE A PROPOSAL FOR A FURTHER CASH BONUS OF $1 A DAY. ALL RETURNED SOLDIERS ARE INVITED TO ATTEND WHETHER A MEMBER OF THE G. W. V. A., OR NOT.

PROBE INTO RAIL WRECK CONTINUES

BOTH RAILROADS DECLARE THAT THEIR TRAINS HAD SIGNAL FOR A CLEAR TRACK.

STATE INVESTIGATING

PORTER, Ind., March 1.—(Canadian Press).—The investigation by Indiana State officials and officers of the Michigan Central and New York Central Railroads was continued to-day to determine the cause of the wreck here Sunday night, in which it is now believed thirty-eight persons were killed. New York Central officials declared the fact that the New York Central train did not leave the rails and proved that the clear signal had been given that train. The crew of the Michigan Central engine were still closeted with officials of that road, but in a statement given out by New York Central officials they declared they saw a signal indicating they had a clear track. Their statement added that proof of the clear signal lay in the fact that the engine and one coach passed over the derail and continued on the rails. Engineer Long has seen thirty-one years of railroad service.

THE WEATHER

While making a search through some old weather records to find a February as mild as the one just ended (which I did not succeed in doing) I came across some figures regarding "the big snow storm." Of course the old residents will recognize what I refer to, but for the benefit of new-comers and the rising generation, I might say I have reference to the tremendous snowfall of March, 1870. That winter there was the usual snowfall and spring seemed near, but on Sunday, March 13th snow began to fall heavily. It continued until Monday afternoon. There was then a respite until Tuesday morning, when it began again. It continued all Tuesday, Wednesday and Thursday until evening. There were then 36 inches of freshly-fallen snow. But this was not enough. It started to come down again on Saturday morning and continued to fall all day Saturday, Sunday and Sunday night. This added 24 inches on top of the other, and the total for the week is given as 60 inches or five feet! Perhaps you think the figures are exaggerated — if so, ask some of the old-timers. When this snow went off, which it did with a rush, there ensued the biggest flood Peterboro has ever seen. March has come in like the proverbial lamb, and in another two weeks some of the spring birds should be here. The rainfall, etc., last month was again short, being but 1.36 inches.—W.P.

CALL TO REV. SANDERSON OF OSHAWA.

Cannington Methodist Church has extended a unanimous call to the Rev. A. R. Sanderson of Oshawa, who has held charges in Cambellford and Belleville. He will assume his duties next June. Mr. Sanderson, owing to poor health two year ago retired temporarily from the ministry, and has been in business in Oshawa dring that time making numerous friends, and rendering most valuable service to the church and community.

LET OUT EMPLOYEES.

COBOURG, March 1.—Over-production and a mild winter is reported as the main reason for most of the female help and some men being laid off by the Felt Factory here.

K. OF C. NOTICE.

THE REGULAR MEETING OF THE COUNCIL WILL BE HELD TO-NIGHT. "BUSINESS OF IMPORTANCE TO BE DISCUSSED," ALSO LECTURE BY REV. FATHER PHELAN. 1d-51

Drury Government May Go to People If Beaten To-day

SHOULD LEGISLATURE VOTE FOR APPEALS TO COUNTY JUDGES UNDER O. T. A ELECTIONS SOON.

DIVISION YESTERDAY

TORONTO, March, 1.—(Canadian Press)—Division bells rang in Ontario Ontario Legislature yesterday for the first time this session. The vote was on a bill brought forward by K. K. Homuth, Labor member for South Waterloo, to limit, an elector to one vote only on any municipal by-law or question, irrespective of how many wards in which he may own property. The measure was overwhelmingl defeated by 34 to 13. The count found the house split all ways on the issue

Dr. Forbes Godirey's bill providing for compulsory medical examination of all persons contemplating marriage in Ontario met vigorous discussion and finally was held over for possible reference to a select committee of the House. Premier Drury while expressing himself as thoroughly in favor of the principles of bill, took the ground that the time had not arrived for the enactment of such legislation.

Should the legislature vote to-day for appeals to County Judges under the Ontario Temperance Act, with the new evidence permissible, the Drury Government will go to the country. Premier Drury is credited with having so infomed the government caucus which more than a week ago wrestled with the issue. But there is small probability of a majority in the House standing out for the admission of the new evidence on Appeals, the clause against which Attorney-General Raney and the Premier are said to have set themselves.

AVERAGE WHEAT YIELD IN 1920.

The total yield of wheat in Canada for the year 1920 is finally returned as 263,189,300 bushels from 18,232,374 acres, according to figures compiled by the Dominion Bureau of Statistics. This compares favorably with the year 1919, when the yield from an acreage of 19,125,968 was 192,260,400 bushels, and with the annual average for the five years, 1915-1919, which was 254,480,440 bushels from 16,342,969 acres. The average yield per acre for Canada was 14½ bushels, as against 10 bushels in 1919, and 15¼ bushels the five-year average. For oats, the finally estimated production is 530,709,700 bushels, as compared with 394,397,000 bushels in 1919. Barley yielded 63,310,550, as compared with 56,389,400 bushels in 1919.

INDICATES RETURN TO PRE-WAR STATE

TORONTO, March 1. — (Canadian Press.) — A very significtna indication of the return to "normalcy" and pre-war conditions was the announcement made yesterday by the Canadian Pacific Railway to the effect that the road is going to revive the great vacation travel which was interrupted by the world-war. Summer rates were announced by the C. P. R. and the reductions will amount to practically 20 and 25 per cent. of the present rates. It is expected that the measure will to a great extent increase the tourist travel. One of the features of the new egulation is that travellers may start at any time between June 1 and Sept. 30th.

DEATH FORMER HASTINGS MAN

THOMAS FRASER, ONE TIME HARDWARE DEALER IN HASTINGS, DIES IN WEST.

EPWORTH LEAGUE MEETS

HASTINGS, March 1.—The regular weekly meeting of Epworth League of the Methodist Church was held in the basement on Friday evening last, when Bethel League was present and provided the programme —after which sandwiches and cake were served.

Thomas Fraser Dead.

The death occurred of Mr. Thos. Fraser at his home, Outlook, Sask., on 12th February. Mr. Fraser was well and favourably known here. At one time he was connected with the hardware business in this village. He leaves to mourn his loss his wife and one daughter.

A number of Hastings residents have been putting in a supply of ice during the last couple of weeks.

Mrs. Hawkins, of Oshawa, is a guest of her son, Mr. Frank Hawkins.

Mr. and Mrs. Wm. Baker have been visiting friends in Toronto.

The condition of Master Everett Hess is somewhat improved.

The Ladies' Aid of the Methodist Church held their monthly meeting

(Continued on page 6.)

SUMMERS HAS REJECTED THE NORWOOD POST

LAKEFIELD MAN IS APPLYING FOR PRINCIPALSHIP OF PUBLIC SCHOOL.

HIGH SCHOOL "AT HOME"

NORWOOD, March 1.—The Norwood High school held an 'at home' in the government armouries on Friday evening last. The ex-pupils of the last two or three years had been invited, and several were present. The evening was spent very pleasantly. The early part of the evening was devoted to games. Later on lunch was served, after which dancing was indulged in for a few hours.

In the Churches.

Centre Dummer church held a successful social and entertainment last Friday night.

Rev. Honey of Keene, will preach in the Methodist church next Sunday morning and evening

Preach in Keene.

Rev. Terrill, will preach in the Methodist church, Keene, next Sunday in the interests of Missions.

The Women's Missionary Society of the Methodist church will hold their March meeting on Wednesday afternoon at two-thirty at the home of Mrs. W. A. Richardson.

This evening a cottage prayer meeting will be held at the home of Mr. John Parker.

The Y.W.A. of the Presbyterian church will meet on Thursday evening at the home of Mrs. N. Robb.

Monthly Meeting.

The monthly meeting of the Women's Missionary Society of the Presbytaerian church will be held at the home of Mrs. Hugh Robb on Tuesday afternoon.

The Presbyterian Guild held a social evening on Monday.

Mr. Reedie, a student from Knox College, took the services in the Presbyterian church on Sunday last, and will occupy the pulpit again next Sunday.

Ready For New Pastor.

The manse is being re-papered, etc., in readiness for the new pastor.

Mr. Summers of Ottawa, who accepted the principalship of the Public school here, has sent word to the Board of Education that he has decided to remain in Ottawa.

Applying For Position.

Mr. Madill of Lakefield, was in town last week making application for the position of Public school principal.

Personals.

Mrs. Sam Elliot was in Peterborough on Thursday

Dr. Sutton was in Madoc last week.

Miss Manne Drope of Peterborough, spent the week end at the home of her uncle, Mr. E. P. Cuffe.

Miss Lillie McLeary, who spent the past week with her mother, returned to Peterborough on Saturday.

Mrs. Jas. Buck has been visiting friends in Hastings.

Mr. C. O'Reilly was in Peterborough on Thursday.

Mr. Wellman of Keene, was in town last week.

Mr. Lees, I.P.S., was in the village last Friday.

Miss Waters was in Peterborough on Saturday.

Mrs. T. E. Finlay and daughter Mary, were in Peterborough on Wednesday.

Miss Laura Buck has returned from a month's visit in Port Hope and Peterborough.

Mrs. Roxburgh, Mrs. K. G. Thompson, Mrs. Sutton, Mrs. Cuffe, Miss Lois Cuffe, Miss Barbara Foote, Mary Roxburgh, Mary Finlay and Elizabeth Thompson, went to Peterborough on Wednesday afternoon to see the "Winnipeg Kiddies."

Mrs. Stanley Johnston, of Otonabee, has been a guest of her parents, Mr. and Mrs. Geo. Ford.

Miss Nettie Preston returned home to Selwyn on Friday.

Mr John Weir was in Madoc last week.

Mrs. B. W. Squire spent Friday in Peterborough.

MOTHERS, BE CAREFUL

Much of the trouble in weaning the baby is developed by the use of a cheap and unsanitary nipple. The NOBILITY nipple is sterilized and is sanitary, transparent and non-collapsible. It is put up in a separate box with a red band on each nipple. You will meet with the doctor's approval if baby uses NOBILITY nipple. t t s.

DEMONSTRATE THE EXAMINER SERVICE

The manner in which the noon edition of The Examiner covered the story of the wreck of the Chicago-Toronto-Montreal Express yesterday, demonstrated the uniqueness of its service as being able to fill the gap between the morning and afternoon papers.

The Toronto morning papers carried the story of the wreck up until shortly after midnight and consequently secured a necessarily incomplete account of it. The noon edition of The Examiner contained the complete story up until 11 o'clock yesterday morning.

$40,000 RINK FOR LAKEFIELD

COMPANY TO BE INCORPORATED WITH CAPITAL OF THAT AMOUNT.

SHARES TO BE OF $10

LAKEFIELD, March 1. — The Lakefield Broherhood held an oyster supper in the basement of the Methodist Church. About forty men and boys were present. The room and tables were very attractively decorated, the Brotherhood colors, purple and white being much in evidence.

The following toast list was run off after the supper:

The King—Proposed by the President, Mr. R. A Hinch and responded to by the singing of the National Anthem.

The Churches—Proposed by Mr. F. S. Brown, responded to by Rev. S. F. Dixon

The Brotherhood —Proposed by the Secretary, Mr. Roy Greene and replied to by the Treasurer, Mr George Sherin.

The Ladies — Proposed by Mr. A. E. Partridge and replied to by Mr. John Redpath.

Our Guest — Proposed by Mr. Warren Payne and replied to by Mr. A. C. Carveth.

The President gave a short address on the question of the Brotherhood outlining plans for the season and dwelling on the proposed canoe club for the summer. Mr. F. S Brown offered a first class canoe and also a trophy to be competed for annually. These will be awarded to the competitor who secures the most points a six meets on the river this summer. Points to be awarded at each regatta. Rev. S. F. Dixon outlined some of the work the Brotherhood intend taking up. Short Speeches were made by Messrs. H. J. Sutton, Nathan Payne and Percy Spence.

This happy event will be the forerunner of many such pleasant gatherings which will tend to the betterment of the community at large.

New Rink.

It has been decided to apply for a charter to incorporate a joint stock company with a capital of $40,000 in $10 shares to be suscribed at par. The company will be known as The Lakefield Rink Ltd. The following officers were elected:

President—Mr. J. W Allan.

Vice-President and Manager—Mr. J. C. Strickland.

Secretary-Treasurer — Mr. G. J. Elmsley.

Nine directors were elected, five of which will constitute a board, viz:— Messrs. R. J. Jory, Rev. A. W Mackenzie, E. R. Tate, Rev. W. P. Meagher, J. C. Strickland, A. E. Dawson, J. W. Allan, G. J. Elmsley and Thompson Braden.

The folloiwng is the list of shareholders, Messrs. J. C. Strickland, R J. Jory, Rev. A. W. Mackenzie, Rev W. P. Meagher, A. E Dawson, G. J. Elmsley, J. F. Lillicrap, E. R. Tate, L. J. Charlton, R. W Little, W. Robinson, D. H. Charlton, S. J. Charlton, W. J. Charlton, F. S. Brown M. P. Kennedy, Spence & Sons., H. G. FitzGerald, J. A Porter, Hendren Hunter and Websteh H. E. Peacock, C. S. Tanner, Theodore Crawford, J. M Simpson, A. G. Lawless, E. W. Bailey, W. W. Leonard, T. Braden and R. H. Knox.

It is proposed to build a cement and steel rink with a skating surface of 62' by 1600' On one side will be wo curling ices and on the other seating accommodation for about 500 spectators.

There will be commodious dressing rooms and also club rooms for the curlers and the hockey club and a ticket office.

The building will cost in the neighborhood of $10,000.

Curling News.

As no one can safely make any promises in regard o the weather for March the curlers have been playing over time to finish up the local competition. The games have been close and exciting and the results are by no means sure. The race for the prizes has renoned

RAIL WRECK DEAD TOTAL 37 TO-DAY

OFFICIALS CLAIM MICHIGAN CENTRAL TRAIN RAN PAST ITS BLOCK SIGNALS TO DISASTER

CREW DENIES THIS

PORTER, IND., March 1. — (Canadian Press.) — As a result of a day's work by the hundred rescuers delving into the tangled debris of the rail disaster here, and of a day's efforts by a dozen skilled investigators seeking to place the responsibility for the accident, it was officially announced last night that 37 people met death in the crash. There are several bodies yet to be identified.

It was also announced that the Michigan Central train speeding northward at 60 miles an hour overran block signals and the derails set against it by Joseph Cook, towerman on the Norwood tower.

W. E. Long, the engineer of the Michigan Central train, and George Block, his fireman, still insist the signals gave them a clear track.

The discrepancy between this count and one of more than forty previously announced by Coroner H. O. Seipel, was found to be due to the mutilated condition of some of the dead. In some cases a body badly mangled had been counted as two.

The body of another Canadian, Mrs. Sarah Moss, of Montreal, has been identified. This makes five Canadians killed in the wreck.

DEFENDANTS DID NOT ANSWER CALL.

PORT HOPE, March 1.—Mr. and Mrs. Moyse, of Millbrook, accused of being responsible for a suitcase containing fifteen botles of Imperial whisky, found in Armstrong's livery automobile on 12th February, failed to put in an appearance when called in Court here. They had been remanded from 25th February, and their solicitor, Mr. G. N. Gordon, informed the Court that he had been told by Mrs. Moyse's mother that the defendants had left town.

Teller Alleged to Have Confessed to Big Bank Robbery

$50 TRENT GRANT BY CAMPBELLFORD

CAMPBELFORD, March 1.—The Trent Waterway Development Association's request to the Council for a subscription to enable its work to be continued this year was met with a grant of $50.00 from the Campbellford Council. This Association, of which nearly all the Trent municipalities are members, is advertising in the motor magazines of Canada and the United States the scenic beauties of Ontario's midland lake region from Georgian Bay to Lake Ontario. The first results of this publicity were realised last year in the increased number of tourists, including those who idled along the Trent watercourse in motor boats.

CAMPBELLFORD VICTORS OVER BELLEVILLE

HIGH SCHOOL HOCKEY GAME DEVELOPED SPEED ON HEAVY ICE.

SCORE WAS 6-3

CAMPBELLFORD, March 1.—The local High School hockey team defeated Belleville High School here last night by the score of 6 to 3 in a hard game that was fast in spite of the heavy ice.

The teams were as follow:

Belleville—Goal W. Buskard, defence H. Lawrence and A. Halloway, centre J. Murray, l.w. W. Cook, r.w. V. Morris, substitute M. Locke.

Campbellford—Goal T. Stewart, defence E. Lebrash and R. Copperth-

(Continued on Page 6).

EDGAR BROWN, PAYING TELLER OF TORONTO BANK, ROBBED BANK TO SPECULATE IN STOCKS.

HAVE RECOVERED $5,000

TORONTO, March 1. — (Canadian Press.) — What on Thursday was thought to be one of the most baffling cases in Toronto police annals is now made clear by the clever work of Sergeant of Detectives Cronin, who last night after a period of five days, arested Edgar Brown, married, aged 27, on a charge of the theft of approximately $21,400 in notes and bank securities from the head offices in Toronto of the Bank of Montreal.

Brown, who Inspector of Detectives Guthrie says, has confessed to the theft, is in the cells at West Dundas station and will appear in the police court to-day.

Brown's confession states that a portion of the money was used to cover speculation in gold stocks. One five thousand dollar note has been recovered by Cronin. The other note of the same denomination Brown confessed was torn up. Brown was employed as a paying teller in the bank.

HIKER REACHES OTTAWA.

OTTAWA, Feb. 28.—Wearing the habiliments of a modern lumberjack and travelling light, Charles Burkman arrived in the city on Friday night from Casselman, having to date achieved a walking distance of 873 miles on his coast-to-coast walking tour. The transcontinental hiker left Halifax on 17th January.

VALUE OF WHEAT CROP NEARLY HALF BILLION

Total value of crops on farms in 1920, are estimated as follows by the Dominion Bureau of Statistics: Wheat, $427,357,300; oats, $280,115,400; barley, $52,821,400; rye, $15,085,650, flaxseed, $15,502,200.

"Peterborough Presents Possibilities Unsurpassed."

TUESDAY, MARCH 1ST, 1921.

THE BOARD OF TRADE.

Members of the Board of Trade should not fail to discharge their responsibility to-night in taking part in the annual election of officers. There is a representative list of thirty members to select from, and it is the duty of each of the three hundred members to indicate his choice to-night from 7 to 8.30 o'clock if this has not already been done this afternoon. No factor enters more largely into the success of any organisation than the composition of its board of directors, and if the Board of Trade is to be developed to the full measure of its usefulness, the members must see to it that the best available men are placed in charge of its affairs. The nominating committee has made an excellent selection in the panel of thirty it has chosen, and from this number fifteen are to be selected by the vote of the members, and they in turn will elect from their number the officers for the ensuing year. This system should ensure an enthusiastic and energetic set of officers for this year's Board of Trade, and the carrying out to their completion many activities that have been planned by the Board in the interests of the community generally.

A BEAUTIFUL PETERBORO.

The Peterborough Horticultural Society is appealing for the support of the people of Peterborough in the hope of securing a membership of one thousand this year. The society, with its motto of "A Beautiful Peterborough," and its altruistic effort to foster and encourage all horticultural activities in and around the city, should not have to appeal in vain, for the payment of a dollar membership fee not only gives one the satisfaction of knowing that he is helping along a movement that is in the interest of the whole community, but there is the added incentive that members have their choice of a number of valuable options, any of which is worth more than the annual fee.

Horticultural societies have accomplished wonderful things in some of the cities and towns of Ontario, and there is no reason why a similar showing could not be made here if the citizens would evince the same desire to help as has been found in other cities. As a little prospectus issued by the local society puts it: "As a society the horticulturists have an influence that is denied them as individuals. The example of one man who beautifies his lawn and grounds is felt by and acts as a stimulus to his neighbours. How much more good would 1,000 such men and women do for Peterborough?"

NO SIGN OF THE END.

There is still no sign at Ottawa of a tendency on the part of the House of Commons to stop talking and get down to essential business. The debate on the reply to the Speech from the Throne and the amendment introduced by Hon. MacKenzie King will continue all this week, it is understood, and will probably run into the following week before a division is reached. The delay is welcomed by the Government, for a number of its supporters who were ill when the House opened have recovered sufficiently to put in an appearance at Ottawa, and they are ready for the vote. In the meantime the talk continues. All the leaders have contributed to the debate, but many of the rank and file are still to be heard from; and so the farce goes on.

The chief interest last week was in the attitude Hon. T. A. Crerar, the leader of the National Progressives, would take in regard to the King amendment, and now that he has announced his intention of supporting it, the most intriguing feature of the debate has vanished. This week promises nothing but a filling-up of the pages of Hansard by the back-benchers, while the press gallery will have difficulty in keeping awake. The present session is true to the traditions of the House; it seems inevitable that weeks should be wasted in this fruitless debate, leaving the important business to be galloped through at the end of the session.

MR. DOHERTY'S MISSION.

The visit of Hon. Manning Doherty to England in an effort to secure the lifting of the embargo against Canadian cattle seems to be a case of misdirected energy, and it is no wonder that both the old parties in the Legislature have been moved to protest against the journey of the Minister of Agriculture. In the first place, it is not clear that Canadians have much right to complain about any embargo Great Britain wants to raise against any of our merchandise seeing we adopt what tariff regulations of our own we see fit without consulting the Mother Country as to the effect they may have upon her trade. But if a protest is forthcoming, then it should be made by the Dominion Government on behalf of the whole country. It is not a provincial matter at all, and the head of the Ontario Department of Agriculture would be better employed looking after the administration of his Department here than in running around England trying to accomplish something that greater minds than his have failed to accomplish. And on top of all these objections is the fact that the embargo is being made an issue in a British bye-election and the propriety of a Minister of an overseas province interfering in British politics is open to question. True, Premier Drury has promised that Mr. Doherty will observe the amenities of the occasion, but it is by no means clear how he can do so when, as has been stated, the business that is taking him to England has become a political issue.

THE ROTARY CLUB.

To-night sees the formation in Peterborough of a Rotary Club, a branch of that unique organization which since the inception of the first club in Chicago sixteen years ago has spread to all parts of the world. The Belleville Intelligencer in a recent issue gives a lot of useful information about Rotary, which should be of much interest locally in view of the formation of a Peterborough Rotary Club.

Says the Intelligencer:

Rotary has no paid organizers—its motive power is love of service and the good word is passed along from one club to another as something worth having and sharing. Toronto Rotary Club oragnized Belleville, and now Belleville Rotary Club is to carry the message of Rotary to Peterborough, where a club will be organized on the evening of March 1 under the auspices of Belleville Rotary Club led by Rotarian Gus Porter, Rotarian Billy Doyle, and a cheerful bunch of the brightest spirits of the local Rotary Wheel.

"What is the Rotary Club, anyway, and what does it all mean?"

One answer might be that it is a small group of business and professional men who gather once a week for a luncheon and a speaking programme and that they seem to have a "corking" good time.

But this isn't the real answer. It is no more correct than that definition of a man which would describe him as "a biped on whch to display clothes," for Rotary, it seems, is an invisible thing which dwells in men's hearts and which is made manifest only through their thoughts and deeds. The getting together, the talking and the fun are only the means to the accomplishment of a real end.

To get a clear understanding of the movement— for that's what it really is—it may be well to start at the beginning and see what brought Rotary into being. Sixteen years ago a lonesome man—Paul P. Harris, a Chicago lawyer—invited a coal dealer, a coal operator and a merchant tailor to meet with him to form a little group of friends who could gather together once a week in each others offices and enjoy that close acquaintanceship which comes only through such frequent meetings. From the beginning each man represented a different business or profession. Strict adherence to this plan as each new man was added to the group has proven to be one of the vital points in the success of the Rotary Club which came out of this small beginning. As the numbers grew slowly, of course, a name for the club was sought. Inasmuch as the men had been "rotating" in their meetings in the offices of the members, someone suggested that it be called the "Rotation" club, and this was soon changed to "Rotary."

For three years this club was "lost" in the commercial and social turmoil of the big city, just as its founder, Paul Harris, considered himself "lost" without congenial, dependable friends. Then one of the Chicago men made a business trip to California and a second club was formed in San Francisco. This was the beginning of the movement which has spread to all quarters of the globe. In addition to the 800 clubs in the United States, Canada, England, Scotland and Ireland, and including the six clubs in Cuba, clubs have been organized in Argentine, Spain, Uruguay, Farnce, Porto Rico, Panama, Hawaii, Japan, China Philippine Islands and India, while active organization work is going forward in Denmark, Chile, Peru, Egypt, Australia, Holland, Brazil and other countries. Even with its restricted membership plan, there are to-day upward of 65,000 Rotarians in he world.

And yet this doesn't answer the question, "What is Rotary."

The Rotary platform is based upon human service. It doesn't consider a man a success unless he is of the fullest possible value to his felowmen in helping them to greater happiness, no matter whether he is a money maker or not. "The Rotary club demands fair dealings, honest methods and high standards in business,' is the theme of the Rotary platform, and its last clause, "He profits most who serves best," has been adopted as the latter part of the official slogan: "Service Above Self —He Profits Most Who Serves Best." This thought implanted in the life of one man spreads to others, and a small group possessing the thought of unselfish service soon creates the desire in other men to do likewise. Hence the rapid spread of the Rotary idea.

However, these facts should be borne in mind, let it be thought that Rotary is forcing itself upon the world: The growth of Rotary has been spontaneous. Never at any time has the organization employed a paid organizer. On the other hand, extreme care has always been exercised in surveying cities and towns which apply for membership to make sure that such communities are ready for a Rotary club and are of sufficient size to provide a membership of representative men and still have the membership restricted to one man from each distinctive business or profession, although, occasionally, one additional representative from the same firm is permitted. This plan of restricted membership insures the fullest possible representation of the community, while at the same time it is impossible for the membershtip to become large and unwieldy; united action is easier with a small group; the diversified representaion provides an ideal forum for the discussion of local problems; no one line of business or profession can dominate the group; and the smallness of the club permits of the enforcement of the attendance rule, which requires that any member be automatically removed from the roster if he be absent four times in succession. This insistence upon regular attendance has given the Rotary club the record of having the largest average attendance of all organizations of business and professional men. In December, 1920, the average for all of the clubs of the United States and Canada was 77.40 per cent.

EDITORIAL NOTES.

March came in like a lamb. May it go out the same way.

The advent of Rotary into Peterborough should be welcomed. Rotary clubs not only benefit the individual members, but the whole community as well.

With one hundred and sixty divorce cases to unravel, the Senate cannot complain of a lack of work this session.

The Ontario Legislature seems to be trying to compete with the Federal House in the matter of long, unprofitable debates.

Perhaps Hon. Manning Doherty wants to go to England to save his hide from Hon. J. H. Ferguson.

The cost of conducting the Hydro radial investigation would be a good start towards constructing a section of radial.

Rev. James Smyth, of Montreal, declares that many of our churches have become comfortable club rooms for the rich. And the Montreal divine is not far from the mark.

WISE AND OTHERWISE

The iniquitous press has again cased trouble. This time, however, it isn't big Angus Macdonald who assails the papers but some members of the Manitoba Legislature, who have gone to the trouble of giving speeches in the Legislature which the Winnipeg press has passed by with brief notices. And the incorrigible press has added insult to injury by suggesting that if the press notices do not satisfy the M.L.A.'s they might buy advertising space or hire a hall.

This is another flagrant example of the press wilfully neglecting its mission of public service by failing to bring to the attention of its readers the gems of rhetoric wit and wisdom and the sword play of sarcasm and irony which feature the sessions of the august bodies which handle the public's business. The degeneracy of the press is becoming more apparent daily To-day it is little more than an organ for the distribution of news and its own opinions. The general public does not object to reading news when it can find nothing better to read but it is almost a glutton when verbatim reports of Legislature debates on Skidunk Corners private bill are served up twice daily by its newspapers. Even the women will read the editorial page when the stand which the members took on this important question is featured by the editorial writers with the opinions of the members substituted for those of the paper.

As has been already suggested in Toronto, the best solution is to muzzle the press.

A newspaper soviet should work out remarkably well. The soviet committee would be remodelled upon the most approved Trotsky and Lenine lines having "Freedom" for its motto and being composed of persons with the least possible knowledge of how a newspaper is run. Illiterates would be preferable, but as the supply of these has diminished (partly through the degenerative educational policy advocated by the press) a few who could sign their own names might be included.

Each day the soviet committee would order a special corps of short hand writers to the Legislature to take verbatim reports of the debates on matters of interest to the participating members. The news editor would be ordered to feature these on the front page. If fillers were required the city and telegraph editors would be called upon to prune down a few of the less newsy local stories and despatches to fill the odd corners. The editorial writers would hold daily conferences with the soviet, rather than the managing editor, and would express the opinions of the members of the Legislature instead of those of the paper.

Most certainly an ideal condition of affairs. A bit of "free" Russia transported intact to this bourgeois country. The "pool of iniquity", as Angus Macdonald calls it, drained off and made an open forum for the expression of the opinions of members of legislatures.

Bernard's new collection features evening gowns and wraps of duvetyn.

"Legislady" is a new word coined in Kansas for women members of the Legislature.

UNLUCKY JAP 'PHONE NUMBERS.

TORONTO, March 1 (Canadian Press).—In Japan, says the Boston Post, the telephone number 8 commands a higher price from subscribers than any other. The number, written in its Japanese character, means success and prosperity, and costs the subscriber who holds it nearly $500.00 a year.

Numbers 42 and 49 are particularly unlucky in the eyes of the Japanese. The former is pronounced "shini," which means death; the latter, "shiku," meaning distress and suffering.

These numbers are carefully avoided by subscribers, and are usually allotted to police stations, asylums, and similar institutions.

GET PERMITS FOR GUNS IN YOUR HOMES.

TORONTO, March 1. — Citizens who have rifles and revolvers in their homes, whether they be of the ancient flint-lock muzzle-loader type kept as curios, or up-to-date hunting weapons or revolvers for protection against burglars, must have a permit from the police to keep such firearms in their homes.

It is now compulsory by Federal law for owners of firearms to have permits. Until recently Canadian-born citizens only needed permits to carry weapons while on the street, and all alien-born had to have a permit to keep or carry weapons. This clause "all alien-born" has been eliminated, and it is now illegal for anyone to harbour firearms without a permit.

The result of this new law, which was put on the statute by the combined efforts of the police departments of Canada, has brought about hundreds of applications for permits.

W. F. McCANN BORN IN CAMPBELLFORD.

TORONTO, March 1.—The death occurred on Sunday at St. Michael's Hospital of W. F. McCann, who had been Secretary to Works Commissioner Harris. Death was due to blood-poisoning. Mr. McCann was born at Campbellford about 40 years ago. The funeral will be held today from his late residence, 453 Wellesley Street, at 8.30 a.m., to Our Lady of Lourdes Church, where Mass will be said at 9 o'clock; interment at Mount Hope Cemetery.

Ladies! Here Is the Secret of True Beauty

LET WOMEN realize that paint and powder cannot take the place of healthy organs that function properly every day. The basis of good health is regular daily elimination. Then the head is clear, the skin rosy, the eyes bright.

When you feel constipated don't try to hide it with with cosmetics but take a teaspoonful of Dr. Caldwell's Laxative Syrup Pepsin. It is a combination of simple laxative herbs with pepsin, and the formula is on the package. Unlike salt waters, tablets and pills, Dr. Caldwell's Laxative Syrup Pepsin acts gently and mildly. It is safe for babies. A sixty-cent bottle will last months, and all in the family can use it.

If you would like to test Dr. Caldwell's Laxative Syrup Pepsin free of charge before buying it in the regular way of your druggist, send your name and address to Dr. W. B. Caldwell, 19 Front St., Bridgeburg, Ont., and a free trial bottle will be sent you promptly, postpaid.

A STRADIVARIUS VIOLIN STOLEN.

Former Possession of Ex-German Crown Prince Stolen From Potsdam Villa.

BERLIN, March 1.—(By Cross-Atlantic Newspaper Service).— A world-famous Stradivarius violin, formerly in the possession of the ex-Crown Prince, has been stolen by burglars from a villa near Potsdam. Fabulous sums have been offered for the instrument. The violin bears the inscription "Antonio Stradivari, 1718, facibat." At the same time several other valuable instruments fell into the hands of the thieves.

Knew What He Ordered.

"How much is mine?" asked a customer in the rapid-fire restaurant. "You didn't gimme no check."

"Lez see," queried Heloise, the waitress. "What'd ya have?"

"Lord knows! I ordered corn beef hash."

SEIZED ON GIRL'S TIP AS SLAYERS OF TWO IN BANK.

James Minogul and George Stuyvesant Suspected of Two Detroit Hold-Ups and One Near Reading.

NEW YORK, March 1.— James Minogue and George Stuyvesant were locked up at Police Headquarters last night as fugitives from justice, accused of being concerned in two hold-ups in Detroit, in one of which two policemen were killed and another wounded, and in the hold-up of a bank in Wissoniming, near Reading, Pa., in which $180,000 was stolen.

Minogue also is said to have been an associate of four men convicted of the robbery of George Alexander of 680 West End Avenue, a poultry dealer, whose assailants took $47,000 from him as he was getting into his automobile near his home, November 28, 1919. One of those connected with the hold-up never has been discovered and the police were questioning Minogue about it last night.

The pair were arrested upon information obtained from Helen Davis, a young woman, whose home is in Wissonoming. A few days before the People's Trust Company in that town was held up by six men, February 4, she made the acquaintance of three men who were strangers to the place and promised to show her Philadelphia and New York.

Tire of Girl After Trip

Some time after the bank hold-up they took her in an automobile to Philadelphia. After a few days in that city they brought her to New York. They gave her $100 when they had tired of her, she said, and sent her home. She told the Reading police that the men seemed to be at home in New York, and also talked in familiar fashion of Albany.

The Reading police sent her to New York, where she described one of the men, whom she knew as Thomas Belmont, so minutely that Detective Sergeant James Smith thought he recogized him as Minogue, who has served two terms in the reformatory, Smith had been following Minogue for several days and arrested him and Stuyvesant, with the help of Traffic Patrolman Haze, as they emerged from a restaurant on Lenox Avenue.

According to the police, Minogue had a loaded revolver slung in his trousers leg and Stuyvesant was carrying a .45 automatic pistol. Inspector Coughlin himself searched a roomed rented by Minogue at 120 West 111th Street, finding, he said besides a sawed-off shotgun, papers which seemed to implicate their possessor with the hold-ups in Detroit.

COUNTY OF OXFORD HAS LITTLE CRIME

Provincial Police Officer Not Needed and Goes to the Border.

WOODSTOCK, March 1st.—Oxford County is no longer to be under the surveillance of the provincial police in so far as the permanent location of an official of that body here is concerned. Constable Arthur Glasby, who was sent here shortly after the new order in accordance with the plan of the provincial police, leaves for Windsor, where he will report for permanent service. The reason for his emoval is that there has not been sufficient work in this section to require his permanent location here.

We Sell and Give Real Service on FORD Cars, Trucks Tractors and Power Farming Machinery

A Wonderful Opportunity

ONE THAT HAS NEVER OCCURRED BEFORE
THERE WILL NOT BE SUCH A CHANCE AGAIN

SEE WHAT WE GIVE YOU—

In order to bring our remarkable book "LOVE AND WAR" before the public we are making a most unusual offer. "LOVE AND WAR" is a romantic novel; full of life and fire and passion. A tale of heroism and love's reward. It is vivid and arresting; once you begin, you cannot stop until you have read to the end. It makes the tears come to your eyes, and your heart beat fast with excitement, for it takes you to the actual scene of conflict—tells you things that have never been told before. Read what Lieutenant Cross of the Canadian Air Force, says about it:—

"I have read 'Love and War'. It is vivid and thrilling. I myself took an active part in the War, and so am in a position to judge the truth of the descriptions. They are REAL. The book gave me a new insight into the conditions that existed at the Front. The happy way in which Romance is blended with Reality makes it a most outstanding book,—one that should be read by everybody who is interested in the doings of fair women and brave men.

"Yours very truly,
"Ronald Cross,
"Lieutenant, C.A.F."

The published price of this remarkable book is $3.50. We make a special offer at the very low price of..... **$2.50**

FREE

In addition to the above, we send to you, absolutely FREE

A Reliable Watch

This Splendid Timekeeper is made by the largest makers of watches in the world. It is handsome and reliable; a Watch that any man or woman would be proud to own. This is not a cheap thing, but a Watch that costs **$2.50** in any U.S.A. store, or **$3.35** in any Canadian store. When you receive it, compare it with the watches in any jewellers—you will see that the watch we give you is the same as those sold at the prices we have named.

BUT THAT IS NOT ALL.

We also send you, as a free gift, FIVE SPLENDID BOOKS, printed on good paper, handsomely bound, well illustrated, that sell at 60 cents apiece—$3.00 in all. These are good, clean fiction for men and women, boys and girls. You will read them over and over again. We will make a selection of 5 from a series and send them Free, so that you will know THE WORLD PUBLISHING ASSOCIATION, and tell your friends about us.

To those who send their orders before March 10th, 1921, we make a further present of **10 Useful Household Articles.** So see that your order is in on time.

WHY WE MAKE THIS UNIQUE OFFER.

No doubt you are asking yourself how anybody could give such a remarkable amount of goods, all for the small sum of $2.50. As you know, it costs any advertiser many thousands of dollars to get his name and his goods before the public. Often it is a question of years, as well as of money, before people all over the country know about a firm. We have decided to MAKE OURSELVES KNOWN, so that there is not a home where THE WORLD PUBLISHING ASSOCIATION is not a familiar name. And this is the method we have adopted. We believe that if we GIVE YOU SOMETHING, such as has never been given before, you will learn about us more quickly and more satisfactorily, than if you saw our name a thousand times. But you have to hurry up. Send in your order before March 10th and take advantage of our Great Free Offer.

DO NOT WAIT—DO NOT DELAY

SEND YOUR ORDER BEFORE MARCH 10th.

THE WORLD PUBLISHING ASSOCIATION

STOLE $771,500; TAKEN BY POLICE.

Sixteen-Year-Old Bank Clerk Captured Near Boomington, Ill.

BLOOMINGTON, Ill., March 1.—William Dalton, sixteen-year-old clerk who robbed the Northern Trust Company of Chicago of $772,000 in Liberty bonds Thursday, was captured to-day at Heyworth, south of this city. His identity was first suspected by James Dennis, a crippled World War veteran, who met the boy walking the railroad tracks near Bloomington and offered him a lift into Heyworth.

Dennis mentioned his suspicions to Paul Draper, son of the town-constable, who immediately saw Dalton's resemblance to pictures of the robber that had appeared in Chicago newspapers. Draper passed the word to his father, who arrested Dalton and brought him to Bloomington tonight. He is in the McLean County jail here.

All but $500 worth of the bonds were found in a suitcase tossed carelessly into a corner of a Heyworth pool room, where Dalton was playing at the time of his arrest. One $500 bond, Dalton admitted, he had cashed in Chicago and had spent the money.

Dalton readily admitted his identity. He said he had taken the bonds because his $65 a month salary had seemed inadequate to him and the bank had refused to give him a raise. He recalled that Judge Landis had paroled an Ottawa, Ill., bank embezzler named Carey because his salary was too small, and Dalton told Constable Draper that he thought the same thing applied in his case, as his salary was $65 a month, while Carey's was $90.

Dalton added, however, that he was sorry he had taken the bonds. He said he had acted on impulse, taking the bonds when he had an easy chance and without any definite destination in mind except, perhaps, South America. He expressed special regret that he had brought dishonor upon his widowed mother and his sisters.

Depend upon them to break up colds and ward off "Flu".

JUST a word of caution—don't belittle the evil effects of a cold. Realize its seriousness. Once a cold fastens its clutches on you, it seems as if you can't shake it off. Many very serious illnesses often have their beginning in a cold which could be gotten rid of promptly if the proper remedy be taken in time. Colds comes quickly and develop rapidly. Don't take any chances. At the first sneeze or cough, or chilly feeling, start right in to take DOMINION C.B.Q. (in the red box). A few of these tablets break up the cold and free the system of it. Taken in time, DOMINION C.B.Q. prevent you from having Tonsillitis, Bronchitis and those racking coughs that cause you to lose weight and appetite, and pull down your entire system. The fact that DOMINION C.B.Q. Tablets are made by National Drug & Chemical Company of Canada, Limited is the best assurance of their efficacy.

TO STOP A COLD in a few hours take DOMINION C.B.Q. Tablets in the Red Box

PETROGRAD DWINDLES UNDER THE SOVIETS.

One-Eighth of Pre-War Population Starves Under Red Regime.

RIGA, March 1.—(By Cross-Atlantic Newspaper Service).—Petrograd has now a population of 250,000 compared with 2,000,000 before the war. The dearth of food is much greater than in Moscow. Private persons leaving the city have to nominate hostages who are held responsible for their return. In spite of these drasic measures, the population is steadily decreasing.

CENSUS OF FRANCE SET FOR MARCH 5-6

Last Enumeration 1911—Will Show Results of War's Death Toll.

PARIS, Feb. 28.—The census of France will be taken March 5 and 6. The last French census was in 1911, and gerat interest attaches to the forthcoming enumeration because it will reflect the results of the world war and the subsequent movement of population upon the French Republic. In deaths France lost in the war 1,700,000; but because of contributory causes the war made much heavier inroads on her population.

It is generally estimated that there are 3,000,000 fewer French than the 38,000,000 of the last census. However, parts of France, notably Paris and the Mediterranean cities, have had a great influx of refugees from the disturbed countries. It is estimated that there are 200,000 Russian refugees in Paris alone.

NOURISHING AND APPETIZING

Good home made bread is the most palatable, wholesome and nourishing food in the world. It is far more economical than any other staple food. If people would eat less meat and other heavy foods they would feel better and help to keep down the cost of living. Bread made in the home with Royal Yeast Cakes is more nourishing and appetizing than any other. Nothing healthier for children and grown ups.

Scientists have discovered that yeast possesses remarkable curative powers due to its richness in vitamines—that by its use the blood is purified and enriched, and the resistive power of the body to disease greatly enhanced. Soak a cake of Royal Yeast for half an hour in a cup of luke-warm water with one teaspoon sugar. Then stir well and strain once or twice through muslin and drink the liquid. BETTER results will be obtained by allowing it to soak over night and drinking half an hour before breakfast. Repeat as often as desired. Send name and address for free booklet entitled "Royal Yeast for Better Health."

THE HOME CIRCLE

A Good Old Age.

A good old age is a beautiful sight and there is nothing earthly that is as noble—in my eyes at least. And so I have often thought a ship is a fine object when it comes into port with all its sails set from a long voyage. Many a thousand miles it has come, with the sun for guidance and the sea for its path; and the waves that might have been its grave, a thousand fathoms deep, have yielded it a ready way, and winds that might have been its wreck have been its service. It has come from another meridian than ours. It has come by reefs and banks that have been washed for centuries by the restless waves, but not a plank has started nor one timber in it proven rotten. And now it has come like an answer to the prayers of many hearts—a delight to the owner, a joy to many a sailor's home, and a pleasure to all ashore that see it. It has been steered over the ocean, and been piloted through dangers and now it is safe. But still more interesting than this is a good life as it approaches its three score years and ten. It began in the century before the present; has lasted on through storms and sunshine; and it has been guarded against many a rock on which shipwreck of a good conscience might have been made.

It does not make much difference whether you own your house or home, but one little room in that house you can make a real and true home to you. You can furnish it with such beautifying thoughts, you can turn to it with such sweet fancies, that it will be fairly luminous with their presence, and will be to you the very perfection of a home.

WHY DON'T YOU?

Why don't you answer your friend's letter at once? It will have double value if written promptly, and will take no more time now than by and by.

Why don't you make the promised visit to that invalid? She is looking for you day after day; and "hope deferred maketh the heart sick."

Why don't you send away that little gift that you've been planning to send? Mere kind intentions never accomplish any good.

Why don't you speak out the encouraging words you have in your thoughts? Unless you express them they are of no use to others.

Why don't you take more pains to be self-sacrificing and loving in every day home life? Time is rapidly passing. Your dear ones will not be with you always.

Why don't you create around you an atmosphere of happiness and helpfulness, so that all who come in touch with you may be made better? Is not this possible?

Why don't you follow in the steps of Him who "came not to be ministered unto, but to minister?"

God bless the children. They are a world of care and trouble; they bring pain and weariness and sorrow, but are worth it all. Do you remember after that weary day when you were harsh and irritable and they went to sleep with a sob, what bright, fresh faces they brought to you in the morning? How full of tenderness and forgiveness children are! How quick to forget unkindness! How fine is the intelligence with which they look beneath the surface and know that the irritable, nervous creature of the night before is not the real mother, but the serene, gentle woman of the morning whom they love with deep devotion. They are the beautiful examples of the truth that sorrow may endure for the night, but joy cometh in the morning. By their love and brightness they repay us hourly for every struggle we may endure for them.

Every ambitious girl has in view some ideal work, and if they do not reach the point of perfection in that work they will be dissatisfied. Do not think because they do all the work set before them willingly, that they are satisfied. Don't you know that they are working to be promoted higher? Do not think that a profession will make your girl less womanly, no, never. Every womanly woman likes to be independent. Parents, do you realize that your girls will soon be women and have to fill women's places? Have you done your duty by trying to fit them for their position? If so, God bless you. If not, God help you to do so.

The most perilous hour in a person's life is when he is tempted to despond. The man who loses his courage loses all. There is no more hope for him than for a dead man; but it matters not how poor he may be, how much pushed by circumstances, how much deserted by friends, how much lost to the world; if he only keep his courage, holds up his head, works on with his hands and with unconquerable will determines to be and to do what becomes a man, all will be well.

Go forth with a smile on your face and you will return believing that most people are good natured. Wear a frown and you will find plenty of quarrelsome people.

He who creates a beautiful smile creates a beautiful gem.

Old Country folk declare 1921 is to be a gloomy year by the omen that Good Friday falls on Lady Day, since old tradition says:

When our Lord falls on our Lady's lap,
England must look for a great mishap.

BANDIT GANG TAKEN AFTER CAR HOLD UP.

Three Men in Midnight Attack on Jersey Trolley Routed by Bullets of Passenger.

ELIZABETH, N. J., March 1.—An unsuccessful attempt to hold up a trolley car of the Morris County Traction Company at midnight near Hillside resulted in the arrest of three men, one of them wounded in the shoulder, who are suspected not only of trying to hold up the trolley car, but of being members of a gang which has held up two trolley cars and numerous motorists.

The prisoners are said to have confessed trying to hold up the trolley car and to participating in at least twenty hold-ups in Union County in the last few weeks. According to County Detective Galatian, they admitted taking part in the hold-up of several automobile parties near the Baltusrol Golf Club recently, in the course of which Robt. H. Huse, a New York attorney, was shot in the arm.

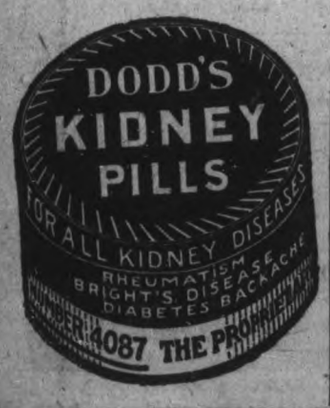
Prisoners Plead Guilty.

The three prisoners pleaded guilty to charges of highway robbery when arraigned in police court here, and had no reply to make when County Prosecutor Walter L. Hetfield read a list of fifteen hold-ups committed in the last three months in this county in which he asserted they had taken part.

Prosecutor Hetfield said he had obtained written confessions from all three involving them in all the important highway robberies from which Union County has suffered in the last three months. They were held without bail, and the Prosecutor will arraign them in County Court Monday.

"It is probable," he said, "that they will waive indictment and be sentenced forthwith."

The arrests were due to the fact that Carl Schmidling, a passenger on the trolley car, carried a revolver and began to blaze away at the highwaymen as soon as they stopped the car. Schmidling is instructor in physical training in the public schools in Summit, N.J., and lives in Elizabeth. In 1917, while he was in the Elizabeth High School, he was picked as a member of the All-New Jersey football team.



HE DARKENED HIS GRAY HAIR

TELLS HOW HE DID IT

Mr. J. A. McCrea, a well-known resident of California, who was called Daddy and Grandpa on account of his white hair, and who darkened it with a home-made mixture, made the following statement:

"Anyone can prepare a simple mixture at home that will darken gray hair, and make it soft and glossy. To a half-pint of water add 1 ounce of bay rum, a small box of Orlex Compounded and 1-4 ounce of glycerine.

These ingredients can be bought at any drug store at very little cost. Apply to the hair twice a week until the desired shade is obtained. It does not color the scalp, is not sticky or greasy and does not rub off."

EGGS AND POULTRY

Toronto steady and unchanged, Saturday farmers' market retail fifty-three five. States arriving costing forty-four five delivered. Montreal receipts reported lighter, consumption good. Specials jobbing fifty, extras and States forty-seven eight. Specials retailing sixty sixty-five. Chicago firsts thirty-three four. New York extra firsts forty- firsts thirty-seven nine. London cable twenty-eighth prices declining steadily, English 28/- 33/-, Irish 28/- 30/-, Danish 28/- 32/-, Dutch 28/- 30/-. Poultry prices unaltered.

WHEN SILENCE IS DEADLY.

Silence is commonly the slow poison used by those who mean to murder love. There is nothing violent about it. No shock is given. Hope is not abruptly strangled but merely dreams of evil and fights with gradual stilling shadows. When the last convulsions come they are not terrific. The frame has been weakened for dissolution. Love dies like natural decay. It seems the kindest way of doing a cruel thing.—George Meredith.

CITY-WIDE LIQUOR RAID IN NEW YORK.

Prohibition Enforcement Officers Capture 100 in Raids.

NEW YORK, March 1. — After weeks of preparation, prohibition enforcement agents of this city, reinforced by others from Boston, launched a city-wide raid to clean up various moist spots in New York, where liquor has been sold in defiance of law.

Fifty-nine places were raided, including several Broadway restaurants, and more than a hundred arrests were made. The prohibition force was 186 strong, of which 46 were brought on from Massachusetts.

A departure of the raiders from their usual tactics caught the liquor sellers completely off guard. Hitherto when an offensive has been contemplated against them saloon-keepers always have received timely warning, and for the most part have managed to conceal their store of rum before the agents descended upon them.

Unable to plug the "leak" from prohibition headquarters, Supervising Enforcement Agent Daniel J. Chapin and his staff laid out a new plan of campaign for this offensive.

Three weeks ago the Boston enforcement office was appealed to and sent men on here, with instructions to stay severely away from the office of Mr. Chapin and wanted about the Tenderloin and other notoriously moist districts, purchasing liquor wherever possible.

The Boston agents came in two installments, some days apart. They entered saloons and where it was possible to purchase liquor, bought it. In each saloon that was violating the law booze was purchased by the agents at least twice.

Then the agents went before Federal Judge Knox and swore out warrants for the arrest of the offenders. No one outside of the high officials in the prohibition enforcement office and Judge Knox knew that they had been in town.

It was rumoured about Mr. Chapin's office that a raid was contemplated and that numerous Boston agents were coming on here to take part in it. As usual, the leak occurred. By noon the tip had gone out to liquor sellers the city over to "cover up."

A raid was coming, the report went forth, and saloon-keepers immediately secreted their stock and sold nothing but the mildest of beverages across their bars.

Saloon-keepers met the agents who entered their places with smiles of child-like innocence. These were replaced by glares of dismay when agents, paying no attention whatever to their virtuous insistence that there wasn't a drop of liquor in the place, presented warrants for their arrest.

The raiders showed no preference in their quest for liquor, and visited well-known cafes in the heart of the Boardway district, delved into Greenwich Village, and even picked up a victim in Chinatown. They raided five places in Brooklyn and two on Staten Island.

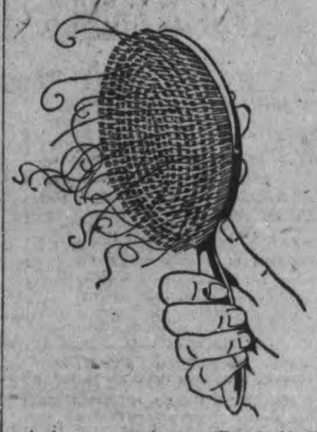
"CASCARETS" IF SICK OR BILIOUS

To-night sure! Let a pleasant, harmless Cascaret work while you sleep, and have your liver active, head clear, stomach sweet and bowels moving regular by morning. No griping or inconveniece—10, 25 or 50 cent boxes. Children love this candy cathartic, too.

Lanvin is showing a great many capes such as she features for the Riviera, in wool jersey embroidered in large outline stitch in tiny fringe, and all capes are so cut that they hug the shoulders.

DANDERINE

Stops Hair Coming Out; Thickens, Beautifies.



A few cents buys "Danderine." After a few applications you cannot find a fallen hair or any dandruff, besides every hair shows new life, vigor, brightness, more color and abundance.

JUSTICE TO THE PEANUT.

Easily Digested and of Real Nutritive Merit as a Food.

The statistics of the peanut crop in the United States, as a writer in the Journal of the American Medical Association says, attest the growing popularity of the product. For many years peanuts were eaten essentially as extra foods, like candy and other sweetmeats. Latterly they have begun to claim a more substantial place in the diet. Under the appealing designation of peanut butter the ground peanuts are finding widespread use as a palatable, wholesome food.

Peanut oil is now expressed in large quantities from shelled peanuts and has received commendation. From the resulting press cake peanut flour has been prepared by grinding. Peanuts are unusual in containing a considerable proportion of protein along with both fat and carbohydrate. Water soluble vitamine is also not lacking. Experts in the office of home economics at the United States Department of Agriculture have shown that the nutrients of peanuts are easily digested by man. Johns and Finks of the same department have given an added worth to the food by demonstrating convincingly the high physiologic value of the peanut protein.

Various investigators have demonstrated that bread made from wheat flour of current composition is inadequate as the only source of protein in the diet. The Government workers have found, however, that bread made with a mixture of twenty-five parts of peanut flour and seventy-five parts of wheat flour furnished adequate proteins for normal growth of experimental animals. The proteins of the peanut bread were utilized for gain almost twice as well as those contained in wheat bread. This does not mean that the familiar staff of life should be abandoned or regularly diluted with peanut flour; it does, however, put a stamp of real nutritive merit on a food product that many a physician still thinks of solely in terms of a trouble maker for digestion.

Suggested By the Partner.

"Harry," she said, thoughtfully.

"What is it?" responded the worried business man, rather shortly.

"I wish you could rearrange your business a little bit."

"How?"

"So as to be a bear on the stock exchange instead of at home."

BIRTHDAY PARTY FOR MRS. MARY RENWICK

Social Evening at the Home of Mrs. William Stinson.

An enjoyable time was spent Friday evening at the home of Mrs. Wm. Stenson, Harvey street on the occasion of her mother's Mrs. Mary Renwick, seventy-eighth birthday.

The table looked very dainty with wax candles and purple decorations. Mrs. Renwick's brother, James Henderson, and her three sisters, Mrs. Dave Johnston and Misses Henderson of East City, were present to wish her many happy returns of the day.

The other guests were her son, George Renwick, wife and daughter, Claire, Andrew McGowan, Mr. and Mrs. Sanford Harris and brother Osca.

Note the rush to meals when Mother provides a bountiful supply of Crown Brand for griddle cakes, puddings, and oatmeal porridge.

PETERBORO MEMBER AT OTTAWA

(Port Hope Guide.)

The introduction of the Liberal member for West Peterborough in the House of Commons on Thursday was a gala occasion. The news of his arrival at the capital spread like wild-fire. The probable hour of his presence at "the buildings" was fairly well calculated. It was easily realized that his introduction would be accompanied with more than the usual interest incident to such an occasion. It is not surprising, therefore, that the galleries were crowded to their utmost capacity. The beauty and fashion of the city filled the specially exclusive seats of the ladies and Senators' galleries. The proletariat of the capital, representing "the man on the street," singularly independent in its judgment of political questions, and peculiarly representative of the varying changes of the public atmosphere, crowded into the general gallery. A stranger could not avoid noticing the presence of two opposing currents, leaden depression upon the one hand, and an exhilarating rising temperature on the other. The force of the latter was self-evident. On the floor of the House was reflected the mecurial condition of the galleries, only it was more in evidence. The gloomy looks of the Prime Minister and his colleagues expressed their inner thoughts. They could almost feel the presence of the public executioner. When Meighen, or Reid, or Guthrie raised their eyes from their desks they looked as if the black mask was about to be drawn by invisible hand, previous to the noose being tightened. It did not require a brilliant imagination to see their political fortunes soon adorning a gallows higher than the one which Haman had erected for Mordecai.

The tense moment had come. A loud knock was heard, the main doors opposite the Speaker's chair swung open and the new member for Peterborough, escorted by Mr. Mackenzie King, the Liberal Leader, and Hon. Charles Murphy, entered. In an instant Parliamentary calm and dignity gave place to uproarious applause from the Liberal and cross-benchers. The hammering upon desks and cheers and cheers only appeared slightly less uproarious to be renewed again and again. The trio stood before the Mace waiting for the enthusiasm to subside so that the formal introduction might be heard by the Speaker. Once the galleries joined in the general uproar, scarcely heard, however, in the din upon the floor of the House. During a pause in the cheering, the formal words of introduction were uttered, and as the new member went forward to shake hands with the Speaker, it found utterance apparently louder than ever again. The Government leaders were forced to drink the cup of their humiliation to the dress. There was nothing that they could not have done to have had it pass from them. They know all that Gordon's presence in the House means. In him they recognize that the Median King is at the gate. West Peterborough is simply the reflection of the opinion of the country. Arthur Meighen flooded West Peterborough with the most experienced outside organization that any political party in this country ever got together. Their names were unlimited. They scattered money like leaves in Autumn. They awarded a quarter of a million contract for a dam on the river within the limits of the town. They promised everything, individually and collectively, that could be thought of. They had an exceptionally gentlemanly and desirable candidate. But all to no purpose. The introduction of G. N. Gordon in the House on Thursday is the writing on the wall, not by an invisible hand, but clearly inscribed by an indignant electorate. The Government's doom is sealed and they know it. But rather than face an election, they hang on to office and do their best to scuttle the ship. Grand patriots, these! Pirates, more like.

A Danger Warning —Bleeding Gums

Are your gums tender? Do they bleed when brushed? If so—watch out for Pyorrhea.

This disease of the gums, which afflicts four out of five people over forty, not only destroys the teeth, but often wrecks the health.

In Pyorrhea, the gums become spongy, then recede; the teeth decay, loosen and fall out—or must be extracted to rid the system of the infecting Pyorrhea germs which breed in pockets about them. These germs lower the body's vitality and cause many diseases.

You can keep Pyorrhea away. Visit your dentist often for tooth and gum inspection, and use Forhan's For the Gums.

Forhan's For the Gums prevents Pyorrhea—or checks its progress if used in time and used consistently. Ordinary dentifrices cannot do this. Forhan's keeps the gums firm and healthy—the teeth white and clean.

Start using it today. If your gums have receded, use Forhan's according to directions, and consult a dentist immediately for special treatment.

35c and 60c tubes in Canada and U. S. If your druggist cannot supply you, send price to us direct and we will mail tube postpaid.

433 GEORGE STREET, PETERBOROUGH ONT.

PROF. STATUS NOW FOR OSTEOPATHS.

Two Healing Branches Are Drawing Together.

TORONTO, March 1.—An officer of the Medical Council announces that: "Medical men of the Province will raise no objection to an amendment to the Medical Act under which osteopaths can be licensed, or to a bill giving them a status in the healing professions, if osteopaths have passed courses in physiology and anatomy and in the different cases of diseases."

A more detailed statement in explanation of the Council's attitude is expected any moment.

Osteopaths take the view that it will not be difficult for them to meet the Council It was pointed out that osteopaths who possess the certifcates of recognized schools in the United States—there is none in Canada—are required to give over 700 hours of the four-year course of seven months per year to the study of antamony. A longer period of time is given to the study of anatomy in schools of osteopathy than in many schools of surgery and medicine.

There have been five conferences between the medical council and representatives of the osteopaths: and while the impression had gone abroad that there would be no getting closer of the two healing professions, Premier Drury has held firm to his announced position that he would not be a party to any division between the professions.

A RELIC OF SLAVERY DAYS.

A somewhat interesting relic of old times is the copy of a sale bill published in the Jackson Sentinel of Maquoketa and found among the effects of a late resident at Maqupketa. The document is more than seventy years old, and reads as follows:

"Having sold my farm and intending to move to Missouri, I will sell at public sale, one mile west and four miles south of Harrisburg, Kentucky, on Saturday, Sept. 23, 1850, the following described property, to wit: One buck nigger, 25 years old, weight 210 pounds; 4 nigger wenches, from 18 to 24 years old; nigger boys, 6 years old; 13 nigger hoes; one fine sled; 6 yoke of oxen, well broke; 10 ox yokes, with hickory bows; two ox carts, with 61-inch tires; one saddle pony, 5 years old; one side saddle; 3 double shovel plows; 2 stump plows, 10 and 12-inch; 25 one-gallon whiskey jugs; 100 gallons apple cider; one gallon of good sorghum; two barrels of soap; two barrels of kraut; one extra good nigger whip; two tons of tobacco, 2 years old. Sale will start at 10.30 sharp. Terms, cash. I need the money.—Col. H. W. Johnson, Auctioneer; Bill Crawford, Clerk; Joe Cooley, Owner."

SHORTEST MURDER TRIAL ON RECORD.

Picked Jury in 5 Minutes —Verdict in 6.

CHICAGO, Feb. 28. — Charged with slaying Wm. C. Bran, his business partner, J. Ellsworth Griffin, was pronounced "not guilty" after the shortest murder trial ever recorded here.

Griffin was placed on trial at 10 a.m. The jury was completed in five minutes. Eleven witnesses were heard. The jury deliberated six minutes.

Griffin had entered a plea for not guilty. The jury acquitted him because of his assertion that the shot was fired in a scuffle for the weapon in a fight over the ownership of two quarts of moonshine.

RED PIMPLES ITCHED TERRIBLY

On Chest, Face, Arms. Burned Badly. Cuticura Heals.

"Ever since I can remember, my chest, face, and arms were filled with dry, red pimples. They were scattered all over me, and itched terribly at times, and I scratched them, causing them to fester and get sore. Sometimes they would dry away and form scales which burned badly.

"Then I used Cuticura Soap and Ointment. I had used them two or three times when I felt better and I was healed with one box of Cuticura Ointment together with the Cuticura Soap." (Signed) Miss Bertha Kass, Russell, Manitoba, February 19, 1919.

Use Cuticura Soap and Ointment for all toilet purposes. Soap to cleanse, Ointment to heal.

Soap 25c. Ointment 25 and 50c. Sold throughout the Dominion. Canadian Depot: Lymans, Limited, St. Paul St., Montreal.

Cuticura Soap shaves without mug.

OXO CUBES

IN POSTAL SERVICE FOR HALF CENTURY

B. M. Armstrong, Controller Railway Mail Branch, Retires Tomorrow.

OTTAWA, March 1.—Mr. B. M. Armstrong will to-day retire from his position as controller of the Rail way Mail Branch, after having seen service of more than fifty years in the postal department. He is to be allowed six months' leave without pay, dating from March first, after which he goes on the superannuation list.

Mr. B. M Armstrong has been in Ottawa in his present position since 1866. Prior to that time the Railway Mail Branch was administered without a controller in charge but its growth rendered it necessary to have a special officer to control the service throughout Canada and Mr. Armstrong was appointed.

He was born on March 31st 1849, and entered the service of the Post Office Department on November 5, 1867, being one of the original officers to join the service in the year of Confederation.

REFORMED OUTLAW DIES HONORED.

Invented Bird-Cage Trick For Breaking Jail.

LANCASTER, Pa., March 1.—For twenty-five years an industrious and respected citizen, but once a noted outlaw, Martin Buzzard, aged 80, has passed away at his son's farm near New Holland.

Buzzard was one of four brothers —Abe, Ike, Joe and Martin—who for years terrorized the country. Led by Abe, they made frequent raids from their secret haunts in the Welsh Mountains, and at one time virtually every crime committed in the eastern section of the country was laid to them.

Martin Buzzard originated the famous "birdcage trick" when in the Lancaster Jail. He raised a pet canary and invited the keeper into his cell to inspect the bird. As the jailer stepped inside Buzzard felled him, seized the keys, released twelve other prisoners and escaped.

Two brothers have been dead for some time. Abe is in prison for a recent robbery.

SERVANT GIRLS FROM BELGIUM.

BOSTON, Feb. 29.— A wealthy woman of Chicago has taken in hand fifty-two imported Belgian servant girls, who arrived here on the steamer "Zeeland" recently.

The girls are trained girls and if they prove a success in this country large numbers of them will follow, it is stated.

The wages for which they will work are said to be much less than those now being paid to skilled servant girls in America, which have soared during and since the war to $15 and higher a week, with 'home' included.

The girls are all single and many are described as "beauties."

BRUTAL MURDER OF YOUNG GIRL.

W. St. Pierre, of N. B., Charged With Crime.

EDMUNSTON, N.B., March 1 (Canaidan Press). — William St. Pierre, of Edmunston, a veteran of the Great War, was brought to trial here, charged with the murder of Miss Minnie Stevens, a telegraph operator, formerly in the employ of the Western Union Telegraph and Cable Company at this place.

The body of Miss Stevens was dragged from the bottom of the Miramichi River on the morning of 12th October after her disappearance and the signs of a desperate struggle on the river bank had led the police to believe that she had been the victim of foul play. The body was in a terribly bruised and battered condition. Blood stains on the ground and the discovery of hair apparently torn from the girl's head and some of her teeth, further confirmed the suspicions of the authorities that she had been the victim of one of the most brutal assaults ever committed in New Brunswick.

Minnie Stevens was last seen before the tragedy about nine o'clock on the evening of 11th October by a girl friend with whom she was walking home from the Western Union Telegraph office. As they parted her friend asked:

"Are you afraid to go home alone?"

"No, not a bit." Miss Stevens is said to have replied.

In the morning a man going to his work noticed blood stains along the river bank. Returning at noon and making an investigation, he discovered bits of hair and some teeth. He then reported the matter to the police.

A few days later William St. Pierre was arrested charged with murdering Minnie Stevens.

Minnie Stevens came to Edmunston from Middleton, N.S., a short time before her tragic death. She was a very quiet young girl, and had made few intimate friends here.

SOUTHERN FRUITS COMING IN HERE

PETERBORO STORES CARRYING A FEW SPECIAL LINES.

Vegetables forced to maturity under Southern skies are re-appearing in the local fruit stores and a few months hence the same representatives of the vegetable kingdom will be sold by the vegetable growers, peas, lettuce, celery and cauliflower grown in California have been in the shops all winter, but it is only recently that radishes, tomatoes, egg plants and cucumbers found their way into the vegetable displays. Of course the prices are high and the dealers do not stock up with them to any extent but they carry a few—a very few in one case. The dealer in reference only had a few representativs of the tomato family, a few egg plants and one cucumber. He had them in a little basket. The gg plants were 40 cents and the tomatoes 60 and the cucumbers 30. "We'll sell them to some of our customers" he said, seeing the doubting look of the Examiner.

Palms in Fruit Stores.

Palm Sunday is just three weeks away and in several of the fruit emporiums monster palm branches from California that came in recent shipments of fruit, are in a conspicuous place in celebration of that day. One of these branches measured 18 feet and would be a trifle bulky for bearing forth on March 20.

ENGLISH SHEPHERD GAVE THE WORLD SUNDAY SCHOOLS.

Raihes Found Devotional Ring Around This Countryman.

LONDON, March 1. — Robert Raikes, of Gloucester, is acknowledged as the founder of the Sunday School, writes G. S. Desmond in the London Daily News, but nothing is heard of Emmanuel Twynning, the shepherd of Magpie Bottom, Sheepscombe, Gloucestershire, from whom Raikes got his idea.

"Magpie Bottom is a beautiful crinkle at the edge of Sheepscombe, where the lane departs down the valley, at last reaching Gloucester, eight miles away," the writer says. "I don't know where marjoram grows so well as along the dry banks of the lane by Magpie Botom. and the commonlike field just over the wall is in summer almost one mass of thyme.

"From Gloucester to Sheepscombe is a good deal more than the Sabbath journey that was no doubt deemed correct in the time of Robert Raikes, and the young man must have been up here to take a service. At any rate, as he went by Magpie Bottom there was shepherd Emmanuel Tynning in that thyme-scented little paradise, with a ring of children round him, explaining perhaps the pastoral parables of the New Testament.

"Master Bob Raikes stopped, perhaps joined in a hymn and talked to the shepherd, asking him how he 'went on' when the weather was not so favorable. He was told that on wet days some handy cottage sheltered the class, and that, come wet or fine, there was a class every Sunday.

"During the walk back to Gloucester the thought took root, without the thyme and the marjoram and the inconsequent chirruping of grasshoppers, Robert took up his shepherding in the dark streets of the cathedral city.

"There are still plenty of Twynnings in Gloucestershire, though at Sheepscombe there are at present none."

STORED DRUGS IN ARTIFICIAL ARM.

Unscrewed a Prisoner's Hand, Found 20 Bottles of Narcotics.

NEW YORK, March 1.—Salvatore Santori, convicted here of violating the Sullivan Law, had resorted to the most ingenious hiding-place for drugs, perhaps ever yet thought of, his plan being to utilise the possibilities of an artificial arm strapped to his shoulders to replace his own lost in an accident.

Santori was recently indicted for carrying a revolver, following his arrest when found with two packages of narcotics in his possession.

After his arrest, a detective of the squad became curious concerning the wooden mechanical arm. It was a well-made instrument with a cleverly carved wooden hand that unscrewed from the arm proper at the wrist. The curious detective gave the hand a turn or two against Santori's protest, and it came loose. It is declared that no less than twenty bottles of drugs were concealed in the recess into which the stump of the hand had fitted. There was another inspection of the arm after it disgorged the first lot of drugs. This time a trap door was found in the upper section.

When Santori's term for gun carrying has been completed, he will be brought back to the city and placed on trial for having drugs in his possession.

RIGHT ON THE JOB

every day, every week, all the year round, with the vim and vigor that come from simple, nourishing foods that are easily digested—foods that do not tax the stomach or poison the intestines—that's the man who eats Shredded Wheat Biscuit. It contains all the body-building material in the whole wheat grain, is easily digested and keeps the intestinal tract clean, healthy and active.

Try this simple, natural diet for a few weeks and see how much better you feel. Two Biscuits with hot milk make a warm, nourishing meal.

Have pretty hemstitched edge and medallion. 2½ yards long. Regular $7.50. Wednesday special for, pair $5.00

THE CROPS HAVE WINTERED WELL

GETTING TIRED OF READING ABOUT THE GLOBE ROBIN.

"I'm sick of reading in The Globe about robins in Toronto. I've seen robins, crows, bluejays, and hawks all winter in the country," said a North Monaghan man who divides his time between farming and railroading. A vegetable grower in the same township told The Examiner it was such a mild winter the crows have never gone away. He has not seen any robins, but bluejays a-plenty.

"Can you tell what effect the mild winter has had on the crops?" The Examiner asked him.

"No, not yet. It all depends on the weather of the next few weeks. If we have much frost the fall wheat and hay will undoubtedly suffer. Last spring was a particularly good spring. This one looks all right now. This mild weather is fine if it continues without frost. Many strawberry plants had been killed out," he thought, "but he could not state definitely just what the growers and farmers had suffered for a while yet."

NORTH MONAGHAN COUNCIL

The North Monaghan Council met at the Court House Saturday afternoon at two o'clock. All the members were present with Reeve John McIntosh in the chair. Mr. Frank Pratt, the Township Relief Officer, was present and discussed the various charity accounts with the Council.

The Reeve and Clerk were instructed to sign the Treasurer's statement of money expended on the Township roads for 1920 so that the municipality may receive twenty per cent. of the amount of the total from the funds set aside for that purpose by the Legislature.

Bills Presented.

The following, which are all charity bills, were passed and ordered to be paid:

Peterborough Fuel and Transfer Co., coal, $7.00; W. G. Byers, groceries, $33.15; W. G. Fitzgerald, wood, $21.00; A. E. Saunders, groceries, $5.59; A. E. Saunders, groceries, $17.55; Peterborough Fuel and Transfer Co., wood, $7.50; W. G. Byers, groceries, $29.94; W. G. Byers, groceries, $45.73; W. G. Byers, groceries, $38.38; Joseph Fontaine, trip to House of Refuge, $4.00; Peterborough Fuel and Transfer Co., wood, $7.25; R. Hicks & Co., wood, $8.00; Peterborough Fuel and Transfer Co., coal and wood, $42.50; W. G. Fitzgerald, wood, $5.25. Total, $272.74.

Relief in North Monaghan.

North Monaghan is carrying on a heavy relief program. There are many unemployed, living especially in Brownton, and the Relief Officer has had a busy time recently. He has carried on his duties similarly to Relief Officer Miller of the city. Each case is fully investigated and assistance given on the measure of the case. No cash is given, but orders for groceries and fuel. On Saturday the Council received a shock when it learned the total expended in relief, but it took the bill heroically. One consolation was that the two Governments are helping out.

An Accident.

A communication was read from John Dunford regarding an accident on the tenth concession of Monaghan. A committee was appointed to investigate.

Dog Owners Must Produce Facts.

The Clerk was instructed to notify all residents of North Monaghan who are owners of dogs as follows: "That all parties being assessed for dogs and those dogs dying or being disposed of in some manner that the owners thereof, in order to have the same cancelled from the assessment roll or a rebate made on the dog taxes, must apply in writing to the Clerk giving full facts of the case so that the case may be heard by the Court of Revision, which usually sits the latter part of May. On and after this date no refund will be made."

Bills Passed.

The following bills were passed and ordered to be paid:

Richard Remington, putting in a culvert on Braidwood Avenue, $10.20; pay sheet, cleaning ditches and drawing cinders, road division 5, $31.20; Peterborough Examiner, printing, $11.22; Peterborough Examiner, printing, $1.54; Peterborough Examiner, printing, $4.85; Peterborough Examiner, printing, $6.64.

The next regular meeting of the Council will be held at the Court House on March 14.

WAGE CUT BY MOND CO. ACCEPTED AS INEVITABLE.

SUDBURY, March 1. — The Mond Nickel Company put into effect a reduction of five cents an hour in wages throughout its entire operations during the week. The reduction has been accepted in all branches of the service in good grace as part of the inevitable result of changing commercial conditions.

Every modern girl of 16 thinks she is quite competent to write a book called "Advice to Parents."

VOL. XLIX. NO 56 PETERBOROUGH, TUESDAY, MARCH 8, 1921 PRICE THREE CENTS

Alleged Murderers Were Arraigned in Court and Remanded

CHARGES OF MURDER LAID AGAINST THREE OF FIVE TORONTO MEN AND ROBBERY AND ASSAULT AGAINST THE OTHERS.

SEQUEL OF MANY CRIMES

TORONTO, March 8.—Canadian Press). — Remands till March 15th were made to-day in the cases of the six men arrested on charges of murder of Cecil Sabine, druggist, and robbery in Police Court here this morning.)

The charges referred in court were as against Jack Connoley, Roy Hartrum, and William McFadden, murder, and as against the two Connoley boys and McFadden and Hartrum, robbery, with the additional charge of assault against the Connoleys. Daniel Danielson is held on a charge of receiving and Walter Suits as a material witness.

MARSHAL FOCH,

Commander-in-chief of all the Allied armies, portions of which to-day occupied the German cities of Dusseldorf, Duisberg and Ruhrort, in accordance with the prescribed penalties for non-fulfillment of reparations obligations by Germany, which also include the establishment of a customs barrier along the Rhine by the Allies and the imposition of a tab on German exports by all the Allied countries as great as they may desire.

WOMAN HELD ON TO MONEY SHE FOUND

ORDERED TO MAKE RESTITUTION AND REMANDED FOR SENTENCE BY OTTAWA MAGISTRATE.

OTTAWA, March 8. — A woman named Mrs. Elmaire Laviclaire, of Metcalfe, Ont., was convicted in the Police Court here of retaining $9.10 she picked up on the market, well knowing it to be the property of Hyman Taller, who swore that he dropped the money, which, according to an eye-witness, accused picked up and put in her purse. She denied this in court, but Magistrate Askwith held that evidence against her was conclusive of her guilt. After ordering the woman to make restitution, His Worship remanded her for sentece.

PAY $25,000,000 AT NEW YORK APRIL 1.

To Retire Its Bonds Canadian Government Must Ship $10,000,000 in Gold.

NEW YORK, March 8.—(Canadian Press).—The Canadian Government will pay off the $25,000,000 bonds that mature here on April 1, it was officially stated here.

Canada has rather large balances here at the present time, but paying off of this maturity will involve shipment of a certain amount of Canadian gold to New York. It is estimated that about $10,000,000 in gold will be sent.

APPROACHING DANGER.

If you are suffering from overstrained eyesight you are approaching the danger point. The delicate nerves and muscles of the eyes can not be overtaxed without paying the penalty. See W. H. Lacey, Registered Optometrist, 410 George street.

AT THE THEATRES

GRAND— "King Dodo," a rippling, rollicking, reigning comedy by local talent.

THE ALLEN—A Ben. B. Hampton production, "The Spenders," from the novel by Harry Leon Wilson.

THE EMPIRE — Nazimova, the incomparable star, in "The Heart of a Child."

THE REGENT — Bryant Washburn in "What Happened to Jones," a picture better than stages.

RETURNED MAN PROBLEMS MAY BE GONE INTO

GOVERNMENT TO RE-APPOINT SPECIAL COMMITTEE ON SOLDIERS' CIVIL RE-ESTABLISHMENT.

POWERS WITHDRAWS

OTTAWA, March 8.— (Canadain Press.)—The first official announcement of the Government's intention to re-appoint the special committee on soldiers' civil re-establishment, was made in the House during the consideration of a resolution standing in the name of Major C. G. Power (Quebec South), proposing that amounts may be deducted from pensions payment at the request of the pensioner and applied on the Insurance Act. Major Power claimed that pensions payments in many cases were so small that the pensioner did not consider them worth saving. They might as well be applied on insurance premiums as to be fritter-ed away.

The Prime Minisetr said that the Government was not inclined to resist assignment of pensions. However, he did not feel that the matter of administrative detail should stand in the way of anything which would benefit the soldiers. The Government, he said, would shortly move for the appointment of a committee on re-establishment and this was a matter which might well be referred to that committee.

The House gave a second reading to a bill to amend the Exchequer Court Act, giving the commissioner of patents the right of appeal. This bill passed the committee stage and stands for a third reading.

Discussing later another resolution of his, favoring payment of full pensions to widowed mothers of deceased soldiers irrespective of other income or whether or not other sons were living, Major Power declared that a woman who had given her son should not be compelled to go out scrubbing, as some were doing in order to eke out a living. Canada had a duty to fulfil towards these women. Too much discretion was left to officious inspectors.

Major Power finally withdrew his motion, but declared that he would not again sit on the committee.

REDS ORDER CAVALRY TO REBEL AREA

INSURGENTS STEADILY GAINING POWER AND ALEXANDER KERENSKY SAID TO BE IN KRONSTADT DIRECTING OFFENSIVE.

RED TROOPS DISLOYAL

WARSAW, March 8.—(Canadian Press).—Strong detachments of Russian Bolshevik cavalry commanded by General Budenny, are being rushed from South Russia to Moscow to crush the insurgents, who are said to be gaining in power daily in the Russian capital. Reports reaching Warsaw declare that many units of Bolshevik infantry divisions are disloyal, but say that the Chinese mercaneries are standing firmly by their Soviet leader.

Alexander Kernsky is said to be at Kronstadt directing the revolutionary offensive against Petrograd.

LONDON, March 8 (Canadian Press).—During the recent bombardment of workmen's quarters in Moscow from the artillery placed on the hills overlooking the city, several hundred persons were killed, numbers were wounded, says a Central News despatch from Helsingfors.

More than a hundred thousand men and women, the despatch asserts, are now striking in Moscow.

SPRING ASSIZES OPENED TO-DAY

ONLY ONE CASE REMAINS TO BE HEARD—THE GRAND JURY.

With but one case to be heard, and that a civil action, the Spring Assizes of the Supreme Court of Ontario opened at the Court House at one o'clock to-day. Mr. Justice Logie, of Toronto, presided. The preliminaries were brief. The grand jury was empanelled, and Mr. Justice Logie addressed them briefly. He referred to Peterborough's fortunate freedom from crime, evidenced by the fact that there were no criminal cases before the Court. The grand jury, he said, would be free after inspecting the jail, as he considered it unnecessary to make inspections of the hospitals and charitable instituions. The grand jury then withdrew to elect its foreman, and proceed with the jail inspection.

First Case Called.

The case of Eastwood vs. Rutherford, in which W. P. Eastwood claimed damages of $1,200 from W. H. Rutherford, a farmer of Otonabee, for a car alleged to have been bought by defendant, was settled out of court. C. R. Widdifield was solicitor for the plaintiff, and Gordon and O'Brien represented defendant. This removed the only jury case to be heard, so the petty jury was dismissed, and the hearing of the case of Anderson vs. Havelock Light and Power Co. was proceeded with. John Anderson, who resides on Lot 22, Concession 8, of Belmont Township, claims damages of $1,500 from the aforesaid company for alleged damages to 60 acres of his land by flooding of the north river, it is alleged, by the company's dam on Lot 19, Concession. The plaintiff asks for relief from further flooding. Plaintiff is represented by Peck, Kerr and McElderry, and defendant by S. T. Medd. The first witness called by Mr. F. D. Kerr was Frederick W. Wilkinson, of Havelock, Dominion Land Surveyor.

FIXED ASSESSMENT FOR SANITARIUMS

MUNICIPALITIES MAY GIVE SUCH ASSESSMENT, ACCORDING TO NEW BILL.

TORONTO, March 8.—(Canadian Press). — Municipalities in Ontario have the right to give fixed assessment to any sanitarium within their limits, according to a bill endorsed by the Municipal Law Committee of the Legislature this morning. This bill was introduced by C. F. Swayze, of Niagara Falls. It is provided, however, that assent of the majority of the voters is necessary to grant such assessment. This bill is made retroactive from January, 1920, and is designed to protect certain municipalities which voted on such by-laws on January last.

MUSIC EXAMINATIONS.

The following extract is taken from the Toronto Conservatory of Music Quarterly Review, just issued:

Peterborough, Ont., Conservatory of Music. Theory. Primary Grade. Rudiments.

Reduced production of these mines annually, tons	21,000,000

MAGISTRATE A SPEED REDUCER

MAGISTRATE DUMBLE DISAPPOINTED THAT T. TOOMS' BILL TO CUT MOTOR SPEED LIMIT KILLED.

"THEY MUST OWN CARS"

"I guess a lot of these members have cars. We're all a little selfish." Thus spoke Magistrate D. W. Dumble this morning when told by The Examiner that T. Tooms' Bill asking that the speed limit be reduced to ten miles an hour as originally suggested by Magistrate Dumble was defeated in its second reading in the Provincial House.

"I think its dreadful in this age to allow ruthless slaughtering. I can't understand where the sense of people has gone to. If they kill a few more people perhaps their eyes will be opened. It's too bad the Bill was defeated. If ten miles is too slow a reasonable speed would be twelve to fifteen," he declared emphatically.

WALK-EASY SHOE STORE RE-ORGANIZED

The Walk-Easy shoe store has been re-rented by Mr. Chesler, who has only a few days to remove his large shoe stock. The store will be closed for a few days while this is being done, and the shoes installed in the Elliott store. Mr. Chesler is preparing for a mammoth new sweep-out sale, which will include every item in the Elliot store, all men's lines of boots, shoes and rubbers, and at the same time all women's misses' and children's footwear, will be marked at equally low prices. Prices will be so extremely deep cut that the whole stock should be cleared in a few days. This is Mr. Chesler's chief object, as he has most of this new stock already purchased, and the coming upheaval is being made in order to allow room to display the new goods in ladies' ready-to-wear before Easter. The public are promised the greatest buying opportunity in the well-known Elliot lines, also the Walk-Easy boot and shoes lines that has been seen in a lifetime.

"PETER ROBINSON" CHAPTER ADOPT BAND

Major A. P. Miller,
385 Stewart street.

Dear Sir,—I take much pleasure in notifying you of the adopton of the 4th Brigade Band by the "Peter Robinson" Chapter I.O.D.E.

Trusting that our Chapter will meet the requirements of this new venture, I remain,

Sincerely yours,
ESTELLE KNOX, Sec'y.

Personally, and on behalf of the 4th C.M.G. Bde. Band, Major Miller wishes to express to the "Peter Robinson" Chapter, I.O.D.E., how delighted they received the above communication.

To have the moral support of such a well known and influential organization as the "Peter Robinson" Chapter behind any organization is to assure its prosperity.

In opening this new volume in the history of their Chapter the Band most heartily wish them success and will earnestly do their part to make its pages of unusual interest to Peterborough in general and the "Peter Robinson's" in particular.

PERSONNEL OF GRAND JURY

The members of the Grand Jury empanelleled in the Spring Assizes of the Supreme Court of Ontario that opened at one this afternoon, Frederick Bolton, of Burleigh, John C. Hope of Otonabee, Charles Hawkes of Chandos, E. H. Howson, of Peterboro; T. N. D. Kelly, of Bridgenorth; M. W. Lyle, Peterboro; William Langford, Peterboro; W. G. Morrow, Peterboro; William Nicholls, Bridgenorth; Robert A. eePtrboro;ugh
Scott of Asphodel, William Shields, Bridgenorth; Robert Tully of Smith, and A. A. Wilde of Belmont.

William Langford was elected foreman.

At 2:30 o'clock the Grand Jury had not brought in their report.

TENDERS WERE NEVER SOUGHT

C. R. BANKS PROTESTS TO COUNCIL REGARDING PLACING OF ORDER FOR MOTOR FLUSHER THUS.

SKIRMISH FOLLOWED

When the Board of Works appointed Mayor McIntyre, Ald. Whitehouse and City Engineer Parsons a special committee to buy a motor-driven street flusher and road oiler and gave them power to act the committee lost no time in placing the order with a Hamilton company.

Last night Mr. C. R. Banks, local automobile agent, asked the Council what all the haste was about. "We have been sprinkling the streets with horse drawn carts for seventy-five years, and now when the city proposes to buy a motor truck they haven't time to call for tenders. If you want to let a snow ploughing contract or some other small job like that you advertise it. This truck is a $5,200 expenditure and there is no calling for tenders. Why this underground method?"

Mayor McIntyre figuratively jumped on to Mr. Banks for the last reflection. "You're out of order," exclaimed His Worship indignantly.

Mr. Banks said he did not wish to cast any reflection on the committee or the Council, but he contended that the Council's intention to purchase the motor truck should have been advertised.

Not Fair to Others.

'I protest most forcibly against this method," said Mr. Banks. "Further inquiry should have been made before placing the order. It is not fair to the other automobile dealers in the city."

Ald. Whitehouse replied that the committee had made inquiries. "We didn't buy with our eyes closed, and we placed the oredr without delay in order that we could get quick delivery."

Ald. Gainey said he considered Mr. Banks' protest was quite in order. He was not a member of the Board of Works and objected to that the committee had no authority to make the purchase until the recommendation had been ratified by the Council.

Ald. Whitehouse began to reply with the phrase, "It is all very well to play to the gallery," Ald. Gainey immediately interrupted, stating that Ald. Whitehouse was out of order.

"I stand by what I said," Ald. Whitehouse declared.

"I think he had the floor first," the Mayor replied to Ald. Gainey's call for a ruling. "You never find me playing to the gallery," Ald. Gainey added.

Ald. Whitehouse— It looks very much like it.

Ald. Gainey—It is not a question of who had the floor. Ald. Whitehouse is certainly out of order in saying that I played to the gallery.

Mayor McIntyre—Lets get down to business.

Ald. Gainey—All right, but let's have parliamentary methods.

The dispute was renewed a few minutes later when Ald. Gainey said, "I have been playing to no gallery, therefore I ask that that remark be withdrawn.'

Ald. Gordon—There is no need of withdrawing unless there has been a charge of personal misconduct.

Ald. Jones said he stood by what the committee had done.

Mayor McIntyre—I did it in the best interests of the city. I don't believe in dilly-dallying over a thing.

Ald. Phelan—I think all the dealers should have had a cnance to tender.

Amendment Defeated.

Ald. Gainey moved, seconded by Ald. Phelan, that the clause be struck out of the Board of Works' report and that tenders be called for a motor tra ".

This amendment was defeated, only the mover and seconder supporting it.

Ald. Gainey—That's the first time I ever heard of a committee giving power to purchase.

Ald. Hamilton— They probably went a little farther than they should have.

Ald. Phelan—I voted for it in committee, but I was under the impression that it would have to be approved in Council.

Ald. Crowe— I wanted the committee to report back to Council, but I couldn't get a seconder. I didn't think they would act so quickly.

Allied Army Takes Possession of Hun Industrial Cities

BRITISH, FRENCH AND BELGIAN TROOPS OCCUPIED DUSSELDORF, DUISBERG AND RUHRORT AT NOON AND SHOULD GERMANY TRY TO EVADE CUSTOMS BARRIER BLOCKADE WILL BE INSTITUTED.

BRITISH REINFORCEMENTS WILL BE SENT

NO UNTOWARD INCIDENTS.

MAYENCE, March 8 (Canadian Press).—The occupation of Dusseldorf, the largest of the cities taken over by the Allies, was completed this morning, and that of Duisberg and Ruhrort, comprising together the chief port of the Ruhr region, this afternoon.

The entire movement was effected in a way to obviate, as far as possible, a show of force; but the French and British Rhine flotillas were prepared for eventualities.

No untoward incident marked the move of the Allied troops up to a late hour.

MAYENCE, March 8th. — (Canadian Associated Press.) — British, Belgian and French troops entered Dusseldorff this morning. French and Belgian troops occupied Duisberg at noon. The allied Rhine Flotilla took possession of Ruhrort.

The Belgians entered the city by the bridge over the Rhine, while the Anglo-French forces advanced by way of the Cologne bridge head, marching to the right bank of the Rhine and entering the city from the south and east. The French and British flotillas are ready to participate in the allied operations.

LONDON, March 8. — The orders for the advance of the British troops upon Dusseldorff were issued at the War Office last night, it was disclosed to-day.

There are at present twelve thousand British soldiers in Germany, of whom about four thousand are on duty in Upper Silesia. It is believed that the forces along the Rhine will be reinforced, so that they will number twelve thousand, four batallions being ready to go to the British section of German occupied territory.

Any attempt on the part of the Germans to evade the new customs zone along the Rhine by diverting trade through Rotterdam, or other North Sea ports, will be promptly countered by an allied blockade, the Daily Mail declares.

Conflicting Reports.

BERLIN, March 8.— Occupation of Dusseldorf, Dusseburg and Ruhrort by Allied forces will not be actively oposed by the German government it was indicated here this morning. The Cabinet was in session until eleven and then dispersed without taking any action calculated to change the situation which has arisen between Germany and the Allied nations.

LONDON, March 8. — Protests against the Allied occupation of cities east of the Rhine were contained in a proclamation issued in Berlin to-day by President Ebert, says a despatch from the German capital. He declared the action of the Allies was contrary to the Versailles Treaty.

WORK, NOT CHARITY, UNEMPLOYED WANT

DEPUTATION FROM TRADES COUNCIL URGE THAT LABOUR BE PROVIDED, IF POSSIBLE.

A request that the city endeavour to provide work for the men who are out of employment, instead of the present form of relief, was made to the Council last night by a deputation from the Trades and Labour and Labour Council.

"The men say they don't want charity," said Mr. Sam Currie. "They don't want money they don't earn. It would be far better to open up some work. When the filtration by-law was passed, there was a talk of beginning the work as soon as possible."

Mr. Currie stated that the C.G.E. Company some time ago started to send some work to Toronto that used to be done here.

Mr. T. Ballard said he had been out of work for ten weeks through no fault of his own. "We had been doing work for the C.G.E. in our foundry; now they are taking the work to Toronto after getting a fixed assessment from the city. We are not Socialists nor Bolshevists, but we would ask the Council to start some work if they can."

Mr. J. Flemming suggested that the weather was suitable for putting up the concrete railing on the Hunter Street Bridge.

Mayor McIntyre replied that the Utilities Commission was now advertising for tenders for the filtration plant. It took some time to "get things in shape for a big job like that."

Ald. Whitehouse stated that the Board of Works would bring on sewer work shortly that would employ about a dozen men. The surface drainage project could not be proceeded with until it had been approved by the ratepayers.

WILES OF THE WIDOW ARE RECOGNISED BY THE LAW.

BORDEAUX, France, March 8.—The wiles of the widow have been given official recognition by a decision just handed down in the Court of Appeals here.

A widow named Dufour sued a young man of Royan named Lalou for breach of promise which the latter denied. The Court of Ribelec awarded the complainant 3,000 francs damages, but the higher Court upset the judgment, holding that the widow was too experienced to be deceived like a young girl.

BACK IN CANADA AND SEEKING WORK

LIEUTENANT O'LEARY, FIRST CANADIAN TO WIN VICTORIA CROSS, REACHES OTTAWA.

OTTAWA, March 8. — Lieut. Michael O'Leary, the first Canadian tow in the Victoria Cross in the great war, arrived here yesterday, and now says, "I want a job, so if you know of anyone who wants to employ me you may tell him I am here."

When the war broke out, Lieut. O'Leary was living in Canada. He was then a member of the Royal Canadian Mounted Police, but resigned at once and joined the First Canadian contingent sailing from Quebec. He then rejoine his old regiment, the Irish Guards, and it was while serving with this unit in the battle of Givenchy on Feb. 1, 1915, that he performed the deed of outstaanding valor which won for him premier recognition. He now holds a lieutenancy in the Connaught Rangers, but his present intention is to remain in Canada, for he likes this country and prefers to be known as a Canadian.

TO DRILL FOR OIL

KINGSTON, March 8. — The Transvaal Share Corporation Ltd., announce that drilling oil at Lonsdale will commence about May first. he exact location of the first test well to be sunk will be decided by the geologists of the corporation, who are coming out to Canada.

LADIES! LOOK YOUNG, — DARKEN GRAY HAIR

Use the Old-time Sage Tea and Sulphur and Nobody Will Know.

Gray hair, however handsome, denotes advancing age. We all know the advantages of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray and looks streaked, just a few applications of Sage Tea and Sulphur enhances is appearance a hundred-fold.

Don't stay gray! Look young! Either prepare the recipe at home or get from any drug store a bottle of "Wyeth's Sage and Sulphur Compound," which is merely the old-time recipe improved by the addition of other ingredients. Thousands of folks recommend this ready-to-use preparation, because it darkens the hair beautifully, besides, no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By morning the gray hair disappears; after another application or two, its natural color is restored and it becomes thick, glossy and lustrous, and you appear years younger.

ST. LOUIS FUR SALES HIGHEST THIS SEASON

S. LOUIS, March 8.—Sales this forenoon at the International Fur Exchange showed declines of 75 per cent. in Australian ringtail opposum, 50 per cent. in wombats, and 35 per cent. in Australian red fox as compared with prices last May.

Fur men state that the prices at the present auction, while ranging from ten to seventy per cent. lower than last May, have averaged about 25 per cent. higher than the prices obtained in the January sales at Montreal and New York.

HUNS APPEAL AS ALLIED TROOPS MARCH

Five Arrested For Complicity in the Toronto Murder

TORONTO POLICE TAKE INTO CUSTODY FIVE YOUNG MEN, ALSO CHARGED WITH PERPETRATION OF JEWELERY STORE ROBBERIES.

EARLY MORNING RAID

TORONTO, March 8.—(Canadian Press)—Five young man were arrested early this morning charged with complicity in the murder of Cecil Sabine, druggist, of this city on Saturday night, and with the perpetration of several Jewelry store robberies in Toronto and Hamilton.

Following the murder of Cecil Sabine in his drug store here on Saturday night and a number of robberies of jewellery and other establishments in Toronto and Hamilton, Toronto police early this morning placed under arrest, at two or three houses in various parts of the city, the following men: Arthur and John Connolly, brothers, William McFadden, Roy Hatrun and Walter Hultz, the latter being a driver of a big motor car, which is supposed to have been used in connection with one or more of these recent crimes. The police descended suddenly upon these men in their homes between three and four o'clock this morning and placed them under arrest. The men were more or less armed, but no resistance was offered.

According to the police, the prisoners, or some of them, early yesterday motored to Hamilton and raided the Rosseau jewellery store, getting away with a thousand dollars worth of loot. They returned yesterday afternoon, the police alleged, and held up Ammon Davis in his jewellery store, Queen street, here, while scores of people were passing the door. Mr. Davis was badly gashed by the butt of a revolver in the hands of one of the bandits, but he summoned help and his two sons and other citizens took up the chase of the desperadoes, who had by this time retreated down a nearby lane to the waiting car. Somebody got the number of the car as it drove away, with the result that the police traced it to a garage occupied by Walter Hultz.

PRESENTATION TO ROBERT BUCHANAN

CAMPBELLFORD, March 8th.—On Monday evening last a large number of friends and neighbors of Robert Buchanan met at his residence on the 6th Concession and presented him with a handsome chair. The community wish him every success in his new field in Havelock.

PROBABILITIES.

Noon edition ....

Strong south east winds, with rain.

RELEASE "LOVE" ON NEXT MONDAY

The Examiner has received notification from the George Matthew Adams Service that its new serial, "Love", by Katherine Moore, may be released for publication on Monday, March 14. The change in the original plans, which called for release on Monday, February 28, was due to the fact that the syndicate wished to release the story simultaneously throughout the United States and Canada.

"Love" will prove the most interesting "married life" story which The Examiner has ever given its readers and is the first of the series of novels which The Examiner will publish in pursuance of its policy of giving its readers the cream of newspaper fiction. It tells the story of a woman's love which was great enough to look beyond the act of her husband's infidelity and see the man as she still believed him to be.

CAMPBELLFORD INVESTIGATES MILK SUPPLY

COMMITTEE APPOINTED BY TOWN COUNCIL TO LOOK INTO AND REPORT UPON THIS MATTER.

ASSESSOR APPOINTED

CAMPBELLFORD, March 8. — At the regular meeting of the Town Council, Nathan Grills was appointed assessor for 1921. A committee composed of the Mayor and Councillor Southworth were authorized to report on the Milk Supply and to ascertain the quality and condition of this very important food as furnished to the people of the town.

The Police Committee reported fines collected to the amount of $479.00 for January and February.

LACROSSE CLUB FOR CAMPBELLFORD

PURCHASED CREAMERY

CAMPBELLFORD, March 8.—Charles Thompson late member of the C E. F. has purchasfed the creamery at Havelock, from R. S. Southworth and will move there to-day.

MYSTERIOUS BOOM IN C.G.E. STOCK

The strength in Canadian General Electric continues to be a good deal of a mystery. The fact that the company is enjoying marked prosperity with a splendid outlook for the year for all the manufactured goods if can turn out may or may not explain the rise, but there is naturally an assumption in the street that there is some kind of a deal pending.

Senator Nicholls, the president, has already denied that there is any truth in the story of absorption by American General Electric interests, but the fact remains that there has been a very active demand for a stock that ordinarily enjoys but a limited market and of which there is but a small floating supply.

One Toronto authority who has watched the company's progress closely, spoke guardedly of some favor which he expected would come to shareholders In any case, he said, the company had new orders on hand to keep the plants going for a full year. Recent statements by company officials were to the effect that business was booming However, it is considered a healthy sign in the market that an industrial enterprise of this class should find favor with traders.

RUSSIAN REBEL GUNS SHELLING PETROGRAD

FOLLOWING REFUSAL OF COMMUNISTS TO LEAVE CITY FURIOUS BOMBARDMENT IS BEGUN.

JOINED BY FLEET

HELSINGFORS, March 8th. — (Canadian Press). — The Revolutionaries are bombarding Petrograd and the Soviet batteries at Systerlek, Revonuena and Tabovka are bombarding Kronstat, says a despatch from Viborg received here.

Reports from Terreki, timed ten o'clock Monday evening, said that the bombardment is growing more furious, more than 60 shots a minute being fired.

It is confirmed by these reports that the Krasnoy Garko fortress is on the same side with the Kronstat fortress an dis bombarding in the direction of Petrograd.

The fleet and the Systerbak batteries also seem to be following the Kranstant example.

It is stated that General Kozlovskia, the rebel leader, sent an ultimatum on Friday ordering tll the Communists to leave Petrograd within three days failing which the city would be bombarded.

LONDON, March 8. — A despatch to the Exchange Telegraph from Helsingfors says that thirty-seven thousand men from Kronstant, are marching to Petrograd.

The Soviet officials have sent the Chinese and other troops with artillery, to meet them. The Soviet troops tried to get in contact with the rebels across the ice near the suburb of Wachostroff, but the cruiser Petropavolsk shelled and routed them.

MEASURE TO REDUCE CAR SPEED DEAD

BILL INTRODUCED BY T. TOOMS, CUTTING SPEED LIMIT TO TEN MILES AN HOUR, KILLED.

SCANT CONSIDERATION

TORONTO, March 8.—(Canadian Press). — But scant consideration was given yesterday in the Legislature to the bill introduced by T. Tooms, Labor member for Peterborough, which sought to reduce the motor vehicles speed limit to ten miles an hour in cities, towns and villages. The House would not even listen to the Premier's suggestion that the measure go to committee, but killed it upon the second reading. Hon. F. C. Biggs uncompromisingly condemned the proposal to limit the automobile to a ten mile per hour speed limit. "In a city like Toronto," he said, "there would be nothing but congestion on the streets and thoroughfares. Instead of improving, it would completely demoralize traffic conditions."

There never had been any public demand for such legislation, he declared, and read the Toronto Motor League opinion, which condemned it as "so absurb on the face of it as to cause wonderment at any member seriously advocating.

A WAR MEMORIAL FOR CAMPBELLFORD

COMMITTEE NAMED TO CONSIDER THE PROJECT.

CAMPBELLFORD, March 8. — The Deputy Reeve and Councillors Donald, Fry and Grills, of Seymour Township, were appointed a committee to act in conjunction with a committee from the I.O.D.E., the War Veterans' Social Service and Campbellford Town Council to consider a proper war memorial for those who fell in the great war.

Taxes all in.

It seldom happens that all taxes are collected on or before Jan. 10, but Seymour township holds this enviable position and Collector Henry Durham is to be congratulated.

Allies Cross the Rhine; Huns Make Appeal to League

FOREIGN MINISTER ANNOUNCES THAT GERMANY WILL APPEAL TO LEAGUE OF NATIONS TO STAY THE IMPOSITION OF PENALTIES FOR NON-FULFILLMENT OF REPARATIONS OBLIGATIONS,

TROOPS MARCHED INTO GERMANY AT DAYBREAK

LONDON, March 8 (Canadian Press).—Germany will appeal to the League of Nations against the action of the Allies in imposing penalties for the non-fulfillment of her reparations obligations. Dr. Simons, in his reply to Mr. Lloyd-George, said "Germany is not a member of the League, but she has signed the pact of the League, and I therefore announce, in the name of the German Government, an appeal to the Assembly of the League of Nations against the actions with which we are menaced."

LONDON, March 8 (Canadian Press).—The Allied troops occupying German territory to the west of the Rhine at daybreak this morning, marched in to the Ruhr district, the industrial heart of Germany, to take possession of the cities of Dusseldorf, Duisberg, and Ruhrort, in accordance with the penalties prescribed by the Conference at London for the non-fulfillment of reparations obligations by Germany.

Chance and Saving

The man who complains that he never had a chance, also never had a Bank Account. He spent everything he made. But the man higher up, and the man on top, developed the saving habit early.

The man with money in the Bank does not scold fortune; he takes advantage of opportunity. A Savings Account started with The Merchants Bank is the first round up the ladder of success.

"Peterborough Presents Possibilities Unsurpassed."

TUESDAY, MARCH 8TH, 1921.

WHY DO THEY DO IT?

The common belief that the average individual always wants to get one hundred cents worth of value for every dollar he spends does not always hold good. Otherwise why should people pay a couple of dollars to hear a high class programme and then spend most of the evening gossiping in such tones that other besides themselves miss the charm of the performance? Or why should many theatre-goers at the first indication that the programme is drawing to a close begin a hurried rush for the exits, as if they had discovered the theatre was on fire? Peterborough may not be any worse in this respect than any other city, but it must be admitted that we have a generous share of people who apparently do not know how to behave in public, and the effect of many concerts and theatrical productions has been almost completely destroyed by their presence in the audience. They not only talk and laugh at the most inopportune moments, but they invariably spoil the finale by leaving before the last curtain. Remaining long enough to stand at attention when the National Anthem is played never enters their minds and everything is forgotten in the sudden rush to get outside. The impression that some of the visiting artists take away with them cannot be very flattering to Peterborough and its public.

THE FIRE DEPARTMENT.

There seems to be many citizens who cannot reconcile the decision to purchase a $2,600 car for the use of the Chief of the Fire Department with the Council's desire to keep the tax rate down. The district Chiefs in Toronto appear to get along very nicely with a car much cheaper than is considered necessary for the head of the local brigade, and while we don't have to copy the Queen City in everything, it must be admitted that in the matter of fire protection we have a lot to learn from the Toronto department. The present vehicle used by the Chief may be a source of expense in regard to repairs and it might be good business to scrap it and secure another car, but why spend $2,600 when for half that sum a runabout answering all the requirements could be placed in commission? The legitimate expenses of the Fire Department are heavy enough without loading luxuries upon the shoulders of the overburdened tax-payers. With two platoons and one day off in seven and $2,600 motor cars the department is developing into a problem that is perplexing the citizens. Expense and efficiency both begin with the same letter, but there is a vast difference in their meaning—a difference that sometimes does not seem to apply in the management of this branch of the city's business.

CLASS LEGISLATION.

If the United Farmers persist in their opposition to the Hydro-electric enterprise the time is not far distant when Premier Drury and his Government will have to make a choice between severing their connection with the U. F. O. or of going out of office. The situation seems to be rapidly developing towards a crisis. On one hand there is that section of the United Farmers who are under the control of J. J. Morrison and of whom The Farmers' Sun is the mouthpiece. On the other are the municipalities of the Province standing solidly and unanimously behind the Hydro scheme. If the influence of the J. J. Morrison-Farmers' Sun group can control the Ontario Government and force the passage of such legislation as the proposed $2 per horse power tax on urban power users to construct rural transmission lines, the days of the present administration are numbered. The people of the cities and towns cannot be ignored, shoved to one side while the huge enterprise built up by the public spirit and initiative and courage of the municipalities is wrecked by class partizan unable or unwilling to see further than their own interests—if indeed they are able to see that far. A Provincial subsidy towards the construction of rural power lines would not be resented, but the proposal to make urban power users pay more for their Hydro power in order that the rural residents may obtain cheaper electrical energy is selfish, blind, class legislation—nothing more or less. It will wreck the Government if Premier Drury cannot dislodge The Farmers' Sun handicap.

THE HAIR AND TOE NAIL BILL.

The Hair and Toe Nail Cutting Bill introduced by the member for Baldwin into the Provincial Legislature is one which deserves the most careful consideration by the public, as the debate in the House showed. Its introducer stated that he had been instructed to bring it before the House by the United Beauty Parlor Association, and that its main objects were not, as its opponents had dared to declare, class legislation, or for advancing the interests of certain professions at the expense of the community. Instead, it aimed, as all legislation now did, in aiding the helpless people of this Province to remove that liberty of attending to their own personal affairs and feelings, which had led to so much misery, jealousy and sad facial, racial and glacial divisions during the past centuries. The member was interrupted by the one from Iceville to explain what he meant by the term "glacial"; he said that the inquirer must have been misled by a "strange wind" from the ventilator into thinking that he had used that word. This appeased the member from Iceville, who said he had been instructed by the Organized Children's Ice Cream Clubs to oppose any legislation affecting the cheap sale of cones.

The introducer of the Bill proceeded to state that the root object of Bill was what the country so greatly needed, viz., greater production. It was obvious, he said, that there were too many bald-headed men about, and that as regards women. Here he was again interrupted; the membress for Bonnet County jumped up and declared that she had been instructed by the Antiquated Grandmothers' Organization to resent and oppose any hint of legislation aiming at the prerogative of women to do and say what they jolly well liked. This brought up the member for Talkertown, who said that he had been instructed by Universal Anti-Curtain Lecture Association to say that it had prepared a Deaf and Dumb Bill, which allowed men to put a stop to women over a certain age saying anything at. The Speaker here told him that there was already one Bill before the House, and that the members were not to be excited by having another introduced at the same time. The member for Talkertown resumed the seat of the membress of Bonnet County and sat on her hat. This led to a scene; but the Premier quieted matters by appointing a Women's Commission to settle the damage done and undertaking that, if the hat were damaged beyond repair, the Province would pay for a new one, while, of course, all repairs would be paid for out of the fines imposed on automobiles.

The member for Baldwin was somewhat perturbed by this little incident, but after a woman member had given him a soothing powder, part of which went on his nose by mistake, he went on to explain that as regards Toe Nails the Bill proposed that. Here the member for Broom County asked if the Bill had anything to do with corns, as he had been instructed by the Lively Whisk Organization to say that. Here the member for Penceville said that evidently the member for Broom County did not understand that there were corns and corns; three members rose up all at once, declaring that they had been instructed by the Fathers' Freedom Association, the Incorrigibles' Liberty Club, the Ten Drinkers' Organization, the Joy Riders' Union, and the Eat What You Please Clubs to say. The hubbub was so great that the Speaker declared the "sitting" at an end, though he had first used the word "rising," and ordered the members to get into their perambulators and go home.

This, we beg to say, is the sort of thing editors are expecting to have to write in the future, if the present formation of groups goes on. It is well for the public to be prepared for it.—Kingston Standard.

EDITORIAL NOTES.

Somehow fires were no more numerous or destructive in the days when $2,600 cars were never even thought of—let alone purchased.

Premier Drury says the Legislature will be lucky to be through by Easter of next year at the rate business is moving now. Why not take some responsibility and start the wheels going?

That cat that walked ninety miles from Toronto to its home in Stratford will be regarded as a very wise feline in Stratford.

Group government seems to have degenerated into grope government so far as the Ontario Legislature is concerned.

That story about the whiskey that was dumped into the water cooler of a railway coach may only be propaganda to stimulate the sale of paper drinking cups.

The unbuttoned overshoe is neither a thing of beauty nor a joy for ever. But then some of the male sex wear spats.

The mild Winter made it possible for women to wear their furs nearly ever day. But what will they do in the Summer?

When you fear God you will never be afraid of him.—Ram's Horn.

Be stron gand work, for I am with you, said the Lord of Hosts.—Haggai 2:4.

Love rules the court, the camp, the grove,
And men below and saints above;
For love is heaven and heaven is love.—Scott.

MINISTERS FORM AN ASSOCIATION

MONTHLY MEETINGS TO BE HELD IN LAKEFIEUD.

LAKEFIELD, March 7. — A meeting and luncheon for the purpose of organizing a ministerial association was held in St. John's Rctory .Those present were Rev. Frank Vipond, the Rector of St. John's, Rev. S. F. Dixon, Methodist minister, Rev. P. L. Jull, Presbyterian minister, and Rev. A. W. Mackenzie. Rev. J. L. White was unavoidably absent. It was decided to hold monthly meeting to discuss matters of mutual interest and for the furtherance of a good understanding among all bodies.

Chimney Fire.

A chimney on Mr. H. J. Sutton's residence on Regent street, took place on Friday morning and caused considerable excitement for a short time. The fire brigade and equipment were on the scene just three minutes after the alarm was given. The fire was soon extinguished and no damage resulted.

Social Club.

On Thursday evening about 40 members of the Social Club drove out to the home of Mr. and Mrs. J. H. Moore in Douro township, and spent a jolly evening in dancing and cards. They were jointed at Mrs. Moore's by some of the young folks of the neighborhood. The members of the club, who were transported in the famous "side seater" had plenty of adventures, which included a short walk both ways.

Literary Society.

The last meeting of the term of the Literary Society of the Lakefield High school was held in the IInd Form room on Tuesday last. The president, Electa G. Preston, occupied the chair. The minutes of the last meeting were read and approved.

The chief feature of the programme was an old-fashioned spelling match, the captains being E. J. Girven and R. H. Brooks, whose chose their teams from 1st, 2nd and 3rd Forms.

The words spelled were given out by Miss Corkery and the contest was a spirited one and resulted in a win for Russell Brooks. After the spelling match the following programme was rendered:

Solo—Vera Boterill.
Recitation—George Sherin.
Piano solo—Elva Nugent.
Piano duet— Eva McIlmoyle and Jean Erskine.

It was moved by Miss Stark and seconded by Mr. Simpson that a vote of thanks be given to the officers and those taking part in the meetings.

The officers for the term were:
Hon. President—Mr. J. M. Simpson.
Hon. Vice-President—Miss Wood.
President—Electa G. Preston.
Vice-President— Sherman McIlmoyle.
Secretary—Eva McIlomyle.
Treasurer—Kenneth Petrie.
Critic—Elwood Girven.
Councillors—Form I, Helen Simpso and Elwood Pearson, Form II, Ivy Petrie and George Sherin, Form III, Lillian Moore, Elwood Girven.

The critic gave his report and the meeting closed by singing the National Anthem.

WISE AND OTHERWISE

When a woman's hat gets wet and ruffled her temper generally becomes ruffled also. Moral to men: Before going out with a woman read the weather forecast.

A knowledge of the proper time to applaud is one of the first requisites for gaining a reputation for appreciating the higher intellectual things.

The young lady next door has been studying a set of books guaranteed to pave the way to successful authorship. One of the maxims advises the budding literateur to bare his true self in his works. "Shocking," she says.

Someone, we think it was Cynthia, of The Toronto Telegram, has said that the art of newspaper paragraphing consists of stroking a platitude until it purrs like an epigram. Perhaps, but some platitudes, we have discovered, lack even feline musical potentialities.

George Ade, speaking of dignity, says: "Sheathed in the armor-plate of Dignity many a counterfeit travels undetected from the grammer school to the grave. Nine times out of ten, a god-like demeanour may be regarded as the facade of a Greek temple opening abruptly into a one-room bungalow." Now how many eminent citizens parading pompously to church of a Sunday morning does that remind you of?

Ade, with his usual inimitable colloqualisms, has again hit the nail on the head. The lack of works which dignity cloaks, though, is a small achievement compared with the reputation for being an intellectual which some people obtain by means of dignity plus a stock of phrases such as "the coloring of the subtler motifs" and the reading of literary and dramatic criticisms and reviews in the newspapers and magazines.

One of the finest examples of dignity is the average hotel bell-hop, sleeping car porter or head waiter. Business and professional men frequently model themselves after the bell-hop. Then when some normal individual comes along and attacks the stronghold of pompous and glorified gloom, the whole fraternity of fourflushers, from bank presidents to baggage smashers, rise up and howl and call him an iconoclast.

And nine hundred and ninety-nine times out of a thousand the vacuous one checks out for the last time, an honored and respected citizen with every one except his immediate family considering him a really and truly and mourning the loss of a best mind. Can you beat it?

Science Proves the Danger of Bleeding Gums

Medical science proves that unhealthy gums cause serious ailments. People suffering from Pyorrhea (a disease of the gums) often suffer from other ills, such as rheumatism, anaemia, nervous disorders, or weakened vital organs. These ills have been traced in many cases to the Pyorrhea germs which breed in pockets about the teeth.

Four out of five people over forty have Pyorrhea. It begins with tender and bleeding gums. Then the gums recede, the teeth decay, loosen and fall out, or must be extracted to rid the system of the infecting Pyorrhea germs.

Guard your health and your teeth. Keep Pyorrhea away. Visit your dentist often for tooth and gum inspection, and make daily use of Forhan's For the Gums.

Forhan's For the Gums will prevent Pyorrhea—or check its progress—if used in time and used consistently. Ordinary dentifrices cannot do this. Forhan's will keep the gums firm and healthy, the teeth white and clean.

35c and 60c tubes in Canada and U.S. If your druggist cannot supply you, send price to us direct and we will mail tube postpaid.

The Cadillac Vacuum Cleaner

Will be on Demonstration at our Store NEXT WEEK, commencing MONDAY, 7th MARCH, when all those interested are respectfully requested to be present. Several Experts from the Clements Manufacturing Company, of Toronto, will be in attendance to show the Power and Efficiency of this Machine.

The powerful suction created by **Cadillac Cleaners** is due to the special design of six-blade steel fan and efficient motor. The ordinary stock motor designed to cover a variety of purposes, such as fans, vibrators, etc., cannot measure up to the standard required in **Cadillac Cleaners.**

Cadillac Cleaners have a powerful suction that removes embedded dirt right from the bottom of your rugs, and a friction driven brush that will absolutely remove lints and threads. **Cadillac** brushes are friction driven in direction opposite to that of the machine. No noisy gears, no trouble-some belts, but a positive silent and efficient friction drive. Belt and gear driven brushes are too severe on the nap of the carpet. Examine the contents of the dust bag on a gear or belt driven brush machine, and it will show 80 per cent. nap and 20 per cent. dirt.

Cadillac Cleaners are so light in weight they can be readily carried up and down stairs—they range in weight from eight to twelve pounds.

It is economical because it uses so little current—the cost of operation amounting to less than one-half cent per hour.

The F. R. J. MacPherson Co., Ltd.

JAPAN WOULD DRAW BRITAIN INTO A WAR WITH THE UNITED STATES

FINDS CLAUSE IN FORMER TREATY DOES NOT PROVIDE FOR SUCH AND WOULD HAVE CLAUSE TO THIS EFFECT INSERTED.

(Special to the Examiner by Cross-Atlantic Newspaper Service).

LONDON, March 8.—The reason for the insistance in Japan of discussion of Clause 4 in the Anglo-Japanese alliance has been discovered. In view of the fact that the treaty originally was to run from July 13th, 1911, for ten years, it was thought here that discussion of the interpretation of a clause in the treaty so nearly expired would be fruitless.

The clause in question is the one under which the Japanese, though England is bound to support her should she be at war with the United States, but which the people of Japan have just discovered will have no such effect, though the British Government notified the Japanese Government of this fact several years ago. Japan is still insisting that the clause will bind England to her support in case of an American war, and is seeking to have a similar clause inserted into the treaty now being negotiated. But it develops there is a clause in the present treaty which provides for its automatic extension year by year after its expiration this year until one of the two nations shall notify the other of its intention to abrogate it. No such notice has as yet been given, so the old treaty will be extended until superceded by a new one, or, for a year after notice shall be given by one of the parties to it of its abrogation. In the meanwhile Japan feels that she stands a better chance under the present treaty to win British support in a clash with the United States than under the new treaty in which Britain may insist on a specific exemption being made regarding the United States on the defensive alliance with Japan.

ACUTE ECZEMA ON BABY'S HEAD

Face, Neck, Arms. Terrible Sight. Itched And Burned. Cuticura Heals.

"Baby was two months old when I noticed little pimples on her head. They kept getting worse and spread till her head, face, neck and arms were one mass of eruptions, burning, itching, and bleeding. I was told it was acute eczema. I had to sew up her arms and legs in linen. She was a terrible sight. For one year I had no rest night or day.

"We got Cuticura Soap and Ointment. In less than two weeks she began to mend and in a few months she was healed." (Signed) Mrs. Boorman, 243 McDonnell St., Peterboro, Ont., April 19, 1919.

Stop the use of all doubtful soaps. Use Cuticura for all toilet purposes.

Soap 25c. Ointment 25 and 50c. Sold throughout the Dominion. Canadian Depot: Lymans, Limited, St. Paul St., Montreal. Cuticura Soap shaves without mug.

VOTE ON DRAINAGE BY-LAW APRIL 6TH

COUNCIL PROPOSES TO SPEND $40,000 ON THE EXTENSION OF STORM DRAINS.

Wednesday, 6th April, was the date fixed by the Council last night for the taking of the vote on the by-law to borrow $40,000 for the construction of surface drains. This scheme has been outlined by City Engineer Parsons. The largest section of the proposed work is an extension of the Edison drain easterly on Sherbrooke Street to the creek. It was believed that these 6½ per cent. debentures might be sold locally.

For Separate School Board.

The Separate School Board's requirements for this year have been estimated at $22,259.46, which the Council was asked to raise.

The Dominion Rubber System's quotations for fire hose in two grades at $1.75 and $1.85 a foot were referred to the Fire, Water and Light Committee.

Elias Avenue Heard From.

Harry C. Huffman wrote urging Council to carry out this spring the promised improvement of Elias Avenue. "This street will be built up rapidly when the street allowance is changed from a winding country lane to an avenue with 15 foot boulevard on each side."

Referred to the Board of Works.

H. T. Millard asked permission to install a five-gallon gasoline tank on the curb in front of his shop at 225 Hunter Street.

Referred to Board of Works.

SAFE AND EFFICIENT HOME TREATMENT

HOW WEAK AND AILING PEOPLE CAN OBTAIN RELIEF.

Dr. Williams' Pink Pills do one thing and do it well. They enrich the blood, increasing the number of red corpuscles. As the blood improves in quality the tissues of the body are better nourished and the functions of the body are better performed. The glands of the stomach are stimulated and the first sign of improvement is usually a better appetite and better digestion.

Among those who are glad to give their experience is Mrs. L. J. Cameron, Richmond, P. E. I., who says: "Before I began taking Dr. Williams' Pink Pills I was in a badly run down state. My appetite failed, I tired easily and I fell off in weight from 180 to 154 pounds. The trouble seemed to affect my nerves, and often I could not get asleep for hours after I went to bed. At other times I would awake with a start, and I would lie awake, twitching and trembling. Finally I began taking Dr. Williams' Pink Pills and through their use I regained my former good health, found my appetite restored, now sleep naturally and I have regained my former weight. I lose no opportunity in recommending Dr. Williams' Pink Pills to friends and neighbors who may need a medicine."

You can get these Pills through any dealer in medicine, or by mail at 50 cents a box or six boxes for $2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

LORD'S PRAYER ON PIN IS ENGRAVING WONDER

NEWBERN, N. C., March 8.—J. O. Lower has on display at his shooting gallery in this city an ordinary steel pin on the head of which is engraved the Lord's Prayer.

The engraving is the work of C. H. Baker, of Spokane, Wash., and the job required three years to complete, according to Mr. Lowder. There are 65 words, 254 letters and 19 punctuation marks on the pin head and each is so perfectly formed formed that beneath a magnifying glass they stand out clearly and can be read with ease.

CENTENARIAN MISSING

NEW YORK, March 8—A city-wide police search was instituted to-day for Abraham Brown, 100 years old, missing here. His 75-year old daughter, with whom he lived said he was accustomed to taking long walks, was very active, and she feared he had met with foul play

Healthy Young Womanhood

THE wise mother will watch carefully that the growing girl has regular daily elimination for upon that all health depends. If she complains of headache, biliousness, loss of appetite or sleep you may suspect constipation. Give a teaspoonful of Dr. Caldwell's Laxative Syrup Pepsin, and by morning she will be well. It is a combination of simple laxative herbs with pepsin, and the full formula is on the package. When you see how wonderfully it acts you will in the future avoid drastic calomel and castor oil even if disguised in sugar-coated pills. A sixty-cent bottle of Dr. Caldwell's Laxative Syrup Pepsin lasts months.

If you would like to test Dr. Caldwell's Laxative Syrup Pepsin free of charge before buying it in the regular way of your druggist, send your name and address to Dr. W. B. Caldwell, 19 Front St., Bridgeburg, Ont., and a free trial bottle will be sent you promptly, postpaid.

LAKEFIELD NEWS

LAKEFIELD, March 7.—Mr. and Mrs. James Northey and family, of Young's Point, have moved into the village, and are residing at their home on the corner of Reid and Concession Streets.

Mr. Frank Brown is in Toronto visiting friends.

Mr. Harold Whitfield, of Knox College, a former pupil of the Lakefield High School, will preach in the Presbyterian Church next Sunday.

Mrs. Thomas Doughty, of Dummer, is visiting her daughter, Mrs. H. Mitchell.

Mr. and Mrs. H. G. FitzGerald were in Peterborough on Friday.

Mrs. John Blewett spent a few days in Peterborough last week.

Mr. Dave Drain, of Clarina, was in the village on Thursday.

Mrs. A. W. MacKenzie was in Peterborough on Thursday.

Miss Ray is visiting friends in Toronto for the week-end.

Miss Fortier was in Peterborough on business on Friday.

Mr. F. C. Marshall, of Yorkton, Sask., was the guest of Mr. and Mrs. T. L. Webster last week en route to Florida.

Miss Blanche Moore, of Peterborough, was in the village on Saturday.

Miss Mollie Thomson, of Peterborough, spent the week-end in the village.

Miss Corkery was in Peterborough for the week-end.

Mrs. James Edward, of Montreal, is the guest of her sister, Miss Tanner.

Mr. and Mrs. R. H. Alford were in Peterborough on Saturday.

Miss Elunta Hull returned from a few days visit to friends in Peterbor on Friday.

Mr. C. Young of Peterboro, was the guest of Dr. and Mrs. S. J. Gibson for the wek end.

Miss Alice Hill of Peterboro, spent the week end in the village.

Mr. Frank Walter of Peterboro and Miss Maebelle Walter of Courtice, were guests of Rev. and Mrs. S. F. Dixon on Friday.

Mrs F. J. Tate and Mrs. E. R. Tate were in Peterboro on Friday.

Mr. Fred Hilliard of Peterboro, was in the village on Friday.

Rev and Mrs. S. F. Dixon were visiting their son in Peterboro, on Wednesday.

Mrs. Hull was in Peterboro on Friday.

Mr R. H. Knox sn. of Apsley was in the village last week visiting his son, Mr. R. H. Knox, Jr.

BOSCAWEN'S DEFEAT STIRRING BRITAIN.

Brings Question of Embargo on Canadian Cattle Into Limelight Forcibly.

(Special to The Examiner by Cross-Atlantic Newspaper Service.)

LONDON, March 8.—The defeat of Sir Arthur Griffith Boscawen is the one topic of conversation in political circles. That he was defeated is not regarded as so extraordinary as the fact that he was beaten on an issue which concerned Canada far more than it did the Mother Country. The issue of the embargo on Canadian Cattle was raised during his campaign and before the day of polling it had become the burning question. On this point the minister was defeated and the agitation for the removal of the embargo has certainly taken a filip by Sir Arthur's defeat. Earl Crewe in a letter to the Times a few days ago argued that while the existing law cast no reflection on the health of the Canadian cattle yet in view of stockbreeders it was a valuable safeguard against the introduction of disease.

PROVINCIAL GOVERNMENT MEDDLESOME

THE COUNCIL REGISTER PROTEST AGAINST LEGISLATURE'S INTERFERENCE IN MUNICIPAL AFFAIRS—SEEKS OTHER CITIES' SUPPORT.

THE FIREMEN'S ACT

A vigorous protest against the Ontario Legislature's interference in municipal administration was uttered by the Council last night in its disapproval of the recent legislation granting firemen one day off in seven and the subsequent amendment, not yet come into force, that Councils shall not reduce the salaries of Fire Departments to meet the increased cost occasioned by the new enactment.

The "hands off" resolution was proposed by Ald. Whitehouse and seconded by Ald. Jones. Copies of it will be sent to Premier Drury, Mr. Thomas Tooms, M.P.P., Mr. Wellington Hay, M.P.P., and to the councils of the other cities in the province.

Request to Men.

A motion by Ald. Crowe that the firemen be requested to go back to the two platoon system of last year and that the four extra men be laid off until further notice was seconded by Ald. Whitehous and carried. The additional men were engaged at the beginning of the year in order that Chief Grange could comply with the new legislation and give each man one day's rest in seven.

"We're putting men out of work by doing that," Ald. Morrison pointed out.

Ald. Whitehouse — I understand the firemen prefer to go back to the same conditions under which they worked last year.

Ald. Morrison—I don't think the men want to go against the legislation and they don't want the other men laid off.

Ald. Crowe—I don't like to do it, but I don't see anything else for it.

Other Cities Interested.

It was during this discussion that Ald. Whitehouse recalled that at a recent conference of the representatives of some of the cities of Ontario there were sharp criticisms of this statute pertaining to Fire Departments. The Mayors of London and Stratford and some other places suggested that the old system of conducting fire departments should be adhered to until the Councils had an opportunity of conferring as to what concerted action they should take.

"We should make strong protest against such legislation as this," said Ald. Whitehouse. "It is interfering with municipal government and we ought to voice our disapproval and ask other cities to do the same."

Ald. Morrison feared that the Fire, Water and Light committee had not been given a large enough appropriation to pay for the four new men if they were retained. Ald. Phelan again took exception to granting $2,600 for the purchase of a new car for Chief Grange. In Toronto and other places the departments used Fords.

Ald. Whitehouse replied that it was true there were Fords in use by the Toronto fire forces, but there were also Studebakers, McLaughlins and other large cars.

Home Made Bread

Home made bread is without doubt the cheapest and most healthful food that can be produced for human consumption. It is the most completely digested solid food in the world, over 90% of it being transformed into health and strength. It yields nearly twice as much nourishment as rice or potatoes, and is ten times as nourishing as an equal value of meat. No bread is more truly wholesome or more perfectly satisfactory than that baked at home in which Royal Yeast Cakes are used.

Scientists have discovered a new and truly wonderful use for Royal Yeast Cakes Physicians are prescribing it with remarkable success for conditions attributed to poor blood conditions. Soak a cake of Royal Yeast for half an hour in a cup of luke-warm water with one teaspoon sugar Then stir well and strain once or twice through muslin and drink the liquid. BETTER results will be obtained by allowing it to soak over night and drinking half an hour before breakfast. Repeat as often as desired. Send name and address for free booklet entitled "Royal Yeast for Better Health."

CALGARY TEACHERS CEASE WORK FRIDAY

CALGARY, Alta., March 7.—The following statement was issued Saturday by the executive of the Calgary Teachers' Alliance: "The alliance resolution will stand and the teachers of the city schools will cease work on the morning of Friday, Marh 11. If any further negotiations are undertaken the alliance schedule will form the basis of negotiations between the school board and the teachers."

REVISE ONTARIO LIST FOR APRIL REFERENDUM

TORONTO, March 7.— County judges in Ontario have received instructions from the chief electoral officer, Col. Biggar, to commence preparations for the revision of the voters' lists for the vote on the liquor referendum to be taken in the province on April 18.

The voters' lists of the last provincial election will be used in the ridings.

Voters will have to communicate with the returning or revision officers in order to see if their names are on the lists.

RUSSIAN REVOLT IS WELL FOUNDED.

Believed It Will Grow Like a Snowball as it Progresses

(Special to the Examiner by Cross-Atlantic Newspaper Service).

HELSINGFORS, March 3 (Delayed).—By way of Reval, Esthonia.—Is Soviet Russia doomed and has the revolution of 1917 spent itself? That is the question which to-day is on the lips of every man and woman here, for it is realized that on the answer to this question the future of Europe depends. For weeks past there have been more or less well-founded rumors of revolution especially in Petrograd. On February 25 last there was a violent outbreak in the street, and Chinese mercenaries were rushed to put an end to the disorder, which they did effectively. Two days later a food convoy crossing Nikolievsky Bridge was attacked by hungry men and looted before the Chinese arrived. Citizens who have fled from the city during the last few days report an extraordinary condition of things. Thousands are starving and destitute, and these men and women are naturally inclined to resort to any measures. A few days ago, said one of the refugees, there was a serious disturbance in the village of Okata, which has long been regarded as one of the most attractive suburbs of the city, and several persons were killed and many more wounded in the clash that followed a demonstration against the existing Government. So open had the revolt become on the day on which this refugee left the city that banners, emblasoned with "Down With Communism," "The Soviet is Ruin," were carried up and down the principal streets. There was a serious clash between revolutionaries and Government paid troops at the entrance to Vasilyosky Island Bridge, which connects one of the old portions of the city with the mainland, while the strikers sought refuge a few hours later in the Virgin of Khazun Cathedral. Moscow does not seem to have been so badly affected with the revolutionary virus, but it is the belief of men and women who have lived in Russia for years, until a few days ago, that the end cannot be long in coming, and that if the movement meets with any success at first, as it seems to have done, it will gather size like a snowball.

SEVERAL ENGAGEMENTS IN IRELAND

DUBLIN, March 8.— (Canadian Press.)— Four persons were shot and killed in engagements between the Crown forces and Sinn Fein detachments in Southern Ireland last night. A motor lorry was ambushed near Ballinrobe and Captain Chatfield and two privates were wounded. Police auxiliaries engaged in an hour's fight with Sinn Feiners in County Tipperary, three civilians being killed and twenty captured. One man was killed at Toames, County Cork. A police sergeant was killed at Kitmallock, County Limerick, the military retaliating by blowing up a store nearby.

MAINTAIN A MILITIA FORCE.

Volunteers as Form of National Insurance.

BROCKVILLE, March 8. — There are two ways of dealing with the "undesirable immigrants'" menace—either stop their entrance to this country or maintain a military force of which they would stand in awe. This was the declaration of Brigadier-General W. B. M. Ring, C.M.G., D.O.C., Military District No. 3, in a recent address to the Brockville Rifles. He urged the maintenance of a volunteer militia as a form of national insurance.

BEAUTY SPECIALIST TELLS SECRET

A Beauty Specialist Gives Home-Made Recipe to Darken Gray Hair.

Mrs. M. D. Gillespie, a well-known beauty specialist of Kansas City, recently gave out the following statement regarding gray hair:

"Anyone can prepare a simple mixture at home that will darken gray hair, and make it soft and glossy. To a half-pint of water add 1 ounce of bay rum, a small box of Orlex Compound and 1-4 ounce of glycerine.

These ingredients can be purchased at any drug store at very little cost. Apply to the hair twice a week until the desired shade is obtained. This will make a gray-haired person look twenty years younger. It does not color the scalp, is not sticky or greasy and does not rub off."

REVIVAL, CHURCH OF GOD MISSION

"Nothing But Leaves" was Evangelist Campbell's subject last night at the Mission.

In a forceful, earnest message Mr. Campbell emphasized the fact that whereas God expects—and has a right to expect—fruit to His glory from His creatures, in so many instances he finds nothing but leaves.

The Evangelist dwelt on the text in John 15:8, "Herein is my Father glorified that ye bear much fruit so shall ye be my disciples."

In closing a striking contrast was drawn between some, who in life had borne nothing but leaves, and some who had brought forth real fruit for God.

To-night the Evangelist is to speak from the text, "Come for all things are now ready."

Do not fail to hear this message; it may mean much to you. A hearty invitation is extended to all.

At corner of Hunter and George Streets at 7.45. Entrance in rear on Hunter Street.

READY FOR TAG DAY.

Tags and banks for the Saturday tag day workers will be distributed at the St. Alphonsus Lyceum Wednesday evening at eight o'clock.

G.T.R. CROSSINGS REQUIRE GUARDS

COUNCIL WILL OPPOSE APPLICATION TO DISPENSE WITH NIGHT SHIFT.

"We had a great deal of difficulty getting the order compelling the G.T.R. to protect the crossings, and it would be a bad precedent now to agree to the removal of the night shift of gatemen," Ald. Gordon advised the Council last night.

After a short discussion, Ald. Whitehouse moved, seconded by Ald. Gordon, that City Solicitor Widdifield be instructed to oppose the application of the G.T.R. to the Railway Board for permission to dispense with the night shift of gatemen at King, Sherbrooke, Hunter, and Reid Streets.

The executive of the railway proposed to make a saving of the wages of the men who have been stationed at the crossings betwen the hours of 10.30 p.m. and 6.30 a.m., and undertook to flag the trains that might come through during those hours.

Ald. Gordon said that Bethune Street residents had told him there was considerable night traffic over the G.T.R. through Peterborough. By assenting to the removal of any watchmen, the city might leave itself liable for possible damage claims from acidents that might happen.

Ald. Whitehouse added that among the crossing guards were five returned soldiers. The dismissal of part of the present force would probably include some of them. "I don't think that it is the desire of any member of this Council to see any of our returned men done out of a job."

INTERESTING ITEMS ABOUT NAZIMOVA

On Tuesday evening, the St. James "Golden Links" Mission Band held a very enjoyable birthday party, at the home if their leader, Mrs. Ross Payne. The party was in honour of Miss Annie Payne the first life member of St. James Band. An interesting feature of the evening, was the presentation to her sister of an old colony tomato server, and china cream jug, accompanied by the following address:

"To Mrs. W. F. Crofts,
"309 Burnham street,
"East City.

"Dear Eva,—We admit a double purpose in our gathering here tonight. We could not possibly allow an event so important as the first marriage in our Golden Links Mission Band to pass, without in some way showing our love and good wishes, and our warm appreciation of wour faithful work in connection with the Band. You are the first "Golden Link" to break away from the long firm chain, which has grown to its present strength, in a great measure, from the work accomplished for it by you, and in your home

"Therefore, we can never forget you, and will still hold you as one of our charter members. Though you have not gone far from us, we realize that you will find new interests and new duties, and possibly become identified with another Ban or Circle, where we are sure you will give faithful an efficient service. We can express our love in words, but we wish you to accept these little gifts, so that you may keep always in your memory "The Golden Links Mission Band" and still give to it your interests and your prayers.

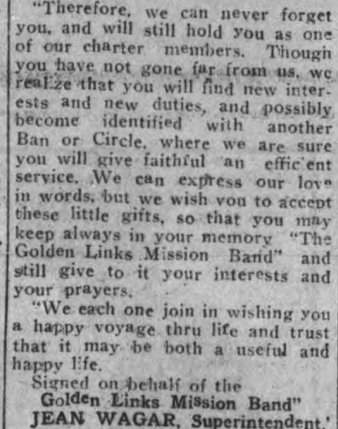
"We each one join in wishing you a happy voyage thru life and trust that it may be both a useful and happy life.

Signed on behalf of the
Golden Links Mission Band"
JEAN WAGAR, Superintendent.'

FORMOSA NOW THE JAPANESE PROBLEM.

Having Settled Langdon Affair and Quieted Koreans She Turns To It. WELLESLEY GIRLS

TOKIO, March 8.—Having settled their present differences with the United States by apologizing handsomely to Washington for the murder of Lieut. Langdon, and having at last quieted the Koreans — at least for a few months—Japan has a new problem on her hands. Baron Den, Governor of Formosa, in an interview, said that he could state on the highest authority that Japan would assume a wider measure of control over Formosa. The mild agitation of a few days ago of Formosan students in Tokio was resumed yesterday and nearly a thousand young men took part in a demonstration which taxed all the ready skill of the Japanese city police to quell.



HELENE CHADWICK in GOLDWYN PICTURES

Try These Fruit Meats in a luscious pie

Just bake one pie according to the recipe below. Fill with plump, tender, juicy Sun-Maid Raisins. Bake so the juice forms a luscious sauce.

You'll be delighted, and so will your men folks. You'll serve it frequently because this pie is far too good to miss.

Bake it yourself or get it from any first-class bakery.

Rich in nutriment

It's a man's prime dessert—full of energizing nourishment to brace him after a hard day. Its pure fruit sugar is practically pre-digested fuel.

And raisins contain organic iron, in assimilable form, which brings the rose tint to women's and children's cheeks.

So raisins promote beauty as well as health.

Serve raisin pie, and other raisin foods to insure your supply of iron.

Every first-class baker sells Sun-Maid Raisin Pie

SUN-MAID RAISINS

Use Sun-Maid Raisins always in your cooking.
Packed in a modern, new, *immaculate* plant in California — *clean, sweet, wholesome American* raisins—the kind you know are *good*. Made from tender, juicy California table grapes with unusually thin skins.

Three varieties: Sun-Maid Seeded (seeds removed); Sun-Maid Seedless (grown without seeds); Sun-Maid Clusters (on the stem). All dealers. Insist upon the Sun-Maid brand.

Send for free book, "Sun-Maid Recipes," describing scores of ways to use.

CALIFORNIA ASSOCIATED RAISIN CO., FRESNO, CALIFORNIA
Membership 10,000 Growers

Recipe for Real Raisin Pie

Cut This Out and Keep It

- 2 cups Sun-Maid Raisins
- 1½ cups boiling water
- 1 cup sugar
- 4 tablespoons cornstarch
- 2 tablespoons Lemon Juice
- 1 tablespoon grated lemon rind
- Juice 1 orange
- 1 tablespoon grated orange rind
- 1 cup chopped walnuts

Cook raisins in boiling water for five minutes; pour into sugar and cornstarch which have been mixed. Cook until thick; remove from fire and add other ingredients. Bake between two crusts. Walnuts may be omitted if desired.

THAT "BUSINESS BRAIN"

will not function when the stomach is overloaded with indigestible, starchy foods. That's the reason that breakfast and noon-day lunch should consist of Shredded Wheat Biscuit. It supplies the maximum of nutriment and leaves the brain clear and vibrant, ready for any task. Don't dig your grave with your teeth. Avoid hardened arteries and auto-intoxication—these come from too much meat.

Two Biscuits with hot milk make a warm, nourishing meal for a few cents.

ASHBURNHAM DEPUTATION URGES COUNCIL TO BUY RIVERSIDE PARK

AND ALSO REQUESTS THAT THE PROPERTY AT THE CORNER OF HUNTER AND BURNHAM STS. BE KEPT BY THE CITY—REASSURED BY THE COUNCIL.

Ashburnham's hopes that the Riverside Park scheme be carried out as approved by the ratepayers of the city in the municipal elections a year ago were urged upon the Council last night by a numerous deputation of both men and women from across the river. Their wishes were expressed by Judge Huycke, Mr. Harry Morgan, and Rev. G. E. Ross, pastor of Mark Street Methodist Church. They were assured that the Council did not intend to abandon the by-law empowering them to purchase the properties comprising the Riverside Park project, nor to sell the lots at the corner of Hunter and Burnham Streets which were bought from the Dickson Estate and excavated for gravel used in the construction of the Hunter Street Bridge.

Judge Huycke.

"The main reason in coming before the Council," Judge Huycke explained, "was the proposal as reported in the press to sell the former Dickson lots for building purposes. I think the Council should be congratulated for buying that property, but if they sell them there will be no way of getting into the Park below. Riverside Park, I believe, will be one of the most valuable assets to Peterborough. It is the most beautiful park on our waterfront. How often do you hear great lamentations that cities failed to retain their water fronts for public purposes. We do not ask that this scheme be caried out in a year, but we do ask that the property be safeguarded. Make a beginning now and eventually we shall have one of the beauty spots not only of Peterborough, but of Canada. You can perfect your plans this year. We urge you not to alienate that property at the corner of Hunter and Burnham Streets."

Ex-Alderman Morgan.

Mr Morgan reminded the Council that Peterborough had never spent any money on parks, but had received them as gifts from citizens. "The Riverside Park could be made an ideal spot," he said. "I am not speaking as a resident of Ashburnham, but as a ratepayer of the city. If the options on the properties are too high, there are other ways of getting at it. But I question whether they are too high. I hope the Council act in accordance with the sentiment the ratepayers expressed."

Judge Huycke called on Mr. D. Conroy, whom he designated as the Mayor of Ashburnham, but Mr. Conroy replied that he could not improve on what His Honour had said.

Mr. C. R. Banks, speaking as a resident of the West-end supported the petition of the deputation.

The Ladies Want It.

Rev. Mr. Ross remarked that the ladies of Ashburnham had set their hearts on having Riverside Park, and they felt that it would be deplorable to lose it. "They feel that it is a thing of beauty, and will be a joy for ever. The park will be practically useless unless the corner property is retained."

Mr. Ross also pointed out that this was an admirable location for a public playground for the children of Ashburnham.

Believed Options High.

Ald. Gordon replied that the Council had regarded the options on the Riverside properties as being beyond their value. Riverside Park itself had been bought for $1,100, and was offered to the Council for $11,000. He mentioned several other lots in the same category, and said that the options on the whole block totalled at least $13,000 more than the actual value of the properties comprised in it.

"I don't think it is the intention of the Council to abandon the by-law proposing to buy the park," said Ald. Gordon. "We may ask for an extension of time to issue debentures. We have until 31st December to issue the debentures, and we shall either act in the by-law or apply for an extension of time to issue debentures."

Ald. Whitehouse said that whenever the Council could proceed with the Park it would certainly do so; and Mayor McIntyre told the deputation he thought the Council should carry out the wishes of the people and buy the entire park property.

Seeking Valuation.

Referring to the advertisement calling for prices for the lots at the corner of Hunter and Burnham Streets, Ald. Gordon explained that the Council desired to secure an idea of the value of that property. It had been bought in connection with the building of the Hunter Street Bridge, and when transferred to the Parks Committee there would have to be a charge entered against the committee.

At Council's Request.

Evidently this announcement has caused considerable disquietude around the Ashburnham family boards, and this apprehension could have been obviated had the Council not requested the press to omit reference to its purpose in seeking prices for the Burnham Street property. "We won't get any bids at all if they think we are not going to sell," was the excuse made at the last meeting.

Gray Hair—No

Stop the encroaching silver as it appears. A trial bottle of Mary T. Goldman's Hair Color Restorer shows you how.

It allows a thorough test on a single lock of hair. Use as directed. The gray disappears in 4 to 8 days.

LEGISLATIVE AXE CALLED INTO PLAY

HOUSE WADED THROUGH CONSIDERABLE WORK AT EVENING SESSION.

TORONTO, March 8.—(Canadian Press).—Government Bills of a non-contentious character were gone on with at the evening sessions of the Legislature. A Bill setting aside another five million for northern development was given a second reading as was a Bill by Hon. Mr. Biggs to commute statute labor [illegible] in police villages instead of [illegible] sent rate, and one by Hon. Peter Smith to provide for the appointment of an assistant auditor. Hon. Beniar Bowman's Bill, which provides for taking over waste lands in both new and older Ontario for replanting was put through committee. The chief comment came from R. R. Hall, of Parry Sound, who urged that cut-over areas should again become the property of the Crown and be segregated and protected in order to allow natural growth to replace timber.

The House made good progress with public Bills, advancing a number and disposing of two by the axe method.

JUST IN TIME TO SAVE SEVEN LIVES.

RENFREW, March 8.—Due to the timely arrival in town of J. R. Barry, five residents here just escaped losing their lives by coal gas escaping from the furnace while they slept. They were Mrs. Jas. Barry, her father and mother, Mr. and Mrs. Hunter, her sister, Eva, and Miss Una Cameron, who was boarding with the family. The son, J. R. Barry, came into town to catch an early morning train, and called at the house in time to discover the whole household in danger of asphyxiation, and to give the alarm. All will recover, although Mrs. Barry had a very close call.

MOTHERS, BE CAREFUL

Much of the trouble in weaning the baby is developed by the use of a cheap and unsanitary nipple. The NOBILITY nipple is sterilized and is sanitary, transparent and non-collapsible. It is put up in a separate box with a red band on each nipple. You will meet with the doctor's approval if baby uses NOBILITY nipple. t t s.

ATTENDED COURSE TRACTOR OPERATION

Messrs. J. Brackenridge, H Fife, A. McIntyre and C. Brackenridge, farm owners in this locality, have returned from attending a course in tractor operation, conducted by the John Goodison Thresher Company and the Hart-Parr Company, in Sarnia.

This is a free course of instruction in the operation of the Hart-Parr coal oil tractor, and is conducted annually by the John Goodison Thresher Company. Ia was attended by Hart-Parr owners from all parts of Ontario.

FRED T. HOLMES DIES IN LONDON

DEATH REMOVES A PROMISING YOUNG NEWSPAPERMAN—FORMERLY ON REVIEW.

Death has removed an exceedingly promising young newspaper man in the person of Fred. T. Holmes, known here in Peterborough when connected with the Review in 1914, and who passed away at the Westminster Hospital, London, after a lingering illness.

During the war "Teddy," as he was familiarly called, enlisted in the artillery, and was stationed at Halifax, pending going overseas to the front, at the time of the great explosion. He was invalided home, however, as a result of exposure at Halifax, following the great catastrophe, and never fully regained his health again. Subsequently he resumed work, holding posts in the Hamilton Herald and the Hamilton Spectator, but ill-health forced his retirement from newspaper activities.

At one time Mr. Holmes filled the position of city editor of the Kingston Standard, and was generally popular in the Limestone City, where he made many friends. Thirty-one years of age, son of the late Mr. and Mrs. Thomas Holmes, grandson of the late Mr. Thomas Burrows, deceased is survived by two sisters, Mrs. E. V. Hutchison, of Toronto, and Mrs. J. Sommerville, Brighton, Ont. The funeral took place from the home of his aunt, Mrs. W. Hannah, Hamilton.

A MEMORABLE TREAT AT GRAND

VERDI AND OPPENBACH NUMBERS CHARMINGLY INTERPRETED BY ALL-STAR CAST OF ARTISTS.

An evening with Verdi and Offenbach would be a fitting description of last night's programme at the Grand Opera House when the Metropolitan Trio and an all star cast of vocalists were heard in a collection of musical gems that made the offering one of the most enjoyable that Peterboro music lovers have been given an opportunity to hear. Offenbach's opera in one act "Hubby in Distress" was preceeded by a concert of clever numbers the majority of them excerpts from Verdi's "Rigoletto" and no finer programme has been heard here.

Although the Offenbach offering was featured in the advertising the preliminary concert will be regarded by last night's audience as the most meritorious portion of the entertainment. It was a veritable treasure trove of good music in which every number was a thing of beauty.

The Metropolitan trio composed of Ido Fontana, violinist, Sasha Kasakoff, cellist and Irving Cummings at the piano were in themselves ample reward for visiting the Grand. Their brilliant playing of Chas Roberts' well known transcription of "Way Down Upon the Swanee River" was a fitting introduction and they rose to heights of genius by their magnificent presentation of the prelude to "Rigoletto" The second part of the programme found them providing the orchestral accompaniment to the Offenbach work and winning fresh laurels by their clean cut performance.

Two of the members of the Trio were heard in solo numbers that were among the features of the programme. The violinist Ido Fontana proved himself a thorough master of his difficult instrument his solo affording an opportunity of contrasting the strong ringing clearness of his tone in a slow movement and the accuracy of his playing in a swift one.

Sasha Kasakoff the cellist was equally successful in his solo number which was rendered notable by the beauty of the melody and the splendid controlled reserve of the artist.

The vocalists were on a par with the instrumentalists in the beauty of their numbers. The honours without detracting from the performance of the other artists were carried off by Miss Helen Moore who earned an ovation by her remarkable singing of "Caro Nome" one of the most beautiful airs from Rigoletto. Miss Moore a coloratura soprano with a voice of thrilling beauty, strength and sweetness made the number one of the most memorable features of a programme that was full of features.

Miss Renee Lowrie, a lyric soprano, besides doing magnificent work in conjunction with the other vocalists delighted the audience with her group of songs which included the popular "Old Fashioned Garden".

Mr. Albert Ransome, a most pleasing tenor, contributed as a solo number the well known "La Donna e Mobile" (Woman is Fickle), air from Rigoletto, singing the breezy melody in fascinating style, the intricate cadenza at the end being taken with masterly ease. Mr. Ransome who by the way is a Canadian was of great assistance in the concerted numbers.

The fourth member of the vocal cast, Mr. Vito Moscato, a baritone of remarkable range and purity delivered the famous monologue "Pari Siamo" from Rigoletto with a proper understanding of its dramatic possibilities as well as a thorough appreciation of its musical beauty.

The concerted numbers were brilliantly presented the favorite "Praise Ye" trio from "Attila" being effectively given by Miss Lowrie and Messrs. Ransome and Moscato while the celebrated quartette from "Rigoletto" was sung in masterly fashion forming a notable finale to the first part of the programme.

While the sprightly music of Offenbach's offering was rendered in artistic style by the cast and enhanced by the beauty of the orchestral accompaniment, it perhaps failed to please so thoroughly as him as a most finished artist He because the acting of the cast failed to measure up to their vocal ability. The programme indeed might be the stronger if the concert features were elaborated and the Offenbach Opera discarded. Perhaps the most notable number in this part of the programme was the immortal barcarolle from "The Tales of Hoffman" delightfully sung by Miss Moore and Miss Lowrie.

A special paragraph has been reserved to the last for Mr. Irving Cummings, the brilliant young pianist whose work at the keys stamped him as a most finishel artist. He not only formed a member of the trio but played the accompaniments to all the other numbers on the programme with flawless finish and delicacy. The audience would have welcomed the opportunity of hearing him in a solo number.

All in all the entertainment was a memorable treat and if Peterboro is ever included in the itinerary of the artists again, there should not be a vacant seat in the house.

A QUIET LITTLE GAME ON SUNDAY

POLICE INTERFERED AND POLICE COURT CASE RESULTED.

The elevated office of the new theatre on George street proved to be a snug little place for a game of poker early Sunday morning, and even the superintendent could not resist taking a hand, so he said in police court to-day, when he was charged with two other transient employees of the construction company with playing on the Lord's Day. "It was just to pass the time away." The elements raged outside and the game with congenial companions raged inside. The players considered they got off easy with Magistrate Dumble's assessment of $5 and $3.10 costs.

794th Bargain Annex Event

Bargain Annex
Registered

Wednesday, March 9th, 1921

At Our Shoe Shine Stand We Clean All Colored, Satin and Metallic Shoes.

A 50c Mid-Day Lunch is Served in Our Tea Room Every Day from 11.30 a.m. to 2 p.m.

A FINE BIG LIST OF FAMILY NEEDS FOR ANNEX SELLING
—Note the Two-Hour Sales

LEADER

Ladies' 50c Cashmerette Hose, 2 Pairs for 49c

600 Pairs—Factory Seconds

Of all the hosiery sales the Annex has held during the last two months—this is the greatest.

They are splendid seamless cashmerette hose in colors of black and brown and all sizes in each color.

They are factory seconds, it is true, but the imperfection in almost every pair is almost unnoticeable. If they were first quality we would sell them for 50c a pair.

JUST ARRIVED

A Shipment of Ladies' Pink and White Balbriggan Bloomers, 49c

It would seem as though time had turned backward, for it is several years since we last sold Bloomers of this quality at 49c.

They are "Jersey Snug" style with close-fitting, elastic waist and knee bands. First buyers will have choice of white or pink.

LEADER

Ladies' 69c, 75c and 79c Undervests, 49c

Forty Dozen

They are the proper weight for spring and summer wear, and have a lisle finish and are woven with narrow ribbs and some are porous knit. You can have sleeveless or short sleeves and plain or dainty lace-trimmed styles.

Over forty dozen in the lot and they come direct from our street floor stock.

TRAVELLERS' SAMPLES

Ladies' $1.25, $1.35 and $1.50 Summer Combinations, 69c

The price is less than half for many garments in this lot. All have umbrella style knees and you have choice of no sleeves or short sleeves. They are fine ribbed qualities with dainty lace trimmings. They are, more or less, soiled, but not damaged.

"IBEX" 12/4 FLANNELETTE BLANKETS AT $2.89 PAIR

Choice of white or grey with colored borders.

"DRAGON" 11/4 DOUBLE BED SIZE AT $2.19 PAIR

Again We Are Able to Announce A Double Elevator Service to the Bargain Annex

ELEVATOR NO. 1—On Wednesday will run direct to the Annex, stopping only at the Street Floor and Bargain Annex. Quick Service. No Waiting.

ELEVATOR NO. 2—The large one at the rear of the Store will again be in operation to-morrow and will stop at all Floors and the Basement.

8-4 Bleached Sheeting at 49c

This is the second Annex Sale of this Sheeting. We offer it again so that persons who were told of its good value after the Sale was over will have an opportunity to fill their requirements.

It is fully bleached and is woven with a heavy round thread and early in the year was selling at 98c yard.

45c "Wabasso" Nainsook at 33c Yard

This is the second Sale of this Nainsook. So many people wanted some it that we had to order another shipment and here it is.

It is 36 inches wide and is finished soft to make it suitable for needle work.

LEADER

300 Pairs of Bath Towels

ODD LINES AND SAMPLES

We have a great assortment of these. Some are all-white and others are striped with colors. There is about an equal quantity of each. The sizes are small, medium and large. There is a great assortment of qualities and a variety of styles; some have fringed ends and others are hemmed.

The Price Is Marked on Each Pair

The reductions are great and well worth coming early for, to be sure of good choosing.

Kiddies' Ruben Waists, Undervests and Slip Waists, 2 for 29c

This sounds like an impossible price to be consistent with quality.

The Undervests are knit ribbed with button fronts and long sleeves. The colors are cream and light grey. In the lot you will also find Ruben and Slip Waists at the same price.

Children's Fleece-Lined Sleepers, 79c

REGULAR $1.25 AND $1.50

The good qualities and good value of these Sleepers are well known to Annex buyers. They are one-button Hatch style with drop seat and are lined with a comfortable soft fleece.

Second Shipment Just Arrived

$3.00 All-Wool Dress Serges, $1.69 Yard

Fifty Inches Wide

A serge for any purpose that serge is used, and there are many uses for serge in most families, with every one needing something new for the springtime.

We used to sell it for $3 yard and it is still worth that amount. You have choice of navy blue, dark brown, navy or black.

Another New Shipment—Regular 35c and 40c

Dress Ginghams, Chambrays and Zephyrs, 27c Yard

Here is a new price level for ginghams, and here is an assortment of new novelty plaid patterns, suitable for dresses; besides, there are plain color chambrays and neat stripe patterns in zephyrs.

The widths are 27 and 28 inches, and nine o'clock buyers will find a fine assortment of patterns and colors.

Two Hour-Sales

One Hour Only—9 to 10 a.m.

600 Yards of 35c White Cotton at 17c Yard

Slightly Under Half-Price

It is a splendid cotton, woven with a fine even thread and has that desirable soft longcloth finish. It sells readily for ladies' and children's wear. The width is 35 inches.

You Can Buy Lengths Up to Ten Yards
No 'Phone Orders

One Hour Only—4.30 to 5.30 p.m.

60c White Dress Voiles, 40 Inches Wide, 29c Yard

Can you ever remember the spring or summer when you did not require a bit of white voile? This spring and summer will be no different from those of other years.

They are crisp, new, plain white pieces that are forty inches wide and have a mercerized finish and taped edges.

(NO 'PHONE ORDERS)

ANY OF THESE LINES PRESENT AN OPPORTUNITY TO BUY FOR LESS

It is in the natural color, is 33 to 34 inches wide, will wash perfectly and has excellent wearing qualities. It is suitable for men's and ladies' wear.

The CRESSMAN Company Limited

COLLECT TAX IN TWO INSTALMENTS, ON JULY 2ND AND SEPTEMBER 1ST

COUNCIL FOLLOWS SAME PLAN AS LAST YEAR TO AVOID CONFUSING THE RATEPAYERS—MAGISTRATE DUMBLE'S SALARY INCREASED TO $1,800—WILL SUE MARKET CLERK MAHOOD.

APPEAL FROM PIPERS

The Council decided last night that the dates for the collection of taxes shall be the same as last year, on 2nd July and 1st September.

Ald. Jones: The reason this was brought up last year was to save interest and get the money in early to carry on the city's work.

Aldermen Hamilton and Gainey suggested that it might be advisable to move back both dates or at least the later one. Money might not be as free as last year, it was believed, and by extending the time some ratepayers would probably find it easier to make their payments

On the other hand it was pointed out that any change in the dates might confuse the people. For that reason it was decided to call for the payment of taxes on the same dates as last year.

Pipers Need Uniforms.

Stroyan Leith, secretary of the Caledonian Pipe Band, wrote asking the Council for a grant to assist in establishing this musical organisation, which has been making steady progress in its organisation. It will consist of ten players, six pipers and four drummers. The members have been practising faithfully, but need to be uniformed in kilts. They have already spent $950.00 on their instruments and other necessaries, and have opened a subscription list for funds to buy uniforms.

Mr. Leith's request was referred to the Finance Committee.

Warne Drug Co., Ltd.

Tax Collector's Report.

Total amount on Roll $570,267.86
Total amount deposited.... 553,744.39

Balance ..... $ 16,523.47
Amount deposited in Feb., $1,378.46

To Improve Factory.

Wm. Stock & Sons, Limted, wrote asking for permission to put in an area way under the sidewalk at the factory for the storage of coal for the new ovens, which will be basement fired. The company purposes making alterations for the improvement of their plant.

Referred to City Engineer Parsons, with power to act under the usual agreement.

Amended the Report.

Ald. Phelan read the report of the Finance Committee, but instead of moving its adoption, he said he wished to delete the clause to the effect that the firemen whose pay was reduced on account of having been given one day off in seven be paid the amount that was deducted from their salaries since 1st January, and that they be paid in full hereafter.

Ald. Morrison moved, seconded by Ald. Gordon, that the report be adopted in its entirety.

An amendment that the clause be referred back to the committee was moved by Ald. Phelan, seconded by Ald. Crowe.

The amendment carried.

The question was raised as to whether the chairman of a committee could propose any variation to a report which he submits.

Ald. Phelan: I remember several precedents. When the bridge contract was let I think it was done.

Ald. Gordon: No doubt. See what happened after that was done.

Ald. Phelan: That was the precedent I was going on.

Co-operates With Lindsay.

That Peterborough and Lindsay be connected by a Provincial highway was the subject of a resolution emanating from Victoria County, who are sending a deputation to Toronto on Wednesday of this week to present their request to the Minister of Highways. A letter last night from J. R. McNeillie, the County Clerk of Victoria, invited Peterborough to send representatives with the deputation.

Ald. Whitehouse moved, seconded by Ald. Jones, that the Council approve of this application to the Highways Department, and that Mayor McIntyre delegate one or more members of the Council to support the petition to the Minister.

Police Magistrate's Salary.

Police Magistrate Dumble's salary was increased from $1,600 to $1,800 on Ald. Gordon's motion, seconded by Ald. Hay.

When this matter was introduced, Ald. Gordon remarked that the budget had already been passed, including $1,600 for the Magistrate, an increase of $200. "If we appointed a new one we would have to pay $2,000," he added.

Ald. Phelan said that the estimates provided for $1,800 for Magistrate Dumble, but that the increase to the larger sum had not been authorised.

With the assurance that $1,800 had been apropriated for the Magistrate, Ald. Gordon proposed that his salary be increased to that amount.

To Sue Market Clerk.

The Parks Committee was instructed to call for tenders for the care of Victoria and Central Parks, and the Property Committee was similarly authorised to advertise for tenders for the market tolls.

Ald. Jones, chairman of the Property Committee, reported that he had been advised by City Solicitor Widdifield that Mr. Mahood, the market clerk, had not paid the balance due the city under the contract for the collection of tolls.

Mr Widdifield was instructed, on Ald. Jones' motion, seconded by Ald. Whitehouse, to enter action against Mr. Mahood and his sureties for the balance of the market tolls account.

The City Solicitor said he had sued Mr. Mahood once, and secured the remainder of the costs about ten days ago.

Too Fat?

Do not try to become slender by drastic doses of thyroid or salts. Reduce weight and waistline; also hips, double chin, etc. by the safe, reliable Korein system. The shadow on this picture gives you an idea how she looked and felt. By taking Korein and following easy directions of Korein system she reduced from clumsy features to graceful proportions. Now she is agile, attractive, mentally alert and in better health. Why not you? Reliable anti-fat self-treatment.

Let Korein Make You Slender

Many, both sexes, report they have reduced 10 to 60 pounds. No starving; no exhausting exercises. *Become exquisitely slender and remain so.* Safe, pleasant method, endorsed by physicians. Legions of testimonials. $100 GUARANTEE or money refund. Buy Korein (pronounced koreen) at busy druggists'. Or write for free booklet to Korein Company, 277-A, Toronto, Ont.

THE BEST BRITISH FILMS FOR CANADA.

Success of "Alf's Button" Here Paves the Way.

LONDON, March 8.—A contract was signed in London to-day by which a strong syndicate will see that British films are presented in all the leading theatres of Canada. For a long time past there has been a movement in favour of more British films being shown in the Dominions, and a tentative export of several popular films, notably "Alf's Button," and others, has persuaded those who have been watching the moving picture market that there is a profitable field in Canada for such an enterprise. At the head of the new company is the man who is perhaps the leading figure in the British picture business to-day, and his advent is expected to turn the export of films from an experiment into a commercial success.

Mrs. Cockburn's Asthma Remedy

Thousands of people who have used it can testify as to the value of this remedy.

Mrs. Cockburn, 422 Gilmour St.
OTTAWA

MRS W. R. MORRIS GAVE ADDRESS

ANNUAL MEETING OF SCHOOL ASSOCIATION.

At the annual meeting of the Queen Alexandra Home and School Association held last evening, a very interesting and lucid address on "Made-in-Canada Goods" was given By Mrs. W. R. Morris. This subject was approached from a different angle to that usually taken and the facts offered for consideration were gleaned form a report of a committee of which Mrs. Morris was a member, composed of representatives of the National Council of Women who conferred with a committee of the Canadan Manufacturers' Association some time ago, with regard to the very important question of the purchase by women of "Made in Canada' goods, and from which the decision was arrived at that such a procedure is not only best for economic and patriotic reasons, but also from the standpoint of personal satisfaction.

For many years, it was an undisputed assertion on the part of the American manufacturers that their product surpassed that of Canadian trade in point of style and finish, although never in quality, but, in recent years, this contention can no longer be regarded as a fact, and, from examples of American and Canadian manufacture submittted for the ladies' consideration, they recognized that Canadan goods were fast approaching a point where they would surpass American manufacture in every regard.

That Canadian goods should always be stamped "Made in Canada" was also emphasized. It has been a practice to stamp blankets and cloth manufactured in the domestic market as "Scotch" and "English" respectively, and these countries have been receiving credit for the quality of the product which was entirely Canadian.

Mrs. E. W. Glover gave two very good piano solos, and the election of officers for the coming year also took place, as follows:

President—Mrs. Yenney.
1st Vice-Pres.—Miss D. Walker.
2nd Vice-Pres.—Mrs. Dearborn.
Sec'y—Mrs. E. Telford.
Treas.—Mrs. R. W. F. Davidson.
Convenor Relief committee—Mrs. G. Helson.
Convenor Social committee—Mrs. Manning.

MR. GEORGE BENTLEY'S MEETINGS

A good attendance and deep interest were special features of the Evangelistic meeting in the Gospel Hall on Monday night

Mr. Bentley spoke on "Saving Grace" aking Titus 2: 14-17 as the basis of his remarks. If grace brings salvation then no one can be saved by merit. In God's estimate there is not in all the world of men as much merit as would cover a pin's point. The only hope of undeserving, ill-deserving, hell-deserving men and women is the free and sovereign Grace of God. As God sees us we are all debtors without a cent to meet the obligations. "But when we have nothing to pay He frankly forgives" Luke 7. The grace that saves, and takes away the sting and the fear of death, teaches us how to live. The saved sinner's personal life must be sober; his social and business life must be righteous; his spiritual condition must be Godly; in this present world. He faces the opposition of a world that knows not God, but he can endure it because there is before him that blessed hope and the glorious appearing of the Great God and our Saviour Jesus Christ. The Christian who takes God at His Word hangs not his head as he travels along as though death must come. It may come, but "The sky not the grave is our goal." The Christian's future is as bright as the promises of God can make it.

The compassionate Saviour who expired on a Roman gibbet between two thieves forsaken by men, and because he was bearing our sin, forsaken also by God, is now exalted to the highest place in glory, and one day perhaps soon He will roll back those heavens and appearing in the upper air, will receive His own. None but redeemed ones will meet Him. Are you one? Your unforgiven sin should drive you to His wounds whence flowed the cleansing blood. Be ready!

OMEMEE HOCKEY TEAM WON GAME

NEWS HAPPENINGS IN THE NORTHERN TOWN.

OMEMEE, March 8.—The Millbrook hockey team journeyed to Millbrook on Saturday to play a return game. A number of fans accompanied them. The attendance of spectators was very gratifying to the home team. The contest could not be classed as an exceptionally brilliant one, but it demonstrated to those present that there is no lack of hockey material in Omemee.

The game resulted in a tie, 5-5. At the beginning of the second period, one of the Omemee players forgot about changing goals and shot the puck into the Millbrook goal. Millbrook, rather than play off, gave the decision in Omemee's favor.

Many penalties were imposed during the game by the Millbrook referee.

Fell Into Pond.

What might have resulted in a sad accident occurred on the pond on Monday afternoon, when, during the physical culture period the scholars went to the ice to skate, and unfortunately one of the tallest boys in High school had the misfortune to get in, but was rescued by the other scholars and is none the worse now., only suffering for a short time from the effect of the chilly waters of Pigeon Lake.,

Boys in Training.

About thirty-six boys are now in training for home service, having received a full equipment to drill with. The Orange Hall is being used for practice which will continue until the last of March. Major Thorne is in command. The boys will parade to the church on the next three Sunday mornings.

Omemee Personals.

Mr. Charles Ivory was a business visitor to Toronto last week.

Miss Marjorie Adams of Peterborough, spent the week end with her parents, Mr. and Mrs. R. J. Adams.

Mrs. T. A. McConnell was a visitor to Peterborough on Saturday.

Mr. John Thorne visited his parents at Millbrook during the past week.

Miss Mamie Stillman of Lindsay, visited her parents at the parsonage over Sunday.

Miss Lila Parsons was hostess at an afternoon tea on Friday when a most delightful time was spent by a number of young people.

Miss Doris Sandy, of Lindsay, visited her parents, Mr. and Mrs. F. G. Sandy, over Sunday.

Mr. J. B. Hayes of Toronto, is visiting at his home in town.

Mr. J. Laidley visited friends in Lindsay on Saturday.

The many friends of Mrs. Blaylock, of town, will regret to hear of her illness, having been confined to her room for some time.

Miss Finney of the Public school staff, visited her sister at Millbrook on Saturday.

Mrs. Isaac Watson of Lindsay, is visiting her sister, Mrs. D. Rea.

Mr. Alf. Lloyd has purchased a gasoline engine and sawing outfit from Messrs. Courtney and Irwin, and he is now the busiest man in tow doing all the jobs.

Miss Eda Moore of Mount Horeb, was the guest of Mr. and Mrs. D. Devell over the week end.

Mr. Arthur McCrea of Toronto, was the guest of his mother in town over Sunday.

Mr. J. Glenny of Burk's Falls, visited his parents, Mr. and Mrs. Isaac Glenny, over Sunday.

Church News.

Rev. Mr. McNaught of Roseneath, who was invited by the Presbyterian congregation to be their pastor, has decided not to accept.

Rev. W. E. Honey of Keene, preached on Sunday in the Methodist church. His theme in the morning was. "The Basis of Christian Optimism," and his text was "But where sin abounded grace did much more abound.' (Romans, 5-20.) In the evening he preached from the eighth Psalm.

A cottage prayer meeting will be held on Tuesday evening at the home of Mr. David Buchanan.

Personals.

Mrs. Blakeley of Consecon, is visiting her daughter, Mrs. F. Adams.

Mr. and Mrs Roy Tumulty went to Madoc on Saturday, where they will visit their relatives before taking up housekeeping in Toronto.

Miss Jennie Clysdale of Toronto, spent the week end with her sister, Miss Cora Clysdale.

Mrs. W. Baskin and Miss Annie Baskin, of Brooklyn, N.Y., are home on account of the death of their father, the late Wm. Baskin.

Mr. T. Pace of Windsor, has been a guest of Norwood friends for a few days.

Mr. and Mrs. Alex. Calder, of Calgary, are guests at the home of the former's aunt, Mrs. J. Calder.

On Saturday, George Bonds, the ten-year old son of Mr. Iden Bonds, has his face cut just above the eye, which rendered it necessary to put in two stitches.

NORWOOD HOME CHANGES HANDS

PROPERTY TURNOVER---NORWOOD NEWS OF INTEREST.

NORWOOD, March 8. — Mr. Archie Paterson has sold his residence on Peterborough street to Mr. N. F. Carbrey.

Messrs. Porter and Dinner have purchased the building which Mr. Ridyard recently bought from Mr. C. J. Seabright.

Held Social.

The A.Y.P.A. of the Church of England held a social evening in their rooms on Friday.

Various games were enjoyed by those present, after which refreshments were served.

Funeral Sunday.

The funeral of the late Wm. Baskin took place on Sunday afternoon from his late home on Belmont road. The remains were taken to Christ's church, where service was held at 2.30, under the auspices of the Masonic Order.

Removes Hairy Growths Without Pain or Bother

(Modes of To-day.)

It is not necessary to use a painful process to remove hairy growths, for with a little delatone handy you can keep the skin entirely free from these ebauty destroyers. To remove hair, make a stiff paste with a little powdered delatone and water. Spread this on the hairy surface and in about 2 minutes rub off, wash the skin and the hairs are gone. To guard against disappointment, be careful to get real delatone. Mix fresh as wanted.

HASTINGS NEWS

HASTINGS, March 8.— Sunday was observed in the local churches as Brotherhood Sunday, the pastors of the different churches speaking on that subject.

Miss Elsie Laing, of Norwood, spent the past week with her brother, Mr. E. B. Laing.

A number of friends and neighbors of Mr. and Mrs. Percy Beavis, called at their home to bid them farewell before they left for their new home.

Mr. and Mrs. Beavis are moving to the farm in Asphodel, recently owned by Mr. T. Murphy. The best wishes of their former neighbors follow them.

Mr. Deyman of Toronto, called here during the week.

Mr. J. McCabe, of Peterborough, made a business call here last week.

Mrs. J. Dick of Warkworth, has been visiting her father, Mr. Albert Brooks.

Mr. Carlos Runnels has been visiting friends in Toronto.

Mr. J. Cameron of Peterborough, was in town during the week.

Mr. Joyce Richardson spent a few days during the week with her sister, Mrs. J. Armour, South Monaghan.

Miss E. Fowlds was a recent visitor to Toronto.

DEMONSTRATION OF WOMEN UNEMPLOYED

No Scarcity of Domestics in Britain Where Women Demand Domestic Training.

(Special to The Examiner by Cross-Atlantic Newspaper Service.)

LONDON, March 8.—Unemployment has spread to the women and yesterday a procession wended its way down Whitehall with placards bearing the militia inscription, "Domestics Need Training." This may be regarded as Labor's answer to the outcry over domestic positions that are still unfilled in spite of the unemployed women in the country. The unemployed woman is at last beginning to realize that domestic service is a skilled occupation and that the ex-munitions girl and the out-of-work factory hand cannot have if she would obtain one of the numerous positions advertised in the daily Press. The absolute necessity of domestic training for domestic service is being more and more impressed on the British people, and it is not at all unlikely that the Government will make an appropriation for such work before the close of the present session.

A LARGE EGG.

On Saturday Mr. H. Scott, Peterborough R. R. 1, brought into The Examiner an egg from a barred-rock hen measuring 6¼ x 8¼ inches and weighing ¼ lb. It was an excellent sample of an egg, and if, when purchasing eggs, we would be assured of their being this size, much objection would not be raised at a price of 15 to 20c above the market price for a dozen of such eggs.

The Perils of Neglect

Digestive ailments are frequently neglected. People say "It's only a touch of indigestion—it will go away." What begins as simple discomfort is allowed to become a serious—chronic ailment. Never neglect the treatment of digestive derangement. To relieve disorders of stomach, liver, kidneys and bowels, Beecham's Pills act promptly and usually overcome the difficulty. Take

BOTNICK BROS.

432 GEORGE STREET

FINANCIAL AND MARKETS

WALL STREET.

NEW YORK, March 8.—(Canadian Press).—In the absence of definite advices from abroad, dealings at the opening of to-day's stock market session were very light and irregular. Fresh pressure was directed against some of the rails and shippings, but the general list was only slightly changed. New York Central fell in early offerings and United Fruit lost one point. Baltimore and Ohio, Great Northern, Pittsburg and West Virginia, American International, General Electric, U. S. Rubber and Sears Roebuck comprised other reactionary issues. The market's tone improved within the first half hour when shorts covered hurriedly in General Asphalt and Mexican Petroleum.

In the early extension of the rise Mexican Petroleum advanced 1½ and General Asphalt 2, more moderate gains being made by Chandler, Studebaker, Crucible and International Paper. This advantage was cancelled when shipping became more reactionary, United Fruit falling four points. Food shares also were adversely affected, Beet Sugar losing one point and American Sugar 2. Among the inactive issues, declines by Remington Typewriter and by Mackay Companies were noteworthy. The heaviness of Reading First and Second Preferred were the only striking features among the rails. Call money was again offered at seven per cent.

CHICAGO GRAIN.

CHICAGO, March 8.—(Canadian Press).—Wheat traders showed a disposition to mark time to-day, pending the issuance of the United States Government report this afternoon on farm reserves. Further rains benefiting crops, had only a transient effect as a bearish factor. The absence of aggressive selling on initial declines led to a moderate advance, which, however, was not well maintained. Opening prices which varied from unchanged figures to one and lower, were followed by rallies to above yesterday's finish, and then by something of a re-action, nullifying most of the gains.

Corn, like wheat, hardened a little after easing off at the start. Traders took their cue from the action of wheat. After opening unchanged to ¼c lower, the market sagged a trifle more and then rose slightly above yesterday's close.

Oats were steady with other cereals, starting a shade off to 1-8, the advance later keeping at about the same range. Higher quotations on hogs gave firmness to provisions.

FOREIGN EXCHANGE.

NEW YORK, March 8.—(Canadian Press). — Sterling exchange weak; demand, 3.88¼; Canadian dollars 12 3-8 per cent. discount.

MONTREAL.

MONTREAL, March 8.—(Canadian Press).—During the morning's session the stock exchange was fairly active, although not as weak as its opening indicated. Abitibi opened at 36½ and closed at 37, while Atlantic Sugar and Brazilian remained unchanged throughout the morning at 30 and 33 respectively.

Laurentide lost half a point at 82. National Breweries, whose alarming drop was a feature of the early trading, strengthened slightly and finally closed at 42. Spanish River was the only other principal issue worth mentioning. It closed at 70½.

TORONTO.

TORONTO, March 8.—(Canadian Press).—Prices again displayed a tendency to decline in desultory trading on the Toronto Stock Exchange this morning, losses ranging from small fractions to one point being established before the noon close. Interest in Canadian General Electric has diminished and further depression was noted this morning, the noon price of 113 being 1¼ points under yesterday's final figure. Ontario Steel Products lost one point at 65, and Consumers' Gas a similar amount at 139. C.P.R. was fractionally weaker at 130½.

LIVE STOCK MARKET.

TORONTO, March 8.—(Canadian Press). — Cattle receipts medium; trade brisk. Quotations: Heavy beef steers, $10 to $11; butcher steers, choice, $10 to $11; butcher cows, medium, $5 to $7; calves, $14 to $16; lambs, $12 to $13; hogs, fed and watered, selects, $14 to $14.50.

The Utter Daintiness and cleanliness of every operation from the picking to the packing of Seal Brand Tea, and the freshness and beauty of the surroundings, are a combination which play an important part in the exclusive flavor of the tea itself. In you will find your affinity, a tea that you will stay with, a rare and precious beverage that will scatter a thirst, renew your energy, stimulate and cheer—a champagne amongst teas in all its native purity. *In pound and half-pound cartons.*

SEAL BRAND TEA

CHASE & SANBORN, Montreal, Que.

WHAT BECOMES OF A LIE

First, somebody told it,
Then the room wouldn't hold it,
So the busy tongues rolled it,
  Till they got it outside:
When the crowd came across it,
And never once lost it,
They tossed it and tossed it,
  Till it grew long and wide.
From a very small lie, sir,
It grew deep and high, sir,
Till it reached to the sky, sir,
  And frightened the moon:
For she hid her sweet face, sir,
In the veil of cloud-lace, sir,
At the dreadful disgrace, sir,

This lie brought forth others,
Dark sisters and brothers,
And fathers and mothers—
  A terrible crew.
And while headlong they hurried,
The people they flurried,
And troubled and worried,
  As lies always do.

And so, evil-boded,
This monstrous lie goaded,
Till at last it exploded,
  In smoke and in shame:
While from mud and from mire,
The pieces flew higher,
And hit the sad liar
  And killed his good name.
—New York Evening Post.

COUNCIL REJECTS GRANT FROM BAND

WAS CONTRIBUTION FROM PROCEEDS OF FIRST SUNDAY NIGHT BAND CONCERT.

A little incident at last night's Council meeting serves to demonstrate how evanescent a thing is fame. Major A. P. Miller, who, according to one of his brother officers in the great enterprise in France, was one of the most fearless men of the 21st Battalion, who won the Military Cross with a bar, the Distinguished Service Order, and was also recommended for the Victoria Cross, this local officer sat for several hours in the gallery of the chamber apparently unrecognized and unknown to the municipal representatives of Peterborough.

It is only a few short years ago when, if Major Miller had appeared in khaki with the badges of his gallantly deserved distinctions on his breast, there would have been a cordial reception for him. Last night when he alone remained long after the various deputations had departed, one of the aldermen remarked, "This gentleman, I believe, wishes to be heard." This reference to the episode is probably repugnant to Major Miller. He made no effort to obtrude himself upon the Council, and from what is known of him he would be the last to parade his military achievements. But the fact remains that this M.C., D.S.O. man who, it is said, should have also received the V.C., might just as well have been a slacker for all the recognition he gained from the Council of Peterborough as he listened to their deliberations without an attempt to state the purpose of his presence.

And then he was noticed as "Mr. ——" the blank inviting him to identify himself. And Major Miller quietly explained why the 4th machine gun band had sent a cheque for $27.50 to the Council. It was 45 per cent. of the proceeds of the first Sunday night band concert, and it was offered as a contribution to the relief of the unemployed. Major Miller said he wished to explain that the Relief Officer had told him that the offering would be welcome. His next intimation came from Ald. Phelan, who informed him that the money would have to be presented to the Council who would decide whether the city would accept it or not. It had been tendered in good spirit.

After Major Miller had retired, Ald. Morrison moved, seconded by Ald. Phelan, that the chegue be returned to the machine gun band.

Ald. Jones—I don't feel that we should accept it. They ignored public opinion.

Mayor McIntyre, in an expression of injured righteousness—We should refuse it and show our displeasure.

BUSY DAY FOR POLICE DEPT.

STILL ISSUING PERMITS FOR SMALL ARMS.

"Theres' not to reason why. Theres but to pacify." Police Sergeant James Reid, confronted with the task of issuing permits to hundreds of persons, both urban and rural residents who carry weapons, must have mused thusly. The charge of the Light Brigade was an interesting piece of work, but the raid on the police headquarters by mobs of males, each a veritable walking arsenal, should go down in local history as an interesting event.

There was no stopping the crowds yesterday. They surrounded the Sergeant's desk, and while patient, were firm in their demands. No permits were given, notwithstanding a speedier method of handling the applicants being devised. A full description of the weapon, or weapons, were taken, and in a few days, when all the lists are in, permits will be issued by the Chief of Police.

Without a manual on "arms" at hand, it is difficult to elucidly describe the implements permits were asked for. Some of more recent a vintage, say from the time of Oliver Cromwell, were recognized. These were flint locks, practically all the branches of the family being represented, horse pistols of every form and calibre. Prussian needles, Sinders, revolvers, rifles, swords of every known and unknown variety since the Crusades, sabres, stilettos and knives of every nation.

Up to 10.30 this morning 238 weapons were registered and 146 persons were entered as owners of these. One man, George Clark, of Bethune Street, a connoisseur, has some five hundred pieces in his collection that must all be registered with date of birth, extraction and innumerable details in every case. Evidently Peterborough's households contain a collection of arms that would fill half a dozen museums like the local one.

ASPIRIN

"Bayer" is only Genuine

Warning! Unless you see the name "Bayer" on package or on Tablets you are not getting genuine Aspirin at all. In every Bayer package are directions for Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago and for Pain. Handy tin boxes of twelve tablets cost few cents. Druggists also sell larger packages. Made in Canada. Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of Salicylicacid.

36-3 MILL RATE WAS CONFIRMED

COUNCIL PASSED ITS BUDGET WITH AIR OF RELIEF.

The Council adopted the 1921 tax rate of 36.6 mills last night without any change. Ald. Gainey moved that $500 be alloted for music in the parks, but none of the members volunteered to second his motion.

"It is too bad that it has come to this," Ald. Crowe commented, "but if we cut off the grants this year we will probably be on a better basis next year of getting good music. The Veterans gave us the best music last year, but at that it was not as good as in most places. The bandsmen are too much split up, and if there are no grants this year they may get together. There is plenty of talent for one good band."

Resolution of Condolence.

A resolution conveying the Council's condolence to Mr. C. J. Townsend in the death of his mother was passed on Ald. Hamilton's motion, seconded by Ald. Phelan. A similar expression of sympathy with Mr. Robert Wilson, caretaker of the city hall, who has been seriously ill, was extended on motion of Ald. Whitehouse, seconded by Ald. Phelan, and the Council gave Mr. Wilson leave of absence until he recovers and arranged to pay for a substitute caretaker until he returns to work. Mr. Wilson's faithful performance of his duties was further recognized by the decision to pay him his salary in the meantime.

That the labourers who worked on the Hunter street bridge be paid the wage set out in the agreement signed by the Mayor last year was another motion adopted. It was proposed by Ald. Crowe and seconded by Ald. Gordon.

EVERY DROP IS FULL OF HEALING.

A great many people waste Campana's Italian Balm by applying it too freely. While this may be good business for the manufacturers, it is not what is required. A few drops well rubbed in after washing the hands in tepid water will, after one or two applications, make the hands soft and free from chaps. Applied to the face at night, it brings out all the freshness of a peachy complexion. Thirty years on the Canadian market, and every year sales increased, not by advertising by the proprietors, but mostly from recommendations from friend to friend. Get a bottle to-day from your nearest druggist. A special one-ounce sample bottle mailed to any address on receipt of 15c.

E. G. WEST & COMPANY, 80 George street, Toronto.

THE PETERBOROUGH MALE VOICE CHOIR.

The usual weekly practice will be held in the J. M. Greene Music Room at 8 o'clock to-night.

The members of the executive are asked to be on hand at 7.40 for business matters.

Last Tuesday evening almost a full choir turned out, only eight of the members being absent. With such an encouraging sign, the practices improve wonderfully. The last meeting was a great advance, vocally, on previous efforts along the line of combination of the parts, the blending being beautiful. The expression is also coming on now in the part songs; the "feeling" for each other is evident; and the spirit of the music is being shown — the whole effect making for a splendid success on the date of the concert: 5th April, in the Grand Opera House.

It is hoped all members of the choir will make an extra effort to be at all practices from now until the concert. Practice makes perfection, even in vocal effort—and this will spell success!

PORT HOPE DEAD.

PORT HOPE, March 8.—It is not likely that there will be any strongly organized baseball here this summer. Only half a dozen enthusiasts attended the organization meeting Saturday, and Port Hope is not being represented at the League meeting in Belleville to-day.

STORE CLOSED!

The Elliot Store will be Closed All Day Wednesday and Thursday while the Shoe Stock from the former Walk-Easy Store is being moved in, and this and all the big Elliot Stock is being gone over, marking down prices for the Greatest Clearing Sale seen in this city. The entire stock must be cleared, as entirely new lines will be carried, and if low prices will sell, there is going to be a record rush to the Elliot Store for the time this Sale lasts. Watch for full-page Sale announcement in Thursday's Paper.

B. CHESLER

SYNOPSIS OF A PROPOSED BY-LAW

The purpose of the proposed by-law entitled "A BY-LAW FOR BORROWING THE SUM OF $40,000.00," is to authorize the Municipal Council of the Corporation of the City of Peterborough to borrow on the sinking fund plan the sum of $40,000.00, for the construction of surface water drains in the said City, a draft of which By-law may be seen at the office of the Clerk.

The amount to be borrowed is to be payable in twenty years from the date of the issue of the debentures. The amount required to be raised annually for the payment of the debt will be $1,343.27, and for the payment of the interest will be $2,500.00.

Dated the 8th day of March, 1921.

TAKE NOTICE that the foregoing is a synopsis of a proposed By-law of the Corporation of the City of Peterborough, to be submitted to the votes of the electors, on the 6th day of April, 1921 between the hours of Nine o'clock in the forenoon and Five o'clock in the afternoon, at the following places:

Polling Sub-Division Numbers One and Three—
PLACE—M. H. Halpin's, 39 George Street.
Polling Sub-Division Numbers Two and Five—
PLACE—T. J. Murray's, 111 Rubidge Street.
Polling Sub-Division Number Four —
PLACE—Fitzpatrick and Geraghty's, 199 Rubidge Street.
Polling Sub-Divisions Numbers Six, Seven, Eight and Nine.—
PLACE—City Hall Chambers.
Polling Sub-Division Numbers Ten and Eleven—
PLACE—Fitzgerald and Geraghty's, 356 Charlotte Street.
Polling Sub-Division Number Twelve.
PLACE—Mrs. Lyle's house, 301 Pearl Avenue.
Polling Sub-Divisions Numbers Thirteen and Fourteen—
PLACE—N. Routley's, 392 Brock Street.
Polling Sub-Division Number Fifteen.
PLACE—J. C. Harison's store, 724 Water street.
Polling Sub-Division Number Eighteen —
PLACE—T. Hooper's store, 661 George street.
Polling Sub-Divisions Numbers Sixteen and Seventeen—
Place—Dawson Bros.' Store, 659 George street.
Polling Sub-Division Number Nineteen—
Place—J. T. Braund's, 730 George street.
Poling Sub-Divisions Numbers Twenty and Twenty-One—
PLACE—Mrs. Swanston's House, 46 Hunter Street East.
Polling Sub-Division Number Twenty-Two—
PLACE—M. Kylie's house, 558 Rogers Street.

And that the 5th day of April, 1921, at ten o'clock in the forenoon at the office of the City Clerk of the said Muncipality has been fixed for the appointment of persons to atte.d at the polling places, and at the final summing up of the votes by the Clerk.

And that if the assent of the electors is obtained to the said proposed By-law it will be taken into consideration by the Municipal Council of the said Corporation at a meeting thereof to be held after the expiration of this notice, and that such first publication was made on the 8th day of March, 1921.

TAKE NOTICE FURTHER that a tenant who desires to vote on the said proposed By-law must deliver to the Clerk not later than the tenth day before the day appointed for taking the votes, a declaration under The Canada Evidence Act, that he is a tenant whose lease extends for the time for which the debt or liability is to be created, or in which the sum of money to be raised by the proposed By-law is payable, or for at least twenty-one years, and that he has by the lease covenanted to pay all Municipal taxes in respect of the property of which he is tenant other than local improvement rates.

S. R. ARMSTRONG,
Clerk.

NEW YORK PHYSICIAN CLAIMS PHOSPHATE DISCOVERED BY FRENCH SCIENTIST IS GOD-SEND TO WEAK, NERVOUS FOLKS.

"Let those who are weak, thin, nervous, anaemic or run-down, take a natural, unadulterated substance such as Bitro-Phosphate and you will soon see some astonishing results in the increase of nerve energy, strength of body and mind and power of endurance," says Dr. Joseph Harrigan.

McDermid & Jury or any good druggists will supply the genuine Bitro-Phosphate at reasonable cost.

MR. BEN WHTE RETURNS TO CITY

Mr. Benj. White, author and pioneer of Peterborough, has returned to the city, and once more has begun his literary pursuits. He feels quite refreshed, and never grows tired of sounding the praises of the great Canadian West, which he visited in the late summer of last year. It has been, according to his own statement, a great stimulant to both body and mind, and although he has reached the autumn of life, and is well past the three-score and ten mark, he feels that it has given him a new lease of life.

His interest never seems to lag when it comes to social enjoyment, one of his chief hobbies being in singing the old masterpieces of sacred song which played such an important part in his youthful training.

Having been invited this week to spend an evening with a few old friends, he delighted them all by singing Tennyson's "Crossing the Bar." His voice was remarkably clear, and he rendered it with such feeling that his audience was deeply touched by the pathos of the composition.

Mr. White is leaving for his home in the country in a few days, where he will apply himself in putting the finishing touches on the third edition of his book, "The Mission of Life," which he expects to have ready for the printer in a few weeks' time.

New Drug Will Make Millions of People Well

NEW DRUG WORTH MILLIONS TO SUFFERING HUMANITY. NUMBERLESS PEOPLE GO DOWN TO THEIR GRAVES 10 TO 20 YEARS BEFORE THEY SHOULD.

A poisoned system soon decays, causing early death. We are only as old as our Livers. When the Liver is out of order the system is unable to discharge the waste matter, causing a poisoning of the whole system, which no doubt causes all sorts of aches and pains. When the system becomes poisoned, some organ of the body is sure to suffer. It may be your Stomach, Kidneys, Liver, Intestines, etc.

There is only one drug known that will relieve this, and that is Tanated Calomel, which is the only drug known that will act directly upon the Liver. Tanated Calomel is very different from all forms of Calomel. It is very quickly taken up by the system, and acts on the Liver in a few minutes after taking. No Salts, Seidlitz, or Castor Oil are necessary to remove it from the system, as it is self-eliminating. No nausea,, sick stomach, or griping after taking.

You no doubt have been taking all sorts of Tonics, Laxatives, from time to time, with only temporary results. The reason is that none of these medicines act upon the Liver, and you cannot have good health with a disordered Liver.

Doctors recommend that you take One Tanated Calomel about 15 minutes before meals or take two at bedtime, and you will get a good sleep, waking in the morning feeling 100% better, full of vigour, bright, alert, clear-headed, and ready for a good day's work.

Tanated Calomel is sold in Peterborough by F. C. Weber, 220 Charlotte Street.

Stomach Off? Try This

Get a box of Mi-O-Na Stomach Tablets at all druggists, and stop all distress. Relieves indigestion, or money back.

SAYS TALKING WITH DEAD IS POSSIBLE

"One can communicate with the dead if one knows how," was the declaration of Eugene W. Munson, national lecturer for the Theosophical Society, in a recent lecture at St. Thomas.

"Not by means of automatic writing," the ouija board or mediumship, can we get in touch with those who have recently died. All of these are partial or full obsession and therefore are dangerous and not to be recommended," said Mr. Munson. "Rather than draw them back here, against the stream of their evolution, go to them. This can be done consciously when out of the body in sleep, or by the forced trance as in hypnotism—though this is bad—and by developing our own clairvoyant powers so we can work consciously in their world while wide awake here in the physical brain. This last is the best. To develop these higher powers one must cleanse and strengthen the physical body by a pure diet, exercise, bathing, etc.; purify the emotions and desires, eliminating as far as possible the lower and developing the higher kind. He should strengthen the intellect by using it, not swallowing other people's ideas; reasoning from cause to effect and back again, so that he has a clean, active mind under his control. And, lastly, he should unfold his spiritual nature by love and the practice of brotherhood in service to his fellow-man."

PROTESTS HE IS INNOCENT WHEN GIVEN LIFE SENTENCE.

DETROIT, Mich., March 8.—Convicted last week of the murder of his 18-year-old English bride of three months, Michael Greeson, 34 years old, was to-day sentenced to life imprisonment at Marquette State Prison.

When asked if he had anything to say, he made an impassioned avowal of his innocence, predicting that some day he would step from behind prison bars a free man. He asked thath is sentence be changed so that his sentence be changed so of Marquette, but Judge Keidan told him his request would not be considered.

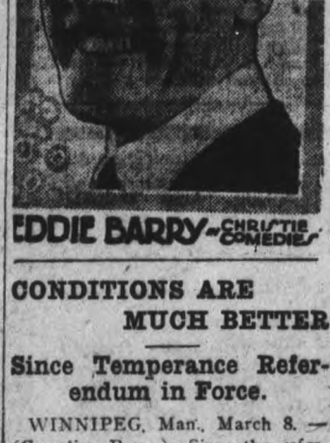
CONDITIONS ARE MUCH BETTER

Since Temperance Referendum in Force.

WINNIPEG, Man., March 8. — (Canadian Press.)—Since the referendum went into force Feb. 1 there has been a noticeable decrease in the number of infractions of the Manitoba Temerance Act and conditions in general are much better, according to N. L. MacLean, administrator of the act.

"Whether this indicates a permanent improvement or not is hard to say at present," he said. "We look to the Quebec Liquor Act for a great deal of help. Montreal was the source of a big percentage of our illicit traffic and with storehouses there under government control we do not expect much from that quarter."

Manitoba has nothing to fear from British Columbia wet laws, according to Mr. MacLean.



PRESBYTERY IN SESSION TO-NAY

REV. A. K. M'LEOD PRESIDING AS MODERATOR.

The Presbytery meeting in St. Paul's church to-day, with Rev. A. K. McLeod as Moderator, and Rev. D. A. Thompson as Clerk, had the following Docket to consider:

Appointment of a committee to strike standing committees.
Report of Knoxville, etc., church properties.
Report on remits.
Report on co-operation with the Methodist church.
Consideration of minisers' stipend.
Call from Thorold to Rev. Dr. Lee.
Notice of motion re appointment of commissioners to Assembly.
Appointment of commissioners to Assembly.
Appointment of representatives to the summer school.
Communication from Referendum committee.
Communication from Dr. Ramsay re special committee for students.
Communication from Jackson Press re printing minutes.
Place and date of next regular meeting.
Notices anent re-appointment of ministers to next assembly.

Reports of Standing Committees.

At this morning's session, the records were sustianed and the docket approved, the matter of the disposal of the manse in Knoxville was left in the hands of a committee to be reported on, and it was moved that the judgment of the Presbytery of Peterborough is that no chief executive officers be appointed by the general board and that the general assembly should take care that no functions of the Presbyterian Synod or general assembly as now anticipated should be assumed by the general board, also that, in view of the impending discussion of church union in our church and assembly, that the whole matter be left over until such time as the question of church union is disposed of.

RECEIVES MONS STAR

BROCKVILLE, March 8.—Ernest Moulds of this town has received from the Imperial Government the Mons Star, which is awarded those who served in France before Nov. 23, 1914. He sailed from Canada in August, 1914, after leaving Winnipeg and left Southampton for Zeebruge where he landed in September 1914.—He was among the last troops to land there before that port was captured by the Huns and was in the retreat from Antwerp to Ypres. He was in Ypres before and after its destruction. Mr. Moulds was wounded and gassed in September, 1916, and discharged in November, 1920.

THEY'RE WORTH THEIR WEIGHT IN GOLD

WHAT CLOYNE MAN SAYS OF DODD'S KIDNEY PILLS.

David Waddington Has Used Dodd's Kidney Pills and Recommends Them to All Who Suffer From Kidney Ills.

Cloyne, Ont., March 8.—(Special).—Right to the point is the statement of Mr. David Waddington, a well-known and highly respected resident of this place. He has tried Dodd's Kidney Pills and found them good. But let us use Mr. Waddington's own words:

"I have taken Dodd's Kidney Pills and I cannot say too much in favor of them." He states: "They are worth their weight in gold and I advise all who suffer from Kidney Disease of any kind to use Dodd's Kidney Pills."

Dodd's Kidney Pills are purely and simply a kidney remedy. They have given splendid results in cases of rheumatism, backache, diabetes, dropsy, heart disease and urinary troubles, because each of these is either a kidney disease or springs from sick kidneys.

Ask your neighbors if Dodd's Kidneys Pills are not the remedy sick kidneys are crying for.

FORMER TORONTO GIRL GETS DIVORCE.

Mrs. Hilda Davis Simpson Owsler Separates from Her Husband.

NEW YORK, March 8 (Canadian Press).—A decree of divorce was granted to Mrs. Hilda Davis Simpson Owsler, formerly Miss Hilda Davis, of Toronto, against Henry Bryan Owsler, member of one of Chicago's oldest and richest families.

Mrs. Owsler had achieved literary fame through magazines and several books published by her, all under her nom de plume of "Hildric Davenport."

CHEMIST DISCOVERS ARTIFICIAL RUBBER.

MADRID, March 8.—The invention of an artificial rubber is reported in a telegram from Barcelona. The inventor is Washington Rossi, an Italian chemist in the Barcelona laboratory. Details of the invention are being kept secret until it is subjected to a test in public in the near future, but it possesses all the qualities of natural rubber at one-twentieth of the cost, the report declares.

For the Fancy Dress Fete

Picturesque Creations from the Orient and the Story Book to Brighten the Festivities of the Pre-Lenten Season.

At Left—A China Boy in Pink Brocade and Celestial Trousers of Orchid. A Long Peacock Feather Trails Over One Shoulder from a Cap of Blue-Violet.

Pierrette in Her Short Black Skirts Dotted with White Pompoms Stolen from Pierrot—Also a Wig of the Same White Fluffy Balls.

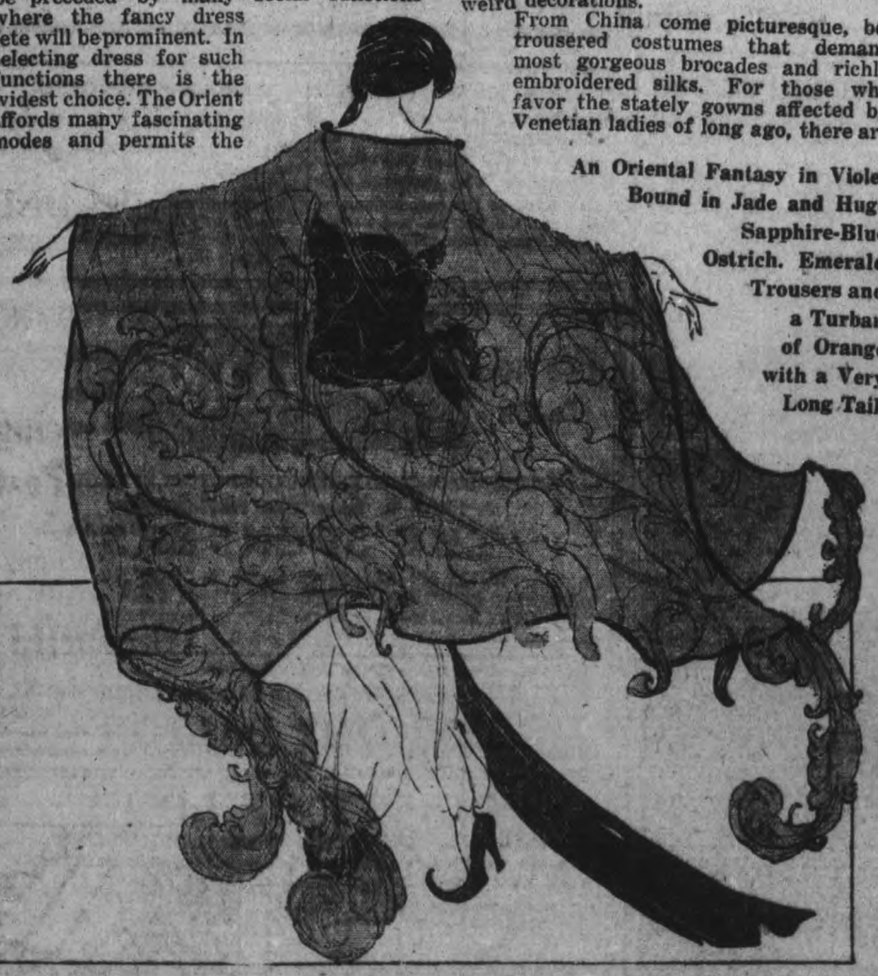
At Left—From Lovely Venice Comes This Lady All in White and Silver Brocade and a Long Pointed Bodice of Orange Velvet.

By Mme. Frances

The Famous Creator of Fashions

AT this season of the year, when pre-Lenten festivities are at their height, the fancy dress ball is one form of entertainment that frequently invites the attention of society. Then, too, the proposed revival of the Inaugural Ball will doubtless be preceded by many social functions where the fancy dress fete will be prominent. In selecting dress for such functions there is the widest choice. The Orient affords many fascinating modes and permits the use of dazzling jewels and weird decorations.

From China come picturesque, betrousered costumes that demand most gorgeous brocades and richly embroidered silks. For those who favor the stately gowns affected by Venetian ladies of long ago, there are regal creations garlanded with flowers. Very different, too, is the silhouette, yet it is a style that is often favored by the graceful young matron.



An Oriental Fantasy in Violet Bound in Jade and Huge Sapphire-Blue Ostrich. Emerald Trousers and a Turban of Orange with a Very Long Tail.

Such a gown is illustrated on this page. The colors united in this dress, as well as the fabrics, are most interesting. The skirt, with its voluminous folds that bespeak a fine disconcern for cost, is made of white and silver brocade. A sumptuous fabric, it is used unstintingly, for in the age when such dress was affected the chief concern of style creators seemed to be how much material can we use, not how little.

Festooned about its distended folds is a garland of exquisitely made flowers. These are remarkable for the varied colors that are so interestingly combined. Orange, purple, scarlet, cerise, lemon and bright green flash from alternate folds as the magnificently attired Venetian lady treads her way among her strangely garbed associates.

Orange velvet makes the quaint bodice with its narrow V-shaped front. Set in regal manner about the shoulders is a cape made of cloth of gold. The high collar flares backward from the neck.

A Mediaeval Touch

Atop the white wig is a rather flat-green satin tricorne. A black velvet mask tied with black strings gives a suggestive touch of mystery to the fair lady.

The slippers worn with this costume are thoroughly mediaeval in style, for they are designed with square toes and slashed fronts that are far from modern in their cut. Made of cloth of gold they, too, reveal a pleasing dash of color, for their heels are of red leather.

For the woman who possesses slumberous brown eyes and the complexion of her sister of the Orient, I have created a costume that might well be worn by some favorite of the harem. It is the same both back and front, which gives it a certain air of simplicity, yet its colors are decidedly voluptuous looking.

I have selected emerald green charmeuse for the trousers. Like those of the oriental, they are decidedly "baggy" in appearance, and the innumerable soft folds catch many a brilliant touch of shimmering light as their wearer dances. The slippers, with their curled-over toes, are made of green and gold leather.

Oriental Costumes

The bodice of sapphire blue satin is swathed about the figure. The depth of its color, however, is somewhat modified by the square of purple marquisette that, held on the shoulders by two jade green buttons, covers the arms and extends well below the knees. Sapphire blue ostrich feathers are appliqued on to the purple marquisette. This transparent fabric is bound with jade green satin. From the four corners of the square hang long sapphire blue ostrich feathers.

Another streak of color is revealed in the long drapery that falls from the turban to the floor, for it is a flaming orange—the same vivid shade and fabric from which the closely draped turban is fashioned.

Trousers, too, are characteristic of the Chinese costume that I have pictured here. These, however, are distinguished by the scantiness of the material that is used in their making. They are developed in orchid charmeuse and are finished in a kind of spiral puttee. Below, one may note a generous showing of the white stockings which are worn with black velvet shoes richly embroidered in gold.

The coat is cut from a very lovely bright pink brocade. The lower parts of the sleeves and the sides of the coat are adorned with black velvet applique. This trimming is outlined with gold, for the latter is lavishly used in the dress of the oriental. Two gold buttons are chosen for the fastening of this joyful-looking coat, and the front is further elaborated with glorified frogs.

The hat is equally colorful. It is originated in blue violet and its apex is marked by a gold button. From the side falls a long peacock feather, with wonderful colors echoing that of this severely simple but none the less striking costume.

The fourth costume that I illustrate on this page is a Pierrette. I think it is most attractive, and is especially good for the young girl. She will, I am sure, be delighted with the wig, for it is decidedly unusual. It is made of white pompoms to match the delightful decorations on the skirt.

The latter is originated in black tulle and its filmy expanse is punctuated at intervals by white pompoms that are set on in rather formal effect. Black slippers and stockings are worn with this dainty frock, which is topped with a bodice of black velvet.

To slip over such fantastic frocks are wonderful wraps of fur or scintillating silks, as well as exquisite velvets. If you desire to carry out the black and white scheme of the costume just described, you might select an ermine wrap trimmed with tails of the same.

Kolinsky and White Fox

Another handsome kolinsky wrap is collared with a magnificent white fox pelt. The kolinsky skins are disposed in vertical mode in the front. Caught beneath the collar and at the waistline, they are not joined together on the sides. In this way one may glimpse a touch of exquisite color, for this wrap is lined with lavender charmeuse. Skins, three deep, encircle the waist and form a girdle from which hang many beautiful pelts that comprise the skirt of the wrap. No lining is of course used on these, but each is finished with tails.

Another resplendent wrap is cut from black taffeta silk. However, very little of this is apparent, for it is richly brocaded with silver thread. The cape affects the petal mode that is fashionable in skirts as well as outer wraps. Each piece originating just below the collar is outlined with monkey fur, and as it sweeps toward the hem it approaches it in diagonal mode. A huge collar of monkey fur forms an effective frame for the face of the wearer.

The Fashion Forecast

Rubies are to be greatly in vogue this season, and preference will be given to those designed in cabochon style. They will give the finishing touch to the smart gown for early spring.

STRAY SHOTS AT SPORT

Heinz Zimmerman, who was practically railroaded out of baseball, is helping to turn the publicity spotlight on the gambling activities of the Giants. He states that McGraw knew of the activities in that direction, and shielded Kauff, Toney and Benton on divers occasions.

Pinehurt, that resort in South Carolina that thrives on publicity, sends out a golfing story that looks like the season's classic. Within ten minutes of each other, on the same course, and for the first time in the history of the game there, two holes in one were recorded yesterday. The first ace was negotiated at the fifteenth hole of the championship course by E. H. Wiswell, of the Montclair Golf Club. The distance is 212 yards. The second was made a few minutes later by John F. Haffen of Siwanoy. The latter sank his mashie drive for the ninth hole (140 yards) in a match with Sam A. Scribner.

The city wrestling championships have not been decided on yet. The entries of two of the heavyweights have been received from John Campbell, the "hip lock king," and Dunc Allen, the "massee marvel." This match should be a thriller, as both men have barred every hold but the strangle.

The Island of Yap is a good place to start an argument about, and it is suggested that Dempsey and Carpentier should saw off in that locality.

Montreal has lost in the fight for a baseball franchise through some financial conniving on the part of Akron. The latters players have now moved to Newark. Lots of baseball players would rather be in Montreal batting about 200 that pushing out clouts that would put them in the guide with an average of .000.

It is suggested that if Montreal gets back into baseball it will sign up three stars by the name of Hennessy as a nucleus for the team.

MR. A. A. FOWLER BANQUETTED THE CITY LEAGUE CHAMPIONS

PRESENTED THE CITY LEAGUE TROPHY—PRESIDENT CURTIS HONORED.

Mr. A. A. Fowler, who presented the cup to the City Hockey League, gave a banquet last night in honour of the champions, the Wm. Hamilton Amateur Athletic Club team, who were successful this year in heading the League, in one of the best seasons of city hockey held in Peterborough in some years.

The presentation of the cup last evening completed a season of good hockey, well played by the four different teams, and well-managed by the officers of the City League.

At Hooper's Palm Parlors last evening, Mr. Fowler, who was the guest of the evening, provided a sumptuous banquet to the winning team, officers of the City Hockey League, representatives of the other teams of the League, and a few friends. Mr. Chas. Curtis, president of the City Hockey League, occupied the chair.

After a toast to the King, Alderman N. Phelan, treasurer of the League, made a presentation of a smoker's outfit to the president, Mr. Chas. Curtis, on behalf of the City Hockey League. Mr. Phelan, in his remarks, stated that he felt the success of the League, in a great measure, was due to the earnest and enthusiastic efforts of the President, who had been able to obtain the hearty co-operation of all the different teams, and had brought to a successful conclusion one of the best City League seasons in a number of years.

Mr. Curtis, in reply, thanked the officers of the League for their thoughtfulness and kindness, and stated that it was only through the team work of all the officers and enthusiastic manner in which the players on the different teams got into the game, that made the success of the League possible.

After a reading by Mr. W. McLaren, Mr. J. A. Sharpe, President of the William Hamilton Athletic Association was called upon to propose the toast to the City Hockey League, which was responded to by Messrs. Stacey of the De Laval Team, Primeau for the C.G.E. Team and Bradburn for the Bankers. All the speakers felt that the success of the City League this year was so pronounced as to make certain of a continuance under the same auspices next season and expressed a wish that City League Baseball would develop in a similar manner this summer.

An instrumental by Mr. Frank Clark here was much appreciated.

The toast of the evening, that of "Our Host" was proposed by Mr P. B. Westbye, who complimented Mr. Fowler on the practical interest he had always taken in Sport, and stated that he believed that good clean Sport was one of the best means of bringing about good fellowship and a real community spirit that could be found.

The Host, Mr. A. A. Fowler, in presenting the Trophy to the William Hamilton Athletic Association team, felt that he was only doing what any other man might feel like doing, who was interested in Sport as he was, never an active participant in any of the strenuous Canadian Games, he had always been much interested, and in the future as in the past, would always be glad to do all he could to further amateur sport in this city. He then presented the cup, which was accepted with a neat speech, by Mr. Sid Gibbs on behalf of the William Hamilton Team.

Mr. R. M. Glover was asked for some remarks and predicted a big boom in all athletic sports in the city for which the City Hockey League deserved a great deal of the credit.

Fred Reid and Walter Fitzgerald Secretary, who together with the President, Mr. C. Curtis, came in for a good deal of credit by different speakers, were called upon for some remarks in which they stated they believed that next year's City League Hockey would be more attractive than ever, and Mr Reid also gave some interesting statistics as to what transpired in the different Games and Teams during the playing season.

Messrs. John Condon, Keeley and Jerry Coughlan, all spoke relative to next year's team, that they expected to have in the City Hockey League from the William Hamilton Amateur Athletic Association, and in the case of Mr. Condon, he predicted that next year's team would again win the cup and that it would eventually be in their possession, having won it three times in succession.

Mr. McLaren again favoured the company with a reading, and after the singing o fthe National Anthem brought to a close a most successful Hockey Season, and a most enjoyable Banquet, for which the League was deeply indebted to Mr. A. A Fowler, and showed their appreciation by three hearty cheers.

THE SOAP BOX LEAGUE

Peterborough baseball fans will have a chance to look over a number of young players before the season officially opens.

The valedictory of the City Hockey League aggregation was accounted for last evening. The League had a very successful season financially and otherwise.

But for the City Hockey League, local hockey fans would have had a pretty slim hockey season, following the untimely elimination of the intermediate and junior hockey teams.

Local hockey fans are still wondering why the intermediates and juniors who joined the City Hockey League and completed the season with that organization, did not play as good hockey when they were playing the O.H.A. group series.

ST. PATS OUTPLAY THE CANADIENS

DENNENAY, NOBLE, SMYLLIE AND CAMERON PLAYED BRILLIANT HOCKEY.

TORONTO, March 8.— St. Patrick's are champions of the second half of the N.H.L, and will meet Ottawa in the play-off. They won the honors at the Arena last night in one of the sternest-fought games of the season, but one in which the winners had all the better of the play, in which they outshot and outgamed their opponents from the first face-off to the final gong. There is no question in the minds of the 7,000 and more fans who crowded the Arena to the roof as to the relative merits of the two teams on the night's play. St. Patrick's deserved to win.

The play-off will commence this week. The first game will be played in Ottawa on Thursday night, and the return game here the following Monday. In the event of each team winning its home game, a third and deciding match will be played. This will probably take place in Hamilton, although all arrangements to this end have not been completed yet.

No harder fought game has been played on Toronto ice this year than that of last night. All that both teams knew they used. The defensive work, especially that of the Irishmen, was superb. They checked back in centre ice, they squeezed the puck-carrier into the corners, they herded off the man in front of the nets who was waiting for the pass. These tatics caused the game to slow up. The checking was too close and too persistent to permit many of those whirlwind dashes which have characterized the majority of professional games all season. With the exception of Corbett Dennenay, who turned in his best game of the season, few players of either team ever attempted to break through the defence. The shooting took place from outside the defence, and the attacking forwards rushed in for rebounds. Three of St. Patrick's goals were scored in this fashion, two of them by Noble, who picked up rebounds, carried them around the back of the net and poked them between Venzina's skates into the corner of the goal. Sloppy clearing by Vezina, plus sloppy work by the Canadien defence, aided Noble in these plays, which were well carried out and deserving to the success which crowned them.

The score was 6-4 at the close.

BRANTFORD SIGNS PITCHER.

BRANTFORD, March 8.—Robert B. Herman, a right-hander, of Dayton, Ohio, is one of the latest twirlers whom Tom Nelson has lined up for the coming season.

IRISH SOCCER CUP.

LONDON, March 8.—(Canadian Press).—In the semi-final games of the Irish soccer cup series, Glengoran defeated Brentwood, four to three and Shelbourne and Glenavon played a scoreless tie.

MUSIC AND DRAMA

"THE GIRL FROM NOWHERE."

What do you most prefer in a show? Everybody has his or her own particular preference, and in "The Girl from Nowhere," at the Grand, matinee and night, Saturday, Mar. 12th, there is something to please each individual desire. Is it comedy you like? There is Billy Oswald, the best of all Scottish Comedians, J. V. Barrett-Lennard "Jolly Old English fellow wot," and Richard Lennard, light comedian, just out from England, who was featured with such shows as "Bubbley," "To-night's the Night," "Houpla,' etc. Do you want dancing? Let us introduce Miss Blanche Young, one of New York's best interpreters of Terpsicore. As light and graceful as a bubble blown by a spring zephyr. She is accompanied by a bevy of beautiful maids, who will dance their way right into your affections. Are you, dear lady, interested in the latest fashion? There are the most modern models from London, Paris and New York, and also a number of creations which have been specially designed by Mr. Guilbert Rose, one of Flo. Zeigfeld's chief designers. The Bizarre Parisian Bathing costumes which he has created, are particularly notice able. Do you like Girls? There is the celebrated StuartWhyte Chorus. Mr. Whyte has certainly been picking peaches, a prettier bunch of alluring loveliness it would be hard to imagine. Oh boy, Girls! Do you like beautiful and out of the ordinary scenes? ... would draw your attention to the wonderful Department store scene, with its wealth of richly colored materials and unique arrangement. It is rather difficult to imagine a beautiful department store, but in this, Mr. Whyte's scenic artists have produced something new and at the same time artistic. And then the picture studoi set among the kaleidoscopic coloring of Sunny California all helped out by the ever changing, eye-enchanting lights. And to crown everything and make success a certainty there is Miss Zara Clinton, who has endeared herself to the hearts of theatre goers from Halifax to Victoria. Miss Clinton plays the name part, bringing her charming personality and her wonderful talent to make the "Girl from Nowhere," a lovable, personal, intimate friend. There is a novel ending in a well defined plot, and take it by and large this is probably the biggest, brightest, and best of the Stuart Whyte productions. Don't miss it.

THE MOVIES

AT THE ALLEN.

DOROTHY DALTON IN DRAMATIC PICTURE "GUILTY OF LOVE."

Her Latest Vehicle, Coming Here, was Adapted from Hopwood Stage Play.

Dorothy Dalton in an intensely human drama of domestic life, "Guilty of Love," will be the attration at the Allen Theatre Wednesday and Thursday. The picture was adapted from a successful play by Avery Hopwood.

Miss Dalton has the role of Thelma Miller, a New England Girl, who left penniless by the death of her father, goes to New York and secures a position as governess in the home of the rich Mrs. Watkins. The latter's brother, Norris Townsend, falls in love with Thelma, and his father trying to keep them apart, sends Norris abroad. Upon his return, Thelma is about to become a mother. She compels him to marry her at the point of the revolver, then leaves him. eYars afterwards Noris comes upon her as a school teacher in a little New England town and a dramatic event finally effects a reconciliation between them.

Edward Langford is Miss Dalton's leading man in "Guilty of Love," and the supporting cast also includes Charles Lane and Augusta Anderson. Harley Knoles directed the picture, which is a Paramount Artcraft.

Trait of Imitation Can Sometimes Be Too Strong.

Imitation is the chief guide to Snooky, the Humanzee, who is starred in Chester Comedies and who is said to perform his cleverest stunts in "A Tray Full of Trouble" at the Allen Theatre Wednesday and Thursday. There is a scene in this picture where Snooky swipes a watch from the pawnbroker, one of the funniest of the many comedy hits. This piece of work was finally accomplished for the camera by Director William S. Campbell first going through the motions and then letting the Humanzee imitate him. So far as the picture was concerned, it was perfectly done.

But only a couple of weeks later a distinguished visitor was entertained at the studio. The publicity man thought it a bright idea to photograph Snooky shaking hands with the prominent official. So the right hand of the chimpanzee was placed in the right hand of the visitor and the camera man clicked.

Then, when he went to develop the negative, he saw that Snooky had his left hand in the visitor's vest pocket and so he was able to explain, through the apology of the studio manager, just how the visitor's watch happened to disappear.

HOCKEY RESULTS

The folowing were the hockey results last night:

Northern Hockey League.
St. Patrick's 6—Canadiens 4.
Ottawa 12—Hamilton 5.
Junior O. H. A.
Queen's 6—Cornwall 1.
Senior Northern.
Wiarton 3—Stratford 2.

Falcons 4—Duluth 0.

CY. DENNENAY SCORED SIX GOALS.

Ottawa Indulge in a Scoring Bee at the Expense of Hamilton.

OTAWA, March 8 (Canadian Press).—The rejuvenated Ottawa Senators, confident as a result of their win last Saturday over Canadiens in Montreal, indulged in a scoring bee at the expense of Hamilton Tigers here to-night, and with their old scoring machine—Nighbor, Dennenay, and Darragh—again in top form, found little difficulty in defeating the visitors by a score of 12 to 5.

GREYHOUNDS PLAY GALT TO-NIGHT

SENIOR N.O.H.A. AND INTERMEDIATE O.H.A. WINNERS TO CLASH AT ARENA.

TORONTO, March 8.—To-night, Galt's Intermediate O.H.A. champions, and Sault Ste. Marie, senior Northern Ontario champions, will met at the Arena to decide who will meet Varsity in the Allan Cup elimination contests.

Last year when Sudbury met Collingwood, the impression seemed to prevail that Sudbury should have been declared Intermediate O.H.A. champions, and to have been awarded the trophy which goes with that championship. That impression was still held in Sudbury at the commencement of this season.

As a matter of fact, the games are in reality merely Allan Cup elimination contests. The challenge cups are restricted to the associations by which they are put up, and cannot be taken away from those associations.

ENGLISH CUP DRAW.

LONDON, March 8.—(Canadian Press).—As a result of the draw for the semi-finals in the English Cup football series, Cardiff will play Wolverhampton at Liverpool, and Tottenham will play Preston or Mull on the Sheffield Wednesday grounds, on March 19.

REASONS WHY THE HUNTERS' ASSOCIATION WAS FORMED

WILL PROTECT THE DEER—THE PETERBORO OFFICERS.

One of the newly organized associations in Ontario is the Ontario Hunters' and Game Protective Association. Briefly, the aims and objects of this association, as adopted at the organization meeting, are:

To collect valuable and useful information relating to fish and game for the purpose of sharing same among its members; to protect and propagate fish and game in Province of Ontario; to oppose the enactment of laws prejudicial to the interests of fish and game, and to encourage wise and useful legislation; to assist in the propagating of song, insectivorous and game birds; to prevent malicious destruction of property by hunters and fishermen; to promote a greater feeling of goodwill between sportsmen and property owners in fishing and hunting territory; to promote a healthy interest in scientific angling and shooting and to encourage and hold bait and fly casting tournaments and other contests; to secure just and fair treatment to all hunters and anglers and lovers of woodland sports.

The Genesis.

The Ontario association found its genesis in a similar association formed in Simcoe County on January 13. This later association developed in turn from an organization formed in Midland after the hunt last Fall. The Midland hunters felt that the hunters were not getting a "square deal" in many ways from the Government and that only by concerted action would a remedy be affected. It also had a vision of the work such a body could do along protective lines. Midland association was followed by Allandale, Elmvale, Bradford and other towns in Simcoe County, and finally the county association was formed and called the County of Simcoe Hunters' and Game Protective Association. The following officers were elected:—Digby Horrell (Midland), President; J. S. McDowell (Midland), Secretary-Treasurer; W. C. Davey (Bradford, Ont.), 1st Vice-President; Alfred French (Elmvale), 2nd Vice-President.

"The organization is for the purpose of suggesting to the Government certain amendments to the present game laws with the idea of giving better protection to the game and also fair treatment to the hunter and true lover of Canadian outdoor sport. There seems to be a general feeling throughout Canada that the present existing laws are in some cases a hardship and cause a lot of petty prosecutions," states the circular letter of the Simcoe association sent to well-known hunters of every municipality calling a meeting in Toronto to wait on the Government on Feb. 23.

Act Amended.

The suggestions made by the large deputation of hunters, of which Mr. R. J. Soden of this city was one, that waited on Hon. Mills, Minister of Game and Fisheries, and his Deputy, Hon. McDonald, were several. They asked that Section 13a of the Ontario Game Laws forbidding the killing of deer in water be amended on the grounds that only one deer can be shot by one hunter in a season, and if he prefers to "pot" it in the water, he should be allowed. He would only shoot it on land anyway. Moreover many wounded deer take to the water, and if not killed on the water, would probably escape and die in the bush on shore. The association also requested that a party be allowed to eat venison besides their regular quota while in camp. They suggested that a party of six be allowed one small deer and larger parties in proportion. This amount of meat would be sufficient for the two weeks, it is stated. The practise of killing an extra deer or two for meat is the hunters' common practise, and it is declared that the Government should recognize this and make it legal to shoot an extra deer providing the party has the necessary license. A further suggestion made to the Government was that action be taken to protect the game during the month of June, July and August when the young are being reared by prohibiting the carrying of firearms. "Pot" hunters have cut wide swaths in the game of this country during this period, hunters allege, and urge strenuously that some action be taken.

No definite answer was given to this request.

Deer Season.

The deputation asked that the deer season be made from Nov. 1 to Nov. 16 as formerly. They pointed out that the later season (Nov. 5 to 20) brought the hunters into colder weather and early ice was disastrous to those hunters coming out of their camps in bouts.

They were assured that their request would be granted.

The Government was also advised that a certain organization is trying to put the ban, "Thou shalt not," on hunting with dogs. They impressed the Government with the dangers to human life in "sniping", and the promise was made by the powers that that dog hunting will not be abolished as far as they are concerned.

Predatory Animals.

The deputation asked that bear, fox, weasel, skunk and lynx be taken from the list of fur-bearing animals and a royalty be paid the Golernment on the same. The deputation pointed out that these animals are all predatory and uncommon and hunters should be allowed to shoot them without having a trapper's license as now, but be required to pay the Government a royalty on the pelt.

After waiting on the Government the organization meeting was held and the Simcoe officers were appointed officers of the Ontario association in recognition of their organization work. Tentative plans were made or the formation of associations in every county, each county to have a delegate to the Provincial body so there would be fair representation. Last year there were 18,000 deer licenses issued. There are probably 1,800 hunt clubs in Ontario, but the county associations hope at a conservative estimate to have 1,000 clubs represented in the organizations. Each club will have one delegate to the Ontario body and each delegate will pay a membership fee of $2. Out of the total revenue from this source of $2,000 a permanent official will be maintained at Toronto to watch every move of the Government or other bodies injurious to hunters.

On Friday night last the County of Peterborough Hunters' Game and Protective Association was formed and already 47 members have been enrolled. The aim of the association is 300 members, and it is confidently expected that this will be attained. R. J. Soden is President; C. G. Graham, Secretary; Clint. Coon, Vice-President; L. Hall, Treasurer.

An invitation is extended to all hunters and fishers whether 'free lances" or members of clubs to join their ranks so that the work the parent body has set out to do may be successfully accomplished.

The following is an additional list of new members of the City of Peterborough Hunters' Fish and Game Protective Association: Messrs. John Lumsden, R. J. Soden, Ray Best, Alex. Kay, L. E. Soden and Herbert Hair.

HIS IDEAL
A Massey Bicycle

Leave it to the boy's unerring judgment of a Bicycle and he will choose a MASSEY. As in 1896, the MASSEY still leads.

HELEN DARLING in Christie Comedies

THREE CITIES STARRED GREATEST PITCHERS.

New York, Boston and Chicago Have Monopolized in Ownership of Starriest Hurlers.

(By James J. Corbett.)

It is a rather singular fact that three cities have monopolized in the ownership of the starriest pitchers the game has produced.

Brilliant moundsmen have been developed and cavorted in other pastures. But when summing up the great twirlers of the past and the present, it is discovered that the greatest of them have worn the livery of either New York, Boston or Chicago.

Christy Matthewson is regarded by some as the greatest flinger of all time. And Matty was a Giant. Amos Rusie was another immortal who rose to fame and undying glory in the Gotham uniform. And then there was Tim Keefe, the great pitcher of the olden days and Mickey Welch, another who will never be forgotten.

In the years since baseball began a hundred other pitchers have battled in New York livery and have gained a certain measure of praise. But of all that group—those four—Marty, Rusie, Keefe and Welch—stand out pre-eminently. And not only do they constitute the greatest quartette that ever battled undtr the New York standard, but certainly rise to ethereal heights in the ranking of the truly great.

No pitcher of any era is better remembered than Al Spalding. And Al starred for years with Chicago, after starting his career in Boston. He was Chicago's greatest until, after a lapse of decades, Ed. Walsh came to join the White Sox and Mordecal Brown took his place with the Cubs. That pair disported magnificently over a sweep of years, and their names have been carved imperishably in baseball's hall of fame.

Boston has produced a mighty array of remarkable pitchers. Through more than forty years of baseball warfare John Clarkson, Charlie Radbourne and Cy Young played for the Hub City, to say nothing of Bill Dineen, Joe Wood and other truly greats.

Joe McGinnity, Jimmy Galvin, Jack Chesbro, Deacon, Philipoe, Grover Alexander, Walter Johnson, Nap Brucker, Rube Waddell, Chief Bender, Eddie Plank, Jack Coombs Theodore Breitenstein, Bill Donovan an fifty others have flashed brilliantly in the baseball firmament They, like Addie Joss, Adonis Terry, Charlie Ferguson, Kid Gleason, Sam Leever, Frank Killen Nig Cuppy, Orvie Overall and Jack Pfeister will live always in baseball memory.

But if you were asked to name the ten greatest, don't you think you list would read something like this:

Spalding—Boston-Chicago.
Radbourne—Boston.
Clarkson—Boston-Chicago.
Nichols—Boston.
Young—Boston-Cleveland.
Walsh—Chicago.
Brown—Chicago.
Mathewson—New York.
Keefe—New York
Rusie—New York.

And three cities starred them all—three cities of nearly twenty-five which have been in the big league circuits at one time or another since the baseball organization began.

THE LOCAL FOOTBALL CLUBS WILL PRACTICE ON SATURDAY

LEAGUE EXECUTIVE RECOMMENDS LEAGUE SHIELD AND ONE SET OF MEDALS—REFEREES MEETING NEXT MONDAY—TRANSFERS GRANTED—TEAMS WILL PRACTICE SATURDAY AFTERNOON.

The bi-monthly meeting of the Peterborough Football Association was held last evening in the G.W.V.A. Hall when all the teams in the City League were represented, with the exception of the Caledonian Club. Representatives present were: Mr. George Coleman, G.W.V.A.; Mr. J. Cairns, C.G.E.; Mr. J. Haw, Comrades; Mr. J. Coombs, De Laval; Mr. Joe Worth, Canadian Woollens. Mr. Cook, president, occupied the chair, with Mr. Sid Whatley and Mr. Fred Sutcliffe, secretary, in their respective places.

League Shield and One Set of Medals.

Mr. Cook, president, retired from the chair and made the following notice of motion that will come before the Association at next regular meeting, 'That the winners of the football league be presented with the Frank E. Clark football shields and one set of medals to accompany same. Last year two sets of medals were given — winners and runners-up.

Referees' Meeting Next Monday.

It was unanimously agreed on the motion of Mr. Sid Whatley, "that the whole executive shall compose the examination board of referees." All past and present referees will be notified to attend a special meeting for the purpose of examinations in the G.W.V.A. hall next Monday evening, March 14th. An interesting discussion was particiapted in by the members present and the referees in atendance, Mr. Alex. McKinley, Mr. William Thompson, Mr. Frank McKinley and Mr. T. Hensby, that proved beneficial.

Transefers Granted.

The transfers of Mr. Alex. Morris and Mr. A. Nicholls were granted by the Comrades football club, which now leaves any club to approach them to be a registered player with them, if not already signed. The secretary receivd notification of four new players being registered for the De Laval and expect to have a good team.

Building Teams.

According to reports, the Canadian Woollens have got together a good brand of players for their team this spring. Many city clubs were after the services of Mr. John Swan, newcomer to the city from Scotland, to sign for them, but the Woollens have put one over them through securing the necessary signature yesterday.

Practice Games Saturday.

On Saturday afternoon, weather permitting, the C.G.E. football team will turn out for a full practice game at 2.30 p.m. The De Laval players are requested to turn out on Saturday afternoon for a practice game at 3 o'clock. Any player who wishes to get into the game will receive a welcome from the Comrades' football club on Saturday afternoon when their executive will be right there to sign them on. In all probability the Caledonians will have a practice game on Saturday afternoon. All practice games will be played at the Exhibition grounds.

LESSONS FOR CUP DEFENCE TAUGHT BY MODEL YACHTS WHICH COST $3,000 EACH ON CAPE COD BAY

BOSTON, March 7.—Defence of the America's Cup against the next foreign challenge already has begun, it was announced to-day. Forward looking yachting interests affiliated with the New York Yacht Club have gone further to anticipate another international effort to lift the cup than any previous known attempt to work out yachting strategy or design.

Two model yachts, built to a size and in details unequalled by any working models known, were the mediums of research tests, the results of which probably will be reflected in the next races for the classic cup. The models, representing different theories of construction and rig, were matched against each other under all kinds of wind and weather in the isolated waters of Cape Cod Bay, off Provincetown, in a series of races that extended through several months of the fall and early winter.

The results are not now divulged, nor is the source of the large sums that were spent on the construction and operation of the miniature yachts made known. The models have been shipped to the New York Yacht Club for safekeeping and exhibition and the data is held by W. Starling Burgess ,the naval architect and builder, who designed the boats and supervised their sailings.

Lessons Stored Away.

He says that the lessons learned in the tests will be held against the time that America's possession of the famous cup again is challenged He would say further only that they were extremely interesting

The models were nine feet long, the masts stood fifteen feet high and the boats were built with othr dimensions proportionate to America's cup sloop specifications. In length they were approximately one-tenth the size of the Resolute. The models cost $3,000 each to build. They weighed between 200 and 300 pounds.

The little yachts for the purposes of tests were made to represent opposing ideals in sloop architecture and were changed from time to time to try out new possibilities of sail plan and boat balance. One carried an approximately normal spread and rig of sails during most of the tests. The others usually was a freak of sail area and arrangement that brought into play varying possibilities and theories.

The trial races, which were held over a three-mile course, attracted much attention among the fishermen of Provincetown. The models were so keenly drawn that they sped on reaches fast enough to require use of a motor boat by those conducting the tests.

Marvelled at Their Work.

Fishing captains who turned out as unofficial observers to watch the racing spectacle and to criticize the points of sailing, marvelled at the realistic manner in which the research work was done.
